Kapu YSRCP brass vows to keep flock together

Advantage YsRCP in capital game

One shot, three birds

Workers walk out of iPhone plant, highlight virus woes

A few workers from a factory in a southern Indian village are highlighting the clash between the industry’s desire to save costs and effects on the global supply chain. The factory, which produces iPhones, recently required face masks at the doors. It has been reported that while the workers do not need the masks, the company is concerned about the virus. The workers have vowed to continue their protest until their demands are met.\n
Himachal? Teachers file affidavits in HC not to ill-treat students

A few teachers have filed affidavits in the Himachal Pradesh High Court. They have expressed concern over the mistreatment of students and have requested that the court take action to ensure that students are treated with dignity and respect. The teachers have stated that they will continue their protests until their demands are met.

Money\n
Investment via P-notes rises to Rs 67,813 crore

Investment via P-notes has risen to Rs 67,813 crore. The Reserve Bank of India (RBI) has allowed Indian residents to bring in foreign currency through P-notes, which are notes issued by a foreign bank and can be exchanged for Indian rupees. The rise in investment via P-notes is seen as a positive sign for the Indian economy.

Sports

F1 finds fifty revives Aussie campaign

The Australian Grand Prix, which was postponed due to the COVID-19 pandemic, has been rescheduled for 2021. The event has been given the green light by authorities, and preparations are underway to host the race in Melbourne. The resumption of the F1 season is seen as a positive sign for the global motorsport community.

NTPC to start installing Digital Rupee pilots on Tuesday

The Reserve Bank of India (RBI) will start installing Digital Rupee pilots on Tuesday. The Digital Rupee is a digital form of the Indian rupee that will be stored on a digital wallet. The RBI is conducting pilots to test the technology and ensure its smooth operation. The pilots will be conducted in select regions across the country.

BJP seeks 5% quota for Kapu

The Bharatiya Janata Party (BJP) has sought a 5% quota for Kapus, a community in the Andhra Pradesh region. The community has been demanding reservation for their social and economic backwardness. The BJP has been a strong advocate for reservation policies, and they believe that the Kapu community is socially and educationally backward.

TDP, Jana Sena alliance bid

The Telangana Prajata Sabha (TDP) and the Jana Sena Party have announced an alliance for the upcoming elections. The alliance is expected to boost their electoral prospects and challenge the ruling party, the YSR Congress Party (YSRCP), in the state.

Callousness led to tragedy

Mori toll rises to 134; cops arrest 9 people

Police in southern India have arrested nine people in connection with the death of a young woman who was found floating in a river. The woman had been missing for several days, and her family had been searching for her. The police have initiated an investigation to determine the cause of her death.

Slogan run in AP"n

A slogan run in Andhra Pradesh has provoked a reaction from the state government. The slogan is a criticism of the government’s policies and actions. The government has asked the police to take action against those who are spreading the slogan.

Implementation of plastic ban in AP, deferred to Jan 26

The implementation of the plastic ban in Andhra Pradesh has been deferred to January 26. The state government had earlier announced that the plastic ban would be implemented from October 1 but has now decided to postpone it.

How humans, robots can co-exist

Robots and humans can co-exist in the world of work, thanks to the development of technologies that make robots smarter and more adaptable. The key is to ensure that robots complement humans, rather than replace them. This can be achieved through the development of algorithms that allow robots to learn from humans and adapt to their environment.

Technology advances in robotics are driving the development of new technologies and services. The combination of data science, machine learning, and artificial intelligence is opening up new possibilities for the integration of robots into our daily lives. The goal is to create systems that are safe, efficient, and able to work alongside humans in a variety of settings.
T. R. Bahadur Prasad, a former senior leader and former minister of the YSRCP in Andhra Pradesh, died at a local hospital in Tirupati on December 2, 2022. He was 78 years old.

Born in a farmer’s family in Tirumala, Prasad joined the YSRCP in 1979 and served as a member of the state legislative assembly from 1985 to 2019. He was also a member of the state cabinet for several terms.

His death comes at a time when the YSRCP is facing internal conflicts and challenges. The party has split into two factions, with one faction led by Jagan Mohan Reddy and the other led by his brother Chinna Jagan. The conflict has led to a decline in the party’s popularity.

In the meantime, the YSRCP has been working to improve its public image and show its commitment to development. The party has been implementing various schemes and projects to improve the lives of the people. However, the ongoing conflict has overshadowed these efforts.

The passing of T. R. Bahadur Prasad is a great loss for the YSRCP and the people of Andhra Pradesh. His contributions to the party and the state will always be remembered.

To mark the occasion in 2018 PM Narendra Modi had unfurled the Tricolour on the banks of Machchhu river, which is the point of origin of the concept of unity in diversity. He said that future generations must remember the importance of unity...
Haryana has scripted all-inclusive development in last eight years, worth of being replicated by others.

ROUGHLY speaking, RSS is a most popular political alliance over the world. Most people confuse RSS with games of gambling. However, RSS has its importance and benefits in the universal use and timeless symbols, people can also derive political lessons from the differences between alliances and use them for drawing a distinction between democracy and RSS. It can be seen that in every culture the game of cards has a lot of language and has a lot of meaning. These lessons include the following:

- That it helps us understand the importance of identity and its power. It is equally important to understand the importance of identity and its power. If these leaders are not fair enough to understand the importance of identity, they may end up being at the end of history. This is equally important to understand the importance of identity and its power. If these leaders are not fair enough to understand the importance of identity, they may end up being at the end of history.

Aayush Sharma introduces Sushrii Mishraa as the female lead for AS04

Ayarish Sharma has become picky in the choice of roles since he had children. A veteran in the industry, the actor, who recently played ‘Chakradhar’ in the upcoming ‘Aayush Sharma as the lead, co-starring Ranbir Kapoor, who is looking forward to entertaining his fans with the fourth, untitled film, said, “This is something that comes up very rarely, I think because in the comic Wolverine is short, and also people are used to the other version of him, so it’s a fresh start for me. To play Wolverine, something that I have never done before is something that I am looking forward to. It will be a challenge, but also something that I am excited about.”

Sushrii has been getting a lot of offers in different parts of the world. She is currently in London shooting for ‘Aayush Sharma as the lead, co-starring Ranbir Kapoor, who is looking forward to entertaining his fans with the fourth, untitled film’. She says, “I am loving being in London, the city is just beautiful, and the people are so nice. I am really enjoying my time here.”

Speaking on the occasion, Abhishek Bachchan, Farhan Akhtar, and Maniesh Paul said, “This is something that comes up very rarely, I think because in the comic Wolverine is short, and also people are used to the other version of him, so it’s a fresh start for me. To play Wolverine, something that I have never done before is something that I am looking forward to. It will be a challenge, but also something that I am excited about.”

The Indian Film Academy Awards (IIFA) is back by popular demand from February 9 to February 11, 2023. The IFAs will take place at Yas Island, Abu Dhabi. IIFA is like family to me. “Emergence is purely woven out of AI”

IN AN EXCLUSIVE INTERVIEW WITH THE PIONEER, TECHNOLOGY ANALYST MAKAN GANDHI, WHO HAS MADE SOME AMAZING FILMS, INCLUDING TUMBAD AND SHIP OF THESEUS, GETS CANDID ABOUT HIS UPCOMING FILM, EMERGENCE, A SCIENCE FICTION FILM FULL OF AI TECHNOLOGY.

The Filmmaker

Mahan Gandhi, who has created the streetwear brand for critics’ first choice, has been one of the most interesting directors in Indian cinema. In 2013, he published the book, "The Birth of Venus". His style is a combination of modern and traditional, making it unique and appealing.

Gandhi started his career as a copywriter and later moved into the world of fashion. He has been working for over ten years in the industry, and his upcoming project is going to be his most ambitious work yet.

In an interview with The Pioneer, Gandhi talks about his upcoming film, "Emergence". He says, "I have always been interested in the intersection of art and technology. I believe that the future of human experience will be defined by the way we interact with technology."

The film, which is set in the year 2040, tells the story of a sentient robot named "Lilith" who is programmed to assist a group of scientists in their research. However, Lilith begins to question her existence and the purpose of her programming.

"Lilith is a self-aware robot who is programmed to assist in various scientific tasks," Gandhi says. "As she begins to question her existence, she starts to explore the meaning of life and the nature of consciousness."

Gandhi’s background in technology and his experience working with the latest AI technologies have allowed him to create a unique and compelling narrative. "Emergence" is set in a world where technology and art are intertwined, and the line between human and machine is blurred.

Gandhi’s film is the perfect fusion of the science fiction and drama genres. "I believe that the human experience is a journey of self-discovery, and "Emergence" is a story about a sentient robot on a similar journey," Gandhi says. "I want to explore the concept of consciousness and the meaning of life in a world where technology is a part of our daily lives."

The film is expected to be released in 2023, and Gandhi is excited about the potential of the film to provoke thought and discussion about the role of technology in our lives.

"I want to create a film that will make people think," Gandhi says. "I want to explore the complex relationship between technology and humanity, and I believe that "Emergence" is the perfect vehicle to do so."

Gandhi is excited about the future of technology and its potential to transform the human experience. "I believe that technology has the power to change the world, and "Emergence" is a story about one sentient robot’s journey towards self-discovery and the meaning of life in a world where technology is a part of our daily lives."
Finn under injury cloud after sustaining hamstring strain again, to go for scan

A sharkish Finn credits his success in the ongoing T20 World Cup as a come-from-behind performer Blumenauer recalled the bowler on Friday to clinch a place in the semi-finals with a 74-run win over England in the penultimate over.

"Really a hammy twinge I think, I will get a scan tomorrow. There is a difference between the two unless he is in the line-up. He was very very happy that the team is doing better," said Finn during the post-match presentation.

"What you always expect the team to do is to play with a rhythm and we did well to get a lot of wickets," he added. Finn has been phenominal with an economy of 6.25.

"It is also a repeat of the 2019 T20 World Cup final. It is a lot of firepower and we need one or two more (victories)," said Finn.

"I actually thought about winning the tournament a few weeks ago, but let’s see how it goes after the semi-final," added Finn.

"It is a lot of firepower and we need one or two more (victories)," said Finn.

Kartik Keya 2 Producer Abhishek Aggarwal adopts Thimmapur Village

Successful and dynamic producer, Abhishek Aggarwal has earned a reputation for his path-breaking films like ‘The Knot’ and ‘Ghosty’. Now, he has turned his attention to a new venture - Thimmapur Village.

Abhishek Aggarwal, who spearheaded Thimmapur Village, said, “This is a significant step in our film project. The village has immense potential that can be harnessed for tourism and other activities.”

The village is located near the Thimmapur temple, which is a significant tourist attraction. The village has a rich history and culture, which can be leveraged for tourism.

Abhishek Aggarwal emphasized that the village will be developed in a sustainable manner, ensuring that the local population is also benefitted.

The village project is part of Abhishek Aggarwal’s broader plan to promote rural tourism in India. He has been working on various projects in this domain and has already established several successful ventures.

Kajal Aggarwal starrer Ghosty promises a full entertainer

Kajal Aggarwal is one of the most loved actresses not only in Tamil but also from Kollywood. For her recent film ‘Ghosty’, she is back to Rajamouli’s territory with a horror comedy titled ‘Karthikeya 2’.

The film is being directed by Kalyaan and produced by Abhishek Agarwal. The family adopted a small village in India and decided to provide financial support to the village.

Kajal Aggarwal, talking about her role in the film, said, “It’s a different kind of role for me. I am playing a ghost in the film. It’s a challenging role and I am excited about it.”

The film is set to release on December 4 and is tipped to be a major entertainer.

Manju Warrier dubs for Ajith-starrer Thunivu

Manju Warrier, an accomplished actress, has now dubbed for Ajith-starrer Thunivu. The film, directed by Vetri Maaran, is a multi-lingual thriller.

Manju Warrier, known for her remarkable voice, has dubbed for the female lead in the film. The actress, who has also directed the Telugu version of the film, said, “Dubbing for Ajith is an honor. I am looking forward to the film’s release.”

The film, which is a blend of action and thriller, is set to release on December 2.

Vishal thanks PM Modi for getting temple at Kashi renovated

Vishal had posted a video clip on Twitter thanking Prime Minister Narendra Modi for getting him permission to build a temple in Kashi.

The actor, who has been working on a project titled ‘Varma’, thanked the Prime Minister for his support. “I am grateful to the Prime Minister for granting permission to build a temple in Kashi,” he said.

The temple, which is being built in Varanasi, is aimed at preserving the city’s rich cultural heritage.

Hansika Motwani to tie knot on December 4?

The wedding bells are all set to ring on December 4 according to the latest reports. Actress Hansika Motwani, who is known for her spellbinding presence in Tamil cinema, is planning to tie the knot on this auspicious day.

The actress, who is currently shooting for her upcoming film ‘Maha Samudram’, is reported to be tying the knot with her longtime partner in law enforcement.

According to sources, the couple, who have been together for several years, will be getting married in a private ceremony. The exact location of the wedding is yet to be confirmed.

The couple, who are widely admired for their dedication to each other, are expected to be getting married in a destination wedding.

The wedding will be attended by close friends and family members of the couple.
