The Government should look at ways for pruning subsidy. Indeed, there is scope for substantial curbing of PIFP. But that will not be possible without the existing dispensation of food at subsidised cost being eliminated.

The income-tax involving the liability of tax to BCCI needs to be re-examined even though it is registered as a charitable body.

The expenditure on food subsidies (including tax) was Rs 23,400 cr in 2019-20, Rs 24,000 cr in 2020-21 and Rs 22,200 cr in 2021-22. The food subsidy budget allocation in 2022-23 is Rs 12,700 cr. This aggregate covers all the years.

The present coverage is 820 million people through the Public Distribution System (58 per cent of the population) and 120 million beneficiaries through the National Food Security Act (32 per cent of the population).
