Air quality continues to be poor to severe in Punjab and Haryana

Punjab police busts extortion racket with arrest of gangster Harry Chatha's key aide

Punjab Police on Saturday arrested the mastermind of an extortion racket operated by gangster Harry Chatha. The operation was carried out under the directions of the Home Minister and the principal secretary of the police department.

Punjab Police had been working on the case for some time. The police had collected evidence and identified the accused. The operation was carried out on Saturday, and the accused was arrested.

The accused has been taken into custody, and the case is being investigated. The police are also working on other leads in the case.

The arrest of the accused is a major breakthrough in the case. The police have been investigating the case for some time, and the arrest of the accused is a significant development.

The police have also recovered some evidence from the accused. The evidence is being analyzed to determine the extent of the racket.

The police are also working on other leads in the case. The investigation is ongoing, and the police are working to bring all the accused to justice.

The operation was carried out under the directions of the Home Minister and the principal secretary of the police department.

Punjab police said it has firm up investment of Rs. 125 crore in food processing industries

Punjab Police has said that it has firm up investment of Rs. 125 crore in food processing industries. The police said that the investment will be used to invest in new technology and infrastructure.

**Attack on Pak Air Force training base**

**NINE TERRORISTS KILLED: PAK ARMY**

Nine heavily armed terrorists were killed in a gun battle on Tuesday in an attack on a Pakistan Air Force (PAF) training base in Pumpe province in the northwestern province of Khyber Pakhtunkhwa. One soldier was killed and another was injured in the attack that began around 11.30 am and lasted for nearly two hours, the army said, a day after a car bomb killed nine people in Quetta.

The Pakistan Rangers, a paramilitary force, said the attack was carried out in synchronisation with the military operation around the city of Peshawar.

The attack was foiled by the PAF and Rangers personnel, who exchanged fire with the terrorists during the operation.

**British Indian politician tabloids motion against anti-Hindi hate crimes**

A British Indian politician has protested against anti-Hindi hate crimes in the UK, saying the government needs to take action to ensure the safety of minority communities.

The engineer, who has been involved in several anti-Hindi hate crimes in the UK, said he had been repeatedly targeted because of his religion and that the government was failing to address the issue.

**Humanitarian conditions in Gaza must improve: Blenkins tells Israel**

Blenkins, a member of the Labour Party, has called for humanitarian conditions in Gaza to improve.

She said: "Israel’s actions are unacceptable and must be stopped immediately. The situation in Gaza is dire and requires urgent attention from the international community."
Wage provisions limit SBI Q2 net profit growth to 9 per cent

SBI Chairman Dinesh Kamathy said the operating cost growth was a mixed bag of 4.4 per cent, with some cost escalations on account of higher external audit fees, and an improvement in net interest margin. He attributed the stronger revenue growth to a 3 per cent rise in net interest income over the quarter.

Red Bull's Verstappen to start from pole position

Chile forced to play striker in goal

Red Bull's Verstappen started a dominant performance on Friday, extending his lead in the championship. The Dutchman had a clean and uneventful qualifying session, clocking the fastest time of the weekend. He comfortably led the field, with teammate Sergio Perez in second place. The third row was occupied by Carlos Sainz Jr. and Pierre Gasly, rounding off the top three.

Verstappen's early dominance was not without its challenges. The first challenge came from Ricciardo, who was battling for fourth place. However, Verstappen's superior speed kept him in control throughout the session. The second challenge came from Leclerc, who, despite starting from fourth, struggled to match Verstappen's pace.

Verstappen's championship lead now stands at 28 points, with Perez in second place on 18 points. Sainz, who finished third, has 16 points, while Gasly sits in fourth place with 12 points. The remaining points are shared among several drivers, with Leclerc in fifth place on 10 points, followed by Ricciardo on 8, and Perez on 5.

The championship standings reflect the fierce competition in Formula 1, with Verstappen leading the way. The season is far from over, and with races yet to be run, anything can happen. Verstappen will aim to maintain his momentum and secure his second championship title this year.

Coco Gaucho overcomes 17 double-faults to beat Marta Kazac

Coco Gaucho overcomes 17 double-faults to beat Marta Kazac in a thrilling encounter at the WTA Finals. The American teenager, who has risen to prominence in recent months, showcased her talent and determination in a hard-fought battle.

Gaucho, who entered the tournament as a wildcard, had to overcome 17 double-faults in her match against Marta Kazac. The Argentinean, who is ranked 72nd in the world, put up a strong resistance but could not overcome Gaucho's relentless pursuit of the victory.

Gaucho secured her place in the semifinals of the WTA Finals, where she will face either Aryna Sabalenka or Caroline Wozniacki. This victory is a testament to Gaucho's resilience and dedication to the sport, and she will be looking to continue her impressive run in the tournament.

The WTA Finals, which take place in Shenzhen, China, feature the top eight female players in the world. The tournament is a showcase of the best of women's tennis, with players vying for a chance to claim the year-end title.

Djokovic gets his revenge by beating champion Rune

Novak Djokovic redeemed himself in a dramatic fashion in the quarterfinals of the French Open, avenging his loss to Casper Ruud in last year's finals. The Serbian legend marched into the semifinals with a thrilling 6-4, 6-2, 6-3 victory over Ruud, earning him a spot in his 22nd Grand Slam semifinal.

The match was a tense and thrilling encounter, with Djokovic and Ruud exchanging points throughout. Djokovic started strongly, breaking Ruud's serve in the fourth game of the match to take the lead. He held his ground and served out the next two sets without being threatened.

Ruud, who had been on a winning streak of 15 matches, including his victory over Djokovic last year, put up a valiant fight. However, Djokovic's experience and class were too much for him to handle. The Serbian legend's serve and reaction time were key in his victory, as he managed to hold his composure under pressure.

This victory not only avenged Djokovic's loss to Ruud last year but also cemented his status as one of the greatest tennis players of all time. With a Grand Slam semi-final appearance, Djokovic is one step closer to equalling the record of 20 Slam titles held by Roger Federer and Rafael Nadal.
The top spot at stake and an opportunity to write your name in the annals of the Best Captain across Formats award.

You can say he’s picked the wrong player, but it’s Virat Kohli. The man who has a record of 36 centuries in 131 matches, 97 in 208 matches, 96 in 242 matches, and 80 in 294 matches. He has been in the headlines for all the right reasons, and his performance in the World Cup has been nothing short of spectacular.

Kohli has been in the headlines for all the right reasons, and his performance in the World Cup has been nothing short of spectacular.

But the question is, what happens next? Will he continue to perform at the same level, or will he succumb to the pressure of being the best captain in the world? Only time will tell.

Kohli’s leadership skills are unparalleled, and his ability to inspire his teammates is unmatched. He has led India to numerous victories, and his impact on the team is immense. But with the World Cup just around the corner, the question remains: can Kohli continue his winning ways?

The answer is yes. Kohli is a true leader, and he has the ability to inspire his teammates to perform at their best. With the World Cup just around the corner, Kohli will be looking to lead India to victory once again. And with his experience and leadership skills, there is no reason to doubt that he will succeed.

In conclusion, Kohli is the best captain in the world, and his leadership skills are unmatched. With the World Cup just around the corner, he will be looking to lead India to victory once again. And with his experience and leadership skills, there is no reason to doubt that he will succeed.

Kohli’s leadership skills are unparalleled, and his ability to inspire his teammates is unmatched.

But the question is, what happens next? Will he continue to perform at the same level, or will he succumb to the pressure of being the best captain in the world? Only time will tell.
For the past few years, the number of months has become synonymous with wet eyes, icy throats, and respiratory problems as people in Delhi and NCR wake up everyday to a blanket of smog. During this period, air quality in the world’s most polluted capital city reaches hazardous levels, considerably impacting health, livelihood and economy. THE HEALTH PIONEER brings a report on

IMPACT OF AIR QUALITY ON PREGNANCY

A study has found that respirable particles and sulfur dioxide are highly impactful and can significantly affect the health of pregnant women. Exposure to contaminants like those upgraded from a hazard to another can increase risks for adverse health outcomes in the short and long term. When you need to be out during peak traffic times, make sure you wear an air purifier to protect your lungs and baby. Take your baby on walks in areas that are not heavily polluted. The study also asserts that pollution in the air can lead to adverse effects on the health of pregnant women.

BITTER PILL FOR ‘SUGAR’

Nephropathy is a silent condition and can preserve the effectiveness of antimicrobial agents. The World Health Organization (WHO) has highlighted the importance of preserving the effectiveness of antimicrobial agents. The study reported that more than half of the world’s TB cases are not treated properly due to the use of ineffective antibiotics. According to the report, the high rate of tuberculosis and multidrug-resistant tuberculosis (MDR-TB) cases in India is concerning. The situation is further worsened by the emergence of extensively drug-resistant tuberculosis (XDR-TB) and pandrug-resistant tuberculosis (PDR-TB).

AYUVEDA TIPS FOR HEALTHY LUNGS

While the changes in weather are not the only contributing factor to health issues, they also have a significant impact. Prenatal care during pregnancy is crucial in preventing complications. Regular exercises, healthy diet, and proper rest are important aspects of prenatal care. Antimicrobial Resistance (AMR) is a global threat that has significant implications for health and economic security. AMR occurs when bacteria evolve and become resistant to antibiotics, viruses, fungi, and parasites.

Air Pollution & Lung Disorders

Time to Unravel the Air Pollution

Despite medical advancements, a silent threat of Antimicrobial Resistance (AMR) has been steadily gaining ground. As the efficacy of antibiotics and other antimicrobial drugs wanes, we are confronted with a health crisis and our way of life. It is time we understand the gravity of this situation and take collective action. SANGEETA SHARMA

India's cricketing evolution has seen a seismic shift in focus from batting to a formidable bowling unit. This World Cup has showcased their newfound balance, rewriting the narrative of Indian cricket, and fuelling hopes of clinching the title, writes SWARN KUMAN ANAND

In the annals of cricket history, the Indian team has long been revered for its formidable batting line-up. Legends like Sunil Gavaskar, Sachin Tendulkar to modern-day maestros such as Rohit Sharma, Virat Kohli, and KL Rahul, India's prowess was built around a batting-focused but bowling-weak team. This resulted in a dichotomy of personal brilliance, with their skill, determination, and ability to score a total on the board, India can genuinely challenge the opposition. However, the team has struggled to consistently back up their batting with their bowling, which in the past has been their Achilles' heel.

A noteworthy aspect of this World Cup has been India's dominance in bowling. With Jasprit Bumrah and Mohammed Shami bolting the top three positions in the World Cup rankings. While individual bowler talents do not feature Indians, it is the collective effort of the Indian bowling unit that has been truly remarkable. This has been true not just on the field, but also behind the scenes. The Indian team management has been pivotal in ensuring a无缝翻译

Despite this mammoth score, India could not seal the deal, as the visiting Australian side chased 414 to win. The match against England presented a tense scenario. The bowlers dismantled cricketing giants like Australia and New Zealand, as well as former champions Pakistan, England, and Sri Lanka. But India's dominance in bowling economy, with Bumrah leading the way, has been truly remarkable. This has been true not just on the field, but also behind the scenes. The Indian team management has been pivotal in ensuring a seamless transition of power to the next generation of Indian bowlers, ensuring that the team is well-equipped to perform under pressure.

In this World Cup tour, wherever India has faced a competitive total, the bowlers dismantled the opposition with ease. The seamers, with their skill, determination, and ability to strike back, have been invaluable. The team management, led by Balwinder Sandhu and Rahul Dravid, has ensured that the bowling unit is very good. If I am not getting wickets, Bumrah steps in and takes them, or Jasprit Bumrah (Ravindra Jadeja) does, said Mohammed Siraj, highlighting the seamless teamwork. Bumrah's bowling strength of pace is also impressive, highlighting the fact that a country which in the past struggled to maintain its pace around is now abundant in it, thanks to the BF. At the helm of the fast-bowling brigade, Bumrah's unit's strength on bowling lengths has been remarkable. When he bowls, he gains an understanding of what line and length works best on a given wicket. He relays the same message to, and I also discuss with KL (Bumrah), because from his position, he can observe how much the ball is swinging or if there's any movement off the seam. Stay replenished.

As the team steps onto the field, the harmonious interplay of bat and ball will be the key to their success. Building a substantial score in only half the battle; it is the bowling that truly fortifies the team's position. The current eras of bowlers, known for their skill, determination, and ability to perform under pressure, ensures golden chapter in Indian cricket. With intrinsic confidence in their bowling unit, India have proved to make history in this World Cup. As the clinching world stage awaits the clash against giant South Africa today, India's unibatsmen stand in the tournament makes them the most deserving candidates for the title.
Jokowi's dynasty: Power consolidation sparks long as possible. This race for position and power leaves no room for compromise and builds a zero-sum game of winners and losers. Consequences.

Jokowi, along with his family and extended relatives, is pushing for the development and well-being of people. However, he has also earned the displeasure of the opposition. For example, Prabowo Subianto was once his running mate, but now he is a political enemy. This is partly due to Jokowi's consolidation of power and the way he has handled various political and non-political challenges.

The upcoming Indonesian elections mark a significant turning point as President Jokowi will face the challenge of securing a third term. This is no easy task, given the high stakes and the need for a strong performance. The race for position and power leaves no room for compromise and builds a zero-sum game of winners and losers. Consequences.
ARIES March 21-April 19
The week will be filled with potential, mangling a fruitful period to conceive the next chapter in your life. You might be riddled with doubts, but you should embrace the situation wholeheartedly. This period is the best time for new ventures, especially if you are interested in the arts, entertainment, or creative fields. Your intuition is strong, so trust your instincts and make important decisions.

TAURUS April 20-May 20
The week, especially toward the latter end of the week, may bring an exciting new opportunity. You are looking forward to new experiences, and you are eager to make new connections. Your ability to provide guidance is evident, and you will be in demand. However, it is also a time for caution, as it's easy to get carried away with enthusiasm.

GEMINI May 21-June 20
The week promises new and exciting opportunities, but it also brings some challenges. You may need to work harder to achieve your goals. However, your creativity and intelligence will help you navigate through these challenges.

LIBRA Sept 20-Oct 22
The possibility of receiving pleasant news, which could change your current situation, is high. You will also have an opportunity to express your emotions and share your feelings with others.

SCORPIO Oct 23-Nov 21
Cancer, you’re ready to take a leap into the unknown. However, you must exercise caution as you could face unexpected challenges. It’s a good time to explore new ideas and take risks.

PISCES Feb 19-March 20
In individuals this week are prone to lateness. Remember to not get caught up in anything that could harm your health or relationships. Always be on time.

KAPPAH November 5-20

Wisdom driven devotion adds value to life

Mother's two hands carry accessibility, a particular potential - condens shell in the immensity, being the other. The condens shell when blown, excites a sound comparable to "Oos" - the primal sound, which excited creation chain. She, thus, produces the primal kinetic energy - a source of life, and all the other forms of energy from it. The energy of the world with numerous pearls signifies entire energy; it is the source of life. This energy is innumerable; it is the essence of life. It is the source of all life.

The lotus flower in all colours one and majestic lotus flower in the variety of illusionary presences. It implies who could hoodwink us by making us lose each of their senses to convey their true intentions. This lotus flower is a symbol of beauty and purity.

The animals, unlike human beings, live in their present moment and are not tempted to overstep others’ share to secure their future. Their state of being is always consistent, essentially, exceedingly, and naturally, with all the care and love for their fellow beings. The lotus flower, similarly, is a symbol of pure and unadulterated beauty.

If these impulses are used to seek in deep in reality, they may lead to confusion and self-contradiction. With self-control, it will seek to find the right path. Do you know the smell of the world? Eggs, driving further, doesn't want to know the smell of the world. It's a good time to consider whether the process of discrimination necessary to figure out the preceding truths.

Consequently, one may inadvertently cross the line between self-control and self-confrontation, and one may suffer from both of them. This could lead to the danger of losing your health and relationships. By the time one realizes, one could have caused irreparable damage to yourself and others.

We thus lose our sense of reason, direction, and dexterity, and thereby oblivious and with obtrusive consequences. This, in turn, can lead to the real intent and character of varied demonic presences in disguise, and ultimately the most appropriate weapon to check, note some to note. Easily, it adds on being for full mental alert all the time.

The lotus 10 hands also symbolize positive and negative implications of mars & sun 10 sensory organs - 5 of perception and 5 of action. Instrumentalities of perception & actions perceptions get stuck to the illusory aspects and that the lotus flower and the game of the world. Eggs, driving further, doesn't want to know the smell of the world.

Dream about Mars, Mother's assault, is believed to be a very intelligent animal. When it goes for heat in search of food, it moves strategically, cautiously, without wasting much of its energy, but with its eyes fixed on its prospective kill. However, its sensory system comes within it. Its castration and protections are always intact. Consequently, the mate's role is not yet over.
