Crash toll 288 & counting...

803 hurt in India's worst trains pile-up in Balasore

PNS ■ KOLKATA

The death toll from the triple train accident at Bahanaga Bazar in Balasore, Odisha, on Friday has now risen to 288. Preliminary investigations suggest that a signal was initially given for the Coromandel Express to enter the main line but was later taken off, causing the train to enter the loop line where it collided with a parked goods train.

In the aftermath of the tragedy, efforts to remove the mangled coaches and repair the tracks at the site have begun in full swing, according to a railway official. The accident involved three trains: The 12841 Shalimar-Chennai Central Coromandel Express, the 12864 Bengaluru-Howrah Superfast Express, and a goods train. It stands as one of the worst railway disasters in the country's history.

As per reports available until late Saturday afternoon, the accident claimed the lives of 288 people, while 803 individuals sustained injuries, including 56 with severe injuries. The two express trains were carrying over 2,200 passengers with reserved tickets, along with many others travelling in unreserved coaches.

The railways revealed that

Passengers wait at the site where Coromandel Express, Bengaluru-Howrah Express and a goods train derailed, in Balasore district on Saturday

PTI

the Coromandel Express, while passing through the up main line, collided with a stationary goods train in the loop line at Bahanaga Bazar station, located approximately 280 kilometres from Howrah and 171 kilometres from Bhubaneswar.

A loop line is a railway track connected at both ends to a main line, allowing trains to be diverted to accommodate passing trains.

The impact of the collision caused 21 coaches of the Coromandel Express to derail, with three coaches falling onto a neighbouring track where the Bengaluru-Howrah Express was simultaneously passing in the opposite direction.

Consequently, the Bengaluru-Howrah train collided with the fallen coaches, causing its rear two coaches to

derail. The number of passengers with reserved tickets on the Coromandel Express was around 1,257, while the Bengaluru-Howrah Superfast Express had 1,039 passengers with reservations.

The railways has announced an ex-gratia relief of ₹10 lakh to the next of kin of those who died, ₹2 lakh to the seriously injured, and ₹50,000 for passengers with

minor injuries.

Investigations are currently underway to determine any human error, signal failure, or other potential causes behind the tragic accident.

A preliminary inquiry report has been submitted, and a high-level probe, led by the commissioner of railway safety, South Eastern Circle, has been initiated by the national transporter.

Kavach could have saved lives, anti-collision system missing

PNS ■ NEW DELHI

The tragic collision of three trains in Balasore on Friday night, resulting in the loss of over 288 lives and injuring 803 people, has raised questions about the absence of the Kavach system developed by the Indian Railways to prevent such accidents caused by driver error or other factors.

According to Indian Railways spokesperson Amitabh Sharma, the rescue operation has been completed, and restoration work is now commencing.

However, he acknowledged that the Kavach system was not available on the tracks in Balasore where the collision occurred.

Kavach is an automatic train protection (ATP) system developed by the Research Design and Standards Organisation in collaboration with three Indian firms.

Its purpose is to assist locomotive drivers in avoiding missing danger signals and controlling speeding, ensuring safe train operations even in low-visibility conditions.

Railway Minister Ashwini Vaishnaw personally tested the "Kavach" system and had previously expressed its success.

In a tweet from March last year, he mentioned the system's ability to automatically stop a locomotive before reaching another locomotive at a dis-

Rescue work underway after an accident involving Coromandel Express, Bengaluru-Howrah Express and a goods train, in Balasore district on Saturday

PTI

tance of 380 metres during rear-end collision testing.

Kavach functions by controlling train speed and automatically applying the brakes if the driver fails to do so in a timely manner. However, the absence of this crucial safety system on the tracks in Balasore raises concerns about the potential impact on acci-

dent prevention and mitigation.

As investigations into the tragic incident continue, the Indian Railways and relevant authorities will likely examine the reasons behind the unavailability of the Kavach system in Balasore and take necessary measures to ensure the safety of train operations in the future.

Guilty won't be spared: Modi at accident site

PNS ■ BALASORE

Prime Minister Narendra Modi on Saturday expressed his deep anguish over the train crash in Odisha that claimed the lives of 288 people and assured that strong action would be taken against those responsible.

Speaking to reporters after visiting the accident site and meeting the injured at a hospital in Balasore district, Modi conveyed his heartfelt sorrow and emphasized that the government is taking the incident very seriously.

"The government is deeply saddened by the incident. We will not spare anyone found guilty, and they will face strong consequences for this tragedy," he stated. He further assured that instructions have been issued to ensure a thorough and swift investigation into the mishap.

Prime Minister Narendra Modi interacts with rescuers as he takes stock of the situation at the site of the accident involving Coromandel Express, Bengaluru-Howrah Express and a goods train, in Balasore district on Saturday

PTI

Modi acknowledged that while it is impossible to bring back the lives lost, the Government stands firmly with the affected families,

offering unwavering support. "We will leave no stone unturned in providing all necessary medical assistance to the injured," he added.

300 NDRF rescuers on job with cutters, canine squads

PNS ■ NEW DELHI

The Director General of the National Disaster Response Force (NDRF), Atul Karwal, said on Saturday that over 300 NDRF rescuers equipped with large metal cutters, canine squads, and heavy-lift equipment are working at the train accident site in Odisha.

Karwal stated that the NDRF is expected to conclude the search operation by Saturday evening.

Since the first NDRF team arrived at the accident site around 8.30 pm on Friday, the force has rescued 44 survivors and recovered 71 bodies from the wrecked railway coaches in Balasore district.

The NDRF is a federal contingency force operating under the Union Home Ministry.

"We have more than 300 rescuers divided into nine

NDRF personnel carry out rescue work after an accident involving Coromandel Express, Bengaluru-Howrah Express and a goods train, in Balasore district on Saturday

PTI

teams working at the accident site. Our goal is to complete the search operation by this evening," Karwal said at the NDRF headquarters in New Delhi.

The initial NDRF team reached the site from its regional response center in

Balasore approximately one hour and fifteen minutes after the accident, which occurred around 7-7.10 pm on Friday. The remaining NDRF teams were deployed from Mundali in Cuttack district and Kolkata, according to Karwal.

Screams of help still ring in survivors' ears

PNS ■ NEW DELHI

Train passengers, who survived the triple train crash on Friday, recounted horror. Recalling the incident, Anubhav Das, a passenger of the Coromandel Express which rammed into a goods train in Odisha's Balasore, said there was the sound of screeching brakes and then a loud crashing of metal.

Though he came out of the accident unhurt, the screams of help of those stuck in derailed mangled coaches still ring in his ears. "It was a horrific sight. There were people injured, some crawling from under the train's debris," he posted on Twitter. Later, he said, he came to know that not just his train but another express train was involved in the accident.

Initially, in a series of

tweets, Das described how he thought the accident unfolded.

Later, speaking with PTI, Das recalled in shock how he stepped out of his coach unaware that he had survived an accident involving three trains. At least 288 people were killed and more than 1,100 injured in the accident.

"I was at the very end of my train. Around 6.30 pm, we heard a very long thud and then jerks which seemed like the emergency brakes. At that moment, we realised some accident had occurred and we had to disembark from the coach to be safe.

So when we were about to disembark from our coach and opened the doors, we saw that there were three other coaches that had derailed opposite our train on the other line," he said.

CAPSULE

'INDIA INFRA ALONG LAC MATCHES UP WITH CHINA'

Pahalgam: India is matching up its infrastructure to China's projects at the Line of Actual Control (LAC) and there is no need for concern, Border Roads Organisation (BRO) chief Lieutenant General Rajiv Chaudhry said on Saturday.

GOVT BANS 14 FIXED DOSE COMBO DRUGS

New Delhi: The Government has banned 14 fixed dose combination drugs including Nimesulide and Paracetamol dispersible tablets and Chlorpheniramine Maleate and Codeine syrup.

PUNJAB: OVER 14 KG HEROIN SEIZED, 2 HELD

Chandigarh: Security forces on Saturday recovered more than 14 kilograms of heroin in two separate operations in Amritsar and Fazilka districts of Punjab.

SC stays HC order to decide if rape victim is 'manglik'

PNS ■ NEW DELHI

The Supreme Court intervened on Saturday, issuing a stay order on a peculiar ruling by the Allahabad High Court which had instructed the head of the astrology department at Lucknow University to determine whether an alleged rape victim woman was 'manglik' (an astrological condition) or not.

Conducting a special session on Saturday, the apex court took suo motu cognisance of the matter and expressed its confusion

regarding the need for an "astrology report" during a bail application hearing.

The order by the High Court was issued on May 23 while considering the bail plea of the accused individual, who was alleged to have raped the woman after falsely promising to marry her.

59 MPs write to German envoy for early return of baby Ariha

PNS ■ NEW DELHI

Fifty-nine Members of Parliament from nineteen political parties have collectively written a letter to the German Ambassador, urging the early repatriation of baby Ariha Shah, who has been placed in forced foster care in Germany for over twenty months.

The German authorities took custody of Ariha Shah on September 23, 2021, when she was just seven months old, citing alleged harassment by her parents. Among the signatories of the letter are MPs Jaya Bachchan (SP), Hema Malini (BJP), Shashi Tharoor (Congress), Mahua Moitra (TMC), Dr. Farooq Abdullah (NC), Priyanka Chaturvedi (SS-Udhav), and others.

The letter, addressed to the German Ambassador Dr Phillip Ackerman, emphasises that while they respect German laws, as no criminal

cases have been filed against the parents, the child should be repatriated to India.

"Baby Ariha was taken away from her parents in September 2021 when she was seven months old. The German Child Services took custody of the baby after she had suffered an accident and was hospitalised," the letter states. "An initial investigation was conducted into allegations of child sexual abuse, but it was found to be baseless, and no charges were filed against the parents. Following this, the child was placed in special child care and then moved to foster care.

"As Members of Parliament, we have a special responsibility for the welfare of our citizens. We request you to take all necessary steps to bring the child back to India," the letter, signed by Rajya Sabha MP Dr John Brittas on behalf of the other 58 MPs, asserts.

India lost 1 tiger every alternate day this year

ARCHANA JYOTI ■ NEW DELHI

On an average, every alternate day one big cat has died in the country since January till May end. In the first five months, India has already lost 76 tigers against 56 last year during the same period.

These included 11 cubs and 25 female big cats. Besides natural deaths and territorial fights between the felines, officials in the Union Environment Ministry have attributed some mortalities to the harsh heat waves as well that the country is witnessing this time, stating that some felines could not cope with the dehydration.

An analysis of the data available from the website of the National Tiger Conservation Authority (NTCA) shows that almost half of the deaths of the total tigers occurred inside the tiger habitat with as many being reported from the

fringes or outside the tiger reserves.

Madhya Pradesh which is presently grappling with the death of imported Cheetahs and their cubs at the Kuno Palpur Sanctuary has topped the list of tiger mortalities at 22 big cats in the last five months.

Maharashtra reported 16 deaths while Uttarakhand has witnessed ten tiger deaths. Karnataka reported five deaths.

Benefits of Digital governance at doorsteps in Haryana, asserts CM

PNS ■ CHANDIGARH

Haryana Chief Minister Manohar Lal Khattar on Saturday said that several steps taken by the state government in the direction of digital governance in the last eight-and-a-half-years are proving effective for the citizens as it has reduced human intervention in the implementation of government schemes and programmes through e-governance and the benefits of all the schemes are being provided to the general public at their doorsteps.

“This has curbed corruption and the administrative processes have also gained momentum, with change in the old dilapidated system. As a result, today the administration has become smart (Simple, Moral, Accountable, Responsible, Transparent),” said Khattar while interacting with the Common Service Centre (CSC) operators through audio conferencing from Karnal.

During the interaction, Khattar asked the CSC operators for information related to uploading data for the schemes, on which some CSC operators said that sometimes error

occurs in entering the data on the portal at their level; due to which the eligible beneficiary gets delayed benefits. On this, the Chief Minister immediately directed the officials concerned that in case of any error or mistake in the data uploaded at the CSC level, it should be rectified within 48 hours; so that people do not have to wait long for the services.

Khattar said that with good governance in the state, more than 500 schemes and services of the departments are being made available to the citizens online. “This has been possible only through CSC. They act as a link between the government and the public. About 13,000 active common service centres are operational in the state, where various types of 12,938 services are being provided,” he asserted. In the financial year 2022-23, over 1.72 crore transactions have taken place through CSC.

“Through service delivery, the Haryana government has raised the happiness index in the state. Good governance is paramount in the parameters of happiness and can be ensured only through good service delivery. With this spirit of pub-

lic service, our government is called the government of service delivery,” he said.

CM LAYS FOUNDATION STONE OF 8 PILGRIMAGE PROJECTS IN KARNAL

At Karnal, the Chief Minister laid the foundation stone of 8 pilgrimage projects of the Kurukshetra Development Board in Karnal district to be completed at a cost of about Rs. 1,177 lakhs. He inaugurated Prithvi Tirth in Balu village of Nissing block at a cost of Rs. 86.89 lakhs, Raghvendra Dasaratha Tirth in village Agondh at a cost of Rs. 112.11 lakhs, Mishrak Tirth at a cost of Rs. 159.31 lakhs in Nissing, Rs. 40 lakhs in Assandh for Dhan kshetra Tirtha. Rs. 229.77 lakhs for Anjani tirath in village Ajanthali, Prokshat Tirath in village Patanpuri at a cost of Rs. 231.29 lakhs, Vedavati Tirtha in village Sitamai at a cost of Rs. 134.52 lakhs and Vyas Sthal pilgrimage at village Bastali at a cost of Rs 183.06 lakhs.

He said that earlier the Kurukshetra Development Board used to look after only

the pilgrimages of Kurukshetra district, but since the formation of the BJP government, the stature of Gita Jayanti has completely transformed in Kurukshetra and across the globe. Now Gita Jayanti has been celebrated internationally at a grand level, since then Dharmakshetra Kurukshetra is under a famous pilgrimage.

ALL COLONIES WITH STREETS MORE THAN 3 METRES WILL BE REGULARISED

Addressing the people in Karnal's Ward No. 4, Khattar said that all such unauthorised colonies whose streets are more than three meters wide and main roads more than six meters wide will be regularised. Along with this, a plan regarding basic facilities to be provided in all such colonies will also be formulated. He said that directions have been issued to start a special campaign by deputing two employees in every municipal council and municipal corporation office for the work related to property ID correction for the convenience of the people.

Mata Mansa Devi shrine in Panchkula will be beautified like Kashi Vishwanath temple corridor

PNS ■ CHANDIGARH

Haryana Chief Minister Manohar Lal Khattar on Saturday chaired a key meeting regarding the redevelopment and master plan of the Shree Mata Mansa Devi shrine in Panchkula where he was apprised that the shrine will be beautified on similar lines to the Kashi Vishwanath temple corridor as per the plan. Central Building Research Institute (CBRI), Roorkee had prepared the blueprint.

Vidhan Sabha Speaker Gian Chand Gupta, Urban Local Bodies Minister, Dr. Kamal Gupta Mayor, Panchkula, Kulbushan Goyal were also present during the meeting in which a detailed presentation of the blueprint for the redevelopment of Shree Mata Mansa Devi Temple like that of Kashi was shared.

It was further informed that this also includes separate pathways for four-wheelers and pedestrians. A bus stop has also been proposed for the convenience of devotees visiting the temple.

In the draft master plan, a special plan has been made to give a great look to the shrine

entry. One will start from Shakti Dwar to reach the main temple. A Shakti Corridor will be made from here to the main temple and this will be named as Shakti Path. Walking on the Shakti Path, devotees will reach the main temple. 108 feet giant south-facing statue of Lord Hanuman will be the centre of the attraction

The renovation of the Mata Mansa Devi Shrine will be done in a phased manner as the government aims to give a major boost to heritage tourism. A separate shopping complex will also be built here along with Multi-level parking and a bus stop. Separate walkways for vehicles and pedestrians are also included. An open-air theatre with a light and sound show will also be built, which will have a capacity of about 500 people.

Weekly review to speed up Nangal Flyover project

PNS ■ CHANDIGARH

Punjab cabinet minister Harjot Singh Bains on Saturday has decided to hold weekly review to to speed up the work of Nangal Flyover, an important project for Punjab and Himachal Pradesh.

Chairing a meeting to review the progress of Nangal Flyover at Punjab State Secretariat, Bains expressed concern over the tardy pace of this project due to which the people traveling via this route have to face traffic snarls. The business of Nangal city has also been suffering a lot.

The meeting was attended by officials of PWD Punjab, Northern Railways, National Highway Authority of India,

local administration and contractors. The officials highlighted the reasons for the delay in the completion of this project including delay in the approvals given by the Railways and approving body for the quality control of the materials used in the project.

Bains urged to the railway officials that this project is already far behind its schedule and they should expedite the approvals process so that the commuters take a sigh of relief. He also asked that if there is any problem in getting any approval from the central government regarding this project, then it should be brought to his notice so that he can take up the matter with the union government.

BRIEFS

117 OUT OF 147 ACCIDENT PRONE AREA TREATED IN HIMACHAL: CM SUKHU

Shimla: As many as 117 'black spots' (accident-prone areas) out of 147 identified by the government across Himachal Pradesh have been treated and directions issued to fix the remaining 30 such spots, Chief Minister Sukhvinder Singh Sukhu said on Saturday. He said a sum of Rs 16 crore will be spent on the Inspection and Certification Centre at Baddi for vehicles, so that only mechanically perfect vehicles are allowed to ply in the state. The state government has devised a legal mechanism to challan private buses from other states plying without paying taxes and proper registration. In order to give more teeth to motor vehicle inspectors, they have now been authorized for challannging vehicles defying rules, he added. The state government is taking up the issues of national highways and four lanes time and again with the Centre and Sukhu has mooted an idea of 'Green Corridor' Highways in the state, besides giving directions to maintain and refurbish the link roads within the state to facilitate commuters. The CM also directed to increase the number of display boards related to speed limits. He urged the National Highways Authority of India to provide financial assistance for the Integrated Command Center.

5 IAS OFFICERS SHIFTED IN HARYANA

Chandigarh: The Haryana government on Saturday issued transfer and posting orders for five IAS and four state services officers. The IAS Officers for whom orders have been issued are Yeshendra Singh, Ajay Singh Tomer, Sushil Sawan, Sachin Gupta and Anupama Anjali. Singh, transport commissioner and special secretary, transport department, has been given the additional charge as director sports and special secretary to the government, sports department. Tomer, director sports, and special secretary, sports department has been posted as director state transport and special secretary, transport department, and chief executive officer, Haryana State City Bus Services Ltd. Sawan, director employment, special secretary, employment department, director skill development and industrial training, has been given additional charge as director urban local bodies, and special secretary, ULB department, and mission director, state urban livelihood mission and state urban development authority, and director fire services, in addition to his present duties. Gupta, municipal commissioner, Panchkula has been given additional charge as additional director, urban local bodies.

SCHOOL STUDENTS ASKED TO LEARN PUNJABI WORDS DURING SUMMER VACATION

Chandigarh: The Punjab education department has asked students from classes one to eight to learn one Punjabi word every day during their summer vacation, an initiative, it said, will help them connect with their cultural roots. Punjab School Education Minister Harjot Singh Bains on Saturday said students of classes one to eight in government and private schools will find and memorise one word of the Punjabi language every day. Similarly, students of classes five to eight have also been asked to remember Punjabi names of months and their relation with seasons, said Bains in a statement. He said pre-nursery children have been given homework on physical activity and hygiene during their summer holidays from June 1 to June 30. The minister said the purpose of this decision is to make school students aware about the rich cultural heritage of the state through Punjabi words.

PUNJAB CM MANN EXPRESSES GRIEF OVER ODISHA TRAIN ACCIDENT

Chandigarh: Punjab Chief Minister Bhagwant Mann on Saturday expressed grief at the train accident that killed more than 200 people in Odisha. “Deeply saddened to hear the unfortunate news of the train accident in Balasore in Odisha... Hundreds of people lost their lives in the accident... My deepest condolences to the bereaved families... I pray to God that those who were injured in the accident get well soon,” said Mann in a tweet.

Colleges, giving representation to the doctors in Himachal Pradesh Medical Corporation, and time-bound promotion of doctors.

Sukhu said the doctors’

strike was “illogical” as the state government never stopped the NPA of the doctors already working and that they should have come forward to discuss the issues with the government

before going on strike. He said that in just five months of assuming the office, his government has started several reforms for the well-being of the medical fraternity.

Besides increasing the staff strength of doctors, the government is working to fill various posts of para-medical staff, he said. The CM said that the government has decided to create a ‘Department of Emergency Medicines’ in all medical colleges of the state with a view to strengthen the casualty department. He said that a scheme was underway to promote health tourism in the state and deliberations were on with some big companies already working in this sector.

Indian girls jump on global coding bandwagon in ChatGPT era

IAN S ■ MUMBAI

For Aradhya Awasthi, a class 6th student in Delhi-NCR, coding is being creative, having fun and learning to be innovative. For Tanmit Kaur, who is in class 9th, learning coding helps open new career avenues and create solutions to solve real-life problems.

As the demand for skilled coders and software developers skyrocket in a post-pandemic era, especially in the age of generative AI (aka ChatGPT) and other next-gen technologies, Indian girls are not far behind and are now learning the ropes to become world-class coders.

I am fascinated by algorithm-based careers like in the world of finance. Coding has not only instilled confidence in me but has also given me a fresh career option which I may explore later in life to build innovative solutions to solve real-life problems,' Kaur, a student at Noida-based Indraprastha Global School, told IANS.

Amid widespread tech layoffs, developers have emerged as the most sought-after role in India, especially those who can design, develop and maintain the front-end and back-end of a web application, according to job portal Indeed.

Developers today make up five of the top 10 job roles. The job roles that have seen the highest growth since pre-pandemic are data engineer (353 per cent), site reliability engineer (260 per cent), assistant engineer (254 per cent), application developer (235 per cent) and cloud engineer (220 per cent).

There are 45,000 Artificial Intelligence (AI) job openings in

India, with data scientists and Machine Learning (ML) engineers being among the most sought-after careers, according to a latest report by TeamLease Digital, a tech staffing firm.

Parul Malhotra, a senior software development engineer with global leading web and mobile app development company GeekyAnts became a developer as she loved the idea of solving real-world issues through programming.

I have built a few world-class web apps in the last three years and worked with people from across the globe. Coding has provided me a way to solve problems, contribute to technological advances and communicate with people from different countries and backgrounds,' she told IANS.

According to Apple CEO Tim Cook, coding is the only global language and he wishes that more Indian students, including girls, learn coding early in school days so that they can create world-class products and solve real-life problems as they grow up.

Coding is the only global language. It is a way to express yourself and arguably, we need more of that in the world and bring the world closer,' Cook, who has always emphasised that coding should be taught as early as elementary school, had told IANS in April during his India visit.

RBI-MPC may lower inflation forecast marginally: Bank of Baroda Chief Economist

IAN S ■ CHENNAI

The Reserve Bank of India's (RBI) Monetary Policy Committee (MPC) may lower the inflation forecast marginally and will not change the repo rate at the upcoming meeting owing to inflation being down and increased liquidity, said a top economist in Bank of Baroda.

'The MPC will not change the repo rate. The inflation is less than five per cent and will be in the coming months,' Chief Economist Madan Sabnavis, Bank of Baroda told IANS.

The consumer price index (CPI) inflation moderated in April-23 to 4.70 per cent year-on-year (YoY) and remained within the RBI's

target range (2-6 per cent) for the second consecutive month.

Adding further Sabnavis said the liquidity has increased and so the RBI-MPC's stance will also not change.

According to Sabnavis, the MPC may lower inflation forecast marginally.

Lanka President urges party unity to handle economic crisis

PTI ■ COLOMBO

President Ranil Wickremesinghe has called for joint action by all parties for Sri Lanka to emerge from the unprecedented economic crisis. Wickremesinghe, who made the remarks while addressing a legal conference held at the Central Resort of Nuwara Eliya on Friday, said that none of the political parties in Parliament currently possess a 50 per cent voter base.

The economic challenges faced by the country ten months ago as an 'unprecedented situation in history,' Wickremesinghe, also the debt-ridden island nation's finance minister said.

'It has been 10-11 months since our country faced a state of failure. However, we have managed to establish law and order, political stability, and economic stability in our nation. Yet, we are aware that this stability is only temporary, and we still have a long road ahead to overcome the challenges we face,' the president stressed.

'Therefore the need is for unity among the parties, not solely for the purpose of elec-

tions, but to steer the country towards recovery from the ongoing economic crisis,' he said. Wickremesinghe stressed that while the re-establishment of law and order and political and economic stability is crucial, it does not imply that Sri Lanka has wholly overcome the crisis.

Sri Lanka was hit by an unprecedented financial crisis in 2022, the worst since its independence from Britain in 1948, due to a severe paucity of foreign exchange reserves, sparking a major political and humanitarian crisis in the island nation.

"I love having every right to be as outspoken as I am, as any man would be" — Chrissy Teigen

THE WORLD AT HER FEET

Sheetal, born without hands, is being feted as the world’s first para female archer who shoots using her feet. She has been labelled as a perfect role model for youngsters as she displayed raw courage and faced all her challenges in life with a determined resolve to succeed, writes MOHIT KANDHARI

At first sight it is very difficult to spot Sheetal Devi in a gathering of fellow players assembled at an archery range for regular practice sessions. A girl with less than five feet, Sheetal may come across as a small town girl, but in reality, she is not an ordinary athlete.

Hailing from a remote village of Lohi Dhar in Mughal Maidan area of Kishtwar district in Jammu & Kashmir, this 16-year-old girl has come a long way and is already making waves in the sporting world. At present she is being looked upon as India’s next big medal hope in the upcoming para-archery world championships and 2024 Paralympics in Paris.

Born without hands (phocomelia), a condition where both her hands were underdeveloped, Sheetal is being feted as the world’s first para female archer who shoots using her feet. Before winning her place of honour in the world of sports, Sheetal had left everyone spell bound with her ace performances and firm resolve to succeed.

Last week, when I visited the Archery range located in the Shri Mata Vaishno Devi Shrine board sports complex in Katra, several players greeted me with a big cheer.

While I acknowledged their greetings one by one, I shook hands with one of the seniors and paralympian Rakesh Kumar. Before meeting others, I asked him whether Sheetal was also around. It was then she also greeted me from an adjacent bench in a feeble voice.

After registering her presence, I too heaved a sigh of relief as I had travelled all the way from Jammu to meet her. I congratulated her for winning three medals --- one Gold, Silver and Bronze in the Para Archery World Ranking Tournament held in the Czech Republic between May 13 and May 21. She acknowledged with her sparkling eyes and mesmerising smile.

The Indian team secured nine medals out of which five medals were contributed by the archers from the Shrine board training academy.

Rakesh, a paralympian, and Sheetal won gold in Compound open mixed team and Compound men open doubles. Besides, Sheetal and Jyoti clinched silver in compound women open and bronze in compound women doubles. The Shrine archers contributed five medals for India in the total tally by which the country secured 2nd position in the event.

Lt Governor Manoj Sinha, who is also the Chairman of Shri Mata Vaishno Devi Shrine Board, congratulated both the sports persons for their performances. He tweeted that “the entire nation is proud of their achievement and their feat will inspire millions of our youth.”

Chief Executive Officer of the Shri Mata Vaishno Devi Shrine Board Anshul Garg said the archers being trained at the Shrine Board’s Sports Complex will also

win medals in the forthcoming events of the archery at the international levels, thereby bringing laurels to the country, the UT of Jammu & Kashmir and the Shrine Board.

TRAINING HARD FOR 2024 PARA-OLYMPICS BERTH

A day after returning from the Czech Republic, Sheetal was back in the training academy without taking a single day break. Speaking to The Sunday Pioneer, Sheetal said, “I feel very happy after winning three medals in a recent event. I am upbeat and very optimistic. My josh is very high. My coaching and hardwork is showing positive results and now I am determined to secure my berth in the 2024 Paralympics and win a medal for my country.”

Referring to her training schedule, Sheetal said, “Each day we come to the academy and practice for about four hours between 8 and 12 pm before breaking for a two hour lunch break.”

During the training session Sheetal is assisted by her fellow players as and when required. The players also crack jokes and play mischief with each other. The second session starts at 2pm and the players call it a day after attending an hour long physical training session between 5pm and 6 pm.”

Her coach Kuldeep Vedwan told The Sunday Pioneer we have already started training for the next big event lined up in the month of July and September 2023.

Sheetal, along with other players, are focusing her energies on World Archery Para Championship scheduled in Pilsen, Czech Republic in the month of July and Para Asian Games in China between September 23 and October 8 to reserve their berth for the 2024 Paralympics scheduled to take place in Paris.

Talking about Sheetal’s journey, Kuldeep Vedwan told The Sunday Pioneer, “11 months ago Sheetal first arrived here at the Archery range. She was introduced to me by one of the volunteers working for a famous NGO. Before inducting her in the academy I interacted with her and tried my best to motivate her over a ZOOM meeting. Initially, I spent two long months carefully trying to understand her needs and how I could make her play archery and hit a bull’s eye. Before starting her training schedule, I again counselled her. Since then, she has not looked back.” Vedwan said, feeling elated over her recent performance.

Vedwan said it’s amazing that in such a short span of time she has really proved her mettle. By winning three medals in the recently concluded Para Archery World Ranking Tournament she has already secured her place in the upcoming Para Archery world championship scheduled to be organised in Pilsen, Czech Republic and para Asian Games. I am hopeful Sheetal will secure her berth in the Paralympics and win us a medal in the 2024 Paralympics in Paris.

“**RAKESH, A PARALYMPIAN, AND SHEETAL WON GOLD IN COMPOUND OPEN MIXED TEAM AND COMPOUND MEN OPEN DOUBLES. BESIDES, SHEETAL AND JYOTI CLINCHED SILVER IN COMPOUND WOMEN OPEN AND BRONZE IN COMPOUND WOMEN DOUBLES**”

SHEETAL’S JOURNEY

A native of Lohi Dhar village of Mughal Maidan area in Kishtwar, Sheetal’s initial phase of life was full of struggle. She was born without hands and it is with great difficulty that her parents, Man Singh, a farmer by profession and mother Shakti Devi, a home maker looked after her basic needs.

Tucked in the hills she received no other medical help in her formative years. As she grew up, she started using her feet to feed herself. As Sheetal was keen on pursuing her normal school studies so she gradually started using her feet for writing as well. She has passed her class 10th examination and is studying in class XI.

No one in the family discouraged her. Remembering her school days, Sheetal said, “I used to attend regular classes with other children in my village. I was never discouraged by any one. My teachers and my friends helped me a lot and supported me. I used to play with them like a normal child.”

Life took a sudden turn when she was spotted by a senior army officer at a local fair in Kishtwar district. The local army authorities approached her family and volunteered to support her. At that time Sheetal was nurturing her childhood dream of becoming a school teacher.

Fulfilling her desire Sheetal has been adopted by the Indian Army for her education since September 2019. Later with the help of reputed NGOs, the Indian Army had facilitated her travel and arranged other

logistics to explore the possibility of providing her with a prosthetic arm.

Sheetal’s parents accompanied her to Bangalore where she was first treated and later provided with the prosthetic arm. At present she is not using the same while undergoing training. After she won three medals she received lots of good wishes and blessings from netizens who rallied behind her and wished her luck for all her future championships.

She was labeled as a perfect role model for youngsters as she displayed raw courage and faced all her challenges in life with a determined resolve to succeed.

A BIG MOTIVATION

Practicing in the company of other players Sheetal feels motivated. To attend her regular practice sessions Sheetal reaches archery academy, wearing sleepers. During her day long training she prefers staying barefoot in the archery range in order to hit a bull’s eye.

On an average she is spending 6-7 hours under the guidance of her coach Kuldeep Vedwan at the archery range.

Before focusing on her target, she gently picks an arrow and adjusts it on the bow string. Using her feet, she adjusts the arrow against her shoulder and then triggers the shot with jaw and back muscles before hitting a bullseye.

“During training we interact with each other and discuss our performances. Fellow players in the academy are very helpful. They walk with me in the archery range and pull out the arrows after checking my score.”

“Our coach sir also evaluates our performance and wherever we need his guidance he chips in and does course correction.”

In Katra, Sheetal is staying with her mother and younger sister Shivani. Her mother Shakti sometimes visits the academy and spends time with her. Sheetal says, “When she was home her sister Shivani used to look after her basic needs. She is my dear friend.”

Commenting on the quality of training facilities Sheetal said we have been provided with excellent training facilities by

Shri Mata Vaishno Devi Shrine Board authorities to ensure better performance in the field.

Apart from routine training modules, perform yoga and meditation to maintain our calm and enhance our abilities to focus on our goals.

A former Olympian from Katra Rakesh Kumar, who participated in the Tokyo Olympics, said Sheetal is a very promising athlete and is training hard in the academy to realise her goal of winning a gold medal in the world championships and paralympics.

Rakesh Kumar is the senior most player in the academy. He is also working hard and setting high benchmarks for younger players to achieve their goals.

Rakesh told The Sunday Pioneer, “I started my journey six years ago after coming in contact with the coach Kuldeep Vedwan in 2017. He said, I met with a deadly accident in 2009. I was in a very bad condition but then I decided to keep myself busy and opened a mobile recharge shop in Katra. In 2017 I met my coach Kuldeep Vedwan.”

“When I met Rakesh, I motivated him and asked him to try archery at the academy.” He made a sincere effort and went on to become a para-Olympian

Kuldeep Vedwan also highlighted the role of Sports Authority of India, and the Archery Association of India for their support, and stressed the importance of psychologists and dietitians in sports.

Para Archer Rakesh said, “Archery is a mind-game. When we are participating in a championship we are bound to feel pressure. Our training gives us an edge. So, just like the coach is essential for us, psychologists are equally important.”

Highlighting another important aspect Rakesh said para-athletes face difficulties while moving from one place to another. “They spend maximum time in a wheelchair, we may not eat much, but digestion becomes a problem and so a good dietitian is very important.”

At present over two dozen budding archers from Tamil Nadu, Haryana, New Delhi and from different districts of Jammu & Kashmir are receiving training at the academy.

Manisha Bhadana, from Faridabad in Haryana has recently joined the training academy and is witnessing improvement in her game. She told The Sunday Pioneer that the atmosphere at the academy is very very competitive. “I feel motivated while receiving training in the presence of International players such as Para-Olympian Rakesh Kumar and young archer Sheetal.”

Pravin, an upcoming archer from Tamil Nadu said, he is training at the academy for more than six years and aiming to perform better in the coming championships. Amit Thakur from Reasi said, “We are focusing on Khelo India games and National Championships to perform better and earn medals.”

China creating another Xinjiang

President Xi Jinping is all out to prevent the Islamic radicals across China. The first was the western-most province of Xinjiang wherein he has been undertaking full-scale measures to shield the Uyghur Muslims to stay away from Muslim extremists. Even global governance institutions like the UN had complained against the Xi regime that the ethnic Uyghurs and other minorities are being targeted simply in the name of preventing Islamic terror in the country.

A report published by the UN accused China of serious violations of human rights against the Uyghur Muslims that may be termed as “crime against humanity”. The reality is that as per various international media sources and leaked videos from Uyghur detainees, Beijing is creating large concentration camps in the guise of training camps. And Chinese authorities are calling these camps as “Re-education Camps” or “vocational training centres”. The Human Rights Watch and other global rights agencies say that China is committing genocide in Xinjiang which the Communists completely deny.

Currently, the Hui Muslims in Yunnan are under threat from Beijing. To them, China is trying to create “Another Xinjiang” in Yunnan which they say they won’t allow it to happen. It’s a province that borders Burma, Laos and Vietnam. It’s again clamping down on religious freedoms of the Muslims and demolition of the mosques in these areas by the local authorities.

This month, thousands of ethnic Muslims came out in this Southwestern Province defying public orders to stop police from removing its dome and minarets. It took place in Najaiyang Village of the province where the locals fought with the authorities in a last-ditch attempt to save their sanctum sanctorum.

It is widely believed that all these measures are an integral part of what President Xi calls as an attempt to “sinicize” religion.

The Huis have a rich historical background. History says they are distant descendants of Arab and Persian traders who had come to Imperial China in the past. They are a group of nearly 11 million strong Muslim com-

munity living in scattered pockets from northwest to coastal belts of China. But Ningxia is an officially designated Autonomous Region for the Hui ethnic minority where they live.

Unlike the other ethnic minorities in China, they are widely assimilated with the majority Han community and their rich cultural traditions. Most of them speak Mandarin and live side by side with the powerful Hans. In recent years, they also have acquired more freedoms to practise their religious ceremonies than any other ethnic groups in China.

This is not the first time Beijing is trying to restrict Huis in Yunnan. Five years back, in 2018, the Hui community engaged in a tense standoff with the authorities when the latter came to demolish a newly constructed mosque. Thousands of Huis came out to stop government officials to safeguard the mosque in Ningxia, in the northwest part of the country.

But later, the Government

had replaced the domes and minarets of the mosque with indigenous Chinese style pagodas. So, the Hui Muslims are now quite familiar with the evil designs of the Communists of Beijing who have been making sustained efforts to pushing their long held religious and cultural traditions and symbols all these years.

Interestingly, a court order in 2020 ruled that recent additions to the mosque that includes a domed roof and minaret are not legal. So these could be removed or demolished as per law. It is believed that the administration is rightly acting under the directions of the court. Last week, the local security agencies warned the protesters to maintain law and order.

Sadly, the mosque that the local officials wanted to dismantle belonged to 14th century. It’s an ancient place of worship and largely revered by the Hui Muslims. Indeed, the town of Nagu wherein the incident sparked violence this week is considered as a historic

home and a rich cultural hub of the Hui people in Yunnan Province.

The “sinicization policy” aims to purge external or foreign religious beliefs. It strongly urges the ethnic minorities to align more closely with Chinese culture and more specifically with the standard codes of the official and the most powerful Communist Party of China (CPC), which follows an atheist line of thinking. So, the problem originates from here itself for the largely devoted and faithful Hui Muslims in this part of China.

Now, how have the Chinese people and officials reacted to this saga of violence against the ethnic Hui Muslims? Normally, officials stay tight-lipped in China. Whereas China has a huge social media called Weibo like the Twitter through which people express their views and at times criticise the Government and even the most powerful CPC. But this time, the government quickly removed all the anti-govern-

ment comments and views in regard to the mosque demolition in Nagu.

And in fact, one message supporting the Govt said national policy to handle such unrest is fine. The State should not allow any “wolfish extremists” to impact the law-and-order situation in the country.

It’s loud and clear that the majority of the Chinese people are either forced to live under the diktats of the Communists, especially under its authoritarian rule and rulers or they long for stability rather than unrest of any kind.

Xi’s new China is typically what he wants to be. The President forever is highly ambitious. With the falling western liberal order and rising global clout of China, Xi is fast mobilising the CPC, the Army, diplomacy, economy and finally his people into one central point that China will rise and rise. Xi is a combination of both power and paranoia. His is a regime conspiring to create imbalance in global governance, as many believe. For Xi,

he is working hard and fast to spread the message to his people, making China strong demands uniting under the Party.

And joining the Party is precisely a gateway into the vanguard of the Chinese elite forever. For him, the Party is the only future. And thus, once he echoed: “The Party-Government, the Armed Forces, society and academia; east, west, south, north and centre; the Party leads everything.” If this is what he foresees and expects compatriots to do, he will not allow Hui Muslims to preserve their age-old traditions and unique lifestyle strongly imbued with religiosity.

Today, Islamophobia in the West is abetting, but in China it is on the rise. But punching down the ethnic Huis and Uyghurs will not offer any readymade solution to the Communists. When the country is aspiring to be rich, resourceful and powerful in the global stage, it needs to be patient with cultural, regional,

ethnic and especially, religious differences.

The Party must accept assimilation of various cultural and religious strands as the world is fast encircled by multiple waves of globalisation and post-globalisation. But then continued atrocities and persecution of Hui and Uyghurs will certainly damage China’s reputation on the global stage. Xi is completely an anti-thesis of Mao as the latter desired for continuous revolution. Whereas Xi called for peaceful China meaning total stability? And for managing this stability, he will not mind “re-educating” the Hui’s the same way he and the Chinese statecraft has been doing for the Uyghurs so far in Xinjiang.

Finally, the liberal democracies and their leaders must be serious about China’s massive “sinicisation” of Uyghurs and now a fresh attempt at Hui Muslims. Truly, this “sinicisation” is nothing but the curtailment of one of the edifices of basic freedoms that is the right to freedom of religion available in most of the modern nations.

Innocuous as it may seem, but this is the beginning of a new trend of religious persecution of minorities with Chinese characteristics under the leadership of President Xi.

It must be stopped, and the world leaders should voice their concerns in global governance institutions. China must behave responsibly and like a law-abiding nation. Before venturing out to capture the global stage and records, Beijing must set its own house in order. Huis and Uyghurs have the same basic rights the way it is enjoyed by the majority Hans in China.

By targeting the ethnic Muslims, China is simply inviting the wrath of the global jihadists. It would be prudent on China’s part to stop atrocities on the Hui Muslims. Making Yunnan another Xinjiang would be fatal for China’s stability in the long run.

Denying the freedom to practice and enjoy ethnic religious rights goes against all basic universal tenets of human rights. It’s completely unfair to keep the Hui Muslims under a state of constant fear.

(The writer is currently the Head of the School of Humanities & Social Sciences, Geeta University, Panipat)

Beijing must set its own house in order. Huis and Uyghurs have the same basic rights as those enjoyed by the majority Hans in China. By targeting the ethnic Muslims, China is simply inviting the wrath of the global jihadists. It would be prudent on China’s part to stop atrocities on the Hui Muslims. Making Yunnan another Xinjiang would be fatal for China’s stability in the long run

MAKHAN SAIKIA

PERSPECTIVE

Climate change not a myth

The saddest part of the climate menace is that the poorest countries and island communities are the worst sufferers of climate change. Whereas they have not played any role in altering the environment

CHITRANGADA

Climate change is real. Not a myth. Anthropogenic elements are central to environmental disturbances. The fear is that humanity is in great danger. The situation today is escalating. We are advancing towards a catastrophe.

Climate change is one of the most emerging problems and we humans are the main predators to such things. Now the question arises: how are we going to stop it? We may have many motives and initiatives in our mind but are we able to implement them in a useful way? We can’t just see that we are the ones who have brought such destruction for the past 200 years. Fossil fuels and greenhouse gases are the uprising problems. The most astonishing part is that the earth is a system where everything is connected. If an area is affected, then the change is seen everywhere.

In 2021, the UN Secretary General Antonio Guterres unveiled the UN Report on Climate Change called ‘State of the Global Climate 2020’. It is a report prepared by the World Meteorological Organization (WMO), a key agency of the UN. The State of the Global Climate 2022 released by the

WMO indicates the continued rise of greenhouse gas emissions in the last year. It focuses on primary climate indicators like greenhouse gases, temperatures, sea level rise, ocean heat and acidification, sea ice and glaciers. The report seriously highlights climate change and extreme weather conditions. The Report states that drought, floods, and heat-waves are major parts of the globe, and the costs are rising for all. It is also reported that global mean temperature for the last 8 years has been recorded as the highest. Further, sea levels and ocean heat are at their record high. It is predicted that this trend will continue for centuries. The Report also says that sea ice in Antarctica falls to the lowest level. The continent of Europe has witnessed the breaking of glacier melts.

The Climate Change Synthesis Report 2023 released by the Intergovernmental Panel on Climate Change (IPCC) highlights the state of the knowledge of climate change, its widespread impact, and risks. It says that human activities principally through emission of greenhouse gases, have unequivocally caused global warming, with global surface

temperature reaching 1.1 degree Celsius above 1850-1900 in 2011-2020. It’s alarming.

Another UN Report in the year 2021 highlighted that time is running out to tackle the climate crisis now. It was clearly said that even the deadly Covid-19 has failed to put a brake on relentless environmental change. Again, this WMO Report mentioned that because of the severe Covid-19 restrictions, the rich and advanced nations barely could help in assisting the climate-affected nations of the world. This pandemic has seriously delayed the delivery of climate finance and other protective

measures to extremely vulnerable nations, especially the small island developing countries like Tuvalu, Madagascar, Seychelles, Maldives, Fiji, Haiti, etc. The UN stressed that the year 2021 is the year of action for the protection of the people from the disastrous effects of climate disasters.

Besides other negative impacts of climate change, it is also preventing people from enjoying basic rights or human rights in many parts of the world. Last year, a group of young people filed a petition at the European Court of Human Rights. They complained to the Court that climate inaction is

a human rights violation. They all highlight a 1990s era treaty named ‘Energy Charter Treaty’ according to which governments are required to compensate energy companies and investors if public policies cut into their profits. And this refers to public policies that are made to fight environmental change.

We all must know that the UN Framework Convention on Climate Change (UNFCCC) 2021 for the first time tried to connect human rights and climate change to the table of the Conference of the Parties (COP). The aim of this move was to promote rights-based

climate actions and the integration of human rights in the historic Paris Agreement. Since then, the Office of the UN High Commissioner for Human Rights (OHCHR) has expanded its work on human rights and climate change all around the globe.

Under the existing international human rights law and the UN Declaration of Human Rights (UDHR) of 1948, all the states have the responsibility to protect its people from any foreseeable danger. These laws and conventions have the mandate to protect, respect and create conditions for fulfilling our human rights. The dangers heralded by climate disasters are ever present in our life today. It’s largely hampering us from enjoying the basic rights of the people. Under the existing international human rights law, the states and the world bodies have the responsibility to take immediate steps to mitigate the impacts of greenhouse gas emissions. And it must ensure that all of us have the necessary means to adapt to rapid climate changes.

The saddest part of the climate menace is that the poorest countries and island communities are the worst sufferers of climate change. Whereas

they have not played any role in altering the environment. But it is also true that these countries are directly or indirectly enjoying the benefits of the massive industrialization and post industrialization era. The products of all polluting and extractive industries produced by advanced nations are used by all of us including the poor and vulnerable nations. In that way, we all are part of the damages done to the Planet Earth today. So we need to refrain from all such practices that may harm or destroy this planet not only today but also in future also.

I, being a youngster, am still confused about what will happen to Planet Earth. Like me, millions are in a state of shock. But no one has the right to steal our future. No one has the divine will to bring back our planet to the pre-industrial level. What we can do is to prevent further disasters. We can plan for active mitigation efforts. It’s our home. Let’s preserve it together. But do remember that ‘Climate Abyss’ is one of the starkest realities of the 21st century.

(The writer is a young climate thinker based in Delhi-NCR)
