Delhitians vent ire against blanket ban on vehicles under GRAP

Pioneer news service
NEW DELHI
The complete ban on certain categories of vehicles under Stage III of the Graded Regional Air Pollution (GRAP) stage II requires a total ban on all private vehicles, which includes two-wheelers and four-wheelers, in Delhi to tackle a crisis in air pollution. This has led to widespread protests and unrest, with many feeling that the ban is unjustified and unfair. People have been left stranded, with no means of transport, and businesses have suffered as a result. Many are also concerned about the impact on the environment and the economy. The government has been criticized for not providing adequate alternatives for transport, and for not involving the public in the decision-making process. The ban is set to remain in place for the next 15 days, until November 15, and will be re-evaluated based on the pollution levels. The Delhi government has been urged to provide better public transport options and to involve the public in the decision-making process to avoid further unrest and protests.
Martyr Sanjay Singh Bisht cremated with full honours

PNS in NAINITAL

Since Naini Sanjay Singh Bisht, a braveheart who sacrificed his life during an anti-terrorism operation in Jammu and Kashmir, was cremated with full honours on November 18 in Nainital. The body of the braveheart, who was born in Haridwar, was brought to Kumaon from Jammu and Kashmir.

Indian Army official sources said that during the anti-terrorism operation, Bisht was killed when an improvised explosive device was triggered while he was metres from the enemy. His body was carried on the shoulders of his comrades and presented to his home town, Haridwar.

Several relevant matters like promoting integration from the villages, strengthening border security, enhancing facilities in the Uttarakhand and generating employment opportunities for the local people through boosting adventure sports and activities featured in the IMA D2K festival followed the event. A commencement from the IMA said, "The event was coordinated by the State Tourism Development Cell, the Tourism Development Department, and the Police Department. The event was organized with the assistance of the Indian Army."
The operation to rescue the 41 stranded workers in the tunnel in Uttrakhand since November 12 has been hitting obstacles due to which the rescue operation has been stuck in the Silkyara tunnel since November 12. Various officials and state administration are working to clear the obstacles but the rescue operation has not yet gained momentum.

Four people killed in road accident

Four people travelling from Bareilly to Rudrapur in a Scorpio hit a head-on with a lorry on the Nainital Road in Udhampur on Thursday. The driver of the Scorpio named Ram Daya Maurya (35) and his two sons Avinash Maurya (25) and Ankur Maurya (22) and his son-in-law Prince and Vikram Kushwaha were killed. The police have started the transit remand to gather essential evidence. The police have started the investigation of the case under IPC 304A and 304B.

Act against dummy establishments

Arya added that the UP police are investigating those involved in the robbery in Silkyara. They have nabbed soon, said SSP. The police also directed them to send notices to the owners of closed plants and officials found to be responsible for the same.

Police conduct raids to nab gang that helped rob Reliance Jewels store

The police have started raids in other states to nab the gang that helped rob the Reliance Jewels store in Dehradun on November 9, and the senior author of the robbery, Ajit Singh. He said that the police also arrested those other accused involved in the robbery.

Chief secretary Sanyojan Singh, director of mining, carried out the raid in the mining yard at the head office in the presence of the State administration and police in the mines operation.

CM continues official works from temporary camp in Matli

The PCC president said that theUP police are investigating the robbery. The police have started the transit remand to gather essential evidence. The police have started the investigation of the case under IPC 304A and 304B.

India, Bangladesh conduct foreign office consultations

Even as sustainable climate action lags behind, climate adaptation, mitigation, and in turn, health, remain top priorities. Health, human security, and health adaptation need to be viewed as interlinked, as the health effects of climate change need to be adapted to climate change in order to protect human health and well-being.

In its report released ahead of the G7 and upcoming UN meetings, the World Health Organization (WHO) called for climate action on multiple fronts to help the world meet climate targets and to protect human health.

Electronic and Information take appropriate action against Modi and the netizens' outrage

A recent Indian Supreme Court (SC) order has allowed the government to order social media companies to remove content that may cause moral harm to any individual or group. With this order, the Indian government has tightened the grip on the internet and freedom of speech.

The government has been increasingly cracking down on social media platforms, citing concerns about misinformation and fake news. This has led to a significant reduction in the volume of posts on platforms like Twitter and Facebook.

In its report released ahead of the G7 and upcoming UN meetings, the World Health Organization (WHO) called for climate action on multiple fronts to help the world meet climate targets and to protect human health.

Minister reviews progress of underground cabling works

A review meeting of the underground cabling works was held under the chairmanship of Minister Venugopal in Lucknow. The meeting was addressed by Shri Vinit Prasad Pandey, District Magistrate (Finance & Additional District Magistrate) and Additional District Magistrate (Revenue) Shiv Pratap Shukla. The meeting was attended by the SPs of the districts, the District Magistrates, CAMP: Relations Officer (APRO) Abhilash, and about 25 other officials who were present in the meeting. The 13 districts of Uttar Pradesh were slated to visit Varanasi, connections have been made, and the supervision and inspection in the energy sector. He asked to make the electrical connections in Varanasi, and directed senior members of the Power Corporation Limited (PVCL) to quickly provide electricity connections in the entire city.

Chairs of Uttar Pradesh Pradesh Corporation Limited (UPPCL), D. V. Ashok Krishna Rao, and Indian Prime Minister, the Prime Minister informed about the benefits of the integrated power system and directed senior members of the district to start the process of connection in the entire city. The Prime Minister mentioned that there would be a clear difference between the old and new system, and the loss percentage should be brought down further. To make the city get freedom from the tangled lines, adopting the new system was inevitable. He also mentioned that the UPPCL would also provide the required facilities and equipment.

Chairman of Uttar Pradesh Pradesh Corporation Limited (UPPCL) D. V. Ashok Krishna Rao informed that the whole power connection was done under the chairmanship of Dr. D. V. Ashok Krishna Rao. He informed that the total power connections were completed in 1982 in the city and the overall system was functioning to the same extent.

Positive global reactions to Modi’s G20 virtual meet, even from China and Canada, confirm its success

There were any doubts whatsoever about the impact India had on the G20 platform at any level. India’s diplomatic efforts, led by President Ram Nath Kovind and Prime Minister Narendra Modi, have been recognized globally. India’s proactive role in the G20 summit was widely appreciated, with many countries expressing enthusiasm for India’s participation.

**LETTERS TO THE EDITOR**

**Vande Bharat: Overpriced**

Linda Ashar

**In the age of education, a growing concern is emerging that creativity is stifled and disenchanted learning is on the rise. Rather than relying on textbooks and standardized assessments, a creative approach to curriculum is becoming increasingly popular as a means of unlocking students’ potential. Creativity is not only an art form but also a cognitive ability that enables students to develop critical thinking and problem-solving skills. Creativity is the environment that encourages students to think outside the box and explore innovative ideas and skills by embracing new approaches.**

**The curriculum is evolving.**

**Charge and Effective Learning Environment**

The curriculum is evolving, and educators are encouraging students to explore their interests, foster a sense of autonomy, and personalize their learning experience. All skills begin in the brains. Whether learning to sew, bake a bread or solve an equation, all starts with seeing the right fit in the right area of the brain.

**Emotional and Social Development:**

This is possibly the most important area of development. Not everyone learns the same way. For instance, some individuals are more visual learners, while others are auditory or kinesthetic learners. Students need to be encouraged to experience creativity, self-expression, and effective learning environments. Emotions are essential for students to explore their interests, foster a sense of autonomy, and personalize their learning experience. The curriculum is evolving.**

**Integrative Thinking**

It encourages students to develop critical thinking, problem-solving, and information and knowledge. When new ideas can work, improve the overall understanding of a group of students, they are more likely to remember the importance of a subject.**

**Innovative Teaching:**

It enhances the students’ ability to learn new things and foster innovation. Innovative teaching and learning environments are necessary to keep students engaged and motivated. Students need to be encouraged to think outside the box, explore new ideas, and develop critical thinking skills.**

London (AP): Prime Minister Stormont Alasdair McDonnell said three journalists had been kidnapped in eastern Mexico, where authorities are hunting a gang of kidnappers who have abducted 19 people in two days.

"It is absolutely shocking," McDonnell said. "It is a very serious issue and we are doing everything we can to help.

The journalists, who were kidnapped on Friday night in the state of Chihuahua, work for the local newspaper Milenio and the national daily Excelsior.

"We are working on it, we are doing everything we can to get these journalists back as soon as possible," McDonnell said.

He said the government had not yet received any information about the location of the kidnappers or the conditions of the journalists.

The kidnapping comes amid a string of violent attacks in Mexico, where at least 20 people have been killed in two days in eastern and southern states.

At least 16 people were killed in an ambush on a road in the northeastern state of Tamaulipas, and two more were murdered in a separate incident in the southern state of Tabasco.

The violence has sparked protests and a heightened security crackdown, with the government blaming drug gangs for the attacks.

"We are working very closely with the authorities in Chihuahua," McDonnell said.

He said the government had not yet received any information about the location of the kidnappers or the conditions of the journalists.

Instability disrupted economic growth: Pak Finance Minister

Pakistan's caretaker Finance Minister Shaukat Alika said Monday that the instability over the period of time has created a situation in the country that it is facing an economic crisis.

Addressing the Sustainable Development Goals (SDGs) conference here, the finance minister said that the economic situation had become more difficult due to the growing demands of people, the spike in prices of some essential goods, and the political instability.

Speaking on the theme of the impact of global economic shocks such as COVID-19, Russia-Ukraine war, and higher commodity prices and tighter liquidity conditions, the finance minister said that Pakistan is facing fiscal and economic challenges that have resulted in an unprecedented debt position.

The minister said Pakistan's net external debt position has reached an alarming level.

Inflationary pressures are on the rise, exacerbated by higher transportation and energy costs.

Pakistan's official foreign exchange reserves have also declined, making it difficult to service external debt.

Pakistan is facing a tough challenge in meeting its external debt obligations, and the country's ability to attract foreign direct investment is at risk.

The finance minister said that Pakistan's debt situation has worsened due to the COVID-19 pandemic and the war in Ukraine.

He added that Pakistan's macroeconomic indicators have deteriorated, and the country needs to take urgent steps to stabilize its economy.

The minister said that Pakistan needs to focus on improving its fiscal and monetary policies to attract foreign investment and ensure sustainable growth.

He emphasized the importance of ensuring macroeconomic stability and reducing the fiscal deficit to attract foreign investment.

The finance minister said that Pakistan needs to work on reducing its current account deficit and increasing exports to build its foreign exchange reserves.

He added that Pakistan needs to focus on diversifying its economy to reduce its dependence on foreign aid and increase its resilience to external shocks.

The finance minister concluded by saying that Pakistan needs to work on improving its institutional capacity and governance to attract foreign investment and ensure sustainable growth.

Ukraine aims major drone attack on Crimea

Ukraine launched one of the biggest attacks on the Crimean peninsula since Moscow's annexation of the Crimean region in 2014.

On Monday, the Ukrainian army launched a series of drone attacks, including 140 drones, targeting various locations in Crimea.

The attacks came in response to a recent Russian military buildup in the region, including the deployment of more than 40,000 troops to Crimea.

The Ukrainian army said that the attacks were aimed at disrupting Russian military operations in the region and weakening Russia's military capabilities.

The attacks also came as tensions between Ukraine and Russia have increased, with both countries accusing each other of preparing for a military conflict.

The attacks were the largest of their kind in recent years, and they have raised concerns about the possibility of a conflict in the region.

In response to the attacks, Russia has increased its military presence in Crimea, including the deployment of more than 40,000 troops to the region.

The Ukrainian army said that the attacks were aimed at disrupting Russian military operations in the region and weakening Russia's military capabilities.

The attacks were the largest of their kind in recent years, and they have raised concerns about the possibility of a conflict in the region.

In response to the attacks, Russia has increased its military presence in Crimea, including the deployment of more than 40,000 troops to the region.

The Ukrainian army said that the attacks were aimed at disrupting Russian military operations in the region and weakening Russia's military capabilities.

The attacks also came as tensions between Ukraine and Russia have increased, with both countries accusing each other of preparing for a military conflict.

Satwik and Chirag, who won the Indonesian combination 21-16 tournament here on Friday. Masters Super 750 badminton and Daniel Marthin at the China the men’s doubles semifinal.
India batter RINKU Singh credited the team’s victory to being “complimentary” to Kishan as he helped him trying to smashes and knock them out to bat, and it felt good out there to be playing alongside Suryakumar. He was thinking of doing what Ishan did in cricket situations and was trying to stay as calm as possible, he added. "With a single needed off the final delivery, Suryakumar and Shankar smashed it to win the game. "Under the circumstances, that’s what I had to do," he said. Rinku came into the spotlight in the World Cup final against India, scoring 53.

Punjab was probably the best of the five teams Rinku came into the spotlight in the World Cup final against India, scoring 53.
