Free grain to poor for five more years

PIONEER NEWS SERVICE ■
NEW DELHI

The Union Cabinet, on Wednesday, decided to extend the Pradhan Mantri Garib Kalyan Anna Yojana (PMGKAY) to provide 5 kilograms of free food grains per month to 81.35 crore poor people for another five years, which would cost the exchequer ₹11.80 lakh crore.

The Cabinet meeting, chaired by Prime Minister Narendra Modi, also approved the Pradhan Mantri Janjati Adivasi Nyaya Maha Abhiyan, which focuses on 11 critical interventions for Particularly Vulnerable Tribal Groups. Additionally, the Cabinet approved a central scheme to provide drones to 15,000 progressive women Self Help Groups (SHGs) with an outlay of ₹1,261 crore for two years beginning in 2024-25.

The Cabinet also cleared the Terms of Reference of the 16th Finance Commission to suggest the ratio for the devolution of taxes between the Centre and States. Additionally, it will review financing for disaster management initiatives for five years beginning April 1, 2026.

Information and Broadcasting Minister Anurag Thakur told the media, "Keeping in view the welfare of the beneficiaries and to strengthen food security in

Pradhan Mantri Garib Kalyan Anna Yojana

terms of accessibility, affordability, and availability of food grains for the targeted population, and to maintain uniformity across the States, the decision has been taken to continue providing food grains free of cost under the PMGKAY for five years."

The scheme was last extended until December 31, 2023. The PMGKAY was introduced in 2020 as a pandemic relief measure, providing 5 kg of free food grains per beneficiary per month, in addition to the 5 kg of subsidised food grain under the National Food Security Act (NFSA).

In December 2022, as the PMGKAY came to an end after multiple extensions, it was subsumed under the NFSA, providing ration for free for one year. Under the NFSA, two categories are covering up to 75 per cent of the rural population and 50 per cent of the urban population — Antyodaya Anna Yojana (AAY) and priority households. AAY households, comprising the poorest of the

poor, are entitled to receive 35 kg of food grains per family per month, while priority households receive 5 kg per person per month.

Termed as a historic decision, the Government has stated that the extension of free grain distribution under the PMGKAY for the next five years reflects the long-term commitment and vision of the government in addressing national food and nutrition security. This move is expected to help mitigate any financial hardship faced by the affected strata of society in a sustainable manner and ensure a long-term pricing strategy with zero cost to the beneficiaries. This, according to a statement, is vital for the effective penetration of the Public Distribution System.

For example, the economic cost of 35 kg of rice for an Antyodaya family is ₹1,371, while the cost of 35 kg of wheat is ₹946. These costs are being borne by the Central Government. As a result, the monthly savings of ration cardholders are significant due to the provision of free food grains, it added.

Free grains will be distributed through a network of over 5 lakh fair price shops under a common logo. Beneficiaries can obtain their entitled grains from any fair price shop in the country under the One Nation One Ration Card initiative.

Global applause for Uttarkashi Rescuers Rat hole miners make India proud

PTI ■ LONDON

Human labour triumphing over machinery. This is how the world media described the climax of an incredible and perilous weeks-long rescue operation for 41 construction workers trapped in a collapsed mountain tunnel in Uttarakhand.

As rescuers in India on Tuesday evening successfully pulled out all the workers after their 17-day ordeal, the global media provided live coverage of the dramatic rescue operations. "In the end it was a triumph of human labour over machinery as the specialist rat-hole mining experts managed to manually break through the final 12 metres of rubble, using only hand drills and pulleys," The Guardian newspaper wrote.

The workers were pulled out through an escape pipe after the last stretch of rubble had been manually drilled by a specialist team of "rat-hole mining" experts who had been flown in to help after the mechanical drill broke down.

The dramatic scenes of the first men emerging on stretchers from the entrance of the Silkyara-Barkot tunnel came after more than 400 hours, during which the rescue operation hit multiple obstacles, delays and false promises of imminent rescue, the British newspaper said in a detailed report.

"Outside the tunnel, there have been celebrations at the

(L-R, top row) The 12-member team of 'rat-hole' miners from Rockwell Enterprises Wakeel Hassan (leader), Monu Kumar, Feroze Qureshi, Nasir Khan, Jatun, Devender Kumar, (L-R, bottom row) Munna Qureshi, Irshad Ansari, Rashid Ansari, Naseem Malik, Ankur and Saurabh who successfully rescued the 41 trapped workers from the under-construction Silkyara Bend-Barkot Tunnel in Uttarkashi on Tuesday

PTI

news of the first man coming out of the tunnel," the BBC reported while providing regular updates on the rescue operation. They were freed after a mammoth rescue operation that overcame many obstacles, it said.

"This happy conclusion came after a day filled with anticipation, as authorities announced that there had been a breakthrough in the rescue operations," the British public broadcaster said.

Military engineers and miners drill 'rat hole' through

debris to complete a painstaking extraction mission, said London-based daily 'The Telegraph' in its lead story.

A portion of the tunnel collapsed on November 12, blocking the exit for the workers who were inside. Food, medicines and other essentials were sent to them through a six-inch pipe pushed through the rubble of the collapsed portion.

So-called rat miners were brought in on Monday to drill through the rocks, gravel and metal obstacles by hand from inside a narrow evacuation

pipe that pushed through the debris after machinery failed, France 24 reported.

The New York Times in its report said initial drilling efforts were hampered by additional falling debris. And by Day 13, the rescue effort appeared in disarray as an American-made auger machine broke down with less than 20 metres to go in the drilling. As workers tried to extricate it, officials initiated backup plans, including one in which workers began drilling vertically from the mountain-

top. New machines were flown in from different parts of the country. But, in the end, the rescue effort — which also involved international tunnelling experts — found success in manual drilling by "rat hole miners" in the final stretch of the path that had been mostly cleared by the auger machine. The rescue operation faced hiccups even in its final hours, threatening to derail the growing confidence of family members who waited in anticipation of their relatives being pulled to safety, it said.

Bid to grab house of KGMU surgeon

PNS ■ LUCKNOW

A group of land-grabbers attacked a surgeon and his family members, including his 72-year-old maternal uncle, to grab their house at 11 Ashok Marg in Hazratganj police station area in the night on Tuesday.

As per reports, the victim, Dr Shivank Srivastava, a surgeon at King George's Medical University, was getting a room of his house renovated when one Raju, who is driver of a tenant living in a portion, started video-graphing of the work in the night on Monday. When Dr Shivank objected, Raju told him that he was asked by his employer to do so.

Apprehending some untoward incident, Dr Shivank called the police control room and they were asked to reach the Hazratganj Kotwali. "Inspector Vikram Singh asked us to give proof of the ownership of the house and we gave it to him," Dr Shivank said.

Dr Shivank alleged that on Tuesday morning, Raju, Jai Hind and his wife Anuradha, and several others, most of

whom were women, stormed into the house and started throwing household articles from the house and ransacking the rooms to get possession of the house. "They beat me when I objected to them. The entire incident has been captured in the CCTV. One can see them chasing away the labourers and abusing us and threatened to kill us," the victim stated in the FIR. "The attackers are trying to grab my house. I fear they may kill us," he said.

Police registered a case under relevant sections of the Indian Penal Code and an investigation is underway.

CASE REGISTERED

A Dalit had to run from pillar to post to get a case registered at Vibhuti Khand police station against his oppressors who are employees of a private company. The case was registered only after he approached the senior officials.

The victim, Jai Prakash of Rahimabad, had purchased a tractor on finance from Cholamandalam Investment and Finance Company Limited in Vibhuti Khand police station

of Gomti Nagar, and he kept paying quarterly installment of Rs 37,120 to Santosh, an employee of the company. Santosh used to send one Vijay, a private employee, to collect the money. The victim said he paid Rs 37,120 to Vijay when he came to collect the installment from him. "I duly informed Santosh about Vijay's arrival at my house and I also snapped a photo of Vijay while giving him money and also noted down his motorcycle registration number. But Vijay did not deposit the money at the finance company and I started getting reminders for failing to deposit the installment," he said. The victim said he complained to Santosh and other staff members of the finance company about the money he had given to Vijay and also the proof. He said Santosh and the finance company staff were not ready to hear a word against Vijay and they abused and thrashed him. Police registered a case and also slapped the provisions of Scheduled Castes, Scheduled Tribes Act on the accused who were named as Santosh, Vijay, Vishal and Pravesh.

Restore gardens, flower beds developed during G20 Summit: DC

Lucknow (PNS): Divisional Commissioner Roshan Jacob on Wednesday issued instructions to Lucknow Development Authority Vice-Chairman Indramani Tripathi to maintain the gardens and flower beds developed during the G-20 Summit in the city.

The DC held the garden in-charge and the contractor responsible for the deteriorating condition of the saplings and stated that no initiative was taken despite the orders issued by her in June regarding this matter. She further emphasised that the monsoon season was supposed to be the ideal time for their maintenance.

Meanwhile, the V-C said, "Over 1 lakh saplings of 25 different varieties were planted during the Summit, but due to a lack of maintenance for the past eight months, most of them are in bad shape. Restoration work will be launched soon."

The divisional commissioner will also carry out an inspection of the gardens and flower beds on Saturday.

CPI (M-L): Justice should be given to teaching aspirants

Lucknow(PNS): Communist Party of India (Marxist-Leninist) state secretary Sudhakar Yadav has said that the candidates who are victims of reservation scam in recruitment of 69,000 teachers should get justice without any further delay.

The party has supported the movement of the candidates going on in the Eco Garden of the state capital for the past several days, and has strongly condemned the police repression of their peaceful march near Hussainganj crossing on Wednesday. He said in a statement issued on Wednesday that the government, for its own mistake, was punishing the young candidates who were entitled to get appointment.

Woman duped of Rs 60,000

Lucknow (PNS): A woman was duped of Rs 60,000 by an unidentified miscreant, who tricked her by saying that he had inadvertently transferred Rs 55,000 in her bank account.

As per reports, the victim, Shivani Shah of Indira Nagar, received a call from a man who told her that he was sending Rs 55,000 to a UPI account of one of his acquaintances but mistakenly sent the money to her UPI account. He also asked her to check a message confirming the credit of money in her bank account and to return the money to his UPI account. When

she tried to transfer the money to the given account, the transaction failed, and later she received a message about the withdrawal of Rs 60,000 from her bank account. She then complained to the police.

THEFT

Thieves made off with Rs 5,000 in cash and ornaments worth several lakh of rupees from a house in Ghazipur police station area that was closed for some time as its owner and other members in his family were out of the city some work. The incident came to light on Wednesday. Police said the house

owner, Anuj Tiwari of Patel Nagar, had gone to Ayodhya on November 26 and the house was closed.

A case of theft was registered in this connection.

RUN OVER

A 28-year-old labourer, identified as Bablu Pandey from Sitapur, was killed after being hit by a moving train at the railway tracks in the Sairpur police station area on Wednesday. The police said that he was crossing the track when the accident occurred. The body was sent for autopsy, and an investigation has been initiated.

Two brothers duped by house sellers

PNS ■ LUCKNOW

Two brothers filed a complaint against a man, his wife, sons and elder brother for criminal breach of trust in connection with the sale of a house in Kailashpur area of Alambagh.

The police have registered a case and started an investigation.

Those named in the complaint filed by Vujat Prakash and Satya Prakash of Kailashpuri, have been identified as Deshbandhu Srivastava, his wife Kusum, sons Gaurav and Saurav, all of Kailashpuri in Alambagh, and elder brother Ananthbandhu Srivastava.

The victims said they had given Rs 22 lakh for a house the accused wanted to sell but they had reneged on the promise to sell the house.

In their complaint, the victims said they had signed an agreement with Deshbandhu and paid him Rs 1.5 lakh as advance.

"After giving the advance money, we got a notice published in a Hindi newspaper to check if the house had any liability or any dispute. Later Deshbandhu's brother got his share in the house and he struck a deal with another person. It surfaced in due course of time that there was a dispute over the house. By then we had given the remaining money to Deshbandhu, in the bank accounts of his family members," the victims said.

They said now the house owner and his family members were playing dilly-dallying tactics and refusing to sell the house.

"We signed an agreement for the sale of the house and now they are refusing to sell it or return the money. We invested our savings and sold our gold ornaments to arrange the money for the house," they said.

Police registered a case in this connection. Meanwhile, a man was duped of over Rs 64,000 by unidentified miscreants in Ghazipur police station area on Wednesday.

As per reports, the victim, VTC Dixit of Indira Nagar, went to withdraw money from an ATM booth near Olympia Gym on November 25.

"While I was withdrawing Rs 3,000 from the ATM, two youths entered the booth and told me that my account was still logged in on the screen and they helped me in logging out. I checked the screen and left for my house. The youths also left the ATM booth. In the night on the same day, I got five messages regarding withdrawal of a total of 64,676 from my bank account.

The police registered a case in this connection.

AI to simplify land consolidation process

PNS ■ LUCKNOW

In its ongoing pursuit to accelerate technology-driven progress of Uttar Pradesh, the Yogi government is gearing up to make the land consolidation processes simple and accessible by adopting Artificial Intelligence and Machine Learning-based technologies.

In this sequence, the process of creation and implementation of AI-based Enterprise Resource Planning (ERP) software is going on by UP Electronics Corporation Limited. The government has initiated the selection of a Technical Service Providing (TSP) agency through an e-tender process, inviting applications for the designing, manufacturing, development, and implementation of this specialised software.

It is noteworthy that the soft-

ware being developed by the Technical Service Providing Agency for the simplification of processes related to consolidation will be equipped with next-generation technologies such as satellite image access, rover survey, DGPS, NavIC, and blockchain data access. Its implementation will enable the completion of all tasks, including the automation of consolidation processes, digitisation, and dispute resolution, in an error-free and simple manner.

In this specific software, there will be features such as real-time access for problem resolution along with data collection, which will significantly enhance problem-solving abilities. The process of completing the land consolidation in a single village currently takes 100 to 1,300 days. However, after the software implementation,

this process can be completed in significantly less time through mapping and digitised record assessment.

Similarly, processes such as exchange ratio calculation, exchange rate parameter evaluation, and the extraction of plots on the vector map for consolidation can be efficiently completed using this software.

With the satellite imaging-based software, the rover survey can be completed with pinpoint accuracy in a very short span of time through data evaluation instead of doing it manually.

Additionally, the software will function as a data integration platform, assisting in the alignment and assessment of existing data from available sources such as maps, satellite images, and recent rover surveys.

It will be capable of generating algorithms by analysing acts related to consolidation and can be implemented on a blockchain-based system for Khatauni. Furthermore, the software will be equipped with features such as data security, advanced training, reporting and analytics, monitoring, auditing mechanisms, as well as technical support and maintenance. The deployment of this software will bring various benefits, including precise data collection, transparent land records, semi-automatic consolidation, enhanced land rights protection, accountability, cost efficiency, and assistance in reducing legal cases. Moreover, the software will aid in uploading finalised Khasra, Khatauni, and maps onto the GIS-based portal for consolidation through a digitisation process.

5-year-old mowed down by school bus in Pratapgarh

Lucknow (PNS): In a heart-wrenching incident in Pratapgarh, a 5-year-old boy died after his own school bus ran over him soon after he boarded on Wednesday morning. The police have detained the bus driver and seized the school bus.

As per reports, the bus of Nalanda Academy School was passing through Prajapat locality of Thada village to drop the schoolchildren. The bus attendant assisted the victim, Bhavesh Bairagi, in alighting from the bus. When the boy was passing in front of the bus towards his home, the driver carelessly moved the bus and Bhavesh came under the wheels and died on the spot. On receiving the information, a large number of villagers and family members gathered at the spot. The police also reached the spot and took the driver in custody. In another shocking incident in Mathura, four persons were killed while five others sustained grievous injuries after the bus they were traveling in to attend a marriage function collided with another vehicle on the Agra-Delhi Highway late on Tuesday.

Sources said the bus was returning to Pawal from Umraya village in the Chhata police station area when the collision occurred.

The deceased were identified as Dhruv, Chunnilal, Shyam, and Dalveer, all from Haryana. Besides, five others, including the driver, sustained serious injuries and are being treated at KD Medical College in Mathura.

Senior Superintendent of Police (Rural) Trigun Besan said, "We received information about a vehicle hitting a bus full of wedding guests. Four people died tragically on the spot, while the condition of others remain critical."

Newborn sold after pronouncing him 'dead', two held

PNS ■ LUCKNOW

In a bizarre incident, soon after one Pushpa Devi gave birth to a baby boy at a private nursing home at Pachperwa in Balrampur district, the newborn was sold after pronouncing him 'dead' before his parents.

After this sensational fact came to light, the local police registered a case on the complaint of the newborn's mother and arrested two people, including the doctor of the hospital. The police also recovered the newborn from the house of the corporator of Ward Number 2 of Badhni nagar pan-

chayat of Siddharthnagar and handed it over to the mother on Tuesday evening.

However, the accused corporator fled to Nepal to evade arrest.

The incident took place on October 29 but came to light after almost a month.

According to reports, a pregnant woman, Pushpa Devi of Jhauvava at Gaura Chauraha, was admitted to Mission Hospital and Maternal Child Centre at Judikunia intersection under Pachperwa police station in the last week of October. On October 29, she gave birth to a healthy baby boy but

just after delivery, Dr Akram Jamal, who was attending to her, claimed that she had delivered a dead child. Dr Akram later called one Dr Hafizur Rehman, a resident of Badhani in Siddharthnagar, and handed over the newborn to him. Pushpa Devi was hospitalised for seven days during which she kept requesting the doctor and the hospital staff to show her the face of the child but they did not listen to her.

After recovering, the woman came to know that her child had not died but was sold to someone else.

The woman and her family ran

from pillar to post but when they failed to get their child, she lodged a report in this regard last Sunday, accusing the doctors and hospital staff of playing foul play. The cops, during interrogation of some staff, learnt that the boy was sold to one Nisar, councillor of Ward No 2 of Badhni nagar panchayat of Siddharthnagar. The police raided his house on Tuesday evening but he managed to escape to Nepal. The police, however, recovered the child and handed him to the real mother.

Inspector Awadhesh Raj Singh, in-charge of Pachperwa police station, said that Dr Akram Jamal, a doctor

from mission hospital, and Hafizur Rahman, a doctor from Ruby Healthcare of Barhni, who performed the Caesarean section, had been arrested while Nisar had fled to Nepal and would be arrested soon.

Sources said the mission hospital where the incident took place was being run illegally. Dr Jai Prakash, the nodal officer and additional chief medical officer informed local media that even before this, complaints of irregularities had been received against the Mission Hospital and Maternal Child Centre and orders were issued to take action against it.

Govt presents ₹ 28,000 cr supplementary budget

PNS ■ LUCKNOW

Uttar Pradesh Finance Minister Suresh Khanna, on Wednesday, presented the first supplementary budget for the current fiscal 2023-24 in the state assembly.

The size of the supplementary budget is Rs 28,761 crore.

Tabling the finance bill on the second day of the winter session, the finance minister stated that the supplementary budget includes revenue expenditure of Rs 19,463.9 crore and capital expenditure of Rs 9,714 crore. The provision for new schemes in the schedule of new demands is Rs 7,421.21.

The minister said that additional grants for the ongoing and new schemes would give a boost to the development process in the state.

In the supplementary budget, provisions have been made by the government for many new projects. The proposed supplementary demand encompasses proposals for new demand of Rs 7,421.21 crore, including proposals worth Rs 21,339.46 crore for ongoing schemes.

Additionally, the supplementary budget includes provisions for farmers, allocating Rs 900 crore for free electricity to farmers and Rs 400 crore for clearing dues of sugarcane farmers. There are provisions in the supplementary budget for the development of the state capital region.

A provision of Rs 50 crore as seed capital for the 'State Capital Regional Development Authority' and Rs 100 crore for the construction of the regional offices of the authority at Varanasi and Gorakhpur, and Rs 10 lakh to the UP Housing and Development Board for the

Chief Minister Yogi Adityanath and Finance Minister Suresh Khanna having an intense discussion during Winter Session on Wednesday

construction of the convention centre. There is a provision of Rs 231 crore for Lucknow and Kanpur metro rail for the repayment of loans, Rs 2090 crore for the Vishwakarma Shram Samman Yojana and Rs 4,493 lakh to Khadi and Village Industries Board for self-employment promotion scheme.

The budget has an allocation of Rs 510 crore for the establishment of the PM Mega Integrated Textile Zone and Apparel Park in Lucknow-Hardoi under the PM Mitra Scheme and Rs 100 crore for the implementation of the Uttar Pradesh Data Centre Policy.

Meanwhile, with a new set of rules prohibiting legislators from carrying phones, political posters or flags in the Uttar Pradesh assembly coming into force, Samajwadi Party members continued their protests against the government on the second day of the session too by wearing black clothes.

Shivpal Singh Yadav, SP national general secretary and veteran leader of the party, has raised concerns over the Yogi Adityanath government's supplementary budget. He alleged that more than 50 per cent of the budget allocated to any department in the state had not been utilised.

Shivpal Yadav accused the

Yogi government of being fixated on numbers without effective implementation. Samajwadi Party chief Akhilesh Yadav questioned whether the government procured wheat or whether it let private companies handle the purchases. He highlighted that the Goods and Services Tax (GST) on farming equipment ranged from 12 per cent to 18 per cent.

Akhilesh Yadav also sought to know whether the double-engine government would reduce the GST to support farmers or provide assistance to them directly from the state treasury.

The Samajwadi Party opposed the budget.

Yogi hits out at Akhilesh for politicising vector diseases

PNS ■ LUCKNOW

Uttar Pradesh Chief Minister Yogi Adityanath, on Wednesday, slammed leader of opposition Akhilesh Yadav for politicising the issue of vector diseases like dengue.

"You create chaos in society by politicising every issue; people saw your true face during the corona (COVID-19 pandemic) period. The government is aware of dengue; serious efforts are being made to control communicable diseases through inter-departmental coordination," Chief Minister Yogi Adityanath said while intervening in the debate on the spread of dengue in the state.

The issue was raised by Samajwadi Party MLA Lalji Verma during the zero hour through an adjournment notice.

"The leader of the opposition is not interested in solving the problem, but in creating chaos in society by politicising every issue. People had seen your malicious attempts during the novel coronavirus pandemic also when you were misleading the people on the vaccine by calling it a Modi vaccine," he said.

"Both the (Covid) vaccines were developed by the scientists under Prime Minister Modi's guidance in the country and have proved to be the most effective vaccines in the world. COVID-19 cases are seen increasing in all the countries of the world but it is under control in India and in Uttar Pradesh," the chief minister said.

"The UP government has made a comprehensive and coordinated effort to control all vector-borne diseases, including dengue and is also tracing and treating all those infected with it," Yogi said and added, "The double-engine government does not make only statements but also delivers on the ground. Dengue is completely under control in Uttar Pradesh because of timely steps taken by the government."

The leader of the opposition had alleged that people were not getting treatment for dengue in government

hospitals and were forced to seek treatment in private hospitals, where they were forced to pay exorbitant fees for treatment.

Deputy Chief Minister Brajesh Pathak, who heads the Health Department, was answering the questions of the leader of opposition and SP MLAs in the House. However, amidst the noise created by the opposition MLAs, Yogi Adityanath intervened and rebutted the charges levelled by the opposition members.

In an obvious dig at Akhilesh Yadav, the chief minister said, "You will get the answer as per the question raised by you. Right now, you have heard only half the answer, if you listen to it completely then perhaps the history will come alive in your mind."

"You have only talked about dengue, but when we talk about vector-borne diseases, it also includes diseases like malaria, chikungunya, kala-azar. A coordinated effort has been made at the government level for the treatment of all these related diseases, be it vector-borne or water-borne diseases. It is through that coordinated effort that a special campaign for communicable disease control is run three times a year in the state," the chief minister said.

He said the Health Department, being the nodal department, implements these programmes in coordination with all other departments through awareness for the first 15 days. After this, through Dastak door-to-door campaign, suspected patients running fever are traced and taken to the nearest health centre for treatment.

Referring to the region-wise disease profile of Uttar Pradesh, a state with a population of 25 crore, Yogi Adityanath said, "Uttar Pradesh is a state with diverse climatic zones and therefore, diseases also differ from region to region. If you look at the area ranging from eastern UP to Terai of Nepal up to Saharanpur, the entire area was affected by encephalitis. If you look at the area around Bareilly and Budaun, it was more infected with malar-

ia. If you reach from Varanasi to Firozabad and Agra via Prayagraj, Lucknow, Kanpur, this entire area is affected by dengue. If we look at the Bundelkhand region, this entire region is affected by chikungunya. Kala-azar was seen more effectively in the areas adjacent to Bihar."

Yogi Adityanath said that dengue was a type of flu, having its own cycle. Taking a jibe at Akhilesh Yadav, he said, "When the member was shouting, I was also worried about his health. What you have said is not 'blood trip', it is called platelets. It is available in sufficient quantities in every district. What used to happen earlier was that we used to transfuse whole blood. Whole blood is not required for every patient, especially those with viral diseases such as dengue or multiple viruses that reduce platelet count. We provide an additional supply of platelets in that situation. For this, blood separator units have been provided in every district."

Referring to the efforts made regarding health infrastructure in the state, Yogi Adityanath said that the government was also providing annual health insurance cover of Rs 5 lakh under Ayushman Bharat and Mukhyamantri Jan Arogya Yojana to 10 crore people in the state.

"The patients are getting all the facilities in any empanelled private or government hospital. The entire House is witness that every MLA has been authorised to give Rs 25 lakh annually from the Vidhyayak Nidhi," the chief minister said and added, "There is no discrimination on any ground like caste, creed and religion in sanction of funds for medical treatment from the Chief Minister's Relief Fund. Whosoever applies for it gets the assistance if the person is a citizen of Uttar Pradesh. The government provides financial assistance for treatment within the state, in the country or anywhere in the world from the Chief Minister's Relief Fund." Yogi Adityanath asserted that the government has made funds available to all the members of the assembly when they recommended for assistance from CM Relief Fund.

Yogi govt approves first land subsidy under FDI Policy

PNS ■ LUCKNOW

In a revolutionary step under the recently enacted Foreign Direct Investment Policy-2023, the Uttar Pradesh government has decided to provide a 'front-end land subsidy' to the first company.

In this regard, Infrastructure and Industrial Development Commissioner Manoj Kumar Singh has issued the approval letter and eligibility certificate for providing front-end land subsidy to Fuji Silvertch Concrete Private Limited (FSCPL) for their proposed project.

It is noteworthy that recently, the Yogi Adityanath cabinet approved the Uttar Pradesh Foreign Development Policy-2023. This is the first case of approval for land subsidy for any company after the policy was formulated.

The letter of approval sent to the managing director of Fuji Silvertch Concrete Private Limited stated that Invest UP's evaluation committee assessed the proposal in its meeting on November 22, 2023, and approved the foreign direct investment (FDI) for the grant of a front-end land subsidy.

The committee recommended the grant of front-end land subsidy and referred the matter to the empowered committee established under Clause 31 of the Investment Promotion Policy-2023 for Fortune Global 500 and Fortune India 500 companies.

The empowered committee has given its approval for granting 75 per cent of front-end land subsidy for the proposed project, covering 10 hectares (approximately 25 acres) of land in Yamuna Expressway Industrial Development Authority, Gautam Buddha Nagar.

The FSCPL project is related to the construction of pre-cast concrete products using wet cast technology and sulfur concrete technology.

In Phase 1, there will be an installed capacity of 650 TPD, and in Phase 2, there will be an additional capacity of 350 TPD.

The estimated cost of Phase 1 is Rs 150 crore while Phase 2 will also cost Rs 150 crore. Approximately 700 people will directly and indirectly gain employment from Phase 1 of the project.

The FSCPL is jointly owned by Fuji Concrete Industry Co Ltd (FCICL) and Toyota Kohki Co Ltd (TKCL). Notably, FCICL has been operating since 1970 while TKCL has been operational since 1966. Both the firms are based in Japan.

Fuji brings cutting-edge technology and collective experience of 100 years. The company has two plants in India, one in Bagodara, Gujarat, and the other one in Aurangabad, Maharashtra.

The proposed manufacturing plant in YEIDA will be the company's first production unit in north India.

SP MLAs protest against UP govt outside state assembly

PTI ■ LUCKNOW

Holding placards against the state government, Samajwadi Party MLAs held a protest before the statue of former prime minister Chaudhary Charan Singh on the Uttar Pradesh Assembly premises here on Wednesday.

The protest was held before the start of the second day's proceedings of the assembly.

Carrying banners with slogans on unemployment, patients facing problems in hospitals, use of bulldozers and farmers' problems related to irrigation, the Samajwadi Party (SP) MLAs sat on the stairs in front of the House. The SP members wore black clothes as a mark of protest on the first day of the winter session which began on Tuesday. One of the MLAs wore a kurta having anti-government slogans on it.

A new set of rules prohibiting the legislators from carrying phones, political posters or flags in the Uttar Pradesh Assembly came into force during the winter session.

Two brothers stabbed to death in Jaunpur

Lucknow (PNS): Two brothers were attacked and killed with a knife in an alleged dispute with the guests of a wedding procession in Khetasarai area of Jaunpur district on Tuesday night.

Police later arrested six accused in connection with the killing.

According to Shahganj police station in-charge Shubham, around 11 pm on Tuesday, a marriage procession arrived in Khetasarai town under Khetasarai police station. Ajay Prajapati (23) and his brother Ankit Prajapati (20) had set up a fast food stall near the Durga temple. Some guests in the baraat came near his shop to drink alcohol, during which Ajay and Ankit had a dispute with them.

As the altercation escalated, some people attacked both the brothers with knives, injuring them seriously. Shubham said the

injured were taken to Sadar Hospital where they died during treatment. He said that a case had been registered against six accused and a search had been launched for them. The arrested accused were identified as Mukesh Bind, Nishu Bind and Satish Bind. Three pistols, three cartridges and a knife were recovered from their possession.

Meanwhile in another wedding ceremony in Pratapgarh, a clash broke out between the groom and bride sides in which one person was killed while half a dozen were injured. Due to the chaos, the marriage could not take place at night. The marriage was solemnised only on Wednesday morning after which the groom left with his bride.

According to reports, Lakshmi, daughter of Bhagirathi Yadav alias Mukandee of

Shekhpur Athgawan village in Patti Kotwali area of Pratapgarh, was to be married to Shubhang Yadav, son of Om Prakash Yadav of Gadehari in Nagar Kotwali area. When the wedding procession arrived on Tuesday night and people were dancing to the tunes of the DJ, there was a dispute between bride and groom's side over playing of Bhojpuri songs in the night. The altercation escalated and both sides started fighting with sticks, rods and chairs. The housewives chased the wedding guests and beat them.

During this stampede, the groom's friend Shiv Pratap (28), a teacher and resident of Rahatkar in Udaipur police station area, fell into the well. On hearing the screams, nearby people arrived and took help of the fire brigade personnel to take out the teacher but he died by then.

Commercial plot allotment scheme to propel growth of Greater Noida

PNS ■ LUCKNOW

In its effort to fast-track Uttar Pradesh's industrial and economic progress, the Yogi Adityanath government is particularly focusing on the development of Greater Noida.

Aligning pace of development with provision of civic amenities, the Yogi government has facilitated economic and commercial activities in Greater Noida through the Commercial Plot Allocation Scheme.

In line with Chief Minister Yogi Adityanath's vision, the Greater Noida Industrial Development Authority has invited applications for plot allotment through this scheme, which will be completed through an e-auction process.

It is noteworthy that under this commercial plot scheme, the allocation pathway is well-defined for plots ranging from 2,313.47 square metre to 12,000 square metre.

Notably, the deadline for registration in this plot allocation scheme is set for December 8, and the entire process will be completed through the State Bank of India's (SBI) e-tendering portal.

Applications have been invited for the allocation of 22 plots in Greater Noida through the Commercial Plot Allocation Scheme (FAR-4.0), with the earnest money deposit (EMD) ranging from Rs 2.19 crore to Rs 10.17 crore.

These plots include five plots of 2,313.47 square meter

Door-to-door survey of villages

Lucknow (PNS): The Industrial Development Authority is preparing to conduct a door-to-door survey in the villages of Greater Noida. The authority has started the process of binding a consultant agency for conducting land audit and door-to-door survey in this regard through request for proposal. It is noteworthy that preparations are also going on for conducting aerial drone surveys in these villages. The consultant agency will not only compile the data obtained from this survey, but will also implement and specify the necessary procedure for door-to-door survey.

It is noteworthy that the consultant agency will be hired on a one-year contract. It will carry out tasks like door-to-door information collection, boundary digitisation and survey, mapping and reporting.

each in Sector Delta-2, five plots of 2,580 square metre each in Sector Alpha-2, a plot of 11,500 square metre in Sector Alpha-2, a plot of 12,000 square metre in Sector Ecotech-12, a plot of 10,000 square metre in Technozone-8, six plots of 10,400 square metre each in Sector 12, three plots of 10,600 square metre each in Sector 10, and a plot of 9,250 square metre in Sector 10.

Chief Minister Yogi Adityanath attending the marriage ceremony of BJP leader Markanday's daughter in Gurugram on Wednesday

Woman abducted, gang-raped

PNS ■ LUCKNOW

A Dalit woman was allegedly abducted and gang-raped by two youths in Hathras on Monday, police said on Wednesday.

Police have arrested both the accused following a complaint by the victim. A police official said that the incident was believed to have taken place on Monday afternoon.

In her complaint, the woman said that she was walking with an acquaintance when the accused abducted her near a government hospital in Sikandra Rao Kotwali area of Hathras district.

According to Circle Officer Anand Kumar, both the accused came out of bushes near the government hospital and started beat-

ing her and the acquaintance with sticks.

After that, both the accused dragged the woman into the bushes and gang-raped her. The accused also threatened to kill her if she informed the police and fled the scene.

The circle officer said that following the complaint of the victim, the police had registered a case of gang-rape and arrested both the accused.

The victim woman was sent for medical examination.

A police official said that the woman was living at her maternal home in a locality of Sikandra Rao town for the last two months. She was going home with an acquaintance when the accused intercepted her and committed the heinous crime.

Satyadev Pachauri praises role of ASHA workers

PIONEER NEWS SERVICE ■ KANPUR

A state level leadership training and seminar of Asha workers was organised at the Saraswati Vidya Mandir Inter College, Damodar Nagar, here on Wednesday. Thousands of ASHA workers from all over the state took part in it. The event aimed at conveying grievances of lakhs of ASHA workers engaged at state and national level since 2005 to the public representatives. The function was chaired by president, Pensioners Forum, Rajesh Shukla. BJP MP Satyadev Pachauri was the chief guest while MLA Neelima Katiyar graced the occasion as the special guest. In their presence a 16-point charter of demands was released which included increase in their honorarium up to ₹25,000 and providing insurance cover to ensure their social security.

Speaking on the occasion chief guest Satyadev Pachauri, while praising the role of ASHA workers, assured of putting their demands in the Parliament to attract the attention of the union government. Special guest Neelima Katiyar assured to put up their demands in the assembly and before the state government.

ASHA workers taking part in the state level convention organised here on Wednesday.

CMO Dr Alok Ranjan assured to redress the grievances of ASHA workers soon. Prominent ASHA workers who also addressed the convention were Pratibha Katiyar, Babita Katheria, Shabana Bano, Ramwati, Annapurna, Babil, Mamta Pal, Nisha Pal, Vineet and Seema Gautam.

Many social workers of the city and state were also present. They included the gram

pradhan of Subhauli village Kiran Pandey, Rama Kant Mishra and Rakesh Mishra of Kanpur Nagar Nigam Karmachari Sangh, Railway leader Jugal Kishore Pandey, Geeta Singh of Nari Samarth, KESCo contract workers leader Dinesh Singh Bhole and former professor of CSJM University Gayatri Singh. President of ASHA Workers' Organisation Archana Mishra announced

to intensify the movement at the state level with the help of citizens to press for the settlement of their demands while general secretary Anita Shukla presented the annual report. Convener Abha Chaturvedi said the Hind Mahila and Public Services International (PSI) had always been struggling for workers' rights and assured to fight for the rights of ASHA Workers also.

LIC unveils new money back product

PIONEER NEWS SERVICE ■ KANPUR

The Life Insurance Corporation of India (LIC) has unveiled a new non-linked, non-participating money back life insurance product on Wednesday that offers income benefits of 10 per cent of the sum assured. This plan is designed to provide a combination of insurance, savings and pension benefits catering to individuals seeking a secure and stable financial future. Unlike market-linked plans, Jeevan Utsav Plan offers guaranteed returns, shielding policyholders from market fluctuations. It is a comprehensive insurance plan that offers guaranteed returns and long-term financial security. Chairman Sidharth Mohanty launched the product in Mumbai on Wednesday.

Addressing mediapersons here on Wednesday, Zonal Manager RP Gupta said the minimum sum assured under the policy is ₹5 lakh. The premium paying terms range from five to 16 years. The income benefit that is survival benefit will start flowing in after the periods specified in the policy that are, in turn, linked the premium paying term. One can choose between two payout options – regular income and flexi income benefits. In the case of the former, 10 per cent of the basic sum assured chosen by the policyholder will be

LIC zonal manager RP Gupta (left) addressing mediapersons on Wednesday.

paid starting from the 11th policy year depending on the premium paying term selected. For instance if one has chosen to pay premiums for five to eight years the payouts will begin from the 11th year, but if he/she has chosen a longer term – say, 10 years – income benefits will start from the 13th policy year. He said the Jeevan Utsav insurance plan is expected to provide a comprehensive solution, addressing the diverse needs of individuals seeking financial protection.

Alongside the survival benefit, the scheme offers policyholders the flexibility of availing loans and an early exit option, allowing them to withdraw funds before the maturity period. However, the policyholders can change the option exercised by them at the inception of the policy at any time up to six months before the beginning of the policy year in which the first, regular or flexi income benefit becomes due.

Some of the main features of the new plan include guar-

anteed income for lifetime starting from age 18 till 100 years; guaranteed additions at the rate of ₹40 per thousand sum assured till the premium paying term; option of premium payment term from five to 16 years only and policy can be taken for 90 days child to a 65 years older person.

Secretary (Marketing) BN Chaudhary and Regional Manager (Corporate Communication) Vivek Sharma were also present during the press conference.

Over 50 pc pregnant women, kids under five yrs suffer from anaemia

PIONEER NEWS SERVICE ■ KANPUR

Secretary of the Indian Academy of Paediatrics (IAP), Dr Arun Arya while addressing an awareness camp at Guru Nanak Girls PG College said over 50 per cent of women, pregnant women and children less than five years of age are suffering from anaemia. He said the main reason for anaemia was poor diet and malnutrition leading to fall in

iron, folic acid and vitamin B 12. He said the major symptoms were lethargy, weakness, yellow skin, reduced appetite, short temper, vertigo along with increased heart beat and breathlessness. Noted gynaecologist, GSV Medical College, Dr Renu Gupta, said the best solution to fight anaemia was to take balanced diet, consume green leafy vegetables, consume jaggery and gram, yellow fruits and dates.

She advised that food needs to be cooked in iron utensils and also provide deworming to the children every six months. The programme was jointly organised by Jeev Daya Foundation and 100 girl students were given iron and folic acid tablets.

She said heart must pump more blood to compensate for the lack of oxygen carried in blood when one was anaemic. She said this can lead to an enlarged heart or heart failure.

She said in pregnant women, severe iron deficiency anaemia had been linked to premature births and low birth weight babies. She said women were more likely than men to have an iron deficiency because they lost blood during menstruation. She said pregnancy and childbirth also cause iron deficiency. Dr Vivek Saxena, Principal of GN PG College, Dr Deepti Suneja and a large number of girl students took part.

BEd internship programme held

PIONEER NEWS SERVICE ■ KANPUR

Basic Shiksha Adikari (BSA) Surjit Singh while addressing the BEd internship programme at the Virendra Swarup Institute of Professional Studies (VSIPS) said when teacher students become full teachers they work with intelligence and full devotion. He said these teacher students prove to be good teachers for institutions in the times to come. Principal Poonam Madan while welcoming the BSA said it had been the endeavour of the institute to impart quality teaching to future teachers. She said the institute happens to be contributing majorly in providing best teachers for various institutions who then achieve academic excellence and this is mainly because of the finest teachers of the institute who work with devotion and dedication. She said the institution has proved its mettle on several occasions and will continue to do so in future as well. She

BEd Internship Programme function being held at Dr Virendra Swarup Institute of Professional Studies.

said teacher's role was to encourage, nurture and challenge while students lead their own learning. She said it meant that the teacher spent class time working closely with students, providing each learner with support they need. She said overall teacher students

demonstrate that they are responsible students and thus uphold values of honesty and academic integrity. She said they also gave attention to quality and excellence in completing assignments. The principal later felicitated all the principal from over 24 schools

of the city. The vote of thanks was proposed by Dr Asha Awasthi and the programme was conducted by Dr Anita Sharma. Prominent teachers present were Dr Jasneet Kaur, Dr Sarla Mandhyan, Prof Nazish Khan, Prof Monica, Prof Kaniz and others.

Scientists provide assistance to farmers

PIONEER NEWS SERVICE ■ KANPUR

Director Horticulture, DCSAUAT, Dr RB Singh while addressing scientists of the varsity on Thursday appealed to them to ensure they reached the farmers to bail them out of the impact of late blight which had affected majorly potato farms around Kanpur. He said the varsity has decided that send its teams from the Kisan Vigyan Kendras to practically help farmers to managed the threat to the crop and also issued an advisory for the farmers as well. He said late blight was caused by the fungal-like oomycete pathogen Phytophthora infestans. He said the primary host was potato but it can also infect other plants, including tomatoes, petunias and other plants. He said these infected species can act as source of inoculation to potato. He said blight can spread very quickly, carried by wind and rain and can remain dormant in plant debris or soil for years. He said in addi-

Late blight affected potato crop in rural Kanpur

tion to damaging the potato plant with black spots on leaves, potatoes can also become infected with a brown rot that left them a mushy mess with a strong smell. He said late blight management approaches included use of resistant varieties, fungicide application and cultural practices such as early planting and mechanical effort before harvesting had been

tested. He said farmers need to rotate crop location by planting in a different location each year. He said they need to take care of the air movement and wire support and by applying mulch and use of fungicides. A team of scientists visited the KVK, Dileep Nagar and provided assistance to the farmers especially for the blight affected potato crop.

Career Mela organised

PIONEER NEWS SERVICE ■ KANPUR

Director of Pratap International School, Keshavpuram, Dr Surabhi Bhaduria, while addressing the Career Mela said career counselling provided one with personalised guidance, support and resources to help one identify one's career interests, skills and values. She said it can assist in making informed career decisions that align with one's unique career aspirations and personal goals.

Addressing the students resource person Shivendra Singh said career counselling guided students and professionals in choosing the right career option, assisted in identifying the barriers in their growth path and aided in developing strategies to overcome obstacles and attain career success. He said it was important to make a career plan because it gave one the needed direction and provided clarity regarding future. He said it also motivated to utilise one's strengths and improve weaknesses. He said it helped in understanding the skills and knowledge that were required to fulfil the goals. He said career guidance typically began with an assessment of an individual's skills, interests and strengths. He said this information was then used to identify potential career paths that may be a good fit.

He said a career counsellor or advisor provided information about various occupations, such as job requirements, growth potential and earning potential. He said they may also help individuals explore education and training options, such as college or vocational programmes and offer advice on how to gain relevant work experience. Singh said prominent features were assessment, investigation, preparation, commitment, retention, transition and finally tips to improve.

He advised the students who had assembled for the Career Mela to avail themselves of the facility to take advantage opportunities which come their way. He said counselling always benefits students.

50-year-old woman meets tragic end

PIONEER NEWS SERVICE ■ KANPUR

A woman returning from temple with her son was killed after her saree got entangled in the bike on Moosanagar road under Ghatampur police station area on Tuesday evening. After falling on the street she sustained serious head injury due to which she died.

According to a report received here, Mamta Bajpai (50), wife of Ramraj Bajpai of Bhadras village had gone to a

temple in Moosanagar with son Ajay on the bike. When she was returning from there her saree suddenly got entangled in bikes wheel near block office. As a result she fell from the bike and sustained serious head injury. Ajay took her to the community health centre (CHC) on an ambulance where she was declared dead by the doctors. The police rushed to the spot but after the kin refused to carry out the autopsy of the body, it was handed over to them after 'panchnama'.

In another incident, a teacher posted in BSA office was fatally knocked down by an unidentified vehicle in the Sachndi police station area on Wednesday morning. From the ID card recovered from his possession, police informed the kin of the deceased.

It is learnt that Chandresh Singh (41), a native of Hamirpur, was living in his house in Maswanpur, Kalyanpur. His family comprised father Bajrang Singh, wife Sapna and son Vatsalya.

Brother-in-law Jitendra said Chandresh Singh was a teacher in Rajpur of Kanpur Dehat. As usual when he was going to office at 7.30 am on Wednesday when an unidentified speeding vehicle knocked him down near Kisan Nagar bridge in Sachndi which led to his killing on the spot.

Sachndi inspector Yogesh Singh said on the basis of kin's complaint, a first information report (FIR) will be lodged and action will be taken in the matter.

Session to make maths more interesting in classrooms

PIONEER NEWS SERVICE ■ KANPUR

Principal, Sir Padampat Singhania Education Centre (SPSEC) Bhawna Gupta, while welcoming the resource person of the Vedic Mathematics Workshop said the effort of the management is to provide the institution the best mental, physical and financial support in its every endeavour and as a result the school has metamorphosed into one of the finest institutions of the city striking a perfect balance between academics and co-curricular activities. She said the school management acts as navigators to ensure that its students reached their destinations with flying colours.

The resource person of the workshop on Vedic Mathematics was Dr Gajendra Pratap Singh, Assistant Professor, School of Computational and Integrative Sciences (SCIS), Jawaharlal Nehru University (JNU), New Delhi. He is also the recipient of the Young

Principal SPSEC Bhawna Gupta welcoming Dr Gajendra Pratap Singh, School of Computational and Integrative Sciences, JNU, New Delhi.

Computational Award in 2017 in Petri net Theory, the Best ANO and NCC Achievers Awards 2023 for his excellent performance.

Dr Singh's discussion with students included topics like -Vedic mathematics and its incorporation in quick calculations, ways to incorporate technology in learning mathematics and the scope of math-

ematics in the future and also to sync it with the selection of major subjects for college admission and strategies to get easy admission in top colleges. He addressed a special session with teachers to enable them to make mathematics more interesting in classrooms and hence motivate the young minds, to connect this subject with technology along with some exam-

ples and case studies (for instance geometry).

Dr Singh's passion for the subject left a lasting impact on the students and teachers. All those who attended the workshop felt grateful to the management. The other noteworthy persons present were faculty members, CSJM University, Dr DK Singh and Dr Sandeep Porwal. The workshop fostered a dynamic learning environment, equipping educators with valuable insights and tools to enhance their institutional approach in the class.

Chairperson, Manorama Govind Hari Singhania, Vice-Chairman, Abhishek Singhania, Vice-Chairperson, Ms Varsha Singhania, the Vice-Chairman and Director, Mr Partho P Kar expressed their appreciation over such innovative practices adopted in school. The workshop proved to be a resounding success, bringing together educators and experts to delve deep into innovative teaching methodologies.

Action initiated to attach Atiq’s two ‘benami’ properties

PIONEER NEWS SERVICE ■ PRAYAGRAJ

Action has been initiated to attach two benami properties of slain mafia Atiq Ahmed. Reports have been sent to the high-level officials. Both the assets will be attached under the Gangsters Act as soon as the Police Commissioner gets permission. The police came to know about the possession of Atiq on half of the Bengal Hotel in Shahganj a few months ago.

It is learnt Atiq had ‘captured’ it on the strength of bullying and documents related to this property were collected. In Minhajpur area itself 200 square yards land of Atiq was detected. Investigation of documents revealed that this land was bought by Atiq in the name of his wife Shaista Parveen. Police teams were engaged in preparing a report to attach both. Now this report has been prepared and it has been sent to high officials. Sources revealed that it has been said in the report that both the above properties were acquired by crime and in such a situation it will be appropriate to attach it under Section 14 (1) of the Gangsters Act. Now on the basis of this report, the Police Commissioner will take

a decision after observation of the court documents etc.

The police team, which is trying to find out the benami property of the mafia, has also gathered information about a house in Delhi. This house is located in Batla House in Delhi. The mafia bought a flat in Sector-36, Noida. It is priced in crores. The flat in Mahanagar Colony in Lucknow in which Atiq’s son Asad lived with his companions has been identified. Police sources said that these three properties are also planned to be attached under the Gangsters Act. The police is preparing the report for this.

UMESH PAL MURDER CASE: Even after nine months of the sensational Dhoomanganj shootout case, Prayagraj Commissionerate cops are yet to arrest six key accused, including slain gangster Atiq Ahmed’s wife Shaista Parveen, despite announcing hefty cumulative cash reward of Rs 15.50 lakh. On February 24, lawyer Umesh Pal, a prime witness in 2005 BSP MLA Raju Pal murder case, along with two of his police gunners, were killed outside his residence in Sulemsarai area under the limits of Dhoomanganj police station. Although police claimed to have gunned down four of

the key accused allegedly involved in the shootout including Asad, son of Atiq Ahmed, Gulam (shooter), Usman alias Vijay (shooter) and Arbaaz in separate encounters, cops are yet to ascertain the whereabouts of six more wanted persons including Sabir, Guddu Muslim, Arman, Shaista Parveen, Jainav and Ayesha Noori. While Guddu Muslim, Arman and Sabir are carrying Rs 5 lakh cash reward each on their heads, Shaista Parveen is also carrying Rs 50,000 on her head.

There is no cash reward on the heads of Jainav (wife of slain Khalid Azeem) and Ayesha Noori (sister of Ashraf). Police records claimed that two of the key accused -- Arbaaz of Kaushambi and Vijay Chaudhary alias Usman of Kaudhiyara, each carrying Rs 50,000 cash reward, were killed in separate encounters on February 27 and March 6 respectively. Moreover, a team of Special Task Force (STF) of UP police also gunned down Asad (son of Atiq Ahmed) and Gulam both carrying Rs 5 lakh cash reward on their heads, in an encounter in Jhansi in April 13.

On April 15, a group of

three assailants killed gangster Atiq Ahmed and Khalid Azeem alias Ashraf inside the Colvin hospital campus under Shahganj police station.

However, despite a series of raids and target oriented operations, cops failed to gather information about current whereabouts of three key shooters, including Guddu Muslim, Sabir and Arman, since the sensational shootout. Undoubtedly, cops have not only dented the economic empire of slain gangster but also managed to tighten the noose around gang’s key operatives and sympathisers.

Recently, cops arrested a key associate of slain gangster Atiq Ahmed, named as Mohd Nafees alias Nafees Biryani, a resident of Khuladabad in an encounter near Anapur on Prayagraj – Lucknow highway and claimed to have received vital clues about gang’s modus operandi after Atiq’s elimination. A senior cop preferring anonymity said ‘Apart from STF, special constituted police teams are closing in on absconders and would be soon scripting success stories. Cops have some vital information to act upon. Separate police teams have been assigned separate tasks in this regard’.

CAS praises efforts of air warriors

PIONEER NEWS SERVICE ■ PRAYAGRAJ

Air Chief Marshal VR Chaudhari, Chief of the Air Staff, Indian Air Force (IAF) presided over the Central Air Command (CAC) commanders’ conference on Tuesday. All the commanders of the stations under CAC AoR, including Command Staff, attended it.

In his address to Commanders, the CAS praised the efforts of all the air warriors for the successful conduct of the Air Force Day parade at Prayagraj along with the air display at Sangam and Bhopal. The CAS highlighted the lessons learnt from Russia-Ukraine war and recent military operations carried out by Israel and the need for high state of readiness in the current volatile geo-strategic environment. He emphasised upon commanders to sharpen their focus on self-reliance and indigenisation towards the vision of Atmanirbhar Bharat. He stressed on realistic training and constant updating of knowledge as the focus area for

the training of Agniveer Vayu.

Later, the CAS presented trophies in various categories to the stations of CAC AoR. The CAS appreciated the level of operational preparedness and HADR operations undertaken in CAC AoR in the recent past and added that a well trained air warrior who is technologically sound and able to adapt to technological disruptions,

would serve as a force multiplier.

The Chief of the Air Staff interacted with all personnel involved in the conference. The CAS complimented all during his address for their response and immense efforts in undertaking the mandated tasks.

Meanwhile, Neeta Chaudhari President AFFWA

attended the Board of Management meeting and was apprised by Dr Suneta Kapoor President AFFWA (R) about various welfare measures undertaken by AFFWA (R) in CAC AoR.

Neeta Chaudhari also interacted and addressed all Sanginis and appreciated the welfare activities undertaken by the AFFWA (R).

12-day Shilp Mela from tomorrow

PIONEER NEWS SERVICE ■ PRAYAGRAJ

The 12-day Rashtriya Shilp Mela (National Crafts Fair) is going to start here from December 1. It will be organised till December 12.

Indian crafts, handmade products among others will be put on display in the Shilp

Mela. Artists from all over the country will also brighten it up with their melodious voice and music every evening. Centre Director Prof Suresh Sharma said handicrafts have been invited from every corner of the country, in which about 151 stalls of traditional crafts and cuisine of India will be set up.

It will also have food stalls of every major state.

The folk artistes of various states will display their art on the stage and there will also be a gathering of local handicrafts. The shobha yatra will be taken out at 1 pm on December 1. Along with entertainment, visitors will also be able to enjoy

food. The Rashtriya Shilp Mela will also have the confluence of fragrance of dishes of different provinces of the country.

The cultural programmes will be held on the Muktakashi stage of Shilphat every evening. Padmasri Malini Awasthi will sing on December 1.

Mahakumbh: Construction of inner ring road to start soon

PIONEER NEWS SERVICE ■ PRAYAGRAJ

The construction of an inner ring road, one of the important projects of Mahakumbh 2025, will start within the next seven days. For which work has been started at the construction site and other types of activities have been started. The mapping from Sahson to Mirzapur Road has also been completed. On the basis of this, 95 per cent land acquisition work was also completed.

The work of the first phase of this 65 km project is to be completed before Mahakumbh. In which 30 km long inner ring road will be constructed in three parts. Preparations have also been started for the bridge on Ganges river to be built from Karchana to Pulphur.

In the first phase of inner ring road, the project will start from Lavayan Kala village in Naini. The first phase of the project is divided into three parts by the National Highway Authority (NHA). The tender process has been completed for

the old Grand Trunk Road and the tender process for the 7.50 km long inner ring road in the subsequent part. As many as 29 companies took part in the tender for this project. For the first phase of the project, 195 hectares of land of 4,000 farmers of 45 villages of the district has been acquired. Compensation has been issued for ownership of land, buildings, gardens, wells of farmers affected in the project.

This ring road will be taken forward by taking Mahuari, Lavine Kala on Old GT Road

from Rewa Road to Mahuari, Lavine Kala and will be connected to NH-2 near Sahson. Preparations have been made to start the work of Ring Road in the first week of December without delay. The construction of the bridge of the Ganga will also be started.

Project Director, National Highways Authority, Prayagraj Pankaj Mishra, said there is a plan to start the construction work of Naini Lavayan Kala and Old GT Road from inner ring road for which almost all preparations have been made.

Conference on protected cultivation of horticultural crops

PIONEER NEWS SERVICE ■ PRAYAGRAJ

A two-day international conference on protected cultivation of horticultural crops, post-harvest handling and digital agriculture started at Sam Higginbottom University of Agriculture, Technology And Sciences (SHUATS) on Wednesday. It is being organised by the Department of Horticulture, Naini Agricultural Institute, SHUATS.

Giving this information organising secretary Dr Devi Singh said the chief guest was Dean of Tribhuvan University, Kathmandu Dr Kishor Chandra Dahal who inaugurated it at the university auditorium on Wednesday followed by an opening prayer led by Director (Research) Dr Alok Milton Lall. SHUATS Pro-V-C (PMD) Prof (Dr) Antony J Raj was the guest of honour. Faculty Dean Prof (Dr) Gautam Ghosh welcomed the chief guest. Director (Extension) Prof Arif A Broadway shared the extension activities of the university. Dean NAI Dr Biswarup Mehra gave a brief sketch

about the international conference. Joint Registrar and convenor Dr C John Wesley briefed the delegates about the importance of protected cultivation of horticultural crops.

Chief guest Dr Kishor Chandra Dahal shared standardised production technologies under protected cultivation including use of drip irrigation, fertigation and super absorbents for improving water and nutrient use efficiency. On the first day of the technical session various issues regarding critical review of the status with respect of designing of infrastructure like greenhouse, net houses, shade net, nursery, drip-irrigation system for protected cultivation in different agro-climatic locations etc were discussed.

The vote of thanks was proposed given by HoD Dr Vijay Bahadur Rajwade. Various national and international delegates along with SHUATS faculty members and research scholars attended the workshop.

KIDNEY TRANSPLANT: After Lucknow now preparations are being made for kidney transplant here

also. This facility will soon start at Swaroop Rani Nehru (SRN) Hospital of Moti Lal Nehru Medical College (MLNMC). Till now for kidney transplant, patients had to go to SGPGI, Ram Manohar Lohia Institute and King George’s Medical University of Lucknow or other big cities, but now within a month, kidney transplant facility will be available here.

Experts from the team constituted by the government have reached SRN Hospital to find out whether the resources required for kidney transplant are available or not.

Complete preparations have been made for this in its superspecialty building. The team from Lucknow and Delhi is gathering information on each point.

Dr Dilip Chaurasia, Chairman of the Urology department of MLNMC while talking to journalists said that patients from here as well as many other districts come to SRN Hospital for treatment but they have to be referred to Lucknow etc. Now having this facility here will provide relief to them.

Dr Arvind Gupta, Chairman of the Nephrology department said a large number of kidney transplant patients come to this hospital, but due to lack of this facility here the patients face a lot of inconvenience.

Efforts were being made for this for 20 years. Now the green signal is about to be received from the government.

Before giving green signal for kidney transplant at SRN Hospital, the government is getting its investigation done by a four-member team. A four-member team including Professor Suresh Kumar of the Surgery department of KGMU, Lucknow, reached here on Tuesday.

Prof Suresh Kumar said he has inspected the blood bank, OT, wards etc. in this hospital. They will report this to the government.

Urologist Dr Shirish Mishra of SRN Hospital said serious patients come to this hospital and are referred from nearby districts. With the introduction of kidney transplant system, the patient will get the benefit at minimal cost.

Vishwakarma, is a resident of Semri Sarayamrej. He is conductor in e-bus. After the video of Lareb surfaced, the angle of religion came in the attack on the conductor. The investigation was started by the ATS. It was learnt that Lareb used to listen to the arguments of Pakistani Maulana Khadim Hussain Rizvi in his mobile. This was revealed by YouTube’s search history. ATS CO Vipin Rai questioned Lareb in the hospital. According to sources, the accused Lareb Hashmi said that he is influenced by Pakistani Maulana Khadim Hussain Rizvi. Maulana is the founder of Tehreek-e-Labbek..

A total of 180 saplings were planted by children along with Army personnel.

allegedly attacked the former with a chopper on November 24. He does not know who Lareb Hashmi is. He told this to intelligence agencies during interrogation. The medical report of Harikesh Vishwakarma states that he has a total of 38 stitches, 18 are in the throat, 15 in the hand and five in the chest. He is undergoing treatment at Swaroop Rani Nehru (SRN) Hospital and is being told out of danger. Principal of SRN Hospital Dr SP Singh

said the medical report of Harikesh Vishwakarma has arrived and now his condition is improving and is out of danger. He has been shifted from ICU to the general ward. A panel of three doctors is treating him. According to police sources, Harikesh Vishwakarma has been under high security. BTech student Lareb had allegedly attacked bus conductor Harikesh Vishwakarma on November 24 at 9 am. Harikesh, son of Ram Shiromani

PIONEER NEWS SERVICE ■ PRAYAGRAJ

The kinnars of Kinnar Akhara took to the road with the traffic police to enforce traffic rules here on Wednesday. The transgenders taught traffic rules to the passersby. Under the leadership of senior member of Uttar Pradesh Kinnar Welfare Board, Mahamandaleshwar Swami Kaushalyanand Giri (Tina Maa), a large number of transgenders also took out an awareness rally. Bike riders going without helmets were given roses and asked to wear helmets. Helmets were provided to 251 people.

Mahamandaleshwar Swami Kaushalyanand Giri said today more deaths are occurring in the country due to road accidents than due to diseases.

The most worrying situation that more youths are dying in road accidents therefore we all should follow all traffic

rules so that we remain safe and our family members do not face any problem.

The two-wheeler drivers must wear helmets and car drivers seat belts. One should avoid overtaking while driving because most of the acci-

dents occur due to overtaking and drivers falling asleep.

Traffic inspector Pawan Kumar Pandey also made people aware about traffic. Additional Commissioner Police Traffic Sitaram and TI Manoj Singh also expressed

their views. A large number of people, including Shri Mahant Sanjananand and Giri of Kinnar Akhara, Naina, Shobha, Chhaya, Palak, Neha, Sana, Rani, Sangeeta, Chavanni, Devi, Saloni, Narmada, Srishti, Sushma were present.

Security arrangements in banks inspected

CORRESPONDENT ■ MIRZAPUR

Superintendent of Police (SP) Abhinandan while inspecting the security arrangements in banks on Tuesday said special training will be given to the staff of cash van as well as bank guards regarding safety issues. During the inspection the SP took the bankers to task who failed to make security arrangements as per the direction given by him during previous inspection. He gave tips to the security staff for better security. He added that he was planning to train the security staff to counter the threats of current crime situation. During the inspection station house officers (SHOs) of Katra Kotwali and City Kotwali the police force were also present.

CAR CATCHES FIRE: Panic prevailed on Tuesday evening when a car caught fire on Shastri bridge under Chilh police station. As a result the entire traffic came to a halt and with the help of people Chilh Station Officer (SO) Reeta Yadav tried to extinguish the fire but to no avail. The driver somehow managed to save himself and left the car in a burning condition which ultimately reduced to ashes. On information the Katra Kotwali police reached the spot and assisted the Chilh police in traffic control. After the hard labour of cops normal traffic could be restored.

MAHOTSAV: Chairman Zila Panchayat Raju Kanaujia on Tuesday while addressing

Chairman Zila Panchayat Raju Kanaujia addressing the Shri Anna Mahotsav on Tuesday

the Shree Anna Mahotsav at Piparadaand organised under the aegis of Agriculture department as the chief guest said millet is not just an edible grain it is a nutritious full of elements capable of keeping human life free from various diseases. He said the government is committed to doubling the income of farmers and the policies are made in their interest. He said promotion of millet is one of the ways to minimise the expenditure of farmers. He appealed to farmers to give priority to millet and use organic fertiliser in the larger interest of the health of the people. If the production cost is minimised without affecting the production of the grain it will increase the income of farmers, he added. The chief guest visited the stall of agri products. On the occasion he honoured some

farmers who had got the success in farming through innovative farming. Deputy Director (Agriculture) Vikesh Patel threw light on government schemes which were useful for farmers. He exhorted the farmers to get benefits of schemes. Referring the ongoing Viksit Bharat Sankalp Yatra he said it is the right time to get benefits of schemes.

MEETING: Chief Development Officer (CDO) Srilaxmi VS while holding the meeting of the officials related to five aspirational blocks of the district at the Collectorate on Tuesday issued directions to withhold the salary of five CDPOs and issued show cause notice to a medical officer for laxity in work. Halia, Patehra, City, Pahadi and Rajgarh have been selected as aspirational blocks in which 75 points had

been fixed on which work is to be done. The points include the matters related to health, nutrition, education, skill development, water resources, financial adjustment etc. In the meeting CDPOs were taken to task for tardy progress in completion of few Anganwadi buildings. The DDO was asked to submit the proposal to fill up the vacancy of ASHAs so far and start the process for new appointments. The DDO was asked for withholding the salary of CDPOs for laxity and issue show cause notices to the medical officer incharge Halia was directed to identify cent per cent TB patients and their verification.

CLASH: One person was injured in firing during a group clash under Kachhawaan police station on Wednesday. A ‘barat’ of Baraini village was returning when a vehicle collided with a tractor in Kevtabere village adjacent to Baraini under Kachhawaan police station. On information about the clash in which a bullet hit Awadhesh of Kevtabere village in his arm during the firing by one of the ‘baratis’ the police reached the spot and brought the situation under control. Additional Superintendent of Police Niteshwar Singh told said the injured was given primary treatment and Satish Singh along with one other person have been taken into custody on the complaint of the other party. As a precautionary measure force had been deployed.

Plantation drive organised

PIONEER NEWS SERVICE ■ PRAYAGRAJ

A plantation drive was organised by 111 Infantry Battalion (Territorial Army) Kumaon at Prayagraj on Tuesday to promote nature conservation and raise awareness about environment.

A total of 180 saplings were planted by children along with Army personnel. The entire exercise emphasises that even small efforts count and collective action can make a substantial difference in creating a healthier and more sustainable environment.

ATTACK CASE: Bus conductor Harikesh Vishwakarma does not even recognise Lareb Hashmi, the accused who

Out, with lessons

The evacuation of 41 workers tells us a few things about what went right and what we must set right

Life be frail and ephemeral but it is the human grit, determination, resilience and collaborative spirit that makes it explore space, navigate seas, move earth, climb mountains and challenge the mighty Nature. On the same theme, the Silkyara tunnel rescue operation in Uttarkashi stands out as a shining example of effective crisis management. After 400 hours of intense effort, the trapped workers can see the sun again. It was arguably the nation's biggest rescue operation – international experts, local authorities, Army and big machines all worked in tandem to pull off this feat. And the rat miners, part of the Army operations, deserve a special mention as finally they managed to reach the miners after digging continuously for 24 hours. Rat mining is now banned in India, yet their skills did the trick. Celebrations apart, this is also the time to ponder over the lessons learned from the oversights and mistakes made during the mission. For 17 days, the Silkyara-Barkot tunnel became a site of frenzy after 41 workers were trapped

in the tunnel. The rugged terrain and inclement weather compounded the challenges; the remote location added a degree of difficulty to the mission, necessitating a swift and coordinated response.

While the rescue operation ultimately succeeded, it is important to examine our shortcomings to improve future crisis responses. One notable oversight was the initial delay in deploying specialised equipment to the site. This lapse, attributed to logistical challenges and communication gaps, underscored the importance of a rapid and efficient response in emergencies. Another lesson learned was the need for enhanced coordination among the agencies involved in the rescue.

Effective communication channels and seamless collaboration are essential for streamlining efforts and ensuring a cohesive response. It would have been better had the Army been called in earlier, given its expertise in such operations. Initially, delays and confusion arose due to inadequate coordination, highlighting the need for improved inter-agency cooperation which was, however, made good after it became a national top story. While the operation showcased the prowess of specialised units in handling complex crises, it also emphasised the importance of addressing logistical challenges and improving coordination among agencies. It also highlighted how protocols and standard working procedures are flouted by the companies involved. There must be a Government agency to ensure that safety procedures are followed. The life of every individual matters but the companies often cut corners when it comes to worker safety. Even the multinational companies operating in India do not follow the same safety protocols they follow in Europe and America, as was amply proved by the Bhopal gas disaster. They know safety at the workplace is not a priority. In Silkyara, there was no plan in place to evacuate workers in case of an emergency. By continuously refining our emergency response strategies, we can better prepare for challenges.

Democracy: Restoring the dignity in public life

Poll campaigns are becoming toxic with unrestrained campaigns; no one is sacrosanct, and all political parties must shoulder the blame for it

The campaign for the last phase of the election to the Telangana assembly has come to an end with Prime Minister Narendra Modi's "Mega Road Show" at Hyderabad on Monday evening. It is once again silence in the state. But this is a temporary silence and a prelude to the much bigger cacophony that is all set to unfold in days to come. Poll pundits describe the election to the five State assemblies as the semi-final. While elegance and aristocracy were the catchwords of speeches made inside and outside the parliament, of late the quality of the language used by our lawmakers has degenerated to a level lower than the Bharani Pattu sung by a section of pilgrims at the Devi Temple in Kerala's Kodungallur. For those who are not familiar with the Bharani Pattu ritual, Bharani is one of the 27 stars used by astrologers for scientific calculations while Pattu means song/hymn. The self-styled Dravidians pay their obeisance to Bhagawathy (Devi/Goddess, the presiding deity of Kodungallur)

by singing obscene hymns on Bharani day in the Malayalam month of Chingam. It is a tradition whereby the farmers of yore days complain to the Goddess about their hardships in the typical Dravidian style. The elections that were held after India became an independent country stand out for its methodical and systematic campaign. The enthusiasm and fervour seen in the people from metropolises to villages elevated the democratic process into a festival-a festival of democracy. The campaign speeches delivered by the leaders were a learning process as they were packed with information, wisdom and knowledge. There are no records of leaders like Sardar Vallabhbhai Patel,

Jawaharlal Nehru, Lal Bahadur Shastri, Balraj Madhok, Shyama Prasad Mukherjee and Morarji Desai crossing the Lakshman Rekha and verbally assaulting their rivals. The political discourse took a nasty turn with Indira Gandhi attacking the Opposition parties alleging them of trying to finish her off in their bid to capture power. All her speeches were centred around this one-point agenda and were seen by political pundits as an attempt to divert the attention of the electorate from real issues. She belittled the corruption charges against her party colleagues and ministers by stating that "corruption was a global phenomenon". The stand-off between the then Congress Chief Sonia Gandhi and the then Gujarat Chief Minister Narendra Modi made it to the global news headlines. Sonia Gandhi began addressing Modi as 'Maut Ka Saudagar' (the wholesale merchant of death), Fascist, Dictator and whatnot! Modi retorted by calling her Antonio Maino (her Italian

name) and 'Congress widow' to which the Congress and the Communists cried foul. The name-calling continued unabated as Rahul Gandhi opened a new battle front in the run-up to the 2019 Lok Sabha polls. 'Chaukidar Chor Hai' was the new war cry of the Congress scion. Though Modi kept silent for a while, he was forced to retaliate which was not music to the ears of Congress leaders. This is one of the main reasons for having a One Nation, One Poll system. With the One Nation, One Poll system, we need to bear with this abnormal situation only once every five years and not every alternate month. The silent campaign has its virtues and elegance. Election Campaigns should not upset the rhythm of one's daily life. The dignity and harmony of democracy could be sustained by a silent campaign and not by discordant notes. (The writer is a special correspondent with the Pioneer, views are personal)

KUMAR CHELLAPPAN

Tunnel between science and spirituality

The successful rescue mission in the Silkyara, shows how coordinated efforts and a compassionate approach can achieve the impossible

The march of science, the heart of man must beat in unison with the heart of God. The future belongs to spirituality over science, to metaphysics over physics. These profound words of Swami Vivekananda gripped my attention after a friend of mine shared it on my WhatsApp with a photograph of tunnelling expert Arnold Dix bowing down before God (read Almighty) outside the Silkyara tunnel.

The successful completion of the rescue mission to extricate 41 workers trapped inside the Silkyara tunnel on Uttarakhand's Char Dham route was achieved on Tuesday evening of November 28, 2023. Rat-hole mining experts employed manual drilling techniques to navigate through the final 10-12-meter stretch of debris from the collapsed section of the under-construction tunnel. It was on the morning of Diwali, November 12, that a landslide occurred at approximately 5:30 AM, causing a section of the Silkyara-Dandagaon tunnel under construction on the Brahmalak-Yamunotri highway at Uttarkashi to collapse.

The tunnel, a critical part of the Char Dham all-weather road project led to the trapping of 41 workers inside the tunnel, specifically at the Silkyara Bend – Barkot tunnel, situated about 200 meters from its entrance, which triggered a challenging rescue operation, as the entire nation joined in unison praying for the safe exit of the trapped workers. Action by officials and district administration began immediately and meticulously to bring out the trapped workers unhurt. Twelve skilled rat-hole mining experts played a crucial role in this intricate operation.

The successful rescue operation in the Silkyara tunnel – after the 17-day ordeal of life and death – involved a collaborative effort from various entities, including the National Disaster Response Force (NDRF) at the national level, state rescue agencies, international drilling experts, and even local rat-mining labourers – whose crucial contribution had often been overlooked by many. The district administration swift-

ly initiated rescue operations with approximately 200 disaster relief personnel employing drilling equipment and excavators. Simultaneously, oxygen, electricity, and food were provided to the trapped labourers through air-compressed pipes. Other than NDRF, the other agencies included SDRF, BRO, NHIDCL, and ITBP, who collaborated in the rescue efforts. In the Odisha train disaster, the NDRF played a crucial role in rescue operations. During the Sudan crisis, India launched 'Operation Kaveri' facilitating the safe evacuation of 3,000 stranded Indians. Foreign Minister S. Jaishankar engaged with Saudi Arabia and the UAE, while the Indian Air Force and Navy conducted flights and sorties, evacuating nearly 3,900 Indians. After the release of the 41 trapped workers, in a message, Prime Minister Narendra Modi said that their "courage and patience" was inspiring. In a post on 'X', he wrote, "I want to say to the friends who were trapped in the tunnel that your courage and patience is inspiring for everyone. I wish you all well and good health. It is a matter of great satisfaction that, after a long wait, our friends will now meet their loved ones."

Coming back to the profound words of Swami Vivekananda, as mentioned at the beginning, it emphasises the harmony between the march of science

AFTER THE EVACUATION OF THE 41 TRAPPED WORKERS, IN A MESSAGE, PRIME MINISTER NARENDRA MODI SAID THAT THEIR "COURAGE AND PATIENCE" WAS INSPIRING

and the spiritual essence of humanity. The idea that "the future belongs to spirituality over science, to metaphysics over physics" suggests a balance between the material and the spiritual dimensions of human existence.

In the context of the successful rescue mission in the Silkyara tunnel and other instances mentioned, this balance is evident in the coordinated efforts and compassionate approach adopted by various entities involved.

The challenging rescue operation in the Silkyara tunnel serves as a practical manifestation of this balance. One could say that the use of manual drilling techniques, led by skilled rat-hole mining experts, symbolises the human touch, perseverance, and skill beyond mechanised technology. The collaboration of different entities, from local rat-mining labourers to international drilling experts, reflects a holistic approach.

Arnold Dix, bowing down, serves as a poignant reminder of the humility required in the face of the unknown. Tunnelling through the Earth, Dix, a master of physical engineering, found himself compelled to bow before a force greater than himself – a force that perhaps transcended the limits of his scientific understanding. This gesture encapsulates the essence of surrendering to the supreme,

acknowledging that there are realms beyond the grasp of human intellect.

Amidst the grandeur of our discoveries, there exists a yearning for meaning and purpose that science alone cannot satiate. This is where spirituality steps in, offering solace to the searching soul and providing a framework for understanding the metaphysical aspects of our existence.

However, the act of surrendering to the supreme does not imply abandoning reason or forsaking scientific inquiry. Instead, it encourages a harmonious coexistence where the intellect bows to the infinite wisdom that transcends empirical understanding. Moreover, surrendering to the supreme allows us to navigate the uncertainties of life with grace and resilience.

In moments of adversity, the recognition of a higher power provides a source of strength and comfort, where one understands a sense of purpose. The integration of spirituality and science may find a deeper understanding of our existence and our place in this grand arena of the cosmos, where our greed and wants need to be self-checked and demand self-restraint.

(The writer is a programme executive, Gandhi Smriti and Darshan Samiti, views are personal)

LETTERS TO THE EDITOR

HC REJECTS PIL ON LOUDSPEAKERS

Sir—Dubbing it a "wholly misconceived PIL," a Division Bench of the Gujarat High Court on Tuesday rejected a public interest litigation (PIL) that had sought a ban on the use of loudspeakers in mosques during azaan. It's a good decision that came from HC. India is a democratic country where people follow different religions; that's called "unity in diversity." Different kinds of flowers beautify a bouquet of flowers; in the same way, having various religions prettifies India.

All citizens should live together, loving and supporting each other. With everyone's support, our country will develop; otherwise, our country will be scattered, society will be destroyed, and evils and devils will flourish. United we stand, divided we fall.

BRUTAL MURDERS CREAE PANIC IN UP

Sir—As per the report, the murders of eight women in the past few months, in a similar pattern, have created panic among people and anxiety for police in the BJP-ruled state of Uttar Pradesh. All the victims were aged between 35 and 60 years and were strangled to death with a saree or chunari, said officials. Seven of these murders were reported from different villages within Shahi police station limits. The most recent one was reported from Sheeshgarh police station on November 26.

Bareilly ADG PC Meena, along with IG (Range) Rakesh Singh, visited the crime spot and directed officials to work out the cases at the earliest. He asked them to do the crime mapping of incidents and analyse the crime pattern to nab the assailants. "It is still not clear whether these murders are interconnected or not. I am also not sure whether it is the work of one person or different people. But residents suspect the involvement of a psychopath in the region," said ASP (crime) Mukesh Pratap Singh. ASP Mukesh Pratap Singh issued an advisory to villagers to not allow women to go out of their homes alone and

Mission impossible!

The seventeen-day ordeal is finally over after rescuing 41 workers trapped in the Uttarkashi tunnel. The impossible is made possible. Man succeeded where foreign machines failed. The auger drilling machine was broken many times and could not complete the work. Removing it's broken blades from the rescue pipe was a great technological achievement. The 'Rat Miners', who emerged as heroes in this great escape, gave the required breakthrough

step out in groups of three-four, if necessary. This advisory also stands for daytime, as all these murders happened between 11 a.m. and 5 p.m. with women working in the field or at deserted places. The murder of a woman in the same pattern was reported from a village under adjoining Sheeshgarh police station limits on Sunday. Urnila, 55, wife of one Ved Prakash of Jagdishpur village in Sheeshgarh, had gone out to collect fodder for cattle around noon and did not return home. The woman's body was later found lying near the field of one Dori Lal, around 500 metres from the village. Earlier last year, three women aged between 60 and 64 years were killed in December in Barabanki district. With this, women are living under the fear of getting targeted and are not going out.

Bhagwan Thadani | Mumbai

MEMORABLE TALES OF 'THE GABBA'

Sir—The iconic Australian cricket stadium, 'The Gabba' in Brisbane, is said to be demolished and rebuilt for the 2032 Olympics. Renowned for hosting one of

the fastest tracks in world cricket, the Gabba became a household name in India and across the world after India breached what was Australia's fortress until 2021. For good measure, Gabba, the bastion of the Australian cricket team, is bordered by 'Vulture Street', which cricket aficionados will famously know as one of the two ends of the ground.

Gabba may not stir emotions and enthruse romantics like the storied Australian cricket grounds of Melbourne, Sydney, and Adelaide, but its very mention would strike fear in the minds of visiting teams. For the Indian fans, starting the day by listening to former Australian great Bill Lawry's cheerful voice early in the morning was music to the ears when he would start with, "very good morning to all our viewers wherever you are." Again, when action gets tense on the field, one will find Lawry saying, "It is all happening here at the Gabba."

THE ANCIENT ART OF MUDRAS

Yogic hand gestures channel energy and help connect to higher spiritual realms

SWAMI CHARANASHRIT

Mudras, a Sanskrit word that translates to "gesture," are ancient hand positions that have been practised for thousands of years in various cultures, particularly in the realms of yoga, meditation, and traditional dance. These symbolic gestures are believed to channel energy within the body and connect the practitioner to higher spiritual realms. The philosophy behind mudras lies in the idea that different parts of the hands represent different elements and energies, and by bringing them together in specific ways, one can harmonise and channel these energies for various purposes.

Major Mudras and Their Significance:

Anjali Mudra (Prayer Gesture):
How to perform: Bring the palms of your hands together in front of your chest, fingers pointing upward.
Anjali Mudra is a gesture of reverence and gratitude. It is commonly used as a greeting and is often performed at the beginning and end of yoga classes. This mudra symbolises the connection between the individual self and the universal consciousness.

Gyan Mudra (Knowledge Gesture):
How to perform: Touch the tip of the thumb and the index finger, forming a circle, while keeping the other fingers extended.
Gyan Mudra is associated with knowledge, wisdom, and concentration. It is believed to enhance memory and improve concentration during meditation. This mudra is commonly used in various meditation practices to quiet the mind and promote inner peace.

Chin Mudra (Consciousness Gesture):
How to perform: Touch the tip of the thumb and the index finger, forming a circle, and let the other three fingers remain extended.
Chin Mudra is a gesture of consciousness and is often used during meditation.

Prana Mudra (Life Force Gesture):
How to perform: Join the tips of the ring finger and the little finger to the tip of the thumb, while keeping the other fingers extended.
Prana Mudra is believed to increase the vital life force energy within the body. It is associated with improving vitality, reducing fatigue, and boosting the immune system.

Apana Mudra (Digestive Gesture):
How to perform: Touch the tips of the thumb, middle finger, and ring finger together, while keeping the index finger and little finger extended.
Apana Mudra is said to balance the Apana Vayu, one of the five vital forces in the body related to elimination and downward movement. This mudra is believed to support digestive health, assist in detoxification, and promote a sense of groundedness.

Huni Mudra (Seal of Patience):
How to perform: Join the tip of the middle finger with the tip of the thumb, while keeping the other fingers extended.
Shuni Mudra is associated with patience, discernment, and discipline. It is believed to help cultivate a sense of patience and focus. Practising this mudra is thought to bring balance to the air element within the body and mind, promoting a calm and reflective state. Shuni Mudra is often used to enhance one's ability to make wise decisions. Incorporating mudras into your meditation or yoga routine can provide a deeper dimension to your spiritual journey, promoting physical, mental, and emotional well-being. Mudras are powerful tools that bridge the physical and spiritual aspects of our being. Incorporating these symbolic hand gestures into your daily life or meditation practise can deepen your connection with yourself and the universe. As with any ancient practice, it's essential to approach mudras with respect and an open mind, allowing yourself to explore their potential benefits on a personal level.

Cultivating a unique economic identity in the border areas

Mangnad is not merely a supplier of milk and vegetables; it's a testament to how a community can carve its niche, even in challenging landscapes

In India's diverse landscapes, every village contributes a distinctive thread to the larger narrative of our country. Nestled approximately 6 km from the Poonch district in the Union Territory of Jammu and Kashmir, Mangnad stands out as a border village that is slowly etching its identity in the realms of agriculture and animal husbandry. Over the years, Mangnad has earned a reputation for its unique approach to animal husbandry. It's a village where livestock is not just a part of the scenery; it's a way of life. Yet, it's not a place where dependence solely rests on animal husbandry. Even government employees here take a keen interest in

BHARATI DEVI

both animal husbandry and agriculture. Consequently, Mangnad not only meets the local demand but also supplies milk and vegetables to the broader Poonch region. Every morning, vehicles laden with litres of milk make their way to the city, with city-dwellers acknowledging the village as a vital source for their daily dairy needs. This tradition has been sustained for years, but in the last 8-10 years, Mangnad has also emerged as a significant player in vegetable production, adding another layer to its unique identity. Today, the village engages in diverse occupations, from private businesses to government employment, but one common thread binds them

all—cultivating vegetables. Observing the burgeoning interest in agriculture, the local agriculture department has stepped in to support the villagers. This collective effort has equipped the village with essential resources, including

small tractors, quality seeds, agricultural camps, and water tanks, transforming Mangnad into a beacon of self-sufficiency. Considering the hilly terrain of Jammu and Kashmir, this transformation is a testament to the resilience and determination

of its people. Mangnad is not merely a supplier of milk and vegetables; it's a testament to how a community can carve its niche, even in challenging landscapes. The villagers have not only embraced agriculture but have also diversified into vegetable production, a feat worth celebrating. 54-year-old Murti Devi, a resident of the village, shares that their approach to vegetable cultivation has evolved. Initially, they planted a single type of vegetable for six months and then another for the next six months. However, with experience, they have streamlined their efforts, categorising vegetables into four distinct seasons. They now synchronise their

planting with the weather, ensuring a continuous supply of diverse vegetables throughout the year. Sushil Kumar, 40, asserts that apart from vegetable production, they have no other business. With some patches of land, they ventured into vegetable farming, selling produce worth lakhs every season. This entrepreneurial spirit extends to several farmers in the village, illustrating how Mangnad has become an agricultural powerhouse. Harish Kumar, 29, emphasises the enduring interest in animal husbandry among the villagers. While some are dedicated to daily milk supplies to the city, others have expanded their focus to vegetable cultivation. The

villagers are not just cultivating vegetables; they are champions of organic farming, ensuring not only flavorful produce but also contributing to the nutritional well-being of consumers. This border village's success story is not just about agriculture; it's about community resilience, innovation, and a collaborative effort with the agriculture department. The department's support, including providing specialised sheets for transforming cow dung into fertilizer, has not only improved lives but has also bestowed a distinctive identity upon Mangnad.

India's G20 Presidency: Towards a better future

NARENDRA MODI

Today marks 365 days since India assumed the G20 Presidency. Let us reflect, recommit, and rejuvenate the spirit of 'Vasudhaiva Kutumbakam'

As we undertook the responsibility of G20 Presidency last year, the global landscape grappled with multifaceted challenges: recovery from the Covid-19 pandemic, looming climate threats, financial instability, and debt distress in developing nations, all amid declining multilateralism. In the midst of conflicts and competition, development cooperation suffered, impeding progress. Assuming the G20 Chair, India sought to offer the world an alternative to status quo, a shift from a GDP-centric to human-centric progress. India aimed to remind the world of what unites us, rather than what divides us. Finally, the global conversation had to evolve—the interests of the few had to give way to the aspirations of the many. This required a fundamental reform of multilateralism as we knew it. Inclusive, ambitious, action-oriented, and decisive—these four words defined our approach as G20 president, and the New Delhi Leaders' Declaration (NDLD), unanimously adopted by all G20 members, is testimony to our commitment to deliver on these principles. Inclusivity has been at the heart of our presidency. The inclusion of the African Union (AU) as a permanent member of the G20 integrated 55 African nations into the forum, expanding it to encompass 80% of the global population. This proactive stance has fostered a more comprehensive dialogue on global challenges and opportunities. The first-of-its-kind 'Voice of the Global South Summit,' convened by India in two editions, heralded a new dawn of multilateralism. India mainstreamed the Global South's concerns in international discourse and has ushered in an era where developing countries take their rightful place in shaping the global narrative. Inclusivity also infused India's domestic

INDIA'S G20 PRESIDENCY USHERED IN A DAWN OF NEW MULTILATERALISM; A BEGINNING OF A NEW WORLD ORDER

approach to G20, making it a People's Presidency that befits that world's largest democracy. Through "Jan Bhagidari" (people's participation) events, G20 reached 1.4 billion citizens, involving all states and Union Territories (UTs) as partners. And on substantive elements, India ensured that international attention was directed to broader developmental aims, aligning with G20's mandate. At the critical midpoint of the 2030 Agenda, India delivered the G20 2023 Action Plan to Accelerate Progress on the Sustainable Development Goals (SDGs), taking a cross-cutting, action-oriented approach to interconnected issues, including health, education, gender equality and environmental sustainability. A key area driving this progress is robust Digital Public Infrastructure (DPI). Here, India was decisive in its recommendations, having witnessed the revolutionary impact of digital innovations like Aadhaar, UPI, and Digilocker first-hand. Through G20, we successfully completed the Digital Public Infrastructure Repository, a significant stride in global technological collaboration. This repository, featuring over 50 DPIs from 16 countries, will help the Global South build, adopt, and scale DPI to unlock the power of inclusive growth. For our One Earth, we introduced ambitious and inclusive aims to create urgent, lasting, and equitable change. The Declaration's 'Green Development Pact' addresses the challenges of choosing between combating hunger and

protecting the planet, by outlining a comprehensive roadmap where employment and ecosystems are complimentary, consumption is climate conscious, and production is planet-friendly. In tandem, the G20 Declaration calls for an ambitious tripling of global renewable energy capacity by 2030. Coupled with the establishment of the Global Biofuels Alliance and a concerted push for Green Hydrogen, the G20's ambitions to build a cleaner, greener world is undeniable. This has always been India's ethos, and through Lifestyles for Sustainable Development (LiFE), the world can benefit from our age-old sustainable traditions. Further, the Declaration underscores our commitment to climate justice and equity, urging substantial financial and technological support from the Global North. For the first time, there was a recognition of the quantum jump needed in the magnitude of development financing, moving from billions to trillions of dollars. G20 acknowledged that developing countries require \$5.9 trillion to fulfil their Nationally Determined Contributions (NDCs) by 2030. Given the monumental resources required, G20 emphasised the importance of better, larger, and more effective Multilateral Development Banks. Concurrently, India is taking a leading role in UN reforms, especially in the restructuring of principal organs like the UN Security Council, that will ensure a more equitable global order. Gender equality took centre stage in the Declaration, culminating in

the formation of a dedicated Working Group on the Empowerment of Women next year. India's Women's Reservation Bill 2023, reserving one-third of India's Parliament and state legislative assembly seats for women epitomizes our commitment to women-led development. The New Delhi Declaration embodies a renewed spirit of collaboration across these key priorities, focusing on policy coherence, reliable trade, and ambitious climate action. It is a matter of pride that during our Presidency, G20 achieved 87 outcomes and 118 adopted documents, a marked rise from the past. During our G20 Presidency, India led deliberations on geopolitical issues and their impact on economic growth and development. Terrorism and the senseless killing of civilians is unacceptable, and we must address it with a policy of zero-tolerance. We must embody humanitarianism over hostility and reiterate that this is not an era of war. I am delighted that during our Presidency India achieved the extraordinary: it revitalised multilateralism, amplified the voice of the Global South, championed development, and fought for the empowerment of women, everywhere. As we hand over the G20 Presidency to Brazil, we do so with the conviction that our collective steps for people, planet, peace, and prosperity, will resonate for years to come.

1,500 km of train route gets Kavach

PIONEER NEWS SERVICE ■
NEW DELHI

Railway Minister Ashwini Vaishnaw on Wednesday said the indigenously-developed automatic train protection system ‘Kavach’ has been fully installed on 1,500 km of train route and a significant progress has been made to increase its coverage.

“We started our journey with the Kavach system in 2016 and till 2020, its pilot work, testing, modification and version enhancement were done. It was in the beginning of 2022, its production and installation started on a large scale,” Vaishnaw said during an interaction with media.

“Today, we have installed the system on 1,500-km route and a significant progress has been made (for its installation) on another 3,000-km route on the Mumbai-Howrah and the

Delhi-Howrah route,” he said.

‘Kavach’ is an automatic train protection system for enhancing safety of running trains. It has been developed indigenously by the Research Design and Standards Organisation (RDSO) in association with three Indian vendors. ‘Kavach’ not only helps loco pilots to avoid signal passing at danger and over-speeding but also helps in train running during inclement weather such as dense fog, leading to enhanced safety and efficiency of train operations. Some features of the system are controlling speed of trains by automatic application of brakes in case loco pilot fails to apply the brakes and repeating line-side signal in cab which is very useful for higher speeds. Vaishnaw said that with continuous efforts, the railways has made a significant capacity enhancement to install ‘Kavach’ on 1,500-km

route every year. Elaborating about the system, he said that it is not a device which can be installed in locomotives only. Instead, according to him, it is a complete system which has multiple components to install

at stations, locomotives, tracks and along the routes in the form of towers and radio equipment.

“We floated the tender for 3,000 km installation in December 2022 and the progress report is very encouraging.

Radio survey and radio design, which is the most critical part of the system, is 98 per cent complete. Station Kavach installation is 33 per cent complete, 58 per cent of tower installation along the track has been done,” the

minister said.

He added that the Kavach next generation, which is a 4G- and 5G-based system, has also been developed and in December 2023 or January 2024, the railways will float a tender for its installation on 3,000 km tracks. “In May-June 2024, we will float another tender for 6,000 km of installation of Kavach,” Vaishnaw said.

The minister added that as his focus is capacity enhancement, he has set a target of achieving 2,500 km of ‘Kavach’ installation in 2024-25 from the present capacity of 1,500 km. “In the year 2025-26, we will take the capacity to 5,000 km per year. With this rapid progress of Kavach, we will cover the entire network within a short period of time. For Kavach installation, the Golden Quadrilateral-Golden Diagonal (GQGD) route has got top priority followed by high-density and high-utilisation network areas,” he added.

Modi to interact with beneficiaries of Viksit Bharat Sankalp Yatra

PIONEER NEWS SERVICE ■
NEW DELHI

Prime Minister Narendra Modi will interact with beneficiaries of the ‘Viksit Bharat Sankalp Yatra’ on Thursday via video conferencing, the Prime Minister’s Office (PMO) said here on Wednesday.

Prime Minister Modi will also launch Pradhan Mantri Mahila Kisan Drone Kendra, it said. The kendra will provide drones to women Self Help Groups (SHGs) so that this technology can be used by them for livelihood assistance, the statement said.

The Yatra is being undertaken across the country with an aim to attain saturation of flagship schemes of the government by ensuring that the benefits of these schemes reach all targeted beneficiaries in a time bound manner, a statement issued by the PMO said.

Modi will interact with beneficiaries of the Viksit Bharat Sankalp Yatra on November 30 at 11 am via video conferencing, it said.

It has been the constant endeavour of the prime minister to ensure women led development, the statement said.

In yet another step in this direction, Prime Minister Modi will launch Pradhan Mantri Mahila Kisan Drone Kendra, it said. The kendra

will provide drones to women Self Help Groups (SHGs) so that this technology can be used by them for livelihood assistance, the statement said.

It said 15,000 drones will be provided to women SHGs in the course of the next three years. Women will also be provided necessary training to fly and use drones. The initiative will encourage the use of technology in agriculture, the statement said.

Making healthcare affordable and easily accessible has been the cornerstone of the prime minister’s vision for a healthy India. One of the major initiatives in this direction has been the establishment of Jan Aushadhi Kendra to make medicines available at affordable prices.

During the programme, the prime minister will dedicate the landmark 10,000th Jan Aushadhi Kendra at AIIMS, Deoghar.

Further, the prime minister will also launch a programme to increase the number of Jan Aushadhi Kendras in the country from 10,000 to 25,000.

Both these initiatives of providing drones to women SHGs and increasing the number of Jan Aushadhi Kendras were announced by the prime minister during his Independence Day speech. The programme marks the fulfilment of these promises, the statement said.

India to probe plot to kill Khalistani terrorist in US

PNS ■ NEW DELHI

India on Wednesday said it has constituted a high-level enquiry committee to probe allegations relating to a conspiracy to kill Sikh extremist Gurbatwant Singh Pannun on the US soil.

Announcing this here, the External Affairs Ministry Spokesperson Arindam Bagchi said India will take necessary follow-up action based on the findings of the committee.

The *Financial Times*, citing unnamed sources, last week reported that US authorities thwarted a plot to assassinate Gurbatwant Singh Pannun, and issued a warning to the Indian Government over concerns it was involved in the plot. Bagchi said India constituted a high-level inquiry committee on November 18 to look into all the relevant

aspects of the matter.

Pannun, a Sikh extremist and known to be an American and Canadian citizen, is wanted by Indian probe agencies on various terror charges.

“We have already said during the course of discussions with the US on bilateral security cooperation, the US side shared some inputs pertaining to nexus between organised criminals, gun runners, terrorists and others,” Bagchi said.

“We had also indicated that India takes such inputs seriously since they impinge on our national security interests as well, and relevant departments were already examining the issue,” he said.

The *Financial Times* report came weeks after Canadian Prime Minister Justin Trudeau made allegations of a “potential” involvement of Indian agents in the killing of

Khalistani separatist Hardeep Singh Nijjar in a Vancouver suburb in June.

Following the report, Bagchi on November 22 said the US side shared some inputs pertaining to nexus between organised criminals, gun runners, terrorists and others. He said the inputs are a “cause of concern” for both countries and they decided to take necessary follow up action.

The media report about the alleged plot to kill Pannun came about two months after Trudeau alleged in September that there was a potential link between Indian Government agents and the killing of another Khalistani leader, Hardeep Singh Nijjar, who was gunned down in the parking lot of a gurdwara in the town of Surrey in June. India strongly denied the charges, describing them as absurd.

Create culture of quality: Rajnath to makers of military hardware

PIONEER NEWS SERVICE ■
NEW DELHI

Defence Minister Rajnath Singh on Wednesday called upon the Indian defence manufacturers to create a culture of quality in defence production, terming it as a prerequisite to compete in the international market.

Addressing the plenary session of Defence Research and Development Organisation (DRDO) Quality Conclave on the theme ‘Quality Odyssey for self-reliance in defence products,’ he stated that only quality products create global demand, and it will help in realising Prime Minister Narendra Modi’s vision of making India a global manufacturing hub and a net defence exporter.

Rajnath pointed out that those countries, which manufacture quality products, export their equipment to countries across the globe. He added that due to the good quality, the

prices of these platforms are quite high; but it should be kept in mind that importing countries are ready to pay even the highest prices for state-of-the-art products.

Stressing that top-quality products bring credibility to the domestic defence industry, the defence minister said manufacturing such equipment within the country will generate increased global demand and bolster India’s reputation in the international market. He also underscored the importance of cost control while manufacturing quality defence products.

“Cost control should be given utmost importance; however it

should not be at the expense of quality. We have to be globally cost-competitive, but it has to be done by remaining in the top-quality segment. We must move forward with this idea,” said Rajnath.

He underscored the need to manufacture high-quality military systems which are effective, reliable and safe and can enable the Armed Forces to accomplish the missions successfully.

Speaking on the occasion, DRDO chief Samir V Kamat reaffirmed the organisation’s commitment towards delivering quality systems. He requested all stakeholders to have firm resolve and synergise towards self-reliance in high-quality indigenous military systems.

The conclave provided an opportunity for stakeholders to network with experts to create an ecosystem in the country for producing high-quality indigenous systems, and implementation of standards, policies and global best practices.

Midair marital feud diverts flight to Delhi

RAJESH KUMAR ■ NEW DELHI

A fight between a man and his wife midair compelled a Munich-Bangkok bound Lufthansa flight (LH772), which took off from Munich, to make an unscheduled landing at Delhi’s Indira Gandhi International (IGI) airport on Wednesday morning. Subsequently, the couple was de-boarded.

According to sources, a German man and his Thai wife started fighting midair during the flight from Munich to Bangkok. Lufthansa first requested permission to land in Pakistan. When this was denied, the airline made an emergency stop in Delhi because of the unruly passengers. This is one of the very rare conditions where an international flight had to be diverted not owing to some medical emergency or safety purpose but for a fight between a man and his wife that went too far.

Sources said the wife had first complained about her husband’s behaviour to the pilot, saying she was

being “threatened” by him and sought intervention.

Sources said the 53-year German passenger allegedly “threw food, tried to burn a blanket using a lighter, shouted at his wife and did not follow the instructions issued by the crew” and hence the pilot diverted the flight. The man was later deboarded by Central Industrial Security Force (CISF) personnel at IGIA.

The wife was travelling on a different PNR ticket and she desired to continue her journey to Bangkok, they said. The airline, as per the sources, is also coordinating with the

German Embassy. “The man of German nationality was offloaded at Delhi and handed over to airport security. He has since apologised,” they added. The Directorate General of Civil Aviation (DGCA) is now mulling whether to consider the apology and allow the man to return to Germany, or hand him over to law enforcement agencies in India.

“The reason for the fight between husband and wife is not known, but the flight had to be diverted due to the fight between husband and wife,” sources said.

Lufthansa, in a statement, said the flight was diverted to Delhi due to an unruly passenger on board.

A similar incident had taken place on October 6 aboard an Air India flight. A man was arrested for allegedly using abusive language and passing lewd comments towards the crew members, the Delhi Police had confirmed. A crew member working in the economy class cabin said that the accused started passing lewd comments and abusing others.

SC upholds Centre call on Delhi CS tenure extension

PTI ■ NEW DELHI

In a major setback to the AAP Government, the Supreme Court on Wednesday permitted the Centre to extend the tenure of Delhi Chief Secretary Naresh Kumar, a day before he was set to demit office on November 30, for six months, holding that the Union Government’s decision did not violate law or the Constitution.

A bench comprising Chief Justice DY Chandrachud and justices JB Pardiwala and Manoj Misra held, prima facie, the Centre has the power to appoint and extend the tenure of the Chief Secretary of the national capital territory of Delhi as the officer deals with the entire administration including police, public order and land, which fall beyond the legislative and executive powers of the Delhi Government.

“We come to the conclusion that at this stage, bearing in mind the provisions of the judgment of this court in Constitution Bench 2 (2023 judgment on Centre-Delhi government services row) and the

subsequent developments which have taken place resulting in the enactment of the amendment to the GNCTD Act 1991, the decision of the Union Government to extend the services of the incumbent chief secretary for a period of six months cannot be construed to be violative of law or the constitutional distribution of powers between the Union and the government of the GNCTD,” the bench said.

The bid to extend the tenure of the present chief secretary is the latest bone of contention between the Arvind Kejriwal Government and Lieutenant Governor (LG) V K Saxena, who have been involved in a series of run-ins over various issues.

Significantly, the current chief secretary, whose tenure will now be extended, is reportedly not on good terms with the Delhi Government owing to allegations against his son in a case related to acquisition of 19 acres by the National Highways Authority of India in 2018 for construction of the Dwarka Expressway.

Illuminating lives of drug addicts

PIONEER NEWS SERVICE ■
NEW DELHI

In keeping with its efforts to curb drug menace in the country, the Department of Social Justice & Empowerment under the Union Social Justice and Empowerment has signed a pact with Ramchandra Mission under Nasha Mukta Bharat Abhiyaan (NMBA) to reach out the maximum people in the society. Minister of Social Justice & Empowerment Dr Virendra Kumar,said that the collaboration with the Ramchandra Mission will go a long way to illuminate the lives of individuals and restrict them from moving towards the path of addiction and help in making a mentally, emotionally and physically strong society.

He also talked about various initiatives undertaken through the NMBA that have helped make this Abhiyaan a mass movement.

Kamlesh D Patel (Daaji), President, Ramchandra Mission stressed on the importance of a conducive familial and social environment that would help prevent as well as overcome substance use.

Through their 5000 centers and 16+ crore people connected with the Ramchandra Mission, Daaji affirmed the participation in the NMBA contributing towards a Nasha Mukta Bharat.

As per report of comprehensive National Survey on Extent and Pattern of Substance Use in India conducted by the Ministry through National Drug Dependence Treatment Centre (NDDTC), AIIMS, New Delhi, Alcohol is the most common psychoactive substance used by Indians followed by Cannabis and Opioids.

Contribute to Armed Forces Flag Day Fund, corporate sector told

PIONEER NEWS SERVICE ■
NEW DELHI

Defence Minister Rajnath Singh on Wednesday appealed to the corporate sector to contribute generously to the Armed Forces Flag Day Fund (AFFDF) and ensure the well-being of the brave soldiers who spend their lives safeguarding the sovereignty and integrity of the country.

He made this appeal here while addressing the corporate heads during the AFFDF Corporate Social Responsibility (CSR) Conclave organised by the Department of Ex-Servicemen Welfare, Ministry of Defence.

Expressing gratitude to the retired and serving Armed Forces personnel for their unmatched valour and sacrifice, Rajnath asserted that it is the collective responsibility of the entire nation to ensure the welfare of the soldiers and their families. He stated that the soldiers fulfill their duties in difficult circumstances and deal with challenges with courage and promptness.

The defence minister described the heads of businesses, industries and the corporate sector as wealth creators who contribute to the economy and ensure prosperity

and security of the nation. He urged the corporate sector to share the created wealth or profit with other people in the society, especially the Armed Forces personnel, beyond their tax paying obligations. He emphasised that voluntary contributions hold more importance than compulsory obligations. “When the tax money reaches the soldiers, it is like a legal obligation. But, it is not the same with voluntary contributions. A soldier will feel attached to even ₹5 given as voluntary contribution more than ₹100 given as tax,” he said.

On the occasion, Rajnath also

felicitated the prominent CSR contributors to the AFFDF, including State Bank of India, ICICI Bank Limited, Indus Towers Limited, General Insurance Corporation, BrahMos Aerospace Private Limited, ECGC Limited, Hindustan Petroleum Corporation Limited , LIC Golden Jubilee Foundation, Container Corporation of India Limited and Security Printing & Minting Corporation of India Limited.

A number of initiatives have been taken by the government for the welfare of the ex-servicemen. Recently, Medical Treatment Grant for the veterans/dependents was increased to ₹50,000 from Rs 30,000, Vocational Training Grant for Widows was enhanced to ₹50,000 from ₹20,000 and Serious Diseases Grant was raised to ₹1.50 lakh from 1.25 lakh, which is a continuous process.

During the Financial Year 2022-23, a grant of approximately ₹250 crore was distributed to more than 99,000 beneficiaries. Apart from this, institutional grants have also been given to Paraplegic Rehabilitation Centre, Kirkee and Mohali, Cheshire Home, Dehradun, Lucknow and Delhi and 36 War Memorial Hostels across the country.

ITBP chief given charge of CRPF also

PNS ■ NEW DELHI

Indo-Tibetan Border Police (ITBP) Director General (DG) Anish Dayal Singh has been given the “additional charge” of Central Reserve Police Force (CRPF) after the retirement of incumbent S L Thaosen on November 30, an official order said Wednesday.

A Union Home Ministry order said Singh, an IPS officer of 1988-batch from Manipur cadre, will hold the CRPF DG charge “till the appointment of a regular incumbent or until further orders, whichever is earlier.”

Thaosen, also from the 1988-batch of the IPS from Madhya Pradesh cadre, was appointed as CRPF chief in October last year.

Singh was appointed the Indo-Tibetan Border Police (ITBP) DG at the same time.

The CRPF is the country’s largest central armed police force (CAPF) with about 3.25 lakh personnel and it is deployed for rendering a variety of duties in the internal security domain of the country, including conducting anti-Naxal operations.

Technology solution for Geospatial domain

PIONEER NEWS SERVICE ■
NEW DELHI

India will soon have a Centre of Excellence to foster the Geospatial Innovation & Research and to cater to emerging technology solution requirements of the Geospatial domain in the country.

A tripartite MoU was signed in this regard between National Geospatial Programme- DST, National Institute of Geo-informatics Science & Technology (NIGST), Survey of India, and IIT Tirupati Navishk?r I-Hub Foundation on Wednesday to establish this Centre of Excellence-a Pilot.

The Geospatial Innovation & Research Centre of Excellence (CoE) as a pilot aims to cater for the emerging technology solution requirements of the Geospatial domain in

the country. The Centre would support and encourage innovative geospatial technology-based startups, industries, Public Sector Undertakings (PSUs) that have an application and impact in the core sectors of the economy.

Professor Abhay Karandikar, Secretary, DST highlighted that this is perhaps the first step in the direction of implementing some aspects of the National Geospatial Policy. “After liberalising the Geospatial Guidelines and bringing in the Policy, we are in the process of reforming the Survey of India. There is a plan to set up a geospatial data exchange. Incubators will also be set up to work both on developing the geospatial technology as well as support startups that can focus on applications,” he added.

Professor Karandikar pointed

out that geospatial data science is an emerging interdisciplinary field which includes geospatial engineering, computer science and information technology. He also added that setting up focused incubators and carrying out capacity building through dedicated CoE will

translate to implementation of the recommendations of the geospatial data policy. “Using data science and AI model, this whole concept of World Wide Web (WWW) may change in next 10 years and may centre around the geospatial platform, through which we can get both contextual and location-based information by combining AI and machine learning in linear fashion for future searches,” Prof Karandikar said.

Dr KN Satyanarayana, Director, IIT Tirupathi, briefed about the Technology Innovation Hub (TIH) developed under NM-ICPS and said that the TIH has four major activities – technology development, capacity building, creating startup ecosystem and international cooperation, focusing on these new areas.

Sensex jumps 727 pts on foreign fund inflows

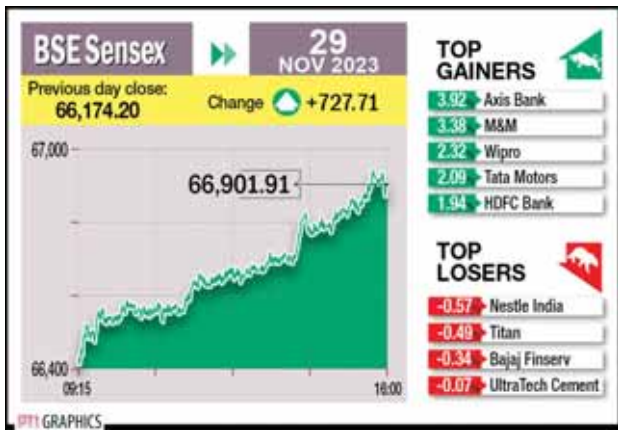

Mcap of BSE listed firms hits \$4-trn milestone

PTI ■ MUMBAI

Benchmark Sensex rallied 727 points and Nifty closed above the 20,000 mark on Wednesday driven by buying in heavyweight HDFC Bank, Axis Bank ICICI and TCS on expectations of more foreign fund inflows.

In a remarkable day for Indian equities, the combined market valuation of all listed companies on the BSE reached the USD 4-trillion milestone for the first time on Wednesday.

The 30-share BSE Sensex jumped 727.71 points or 1.10 per cent to settle at 66,901.91 with 26 of its components ending in the green and four in the red. The index started the day on a positive note and

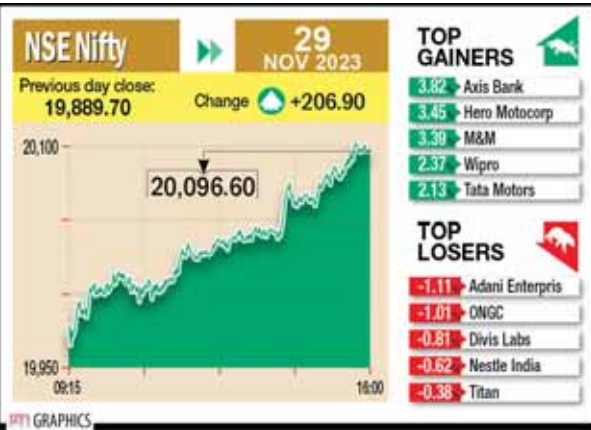

later zoomed 772.08 points or 1.16 per cent to a high of 66,946.28.

The broader Nifty climbed 206.90 points or 1.04 per cent to reclaim the 20,000- mark after a gap of over two months. It ended at 20,096.60.

Among the Sensex firms, Axis Bank rose the most by 3.92 per cent. Mahindra & Mahindra surged by 3.38 per cent, Wipro by 2.32 per cent, Tata Motors by 2.09 per cent, HDFC Bank by 1.94 per cent

and Tech Mahindra by 1.51 per cent. ICICI Bank, JSW Steel, Tata Consultancy Services, Infosys, HCL Technologies and Bharti Airtel were also among major gainers. Nestle, Titan, Bajaj Finserv and UltraTech Cement were the laggards.

The combined market valuation of all listed companies on BSE reached the USD 4-trillion milestone, mirroring an optimistic trend in equities. It took just 2.5 years to hit the

USD 4-trillion landmark after the market capitalisation of BSE listed companies touched the USD 3-trillion mark on May 24, 2021.

"The market saw incredible upward momentum today, Nifty surpassing the 20,000 mark, driven by strong listing gains of ongoing IPOs and dovish statements from US Fed officials, intensifying expectations for early rate cuts. This was demonstrated by the rise in mid & small caps and

drop in US bond yields and dollar index. "Ease in yield is attracting foreign funds to emerging markets," said Vinod Nair, Head of Research at Geojit Financial Services.

In the broader market, the BSE midcap gauge jumped 0.78 per cent and the smallcap index climbed 0.40 per cent.

Among the indices, bankex jumped 1.67 per cent, auto rallied 1.57 per cent, IT (1.33 per cent), financial services (1.28 per cent), teck (1.20 per cent),

oil & gas (0.99 per cent) and capital goods (0.89 per cent). Consumer durables and realty were the laggards.

Raising hopes of more foreign fund inflows, market reports stated that the US-based Federal Retirement Thrift Investment Board has announced plans to transition to a new MSCI Index which could lead to more than USD 3 billion of inflows into Indian equities. In Asian markets, Seoul, Tokyo, Shanghai and Hong Kong settled lower.

European markets were trading mostly with gains. The US markets ended marginally up on Tuesday.

Foreign Institutional Investors (FIIs) bought equities worth Rs 783.82 crore on Tuesday, according to exchange data. Global oil benchmark Brent crude climbed 0.54 per cent to USD 82.12 a barrel.

The BSE benchmark climbed 204.16 points or 0.31 per cent to settle at 66,174.20 on Tuesday. The Nifty gained 95 points or 0.48 per cent to 19,889.70.

Second quarter GDP numbers likely to be good: Eco Affairs Secy

PTI ■ NEW DELHI

Indian economy is showing momentum and the growth rate in the second quarter (July-September) is likely to be good, Economic Affairs Secretary Ajay Seth said on Wednesday.

The GDP numbers for the second quarter are scheduled to be released on Thursday. The economy grew at 7.8 per cent in the first quarter (April-June) of the current financial year.

"India economy showed good momentum in the second quarter. The second quarter numbers should be good," Seth told reporters on the sidelines of a national workshop on 'Leveraging private finance for urban infrastructure developments -- Learnings from G20 Infrastructure Working Group'.

He further said that the fiscal deficit target of 5.9 per cent for the current financial year was feasible despite addition-

al outgo towards food subsidy. "We are confident of meeting fiscal deficit target this year despite the government raising food subsidy for the next five years," Seth said.

The Budget 2023-24 proposes to bring down the fiscal deficit to 5.9 per cent of the GDP from 6.4 per cent in the previous financial year.

The government proposes to further bring down the fiscal deficit to less than 4.5 per cent of the GDP by 2025-26.

Birla Sun Life collects ₹800 cr from transport & logistics fund NFO

PTI ■ NEW DELHI

Aditya Birla Sun Life AMC Ltd on Wednesday said it has collected nearly Rs 800 crore through its transport and logistics scheme during the new fund offering (NFO) period.

The asset management company mobilised the amount from its thematic fund -- Aditya Birla Sun Life Transport and Logistics Fund -- during the NFO period from October 27 to November 10. The fund reopened for subscription on November 21.

The open-ended equity oriented thematic fund received a huge response from 53,777 investors and has garnered a total of Rs 798.89 crore, the company said in a statement.

"This fund is a unique offering that captures the growth potential of the transportation

and logistics sector, which is a key driver of the Indian economy. The fund aims to provide long-term capital appreciation by investing in companies that are well-positioned to benefit from the structural changes and emerging trends in the sector," A Balasubramanian, Managing Director and CEO at Aditya Birla Sun Life AMC, said. The company said that the transportation and logistics theme is vibrant and fast-growing and the theme has robust growth drivers on both the demand and supply side.

The transportation theme includes sectors such as automobiles and auto ancillary, while the logistics theme includes sectors like ports, warehousing/supply chain, e-commerce and allied sectors. These sectors common to both themes would be shipping, railways, infrastructure and airlines.

UltraTech Cement acquires cement grinding assets of Burnpur Cement for ₹169.79 crore

PTI ■ NEW DELHI

Aditya Birla group firm UltraTech Cement Ltd on Wednesday said it has acquired the cement grinding assets of Burnpur Cement Ltd in Jharkhand for Rs 169.79 crore.

The company has acquired

0.54 mtpa cement grinding assets of Burnpur Cement Ltd, located at Patratu in Jharkhand, UltraTech Cement said in a regulatory filing.

"The acquisition has been carried out at a consideration of Rs 169.79 crore in terms of the provisions of the Securitisation and

Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002 read with the Security Interest (Enforcement) Rules, 2002," it added. This investment marks the company's entry in Jharkhand, the filing said, adding the company's capacity in India now stands at 133

mtpa. Last year state-owned Punjab National Bank (PNB) had put up for sale the account of loss-making Burnpur Cement and invited bids from Asset Reconstruction Companies (ARCs) to recover loans outstanding of over Rs 50 crore.

Hiranandani says no IPO plans in 2024

PTI ■ MUMBAI

The Hiranandani Group does not have any plans for an Initial Public Offering in 2024, and may look at hitting the capital markets in 2025, a top company official said on Wednesday.

Niranjan Hiranandani, the Founder and Managing Director of the city-based group, said internal accruals are sufficient to take care of business requirements at present and all projects being undertaken do not require any funding support.

"I have no plans at present... (there is) no need for capital today. But let us see. I haven't decided anything in that direction, but never (say) no. Not (in) 2024, may be 2025," Hiranandani told PTI, replying to a specific query on the company's IPO plans.

A slew of its peers from the city, including Rustomjee and Lodha Group (Macrotech Developers), have listed over the last few years.

The group announced an expansion into the consultan-

cy services space on Wednesday, wherein it will offer a slew of services, including liasoning, design and marketing, which spread out over the entire lifespan of a realty project, to clients.

Hiranandani said the idea is to offer the services on an "à la carte" basis, wherein the client can choose the kind of help the entity needs.

The group will charge 12-20 per cent of the cost as its fees, depending on the complexity of work it does, he said. The newly launched service christened 'Eleva' will work across new developments, brownfield expansions, slum rehabilitation and building redevelopment, Hiranandani said, adding that 85 per cent of the people working in the vertical will be its existing staff, while the rest will be junior-level staff who will be hired.

He exuded confidence of breaking even in the new business in a year.

He said poor execution of projects in Mumbai is a real issue, and pointed out that

over 500 projects are stuck due to some shortcoming or the other. The group will be selective in the project it chooses to work with, Hiranandani said, adding that

it will not work with large-scale projects like the Adani Group's Dharavi project and restrict itself to smaller projects. He said Dharavi accounts for only 10 per cent

of the slums in the city, while the 90 per cent will continue to exist even if the Adani-led projects fructify.

It is possible to do away with all the slum structures in the city in 5-6 years, Hiranandani said, adding that he is preparing a plan on the same, which will be submitted to the PM under the aegis of an industry lobby grouping.

Asked about his son Darshan virtually admitting to bribing lawmaker Mohua Moitra to ask Parliamentary questions, Hiranandani refused to comment. Hiranandani said interest rate cut and a new version of Prime Minister's Awas Yojana, which does away with the Rs 45 lakh ceiling for a property to classify as affordable, can help prop-up sagging sales of affordable housing.

Hiranandani said in his career spanning over four decades, he has never seen a decline in sales of low-cost housing. However, he added that mid-range, premium, and luxury segments have seen impressive growth in the recent past.

India, S Korea in Asia Pacific to see heightened real estate investment activities: Colliers

PTI ■ NEW DELHI

India and South Korea in the Asia Pacific region are expected to witness heightened investment activities across various real estate asset classes as global investors look to tap the growth potential in these two key markets, according to Colliers India.

Real estate consultant Colliers released its 2024 Global Investor Outlook on Wednesday along with Asia Pacific highlights.

The consultant expects "high activity in more growth-oriented destinations such as India and South Korea, given the return of investor confidence and the opportunities they offer." The report highlighted that India is expected to remain one of the world's fastest-growing major economies, led by private consumption and capital formation.

Institutional investment in real estate soared 27 per cent year-on-year in the first nine months of 2023, with a noticeable surge in deals targeting industrial and residential, both sectors closely connected to the country's robust growth trajectory.

Institutional investors are specifically capitalising on India's data centre growth story, sparked by the stable Govt clears Terms of Reference of

16th Finance Commission New Delhi, Nov 29 (PTI) The government has cleared the Terms of Reference of the 16th Finance Commission to suggest the ratio for devolution of taxes between the Centre and states and also review financing disaster management initiatives, for five years beginning April 1, 2026.

The commission would submit its report for the five-year period (2026-27 to 2030-31) to the President by October 31, 2025, an official statement said.

Besides tax devolution and states' revenue augmentation

measures, the commission would review the present arrangements for financing disaster management initiatives with reference to the funds constituted under the Disaster Management Act, 2005.

"The Union Cabinet chaired by Prime Minister Narendra Modi has approved the Terms of Reference for the Sixteenth Finance Commission. The 16th Finance Commission's recommendations, upon acceptance by the government, would cover a period of five years commencing April 1, 2026," the statement said.

REL board has no power to reject open offer, says Burman family

PTI ■ NEW DELHI

Burman family, which is blocked in a battle with the management of Religare Enterprises Ltd (REL) for takeover of the company said that the board of the NBFC does not have the "power or authority" to reject their open offer to pick up controlling stake.

"It only has the power to recommend the Open Offer to the shareholders," the Burman family spokesperson said in a statement. It is a separate matter, that the shareholders have already seen the governance lapses in REL and whether the directors can be said to be discharging their duties correctly, it said, adding, it is for the shareholders to decide whether to tender the shares in the open offer, or stay invested.

"In fact, the board issued a press release dated September 25, 2023 welcoming our investment in REL. The Open Offer price is calculated as per the formula provided in the SEBI Takeover Regulations. As per this formula, the calculation comes to around Rs 221," it said.

The open offer price of Rs 235, is at a premium to that price.

"Keeping the overall share-

holder interest in mind, we will move towards closing the transaction expeditiously working with all the regulators. Given our credentials, an overwhelming majority of the shareholders are supportive of the proposed transaction and we remain confident that under our guidance, REL's performance would see significant uptrends," it said.

The statement comes after Hamid Ahmed, an independent director at Religare Enterprises and CEO of Hamdard Laboratories, has criticised the timing of the Burman family's open offer to acquire more shares in the financial services company.

Ahmed emphasised that the board has unanimously rejected the offer, citing its inferior merits and a proposal to replace both board members and management.

Entities controlled by the Burman family -- promoters of FMCG major Dabur -- have written to the Securities and Exchange Board of India (Sebi) and stock exchanges that REL Chairperson Rashmi Saluja sold a portion of her personal holdings in Religare Enterprises Ltd a day after meeting a representative of the Burmans on September 20.

Govt clears terms of reference of 16th Finance Commission

PTI ■ NEW DELHI

The government has cleared the Terms of Reference of the 16th Finance Commission to suggest the ratio for devolution of taxes between the Centre and states and also review financing disaster management initiatives, for five years beginning April 1, 2026. The commission would submit its report for the five-year period (2026-27 to 2030-31) to the President by October 31, 2025, an official statement said. Besides tax devolution and states' revenue augmentation measures, the commission would review the present arrangements for financing disaster management initiatives with reference to the

funds constituted under the Disaster Management Act, 2005.

The Union Cabinet chaired by Prime Minister Narendra Modi has approved the Terms of Reference for the Sixteenth Finance Commission. The 16th Finance Commission's recommendations, upon acceptance by the government, would cover a period of five years commencing April 1, 2026," the statement said. The Cabinet meeting was held on Tuesday.

Names of the chairperson and members of 16th Finance Commission would be finalised soon, an official said.

The Terms of Reference (ToR) for 16th Finance Commission will be notified in due course.

Malabar Gold launches 335th global store

New Delhi: Malabar Gold & Diamonds has made history as the first Indian jewellery retailer to open in Canada with their new store in Mississauga, at Heartland Town Centre within the Greater Toronto Area. With this, the brand marks its extensive brand presence, with 335 stores spread across the UAE, Qatar, Kuwait, Oman,

KSA, Bahrain, Singapore, Malaysia, and India, the UK, Canada, and the USA. "The opening of our first store in Canada brings me immense pride and joy, marking a significant milestone for us as the first Indian international jewellery brand to begin operations in Canada," said Malabar Group Chairman MP Ahammed.

Govt invites fresh bids from asset valuers of IDBI Bank

PTI ■ NEW DELHI

The government on Wednesday issued a fresh RFP for the appointment of asset valuer for strategic sale-bidder IDBI Bank.

The last date for submitting bids by asset valuer is January 5, the Department of Investment and Public Asset Management (DIPAM) said while floating the Request For Proposal (RFP).

The DIPAM had last week cancelled the bid process for the appointment of an asset valuer for IDBI Bank on low bidder interest.

A fresh RFP would be invited soon after a review of some of the bid criteria to enable better interest from bidders, an official had said.

The asset valuer has to be registered either with the Insolvency and Bankruptcy Board of India, or Sebi, or the Institute of Chartered Accountants of India (ICAI).

The bidder is required to have an annual turnover of over Rs 1 crore in the previous three fiscal years.

BUSINESS BRIEF

NFL LEADS AGRI DRONE DEMONSTRATIONS DURING VIKSIT BHARAT YATRA

Punjab: NFL is undertaking number of agriculture drone demonstrations of Nano and Water Soluble Fertilizers in Punjab for farmers during the ongoing Viksit Bharat Sankalp Yatra. Recently, Secretary (Fertilizers) Rajat Kumar Mishra participated in one of the Drone Demonstrations of Nano Urea Spray on crops in Village Manakpur Kallar in presence of CMD NFL, U Saravanan.

ECOZEN HELPS FARMERS WITH SMART SOLAR PUMP CONTROLLERS

Haryana: Farmers in Haryana now getting India's first 4G-enabled smart solar-powered pump controller, known as the Ecotron, available through Ecozen Solutions under PM KUSUM Yojana with a 75 per cent subsidy. A key player in cleantech, Ecozen specialises in developing climate-smart technology solutions that help farmers improve in farm yield, reduce waste and increase farm earnings.

Mediators look to extend truce in Gaza on its final day

AP ■ RAFAH (GAZA STRIP)

International mediators worked on Wednesday to extend the truce in Gaza, hoping the territory's Hamas rulers will keep freeing hostages in return for the release of Palestinian prisoners and further respite from Israel's air and ground offensive. It will otherwise expire within a day. Israel has welcomed the release of dozens of hostages in recent days and says it will maintain the truce if Hamas keeps freeing captives. But its other major goal — the annihilation of the armed group that has ruled Gaza for 16 years — could be slipping out of reach.

Weeks of heavy aerial bombardment and a ground invasion have demolished vast swathes of northern Gaza and killed thousands of Palestinians. But it seems to have had little effect on Hamas' rule, evidenced by its ability to conduct complex negotiations, enforce the cease-fire among other armed groups, and orchestrate the smooth release of hostages.

Hamas' leader in Gaza, Yehya Sinwar, and other commanders have likely relocated to the south, along with hundreds of thousands of displaced Palestinians who have packed into overflowing shelters.

An Israeli ground invasion of the south could eventually ferret out Hamas' leaders and demolish the rest of its militant infrastructure, including kilometres of tunnels, but at a cost in Palestinian lives and destruction that the United States, Israel's main ally, seems unwilling to bear.

The Biden administration has told Israel that if it resumes the offensive it must operate

with far greater precision, especially in the south. That approach is unlikely to bring Hamas to its knees any time soon, and international pressure for a lasting cease-fire is already mounting.

"How far both sides will be prepared to go in trading hostages and prisoners for the pause is about to be tested, but the pressures and incentives for both to stick with it are at the moment stronger than the incentives to go back to war," Martin Indyk, a former US ambassador to Israel, wrote on X.

DIPLOMACY RAMPS UP

CIA director William Burns and David Barnea, who heads Israel's Mossad spy agency, were in Qatar on Tuesday to discuss extending the cease-fire and releasing more hostages. Qatar has played a key role in mediating with Hamas, hosted the talks, which also included Egyptian mediators.

US Secretary of State Antony Blinken was set to visit the region this week, and was also expected to push for a longer truce.

A joint statement from foreign ministers of the G7 group of wealthy democracies, which includes close allies of Israel, called for the "further extension of the pause" and for "protecting civilians and compliance with international law."

The war began with Hamas' October 7 attack into southern Israel, in which it killed over 1,200 people, mostly civilians. The militants dragged some 240 people back into Gaza, including babies, children, women, soldiers, older adults and Thai farm labourers. Israel responded with a devastating air campaign

Palestinians cook bread by their destroyed homes in Kuza'a Gaza Strip during the temporary ceasefire between Hamas and Israel on Wednesday.

AP/PTI

across Gaza and a ground invasion in the north. More than 13,300 Palestinians have been killed, roughly two-thirds of them women and minors, according to the Health Ministry in Hamas-ruled Gaza, which does not differentiate between civilians and combatants.

Israel says 77 of its soldiers have been killed in the ground offensive, and it claims to have killed thousands of militants, without providing evidence.

The plight of the captives, and the lingering shock from the October 7 attack, has galvanised Israeli support for the war. But Prime Minister Benjamin Netanyahu is also under intense pressure to bring the hostages home, and could

find it difficult to resume the offensive if there's a prospect for more releases.

Hamas is still believed to be holding around 150 hostages — enough to extend the cease-fire for another two weeks under the current arrangement of releasing 10 each day. But it is expected to drive a harder bargain for the release of Israeli soldiers, likely demanding the release of Palestinian prisoners convicted of deadly attacks.

TWELVE MORE HOSTAGES FREED

In the latest swap, nine women and a teenager, as well as two Thai nationals, were freed on Tuesday and returned to Israel. The 17-year-old girl

could be seen walking alongside Hamas militants to a waiting Red Cross Jeep with her small, white-haired dog named Bella. Soon after, Israel released 30 Palestinian prisoners.

After being extended by one day, the truce is due to end after one more exchange on Wednesday night.

A total of 60 Israelis have been freed as part of the truce, most of whom appear physically well but shaken. Another 21 hostages — 19 Thais, one Filipino and one Russian-Israeli — have been released in separate negotiations since the truce began. Before the truce, Hamas released four hostages, and the Israeli army rescued one. Two other hostages were found dead in Gaza. The latest swap

brought to 180 the number of Palestinian women and teenagers freed from Israeli prisons.

Most have been teenagers accused of throwing stones and firebombs during confrontations with Israeli forces.

Several were women convicted by Israeli military courts of attempting deadly attacks. Palestinians have celebrated the release of people they see as having resisted Israel's decades-long military occupation of lands they want for a future state.

TENSE CALM IN GAZA

The cease-fire has brought calm to Gaza and increased deliveries of humanitarian aid, allowing people to stock up on food, water and fuel after weeks of severe shortages. Some have been able to sift through the rubble of their homes and bury relatives, but Israel has barred people from returning to the north.

On Tuesday, Israel and Hamas blamed each other for a brief exchange of fire in northern Gaza, but it did not appear to endanger the truce. Palestinian militants have halted rocket fire into Israel, as has Lebanon's Hezbollah, which had repeatedly traded fire with Israeli forces along the northern border since the start of the war. Israel's bombardment and ground offensive have displaced more than 1.8 million people inside Gaza, nearly 80 per cent of the territory's population, and most have sought refuge in the south, according to the UN. The cease-fire has allowed increased aid delivered by 160 to 200 trucks a day into Gaza, but that is less than half what Gaza was importing before the fighting, even as needs have soared.

Blinken heads again to Middle East

Brussels: US Secretary of State Antony Blinken says the Biden administration would like to see a new extension of the cease-fire agreement in Israel's war with Hamas after the current one expires to secure the release of additional hostages held by the militant group and to ramp up humanitarian aid deliveries to Gaza.

As he prepared to make his third visit to the Middle East since the war began with Hamas' Oct. 7 attacks in Israel, Blinken said Wednesday that in addition to discussing short-term logistical and operational planning, the Biden administration believes it is imperative to discuss ideas about the future governance of Gaza if Israel achieves its stated goal of eradicating Hamas.

Israel and Arab nations have resisted such discussions about future governance, with Israeli officials concentrating on the war and Arab leaders insisting the immediate priority must be ending the fighting that has killed thousands of Palestinian civilians.

The extension of the current deal expires later Wednesday.

"Looking at the next couple of days, we'll be focused on doing what we can to extend the pause so we can continue to get more hostages out and more humanitarian assistance in," Blinken told reporters in Brussels, where he was attending a NATO foreign ministers meeting. "And we'll discuss with Israel how it can achieve its objective of ensuring that the terrorist attacks of Oct. 7 never happen again, while sustaining and increasing human-

itarian assistance and minimizing further suffering of Palestinian civilians."

He added before leaving Brussels for Israel and the West Bank: "Everyone's focused on the day of, on what's happening in Gaza right now, but we also need to be focused at the same time — and we are in conversations with many other countries — on what I call the day after" and the day after the day after: "I mean, what happens in Gaza once the campaign is over?"

Prime Minister Benjamin Netanyahu has made clear that Israeli forces will eventually restart military operations after the conclusion of the current, temporary cease-fire that has allowed for an exchange of hostages taken by Hamas for Palestinian prisoners held by Israel.

US President Joe Biden has said he would like to see the pause continue for as long as feasible. Biden and Blinken have also stressed the importance of planning for post-conflict Gaza as well as the need to resume negotiations for the eventual creation of an independent Palestinian state. Netanyahu is opposed to a Palestinian state and has said he is the only Israeli leader who can prevent one from being formed.

"We believe that that is the only path to enduring peace, to enduring security, to the preservation of Israel as a strong secure, democratic Jewish state and Palestinians having their legitimate aspirations for a state and self determination," Blinken said. **AP**

US military aircraft with 6 aboard crashes off southern Japan

AP ■ TOKYO

A crew member who was recovered from the ocean after a US military Osprey aircraft carrying six people crashed on Wednesday off southern Japan has been pronounced dead, coast guard officials said. The cause of the crash and the status of the five others on board were not immediately known, coast guard spokesperson Kazuo Ogawa said. Initial reports said the aircraft was carrying eight people, but the US military later revised the number to six, he said. The coast guard received an emergency call from a fishing boat near the crash site off Yakushima, an island south of

Kagoshima on the southern main island of Kyushu, he said.

Coast guard aircraft and patrol boats found one person, who was later pronounced dead at a nearby hospital, and gray-colored debris believed to be from the aircraft, Ogawa said. The victim was only identified as a male. They were found about 1 kilometer (0.6 mile) off the eastern coast of Yakushima. An empty inflatable life raft was also found in the area.

The Osprey is a hybrid aircraft that takes off and lands like a helicopter, but during flight can rotate its propellers forward and cruise much faster like an airplane.

Versions of the aircraft are flown by the US Marine Corps,

Navy and Air Force.

Chief Cabinet Secretary Hirokazu Matsuno said the Osprey disappeared from radar at midday, a few minutes before the coast guard received the emergency call.

The aircraft requested an emergency landing at the Yakushima airport about five minutes before it was lost from radar, NHK public television and other media reported.

NHK quoted a Yakushima resident as saying he saw the aircraft turned upside down, with fire coming from one of its engines, and then an explosion before it fell to the sea.

Prime Minister Fumio Kishida said he planned to seek a further explanation from

the US military, but declined to say whether he would seek a temporary suspension of Osprey operations in Japan.

Ospreys have had a number of accidents in the past, including in Japan, where they are deployed at both US and Japanese military bases.

In Okinawa, where about half of the 50,000 American troops in Japan are based, Gov. Denny Tamaki told reporters Wednesday that he will ask the US military to suspend all Osprey flights in Japan.

Ogawa said the aircraft had departed from the US Marine Corps Air Station Iwakuni in Yamaguchi prefecture and crashed on its way to Kadena Air Base on Okinawa.

COP28 leader denies report that UAE wanted to seek oil deals in summit

AP ■ DUBAI

The Emirati president-designate for the upcoming United Nations COP28 climate talks forcefully denied Wednesday a report alleging his nation planned to use the summit to strike oil and gas deals, a day before the summit was due to begin.

Sultan al-Jaber, who also leads the massive state-run Abu Dhabi National Oil Co., called the allegations from a BBC report "an attempt to undermine the work of the COP28 presidency" before the talks begin Thursday. The report cited what it described as "leaked briefing documents" the broadcaster said showed the Emirates planned to discuss fossil fuel deals with 15 nations. "These allegations are false, not true, incorrect and not

accurate," al-Jaber told a small group of journalists gathered for a news conference that also was aired live. "I promise you never ever did I see these talking points that they refer to or that I ever even used such talking points in my discussions."

He added: "So please for once, respect who we are, respect what we have achieved over the years and respect the fact that we have been clear open and clean and honest and transparent on how we want to conduct this COP process."

The BBC did not immediately respond to a request for comment. Adnan Amin, the conference's chief executive and a top lieutenant of al-Jaber, said he wasn't concerned about the possible fallout of the report and said he believed Emirati officials

were determined to make progress toward limiting climate change.

"I think they're focused on delivering a transformational COP. ... They're focused on creating a platform for everybody to have the ability to discuss ambitious climate action," Amin, a veteran U.N. official and longtime proponent of renewable energy, told The Associated Press after hosting a pre-conference meeting with delegation chiefs. Immediately after al-Jaber's remarks, a faked news release sent to The Associated Press described al-Jaber as having agreed to resign as CEO of ADNOC. COP28 organizers with the UAE delegation later confirmed it was false and al-Jaber would continue in his role.

Nepal first country in South Asia to register same-sex marriage officially

Kathmandu (PTI): Five months after the Supreme Court legalised it, Nepal on Wednesday formally registered the first case of same-sex marriage, making it the first South Asian country to do so.

Trans-woman Maya Gurung, 35 and Surendra Pandey, 27, a gay, got legally married and their marriage was registered at Dordi Rural Municipality of Lamjung district in Western Nepal, according to Sanjib Gurung (Pinky), president of Blue Diamond Society, an organization working for the rights and welfare of the sexual minorities in Nepal.

Way back in 2007, Nepal's Supreme Court had allowed same-sex marriage. Even the Constitution of Nepal, adopted in 2015, explicitly states that there can be no discrimination on the basis of sexual orientation.

On June 27, 2023, the Supreme Court issued an interim order to legalise same-sex marriage in Nepal in a writ petition filed by multiple people, including Gurung. But despite the historic order to temporarily register same-sex marriage, Kathmandu District Court four months ago rejected the move citing a lack of necessary laws.

Surendra Pandey and Maya's marriage application was rejected at that time.

"It's a great pleasure to learn about this, it is a great achievement for us, the third gender community of Nepal," Pinky told PTI. "This is the first case not only in Nepal but also in the whole of South Asia, and we welcome the decision."

Trump embraces Jan 6 rioters

AP ■ WASHINGTON

Donald Trump has embraced the rioters who attacked the US Capitol on January 6, 2021 as patriots, vowed to pardon a large portion of them if he wins a second term and even collaborated on a song with a group of jailed defendants.

In his election interference case in Washington, his lawyers are taking a different tack. Despite losing a bid to strike from the indictment references to that day's violence, defence attorneys have made clear their strategy involves distancing the former president from the horde of rioters, whom they describe as "independent actors at the Capitol." At the same time, special counsel Jack Smith's team has

signalled it will make the case that Trump is responsible for the chaos that unfolded, and point to Trump's continued support of the January 6 defendants to help establish his criminal intent. The competing arguments highlight the extent to which the riot serves as an inescapable backdrop in a landmark trial set to begin on March 4 in a courthouse just blocks away from the Capitol. It also reflects a point of separation between Trump and his legal team in the case accusing the front-runner for the Republican presidential nomination of conspiring to overturn his 2020 election loss. While Trump's glorification of January 6 defendants may boost him politically as he vies to retake the White House in 2024, his lawyers'

approach lays bare a concern that arguments linking him to the rioters could harm him in front of a jury. Though Trump is not charged with inciting the riot, any success he hopes to have at trial may turn in part on his defence team's ability to neutralise, or at least minimise, the ghoulish images of the violence that prosecutors cite as a natural extension of the former president's repeated lies about a stolen election.

Much may depend as well on the evidence permitted by US District Judge Tanya Chutkan. Trump's lawyers have signalled they will try to block prosecutors from presenting at trial evidence related to the actions of the rioters, who sent lawmakers running into hiding.

'US work visa renewal programme launch in December, Indians to benefit most'

PTI ■ WASHINGTON

In a move that will benefit a significantly large number of Indian technology professionals, the US is set to begin a pilot programme for domestic renewal of certain categories of H-1B visas in December.

The H-1B visa is a non-immigrant visa that allows US companies to employ foreign workers in speciality occupations that require theoretical or technical expertise.

Technology companies depend on it to hire tens of thousands of employees each year from countries like India and

China. The pilot programme which will be limited to 20,000 participants initially comes months after the White House announced the plan during the state visit of Prime Minister Narendra Modi in June.

In an interview with PTI, Julie Stuft, Deputy Assistant Secretary of State for Visa Services, said, "In India, the demand (for US visas) is still very high. The wait time of six, eight and 12 months is not what we need and (it is) not indicative of how we view India." "We want to make sure that Indian travellers can get appointments as quickly as possible. One way we are doing that

is through the domestic visa renewal programme, which is focused very much on India. We are piloting that," she said.

Over a period of three months, beginning in December, the State Department will be issuing 20,000 visas to foreign nationals who are already inside the country. "We will do 20,000 in the first group. The vast majority of those will be Indian nationals living in the US and we will expand as it goes on."

"Because Indians are the largest skilled group of workers in the United States, we hope that India will benefit quite a bit from this programme and it will

prevent people from having to travel back to India or anywhere for a visa appointment to get their visa renewed. It will allow our missions in India to concentrate on new applicants." Stuft said. While the State Department has been working on launching such a programme on a pilot basis for quite some time now, it was formally announced during Modi's visit.

The plan, which was mentioned in the joint statement and announced by Modi during his address to the Indian diaspora at the Ronald Reagan Centre, has been cheered and welcomed by the Indian community in the US.

Ailing Pope Francis says, he's not well

AP ■ VATICAN CITY

Pope Francis presided at his weekly audience with the public at the Vatican, but he said that he's still unwell and asked an aide to read his remarks for him on Wednesday, a day after cancelling an overseas trip. Francis, who will turn 87 on December 17 and had part of one lung removed as a young man, coughed near the end of the hourlong audience in a Vatican auditorium as he made some final comments, then stood up from his chair on the stage to give his blessing. With a soft voice, barely above a whisper, Francis told the public that "since I am not well," his reading of his speech wouldn't sound "pretty." He then hand-

ed the printed speech to the aide.

But Francis did speak at the end of the audience, voicing his contentment over the truce in fighting between Israel and Hamas, and saying he hopes it continues "so that all the hostages are released and access necessary to permit humanitarian aid" to reach Gaza is provided. "They lack bread, water,

the people are suffering," Francis said. On Tuesday, the Vatican announced that doctors had asked the pope, who has a lung inflammation causing breathing problems, to skip a three-day trip to a UN climate conference, known as COP28, in Dubai.

The trip would have begun on Friday and have seen the pontiff return to Rome on Sunday. The Holy See's announcement of the cancelled trip also said that his medical condition had improved, but noted that the pope had the flu and "inflammation of the respiratory airways."

The pontiff, who has made caring for the environment a priority of his papacy, wants in some way to participate in the discussions in the United Arab

Emirates, according to the Holy See. It was unclear if Francis might read his address to the climate conference by videoconference or take part in some other form.

The Vatican said the pope had acquiesced to the doctors' request "with great regret."

Toward the end of Wednesday's audience, circus performers came on stage to entertain the pope with an acrobatic act. Francis looked amused as he watched the performers, including acrobats and a juggler.

He posed with the group for a photo. "I want to say thanks for this moment of joy," Francis said, adding that the circus expresses the human dimension of "simple joy," and asking the audience to applaud.

Jetliner, without fossil fuel, makes trans-Atlantic crossing

AP ■ LONDON

The first commercial airliner to cross the Atlantic on a purely high-fat, low-emissions fuel flew on Tuesday from London to New York in a step toward achieving what supporters called "jet zero."

The Virgin Atlantic Boeing 787 flight was powered without using fossil fuels, relying on so-called sustainable aviation fuel made up largely of tallow and other waste fats. "The world will always assume something can't be done, until you do it," said Virgin founder Richard Branson, who was aboard the flight with others including corporate and government officials, engineers and journalists. The UK Transport Department, which provided 1

million pounds (USD 1.27 million) to plan and operate the flight, called the test a "huge step towards jet zero" to make air travel more environmentally friendly, though large hurdles remain in making the fuel widely available.

While governments have

long talked about decarbonizing air travel, the transition has been moving at the pace of a dirigible.

Sustainable aviation fuel, which reduces greenhouse gas emissions by about 70 per cent, is the best near-term way for the international aviation

industry to achieve its net zero target by 2050, the US Energy Department said, though it called the goal aspirational.

The US Government Accountability Office said that while domestic production of the fuel had jumped from about 2 million gallons in 2016 to 15.8 million gallons in 2022, it accounted for less than 0.1 per cent of the jet fuel used by major US airlines. It was also a drop in the bucket compared to the goal of producing 1 billion gallons a year set in 2018 by the Federal Aviation Administration. The White House, meanwhile, set a goal two years ago to produce 3 billion gallons of sustainable aviation fuel per year by 2030 and 100 per cent of domestic commercial jet fuel by 2050.

Hooda, Kiran win at Syed Modi International

PTI ■ LUCKNOW

India's Kidambi Srikanth bowed out with a straight-game loss in the opening round but young Unnati Hooda shocked compatriot Aakarshi Kashyap to make it to the second round of the Syed Modi International badminton tournament here on Wednesday.

Former world no. 1 Srikanth, a 2021 World championships silver medallist, lost 21-23 8-21 to Korea's Chia Hao Lee, continuing his dismal run in international circuit this season.

The 16-year-old Unnati, who is touted as one of the finest talents in women's singles, rallied her way to a stunning 15-21 21-19 21-18 win over Kashyap in a 77-minute Round of 32 clash of the BWF Super 300 tournament. The young shuttler from Rohtak will next face Japan's former world champion Nozomi Okuhara, who prevailed 18-21 21-17 21-10 over another Indian Malvika Bansod in another match.

Anupama Upadhyaya, Ashmita Chaliha also progressed in the women's singles. While Anupama defeated

Amalie Schulz of Denmark 14-21 21-15 21-9, Ashmita got rid of Polina Buhrova of Ukraine 21-15 21-15 in another match.

In men's singles, Orleans Masters winner Priyanshu Rajawat, Denmark Masters winner Kiran George and Sathish Kumar Karunakaran entered the second round with fine victories in men's singles competition.

Priyanshu beat Kazakhstan's Dmitry Panarin 21-17 21-19, while Kiran saw off Chirag Sen -- Lakshya's brother -- 21-16 14-21 21-13 and Sathish got past Chinese Taipei's Huang Yu Kai. Priyanshu will face Sathish in an all-Indian clash, while Kiran meets Chia.

Sameer Verma, however, went down fighting 9-21 21-17 17-21 to Wang Tzu Wei of Chinese Taipei.

In doubles, Ashwini Ponnappa and Tanisha Crasto notched up a 21-8 21-9 win over compatriot Samridhi Singh and Sonali Singh in the first round.

They will face another all-Indian pair -- Rutaparna Panda and Swetaparna Panda -- in the round of 16.

Tiger gets motivation from Nadal

PTI ■ NASSAU (BAHAMAS)

Golf great Tiger Woods is making a much-awaited comeback with the Hero World Challenge this week and he is both curious and excited to see how his ageing and injury battered body could tackle the task.

The 15-time major winner will be teeing off for the first time since withdrawing from the Masters after the first two rounds in April.

The American had a sub-talar fusion surgery on his right ankle two weeks after his withdrawal to deal with the arthritis caused by injuries suffered in a major car accident in 2021.

The 47-year-old, who has been playing professional golf for more than 25 years, still loves to compete and has arrived at Albany with an aim to win the tournament he hosts.

"I love competing. I love playing. I miss being out here with the guys ... And the overall banter," Woods said at the media interaction while sitting alongside Hero MotoCorp executive chairman Pawan Munjal.

"What drives me is that I love to compete. There will come a point in time, I haven't come around to it fully yet, where I won't be able to win again ... When it comes, I will walk away," he said.

When asked if he can win again, Woods said: "absolutely."

Woods has chosen this tournament as his comeback event for the third time, considering it acts as a springboard for the following PGA Tour season. He is targeting competing in one tournament a month.

On walking the course over four days, Woods sounded confident of lasting the distance.

"I'm not concerned at all about walking it. As I said, I don't have any of the ankle pain that I had with the hardware that's been placed in my foot, that's all gone."

"The other parts of my body, my knee hurts, my back. The forces go somewhere else. It's just like when I had my back fused, the forces have to go somewhere."

"So, it's up the chain. As I said, I'm just as curious as all

of you with what's going to happen. I have not done this in a while," said the sporting royalty.

Woods was also expectedly asked about the proposed merger between PGA Tour and Saudi-backed Liv Golf, the framework for which was announced in June.

As a new member on the PGA Tour Policy Board, Woods' opinion on the subject is of even more significance.

He is frustrated at the slowness of the process but was optimistic that the December 31 deadline could be met.

"I'm pleased at the process and how it's evolved. I am also frustrated by some of the slowness and the governance change that we want to have happen. "And December 31st is coming up very quickly, so there's the timetable there that we would like to implement some of these changes that have not taken place."

"The guys, all the player directors have spent so many hours and worked tirelessly hours to make sure that we have the best deal for all the players that are involved, the entire PGA Tour," said Woods, who was not pleased at all about the players not being consulted before the proposed merger announcement.

Nadal is extraordinary. Tennis superstar and his friend Rafael Nadal has visited the Albany Golf Course in the past to watch Woods play.

Nadal too is on a comeback trail and Woods can only get an extra dose of motivation seeing his friend's steely resolve.

"Well, I think what Rafa, what he's done is extraordinary. I mean, he won the Australian Open on a broken foot. The guy's beyond tough and beyond competitive."

"He knows that Father Time is here. Every athlete faces it. Although some sports it happens faster than others, and unfortunately just like every sport, you get aged out."

"I don't want to see him go. I never wanted to see Federer go, but that's what happened. We should all enjoy watching him compete and watching him play and what he's meant to the game, what he's meant to all of us, just to see the passion of how he plays and why he plays."

Manish overcomes top seed Orlov

PTI ■ KALABURAGI (KARNATAKA)

Manish Sureshkumar scripted the first upset victory of the ITF Kalaburagi Open when he ousted the top seed Vladyslav Orlov in the first round of the USD 25,000 prize money event, here on Wednesday.

The 24-year-old played amazing shots to take the first set 6-3 and was leading 2-0 before his Ukrainian rival threw in the towel citing a shoulder injury, which seemed more out of frustration than being in pain.

Qualifier Rishi Reddy become the second player from Karnataka to enter the last 16 stage as he battled fatigue and won against Parth Aggarwal 6-4, 7-5. Meanwhile, the seeded players sailed into the pre-quarterfinals without breaking much sweat.

The fourth seeded Siddharth Rawat - the highest ranked Indian left in the fray - overcame Taisei Ichikawa from Japan 6-3, 6-4 while fifth seed Ramkumar Ramanathan, who is just back from lifting the ITF 25K title in Mumbai for his second win in as many months, blanked qualifier Ajay Malik 6-0, 6-0 in just 40 minutes.

Sixth seed Rishab Agarwal faced some resistance from wild card entrant Jagmeet Singh before overcoming 6-4, 3-6, 6-4. The top seeded pair of Purav Raja and Ramkumar were knocked out of the doubles competition by the duo of Sai Kartek Reddy Ganta and Kabir Hans, who won in straight sets 7-5, 6-3 to enter the quarterfinals.

This was the fifth time that the 24-year-old Manish and Orlov were meeting, with each having won twice. The player from Chennai raced to a 4-0 lead courtesy two breaks in the second and fourth.

However, the visitor, who was once ranked as low as 45th on the ITF rankings, showed signs of recovery by breaking Manish's serve in the fifth game and held his serve to reduce the margin.

Both the players gave a fine example of themselves, especially Manish, who, on many occasions, foiled his opponent's attempt to attack the net which irritated Orlov, who lost his cool and his serve in the eighth game and eventually lost the first set 3-6.

In the second set, the Indian broke his opponent's serve in very first game and pocketed the second after which Orlov quit the match.

"It's a great start, beating the top seed. I knew his game as we have played before. I grew in confidence during the first few games. My aim was to keep the ball in the court and I managed to do it," said Manish.

Ganemat, Anantjeet win maiden national titles

PTI ■ NEW DELHI

Ganemat Sekhon and Anantjeet Singh Naruka, arguably India's number one women's and men's skeet shooters at present, added another feather to their cap by winning maiden individual senior national titles here on Wednesday.

Competing at the 66th National Shooting Championships Competitions for shotgun shooters, Punjab's Ganemat and Rajasthan's Anantjeet took contrasting paths towards the same result.

Ganemat shot a below-par 116

in qualification and had to come through a five-way shoot-off for four final qualifying places, before shooting down 56 targets to win the 60-shot final.

Qualifiers leader Zahra Deesawala was second with 55 hits while Sanjana Sood was third with 44.

In men's skeet, Anantjeet shot at a different level, registering a pillar to post victory. He topped the qualifiers with a 123 out of 125. The next best in the field was 121. In the six-man final, he gunned down 58 out of 60 targets to leave silver-winning Muneek Battula well behind on

55. Bhavtegh Gill won bronze hitting 45 out of the first 50 targets.

Earlier this year, Ganemat won two medals including a gold and silver in ISSF World Cups while Anantjeet won an Asian Games silver in men's skeet at Hangzhou.

Guardiola walks off smiling as City stays perfect

AP ■ ROME

On a night of unconvincing performances from Paris Saint-Germain and AC Milan, Pep Guardiola walked off smiling following a comeback victory for Manchester City in the Champions League.

Phil Foden inspired a second-half comeback as City beat Leipzig 3-2 on Tuesday to take first place in Group G and extend its perfect record to five wins in five matches.

It's the seventh straight season that City has won its group.

The defending champions trailed 2-0 at halftime but Foden scored one goal and helped to create two more to turn the match around and Guardiola had a smirk on his face when he shook hands with Leipzig counterpart Marco Rose after the final whistle. "We had to be relaxed as possible and we reacted really well," Guardiola said.

"We are first in the group and I am very satisfied for the reaction at the end. The team runs and fights and has spirit," Kylian Mbappé's penalty deep into stoppage time salvaged a point for PSG in a 1-1 draw with an injury-depleted but tenacious Newcastle team.

In the tight Group F, Borussia Dortmund advanced with a 3-1 victory at Milan, a semifinalist last season. Barcelona, Atletico Madrid and Lazio also advanced.

Portuguese duo João Félix and João Cancelo each scored as Barcelona defeated Porto 2-1 to return to the knockout phase after consecutive group-stage eliminations.

It will be the first time since Lionel Messi left the club that Barcelona will be playing in the round of 16.

GROUP E
Ciro Immobile scored twice in the final 10 minutes and Lazio beat Celtic 2-0.

Atletico then defeated Feyenoord 3-1 with the help of two own-goals to seal its spot in the next round and also send Lazio through.

Atletico leads with 11 points, followed by Lazio (10), Feyenoord (6) and Celtic (1). In the final group matches on Dec. 13, Lazio visits Atletico in a match that will determine which club wins the group.

GROUP F
In Paris, Alexander Isak scored on a rebound for Newcastle early on after PSG goalkeeper Gianluigi Donnarumma pushed away a shot to Isak's feet for an easy finish.

PSG wasted chance after chance and Newcastle seemed

on course to pull off another unlikely win to follow the 4-1 victory over the same opposition last month.

That was until Ousmane Dembélé flicked the ball up in the fifth minute of stoppage time and it bounced off Tino Livramento's chest and onto his arm. Referee Szymon Marciniak gave a penalty after watching the incident on video review and Mbappé blasted the spot-kick past goalkeeper Nick Pope.

At the San Siro, Marco Reus gave Dortmund an early lead from the spot after Olivier Giroud had a penalty of his own saved for Milan.

Although Samuel Chukwueze leveled at the end of the first half, goals from Jamie Bynoe-Gittens and substitute Karim Adeyemi gave the visitors the win they needed to book their spot in the last 16.

Dortmund leads with 10 points, followed by PSG (7), Newcastle (5) and Milan (5). PSG, Newcastle and Milan are all still in contention and Dortmund is still fighting to win the group ahead of the last round with Dortmund hosting PSG and Newcastle hosting Lazio.

GROUP G
In Manchester - where both teams had already advanced - Foden set up Erling Haaland for a goal in the 54th and equalized in the 70th.

He then played a part in the buildup for substitute Julian Alvarez's winner in the 87th as City preserved an unbeaten home record in the Champions League that dates back to 2018.

Lois Openda scored for Leipzig in the 13th and 33rd, but City responded like champions after the break, with Foden at the heart of the comeback.

Swiss club Young Boys secured third place in the group with a 2-0 win over Red Star Belgrade. City leads with a full 15 points, followed by Leipzig (9), Young Boys (4) and Red Star (1).

VAR official removed from Champions League game

AP ■ GENEVA

A video review official has been removed from his Champions League game on Wednesday, one day after having a key role in a disputed decision to award Paris Saint-Germain a stoppage-time penalty for handball against Newcastle which contradicted UEFA's own advice to referees.

The VAR specialist from Poland, Tomasz Kwiatkowski, is no longer listed to work at the Real Sociedad-Salzburg game and has been replaced by a German match official.

In Paris on Tuesday, Kylian Mbappé scored in the eighth minute of stoppage time to salvage a 1-1 draw after a ball struck Newcastle defender Tino Livramento in the chest and then deflected off his arm, and a penalty was awarded by Polish referee Szymon Marciniak following a VAR review.

Marciniak refereed the Champions League final last season and the 2022 World Cup final with Kwiatkowski in his team. Marciniak initially allowed play to continue Tuesday but awarded the penalty after he was advised by his video assistant to review the incident on the pitchside monitor.

However, a UEFA panel of storied coaches and former players said in April that "no handball offense should be called on a player if the ball is previously deflected from his own body, and, in particular, when the ball does not go towards the goal."

The advice to be given to match officials this season was detailed by the panel, chaired by UEFA Chief of Football Zvonimir Boban, in an April 25 statement headlined "UEFA Football Board urges more clarity on handball rule."

"The handball rule, for example, will always be disputed, but we can make it more consistent and aligned with the game's true nature," Boban, the former Croatia and AC Milan great, said in April.

UEFA declined to comment Wednesday, in line with a policy not to discuss field of play decisions.

The current laws of the game allow for handballs to be penalized even if the contact was not intentional and after a deflection if a defender's arm is judged to be in an unnatural position.

"But his hand is not in an unnatural position," Newcastle manager Eddie Howe said after the game, "(his hands) are down by his side, but he is in a running motion."

The cross from Ousmane Dembélé that struck

Livramento was also going backward - and not towards goal.

The penalty decision in the PSG game directly affected the standings in the tightly fought Group F, as it kept PSG two points clear of Newcastle in the second qualifying place for the round of 16 behind group leader Borussia Dortmund.

"I feel it is a poor decision and it's hugely frustrating for us as you know how little time there is left in the game," Howe said. "There is nothing we can do about it now."

Newcastle must now win its home game against last-place AC Milan on Dec. 13 and hope PSG fails to win at Dortmund. The second-place team advances to the Champions League round of 16 and the third-place team goes to the Europa League knockout playoffs.

Kalinga Super Cup to kick off on January 9

PTI ■ NEW DELHI

The Kalinga Super Cup, to be played at two venues in Odisha from January 9, will feature both the ISL and I-League teams with the winners being nominated to play in the AFC Champions League 2 Preliminary Stage.

"The format of the tournament will consist of four groups of four teams each, who will play single-leg matches amongst themselves. The group winners will qual-

ify for the semifinals followed by the final to be played on January 28," said All India Football Federation in a statement on Wednesday.

The I-League teams will play the qualifiers to get into the group stage of the Kalinga Super Cup where four slots have been reserved for them in the group stage.

"The Champions of Kalinga Super Cup will be nominated to play in the ACL 2 Preliminary Stage of AFC 2023-24 season," said the AIFF.

AIFF president Kalyan Chaubey said, "As per the decision we took earlier, the annual Super Cup tournament will now be organised in a bigger and broader perspective. "The tournament will now be known as Kalinga Super Cup and will be played in Odisha in January 2024."

"This is a positive development for Indian domestic football. I am confident the Kalinga Super Cup will be a huge hit both in terms of organisation and spectator interest," he added.

India Women's A pip England Women's A by 3 runs

PTI ■ MUMBAI

India Women's A staged a late inspirational comeback to pip England Women's A side by a mere three runs in the first T20 game of their three-match series here on Wednesday.

Chasing 135 for win, England looked in complete control riding on a brilliant 70-run stand for the fourth wicket between vice-captain Hollie Armitage (52) and wicket-keeper-batter Seren Smale (31), but India fought back with a cluster of wickets to clinch a narrow win.

Kashvee Gautam (2/23) struck twice to dismiss Smale and Issy Wong (2) in the 18th over to open the door back for the Indians, who pulled off a thrilling win at the Wankhede Stadium.

With 13 needed off the final over, Shreyanka Patil (2/26) gave away five extras (wide) on the first ball but India prevailed eventually by three runs.

India Women's A were guilty of not putting up enough runs on the board and making plenty of mistakes in the field.

Armitage, who top-scored in the game with 52 off 41 balls (3x4s, 1x6s), made the most of a lifeline as Disha Kasat spilled a regulation catch at cover off Prakashika Naik (1/28). Another opportunity to break the stand was missed in the 14th over when Indian 'keeper Uma Chetry did not collect the ball to break the stumps, anticipating a direct hit. The two England batters unleashed powerful hits while constantly pressuring the Indian fielders with brisk running between the wickets.

Patil got India A their first breakthrough when she cleaned up Grace Scrivens (7) in the second over.

Mannat Kashyap (1/21) got rid of Mady Villiers (20; 17 balls, 4x4s) and Naik removed Freya Kemp (1) in the eighth over.

Earlier, after electing to bat, India made 134/7 in 20 overs. Kasat batted well to make 25 from 32 balls, hitting three fours.

On a slow deck, India Women's A could not really push on with their scoring rate, with England

seamers doing well.

Skipper Charlie Dean was the pick among the bowlers with 4-0-19-2 while Kemp finished with figures of 4-0-30-2. Wong (1/13), Lauren Filer (1/34) and Kirstie Gordon (1/26) chipped in with a wicket each.

Player of the match Patil admitted India made errors in the field. "It is a big platform for all of us. It happens, (but) how we come back is what matters," Patil told the media after the match.

Patil said India were confident that the bowlers would pull it off.

"I would say maybe (India were) 10-15 runs short but then we were looking (at a total) around 130-140 because the wicket was slightly slower and we knew our bowlers could get the job done," she said.

Brief scores: India Women's A 134/7 in 20 overs (Vrinda Dinesh 22, Disha Kasat 25, Gnanananda Divya 22; Charlie Dean 2/19) beat England Women's A 131/8 in 20 overs (Hollie Armitage 52, Seren Smale 31; Kashvee Gautam 2/23, Shreyanka Patil 2/26) by 3 runs.

Shane is Paarl Royals head coach for SA20

PTI ■ NEW DELHI

SA20 franchise Paarl Royals on Wednesday announced the appointment of former New Zealand pacer Shane Bond as the new head coach for the 2024 season of the South African league.

Bond replaces former South African all-rounder JP Duminy in the position, with the latter currently serving the national team.

Bond, a former New Zealand fast bowling sensation, brings an impressive array of credentials and passion for the game.

His illustrious career, both as a player and a coach across New Zealand's national team and multiple T20 franchises, has earned him the reputation of making the best players even better.

His tactical acumen, knowledge of the game and his ability to inspire and nurture emerging talent have been widely recognized in the cricketing community which have also reflected in the Kiwi pacer helping the Mumbai Indians franchise lift four titles in nine seasons in the IPL.

He was recently also roped in by Paarl Royals'

sister franchise, Rajasthan Royals, in the dual role of assistant coach and fast bowling coach for the IPL.

Royals' Director of Cricket, Kumar Sangakkara, welcomed the 48-year-old for his debut season in the SA20.

"Apart from being a fierce competitor during his playing days, Shane (Bond) has also excelled in his various coaching roles across teams and leagues, and we are delighted to have him lead the coaching team at Paarl Royals. "The inaugural season provided us with a lot of learnings after our semi-final finish, and we believe that his experience, commitment and vision align well with our goals for the upcoming season," Sangakkara said.

Bond shared his thoughts on the opportunity, saying, "It is a new challenge for me personally to be heading to the SA20, but what gives me the belief is the strong squad we have been able to assemble for the upcoming season."

"We have so much experience and immense potential in our ranks, which makes me excited to join the group in January and work towards achieving our target of lifting the trophy."

Playing under great leaders will help me: Gill

PTI ■ AHMEDABAD

India opener Shubman Gill feels the experience of playing under "great leaders" in the India setup will help him a lot when he leads Gujarat Titans in the upcoming season of the IPL.

Gill has played under the likes of Virat Kohli and Rohit Sharma and played a vital role in India reaching the World Cup final at home recently.

Gill was recently announced skipper of 2022 IPL champions Gujarat Titans after their captain for two seasons, Hardik Pandya, was traded back to five-time winners Mumbai Indians.

It will be Gill's maiden outing as captain of an IPL side, having begun his journey in the competition in 2018 with Kolkata Knight Riders before heading to GT in 2022.

"We all know captainship comes with a lot of things, and

commitment is one of them. Discipline is one of them. Hard work is one of them. Loyalty is one of them," said Gill in a video posted by the franchise on social media.

"And, because, I think I've played under great leaders and I've learned a lot from them, I think those learnings that I have had from their experience playing under them is gonna help me a lot in this IPL."

Gill added that there was no dearth of experienced players in Gujarat Titans, and he would get to learn a lot from leaders such as New Zealand's Kane Williamson and Afghanistan's Rashid Khan.

"We have great leaders in our team, be it Kane (Williamson) or be it Rashid (Khan) or be it (Mohammed) Shami, or even David (Miller), or even Wriddhi (Saha). So, I think it's gonna be great. "And obviously, there are

gonna be a lot of learnings along the way, which would be my experience as a captain. And I see a lot of people mak-

ing great memories," he added.

As far as playing the leadership role is concerned, Gill

was the India U-19 vice-captain during the 2018 World Cup. He was also named skipper of India Blue during the 2019-20 Duleep Trophy, the India C captain in the Deodhar Trophy the same season, and the India-A leader during the New Zealand tour later in 2019.

However, Gill feels it will take him some time for the feeling of being made GT skipper to sink in.

"I think it's gonna take, like, probably till the time we don't play the first match. It's not gonna quite sink in. It's a great feeling."

"I was about seven or eight years old when IPL started happening. Obviously, it's a dream for any kid who wants to be a cricketer and wants to play the IPL to be able to captain a team. Then, to be able to be that kind of binding factor in this team, it feels amazing," he concluded.

Sreesanth, Binny to play in American Premier League

PTI ■ HOUSTON

Former India pacer S Sreesanth and all-rounder Stuart Binny are set to take part in the second edition of American Premier League (APL) T20 scheduled in Houston from December 19 to 31.

Both Sreesanth and Binny

have retired from active cricket in India and hence are allowed to play in overseas franchise leagues.

All the matches will be played at the Moosa Cricket Stadium in Houston, Texas and the league had been sanctioned by the ICC, in May this year and the USA Cricket board has roped in 40 inter-

national cricketers across seven teams.

The seven teams include Americans, Indians, Paks, Windees, Bengalees, Aussies and English.

Sreesanth and Binny will be part of the Premium Indians team.

The 40-year-old Sreesanth, who announced his retire-

ment from all forms of domestic cricket in India last year, said, "I am honoured to be picked by the Premium Indians. I am still very new to franchisee cricket eco-system outside of India so really excited about it."

"It would be a great experience to play in front of the American crowd in a new ter-

BCCI extends Dravid's contract But tenure yet to be decided, Laxman to remain at NCA

PTI ■ NEW DELHI

The BCCI on Wednesday extended the contract of Indian cricket team head coach Rahul Dravid in order to maintain continuity following the senior side's stupendous performance in the ODI World Cup where it won 10 games in a row before losing the final.

However, there was no mention of how long his new tenure would be in the press release issued by the BCCI.

"The Board of Control for Cricket in India announces the extension of contracts for head coach Rahul Dravid and the support staff of Team India (senior men)," the sport's apex body said in a statement.

"The BCCI engaged in pro-

ductive discussions with Dravid after the term of his contract ended following the recently-concluded World Cup and unanimously agreed to further the tenure," it added.

BCCI secretary Jay Shah said that Dravid will have "full backing" of the board, moving forward in his endeavour to win the ICC Trophy, which is missing from the cabinet for the last decade. "Having won 10 consecutive games before the final, our World Cup campaign was nothing short of extraordinary, and the head coach (Dravid) deserves appreciation for setting up the right platform for the team to flourish."

"The head coach has our full backing, and we will provide him with all the support need-

ed for sustained success at the international level," the BCCI secretary said in a statement.

"The last two years with Team India have been thoroughly memorable. Together, we have witnessed the highs and lows, and throughout this journey, the support and camaraderie within the group have been phenomenal," Dravid said.

The PTI had on Tuesday

reported that Dravid's contract would be renewed with the BCCI looking for continuity in the set-up helmed by the legendary cricketer over the last two years.

Dravid had replaced Ravi Shastri after the T20 World Cup in 2021, getting appointed for a two-year term which ended with the ODI World Cup.

Under Dravid, India also finished as runners-up in the last World Test Championship, losing to Australia in the final.

Along with the 50-year-old Dravid, his support staff comprising batting coach Vikram Rathour, bowling coach Paras Mhambrey and fielding coach T Dilip have also got an extension.

It is expected that his stint would be at least till the T20

World Cup in the West Indies and the USA in June-July next year. The PTI had reported that Dravid had been offered an extension and asked to helm the affairs in South Africa as they work on the modalities.

While VVS Laxman, the NCA head, who has often filled in for Dravid when the latter was taking short breaks, is believed to have informed the brass that he is more comfortable working with pathways teams such as India A and India U-19, apart from being actively involved in cricketing matters with regards to the new NCA set-up in Bengaluru.

"The Board also appreciates VVS Laxman for his exemplary roles as Head of NCA and as the stand-in Head Coach.

Similar to their legendary on-field partnerships, Dravid and Laxman have worked closely in driving Indian Cricket forward," the BCCI's release makes it clear that both for the time being will continue in their respective roles. BCCI president Roger Binny, who has been a bridge between the board and the head coach, also welcomed the decision. "The performances of the Indian Team are a testament to his strategic guidance. I am delighted that he accepted the offer to remain the head coach, and it speaks of the mutual respect and shared vision between him and the BCCI."

Dravid said that he will remain committed in pursuit of excellence in this post World Cup phase.

With so much dew even 14 runs per over would have been chased: Gaikwad

PTI ■ GUWAHATI

The dew laden condition was the primary reason for Indian bowling attack's poor show in the third T20 International, where the home team failed to defend an imposing total of 222, vice-captain and opener Ruturaj Gaikwad said after the defeat.

Indian bowlers leaked 80

runs in the last 5 overs while defending 222 as Glenn Maxwell's 48-ball-104 not out, included 23 runs off the final over from Prasidh Krishna, who was smashed for four boundaries and a six.

For the record, Krishna's 0/68 in 4 overs is the worst T20I figure by any Indian bowler.

"I don't think so it's a con-

cern because it's almost like you are bowling with a wet ball. And it's really tough on them," Gaikwad told reporters during the post-match press conference.

"In these kinds of conditions, 12 runs per over or even 13 or 14 runs per over is gettable, even while we are chasing. In the first game, how easily we managed to chase 210," he

cited an example. "So I think, I don't think so definitely there's not a concern at all. It's just that the conditions are slightly tougher for them, and we have to accept and move on."

Gaikwad said Maxwell's brutal innings and heavy dew proved to be home team's undoing.

Making his 100th T20I appearance, Maxwell slammed

an unbeaten 104 off just 48 balls as Australia massed 45 runs in the last two overs to seal a last-ball thriller to make it 1-2 in the five-match series.

"I think even Maxi batted really well. To win from a situation where they needed 100 from seven and a half hours and then 50 from 3 overs, I think it was critical innings for him," Gaikwad said.

"And I think from our side, our bowlers tried executing whatever they had in their control. Also, there was a lot of dew around so ball was slipping a lot. So I think it was tough for the bowlers as well."

"Even though we scored 230, in the last game, it was still in between we felt the game might go till the last over, but this kind of dew it is these totals

are bound to happen and bound to chase."

On way to a 57-ball 123, the 26-year-old Gaikwad scored his first fifty in 32 balls before completing the hundred in just 52 balls to set up a more than par-score for India.

"Initially, I felt pitch was slightly tacky, ball was stopping a little bit and there was some movement in the air and off the

pitch as well. So first, I felt 2-3 overs, the wicket was like that, and we lost two wickets (Yashasvi Jaiswal and Ishan Kishan) in a span of one over. So it was important that we stitched a partnership. And then after 7-8 overs, I think the wicket got slightly better."

India will Australia in the fourth T20I on Friday at Raipur.
