EU MOVES TO BAN PRODUCTS MADE WITH FORCED LABOUR
T he European Union (EU) is considering a proposal to ban products made with forced labour, in an effort to combat human rights abuses.

The plan, which is being discussed by EU officials, would introduce a system to verify that products are not made with forced labour, and would allow consumers to choose products that are free from such labour.

The proposal would also require companies to provide details of their supply chains, including their suppliers and subcontractors, and to disclose any instances of forced labour.

The EU hopes that the new rules will encourage companies to take steps to prevent forced labour in their supply chains, and to support efforts to end forced labour practices.

The proposal is part of the EU’s broader efforts to combat forced labour, including its recent decision to impose sanctions on Turkey over its treatment of Uighur Muslims and other ethnic minorities.

The EU is also working with other countries to combat forced labour, including its recent agreement with the US to establish a joint task force to combat forced labour in its supply chains.

The proposal is currently being discussed by the EU’s trade ministers and is expected to be adopted by early 2023.

The EU’s proposal follows similar initiatives by other countries, including the US and Canada, which have introduced measures to combat forced labour.

The EU’s proposal would also be part of a wider effort to combat forced labour, including its recent decision to impose sanctions on Turkey over its treatment of Uighur Muslims and other ethnic minorities.

The proposal is currently being discussed by the EU’s trade ministers and is expected to be adopted by early 2023.

Chandrababu invited to Assembly to discuss Polavaram mistakes

In the wake of recent developments in the Polavaram project and the ongoing conflict between the two parties, Chandrababu Naidu has been invited to the Assembly to discuss the matter. The TDP government has taken several initiatives to ensure the smooth functioning of the project, but the TDP has been critical of the government's approach. Chandrababu's visit to the Assembly is expected to provide a platform for discussion and resolution of the issues at hand.

West Godavari beat Prakasam by 7 wickets

A day after the Polavaram project was inaugurated, the West Godavari cricket team defeated Prakasam by 7 wickets in a local cricket match. The match was held at Mulapadu and was attended by a large crowd. Both teams performed well, but West Godavari's batting and bowling were the deciding factors in the match. The victory will boost the morale of the West Godavari team and provide them with much-needed experience.

SV Arts College bags prestigious NAAC A+ recognition

The SV Arts College has been ranked among the top 10 colleges in India, according to a recent survey conducted by the National Assessment and Accreditation Council (NAAC). The college has been awarded an A+ grade, which is the highest grade awarded by the council.

Parthasarathy questions TDP high command's role in Amaravati row

Parthasarathy, a TDP leader, has questioned the high command's role in the ongoing row over the capital city. He alleged that the then minister had trodden the path of hate politics and had insulted the people of the state. The minister questioned the TDP high command's role in the row and alleged that they were ready to prove their intentions by reallocating the capital city.

A row of public properties were demolished in Kolkata and West Bengal on Wednesday, police said. The demolition was carried out in al loose with the assistance from the Kolkata Municipal Corporation.

The demolition of the building was carried out by the West Bengal police in accordance with the orders of the High Court. The demolition was carried out in the public interest, according to the police.

17 fined in Delhi for not wearing seat belts in rear

National Commission for Women (NCW) chairman Maneka Gandhi on Wednesday directed officials to keep vigil on drivers not wearing seat belts in their vehicles. She said that a fine of Rs 1,000 should be imposed on them.

“NCW has received numerous complaints from women and children about the absence of seat belts in the rear of vehicles,” Gandhi said. She added that the commission had received multiple complaints from women who were not wearing seat belts, especially in the rear of buses and other public transport vehicles.

Hindi in Dakshin Bihar

Hindi is a contentious issue down south. It must be handled with dexterity and patience.

September 14 is celebrated as Hindi Diwas across the country. It was on this date, in 1944, that Hindi became one of the official languages. The Constituent Assembly, in its 13th session in September 1949 adopted Hindi as an official language to be written in Devanagari script. It was then Prime Minister Pandit Nehru who decided to celebrate the day as Hindi Diwas, though he himself was not very conversant in the language. This is the day that Hindi lovers celebrate to make their point that Hindi is an integral part of India’s rich cultural heritage.

The debate over Hindi as a common language of the country has thus been revived as the BJP has added it to its electoral agenda. In a recent article published in a newspaper, former Chief Minister of West Bengal Adhir Ranjan Chowdhury, who is a senior leader of the TMC, has written that the BJP is trying to “poison the well” by raising the issue of Hindi.

In this article, we will explore the implications of Hindi being made the official language of the country, its potential impact on the multi-lingual ethos of India, and the role of the education system in promoting linguistic diversity.

Hindi being made the official language of the country could have several implications. It could lead to a decrease in the use of other languages, such as Tamil and Telugu, which are also spoken by large sections of the population. It could also lead to a loss of linguistic diversity, which is an important aspect of India’s cultural heritage.

However, there are also positive aspects to Hindi being made the official language. It could provide a common platform for communication across the country, which could lead to greater social integration and understanding.

In conclusion, the decision to make Hindi the official language of the country is a complex one, with both positive and negative implications. It is important for the government to take a balanced approach and ensure that the rights of all language groups are protected and respected.
The European Union and other western countries still believe that sanctions can be substituted for military strategy despite paying heavy economic costs.

The EU bloc has ambitious plans to reduce its dependence on Russian energy. It has put in place a series of sanctions and is now planning to impose new ones by the end of 2022. The bloc has also announced plans to put a price cap on the sale of Russian oil in order to limit its LNG supplies to those countries. This means that India has to act quickly to buy as much oil as it can and purchase it from the spot market. It will be necessary for supplies to extend from the long-term contracts as usual.

According to a report by the Centre for International Relations and Energy, India's imports from Russia plummeted from 49.8% in 2014 to 3.3% in 2022. The bloc has also imposed sanctions on Russia, which has resulted in a significant decrease in oil prices. This means that India has to act quickly to purchase as much oil as it can and purchase it from the spot market. It will be necessary for supplies to extend from the long-term contracts as usual.

Govt reducing compliances in food processing sector: Union Minister

The government is focusing on reducing compliances to promote the food processing sector, said Union Labour Minister Prahlad Singh Patel.

Addressing the 14th HFC Convention 2022 of the Confederation for Food Businesses (CFOB) in New Delhi on Wednesday, the minister underlined the need to enhance the marketing of the food processing sector and promote the food industry in India and export it to the world.

He further said that the inclusion of the food industry in the world market will help further stabilize the existing supply chain. He added that the government is reducing compliances to support the industry and workers.

The minister added that the government is committed to reducing the cost of compliance and the time required to comply with rules and regulations.

India must target 100% electrification of two- and three-wheeler in four years

India must target 100% electrification of two- and three-wheeler in four years and reduce dependence on oil and gas, Union Minister for Chemicals and Fertilizers, Mansukh Mandaviya, said on Wednesday.

Addressing the inauguration of an automotive component park at Visakhapatnam, the minister said the government has established an automotive component park in nine cities across the country to encourage the development of the automotive component industry.

The minister said that the government has taken several initiatives to promote the automotive component industry and has set a target of achieving 100% electrification of two- and three-wheeler in four years.

ERP rush to stop 35 paisa against US$, relief for rate hike fears

India’s rupee is likely to decline by 35 paisa against US$, according to a Reuters poll released on Wednesday.

The rupee declined by 35 paisa against US$, reflecting risk-off sentiment in the exchange market, the domestic equity markets also hit by the same.

Foreign fund inflows and losses on dollar-denominated foreign debt markets also hit the rupee sentiment.

According to the Reuters poll, the Rupee is likely to decline for the third straight session, as most respondents expect the rupee to decline by 35 paisa against US$.

WPI inflation eases to 11-month low at 12.41% in August

The wholesale price index (WPI) inflation eased to 11-month low at 12.41% in August from 12.55% in July, according to government data released on Wednesday.

The core WPI inflation, which excludes food and fuel, declined to 9.5% in August from 9.8% in July. The core inflation is a better indicator of underlying price pressures.

Digital engineering to grow substantially: Report

Digital engineering to grow substantially, according to the report released by the National Association of Software and Services Companies (NASSCOM) and CBRE India.

The report said that the digital engineering market is expected to grow at a compound annual growth rate (CAGR) of 15% from 2021 to 2026.

Analysts see RBI delivering another 35-40 bps rate hike on Sep 30

The price index surging on this front, Aug month, many analysts have predicted a higher inflation rate, which has accordingly the central bank to frontload rate policy, delivers auto 25 bps hike last 20 Seen month. Controlling the swells on the inflation from inflation to acceleration from rising fuel prices to inflationary pressure from rising commodity prices, the NovemberInflation this month significantly higher than expected and August stock market.

RBI, on the other hand, has raised rates by a cumulative 50 basis points this year, with the repo rate at 6.5% and the reverse repo rate at 6.9%. The central bank has hinted at further rate hikes if inflation remains high.

India likely to fall vacuum created by Lankan tea output

India is likely to fall in the vacuum created by Lankan tea output, with Sri Lanka accounting for 85% of total Indian tea imports.

India’s tea production last season was reportedly the highest in four years, but uncertainties over the current season's tea output have increased due to the ongoing drought conditions in southern India.

Ryan Reynolds undergoes ‘life-saving’ colonoscopy

Hollywood star Ryan Reynolds had an "extremely subtle polyp" removed in a "life-saving" colonoscopy, the Deadpool actor said, as he revealed the procedures with his friend Rob Delaney.

Delaney, who has cerebral palsy, announced on social media that he had undergone a colonoscopy for cancer.

"We will ask her about her relationship with Rob and the gifts, and items which she received from the contract," Chandrashekhar said.

"This was potentially life-saving for you, I'm not kidding, I'm not being overly dramatic. This is exactly what you do. This is your right," Poitras said.

The actor, who underwent the "life-saving" colonoscopy for "providing a platform" for Clinton, added: "It's a simple step that could literally, and in a very direct sense, save your life."
This week for the special edition of *The Pioneer* Community Wise, we bring to you the story of D’Kommunitee, an open community space for our LGBTQ friends in a true sense.

**K. RENJAN SREE**

A recent survey has revealed that more and more people are realising the benefits of using aromatherapy from ancient times in their lives at the present.

Today, we have a multitude of food blogs and video content on social media, which has made it easier for us to maintain our health. The concept of aromatherapy can be found in many of these videos, and even on YouTube, who has recently grown in popularity. The young woman is a food-lover, a YouTuber, and a content creator, who began her journey in this creative field two and a half years ago.

She shares, “I have always been enthusiastic about trying new foods, particularly the fusion menus on the options. Beginning with her journey, she decided to share the *Pioneer* in her social media platform. She discovered a new passion for making use of aromatherapy, which is the use of essential oils to improve mental and physical well-being. She soon started creating content related to aromatherapy, the use of essential oils in cooking, and sharing her experience with others.

The uses of essential oils are varied. They can be used as a base for massage oils, diffusers, or as a spray. Essential oils can be used to improve physical and mental well-being. They can also be used to improve the aroma of a room, and can be used to create a relaxed atmosphere. Some of the common oils used in aromatherapy include lavender, rosemary, bergamot, and eucalyptus.

**Life of Muthu**, which was all set to hit the theaters on September 15, has now been postponed to September 17. As the makers and also the audience are excited about the release, director Gautam Vasudev Menon shares some exclusive tidbits about the movie.

**AMARTYA MIRAHAN**

**Director Gautam Vasudev Menon**

is known for his impeccable sensibilities, aesthetics and integrating soothing romantic songs with his pictures like **Ghajini**, **Vettaiyaadu Vilaiyaadu**, **Baar Baar Dekho**, **Achcham Yenbadhu Madamaiyada**. He is now all set for his coming release **Vinnaithaandi Varuvaayaa** aka Life of Muthu.

During a press meet, the **Ghajini** director shared his experience working with **Amitabh Bachchan**, **Alibaug** man **Rahman**, and also other crew working on the set. He said that the first shot that was shot on the set was when he was shooting on the beach for **Vinnaithaandi Varuvaayaa**.

When asked about the freedom he gave the actors with their likes, **GVM** explains, “The problem with my brass or dialogues is that when they are not said in a certain way, they don’t translate the meaning on screen. I experienced something similar earlier, and I was like ‘I don’t micro-control then the brass; I won’t say anything’. I step back to see how they perform it. If what I have in mind, I keep it sometimes, and it goes at times. I want the actors to step close to them, as possible.”

The director has a special fan club for the role of the actress and the crew. “I love the work of the director and the actress,” Menon said. He recalled how **Vijay** author **Puriyaadham** called and said that there was tremendous consistency with the Tamil trailer. “I felt the film was falling in place. Then, when I got it… Now I have the film!” For the other supporting crew, **Rahman**, and the other supporting cast, “I understand each other, the director is with me. The youngster is hesitant about conveying something to his fans and the latter asks if he has any problem. A sequence of scenes faces the girl concept in a cut-out, and the actor is totally in his own rage.”

“As an actor, I have not had such a character. The director has a sense of **readie** between the lead pair. It is all set to change the faces again with the latest addition of the hero. For the first time, the director has shown the difference of the grandmother in the role of a bouncer. It is a character which won the hearts of many. The filmmaker wanted to take the audience on a journey of characters on regular settings.”

The last few theatrical releases of the **Life of Muthu** team, **Vettaiyaadu Vilaiyaadu**, **Baar Baar Dekho**, **Dance Ikon**, and **Putham Pudhu Kaalai**, which will definitely score the marks for this film, which has been produced by **Santhosh Anandram** and **Anirudh Ravichander**.

**Anupama signs Ravi Teja’s next?**

The Abhishek Bachchan starrer **Dhoom:3** and family entertainer **Nenu Meeku Baaga Kavalsinavaadini**, starring **Raj Tarun** and **Teja**, have been cancelled. Meanwhile, **Anupama Hegde**, the leading lady from the **Babli Bouncer**, was in discussion with **Karthik Reddy**, who directed **Babli Bouncer**, for the female lead from the **Tamil** film **Vinnaithaandi Varuvaayaa** aka **Life of Muthu**.

**Ramya Krishnan debuts as judge**

**Tamilnanna learnt riding a motorbike, beatboxing for Babli Bouncer**

**Karan Arjun Sharma** starrer **Babli Bouncer**, which is being produced under **1 Nara** banner and **S step Studios**, is now all set to hit the theaters on September 15. The film is a combination of two stories; one is **Life of Muthu**, the other one is **Karan**, and the protagonist can be seen in a dangerous and dramatic avatar, donning a **Babli** avatar, which has been produced by **Santhosh Anandram** and **Anirudh Ravichander**.

The emotion of **NAMJ** will definitely connect with the audience: **Kavin**

Young and talented actor **Karthik Raji** has roped in for **Babli Bouncer**, the upcoming crime drama of **Raj Tarun**. On Wednesday, the maker has shared the first look from the film. In the picture, you can see Karthik in a dangerous avatar, donning a demon style and Mickey crossover. He is holding a hammer in his hands, and his gaze gives a chill down through his piercing eyes. **Kavin** said, after noticing the look in the film, the actor will ensure an action packed role in the film. His next, **Sethurama Yagnamukham**, is also a crime drama, and the shoot has begun. **Kavin** has already been seen in multiple languages including **Telugu**, **Tamil**, **Malayalam**, and **Kannada**.
