RELIEF FOR MIDDLE CLASS

Tax relief for the middle class, huge allocation infraructure and education

> sectors revival of 50 airports, and a major leg up to auto some of the key highlights of the Union Budget 2023-24 presented by Finance Minister Nirmala Sitharaman on Wednesday. In a relief for the

> middle class, the Finance Minister announced that those with an annual income of up to ₹7 lakh will pay no tax under

new tax regime. However, she made no changes for those who would prefer to continue in the old regime that provides for tax exemptions and

Sitharaman reduced surcharge from 37 per cent to 25 per cent for high net worth individuals with income above ₹2 crore. This would translate into a saving of around ₹20 lakh for those having a salary income of about ₹5.5 crore.

In what is being seen as a push for salaried class taxpayers to switch to a new tax regime where no exemptions on investments is provided, the Finance Minister in her Budget allowed a standard deduction of ₹50,000 under the new

The old tax regime provides for a similar deduction and no tax on income up to ₹5 lakh. Also, the basic exemption limit has been raised to ₹3 lakh from ₹2.5 lakh. A ₹2.5 lakh basic exemption limit was prescribed in the old tax

The move will lead to a saving of ₹33,800 for those earning up to ₹7 lakh annually and opting for a new tax regime. Those with income up to ₹10 lakh would save ₹23,400 and ₹49,400 saving would accrue to those earning up to ₹15 lakh.

In her Budget speech, Sitharaman said currently indideductions on investments and expenses such as HRA. viduals with a total income of up to ₹5 lakh do not pay any

"It is proposed to increase the rebate for the resident individual under the new regime so that they do not pay tax if their total income is up to ₹7 lakh," Sitharaman said, adding that the number of slabs would be reduced to five.

Under the revamped new tax regime, no tax would be levied for income up to ₹3 lakh. Income between ₹3-6 lakh would be taxed at 5 per cent; ₹6-9 lakh at 10 per cent, ₹9-12 lakh at 15 per cent, ₹12-15 lakh at 20 per cent and income of ₹15 lakh and above will be taxed at 30 per cent.

"I propose to extend the benefit of standard deduction to the new tax regime. Each salaried person with an income of ₹15.5 lakh or more will thus stand to benefit by ₹52,500," Sitharaman said.

The Government in the Budget 2020-21 brought in an optional income tax regime, under which individuals and Hindu Undivided Families (HUFs) were to be taxed at lower rates if they did not avail specified exemptions and deductions, like house rent allowance (HRA), interest on home loan, investments made under Section 80C, 80 D and 80 CCD. Under this, total income up to ₹2.5 lakh was tax

Currently, a 5 per cent tax is levied on total income between ₹2.5 lakh and ₹5 lakh, 10 per cent on ₹5 lakh to ₹7.5 lakh, 15 per cent on ₹7.5 lakh to ₹10 lakh, 20 per cent on ₹10 lakh to ₹12.5 lakh, 25 per cent on ₹12.5 lakh to ₹15 lakh, and 30 per cent on above ₹15 lakh.

In her post-Budget interaction with the media, the FM said the Government has made the new income tax regime more attractive for taxpayers and has thus brought about "substantial changes" in its structure for the benefit of the middle class.

"The personal income tax has had substantial changes (in the Budget) which will benefit the middle class. The new taxation regime has now got greater traction and incentive so that people can now unhesitatingly move to the new regime from old," the Finance Minister said.

Sitharaman said the Government wants to make the new tax regime attractive enough and compliance should not be burdensome on taxpayers. However, if someone feels the old regime is more beneficial, he/she can contin-

Prime Minister Narendra Modi on Wednesday hailed the Union Budget as the trill "Gold I are the trill "Gold I a that will "fulfil dreams of the aspirational society, farmers and middle class".

In his first reaction to the Budget, Modi said the first Budget of the "Amrit Kaal" provides the foundation to fulfil the resolve for a developed India while giving priority to deprived sections of society as well. The Prime Minister said it will fulfil dreams of the aspirational society, farmers and middle class.

The middle class is a big force to fulfil dreams of a prosperous and developed India and our Government has taken many decisions to empower it, he said. "Our Government that always stood with the middle class has given huge tax relief to them," Modi said.

The Prime Minister con-

PIONEER NEWS SERVICE NEW DELHI

The Modi Government has laid massive thrust on building road, rail and ports infrastructure in the Union Budget announced on Wednesday.

While the biggest gainer of this year's Budget is Indian Railways with the highest ever capital outlay of ₹2.40 lakh crore, Finance Minister Nirmala Sitharaman also increased the allocation for the roads and highways sector with an enhanced out-

lay of ₹2.70 lakh crore. The outlay for the railways is nine times the amount provided in 2013-2014. Till 2014, Railways' capital expenditure was barely ₹45,980 crore annually but now a lot of projects are underway across the

The FM said she has allocated adequate funds to scrap old vehicles owned by the Central Government, and States will also be supported in replacing old vehicles and ambulances. Presenting the Budget for 2023-24, she said replacing old polluting vehicles is an important part of greening the economy.

Recently, Union Minister Nitin Gadkari had said more than nine lakh vehicles, owned by Central and State Governments, transport corporations and public sector undertakings, that are older than 15 years will go off the road from April 1 and new vehicles will replace them.

She also spoke about the recently launched National Green Hydrogen Mission with an outlay of ₹19,700 crore. which will facilitate transition of economy to low carbon intensity, reduce dependence

on fossil fuel imports and make the country adopt technology and market leader-

ship in this sector. "I come to green growth. The Prime Minister has given vision for LiFE, or lifestyle for environment. To spur a movement for environmentally conscious lifestyle, India is moving firmly for the panchamrit, the net zero carbon emission by 2070, usher in green industrial and economic transition. This Budget builds on our focus on green growth," the Finance

Minister said in her Budget speech. "I would like to thank the Finance Minister for proposing ₹20,700 crore investment in the renewable energy sector, ₹19,700 crore for National Green Hydrogen Mission and enforcing provisions for vehicle scrappage policy for a sustainable and energy-efficient future," com-

To improve regional air connectivity, the Narendra Modi Government will revive 50 additional airports, heliports, water aerodromes and advanced landing grounds in the next financial year.

The announcement was made by Finance Minister Nirmala Sitharaman while presenting the Union Budget for 2023-24. The announcement is part of a target to operationalise 1,000 UDAN routes during the currency of the scheme.

The allocation for the Civil Aviation Ministry in the Union Budget has more than halved to

(₹3.026.70 crore from revenue and ₹86.66 crore from capital). especially due to a sharp reduction in the amount set aside for Air India Asset Holding Ltd. For 2022-23, the revised allocation is ₹9,363.70 crore which is lower than ₹10,667 crore estimated earlier.

As per the Budget document, the allocation for the Directorate General of Civil Aviation (DGCA) and the Bureau of Civil Aviation Security (BCAS) has been increased to Rs 73.74 crore and Rs 309 crore, respectively. In the next financial year, Airports Authority of India (AAI) is to raise Rs 3,448.21 crore by way of Internal and Extra Budgetary Resources (IEBR).

In the previous Union Budget, the Finance Minister had allocated Rs 10,667 crore for the Civil Aviation Ministry. The regional connectivity programme UDAN (Ude Desh ka Aam Naagrik) will get Rs 600.7 crore of the overall allocation, while AI Asset Holdings Ltd will receive Rs 9,259 crore for servicing the loans transferred to the special purpose vehicle (SPV) for the financial restructuring of Air India.

UDAN flights have transported almost close to 1.15 crore people in the last six years. In her first address to the joint sitting of Parliament on Tuesday, President Droupadi Murmu said the country's aviation sector is growing rapidly. "Up to 2014, the number of airports in the country was 74, it has now increased to 147. Today India has become the third-largest aviation market in the world. The UDAN Yojana has played an important role in this regard," she had said.

"The ultimate interest is to make the simpler (new) regime more attractive," Sitharaman said. Revenue Secretary Sanjay Malhotra said majority of taxpayers would find it more attractive to shift to the new regime. Malhotra, however, did not give details on the number of taxpayers who have migrated to the new

tax regime since 2020-21.

The FM has made a determined effort to arrive at a fiscal deficit level below 4.5 per cent of the GDP by 2025-26.

For 2023-24 the Finance For 2023-24, the Finance Minister has fixed the deficit at 5.9 per cent below the 6.4 per cent budgeted for 2022-23. Fiscal deficit for 2021-22 was 6.7 per cent, lower than 6.9 per cent in the revised Budget esti-

"In my Budget Speech for 2021-22, I had announced that we plan to continue the path of fiscal consolidation, reaching a fiscal deficit below 4.5 per cent by 2025-26 with a fairly steady decline over the period. We have adhered to this path, and I reiterate my intention to bring the fiscal deficit below 4.5 per cent of GDP by 2025-26," Sitharaman

The Budget focused on energy transition with an outlay of Rs 35,000 crore to encourage green mobility with initiatives like vehicle scrappage police, hydrogen fuel electric vehicles. Sitharaman announced that the subsidies on Electric Vehicle batteries will be extended for one more year, hence manufacturing of EVs cheaper in India. Sitharaman said she has allocated adequate funds to scrap old vehicles owned by Central Central Government, and States will also be supported in replacing old vehicles and ambulances.

Presenting the Budget for 2023-24, she said replacing old polluting vehicles is an important part of greening the economy. The Budget has laid massive thrust on building road, rail and ports infrastructure in the Union Budget announced on Wednesday.

While the biggest gainer of this year's Budget is Indian Railways with the highest ever capital outlay of Rs 2.40 lakh crore, The Finance Minister also increased the allocation for the roads and highways sector with an enhanced outlay of Rs 2.70 lakh crore The outlay for the railways is nine times the amount provided in 2013-2014. Till 2014, Railways' capital expenditure was barely Rs 45,980 crore annually but now a lot of projects are underway across the country.

The allocation for rolling stock for the railways has almost doubled from Rs 15,157.86 crore in RE 2022-23 to Rs 37,581 crore in 2023-24.

With a whopping budget allocation of Rs 1.12 lakh crore for education, the Budget granted the highest allocation ever to the Education Ministry with certain new intakes on the platter like developing three centres of excellence for artificial intelligence (AI) in top educational institutions and 100 labs in engineering institutions for developing applications using 5G ser-

Along with increased expenditure on education for FY23-24, Sitharaman also proposed some key reforms and initiatives to boost quality of education at all levels and support upskilling of youth. To improve regional air connectivity, the Budget proposed to revive 50 additional airports, heliports, water aerodromes and advance landing grounds in next financial year.

Underlining that a new dimension has been added to women self-help groups in the new Budget with the introduction of a special savings scheme, the Prime Minister said it will strengthen women especially the homemaker from common families.

This Budget, the Prime Minister said, will make cooperatives a fulcrum of development of the rural economy.

The Government, he said, has come up with the world's largest food storage scheme in the co-operative sector. An ambitious scheme to form new primary co-operatives has also been announced in the Budget, Modi said.

This will expand the area of milk and fish production along with farming, and farmers, animal husbandry and fishermen will get better prices for their produce, he said.

Noting that the world is celebrating the International Year of Millets, Modi said there are many types of millets in

India with multiple names. The Prime Minister said special recognition of millets is necessary when it is reaching households all over the world. 'This superfood has been given a new identity of 'Shree-Anna', Modi said, as he underlined that small farmers and tribal farmers of the country will get economic support. > "In the Budget, we have laid a lot of emphasis on technology and the new economy. Aspirational India of today wants modern infrastructure in every field like road, rail, metro, port, and waterways. Compared to 2014, invest-

ment in infrastructure has increased by more than 400 per cent," Modi said. The Prime Minister said the unprecedented investment of Rs 10 lakh crores on infrastructure will give new energy and speed to India's development.

He asserted that these investments will create new employment opportunities for the youth, thereby providing new income opportunities to a large section of the population.

In his remarks, the Prime Minister also touched upon the ease of doing business which is taken forward through the campaign of credit support and reforms for industries.

"An additional loan guarantee of Rs 2 lakh crore has been arranged for MSMEs," he said, noting that increasing the limit of presumptive tax will help MSMEs to grow.

He also said a new arrange ment has been made for timely payments by big companies to MSMEs. "I once again congratulate Nirmala ji and her entire team for this all-encompassing budget that would give speed to building a developed India," Modi said.

The Prime Minister said in general that this year's Budget infused new energy to India's development trajectory.

Privacy policy: SC asks WhatsApp to give wide publicity to undertaking given to Centre in 2021

PTI ■ NEW DELHI:

the Supreme Court on ■ Wednesday directed WhatsApp to widely publicise its undertaking given to the Centre that it will not limit functionality for users not agreeing to its 2021 privacy policy but will continue to remind users about the update, and "maintain this approach" till the proposed data protection law comes into effect.

In a letter written to the Ministry of Electronics and Information Technology on May 22, 2021, WhatsApp had assured the government that the privacy of users remains the highest priority and that it will not limit the functionality. The apex court was hear-

ing a plea filed by two students -- Karmanya Singh Sareen and Shreya Sethi -- challenging the contract entered into between WhatsApp and its parent Facebook to provide access to calls, photographs, texts, videos and documents shared by users, saying it is a violation of their privacy and free speech.

Observing that the matter needs consideration, a fivejudge Constitution bench headed by Justice K M Joseph asked the mobile messaging app to give advertisements in five newspapers to publicise its 2021 undertaking given to the government. "We record the stand taken in the letter dated May 22, 2021 (to the government) and we record the submission of the senior counsel for WhatsApp that they will abide by the terms of the letter till next date of hearing.

The Budgetary allocation to road transport and Highways Ministry (MoRTH) got a raise by 36 per cent for 2023-24. This is nearly 10 per cent jump over the budgetary allocation of ₹1.99 lakh crore made in the Budget for 2022-23. Road Transport Minister Nitin Gadkari in his reaction said

that inclusive development, reaching the last mile, infrastructure and investment, unleashing the potential, green growth, youth power and finance sector, the Budget adopts the priorities which complement each other. Higher budgetary allocations were necessary to help the

Ministry meet the 25,000-km road development target announced by the government in the 2022-23 Budget, amid rising interest expenses and increasing land acquisition costs. The Government had set a target of 13,000 km of highway

construction in FY2022-23, but the speed of construction was affected by pandemic cascade effect and weather conditions.

The Road Ministry is likely to complete the construction of 11,000 km of national highways in the current financial year. The Ministry has missed its target for two years in a row. It had failed to meet its target of building 12,000 km in 2021-22 and 13,000 km in 2022-23 by 1,000 and 2,000 km, respectively.

The FM also said 100 critical transport infrastructure projects for last- and first-mile connectivity for ports, coal, fertiliser and food grain sectors have been identified and will be taken up on a priority basis with investment of ₹75,000 crore, including ₹15,000 crore from private sources.

Budget injustice to Delhiites: CM

hief Minister Arvind Kejriwal criticised the Union Budget, saying it is unjust to the city's people as Delhi's share in the Central taxes remains low at only ₹325 crore and that it does not have any concrete plan for tackling unemployment and inflation.

Kejriwal noted allocations for education and health sectors have also been reduced. "This Budget will not provide any relief from inflation...it will lead to an increase in inflation.

"It does not have any concrete plan for tackling unemployment while the reduction of allocation for the education sector from 2.64% to 2.5% is unfortunate. The reduction in the allocation to the health sector from 2.2% to 1.98% is harmful," he tweeted in Hindi.

"Step-motherly treatment again with the people of Delhi. The Delhiites paid more than ₹1.75 lakh crore income tax last year. Out of that only ₹325 crore was given for the development of Delhi. This is a gross injustice to the people of Delhi,"

Sitharaman holds a folder-case containing the Union Budget 2023-24 with Ministers of State for Finance Pankaj Chaudhary, Dr Bhagwat Kishanrao Karad and officials poses for photographs outside the Finance Ministry at North Block, in New Delhi on Wednesday, Ranjan Dimri I Pioneer

Kejriwal said in a series of tweets. Delhi Deputy Chief Minister Manish Sisodia called the Union Budget 2023-24 announced by the BJP-led Centre on Wednesday nothing but a 'jumla' and said it would only immerse the country into debt, while labelling the exercise "depressing". Sisodia said this budget will add a debt of ₹15 lakh crore. "We all know

that the Bharatiya Janata Party (BJP) has made terms like 'acche din' a jumla. The budget by BJP-led Centre is nothing but a jumla. We have heard many such jumlas in the past —like introduction of bullet trains or the promise of doubling farmers' income or creating 60 lakh jobs," he said during a press conference.

Alleging that the budget will further immerse the country in debt, he said that till 2014, the Centre had a debt of ₹53 lakh crore and during two successive terms of the BJP-led NDA Government, the country came under a debt of ₹150 lakh crore and "this budget will further immerse the country under additional ₹15 lakh crore debt". "You speak to any economist. This is a dangerous

thing," he said. The budget is disappointing for Delhiites, he said, adding that only Rs 325 crore was allocated for the national Capital under the subhead of grant in lieu of taxes even though Delhi pays over 1.75 lakh crore income tax. The amount of ₹325 crore

has remained unchanged for the last 22 years, Sisodia claimed. He claimed that budget had nothing to offer for employment generation or keeping a tab on the increasing inflation and opined that it only had announcements for super-rich". "For Delhi it's a budget

with no benefits. We pay ₹1.78 lakh crore as tax but in return we are allocated ₹325 crore only. Rest of the states get 42 per cent of the central taxes and Delhi gets only ₹325 crore. Delhi is always treated

badly. This is not only happened with the Aam Aadmi Party Government. This has been the situation since 2001. Twenty-two years have passed but we get the same amount. This is injustice to Delhi," he said. The Deputy Chief Minister also rued that even

tions of other states get funds from the Centre, the Municipal Corporation of Delhi (MCD) does not get any such funds.

Meanwhile, the AAP on Wednesday questioned Union Finance Minister Nirmala Sitharaman's claim about doubling of per capita income since 2014, saying it is 'Amrit Kaal' for Prime Minister Narendra Modi, not for the common people of the country. "Neither did the

Minimum Support Prices (MSP) of crops increase nor did the youth get employment. But this is Amrit Kaal for Modi ji. Nirmala ji is saying per capita income has doubled," AAP's Rajya Sabha MP Sanjay Singh, who is also the party's national spokesperson, said in a series of tweets in Hindi, wondering "whose income" doubled.

Latching on to the Finance Minister's proposal that 50 additional airports will be revived, the AAP MP took a swipe at Prime Minister Narendra Modi. "Modi ji will build 50 new airports. Who will get them?" Singh said in a

BJP hails Budget, says it has taken care of every section of society

Delhi BJP on Wednesday hailed the Union Budget 2023 presented by the Finance Minister Nirmala Sitharaman saying it has taken care of every section of the society.

Delhi BJP working president Virendra Sachdeva said that this Budget will make a positive impact on the life of the last person of the society as also those in the highest echelon of the society.

This budget has brought

something or the other meaningful for youth, women, senior citizens, farmers, investors and industry. This is not only a comprehensive budget but also a green budget.

"While raising of the income tax exemption limit from ₹5 lakh to ₹7 lakh will benefit the lower middle class living in the national Capital, this budget will also benefit the youth doing their first job in life. 48 lakh youth across the country will get benefits from the Direct Benefit Transfer

Appreciating the budget, Leader of Opposition in Delhi Assembly Ramvir Singh Bidhuri said that the budget for the year 2023-24 is the current and future budget of India under the leadership of Prime Minister Narendra Modi.

"The Government has ensured that the "economic structure" of the country remains "strong and stable", while giving relaxation to those who need it.

"I welcome the budget. Given the conditions that not only our country but the world has faced during Covid-19, I really welcome the Budget that the Central Government has presented," Bidhuri said.

"The budget for the middle class is as per their expectations. There was a demand from the middle class to increase the income tax exemption limit, that has been completed in this budget.

The kind of rebates that have been given to taxpayers in personal tax, from ₹5 lakh to ₹7 lakh... And even after that ed keeping in mind how they can save money. It's giving a major relaxation to the taxpayers," he said.

"Apart from this, many impressive schemes have been given in the budget for women, farmers, laborers and for the poor. Provision of free food for 80 crore poor people is the achievement of this budget. Apart from this, 4 Pradhan Mantri Kaushal Vikas Yojanawill be launched.

30 Skill India International Centers will be set up in the states to skill the youth for international opportunities. 38 thousand teachers and supporting staffers will be recruited in the next three years for 740 Eklavya model residential schools.

Mahila Samman Bachat Patra Yojana will be started, in which women will get 7.5 percent interest on savings of ₹ 2 lakh. 157 Nursing Colleges will be opened and PM PRANAM scheme will be launched to promote alternative fertilizers," Bidhuri said.

The GOBARdhan scheme also aims to make farmers more self-reliant in converting 'waste to energy.' For every district, the Government of India provides technical assistance as well as financial support of up to 50 lakhs to achieve the safe disposal of cattle and organic

farmers and cattle herders.

In the long run, the scheme aims to help villages safely manage their cattle waste, agricultural waste, and organic waste. Develop decentralized systems to turn cattle and organic waste into wealth for communities. The effective disposal of waste in rural areas is to reduce vector-borne diseases and promote environmental sanitation.

Besides, the government will take up mangrove plantation along the coastline under the new MISHTI scheme, she added. Sitharaman also said the government would promote conservation values through a scheme to encourage optimal use of wetlands.

Further, a green credit programme will be notified to incentivise environmentally sustainable and responsible actions by companies, she said.

Gaurav Kedia, Chairman, Indian Biogas Association said the Budget prioritizes the adoption of green fuel, energy, and building practices to reduce carbon intensity and create new green job opportunities.

Congress leader Rahul Gandhi slammed the Modi Government over the budget, claiming that its 'mitr kaal' budget (as against Amrit kaal budget described by the BJP) "has no vision to create jobs as well as no plan to tackle inflation, and proves that the Centre has no roadmap to build India's future."

"Mitr Kaal Budget has: NO vision to create Jobs. NO plan to tackle Mehngai. NO intent to stem Inequality. 1% richest own 40% of the wealth, 50% poorest pay 64% of GST, 42% youth are unemployed -yet, PM doesn't Care!", Rahul said in a tweet.

Boost to Ayush services, research

The integration of the Ayush The integration of the system in the National Health ecosystem has got a major boost in the Budget 2023-24 presented by Finance Minister Nirmala Sitharaman on Wednesday.

The total allocation to the Ayush Ministry has increased by 20 per cent to Rs 3,647 crore. The budget has also emphasised on promoting evidence-based research in Ayush systems through Ayush research coun-

"The budget allocation to centrally-sponsored National Ayush Mission (NAM) has got a 50 per cent increase from Rs 800 crore to Rs 1200 crore. The NAM is majorly focused on providing cost effective Ayush services with the universal access through up-gradation of Ayush Hospitals and Dispensaries, comprehensive primary health care through upgrading health care facilities

as Health & Wellness Centers (HWC), and co-location of Ayush facilities at PHCs, CHCs & DHs", said Ayush Ministry in a statement. The NAM also supports

cultivation of medical plants, production of quality and standardised ingredients for supply of Ayush, integration of medicinal plants in farming systems and increasing export of value added items of medicinal plants. All the states (Rs 920 crore), union territories (Rs 96 crore) and north eastern areas (Rs 231 crore) have also witnessed an increase in grants-in-aids i.e from Rs 861.97 crore to Rs 1,246.73 crore, said the ministry.

The ministry said, "The budget considers the strength of the traditional Indian system of medicine. Other Ayush systems like homeopathy, unani, siddha, naturopathy and sowa rigpa need to be promoted through enhancing education facilities and community outwww.dailypioneer.com

Good Budget

Budget 2023-24 has something for everyone, and vet there has been no fiscal profligacy

here is a term often used for pre-poll budgets, mostly by the Opposition to disparage the government of the day — 'political budget.' Finance Minister Nirmala Sitharaman's Budget 2023-24 certainly doesn't fall under this category. One of the biggest political budgets was the one that the Congress-led United Progressive Alliance government made in 2008. It announced a Rs 60,000-crore farm loan waiver, which went up to almost Rs 72,000 crore. The waiver helped the UPA's return to power next year. There was a strong correlation between the amount spent in states and the UPA's electoral fortunes in it. Thankfully, Sitharaman has steered clear of the reprehensible populism the UPA exhibited 15 years ago. Yes, she can be accused of

trying to placate income-tax payers by giving them relief, but the fact is that it was long overdue. The point to be stressed here is that the biggest beneficiaries are those who are in the lowest brackets. This means more money in the pockets of common people which they will either invest or spend — and thus boost demand and savings, both of which are desirable. Micro, small and medium enterprises have also been extended income-tax benefits. What is conspicuous about personal income-tax cuts is the fact that the people in the highest tax slab have also been given relief. The highest tax rate in our country is 42.74 per cent, which is among the highest in the world. She has proposed to bring this down to 39 per cent.

This is a very courageous step in a country where it is fashionable to slam the rich — and especially when her party is gearing up for the general elections in 2024.

In line with the Narendra Modi Government's emphasis on infrastructure, the Finance Minister has steeply increased, third time in a row, the capital investment outlay by 33 per cent to Rs 10 lakh crore. This is around 3.3 per cent of the gross domestic product or GDP. This will be almost three times the outlay in 2019-20. She went on to point out that the direct capital investment by the Centre is complemented by the provision made for creation of capital assets through grants-in-aid to states, thus making the 'effective capital expenditure' to Rs 13.7 lakh crore. She rightly emphasised upon her Government's focus on capital expenditure to enhance growth potential, generate jobs, crowd in private investment, and provide a cushion against global headwinds. A good thing about the Budget is that, even though it has something for everyone — from the middle classes to the rich, from MSMEs to big corportations — fiscal prudence has been maintained. While pegging the fiscal deficit for 2023-24 at 5.9 per cent of GDP, she pledged to tread "the path of fiscal consolidation, reaching a fiscal deficit below 4.5 per cent by 2025-26." The fiscal deficit already came down from 6.7 per cent in 2021-22 to 6.4 per cent in 2022-23 (revised estimates). In a nutshell, Budget 2023-24 is good.

Rajinikanth's public notice stopping mimicry artists from mimicking him is rather harsh and uncalled for

■ imicry and stand-up comedy are 'national' pastimes of people in the southern states of Tamil Nadu and Kerala. Specialists in mimicry eke out a living caricaturing their favourite film stars and politicians and these programs are the most wanted ones in star-studded stage shows in India and abroad. Earlier there were only one or two comedy artists to mimic film stars and their mannerisms. In South India where film stars are adored like demiGods, their fans go berserk when the comedy artists dish out the mannerisms and style of their superstars. In yesteryears, there were fashion stores and hairdressing saloons named after M G Ramachandran, Shivaji Ganesan, and Jaishankar, the Tamil matinee icons. Not long ago, we had Khusbu Wines in Chennai named after the diva of Tamil films. Many restaurants in Tamil Nadu serve the delicious Khushbu Idly, known for its softness and distinct taste. At no point in

time MGR, Shivaji, or Khushbu have questioned the propriety of the persons who 'misused' their names and style to entertain people. Last week, the reigning superstar of Tamil films Rajinikanth came out with a public notice he issued through his lawyer declaring that whoever mimics his style and mannerism and makes use of his name for commercial purposes stand to face civil and criminal cases.

The public notice portrays him as an actor with a humongous reputation and he enjoys a celebrity status and has the 'personality/publicity/celebrity/rights over all facets of his personality'. No one can blame Rajinikanth for questioning the propriety of businessmen and entrepreneurs exploiting his name in com-

mercial ventures. But his decision to say no to poor mimicry artists would rob them of a chance to earn a livelihood and this is certain to cast a shadow over the goodwill enjoyed by the superstar. There was a lot of heart burning when superstar Amitabh Bachchan, music maestro llayaraja, and playback singer K J Yesudas demanded that they be paid royalty by performers who make use of their acting and singing talents. The Indian Copyright Act has indeed put restrictions on the wanton misuse of such works by vested interests. But the truth remains that a true artist should not be greedy and ask the wannabe artists for royalties because it would be like robbing from begging bowls. The mimicry artists should show restraint and stay away from spoofing the maestros and superstars. One should not set the house on fire to kill a rat.

Economic reality check on China

China though making strides in the economic field is on a slippery slope. Its economic model exploits countries and is hegemonistic in approach

hina has been hog-ging the bright limelight for the last two decades, almost since the beginning of the current century for a growing economic powerhouse status and a country destined to overtake the US in economic and geopolitical might. The way it was developing its infrastructure and creating a most cost-competitive global manufacturing base was, to say the least, mind-boggling. But what was being projected and envisaged in 2003 is not being reiterated today, twenty years later. What is the reason?

The last two years have shaken the economic pillars of China. The real estate sector which accounts for nearly 30 percent of the Chinese economy has slipped into deep recessionary doldrums. Evidenced by the collapse of the Evergrande, the real estate business entity stricken by high debts and its serviceability crisis, the overall picture of the country's economy and its short and medium-term outlook is anything but bright. The writer happened to visit China in 2014 and is privy to scores of high-rise multistoried residential buildings on the outskirts of its IT hub city Cheng Du and all the buildings are vacant-looking like deserted ghost houses.

The situation is, regrettably the same, nay worse, nine years later in 2023. The flats remain unsold in large numbers with the allottee- buyers unable to pay their housing loan installments due to shrinking or unsteady incomes. The writer also saw that at that time, the average cost of goods and services in China was 3 times that of India, which today is more than 4 times. Let me cite a few figures in regard to China's economy vis- a -vis India. Central Govt. debt (percentage of GDP) is 76.89 for China and 83.4 for India. While the GDP growth rate for China is three percent, for India, it is 6.84. The Debt per capita (in USD) in China is 7164 and for India, it is 1724. The inflation rate (percent) for China is 2 percent and for India, it is 6.89.

The above is 2022 figures extracted from www.statista.com. nomic downturn caused by What do the above figures con- Covid-19 and now the pro-

vey? Let me put point-wise analytical inferences.

indices of China and India are quite comparable, with important parameters tilted heavily in India's favor. The reason? China has grown too fast too much and its growth is unsustainable. The figures speak for themselves. China's model of economic growth is undemocratic, with capitalist processes foisted on a communist, totalitarian base. This provides an unstable, unsustainable model of economic growth. China has kept the inflation rate low by artificially tight fiscal means through restricted resort to printing more currency, even during the Covid-19 period when GDP and income growth sharply declined. This, seen along with the Communist regime's restriction on citizens' savings and withdrawals from their bank accounts, is already causing grave social distress leading to protests and uprisings. With the growth rate declining to 3 percent and the country now in the grip of a most serious Covid-19 pandemic, the short-term economic outlook of the country looks extremely grim.

China's past growth has been fuelled by exports rather than domestic consumption but with the recent global eco

tracted Russia-Ukraine war, global demand has heavily declined and China's huge factories are idling to the extent of 40-50 percent on an average. This is exacerbating the already burgeoning domestic debt crisis, with many banks going bust.

It is relevant to observe that China is also present in the midst of an energy crisis with its huge thermal power electricity generating plants starving of coal whose imports from Australia have declined in the recent past due to the worsening of its political relations with that country. The shortage of electricity has put that much additional strain on its manufacturing industry.

The worst thing that could have happened to China is its much-touted BRI running into a quandary. Thanks to China's opaque policies and systems and unabashedly hegemonic designs, its BRI investments in many countries have run into logjams and the BRI project is turning out to be an unqualified failure. Taking over ports and establishing military bases in the BRI host countries has sullied China's image and shown it as a businessunfriendly hegemonic power with predatory designs.

It is also important to note India's advantageous position over China under the present economic circumstances. India's cost of production is less

than one-fourth of China's and with a much younger labor workforce; it sits on a much better pedestal for manufacturing sector growth. It can easily wrest from China the position of the global manufacturing hub. The most important factor in India's favor is its present geopolitical goodwill and China's worsening relations with major countries owing to its dubious role in the Covid-19 pandemic. In the present situation of political, economic, and social turmoil all over the world in the wake of the Russia-Ukraine war with overt or covert military involvement of many other countries, India is poised

well to take the big economic

leap forward ahead of China. China's economic model has shown now beyond a semblance of doubt that the economic progress of a country is long-term sustainable only with a fair model delivering equitable benefits to collaborating countries. It can never provide long-term, stable economic progress with an exploitative model and undemocratic systems behind it, which are not compatible with the natural development patterns of humans on this planet.

When he met Benjamin Netanyahu, appealed to him to maintain peace. When he met Mahmud Abbas, he expressed concern over the settlement of Israelis. Also repeated the same old tune that every US representative has been repeating since 1974. That is the matter of adopting a 'two state' policy is the only solution to the problem. The United Nations had described this policy as the

only solution to the problem. But Israel rejected it outright. Because to obey it would mean that the Israelis would have to free the Arab lands captured in the brief Arab-Israeli war of June 1967. In the present situation, Israel would like to shift the entire Palestinian population to Antarctica and hand over the entire land to the Jews. On September 13, 1993, Israeli Prime Minister Yitzhak Rabin and Palestine Liberation Organization negotiator Mahmoud Abbas signed a Declaration of Principles Interim Self-Government Arrangements, commonly referred to as the "Oslo Accords", at the White House. When Netanyahu took power for the first time in 1996, he immediately threw that agreement in the wastebasket. Well, now the world's most fanatical religious government is in power in Israel, in such a situation only blood will be shed there. The solution has now gone further than

Sir — The PLI is an innovative scheme that provides incentives in terms of cash to various companies for enhancing

focusing on reducing import bills and improving the cost competitiveness of local goods.

PLI scheme offers incentives on incremental sales for products manufactured in India. PLI Scheme, as the Production Linked Incentive Scheme is commonly abbreviated, is an initiative started by the Government of India to not only encourage foreign companies to find a workforce in the country and thereby generate employment but also encourage domestic local production to create micro-jobs.

The PLI scheme for large-scale electronics manufacturing has attracted investments of Rs 4,784 crore as of September 2022, and led to a total production of Rs 2,03,952 crore, including exports of Rs 80,769 crore. It may be noted that the PLI scheme has seen significant participation from the private sector. It would be great if the scheme succeeds as in India today we need jobs than anything else. YES BANK AT1 BONDS AFTER THE HC VERDICT

Investors have lost their life savings in bonds of Yes Bank

S KALYANASUNDARAM

our institutional and three individual investors challenged the decision of Yes Bank Limited to write off AT1 bonds from their books in the Bombay High Court. The decision to write off was quashed. Apparently, Yes Bank Limited had sold these bonds to individual investors (apart from institutional investors), terming it as Super Fixed Deposits.

Commenting on the judgment of Bombay High Court, Yes Bank MD & CEO Prashant Kumar said that there was no compulsion on the bank to pay interest on or redeem its additional tier-1 (AT1) bonds, which are the subject of litigation with investors. While commenting on the possible impact on the balance sheet of the bank, he said that "the worst case scenario for the bank was that the common equity tier-1 capital - consisting of pure equity without any subordinate debt - would come down. However the capital adequacy would be maintained as the AT1 capital increases."

He has also claimed that it is the discretion of the bank to pay coupon (interest) on the bonds and there is no cumulative nature of coupon payment and in a financial year when the bank is in losses, the bank cannot pay the coupon.

It is true that the information memorandum submitted to SEBI at the time of AT1 bond issue contains the following terms and conditions: (Section 3.f) "Non-Payment due to Bank's weak capital position: Potential investors should be aware that in case the Bank's capital falls below the regulatory requirements, it may not make the payment of the coupon due on the Debentures. The Bank can exercise the said right at an early stage of risk detection."

The following was also there under Clause 54 of the Information memorandum: "Coupon Discretion (i) The Bank shall have full discretion at all times to cancel Coupon either in part or full. On cancellation of payment of Coupon, these payments shall be extinguished and the Bank shall have no obligation to make any distribution/Coupon payment in cash or kind. (ii) The Bonds do not carry a 'dividend pusher' feature i.e. if the Bank makes any payment (coupon/dividend) on any other capital instrument or share, the Bank shall not be obligated to make Coupon payment on the Bonds...."

Hence, the above statement from the bank's spokesperson is perfectly right. But there is another dimension to the cancellation of write off. At the time of writing off AT1 bond from the books, the bank could have taken the amount to its Profit and Loss Account. Now when the court has disallowed the write off, the reversal entry will be to debit the Profit and Loss Account and bring back the AT1 bond outstand-

Hence, the bottom line in the balance sheet will take a hit. The spokesman from the bank has not clarified how the bank will account for it now and what will be its impact.

It is clear from the terms of the AT1 bonds that the bank can decide not to pay any coupon (interest) on the bonds for any number of years. It can also decide to write off the bonds, of course subject to conditions of wiping out equity capital also. Which individual investor could have subscribed for the bond, if she knew that the bank might not pay any interest or even might not pay the principal at all?

It is understood that the bank will approach the Supreme Court against the High Court verdict. It may take any number of years to get the final verdict. Both the regulators, SEBI and RBI, may at least direct the bank for payment of coupon on the debentures to individual investors. Most of these individuals are senior citizens above the age of 70 years and they had given their entire life savings because they were mis-sold these bonds.

A new Great Game begins in Afghanistan

Pakistan might be tempted to test Indo-US strategic ties by launching terror strikes in Kashmir through proxies

fter the withdrawal from Afghanistan, the relations between the US and Pakistan have strategically declined. However, Pakistan's fight with TTP, apart from the China-induced economic crisis and the denial of a loan package by the IMF, has renewed American interests in Pakistan.

Reasons for the American interests are varied and have deep connections with the history of South and Central Asia. Despite Islamabad's active support to the Taliban, the American interests will bring the much-required finance and military support, as it has done in the past. The development increases opportunities for Washington to adopt a leapfrog approach again in the two regions to enhance its strategic outreach.

Pakistan lies at the cusp of the two regions. To be more specific, its location to the south of Russia and its 'strategic backyard,' i.e. Central Asia makes it relatively important. Historically, the US and Pakistan were joined by China, and their efforts were based on shared interests against the Soviet Union apart from limiting India's political and geostrategic influence in the South Asian region.

From Pakistan's perspective, the US interest allowed it to put forward its 'geostrategic marketability' and extract military leverage against India. In 1954, the US government announced a military aid package of \$500 million instead of its mutual defence assistance agreement. Further, from 1967-1980 the US provided military and technical assistance of around \$6 billion.

Pakistan used this aid against Indian interests. Thus, it adopted the approach of buck passing, which was relatively cheaper than internal and external balancing and bandwagoning. Before any conflict, Pakistan expected the US to guarantee its security. In the first case, before the 1965 war, Ayub Khan had demanded that the United States should accept securing Pakistan against India's "aggression" as an essential component of guarantees provided through an alliance with the US. Although defeated, one cannot deny the US military supplies to Pakistan that made it believe that it could fight India. But Islamabad, too, realized that Washington was not prepared to issue a "blank check" against India. The tables were turned again against India in the 1971 war. Even though Pakistan launched a pre-emptive war against India in 1971, the US' seventh fleet ensured that India did not consider retaking PoK while liberating East Pakistan.

Later, during the Soviet invasion of Afghanistan, Pakistan gained financial support \$3.2 billion from 1980 to 1990, aiding the Mujahideen to fight against the Soviet Union. Additionally, the US supplied Pakistan with F-16.

After the nuclear tests, Pakistan adopted a similar approach and always used its

(Nishtha Kaushiki is Associate Professor in Central University of Punjab, Bathinda; Nikhil Sharma is a research scholar)

The 9/11 again brought the US and Pakistan in a more tactical embrace with each other. Pakistan became a major non-NATO ally, and as per the SIPRI data, during 2002-14, it got military aid worth \$5.81 billion, of which the arms sales component was \$3.2 billion. After the killing of Osama in Abbottabad, as per the C.R.S. report, in 2014-15, the total financial and military aid decreased to 40 per cent from 2011-2015. In the years preceding the US exit from Afghanistan, Washington had become diplomatically and strategically dependent on Islamabad to help it handle the coerced talks with the Taliban and smartly ensure its safe exit from the region.

In the process, it made the Taliban and itself essential stakeholders in the region. Pakistan's case study proves that the weak states thrive on the great power insecurities and mismanagement of international politics. In the contemporary situation, the renewed interest of the US in Pakistan has historical interlinkages between Russia and Pakistan apart from the triangular dynamics between Russia, China and Pakistan. Russia has been making positive overtures to Pakistan much before the outbreak of the Ukraine War. Starting from the Iran-Pakistan pipeline in the news in mid-2010, one has witnessed rapid convergences between Russia,

China, Pakistan and Iran.

In 2015, Russia lifted its arms embargo on Pakistan. Since then, the two have broadened the horizon of their strategic relations, which included a defence agreement, supply of Mi-35M Hind-E helicopter and joint military exercises apart from signing a 'Rare Military Cooperation Pact' in 2018. Interestingly, Pakistan's military arsenal includes Russia's Klimov RD-93 engine used to make JF-17 Thunder aircraft.

Russia has reignited its interest in the pipeline politics of Iran and Pakistan and has expressed a willingness to supply crude oil to Pakistan. The deal is to be materialized in the "currency of friendly countries", which might slighty dent the Western sanctions on Russia. Further, the Kazakhstan-Pakistan pipeline also has the potential to turn the tables and form new energy architectures. From another perspective, Russia and Pakistan agreement on "practical engagement" on the Afghan Taliban issues have serious undertones for the two regions.

It is pertinent to mention that the US National Security Strategy (2022) has emphasized the issue of terrorism but has deliberately omitted to name the terror modules in Pakistan as a source of terror but mentions the Taliban as a challenge. The document speaks of increasing its "cooperation and support to trusted partners" and "shifting from a strategy that is 'US-led, partnerenabled to one that is 'partner-led, US-enabled". The document further hints that the US might be interested in exploiting the emerging faultlines of Russia-China relations which have emerged as the fallout of the Ukraine war.

Additionally, the US will make only security".

its presence felt in Central Asia in the coming few days through the C5+1 diplomatic platform (Kazakhstan, Kyrgyz Republic, Tajikistan, Turkmenistan, Uzbekistan and the United States).

Now, one needs to brainstorm what position Pakistan will occupy in this "'partner-led, USenabled" strategy to finish terror? The most pertinent question is how Pakistan would exploit the insecurities and fear of Russia, the US, and China vis-à-vis each other? What military and financial packages will Pakistan get hold of in this new emerging great power game? Will the Afghan Taliban, Tehrik e Taliban Pakistan (TTP), and other Islamic groups be finally crushed? Will there be another military onslaught in Afghanistan as it was in 1979-80?

From an Indian perspective, while coordinating with the US to crush the TTP, Pakistan might be tempted to test the Indo-US strategic relations by launching simultaneous terror strikes in Kashmir through its proxies. If so, would the US be neutral again and insist on "normalcy"? Pakistan thus has a well-designed strategy to play the US and Russia off of one another to enhance its security against the possible Indian response to its misadventures in India, gain military and financial packages and finally, slow down the US-China hostility.

All these factors may constrain India's options to enhance its posturing on crucial future developments. The emerging faultlines remind us of an American mathematician John Allen Paules who stated: "Uncertainty is the only certainty there is, and knowing how to live with this insecurity is the

For disruption to happen, a company has to target an overlooked customer base, provide a right fit of product or service

nnovation, which is advancement over an exist-Ling product or idea, is a prerequisite for continuous improvement. But a disruptive innovation shakes up an industry once in a while. Disruptive innovation in business is not a new concept. It took birth in 1995 when it was proposed by one of the world's leading thinkers on innovation Christensen along with his co-authors.

However, over the years, this concept has been misunderstood. It has generally been misapplied to a situation where the industry norms are shaken up and existing players stirred. And here's where the catch is. Originally, Christensen ideated the concept of disruption, more like a David and Goliath situa-

tion- a smaller company with fewer resources successfully challenging an established

Established businesses in their effort to retain their existing majority target customer base, focus mainly on improving their present products or services and largely ignore other market segments. New entrants that sense this gap provide products or services lucrative to the overlooked segments.

While the established businesses do not pay heed to these new entrants, they slowly make inroads into upmarket, providing the same products or services to the majority customers whilst retaining their earlier advantage-lower prices. Once these mainstream customers embrace

the new products or services, in large quantities, one can say disruption has occurred.

According to Christensen, potential for disruptive innovations arise because established businesses ignore both low-end and new markets. In an attempt to be more profitable, established businesses concentrate on providing mainstream customers with high quality products and services and commit resources in upgrading, enhancing and perfecting their existing products and services, all the while ignoring the low-end market. Sensing this opportunity, new entrants foray into this gap by using a low-cost business model. A low-end disruptor snatches the market share in this segment and pushes the

established businesses upmar-

ket. Additionally, disruption can occur by creating new markets where none existed, by developing new products for consumers, at a lower price and an acceptable quality. Arrival of personal computers, and later smartphones are perfect examples of new-market disruption. The first computers,

known as mainframes, were huge and very expensive. With costs as high as \$2 million and size as big as to fill an entire room, computing technology was out of bounds for the common man. With the invention of the personal computer, a small and affordable piece of machine, a new market segment of individuals was created.

Over the years, with con-

capabilities, a humble personal computer made the mainframe computers virtually obsolete. The next step in new market disruption is the emergence of smartphones, which are creating disruptions at two levels. One, the ability to use the internet in a phone at a fraction of cost of a personal computer is making usage of personal computers less necessary. Two, smartphone photograph taking capabilities are set to disrupt the digital photography industry.

However, over the years, the above concept has been misused by many who have not given a serious thought about the notion itself. Internationally, Uber has been touted as a disruption. It uses mobile applications to connect tinuous improvement in its consumers who need rides

with drivers who are willing to provide them. Founded in 2009, the company has enjoyed fantastic growth and is still expanding. It has reported tremendous financial success, with funding rounds and soaring valuation. No doubt, Uber has transformed the business of transportation.

But has it brought about disruption? For disruption to happen, a company has to target an overlooked customer base, provide a right fit of product or service, usually at a lower cost. Uber connected the end users, i.e., customers used to taking cab services, to service providers. So, Uber did not fulfil any of the two conditions to become a disrupter – firstly, it did not bring the market segment that did not use cab services and taxi services were definitely not a new market. Finally, there is no threat to the car industry from Uber. A well-known quote

into its fold; and secondly, cab

prevalent in Silicon Valley disrupt or be disrupted say's it all. All businesses are continuously looking for opportunities to become disruptors with new innovative ideas, products or business models. But only a few are able to become disruptors. Disruptive innovation transforms complex and expensive products or services into simple and reasonable options. Although very time-consuming and enormously risky, creating disruption shakes up the existing established products and services by pushing the boundaries of any industry.

Saptarishi to guide nation in Amrit Kaal: Sitharaman

Finance Minister Nirmala Sitharaman, who presented her fifth straight Budget on Wednesday, listed seven priorities — Saptarishi (seven priorities) — to guide the country through the Amrit Kaal, the 25-year journey towards its centenary as a modern nation.

This was the last full Budget of the Modi 2.0 government before the 2024 general elections.

"The Budget adopts...Seven priorities. They complement each other and act as the 'Saptarishi' guiding us through the Amrit Kaal," she said in her 87-minute Budget Speech.

The seven priorities are Inclusive Development; Reaching the Last Mile; Infrastructure and Investment;

Unleashing the Potential; and inclusive Green Growth; Youth Power; India, in which and Financial Sector.

The inclusive development will focus on 'agriculture and cooperation', national digital library for children and adolescents; teachers' training; and medical research; among other

'Reaching the Last Mile' priority is about aspirational districts and block programme, Eklavya Model Residential Schools, water for the droughtprone region and PM Awas Yojna, besides other objectives. The finance minister also provided details about the other five priority areas.

Mini Vande Bharat to be launched soon

PTI ■ NEW DELHI

Vande Metro, a mini version of the Vande Bharat Express trains, will be developed by the Railways for people living around big cities to travel to and fro in comfort between their place of work and hometowns, Railway Minister Ashwini Vaishnaw said on Wednesday. Addressing a press con-

ference after Finance Minister Nirmala Sitharaman announced the highest-ever capital outlay for the railways in the Union Budget 2023-24 at Rs 2.40 lakh crore Vaishnaw also said India will get its first Hydrogen train by December 2023 which will be completely indigenously manufactured. It will initially be run on heritage circuits like Kalka-Shimla.

Presenting the Budget in Lok Sabha, Sitharaman said the outlay for the railways is nine times the amount provided in 2013-2014.

She said 100 critical transport infrastructure projects for last-and-first-mile connectivity for coal, fertiliser and food grain sectors have been identified and will be taken up on a priority basis with an investment of Rs 75,000 crore, including Rs 15,000 crore from private sources, she said.

Budget papers showed that the net revenue expenditure of the railways is placed at Rs 2,65,000 crore in the Budget Estimate (BE) 2023-24 as against Rs 2,42,892.77 crore in Revised Estimate (RE) 2022-23.

given relief by raising rebate limit under personal income tax from existing Rs 5 lakh to Rs 7 lakh (new regime)," said Dipanwita Mazumdar, nomist, Bank of Baroda.

The government also proposed that an individual will

ty amount of life insurance policies where the aggregate annual premium exceeds Rs 5 lakh.

On this, Kapil Mehta, Cofounder of SecureNow Insurance Broker said this will dampen the interest of individuals to buy high-value traditional insurance, it will increase the focus on term plans and pure risk covers which is good.

Manick Wadhwa, Director of Strategy at SKI Capital Services said the merger of SEZ authorities' powers with IFSCA

will provide relief and ease of doing business in the Gift City, making it a more attractive investment destination.

Sumita Pillai, Chief Executive Officer of Torus Private Wealth was of the opinion that the budget strikes a great balance between inclusivity through aid and skill development to major lower income groups, growth through record high capex outlay at 10 lakh crore and still maintaining fiscal prudence by staying on course at 5.9 per cent deficit to GDP.

Vivek Jalan, Partner, Tax Connect Advisory said the finance minister has done a fine balancing act keeping the fiscal deficit under control to 5.9 per cent in the fiscal 2023-24 whereas pushing the peddle on growth through the twin policy of vigorous credit disbursal and estimated capital expenditure of 10 Lakh crore.

The finance minister has

also proposed simplification of Know Your Customer (KYC) process.

V Swaminathan, Executive Chairman, Andromeda Sales and Apnapaisa.Com said streamlining the KYC process, making PAN a common business identifier and improving the usage of Digi locker should ease investment, taxation and enhance the financial inclusion of customers and lenders.

Akhil Saraf, Founder and CEO, Reloy, a proptech startup, said the government doubling down on building digital infrastructure including streamlining digital KYC will boost the startup ecosystem.

The budget feels balanced as India moves from a lowincome to a middle-income country, he said.

Centre earmarks ₹1,900 cr to buy EVMs ahead of 2024 polls

PIONEER NEWS SERVICE NEW DELHI

The Centre has allocated I nearly Rs 1,900 crore in the Union Budget to the Union Law Ministry to buy electronic voting machines ahead of the 2024 Lok Sabha polls. According to the budget document, Rs 1,891.78 crore has been allocated for purchase of EVMs by the poll panel.

The budget document said that the provision is meant for providing funds to the Election Commission for procurement of ballot units, control units and voter verifiable paper audit trail units (papertrail machines) and ancillary expenditure on EVMs and destruction of obsolete EVMs.

One control unit and at least one ballot unit makes for an EVM.

Ahead of several assembly polls this year and Lok Sabha elections in 2024, the Union Cabinet had last month approved a law ministry proposal for funds to procure additional electronic voting machines for the Election Commission. Sources had then said

that more of the same type of electronic voting machines, which are in use at present, will be procured from Bharat Electronics Ltd and Electronics Corporation of India Ltd, the two PSUs which

had been manufacturing the machines since they were introduced. They said with the increase in the number of voters and polling stations, more machines will be required.

EVMs which complete their life span and those which are damaged also need to be replaced, they said. Since 2004, EVMs have been used in four Lok Sabha and 139 assembly elections. Since 2019, VVPAT slips

from five randomly selected polling stations per assembly constituency (or segment in cases of Lok Sabha seats) are matched with the EVM count for greater transparency. Proposal to lower India's highest rate income tax to 39% from 42.74%

The Budget 2023-24 pro-■ poses to lower India's highest rate of income tax to 39 per cent, from 42.74 per cent at present, by reducing the surcharge applicable on high networth individuals.

Finance minister Nirmala Sitharaman on Wednesday proposed to tweak the new income tax regime, which was originally introduced in 2020-21 fiscal but had not received much traction, by raising the basic exemption limit and simplifying the tax slabs. The highest surcharge rate

of 37 per cent, which was applicable on those individuals with income above Rs 5 crore, has been brought down to 25

This means that, with effect from April 1, 2023, all income above Rs 2 crore would be subject to 25 per cent surcharge.

In her 2023-24 budget

speech, Sitharaman said the highest tax rate in the country is 42.74 per cent. "This is among the highest in the world. I propose to reduce the highest surcharge

rate from 37 per cent to 25 per

cent in the new tax regime. This would result in reduction of the maximum tax rate to 39 per cent," Sitharaman said. AKM Global, Partner- Tax, Sandeep Sehgal said the effective tax rate on HNIs is very high compared to other countries, which has been acknowl-

step. Although, it is applicable for HNIs opting for the new tax regime only but in all likelihood, the new tax regime would suit the HNIs more. However, there is scope for reducing it further to encourage income and wealth generation," Sehgal said.

Currently, a 10 per cent surcharge on income tax is levied if income is between Rs

50 lakh and Rs 1 crore, 15 per cent on income ranging from Rs 1 crore to Rs 2 crore, 25 per cent on the income range of Rs 2 crore to Rs 5 crore, and 37 per cent in case the income is above Rs 5 crore.

The Budget for 2023-24 has done away with the 37 per cent surcharge under the new tax regime. Hence all income above Rs 2 crore would be

liable to 25 per cent surcharge on income tax beginning April

The Budget has revamped the new tax regime and tried to make it more attractive to taxpayers so that they switch from the old tax regime, which allows taxpayers to claim deductions and exemptions on investments and expenditures like HRA incurred in a particular fiscal.

Under the revamped new tax regime, no tax would be levied for income up to Rs 3 lakh. Income of Rs 3-6 lakh would be taxed at 5 per cent; Rs 6-9 lakh at 10 per cent, Rs 9-12 lakh at 15 per cent, Rs 12-15 lakh at 20 per cent and income of Rs 15 lakh and above will be taxed at 30 per cent.

Budget will trigger growth, say textile bodies

Major textile bodies in the region on Wednesday welcomed the Union Budget by strong and stable economic

President of Tirupur Exporters Association (TEA) K M Subramanian said the budget mentions the seven priorities "Saptarishi" that would trigger the economic growth. In a statement, he said the priority for infrastructure development would reduce logistics cost. He said he appreciates the focus given to green growth.

While welcoming the increased allocation of ₹900 crore for ATUF (amended technology upgradation fund) scheme for 2023-24 as against ₹600 crore last year, Subramanian said he was hopeful that the increased allocation would help to clear the ATUF pending claims.

However, there was no

announcement on continuance of ATUF scheme in this budget and he was hopeful that government would announce it in the near future, he said.

The focus on enhancing the yield of extra-long staple (ELS) cotton would help increase the manufacturing of value-added garments and also to reduce import of ELS cotton.

He welcomed the extension the credit guarantee scheme for MSMEs with an infusion of ₹9,000 crore, collateral for ₹2 lakh crore loans to MSMEs, effective from April 1, 2023.

In a statement, chairman of Southern India Mills Association Ravi Sam appreciated the thrust on inclusive growth and skill development that would help the labour- and capital-intensive textile industry. He thanked the government for considering the proposal submitted by SIMA and announcing a scheme for increasing the production of extra-long staple

TV prices to come down by up to ₹3,000 as Govt reduces custom duty on imported parts

PTI ■ NEW DELHI

ocally manufactured televi-∡sion sets will become cheaper by up to ₹3,000 with finance minister Nirmala Sitharaman on Wednesday announcing reduction in basic customs duty (BCD) on imported parts to 2.5 per cent from 5 per cent.

The reduction of customs duty on parts of open cells will help to effectively reduce the price of TVs by around 5 per cent, according to some industry players.

Open cell panels account for over 60-70 per cent of the cost of manufacturing LED TV sets. Most TV makers import these panels. In her Budget speech, finance minister Nirmala Sitharaman said "... To promote value addition in the manufacture of televisions, I propose to reduce the basic customs duty on parts of open cells of TV panels to 2.5 per cent."

Consumer Electronics and Appliances Manufacturers Association (CEAMA) President Eric Braganza said this move will help to increase the

Russia focuses on eastern Ukraine Taiwan activates defences in for possible new offensive

Russia is mustering its military might in the Luhansk region of Ukraine, local officials said Wednesday, in what Kyiv suspects is preparation for an offensive in the eastern area in coming weeks as the anniversary of Moscow's invasion approaches.

The Kremlin's forces are expelling local residents from their homes near the Russianheld parts of the front line so that they can't provide information about Russian troop deployments to Ukrainian artillery, Luhansk Gov. Serhii Haidai said.

"There is an active transfer of (Russian troops) to the region and they are definitely preparing for something on the eastern front in February,"

Military analysts anticipate a new push soon by Moscow's forces, with the Institute for the Study of War saying in an assessment late Tuesday that "an imminent

Russian offensive in the coming months is the most likely course of action."

A new offensive might also coincide with the invasion anniversary on Feb. 24.

The General Staff of the Armed Forces of Ukraine reported Wednesday that Russia is also concentrating its efforts in neighboring Donetsk province, especially in its bid to

Bakhmut.

Donetsk and Luhansk rovinces make up the Donbas, an industrial region bordering Russia that President Vladimir Putin identified as a goal from the war's outset and where Moscow-backed separatists have fought Ukrainian authorities since 2014.

Russian troops are "closing the ring" around the city.

Russian shelling of Bakhmut, where most residents have fled and others spend much of their time in cellars, killed at least five civilians and wounded 10 others on Tuesday, Ukraine's presidential office said Wednesday.

Ukraine is keen to secure more Western military aid as it tries to fend off the much larger Russian forces. It has already won pledges of tanks and now wants more.

Mykhailo Podolyak, an adviser to Ukrainian President Volodymyr Zelenskyy, tweeted Wednesday that talks are underway on securing longerrange missiles and fighter jets from Ukraine's allies.

Russia's refusal to allow on-the-ground inspections to resume is endangering the New START nuclear treaty and US-Russian arms control overall, the Biden administration charged on Tuesday.

The finding was delivered to Congress and summarized in a statement by the State Department. It follows months of more hopeful US assessments that the two countries eration on limiting strategic nuclear weapons despite high tensions over Russia's war on

Inspections of US and Russian military sites under the New START treaty were paused by both sides because of the spread of the coronavirus in March 2020. The US-Russia committee overseeing implementation of the treaty last met in October 2021, but Russia then unilaterally suspended its cooperation with the treaty's inspection provisions in August 2022 to protest US support for Ukraine.

The Digital Services Act is part of the EU's overhaul of digital rules aimed at reining in the power of online platforms and social media companies and cleaning up toxic content. SENSATIONAL GILL SEALS T201 SERIES

Shubman Gill smashed a whirlwind unbeaten maiden century in the shortest format as India thrashed New Zealand by 168 runs, their biggest ever win in terms of runs, in the third and final T20 International to pocket the hard-fought series 2-1 here on Wednesday.

India's second highest margin of victory was 143-run win over Ireland in Dublin in 2018.

Gill continued his fine form and showcased his array of shots, hitting the New Zealand bowlers to all parts of the Narendra Modi Stadium to score 126 not out off just 63 balls balls with the help of 12 fours and seven sixes.

Riding on Gill's brilliance, India posted 234 for 4 after electing to bat.

New Zealand never got going in the huge chase as Indian bowlers performed in unison to bowl out the visitors for a mere 66 in 12.1 overs, the third lowest score for the Kiwis in this format.

Skipper Hardik Pandya led the bowling department with figures of 4/16, while Umran Malik (2/9), Shivam Mavi (2/12) and Arshdeep Singh (2/16) scalped two wickets each.

New Zealand lost Finn Allen in the fifth ball of the opening over bowled by Pandya, caught by Suryakumar Yadav.

Left-arm pacer Arshdeep struck with his first delivery, as Devon Conway lobbed a fuller delivery to Pandya at mid-off. New Zealand continued to lose

wickets as Mark Champman got a faint inside edge which went straight to Ishan Kishan off Arshdeep's last delivery of the over. Wickets kept on tumbling like of

Earlier, the start was far from rosy for India after electing to bat as Mitchell Santner made a master-stroke decision by handing Michael Bracewell the second over and the off-spinner reposed his captain's faith by removing an out-ofform Ishan Kishan, who was adjudged LBW with the second ball of the over. In-form Gill struck two boundaries

Tripathi then pulled Santner over short-fine leg before coming down and lofting the left-arm spinner for a straight six. Tripathi showed his attacking class and dispatched Ish Sodhi over extra cover for his third six of the innings but perished in the next ball in search of one too many, holing out at deep square leg to Ferguson.

Gill reached his maiden T20I fifty off 35 balls with a single off Santner.

India seek tri-series title going into T20 WC

PTI ■ EAST LONDON

With the Women's T20 World Cup days away, India will look to conclude the final leg of their preparations with a win in the tri-series final against South Africa here on Thursday.

India, following their 1-4 series loss to Australia at home, have bounced back with three wins in the tri-series and would be hoping to end the tournament on a high before they enter the 10-team global competition beginning on February 10. India had got the better of South Africa in the triseries opener before their repeat league fixture was washed out. India beat West Indies twice to enter the final.

However, in the World Cup, India's main challenge will be to outsmart the likes of England and Australia. With eight wickets in three

games, all-rounder Deepti Sharma will be the go-to bowler for India in the final.

Under fire batter Jemimah Rodrigues got much needed runs in the final league game against West Indies and would be aiming for consistency.

A big positive for India was the return of Pooja Vastrakar, who had been out of

action due to an injury. The India U-19 women's team lifting the inaugural U19 World Cup in Potchefstroom could be the motivation for Harmanpreet's side to go all out in the final, and then go on to win an elusive ICC title.

 $F_{\text{Gary Ballance was included}}^{\text{ormer England batsman}}$ on Tuesday in a 16-man Zimbabwe squad for a two-Test series against the West Indies.

Harare-born Ballance played 23 Tests and 16 ODIs for his adopted country during the last decade.

Council (ICC) rules a player can switch from one full member nation to another after a threeyear stand-down period, which the 33-year-old has served.

Ballance was released by English county Yorkshire last year after admitting he used racist language against former teammate Azeem Rafiq, and signed a two-year contract with Zimbabwe.

Revelations by Rafiq, who was born in Pakistan, of institutional racism triggered wholesale changes at Yorkshire.

Ballance debuted for Zimbabwe this month in a T20I against Ireland in Harare, scoring 30, but missed the other two due to concussion.

He then made 23 and top scored with 52 in two ODIs against the Irish before the series decider was washed out.

Star white-ball batter Sikandar Raza will miss the series, starting on Saturday in Bulawayo, as he is playing franchise cricket in the United Arab Ryan Burl, potentially high-

effective both with bat and ball, also misses out as he is fulfilling franchise commitments in Bangladesh. A fractured finger sidelines regular Test captain and all-rounder Sean Williams so white-ball skipper Craig Ervine stands in.

Gill & Surya to compete for Iyer's slot in middle order

PTI ■ NEW DELHI

The Indian team management could consider playing Shubman Gill in the middle order ahead of Suryakumar Yadav in the first Test against Australia after Shreyas Iyer was ruled out of the series opener due to a back injury.

Iyer failing to recover from back spasms will certainly open one spot in the Indian batting order and the choice will be between Surya, a career middle order batter who has the X-factor and Gill, who has mostly opened for the national team in Tests.

former in his short Test career, was India's stand out batter in the 2-0 series win in Bangladesh in December.

. When New Zealand came to India in late 2021, Shubman Gill was being considered for middle order as KL Rahul was supposed to open with Mayank Agarwal. Then Rahul got injured and Gill opened. Then he got injured again. He was being considered for middle order in red ball," a BCCI source privy to development said.

With skipper Rohit Sharma and vice captain Rahul being the first choice openers in the squad, followed by Cheteshwar Pujara and Virat Kohli at numbers three and four respectively, the number five slot becomes very important in the Indian context as that individual is expected to play the second new

In case of Gill, being a Test regular and having originally started his red ball career as a middle order batter, certainly helps his case.

'When Rahul Dravid manned India A, Gill had played in middle order in a West Indies A tour where he had a double hundred in one of the Tests. To be fair. he was originally a middle order batter, who was converted into an opener," the former national selector said

"In case Nathan Lyon gets to turn his off breaks big, then SKY can dismantle him with his footwork. But against Cummins, Hazlewood, Gill could be a better bet," he added.

Iyer, who missed the limited overs home series against New Zealand, has not yet fully recovered from his back injury and remains at the National Cricket Academy for rehabilitation.

SKY remains at top of ICC rankings

Swashbuckling Indian batter Surya-kumar Yadav continued his stay at the top in the ICC rankings released on Wednesday.

Suryakumar reached the rating of 910 points after he stroked a quick-fire innings of 47 during the first match of India's ongoing series against New Zealand in Ranchi as the exciting righttop of the T20I rankings for batters.

While Suryakumar played a more composed knock of 26 not out in the second match of the series, the 32-year-old dropped back to a total of 908 rating points as a result. It also means Suryakumar remains within striking distance of England batter Dawid Malan in the race to hold the highest rating of all time for men's T20I batters.

Malan achieved a rating of 915 points in Cape Town back in 2020, but Suryakumar now holds the second highest rating of all time for T20I batters following his recent heroics with the willow. He claimed the top ranking for cur-

rent batters while scoring a total of 239 runs from six matches at last year's T20 World Cup and only last month was deservedly named the ICC T20 Cricketer of the Year. No other Indian featured in the top 10 of the batters or bowlers list while Hardik Pandya remained third among all-rounders.
