# Amit Shah dares Pakistan on Pok

PIONEER NEWS SERVICE **NEW DELHI** 

Home Minister Amit Shah thundered categorically in Parliament on Wednesday, declaring, "PoK is ours." His statement was met with a huge round of applause from the members in the Lok Sabha. justifying

reservation of seats from the

PoK region in the Jammu and Kashmir Assembly, the Home Minister blamed India's first Prime Minister Jawaharlal Nehru for two major blunders declaring a ceasefire without winning the entire Kashmir and taking the issue to the United Nations. These,

he argued, have resulted in the sufferings of the people of Jammu and Kashmir over seven decades. Replying to a debate in the Lok Sabha on the Jammu and

Reservation Kashmir (Amendment) Bill and the Kashmir Iammu and Reorganisation (Amendment) Bill, Shah said if Nehru had taken the right steps, a large chunk of territory would not have been ceded and Pakistanoccupied Kashmir would have been part of India.

"I support the word that was used here — Nehruvian blunder. Because of the blunder that was committed during the time of Nehru, Kashmir had to suffer. With responsibility, I want to say the two big blunders that

Jawaharlal Nehru, happened due to his decisions, because of which happened due Kashmir had to suffer for years," Shah said.

"Kashmir had to suffer due to Nehruvian blunders. One was that when our Army was winning and as soon as Punjab area was reached, ceasefire was declared and Pakistan-occupied Kashmir was born. If the ceasefire would have been (declared) three days later, PoK would have been part of India," the Home Minister said. The ceasefire made without

winning the entire Kashmir was one "blunder" and the other was taking the issue to the UN. There was an uproar by the

Opposition benches over the remarks on Nehru and they staged a walkout but returned

After their walkout, BJD leader Bhartruhari Mahtab said the Home Minister should also talk about the "Himalayan blunder", a reference to Nehru's actions leading up to the war with China in 1962.

Shah quipped that his talking about two blunders had upset the Opposition benches and if he had used the phrase "Himalayan blunder", they would have resigned.

Lok Sabha Speaker Om Birla said the remarks made were not an insult to anyone and matter was taken to the UN in the UN Charter," he said,

asserting that he of course believes that the issue should not have been taken to the UN in the first place. Shah also quoted Nehru as

saying later that the ceasefire was a "mistake". Shah said it was not Nehru's mistake but a "So much land of this country was lost, it was a

historic blunder," the home minister added.

"Those holidaying in England will not notice any change in Jammu and Kashmir," he said, in sarcastic way, hitting former Chief Minister Farooq Abdullah, who was raising questions frequently. Shah said when terrorism

started in Kashmir, people were targeted and they had to flee. "I have seen many leaders who shed crocodile tears and consoled well with words. But Modi is the only leader who has worked to wipe out their tears," he said. He said about 46,631 families and 1,57,967 people were displaced in their own country and were displaced in such a way that they were uprooted from their own homeland and this Bill is going to give them rights and representation.

He said after the delimitation exercise in Jammu and Kashmir, there will be 43 Assembly seats in Jammu region — up from present 37 and in Kashmir Valley it will be 47 from 46.

midst the parley at the highest Allevel of the party regarding the naming of Chief Ministers for Madhya Pradesh, Rajasthan, and Narendra Singh Tomar and Prahlad Singh Patel resigned from the Lok Sabha on Wednesday. The BJP has decided that all 12 of its MPs recently elected to State Assemblies will resign from Parliament to join the new Governments in the Hindi heartland.

Three BJP MPs contested in the Telangana Assembly, where the Congress catapulted to power; thus, they continue to hold their Lok Sabha membership.
With this the BJP's tally in the Lok

Sabha has come down to 292 and in the Rajya Sabha one down with 93 members. Sources in the Government said all three Union Ministers will also be quitting the Modi Government as a procedural formality. The move has given rise to the view that the party leadership may bring in new faces at the helm in all the three States. With the Lok Sabha elections less than five months away, the party is likely to send a larger message about its social agenda with its chief ministerial choices.

Sources also did not rule out the possibility of having Deputy Chief Ministers in the States to balance social equations and enhance administrative effectiveness.

The BJP swept to power in the three Hindi-speaking States, dismissing the challenge from the Congress in all of them as it raced to a two-thirds majority in Madhya Pradesh and comfortable majority the Congress-ruled Chhattisgarh and Rajasthan in the polls where Narendra Modi and his guarantees powered its campaign.
BJP president JP president

accompanied 10 of them as they tendered their resignations from Parliament.

Two others, Union Minister Renuka Singh and Mahant Balaknath, will also be quitting, party leaders said. Other MPs who Singh and Riti Pathak from Madhya Pradesh; Kirodi Lal Meena, Diya Kumari and Rajyavardhan Singh Rathore from Rajasthan and Gomati Sai and Arun Sao from Chhattisgarh. All except Meena are Lok Sabha members. Meena is a Rajya Sabha member.

Patel said the 10 MPs took Modi's blessings before tendering their resignations. The BJP
Parliamentary Party will hold its
first meeting during Parliament's
Winter Session on Thursday and is
likely to felicitate Modi for leading

the party to massive wins in three Assembly polls.

The BJP Parliamentary Party, which includes all its Lok Sabha and Rajya Sabha members, generally meets every week during the session. In the meetings, its leaders, including Modi, speak on different issues germane to the agenda in Parliament and also to its organisational and political

**PTI** ■ JAIPUR

Markets were closed in Jaipur and some other Rajasthan districts and protesters blocked roads and stopped trains on Wednesday after a bandh call by the Rashtriya Rajput Karni Sena over the killing of its chief Sukhdev Singh Gogamedi.

Governor Kalraj Mishra spoke to Union Home Minister Amit Shah over the phone and summoned the State Chief Secretary, Home Secretary, Police chief and Jaipur Police Commissioner to review the law and order situation in the State.

The police set up a special investigation team (SIT) to probe into the killing of the Rajput leader who was shot dead by two men at his house here on Tuesday. They also killed an "accomplice" who had accompanied them to the house.

On Facebook, gangster Rohit Godara — said to be linked to the Lawrence Bishnoi gang – has claimed responsibility and said Gogamedi was killed for

"backing" his enemies. The police have identified the two alleged killers as Rohit Rathore from Jaipur and Nitin from Fauii Haryana's Mahendragarh, announced a cash reward of ₹

5 lakh for information leading to their arrest. Markets remained closed in

Jaipur, Kota, Bundi, Ajmer, Madhopur, Chittorgarh, Jhalawar, Baran and some other districts while a mass rally was taken out in Udaipur and a demonstration was held at the collectorate circle amid heavy deployment of police.

# Gujarat's Garba finds a global audience

ARCHANA JYOTI NEW DELH

Garba, an all encompassing icon-ic dance of Gujarat performed for nine days during the Navratri festival, has now earned a place on the global cultural map. It has been included in the Representative List of Intangible Cultural Heritage (ICH) of Humanity by the United Nations Educational, Scientific Cultural

Organization (UNESCO). The inclusion has been made under the provisions of the 2003 Convention for the Safeguarding of Intangible Cultural Heritage during 18th meeting of the Intergovernmental Committee for the Safeguarding of the Intangible Cultural Heritage which began in Kasane, Botswana on Tuesday.

In August 2022, India had nominated garba for inclusion in the UN cultural agency's list. Soon after the announcement, Prime Minister Narendra Modi took to the social media X expressing his happiness. celebration of life,

unity and our deep-rooted traditions. Its on the inscription Intangible Heritage List showcases to the world the beauty of Indian culture. This honour inspires us to preserve and

global Congrats for this acknowledgment," he posted. Incidentally, the inclusion of the iconic garba of Gujarat in the prestigious list comes a few days after the Prime Minister released a music video titled 'garbo,' based on a garba song penned by him. "The 190-second song was penned years ago," Modi wrote on his X timeline

"Garba of Gujarat is the 15th ICH element from India to join this list. This inscription underscores garba's pivotal role as a unifying force that fosters social and gender inclusivity. "Garba as a dance form is entrenched deeply in ritualistic and devotional roots, involving people from all walks of life and it

continues to thrive as a vibrant living tradition bringing communities together," an official release from the Gujarat Government said. Gujarat Chief Minister Bhupendra Patel called it as a

'proud moment.' Patel wrote on social media X, "Garba's inclusion in the Unesco Intangible Cultural Heritage list is truly a proud moment for Gujarat and India. It is an honour given by the world to the ancient culture of India." Unio

# Khalistani supporter Pannu threatens to attack Parliament

¬he Delhi Police are on alert after the US-based Khalistani supporter Gurpatwant Singh Pannu released a video message threatening to "shake the very foundation of Parliament" on December 13 -- the anniversary of the 2001 terrorist attack on Parliament.

The threat came in the backdrop of American prosecutors last month linking an Indian official to a man charged with conspiring to assassinate Pannun. Last week, the US federal prosecutors charged Nikhil Gupta, 52, of working with an Indian government employee in the conspiracy to kill Pannun.

Meanwhile, a senior police officer said here on Wednesday security has already been stepped up in and around Parliament. "No one will be allowed to disturb law and order," he said.

"When Parliament is on, we remain alert. We are taking all precautionary measures to prevent any untoward incident," the officer said adding that security has also been beefed up in entire Delhi.

They also said extra security has been deployed around Central and New Delhi district areas, and in and around Parliament to prevent any possible breach of law and order. "The deploy-

ment is in view of the video and also in general where we step up security around important premises in the city," said the

In the video, which also had a photo of the 2001 Parliament attack convict Afzal Guru, the chief of the proscribed organisation Sikhs for Justice claimed that the Narendra Modi government tried to kill him and threatened to respond on December 13. Pannu claimed that his response would shake "the very foundation of the Indian Parliament".

Last month, United States federal prosecutors accused an Indian intelligence official of planning and directing a plot, from India, to allegedly kill Pannun in New York. The plot allegedly involved another Indian citizen and two individuals, a source and a hitman, who turned out to be undercover US

Taking note of the allegations, the Ministry of External Affairs said India has launched a highlevel probe and that it's "matter of concern". The United States said it takes the matter "very seriously" and "will wait to see the results" India's investigation

They told us they would conduct an investigation. They have publicly announced an investigation. And now we'll wait to see the results of the investigation, but it's something we take very seriously," US State Department spokesperson Mathew Miller told the reporters on Tuesday. "We are looking forward to seeing the results of that investigation, and I'm not going to make any assessments, obviously, before the investigation itself is completed," he added.

US Principal Deputy National Security Advisor(NSa) Jonathan Finer conveyed to New Delhi

the importance of holding accountable anyone found responsible in the probe announced by India to investigate an alleged Indian link to a foiled plot to kill a Sikh separatist on American soil.

As Finer wrapped up his high-profile visit to India on Tuesday, the White House said Finer "acknowledged" India's establishment of a committee of enquiry to investigate the "lethal plotting" and underlined the need for holding accountable those responsible.

"Finer acknowledged India's establishment of a committee of enquiry to investigate lethal plotting in the United States and the importance of holding accountable anyone found responsible," it said in a readout while referring to his meetings in the national capital.

Finer also discussed with his Indian interlocutors the plans for a post-conflict Gaza and a "pathway toward a two-state solution", it said. The senior White House official met External Affairs Minister S Jaishankar, NSA Ajit Doval, Foreign Secretary Vinay Kwatra and held extensive talks with Deputy NSA Vikram Misri. His visit to New Delhi came days after American prosecutors

# '100 websites blocked for offering fake jobs, illegal investments'

he Union Home Ministry The Union Home Manner, on Wednesday said more than 100 websites that were being operated from overseas and involved in organised illegal investments and part-time job frauds have been blocked. These frauds typically involve targeted digital advertisements using keywords like "ghar baithe job" (Do jobs sitting at home) and "ghar baithe kamai kaise karen" (how to earn while sitting at home) in multiple lan-

The targets are often retired employees, women and unemployed youth seeking parttime jobs with whom the fraudsters engage through WhatsApp or Telegram, convincing them to perform tasks such as liking and subscribing to videos or rating maps.

These websites were identified and recommended for blocking by the Indian Cybercrime Coordination Centre (I4C), an initiative of the Home Ministry aimed at addressing cybercrimes in a coordinated and comprehensive manner National through its Cybercrime Threat Analytics Unit (NCTAU), an official

spokesperson said.
Building a "Cyber Safe India" is the topmost priority under the leadership of Prime Minister Narendra Modi and the guidance of Union Home the guidance of Union Home Minister Amit Shah, the spokesperson said.

Officials said victims of these frauds are initially given a commission and then persuaded to invest more for higher returns. Once the victims deposit larger sums of money, their deposits are frozen, resulting in them being deceived, the spokesperson said.

To combat cybercrime and protect citizens from threat actors, the Home Ministry urges people to promptly report phone numbers and social media handles used by fraudsters to the National Cybercrime Reporting Portal

Several complaints have already been received through the helpline and NCRP as these offences pose a significant threat to citizens and raise data security concerns.

The Ministry of Electronics and Information Technology (MeitY) invoked its power under the Information Technology Act, 2000 to block these websites, who facilitated organised illegal investments and part-time job frauds, and they were found to be using digital advertisements, chat messengers, and rented accounts.

The proceeds from these economic frauds were being laundered out of India through methods such as card networks, crypto currency, overseas ATM withdrawals, and international Fintech compa-

The authorities advised people to exercise caution and due diligence before investing in online schemes that promise very high commissions.

'If an unknown person contacts you via WhatsApp or Telegram, refrain from engaging in financial transactions without verification.

Verify the name of the receiver mentioned in the UPI App, as random recipients may indicate a fraudulent scheme involving a mule account. Also, check the source of the initial commission received," the spokesperson said.

Avoid transactions with unknown accounts as they

may be involved in money laundering or even terror financing, potentially leading to account blocking by the police and legal action, the spokesperson advised people. People were advised to stay vigilant and report any suspicious activities to ensure a safer digital environment.

These websites, which facilitated task-based organised illegal investment related to economic crimes, were learnt to be operated by overseas actors and were using digital advertisement, chat messengers and mule and rented accounts.

These frauds, typically, involve a number of steps that include targeted digital advertisements launched on platforms like Google and Meta using key words like "Ghar baithe job" (Do jobs sitting at home), 'Ghar baithe kamai kaise karen" (How to earn by sitting at home) etc. In multiple languages from overseas advertisers. Upon clicking the advertisement, an agent using WhatsApp or Telegram starts conversation with the potential victim, who convinces him or her to perform some tasks like video likes and subscribe, maps

rating, etc. Upon completion of task, the victim is given some commission, initially and is asked to invest more to get more returns against given task.

After gaining confidence, when victim deposits larger sum, deposits are frozen and thus the victim is duped.

### 'Companies using vaping products to trap kids into life threatening menace'

PIONEER NEWS SERVICE

Citing various studies indicating that the aerosol from arettes and e-hookahs can cause fatal health conditions such as lung inflammation, DNA damage and lung cancer, Mothers Against Vaping, a united front of concerned mothers combatting the escalating vaping crisis among youth, has expressed concerns that companies are using such products to trap kids into life-

threatening menace. The group called out international tobacco and vaping firms for deliberately targeting children to establish a consumer base for their addictive and harmful products including all kinds of new-age gateway devices such as e-cigarettes and heat-not-burn electronic devices. Stressing on the critical need for increased awareness, the body has repeatedly highlighted on the urgency of educating the public about such intentions of these com-

#### 'Earthquake activity increased due to activation of Almora fault'

PIONEER NEWS SERVICE **NEW DELHI** 

Earthquake activity has increased in 2023 owing to the activation of the Almora fault in Western Nepal, the Government told the Parliament on Wednesday informing that there have been 97 earthquakes between magnitude 3.0 to 3,9 in 2023 compared to 41 in 2022. "The activation of the Almora

fault in western Nepal was the reason for earthquakes in parts of north India and Nepal," Earth Sciences Minister Kiren Rijiju said in a written reply in Lok Sabha. Almora fault triggered significant mainshock earthquakes on January 24 (5.8 magnitude), October 3 (6.2), and November 3 (6.4).

These mainshocks, accompanied by subsequent aftershocks, led to an increased frequency of earthquakes in 2023, Rijiju said, adding that the background seismicity remained unchanged during this period.

'It is common for northern India and Nepal to occasionally experience moderate earthquakes, and fluctuations in seismic activity.

Nepal and the neighbouring northern part of India, situated near the active faults of the Himalayan region, are highly seismically active areas prone to frequent earthquakes due to collision tectonics, where the Indian plate subducts beneath the Eurasian Plate," he said.

# Winter action plan for homeless begins

## 110 tents set up across Capital, says DUSIB

Homeless people in the national capital are being shifted to temporary tents set up by the Delhi Urban Shelter Improvement Board as part of the city government's winter action plan, officials said on Wednesday.

A meeting of the joint apex advisory committee was held in the first week of November to rescue homeless people and provide shelter to them. The committee comprises nodal officials of the Delhi Jal Board, Municipal Corporation of Delhi, and Delhi Police, a DUSIB official told PTI.

"Delhi government's winter action plan for the homeless has started and rescue teams have also been deployed to shift them to the temporary tents,"

He said 110 tents have been set up in the city for the homeless and 15 rescue teams have been deployed on the ground who are spreading awareness about the arrangements.

"Around 30 to 40 more tents will be set up soon. We conduct surveys and accordingly chalk out the locations where tents need to be set up," the official

The teams identify the clusters and inform the control room that sends volunteers to shift the homeless to the temporary tents. Teams of doctors are also

visiting the temporary shelters

"The homeless are being provided food and tea and this is something that we do all year long. We also keep track of the work that is happening," the DUSIB official said.

According to the Delhi government, there are 195 DUSIB shelter homes, which are functional in Delhi at present with a total capacity of 7,092 people. The new tents will accommodate about 2,000 more people on potential sites of high concentration to meet the increased demand for shelters during winter.

Additional tents will further be installed, if required, based on the requirement of shelters.

Teams have started to rescue the homeless people lying on the roadside or open spaces/parks from 10 pm to 4 am every day and each rescue team is equipped with one vehicle, driver and two atten-

After receiving the information from DUSIB control room or from other sources, rescue team responds to pick up the homeless person from the identified location and take them to nearby shelter or hospital as per requirement.

"The main function of the pint Apex Advisory Committee (JAAC) is to ensure better inter-departmental coordination among all the departments to ensure necessary civic

amenities for homeless people in the shelter homes for the successful implementation of the winter action plan. Divisional Executive Engineers regularly check the upkeep

and day-to-day maintenance of

the shelter homes," a notice

from the Delhi government

A centralised control room with dedicated staff is functional at Punarwas Bhawan, I.P. Estate, New Delhi to monitor and assist the rescue teams. The control room receives complaints/information 24x7 through a dedicated helpline, mobile app, and from other sources.

The control room toll free number is 14461, 011-

(landline) and +919871013284 (WhatsApp).

Mobile App 'Rain Basera' to track and rescue the homeless person has been made operational, which can be downloaded from Google Play store, the notice read.

"Any person who comes across a homeless person lying/residing along the roadside can simply click a photograph in his/her smart phone and submit it to central control room. The central control room automatically locates the sender/homeless person through GPS and informs the rescue teams to rescue the homeless person," the notice

The notice further said that the DUSIB has started coordination with health department, DJB, Municipal Corporation of Delhi and other civic agencies to ensure the availability of basic amenities to the homeless people residing in the night

Facilities available at the shelter home includes television, drinking water, toilet facility, lockers for belongings (whereever available), complaint box, first aid box and nothing is charged for availing said facil-

One caretaker has been allotted for each shelter home who remains available for eight hours a day, along with a female security guard.

# AAP leader Sanjay urges court to grant him bail

**STAFF REPORTER** ■ NEW DELHI

AP MP Sanjay Singh, arrested in a money Alaundering case related to the alleged Delhi excise scam, on Wednesday urged a court here to grant him bail, claiming he was not a flight risk, had deep roots in society and there was no allegation against him of influencing the wit-

Singh's counsel made the submission before Special Judge M K Nagpal during the hearing of his bail application.

The court, meanwhile, allowed an application filed by Singh seeking its permission to put his signature on certain documents authorising his lawyer to represent him in a defamation case in Guwahati.

During the hearing on the bail application, senior advocate Mohit Mathur, appearing for Singh, said, "I am not a flight risk, have roots in society, and for 15 months there was no allegation of my interfering or influencing in the probe by either ED or the CBI." The counsel said since the supplementary com-

plaint (ED's equivalent of a charge sheet) against Singh has already been filed, there was some kind of finality regarding the collection of evidence which should be the basis for granting him bail.

The counsel said Singh was neither an accused, was never arrested, or charge- sheeted in the predicate offence (the alleged corruption in the excise scam) being probed by the CBI. "I am not even summoned by the CBI in the

corruption case," the counsel said. The counsel said in all the supplementary charge sheets filed by the ED before Singh's arrest, his name did not appear anywhere.

the agency before my arrest, there was not even a whisper against me, which means there was no evidence with the ED which prompted my arrest. Now they are saying I received kickbacks, but ED did not say a single word about this money before this court or superior courts in matters pertaining to co-accused Manish Sisodia, when they produced flow-chart of money allegedly being laundered," the Rajya Sabha MP's counsel said.

The court will now hear the matter on December 9, when the ED is likely to advance its arguments on the application.

The application, filed by Singh on November 24, says he is no longer required for custodial interrogation and that no purpose will be served by keeping him in custody. It claimed the investigation against Singh was

complete and there was no chance of tampering with evidence or influencing witnesses. Singh, who is currently in judicial custody, also said in the application he was ready to abide by any condition imposed by the court while grant-

Asked about the fund crisis in Delhi Jal Board and its possible impact on the ongoing works, the chief minister said, "If bureaucracy will not be answerable to the government, it will be impossible to run the government. There could be a water crisis and sewer crisis due to nonrelease of funds.

Delhi Jal Board vice-chairman Somnath Bharti welcomed the government's decision to order an audit.

There cannot be a better thing than this. This reflects the transparency of the Delhi

government that the chief minister himself opted to order a CAG audit. This proves the honesty of the AAP government and our leader Arvind Kejriwal.

"This also kills the attempt to politicise the Delhi Jal Board. In DJB, we have been all working hard to serve the people of Delhi but BJP has been trying to bring issues that have no merit. So now, the CAG audit will make everything clear," he told PTI. The BJP and AAP have been sparring over alleged irregularities in the Delhi Jal Board since last month.

The BJP has accused the DJB of running a "scam" of awarding bogus tenders for the upgradation of its sewerage treatment plants.

### Only AAP can give free education guarantee: CM

Delhi Chief Minister Arvind Kejriwal on Wednesday said other parties have stolen AAP's agenda and are talking about providing free electricity and giving guarantees but free education is still not on their list

Kejriwal was speaking at an event at the Aam Aadmi Party (AAP) office here to pay tributes to Baba Saheb Ambedkar on his death anniversary. The chief minister said

Ambedkar went to study at Columbia University in the US in 1913 and always laid

emphasis on education. "Had he been alive for 10-15 years more, he would have improved all government schools in the country. No party has paid any attention to education," Kejriwal said.

# 'No proposal to raise OBC quota as per population in local body polls'

#### Centre informs Rajya Sabha

PIONEER NEWS SERVICE **NEW DELHI** 

The Centre informed the Rajya Sabha on Wednesday that there was no proposal to increase reservation for Other Backward Castes(OBC) as per population in the local body elections

Union Minister of State for Panchayati Raj Kapil Moreshwar Patil, during the Question Hour in Rajya Sabha, said OBCs are provided onethird reservation under Article 243D of the Constitution.

"However, 21 state governments have increased the reservation up to 50 per cent. The member has sought increasing the reser-

Of the women studied, about

10 per cent, or 1773, reported a diagnosis of type 2 diabetes. Further, 11.5 per cent of these, or 203, reported some type of cardiovascular disease, the researchers found.

They quantified the increased risk of type 2 diabetes due to beginning to menstruate early at age 10 or before) through 14 per cent (age 11) to 29 per cent

They also found that menstru-

# Parts of Chennai suffer from inundation

Residents grappled with stagnant water and power disruption in parts of the city and its suburbs on Wednesday, two days after Cyclone Michaung wreaked havoc in the metropolis and neighbouring districts, even as civic agency personnel stepped up relief and rehabilitation

The government said power was kept suspended in some areas as a "preventive measure" since the power cables were under water, while asserting all efforts were being taken to restore normalcy.

Another day's holiday was

declared for schools and colleges in Chennai on December 7.

The cyclone-triggered heavy rainfall had led to inundation in localities including Velachery and Tambaram. On Wednesday too, people were seen leaving their homes in the areas surrounded with water to safer zones, carrying their children and wading through the stag-

including pressing more boats to ferry people to higher ground. Chief Minister M K Stalin visited some of the affected areas and distributed food and essential commodities to people put up at a relief centre in the city. He inspected activities undertaken by the city civic body to drain water.

He also wrote to the Centre seeking an interim flood relief of Rs 5,060 crore to tide over the situation.

#### Cyclone damages infrastructure in Andhra

PTI AMARAVATI

The severe cyclonic storm Michaung, which crossed the Andhra Pradesh coast close to Bapatla on Tuesday and subsequently weakened into a cyclonic storm, left a trail of destruction in its wake. Michaung is expected to subside into a deep depression over the next six hours, said an official.

The storm damaged 770-kilometre roads, uprooted 35 trees and killed three livestock, among others.

According to data shared by the Chief Minister's Office (CMO), nearly 40 lakh people from 194 villages and two towns were affected by Michaung's impact, including the inundation of 25 villages. Though there was no loss of

human life on Tuesday, And-hra Pradesh State Disaster Management Authority Director BR Ambedkar told PTI that a four-year-old boy died after a hut wall collapsed on him in Tirupati district on Monday. While another person died in Bapatla district, Superinten-dent of Police Vakul Jindal told PTI that the cause of death was

not related to the cyclone. "The lone deceased person was found in a drunken state on a road by his motorcycle, which was not submerged under water, in the Inkollu village," Jindal said. Across the state, 204 relief camps are accommodating 15,173 evacuees. As part of relief efforts, 18,073 food packets and more than 1 lakh water packets were distributed. Eighty health camps were also organised.

Health officials on Wednesday launched a crackdown on medical scanning centres after a large-scale female foeticide ring was exposed carrying out medical termination of female foetuses at a makshift surgical facility set up at a jaggery factory in a remote village of Mandya district. The raids were carried out by

the Mandya District Family Welfare Officer Venkataswamy and Pandavapura Sub-division Assistant Commissioner Nandish. They sealed scanning centres that did not comply with government guidelines and keep their records up to The police recently arrested 10

people including doctors, nurses and agents, who had allegedly carried out over 900 female foeticides.

The gang used to contact pregnant women and persuade them to get a sex determination test done, for which they charged between Rs 20,000 to Rs 25,000, according to police. They used to conduct the tests in the jaggery factory where all the required equipment was

kept, police said "If the tests showed a female child, they would ask those women whether they wanted to abort

Once the women agreed, the team would charge about Rs 50,000 to do the work. At least 900 female foeticides were carried out by the gang," a senior police official said. Meanwhile, Chief Minister Siddaramaiah noted that a CID probe has been ordered into the female foeticide case. Based on the report, stringent action will be taken against the culprits, he told reporters in the district headquarters town of Belagavi.

# Will meet Shah, Jaishankar over refugees issue: Lalduhoma

PTI AIZAWL

Lalduhoma, chief minister-designate of Mizoram, on Wednesday said he will soon meet Union Home Minister Amit Shah and Union External Affairs Minister S Jaishankar to discuss the issue of refugees from Myanmar and Bangladesh, and internally displaced people from Manipur.

Around 44,000 people from the member states Jharkhand, two neighbouring countries and He claimed that the grand alliance government in Bihar is state have taken shelter in Mizoram due to several probworking for the overall devellems including ethnic strife. Lalduhoma, the Zoram People's

Movement (ZPM) leader, called on Governor Dr Hari Babu Kambhampati at Raj Bhavan and staked claim to form the new government following his party's victory in the assembly polls. His government is likely to take oath on Friday. "I have telephonic conversa-

tions with the Home Minister

and External Affairs Minister on Tuesday. I will soon meet them in Delhi to discuss how the Centre and the state government can work together to look after the refugees and displaced people," Lalduhoma told reporters after meeting the governor. The 73-year ZPM leader said his

government will continue to provide shelter to the refugees from Myanmar and Bangladesh and displaced people from Manipur on humanitarian grounds. He said that his government will

also see if it can provide better relief to them compared to that by the outgoing MNF government.

The ZPM dethroned Zoramthanga-led Mizo National Front (MNF) on Monday, bagging 27 of the total 40 assembly seats. Lalduhoma, an ex-IPS officer who had served as the security in charge of former Prime Minister Indira Gandhi, said

that he would discuss the country's policy towards refugees from Myanmar with Jaishankar, who is his civil service batchmate. He expressed hope that the Centre will extend help to the state government to look after the Myanmar refugees as it is a humanitarian issue.

More than 31,300 Myanmar nationals and over 1,100 Bangladeshi nationals are currently in Mizoram, according to the state home department. These Myanmar nationals

belonging to the Chin community, who share ethnic ties with Mizos, have taken shelter since February 2021 following a military coup in the neighbouring country. The Bawm or Mizo community from Bangladesh's Chittagong Hill Tracts, who fled gunfights between the Bangladesh army and an ethnic insurgent group, fled to the northeastern state from November last year.

Besides, nearly 12,000 internally displaced people from Manipur have taken refuge in different parts of Mizoram since May this year due to ethnic

clashes. The outgoing MNF government had in May urged the Centre to provide financial assistance to the tune of Rs 10 crore for the internally displaced people from Manipur. In September, the Centre told the state government that it would assist it in

#### **INDIA** hits roadblock

With certain satraps demanding their pound of flesh, Congress forced to be on the defensive

The Congress seems to be spiralling down the goodwill and credibility meter. After the drubbing it received in three recent Assembly elections, its partners in the INDIA bloc are also not extending it the courtesy it has grown accustomed to. After burning most bridges with its co-parties on account of its preoccupation with the State elections, where it miserably failed to score a point, Congress president Mallikarjun Kharge had convened a meeting of the INDIA bloc on December 6, but key alliance partners cocked a snook at the abrupt invite and expressed unavailability to attend, forcing Congress to reschedule the gathering. The absence of prominent figures, including TMC chief Mamata Banerjee, JD(U)'s Nitish Kumar, SP's Akhilesh Yadav and DMK's MK Stalin underlined the growing discontent within the alliance. Mamata cited commitments, Nitish is reportedly down with viral fever, and Stalin is engaged in relief efforts after cyclone Michaung. The unexpected nature of these

absences left the Congress in an awkward position. The lack of communication and coordination reflected poorly on the Congress's ability to manage the alliance. To address the discontent, the Congress scaled down the meeting to include only floor leaders, rescheduling the heads of parties' meeting to the third week of December. This move aims to accommodate the busy schedules of alliance leaders and foster better participation, which should have been the priority right from the start. However, the rescheduling indicates the need for Congress to reassess its approach to alliance management and communication.

These are difficult times for the Congress. The decimation of the party must have had a demoralising effect on the INDIA alliance as well, which was keenly watching the elections and hoping for a turnaround in the northern region. The development also indicates that though Rahul Gandhi's Bharat Jodo Yatra created good impact, it failed to translate into votes. The fissures in the alliance were actually visible even before the elections. Several bloc parties, including the TMC, AAP, SP and JD(U), expressed frustration with the Congress for stalling alliance activities, such as seatsharing talks, citing Assembly polls. The delay raises concerns about the cohesion and effectiveness of the alliance, with some members believing that the political momentum gained after previous meetings has been lost. The Congress must address the issues of perceived dissension, EVM tampering controversy in Assembly elections and work towards restoring the alliance's stability, effectiveness and cohesion for the political battle ahead. The rescheduled meeting presents an opportunity for the Congress to regroup, re-establish communication with alliance partners and chart a course that strengthens the unity and purpose of the coalition. It will also be the litmus test of the INDIA bloc's ability to survive together.

# The significance of Sam Bahadur

The biopic on Field Marshal Sam Manekshaw depicts him as a fearless man of honour and integrity but skips the scruffy treatment he got in his twilight years

ndoubtedly, many parents will be writing about Sam Bahadur, the biopic on Field Marshal Sam Manekshaw. It not only shines a light on the life and times of a genuine military hero but also on what it means to be an officer and a gentleman. Whatever one's views about the movie or its shortcomings, of which there are a few, it is undeniable that the director, Meghna Gulzar, has brilliantly caught the very essence of the Field Marshal, both as a human being and a military leader nonpareil. For that, she and the cast certainly deserve ample praise and accolades. For unknown reasons, the biopic

has skirted the issue of the horrendous treatment meted out to the Field Marshal in his twilight years by our political establishment and the bureaucracy. That is rather unfortunate. For instance, though appointed Field Marshal in January 1973, he only received the arrears of his pay and allowances in 2007, a full thirtyfour years later, and that too because of the personal intervention of President Abdul Kalam. Interestingly, in 1972, when Mrs Gandhi first proposed to promote him to the rank of Field Marshal, she also wanted him appointed Chief of Defence Staff. A proposal vigorously opposed by bureaucrats not unexpectedly, but also by the other two Services as well. Unfortunately, we are still paying a very high price for the shortsightedness of our military hierarchy to this day. On his demise in June 2008, while

the Government did honour him with a State Funeral, neither the President and Supreme Commander of the Armed Forces, Pratibha Patil, nor Prime Minister Manmohan Singh nor his defence minister AK Antony, could spare time to attend. Instead, the Government was represented at the funeral of India's greatest military icon since Independence, by the Minister of State for Defence, Mr. Pallam Raju. What it says about our oliticians needs no elaboration! Indeed, one would not be sur-prised if the unflattering depiction within the military has startof politicians and bureaucrats in ed taking its toll. Today, interthe movie was deliberate and not ference in purely military mat-

per newspaper reports, this was supposedly because of the short notice and their inability to organise appropriate transportation. In fairness to them, they were represented, but if the reasons for their absence were true, it was certainly a grievous error of judgement on their part and reflected very poorly on them. Coincidentally, the Army Chief, General Deepak Kapoor, was also absent, but on an official visit to Russia, and was represented as per protocol, by the Vice Chief of Army Staff, Lt Gen Naidu. The significance of their

absence was not lost on the serving and veteran community, as it clearly reflected the direction the military was heading, where displaying fealty to political masters overrode the necessity to live up to the traditions and ethos of the military. A trend, that has only taken deeper roots over time,

MANY AMONGST **OUR TOP MILITARY** HIERARCHY ARE **COMPROMISED AS** THEY OWE THEIR PRESENT **POSITIONS** MORE TO **POLITICAL** MUNIFICENCE, THAN THEIR OWN **PROFESSIONAL ABILITIES**  damage to our military ethos and capability is just one exam-

That there has been no opposition from within the military to all of this can be attributed to the sad fact that many amongst our top military hierarchy are compromised as they owe their present positions more to the political munificence, than their own professional abilities. Moreover, reputations, standing and self-respect were greatly damaged by the unwillingness of the Service Chiefs to speak up when military veterans and families were illegally and mercilessly beaten up by the Delhi Police as they sat in peaceful protest at the Jantar Mantar against the Government's failure to grant OROP, a promise that incidentally it has yet to honour in full. Indeed, those unwilling to defend their own will never arner any respect.

Ironically, the situation our military is in presently has created a fundamental problem for the political leadership,

have failed to comprehend this as yet. One aspect that stands out in the movie is the fact that the Field Marshal endeared himself to Mrs Gandhi not by submitting to her every whim or a flagrant display of personal loyalty, but by giving her straightforward professional advice, regardless of consequences. Thus, despite all her inherent fears regarding the Field Marshal's likely motives or ambitions, she came to place implicit trust in his professional judgement and abilities. The results were there for all to see. Unfortunately, Prime Minister Modi does not have that luxury, which probably explains our weak-kneed response to Chinese provocations. As Napoleon so aptly put it, "If you build an army of 100 lions and their leader is a dog, in any fight, the lions will die like a dog. But if you build an army of 100 dogs and their leader is a lion, all dogs will

# Insurtech is the next big thing after FinTech

By merging insurance with technology, this burgeoning sector promises to revitalise the traditional insurance sector

n the past decade, FinTech's revolutionary **⊥**impact has been marked by the integration of cuttingedge technologies across various sectors. Thriving on innovation, these FinTech companies have disrupted traditional processes, raising billions in the process. Even with a funding slowdown, the sector managed to secure \$1.3 billion in H1 2023.

Building on this momentum, Insurtech emerges as India's new digital frontier. Merging insurance with technology, this burgeoning sector promises to revitalise the traditional insurance. Its innovative solutions aim to enhance customer experiences, streamline operations, and increase insurance accessibility. Currently valued at US\$ 20,667.5 million, Insurtech is projected to surge to an estimated 210,664.3 million by 2033, growing at a CAGR of over 26%. This remarkable growth trajectory positions Insurtech not just as a trend, but as a transformative force in India's digital economy

Insurtech and its scope Insurtech (made of two words: Insurance and

Technology) refers to the use of technological innovations designed to squeeze out savings and efficiency from the current insurance industry model. It is not just limited to digitising the existing insurance framework; rather, it's a reimagining of insurance operations using cutting-edge technologies like AI, blockchain, and IoT to create more personalised, automated, and customer-centric ser-

Insurtech in India represents a transformative force within the traditionally manual and paperwork-heavy insurance sector. Leveraging technological innovations, Indian Insurtech start-ups are streamlining policy management, claims processing, and risk assessment. This simplification makes insurance more accessible and userfriendly. There is still a large proportion of the population uninsured, for instance

do not have access to any health insurance. This significant presence of an uninsured population, coupled with growing digital adoption, positions Insurtech for substantial growth

**Success of the Fintech** 

The success of fintech companies and the rapid adoption of the services offered by these enterprises have laid the groundwork for the emergence and growth of Insurtech. The current trajectory of Insurtech which promises high growth rates and is also characterised by disruptive innovation and swift market penetration, is quite similar to how the Fintech sector has evolved in the past decade.

Investors are for Insurtech Even though the comparison of numbers with the fintech sector would not be fair, it is critical to mention that Insurtech enterprises have raised more than \$2.6 billion in the past five years. With exciting forecasts, it is rather a surety that VCs and investors would be more than happy to pour more money into a sector that has a forecasted CAGR of more than around 40 crore individuals 25%. Here are some of the

most critical reasons, besides the growth trends, that have enhanced investors' interest in

Filling gaps in insurance Traditional insurance models are often hindered by inefficiencies like lengthy claim processes and limited customer interaction. Insurtech addresses these gaps through technological solutions that streamline operations and enhance customer engagement. This ability to solve longstanding problems in insurance makes Insurtech a particularly attractive investment for those looking to fund ventures that combine innovation with practical, market-driven solutions

**Data-Driven Insights** 

The fundamental appeal of the sector is based on data analytics and AI. These technologies enable more accurate risk assessment, personalised policy offerings, and predictive analytics to anticipate future trends and customer needs. For VCs and investors, the efficiency and customercentric nature of these datadriven solutions presents a compelling investment case. (The writer is the founder, of

Sir — The COP28 global climate conference will continue for another week. That means its formal completion will be announced on the 12th of December. country have failed quality tests, a Central Drugs Standard Control Organisation (CDSCO) report said, citing lab tests conducted in different states in the aftermath of reports potentially linking India-made cough syrups to 141 child fatalities globally. As per the CDSCO report, of the 1,105 samples tested, 59 were declared "not of standard quality". The report was released by CDSCO in November under a list of drugs, medical devices and cosmetics declared as "not of standard quality", "spurious", "adulterated", or "misbranded". The move came after several deaths were reported among children globally after consuming India-made cough syrups. Concerns surrounding these cough syrups were raised after the World Health Organization (WHO) reported that about 70 children in Gambia had died from acute kidney injury potentially linked to cough and cold syrups produced by Indian manufacturer Maiden Pharmaceuticals Ltd. #### **FIRST COLUMN DISCIPLINE YOUR SENSES**

Our senses would always seek their objects but we must keep them on a leash

AJIT KUMAR BISHNOI

e have six senses, which are actively looking for gratification by contact with their objects. For example, our tongues look for tasty foods except when we are full. There is nothing wrong with it if these pleasures are within 'dharma'/ 'maryada' (within allowable limits). God has allowed it, as stated by Lord Krishna in verse # 7.11 of the Bhagavad-Geeta, in which He stated, "I am passion in beings, according to religious principles." He emphasised this point further in verse # 6.17, when He counselled, "One whose eating and recreation are appropriate; of one who strives appropriately in activities; of one who sleeps and stays awake, as required; his sufferings are less. Because sufferings there will be in this material world, described by the Lord as a place of miseries." (8.15) But despite such warnings, we are forever ready to transgress allowable limits hoping to escape punishment.

What happens will be clear as we go through the activities of these six active senses. Beginning with our tongue, all of us are guilty of indiscretions sometimes or other. Picture yourself invited to a very rich buffet dinner. You survey what is on offer, which will be a lot unless you are on a restricted diet. What should I eat? People load their plates as if they are starving. This explains our control over our senses. Shouldn't we consider what is best for us to eat? Is it on offer? Then, why think so much? Just eat enough because more food will be available in a few hours for breakfast.

Let us go to our eyes next. It used to be okay till multiple channels came and now smartphones. There is so much to see, especially now one can watch with no one watching. Unfortunately, we are being watched all the time because 'karmaphalas' are being made by our acts. Wise people restrict themselves to what is useful and at worst, what is harmless like a sports programme.

The pleasure of speaking occupies a very high place in modern man's desires. Everyone is an expert on everything with Google playing its role. Doctors get frustrated when patients begin telling them what they should know. One doesn't want to consider that if one was so wise why should he or she be in so much trouble?

The fourth sense, which is also very active is our ears. What do we want to hear most? Our appreciation, which is how good we are compared to everyone around us. Again, like question begs an answer: why aren't we satisfied with our lives then?

Our skin occupies an important position in how we think. We place comfort in all considerations. Air conditioners, heaters, etc are all fine, but how about a little sweating it out with walks, yoga exercises, etc? What does a modern person value the most? Muscles of course to show off. People spend hours in gyms to build what is not needed which gives them trouble as they age

I have saved the next sense for the last, which gives us the maximum trouble. Yes, you have guessed it right. The sex pleasure is considered the topmost pleasure of all by almost everyone. Our thinking is normally defined by it. Lord Krishna has warned us about it in verse # 18.39, when He cautioned about 'pramad'.

The conclusion is obvious. We have senses and they would always seek contact with their objects. This is normal, but what is not normal is not restricting oneself to what is allowable. God would not have made such a system if it was not workable. It is very much so; only we have to be highly disciplined in thinking and acting, and we can live a satisfactory life.

# Is India losing sheen for investors?

The slowdown in foreign direct investment in India is a cause for concern, as multinational corporations are finding other competitors more attractive

ndia's GDP grew by 7.6% in the second quarter (July-September) of the year, a positive sign of economic growth. However, the steepest declines in foreign direct investment (FDI) are a matter of concern, especially considering India's recent emergence as a promising investment destination and a viable alternative to China. This decline is particularly worrying as it is happening despite positive projections of India's growth by the International Monetary Fund (IMF) and The World Bank.

According to the latest report by the Department for Promotion of Industry and Internal Trade (DPIIT), FDI inflows have slowed down drastically. The decline in FDI inflows has been steep, and the situation has only worsened, with a further decline of -24% in April-September 2023. The current FDI inflows stand at \$20.48 billion, down from \$26.91 billion over the same period last year. Even the overall FDI inflows in 2022-23 witnessed a 16% decline, standing at \$71.3 billion from \$84.8 billion in 2021-22.

The steepest declines in FDI have been in crucial sectors such as computer software.

crucial sectors such as computer software and hardware, automobile, infrastructure construction activities, and metallurgical industries. For instance, inflows in computer software and hardware fell from \$14.4 billion in 2021-22 to \$9.3 billion in 2022-23, in the automobile industry from \$6.9 billion to \$1.9 billion, in infrastructure construction activities from \$3.2 billion to \$1.7 billion, and in metallurgical industries from \$2.2 billion to \$219 mil-

The slowdown in foreign direct investment (FDI) in India is a cause for concern, as multinational corporations (MNCs) are finding Vietnam, Indonesia, and other competitors more attractive. This is a clear indication that the "China plus one" strategy of MNCs is not working for India. During January-September of this year, FDI in Vietnam increased by approximately 8% compared to the same period last year, reaching about \$18 billion. In the case of Indonesia, FDI flows stood at around \$10 billion during January-September of this year, similar to the levels seen last year.

The factors that influence capital flows into countries include the global and domestic macroeconomic environment, the domestic policy and regulatory envionment, and political stability. Since india is expected to benefit greatly from the "China plus one" strategy, policymakers must pay closer attention to these FDI

It is well known that FDI flows are more likely to gravitate towards countries with broader and deeper trade agreements. Lower tariffs and other benefits negotiated through free trade agreements (FTAs) incentivise foreign investment. Therefore, the decline in FDI flows to India may reflect this. A deeper assessment of the country's prospects is needed to address this issue.

India is genuinely the alternative to China for companies looking to diversify if it is the "one" in China plus one strategy if the Government's PLI scheme is a powerful enough incentive to draw in investments, and if the solid foundations of India's growth forecasts are taken into account, then MNC investor should be long on India. Any concerns regarding an uncertain business environment, an uneven playing field, or the fear of arbi-

ENVIRONMENT, THE DOMESTIC POLICY AND POLITICAL **STABILITY** 

trary changes to the rules of the game must not deter investors from investing in India.

More states should be in the ambit of FDI: The scope of FDI must be expanded to more Indian states. FDI has been concentrated in only a few states due to their location and favourable business environment. Maharashtra, Karnataka, and Gujarat have together attracted a staggering 69% of the FDI inflows into the country, with Maharashtra being the top recipient. However, it is disappointing to note that Punjab ranks a lowly 12th in attracting FDI, with a cumulative investment of a mea gre Rs. 7693 crore in the past four years, which is a paltry 0.49% of the total inflows of Rs. 15.08 lakh crore from October 2019 to September 2023.

In contrast, the neighbouring state of Haryana has been more successful, ranking sixth with FDI equity inflows of Rs. 67,502 crore, accounting for a substantial 4.17% of the total inflows during the same period. Punjab's successive governments have been striving to attract investments, particularly from foreign investors, but they have been facing major hurdles such as location disadvantage, poor connectivity, and frequent

The existing industry in Punjab has also been complaining about disruptions in their operations and movements due to the aforementioned issues. Haryana is way ahead in this regard with a significant advantage due to its proximity to Delhi NCR and superior connectivity.

It is high time that Punjab takes firm steps to improve its position in attracting FDI, as its highest ranking was only ninth in 2020-21, when it attracted FDI equity investment of Rs. 4,719.45 crore, primarily in food processing, auto components, engineering goods, and textiles. The declining trend in FDI inflows to Punjab since then is a cause for concern. Therefore, the state must create a more conducive environment for businesses and investors, and promote its potential in various sectors, to attract more FDI and boost its economy.

Disadvantage: Despite signing and negotiating bilateral free trade agreements, India has failed to secure a trade agreement with the European Union or become part of the Regional Comprehensive Economic Partnership (RCEP) countries including China, Indonesia, Japan, and South Korea for free trade agreements. The trade agreement between the 10 member states of ASEAN and their free trade agreement partners -Australia, China, Japan, New Zealand, and Korea - has deepened economic integration between these countries, which are at the heart of manufacturing supply chains.

As a result, India's exclusion from such agreements and the supply chains that run through these regions puts it at a significant dis-

advantage in this manufacturing ecosystem.The Way Forward: Foreign Direct Investments (FDIs) have a far greater potential to facilitate the growth of the Indian economy than Foreign Portfolio Investment (FPI). However, India needs to take swift and assertive action to speed up structural reforms, root out corruption, and reduce red tape in bureaucracy to strengthen its position as the most attractive investment destination for FDI. India has adopted a negative list approach in its FDI policy, which outlines only those sectors and activities where foreign investment is regulated. Sectors not mentioned in the document are open to obtaining 100% FDI under the automatic method.

The liberal and attractive policy regime for investors, combined with a favourable business climate and reduced regulatory framework, have resulted in higher FDI inflows. But this alone is not enough. India needs to complement this with a sound trade policy that boosts exports, encourages inclusive development, and incentivises R&D to make our manufacturing ecosystem globally competitive, thereby fetching FDI at a large scale.

# Artificial Intelligence is transforming the steel industry

A step-by-step approach is the best to implement artificial intelligence. Scores of Al models are available for use in the steel units which can be tried without much hassle

dechnology is ever-evolving. While it becomes difficult to keep pace with rapid technological advancements in all expanses of life, it is equally difficult to discount them because these are highly value-accretive. Artificial Intelligence (AI) is one such technology. The manufacturing sector, in general, and the steel sector, in particular, are integrating AI into their daily operations to improve productivity, health and safety, reduce operational costs and reap countless other operational and functional benefits. Survival will be at stake for those who will not. In a developing nation or the Global South, cheaper availability of steel is a prequel to ensure sustainable development. Since raw materials for

making steel are unlikely to be economical in the foreseeable future, adaptation of modern disruptive technologies and processes is the only way out. Estimates suggest that the proper adaptation of AI in the entire value chain of steelmaking can save between \$60 and \$100 per tonne. Apart from this, a key takeaway from the recently concluded ISA Steel InfraBuild Summit in Lucknow was that the use of AI in architecture will enable engineers and architects to design, plan, and build steel structures more efficiently, resulting in proper economics and savings in infrastructure and real estate.

In the steel sector, AI can be adopted from R&D and innovation to procurement, manufacturing and back-office sinter plant, blast furnaces,

process digitalisation to supply-chain inventory, marketing, and whatnot. All these can lead to a 60% growth in EBDI-TA in three years. Greenhouse gas emissions can also be reduced by 5-10%.

Maintenance is, as always, a difficult task. Each manufacturing unit has its maintenance plan tailored to its particularities. Proper implementation and use of AI can help predict the exact timing of maintenance, thereby reducing shutdown time, cutting maintenance costs, and enhancing the lifespan of the machinery. The Indian steel industry has been the early adopter of AI.

Adaptation of AI has the highest impact on steel manufacturing in the entire value chain. In the coke oven plant, continuous caster and rolling, among others, the implementation of AI has multiple benefits ranging from 1-2% yield improvement to a 50-80% reduction in quality losses. Energy consumption also improved by roughly 10%. Autonomous or semiautonomous data or content examination also makes predictions and recommendations easier. Integration of sales and production data improves revenue management and customer satisfac-With precise data, AI's ability

to predict market data and price fluctuations helps manufacturers adjust production, manage inventories, and respond swiftly to changing market conditions. Enhancing safety is also another essential

aspect. No wonder steel manufacturers worldwide are embracing AI to ensure faster delivery of business requirements. This is the age of intelligent manufacturing. Far from having a steel-producing smart factory, intelligent manufacturing encompasses all of it sourcing raw materials to production to marketing products through an integrated intelligent supply chain.

Steel consumption mirrors the health of an economy. Aspiring to be in the league of a developed nation, India has miles to go to catch up with the global steel consumption average. The building, construction and infrastructure sector consumes nearly 70% of all steel in India. The growth of the steel sector will largely depend on the demand emanating

from the infrastructure sector. While AI adaptation will benefit the steel sector, implementing AI in the infrastructure sector will help assess the sector's specific needs - such as identifying cost-effective highstrength steel structure-based designs and offering tailormade products.

Adaptation, both in the steel and the infrastructure sector, is a challenging task. A mindset of experimentation and a determination to bring about positive changes are required. With AI, the ultimate goal is to implement an automated and unsupervised process linked with software and processes to improve performance over time. However, there is no substitute for human capital, and once integrated with AI, it will do wonders if used for the ben-

efit of mankind and planet Earth. The apprehension that AI will displace jobs is unfounded. However, the dynamics of the job will change, requiring manpower with digital skills. It also warrants upskilling existing employees. A step-by-step approach is the best to implement AI. Building on the following line from the learnings of the first will yield the best results. Scores of AI models are in use in different steel manufacturing units in the country. The use of transformative technology will only go up in the days ahead. We need to be ready to adapt to the changes and implement it. (The writer is the Secretary

# **Heavy fighting across Gaza halts aid delivery**

(GAZA STRIP)

 $\mathbf{I}^{ ext{sraeli}}$  forces battled Hamas militants across Gaza on Wednesday after expanding their ground offensive to its second-largest city, further shrinking the area where Palestinians can seek safety and halting the distribution of vital aid across most of the territory. The assault on the south threatens further mass displacement within the besieged coastal enclave, where the U.N. says some 1.87 million people over 80 per cent of the population — have already fled their homes. North, including large parts of Gaza City, has been completely destroyed, and Palestinians fear the rest of Gaza could suffer a similar fate as Israel tries to dismantle Hamas, which has deep roots in the territory it has ruled for

Israel says it can no longer accept a Hamas military presence in Gaza after the October 7 attack that triggered the war, and Prime Minister Benjamin Netanyahu has said Israel will maintain open-ended security control over the territory, something opposed by the United States and much of the international community. The Israeli military said Tuesday that its troops were "in the heart" of the southern city of Khan Younis after what it described as "the most intense day" of fighting since the start of the ground operation five weeks ago, with heavy battles in the north as well.

For the past three days, aid distribution — mainly just supplies of flour and water has been possible only in and around Rafah, on the southern border with Egypt, because of fighting and road closures by Israeli forces, the U.N.'s humanitarian aid office said.

The aid group Doctors Without Borders said fuel and medical supplies have reached "critically low levels" at the Al-Aqsa Martyrs Hospital in the central town of Deir al-Balah, north of Khan Younis. Up to 200 wounded people have been brought in every day since December 1, when a weeklong truce expired, it said. "Without electricity, ventilators would

#### HUNDREDS KILLED SINCE CEASE-FIRE

The war has killed more than 16,200 people in Gaza -70 per cent of them women and children — and wounded more than 42,000, according to the territory's Health Ministry, which released new figures late Tuesday. The ministry does not differentiate between civilian and combatant deaths, but its overall tally tracks with a figure released by the Israeli military this week.

The ministry says hundreds more have been killed since the cease-fire ended Friday, and many still are trapped under rubble.

The military accuses Hamas of using civilians as human shields when the militants operate in residential areas. But Israel has not given detailed accounts of individual strikes, some of which have leveled entire city blocks. Military Chief of Staff Herzi Halevi

said militants keep weapons in homes and other buildings so fighters in civilian clothes can use them to fire on troops. "Striking them requires

significant use of fire, both to target the enemy but also to, of course, protect our forces," he said Tuesday. Israel says it must remove Hamas from power to prevent a repeat of the October 7 attack, when Hamas and other militants killed about 1,200 people, mostly civilians, and took captive some 240 men, women and children after bursting through Israel's vaunted defenses. More than 100 hostages were released during last week's cease-fire, along with 240 Palestinians imprisoned by Israel. But an estimated 138 hostages remain in Gaza, mostly soldiers and civilian men, and accounts of widespread rape and other atrocities committed during the rampage have deepened Israel's outrage and further galvanized support

# Hamas raping Israeli hostages appalling: Biden

President Joe Biden has force-fully denounced the report-ed rape and sexual violence against Israeli girls and women by Hamas militants following the October 7 attack on Israel, calling on the world to condemn such conduct "without equivocation" and "without exception?

Speaking at a campaign fundraiser in Boston on Tuesday, Biden noted that in recent weeks, female survivors and witnesses to the attacks have shared "horrific accounts of unimaginable cruelty".

"Reports of women raped repeatedly raped - and their bodies being mutilated while still alive — of women corpses being desecrated, Hamas terrorists inflicting as much pain and suffering on women and girls as possible and then murdering them," Biden said. "It is appalling."

Israel has said it is investi-

gating several cases of sexual assault and rape from the Hamas attack on Israel. Witnesses and medical experts have said that Hamas militants committed a series of rapes and other attacks before killing the victims in the October 7 attack, though the extent of the sexual violence remains unknown.

Experts have been piecing together evidence in recent weeks in a case that is complicated because there are no known victims to testify and limited forensic evidence. Biden's comments come as

Prime Minister Benjamin Netanyahu's government has sought to put greater focus on the sexual violence it says Hamas committed during the October 7 attack that killed some 1,200 people on Israeli soil and led to another 240 being taken hostage. Some recently released hostages have shared testimonies of sexual violence and abuse during their time in

Hamas has denied that militants committed sexual assaults.

Netanyahu railed against the lack of international response during a press conference on Tuesday evening.

"I say to the women's rights organizations, to the human rights organisations, you've heard of the rape of Israeli women, horrible atrocities, sexual mutilation — where the hell are you," asked Netanyahu. Israel hosted a special event

at the United Nations on Secretary of State Hillary Clinton, Sen. Kirsten Gillibrand of New York, and former Meta chief operating officer Sheryl Sandberg were among those who criticised what they called a global failure to support women who were raped, sexually assaulted and in some cases

The comments from Biden came one day after White House press secretary Karine Jean-Pierre called the militants' alleged assaults on women "reprehensible".

Jean-Pierre, who underscored that she was speaking on behalf of the president, was responding to a question about comments made by Rep. Pramila Jayapal, a California Democrat, during a CNN interview in which she responded to question about rape by Palestinian militants by saying, "I think we have to be balanced about bringing in the outrages against Palestinians, 15,000 Palestinians have been killed." Jayapal later issued a statement clarifying that she "unequivocally" condemns "Hamas' use of rape and sexual violence as an act of war". As a senator, Biden was the author of the Violence Against Women Act, which was signed into law in 1994. He referenced his work on the issue as a lawmaker as he spoke out against the allegations of sexual violence by Hamas.

## **US** President: If Trump wasn't running I'm not sure I'd be running

**AP** ■ BOSTON

President Joe Biden told campaign donors Tuesday that he wasn't sure he'd be running for reelection if Donald Trump wasn't also in the race, warning that democracy is "more at risk in 2024" and that the former president and his allies are out to "destroy" democratic institutions. The president was using a trio of fundraisers to caution against what might happen should his predecessor again claim control of the White House, noting that Trump has described himself as his supporters' "retribution" and has vowed to root out "vermin" in

"We've got to get it done, not because of me. ... If Trump wasn't running I'm not sure I'd be running. We cannot let him win," Biden said, hitting the last words slowly for empha-

Biden's forceful rhetoric came as Trump, the current GOP front-runner, who tried to overturn the 2020 election he lost and is facing criminal charges connected to those efforts, attempted over the weekend to turn the tables by calling Biden the "destroyer of American democracy."

Trump on Tuesday was asked by Fox News Channel's Sean Hannity to promise he 'would never abuse power as

retribution against anybody." "Except for day one," Trump responded. "I want to close the border and I want to drill, drill, drill."

"After that I'm not a dictator," Trump added.

Biden, who said he is not alone in sounding the alarm over Trump, noted that Trump is the "only losing candidate" in US history to not accept the results.

Biden also said that on Jan. 6, 2021, as Trump supporters violently stormed the US Capitol in a failed attempt to stop the certification of the election results, Trump sat in his dining room just off the Oval Office, "watching them threaten his own vice presi-

New York (AP): Former President Donald Trump declined to rule out abusing power if he returns to the White House after Fox News Channel host Sean Hannity asked him Tuesday to respond to growing Democratic criticism of his rhetoric.

The GOP presidential front-runner has talked about targeting his rivals — referring to them as "vermin" and vowed to seek retribution if he wins a second term for what he argues are politically motivated prosecutions against him. As Trump has dominated the Republican presidential presidential primary, President Joe Biden has stepped up his own warnings, contending Trump is "deter-mined to destroy American democracv."

"Under no circumstances, you are promising America tonight, you would never abuse power as retribution against anybody?" Hannity asked Trump in the interview taped in Davenport, Iowa. "Except for day one,"

Trump responded. "I want to close the border and I want to drill, drill, drill." Trump then repeated his assertion. "I love this guy," he said of the Fox News host. "He says, You're not going to be a dictator, are you?' I said: 'No, no, no, other than day one. We're closing the border and we're drilling, drilling, drilling. After that, I'm not a dictator." Earlier in the interview, Hannity had asked Trump if he "in any way" had "any plans whatsoever, if reelected president, to abuse power, to break the law to use the government to go after people."

PTI ■ LONDON

 $B^{\text{ritain's former prime minister}} \ Boris \ Johnson \ on \\ \text{Wednesday said he is "deeply}$ sorry" for the pain and the loss caused by COVID-19 as he gave his evidence to the ongoing official public inquiry into the government's handling of the pandemic which hit the

country in early 2020. Johnson, who was in charge as the prime minister of the day, admitted he should have "twigged" the widespread health impact of coronavirus but insisted he had to take "very, very difficult decisions" as the crisis was fast unfolding. Inquiry chair Baroness Heather Hallett, who has been hearing evidence in London since June, had to get a protester removed from the room as they held up a poster reading: "The dead can't hear your apologies".

"I am deeply sorry for the pain and the loss and the suffering of those victims and their families," said Johnson, after swearing on the 'Bible' for his evidence.

"I do hope that this inquiry will help to get the answers to the very difficult questions that those victims and those families are rightly asking so that we can protect ourselves better, help each other to protect ourselves better and prevent further suffering," he said.

Chinese diplomats agreed on Wednesday to keep building on recent progress in bilateral ties and work together to keep the Israel-Hamas conflict in Gaza from spreading. Both Chinese Foreign Minister Wang Yi and US Secretary of State Antony Blinken referred in a telephone call to last month's closely watched meeting between the two countries' leaders in San Francisco following years of frigid ties. The important task for

both sides at present is to continue the positive impact of the San Francisco meeting, implement the consensus reached by the two heads of state, and consolidate the momentum of stabilising Sino-US relations, Wang said, according to China's Ministry of Foreign Affairs.

Blinken also emphasised that the two sides should build on progress at the summit, according to the US State Department. President Joe Biden and President Xi Jinping agreed at their meeting to keep channels of communication open and resume military-tomilitary talks. Yet, major political differences between the countries remain far from

Wang and Blinken also discussed the Israel-Hamas war, where China has been trying to play a role in negotiations, and agreed to maintain communications on the situation. Last Wednesday, China presented a four-point peace plan to the United Nations on ending the conflict, although the plan lacked detail. Blinken also raised recent attacks on shipping vessels in the Red Sea by Yemen's Houthi rebels, an escalation in a series of maritime attacks in the Mideast linked to the Gaza war, and said it was important to keep the

conflict from spreading. Wang said any solution to the crisis in Gaza requires a two-state arrangement that reflects the will of the Palestinian people.

# Top US, Chinese COP28 secures USD 83 bn in climate pledges

The first week of the COP28 cluded with a significant milestone with the operationalisation of the Loss and Damage Fund, pledges of over USD 83 billion and the draft text for Global Stocktake mentioning phasing out of all fossil fuels for the first time in years. However, even as over

USD 83 billion was mobilised in pledges questions persist about the voluntary nature of these commitments and the actual fulfilment by the participating nations. Amidst the discussions,

the issue of fossil fuels emerged as a focal point, with a new draft text of the Global Stocktake proposing options for the phase-out of unabated coal and an orderly and just transition away from fossil fuels which might be a contentious point for India. India has repeatedly stressed that

phasing out or phasing down coal language is something that it can't support.

India even skipped signing the pledge to commit to tripling the global renewable energy capacity by 2030 over this.

Over the reduction of greenhouse gases, India also refrained from signing the COP28 Declaration on Climate and Health.

As COP28 transitions into its second week, anticipation builds for increased progress in substantive negotiations, with the hope that the momentum generated by substantial financial pledges will translate into meaningful actions to address the global climate crisis.

# **Bodies of 6 crew lost in Osprey crash recovered**

**AP W**ASHINGTON

Air Force Special Operations Command said on Tuesday it has recovered the remains of six of the eight service members who were lost when their Osprey crashed off the coast of Japan last week, adding it is now focused on recovering the two bodies still missing and the aircraft debris. The CV-22B Osprey crashed on November 29 during a training mission. Ospreys have had a number of crashes, including in Japan, where they are used at US and Japanese military bases, and the latest has rekindled safety concerns.

Three bodies were recovered from the sunken wreckage, and a total of six of the eight crew members' remains that had been located have now been recovered, the Air Force said. The search continues for the remains of the two crew members still unaccounted for, it added. "The depth of sorrow is immeasurable," Lt. Gen. Tony Bauernfeind, who heads Air Force Special Operations Command, said in a statement announcing the names of the crew. The US-made Osprey is a hybrid aircraft that takes off and lands like a helicopter but can rotate its propellers forward and cruise much faster, like an airplane, during flight. The cause of the crash is under investigation.

Japan has suspended all flights of its own fleet of 14 Ospreys. Japanese officials say they have asked the US military to resume Osprey flights only after ensuring their safety. The Pentagon said no such formal request has been made and that the US military is continuing to fly 24 MV-22s, the Marine version of Ospreys, deployed on the southern Japanese island of Okinawa.

In Tokyo, Defence Ministry Press Secretary Akira Mogi said Tuesday that deployment of Ospreys is key to a defence buildup in southwestern Japan due to current regional security concerns but acknowledged the need to address the residents safety worries rekindled by the crash.

# Ukraine war grinds on

Russian President Vladimir Putin began a trip on Wednesday to Saudi Arabia and the United Arab Emirates, hoping to shore up support in the Mideast from two major oil producers allied to the US as his war on Ukraine grinds on. Putin landed in Abu Dhabi, the capital of the Emirates, a federation of seven sheikhdoms now hosting the United Nations' COP28 climate talks. It marked his first trip to the region from before the coronavirus pandemic and the war and as he faces an arrest warrant from the International Criminal Court over the war in

Neither Saudi Arabia nor the UAE has signed the ICC founding treaty, meaning they don't face any obligation to detain Putin over the warrant accusing him of being personally responsible for the abductions of children from Ukraine during his war on the country. Sheikh Abdullah bin Zaved Al Nahyan, the UAE's foreign minister, met a smiling Putin after he bounded down the stairs of his presidential plane. As he arrived at Abu Dhabi's Qasr al-Watan palace to meet Sheikh Mohammed bin Zayed Al Nahyan, the country's ruler, the UAE's military acrobatics team flew in formation with red, white and blue smoke trailing them in the colours of the Russian flag.

Putin last visited the UAE in 2019, receiving a warm welfrom Sheikh Mohammed, then the crown prince of Abu Dhabi. In the time since, however, the world has greatly changed.

The Russian president isolated himself during the coronavirus pandemic. He launched an invasion targeting Ukraine in February 2022, a grinding war that continues on today and has been a topic for Ukrainian diplomats at the COP28 talks.

The Pakistan Tehreek-e-Insaf (PTI) party leader approached the Islamabad

However, on January 18, the PTI filed a fresh plea in the IHC to withdraw the petition, saying the cricketer-turned-politician wanted the Lahore High Court (LHC) to hear the matter. A separate petition had been filed in the LHC against Khan's disqualification. A division bench of the IHC comprising Chief Justice Aamer Farooq and Justice Tariq Mehmood Jahangiri announced the verdict, which was reserved on September 13, rejecting Khan's request to withdraw his petition against disqualification in the case.

On Wednesday, the Dawn newspaper said, "The ECP issued its verdict in light of the Interior Ministry's denial to produce the former premier before the Commission during the last hearing, citing security concerns." Subsequently, on November 30, the ECP reserved a verdict and suggested the possibility of holding Khan's trial in the Adiala jail. ## **Mount Marapi eruption: More** bodies found, raising toll to 23

Rescuers searching the haz-ardous slopes of Indonesia's Mount Marapi volcano found the last body of climbers who were caught by a surprise week-end eruntion raising the num end eruption, raising the number of confirmed dead to 23, officials said Wednesday. About 75 climbers started their way up the nearly 2,900-metre mountain in Agam district of West Sumatra province on Saturday and became stranded.

Some 52 climbers were rescued after the initial eruption Sunday, and 11 others were initially confirmed dead. New eruptions on Monday and Tuesday spewed more hot ash as high as 800 metres into the air, reducing visibility and temporarily halting search and recovery operations, said Abdul Malik, chief of the Padang Search and Rescue Agency.

The bodies of two climbers

were located on Monday and nine more on Tuesday, the National Search and Rescue Agency said.

West Sumatra's Police Chief Suharyono said the body of the last climber was found early Wednesday, just a few metres from the eruption site, bringing the death toll rise to 23.

The rescuers contended with bad weather and difficult terrain, along with winds that brought heat from the eruptions, while distraught relatives gathered at a relief post command in Batu Palano on the mountain slope, hoping for news of missing family members. Twenty bodies had been taken to a hospital for identification by Wednesday morning, as more than 300 rescuers, including police and soldiers, struggled to bring the others down the mountain and search for the missing climber, said Suharyono who goes by a single name like many Indonesians. Marapi has stayed at the third highest of four alert levels since 2011, indicating above-normal volcanic activity under which climbers and villagers must stay more than 3 kilometres from the peak, according to Indonesia's Center for Volcanology and Geological Disaster Mitigation. Officially, climbers were only

allowed below the danger zone and had to register at two command posts or online. However, local officials acknowledge that many people may have climbed higher than permitted. Marapi spewed thick columns of ash as high as 3,000

metres in Sunday's eruption and hot ash clouds spread for several kilometers. Nearby villages and towns were blanketed by tons of volcanic debris that blocked sunlight, and authorities recommended that people wear masks to protect themselves from the

## Malala calls for making 'gender apartheid' crime against humanity

ikening the restrictions Limposed by the Taliban on women in Afghanistan to the treatment of Black people under apartheid in South Africa, Nobel Laureate Malala Yousafzai has urged the international community to make "gender apartheid" a crime against humanity.

Yousafzai, who was awarded the Nobel Peace Prize in 2014 when she was 17 for her fight for girls' education in Pakistan, was the speaker at the 21st edition of the annual Nelson Mandela Lecture here on Tuesday. At the event, international thought leaders share their views each year on the death anniversary of the global icon who became South Africa's first democraticallyelected president after serving 27 years as a political prisoner under the white minority apartheid government.

"The theme for this year is 'Leading for a just future," said the chairperson of the Nelson Mandela Foundation Board, Prof Njabulo Ndebele.

In her address, Yousafzai, now 26, said that the Taliban regime in Afghanistan was enforcing "gender apartheid" by denying girls and women the right to education and work. In the same way that whites in South Africa believed that it was in the natural order of things to separate Blacks, in Afghanistan, the Taliban say that oppressing girls and women is a matter of religion, she said. "So let me say this as plainly as possible – that is only an excuse but it is also not true," Yousafzai, who miraculously survived an assassination attempt by the Pakistani Taliban in October 2012, said.

Many Muslim scholars, including those from Afghanistan, have made clear that Islam does not condone denying girls and women the right to education and to work, she said.

#### Amrita Sher-Gil's Lahore residence to turn into museum

Lahore (PTI): Hungary plans to turn Hungarian-Indian painter Mansions on The Mall here into a museum, a top diplomat of the country said as several art lovers and intellectuals gathered for the unveiling of a commemorative plaque and an exhibition to pay homage to the celebrated artist.

In connection with her 82nd death anniversary on Tuesday, the Hungarian embassy in collaboration with the Punjab University College of Art and Design held a ceremony to install a commemorative plaque at her residence here in the capital of Pakistan's Punjab province and an exhibition to pay homage to her.

The recreated works by 13 university artists were on display at the exhibition. They recreated the artworks of Amrita Sher-Gil with the amalgamation of their ideas to pay homage to the distinguished artist.

Iran sends capsule capable of carrying animals into orbit

Tehran (AP): Iran said on Wednesday it sent a capsule into orbit capable of carrying animals as it prepares for human missions in coming years. A report by the official IRNA news agency quoted Telecommunications Minister Isa Zarepour as saying the capsule was launched 130 kilometres into orbit.Zarepour said the launch of the 500-kilogram (1,000-pound) capsule is aimed at sending Iranian astronauts to space in coming years. He did not say if any animals were in the capsule.

He told state TV that Iran plans to send astronauts into space by 2029 after further tests involving animals.State TV showed footage of a rocket named Salman carrying the capsule.Iran occasionally announces successful launches of satellites and other space crafts. In September, Iran said it sent a data-collecting satellite into space. In 2013, Iran said it sent a monkey into space and returned it successfully.

Reports said the country's Defense Ministry built and launched the Salman rocket while the capsule was built by the Iranian civil space agency. Media reports did not say where the launch took place. Iran usually makes launches from Imam Khomenei Space Centre in northern Semnan province. It says its satellite program is for scientific research and other civilian applications. The US and other Western countries have long been suspicious of the program because the same technology can be used to develop long-range missiles.

This photo released by the Iranian Defense Ministry on Wednesday claims to show a rocket with a capsule carrying animals is launched from an undisclosed location into orbit, Iran. Iran said Wednesday it sent a capsule into orbit carrying animals as it prepares for human missions in coming years.

### Taliban's abusive education policies harm boys as well as girls in Af

rhe Taliban's "abusive" edu-L cational policies are harming boys as well as girls in Afghanistan, according to a Human Rights Watch report published Wednesday. The Taliban have been globally condemned for banning girls and women from secondary school and university, but the rights group says there has been less attention to the deep harm inflicted on boys' education.

The departure of qualified teachers including women, regressive curriculum changes and the increase in corporal punishment have led to greater fear of going to school and falling attendance.

Because the Taliban have dismissed all female teachers from boys' schools, many boys are taught by unqualified people or sit in classrooms with no teachers at all.

Boys and parents told the hours during the school day rights group about a spike in the use of corporal punishment, including officials beating boys before the whole school for haircut or clothing infractions or for having a mobile phone. The group interviewed 22 boys along with five parents in Kabul, Balkh, Herat, Bamiyan and other communities in eight provinces. The Taliban have eliminated subjects like art. sports, English and civic edu-

1,14,902 entities as startups recognised

The government has recognised 1,14,902 entities as startups as on October 31, Parliament was informed on Wednesday

These eligible firms are allowed to seek fiscal incentives under the Startup India Action Plan, which was launched in January 2016, and that includes income tax exemption for three years. Replying to a question in the Lok Sabha, Commerce and Industry Piyush Goyal said the action plan includes 19 items spanning across areas such as simplification and handholding, funding support and incentives and industry-academia partnership and incubation.

The Department for Promotion of Industry and Internal Trade (DPIIT) "has recognised 1,14,902 entities as startups as on 31st October 2023," he said.

### Adani Group to invest \$75 billion to scale up AGEL RE portfolio to 45 GW: Gautam Adani

PTI NEW DELHI

Adani Group has plans to invest USD 75 billion on energy transition initiatives by 2030, its chairman Gautam Adani said on Wednesday. The investments will boost the group's vision to have 45

gigawatt of renewable energy

capacity by 2030, Adani said in a statement. "We are committed to largescale renewables, developing an

indigenous fully integrated manufacturing ecosystem and green hydrogen solutions. At the Adani portfolio level, a total investment of USD 75 billion by 2030 on our energy transition initiatives will further our vision to have 45 GW renewable energy capacity by 2030 and strengthen the pivotal role played by AGEL in India's glide path to decarbonization," the group chairman said.

The investments will be execut

# Arsenal slew of late winners highlights resilience

**AP** LONDON

They say little should be read into the Community Shield, the traditional curtainraiser to the English soccer sea-

Maybe this year is an exception. Back in early August, Arsenal scored an equalizer through Leandro Trossard in the 101st minute in regulation time and went on to beat Manchester City in a penalty shootout at Wembley Stadium.

Aside from winning a piece of silverware, it was hailed by Arsenal's players as a statement victory - despite the uncompetitive nature of the fixture.
"The mental block is gone,"

goalkeeper Aaron Ramsdale said that day, a reference to his team stumbling late in last season's Premier League title race and finishing behind City. Well, maybe they are right.

And that's not just because Arsenal woke up Wednesday to a five-point lead in the Premier League. It's because of how the team has got there. Scoring late goals - a trait

demonstrating resilience and character - has become the norm for Arsenal. Dare it be said, it's a sign of a champion

Just in the first 15 league games of this season, Arsenal has scored in the 96th and 101st minutes to beat Manchester United 3-1; in the 86th minute to beat Man City 1-0; in the 84th minute to draw 2-2 at Chelsea; in the 89th minute to beat Brentford 1-0; and, on Tuesday, in the seventh minute of stoppage time to win 4-3 at Luton.

That's nine points gained with goals scored from the 84th minute or later. Maybe that late rally in the Community Shield was a portent for how this season will go.

"We don't want a draw, we want to win," Arsenal manager Mikel Arteta said. "That drive, that energy, that risk and emotion that we put in the pitch, you can sense it

The seeds of these comeback wins were sewn last season when Arteta's teams produced a number of late recoveries in games to snatch crucial points in the title race.

The most memorable was Reiss Nelson's winning goal against

Bournemouth that sent Arsenal key players - William Saliba, in fans wild at Emirates Stadium. That was in the 97th minute and gave Arsenal a five-point lead in the league, just like Declan Rice did with his winner against Luton.

Arsenal again looks to be the team most likely to stop City winning the Premier League. Last season, its title bid imploded in the final two months, weighed down by injuries to

particular - and a naivety in dealing with holding off a fastfinishing juggernaut like City. Could this season be different? Arsenal has a few things going in its favor.

Rice, a club-record signing for \$138 million in July, is an upgrade in central midfield has already contributed crucial goals against United

There's better strength in depth across the squad, in terms of numbers and experience.

Arteta's approach also appears to be different this season, going for more control than chaos - before the Luton game, anyway - to help the team better last the distance in a grueling campaign that also includes playing in the Champions League. In this respect, Arteta seems to be using the playbook of City manager Pep Guardiola from last season.

"Playing every three days and you have to win every game and every game, the demands are there," Arteta said. "It's the way they go about it, how much they want it"

After the pain of the end of last season, Arsenal's players might want it even more.

There are questions marks about the wisdom of Arteta's decision to bring in goalkeeper David Raya and promote him above Ramsdale, last year's first-choice keeper. Raya was at fault for two goals against Luton and has looked shaky in other games, notably in the

### Nick will be out for four months

**AP** ■ NEWCASTLE (ENGLAND)

Newcastle United goal-keeper Nick Pope will be out for "around four months" after dislocating his left shoulder, manager Eddie Howe said Wednesday, in the latest injury to hit the Premier League team.

It leaves Pope in a race against time to make England's squad European the Championship, which starts in June.

The 31-year-old Pope sustained the injury as he dived to his left in an attempt to save a shot by Manchester United defender Sergio Reguilon that was blocked in front of the Newcastle keeper. Howe said Pope will

require surgery.
"The operation hasn't happened yet," Howe said, "but we're thinking roughly around four months. So, it's a big blow to us but one that we expected after the game.

"He's naturally down because where we have so many games, huge games coming up - he's got, obviously, the Euros ahead of him as well, which he was determined to try to be involved in, and there's still chance of that for him.

Slovakia international Martin Dubravka will replace Pope, with Howe also having former Liverpool goalkeeper Loris Karius in the squad. Newcastle have been linked with a move for former Manchester United keeper David de Gea, who is current-

ly without a club, but Howe

said no approaches have been made. 'We have not made any inquiries or any decisions about our recruitment leading into January," Howe said.

'This is a chance for the goalkeepers we have at the football club to consolidate their positions, and that will be the same for every other position at the club."

> Sean Longstaff, Jacob Murphy and Harvey Barnes are among those currently missing because of injuries for Newcastle.

# Botafogo squanders 13-point lead to lose national league title

**AP** ■ SAO PAULO

There's an old saying in Brazilian soccer: some things only happen to Botafogo. The reference to the club's historic lack of luck has never rung The club of World Cup winning

greats like Mané Garrincha, Jairzinho and Mário Zagallo squandered a 13-point lead in the Brazilian league and now Palmeiras is very likely to defend its title on Wednesday. It's the first time a team has lost such a big advantage in the South American nation's top The last round will take place

without any hopes for Botafogo fans at Internacional but to finish in fourth position, which would be enough to secure a direct spot at the next Copa Libertadores. The Rio de Janeiro club is currently fifth. Botafogo was on the top of the standings for 31 of 38 rounds, giving long-suffering supporters confidence their club would lift its first national title since

But now Palmeiras is in a position where it doesn't necessarily have to win its last game to secure another title. Even with a loss at Cruzeiro, Palmerias can clinch the league as long as Atletico Mineiro doesn't erase a differential of eight goals. Flamengo has a slim title chance, but that depends on an

Botafogo's title hopes vanished for the season after a 0-0 draw with Cruzeiro on Sunday, a match that ended with some supporters hurling insults at players and burning team shirts at the Nilton Santos Stadium. Only a few seasons ago the fans would have been excited just to finish near the top. But after American businessman John Textor bought the club's soccer division last year, expectations

rose dramatically. "We needed to be a little bit more humble. We needed to read every match, read the even more unlikely combination of results involving other moment of the club," veteran striker Diego Costa, who

arrived in the middle of the season, told journalists on Sunday. "We needed to leave our ego outside so we could achieve better results. I hope this is a good teaching for all those who are here. Soccer makes you pay." It was against Wednesday' rival, Internacional, that Botafogo achieved its 13-point advantage on August 12. By then, some fans had tattooed the Brasileirao trophy on their bodies, laughed at rivals losing points to relegation contenders and started debating what round the team would be crowned.

"Follow the leader!," Botafogo fans chanted after every win by

their team of little known players such as goalkeeper Lucas Perri, defender Adryelson, midfielder Eduardo and striker Segovinha.

But then ... It was some-thingsonly-happen-to-Botafogo time. est matches in the competition. Last week, the team scored an apparent winner from the spot against relegated Coritiba in the 90th minute, only to see their opponents equalize 49 seconds

later.
"Making fun of a Botafogo fan today is like finding a dead body on the sidewalk, kick it and run away laughing," said social media mogul Felipe Neto, one of the club's most popular supporters.

The dead body can no longer

feel anything. Botafogo's downfall accelerated at the end of June after Portuguese coach Luis Castro left for Saudi Arabia's Al-Hilal following a call from Cristiano Ronaldo. Castro's replacements, Bruno Lage, Lucio Flavio and Tiago Nunes weren't able to keep up the team's fighting spirit and attacking mentality. Some of Botafogo's losses came in such shocking fashion that rival fans pitied the club's fate. One glaring example was a home match against Palmeiras on November 1, when Botafogo was already in a dwindling form but still could have extended its lead in the league to six points. The team led 3-0 after 37 minutes.

The home side was all out for 172 but hit back strongly to reduce New Zealand to 55-5 in 12.4 overs before bad light

forced stumps. Both teams' batters struggled on a wicket where most of the balls kept low and the bounce was uneven. The New Zealand bowling attack maintained a tight line and length to create pressure by conceding just eight runs in the first seven overs after Bangladesh captain Najmul Hossain Shanto opted to bat

Left-arm spinner Mitchell Santner (3-31) and offspinner Glenn Phillips (3-65) shared six wickets to wreak havoc on the Bangladesh batting lineup. Ajaz Patel, another left-arm spinner, claimed 2-54 while skipper Tim Southee took one wicket without conceding a single run in 5.2 overs.

Mushfiqur Rahim made a teamhigh 35 before becoming the first Bangladeshi batter to be dismissed for handling the ball. While defending a delivery from fast bowler Kyle Jamieson, the team's most experienced batter used his right hand to push the ball away even though it wasn't

close to the off-stump. After New Zealand appealed for the out, the third umpire checked and then gave him out for obstructing the field.
Bangladesh's first boundary

came in the eighth over when Zakir Hasan drove Patel through cover for four. The pressure eventually got the better of Zakir (8) when he played a rash shot against Santner and chipped it straight to mid-on. In the next over, Patel dismissed Mahmudul Hasan (14) after he was beaten by the drift to give a catch at short-leg.

Mominul Haque (5) was the next to go when he was caught behind off Patel's bowling. But the biggest blow for Bang-ladesh followed in the next over

when captain Najmul Hossain Shanto (9), who hit a century in the previous test, attempted a reverse sweep against Santner. The on-field Umpires turned down the appeal but New Zealand reviewed it successfully to leave Bangladesh 47-4. Mushfiqur and Shahadat

Tom Latham and Devon Conway started cautiously but Mehidy broke through with a delivery that Conway thought would turn. Instead it went straight to crash the stump as Conway was out for 11.

Taijul then dealt a double blow by dismissing Latham and Henry Nicholls.

New Zealand fell into deep trouble when Kane Williamson, the centurion of the previous test, ended up getting an inside edge towards short while defending a quicker delivery of Mehidy. Just a ball later, Mehidy fired

# Will play IPL until I cannot walk anymore: Maxwell

Star Australia all-rounder Glenn Maxwell has vowed to play in the world's biggest cricket league, the IPL "until he can't

The 35-year-old, who played a massive role in Australia's ODI World Cup-winning campaign in India recently, will once again don the colours of Royal Challengers Bangalore in the IPL next year.

The IPL will probably be the last tournament I ever play, as I will play the IPL until I can't walk anymore," Maxwell was quoted as saying by Australian Associated Press (AAP) at the Melbourne Airport on Wednesday.

'I was talking about how good the IPL has been to me through-out my career, the people I've
