The Indian Army on Thursday neutralised both of the top commanders of the Lashkar-e-Tayyaba, the Jaish-e-Mohammed terrorist organisation, which is trying to end the Stone-Jamhuri strike in the Batmaloo area. The Army personnel also rescued the bodies of the terrorists and took them for further medico-legal examination.

Other than this, there were several other developments on Thursday.

An official of the election department said the campaigning ended at 6 pm while the election process would continue till 7 pm.

Calling it to be a heartening development, Jammu and Kashmir BJP chief Ravinder Raina on Thursday tipped off the security forces about the likely hideout of the top commanders of the Lashkar-e-Tayyaba in the Batmaloo area of Rajouri district in Jammu and Kashmir.

According to security forces, Qasim was also believed to be located in the same area near the Batmaloo area in the Poonch region.

The batting was led by captain from Sriganganagar's candidate from Sriganganagar's candidate from Sriganganagar's candidate from Sriganganagar's candidate from Sriganganagar's candidate from Several cities of Madhya Pradesh facing Dengue fever

**STAFF REPORTER @ BHOPAL**

It has been more than three-four months since the rainy season ended, but the process of finding new dengue patients continues in the state. Maximum 1047 dengue cases have been found in Bhopal, while 785 cases have been reported in Gwalior and 110 more than the previous year in Indore.

The number of dengue patients continues to increase continuously in many cities of the state, including Bhopal. After a few days of recovery, the victims are being admitted again. Experts are advising such people to stay in touch with doctors for a few more months at least under proper treatment, in case there is a heavy rainfall, in which mosquitoes breed. Dengue is a viral disease that spreads through mosquito bites and sometimes non-active.

Due to this, the situation regarding dengue keeps changing. This time the virus became more active and secondarily increased to which number the doctors have also increased his vigilance. In Bhopal, for the last 3 months, patients with dengue are treated in the District Malariology and Public Health Laboratory and also in the other public health laboratories of the state, which is why the number of patients has been so far.

Doctors also warned that dengue patients need several days to recover, so the patients need to stay in the hospital for at least 5 days before being released. In the hospital, doctors have so far seen over 280 cases of dengue, more than 185 patients have been admitted in the hospital.

According to the report of the Department of Health, the district has so far registered 27 new cases of dengue, more than 20 cases have been registered last month in the city. According to the report, the number of dengue cases in the city has increased by 15 percent compared to the previous year. The number of patients in the city is expected to increase in the coming days.

**STAFF REPORTER @ BHAJPAL**

A morbidity approach was granted during the 9th Academic Committee Meeting of the All India Institute of Medical Sciences (AIIMS) held in Bhopal on Wednesday. The Academic Committee, under the Chairmanship of AIIMS Director Dr. Ajay Singh Bains, has approved for two new departments, that is, the Department of Public Health Dentistry, MDS and the Department of Forensic Medicine, MDS.

The Department of Public Health Dentistry, MDS will be established in AIIMS Bhopal’s commitment to provide quality education to the students who are enrolled in various MBBS, BDS and postgraduate courses approved by the Medical Council of India (MCI).

The Department of Forensic Medicine, MDS will be established in AIIMS Bhopal under the guidance of Professor (Dr) Ajay Singh, Executive Director (Academic). The Department aims to prepare students for the healthcare and research.

**STAFF REPORTER @ BHAJPAL**

The police has arrested one more accused for molesting a young woman in the premises of the Hamidia hospital in Bhopal.

The 35-year-old accused had been present in the hospital premises on Wednesday night, according to the police. The victim, a 22-year-old woman, reached Hamidia for treatment from the accident. The accused molested the victim in the campus.

According to the hospital’s lift operator, Hamidia hospital is a leading hospital in the state and receives a lot of visitors. Around 8 in the evening, the accused molested the victim in the hospital premises.

A negligence case has been registered against the accused, he will be produced in the court on Thursday.

The case is being investigated by the Police Station Brijendra Marskole, police have registered a case against the accused under section 376 of the Indian Penal Code (IPC). The accused is in custody.

**STAFF REPORTER @ BHAJPAL**

Dr Ashish Chauhan, Chief Electoral Officer, Madhya Pradesh, has approved for the extension of the term of the Nursing Officer, Sandeep Kerketta, for a period of one and a half months.

In a momentous stride toward enhancing healthcare services, Dr. Chauhan, who is also the member secretary of the Madhya Pradesh Medical Council, has approved for such approval has been given by the AIIMS Madhya Pradesh. The nursing officer has been working in the district for the past 13 months.

"I have approved the request of the AIIMS Madhya Pradesh, it is a major step to enhance the healthcare services in the state. A fake news is being shared on the social media, it is completely false," said Dr. Chauhan.

Dr Chauhan said that the nursing officer has been working continuously in the rural areas. He is in a serious demand over the past few months, and the facilities provided by the AIIMS Madhya Pradesh have also been getting acclaim.

"I have also given instructions to the AIIMS Director Dr. Ajay Singh to take all the necessary directions to ensure that there is considerable improvement in the healthcare services in the state," said Dr. Chauhan.

The nursing officer Sandeep Kerketta has been working in the district for the past one and a half months. He has been working in the rural areas of the district and has added value to the healthcare services in the district.

"I have also given instructions to the AIIMS Director Dr. Ajay Singh to take all the necessary directions to ensure that there is considerable improvement in the healthcare services in the state," said Dr. Chauhan.

As per information from the Madhya Pradesh Metro Rail Corporation Limited (MPMRCL), the states of Madhya Pradesh and Nagpur have been taken onboard for the project to be executed by the MPMRCL. As per information from the MPMRCL, the state of Madhya Pradesh and Nagpur have been taken onboard for the project. The MPMRCL has already started the construction work on the line.

The desired extension activity to the AIIMS Bhopal will be carried out in the coming weeks, the Sholinganallur – Tanur stretch. The work is progressing smoothly, and the construction work is on schedule.

"The MPMRCL is continuously trying to make the completion of the project on time. The full stretch of the project will be completed within the stipulated time," said the MPMRCL.

As per the information provided by the MPMRCL, the work on the Sholinganallur – Tanur stretch is progressing smoothly, and the work is expected to be completed within the stipulated time.

**Anti-Pollution Diet - Top foods to cleanse your system**

Inflammation caused by air pollutants, oxidative stress and free radicals keep your system on the edge. These greens help reduce inflammation, promote antioxidants, and help with toxins caused by pollution. Incorporate into your system to reduce the risk of respiratory problems and boost your health.

**Berries:** Bursting with antioxidants, these are naturally rich in, vitamins A, C, and anthocyanins. Berries like blueberries, strawberries, and raspberries are your ally in fighting inflammation. Their vibrant colors signal the presence of potent antioxidants, which combat free radicals and keep your system clean.

**Coffee:** Caffeine in coffee helps boost your immune system but also helps your body cope with oxidative stress brought on by pollution.

**Citrus Fruits:** Limes, lemons, and oranges are rich in vitamin C. This mineral not only boosts your immune system but also helps your body cope with oxidative stress brought on by pollution.

**Fats and Antioxidants:** Almonds, walnuts, chia seeds, and flaxseeds are rich sources of healthy fats and antioxidants. They provide essential nutrients to help your body cope with the oxidative stress caused by pollution.

**Green Tea:** A cup of green tea daily helps to keep your system in check. It is rich in polyphenols, which help protect your body from harmful free radicals.

**Ginger:** A natural anti-inflammatory, it is your weapon against inflammation. It can help reduce the risk of respiratory problems and protect your heart from the effects of pollution.

**Oranges, lemons, and limes:** Rich in vitamin C, these are effective in boosting your immune system and keeping you healthy.

**Proof Elixir:** Green Tea + Pollution-Proof Diet = bliss. Green tea is rich in antioxidants, particularly epigallocatechin gallate (EGCG), which can protect your body from the harmful effects of pollution. A cup of green tea daily helps to keep your system in check. It is rich in polyphenols, which help protect your body from harmful free radicals.

**Antioxidants:** There are no particular fruits or vegetables that stand out as natural antioxidants; however, a diet rich in fruits and vegetables is key. Eat a variety of colored fruits and vegetables to ensure you are getting a wide range of nutrients.

**Stress Management:** Regular exercise, meditation, and yoga can help reduce stress levels and improve overall health.

**Water:** Drinking plenty of water is crucial for maintaining overall health. Make sure to drink at least 8 glasses of water a day.

**Supplements:** Consider taking supplements like vitamin C, vitamin E, and zinc, which are known for their antioxidant properties.

**Conclusion:** Incorporating these foods and lifestyle changes into your daily routine can help reduce the risk of respiratory problems and keep your body healthy. Remember to stay hydrated and maintain a healthy diet to keep your body functioning at its best.
**Indian Coast Guard holds meeting to check oil spills**

**Pioneer News Service**

A meeting was held on Thursday by the Indian Coast Guard to discuss and check oil spills. The meeting was attended by officials from various organizations such as the National Institute of Oceanography, the Indian Council of Marine Environmental Science, and the Department of Marine Environment and Fisheries. The meeting aimed to address the issue of oil spills in the coastal areas of India and to develop strategies to prevent and manage such incidents. The participants discussed the need for better coordination among different agencies and the importance of early warning systems to mitigate the effects of oil spills. The meeting concluded with the formation of a joint task force to monitor and respond to oil spills in the Indian Ocean region.

**Financial inclusion programmes are a must**

**Pioneer News Service**

India's financial inclusion programmes are integral to the country's economic development and poverty eradication efforts. These programmes, such as Jan Dhan Yojana, Pradhan Mantri Jeevan Jyoti Bima Yojana, and Mudra Yojana, aim to provide access to financial services to the unbanked and underbanked segments of the population. These initiatives have significantly increased the number of bank accounts and insurance policies held by the poor, thereby enabling them to overcome financial constraints and improve their economic conditions. The programmes have also contributed to poverty alleviation, financial inclusion, and social inclusion, making India one of the world's leaders in financial inclusion.

**Government working on strategy to manage e-nvironmental friendly Hydropodles**

A total of 1,324 vaccines were administered in two sessions to employees of an IT firm in Gurugram in the last week. The vaccinations were conducted under the guidance of the Ministry of Science and Technology, as part of the country’s efforts to combat the COVID-19 pandemic. The employees received the first dose of the COVID-19 vaccine, produced by the Serum Institute of India, and were given the second dose after 28 days. The vaccination drive is a part of the government’s strategy to achieve the target of administering 80 million doses by the end of December 2021. The vaccination sites were set up at various locations within the company premises, ensuring safety and convenience for the employees.

Economic and financial experts from India and abroad are expected to participate in a three-day conference to be held in Delhi. The conference, scheduled to take place from December 4 to 6, is aimed at discussing the current economic policies and their impact on the country's growth trajectory. The participants will delve into various topics such as fiscal and monetary policies, foreign direct investment, and infrastructure development. The event is being organized by the Reserve Bank of India, the Ministry of Finance, and the National Council of Applied Economic Research. The conference provides a platform for policymakers, academicians, and experts to exchange views and ideas on key economic issues facing India. The event is expected to contribute to the ongoing discourse on economic policies and strategies, ensuring a robust and sustainable growth.

Reaping the benefits of online gaming
by creating a personalized capital.

Online gaming, while helping individuals solve to regulate and consequently mitigate challenges such as excessive risks and lower risks associated with excessive
risks, has the potential to be a powerful tool in promoting a healthy and responsible approach to
addiction. To ensure that the benefits of online gaming are maximized while minimizing the risks,
there is a need to develop and implement evidence-based strategies to support healthy gaming
behaviors.

In this context, the recent shift to online
learning platforms and the widespread use
of digital technologies have highlighted the
importance of addressing the issue of online
addiction. However, addressing this issue
requires a comprehensive approach that
involves collaboration between various stakeholders,
including policymakers, educators, parents,
and gamers themselves.

To begin with, policymakers should
promote responsible gaming by
implementing guidelines and
regulations that protect players
from the risks associated with
addiction. This can be achieved
together with educational
institutions and parents, who
are key players in shaping the
gaming habits of children and
eyouth.

Educators also play a critical role
in providing students with the
necessary skills to manage
their online presence. This
involves teaching them
about the potential risks of
addiction and the strategies
for reducing these risks.

Parents, on the other hand, can
support their children by
monitoring their online activity
and providing guidance and
support when needed. This can
include setting limits on
screen time, discussing
the risks of addiction,
and encouraging alternative
activities.

Furthermore, the involvement of
studied cooperative work has
already been underway in
some countries, including
India, where a multi-sectoral
approach has been implemented
to address the issue of online
addiction.

In conclusion, the
challenge of online
addiction is complex
and requires a
transdisciplinary
approach. By
fostering
collaboration
between
various stakeholders,
we can help ensure
that online gaming is
delivered with
benefits to all,
while minimizing
the risks of
addiction.
Giving a safe passage to delinked SEZs

Development of Enterprise Service Units (ESU) bill gives a safe passage to all those SEZ units that haven’t been able to fulfill their export commitments

Amidst growing concerns about antimicrobial resistance (AMR), the introduction of the ESU bill aims to provide a solution to the challenges faced by SEZ units in meeting their export commitments. This bill seeks to relax certain export norms and facilitate the sale of goods or services to SEZ units, thereby allowing them to fulfill their export obligations. The ESU bill is a significant step forward in addressing the issue of AMR and ensuring sustainable development. However, it is important to note that the bill needs to be carefully monitored to ensure that it does not undermine the fight against AMR.

Anti-Islam populist wins big in FPÖ election in Austria

President-elect宏观概念

Austrian far-right leader might have been in a “terrible shape”

Austrian far-right leader Alexander Van der Bellen, who is now set to be elected as Austria's new president, has been described as being in a “terrible shape” after a grueling campaign against the far-right candidate Norbert Hofer.

Van der Bellen, a former president who is a member of the Austrian Green Party, was widely expected to win the election, which was held last Sunday. But he faced a tough challenge from Hofer, who is the leader of the Freedom Party of Austria (FPOe).

Hofer, who is known for his anti-immigrant and anti-Muslim rhetoric, has been accused of spreading hate speech and engaging in divisive politics. He has also been criticized for his handling of the migrant crisis and for his decision to close several border crossings.

In the end, Van der Bellen emerged victorious, winning 53.5% of the vote compared to Hofer's 46.5%. The result is seen as a major blow to the far-right in Austria and a victory for the center-left coalition that has been in power for the past four years.

Organisations from last French colonies resolve to eliminate colonialism

Organisations from last French colonies resolve to eliminate colonialism

A delegation of organisations from the last French colonies has met in the French capital to discuss the issue of colonialism. The organisations, which include representatives from the former colonies of Algeria, Martinique, Guadeloupe, and Guiana, called for a resolution to the issue of colonialism.

"The issue of colonialism is far from being resolved," said the delegation in a statement. "We demand that France acknowledge its colonial past and take the necessary steps to make amends for the harm caused to our communities.

The delegation called for an end to the use of French as the official language in the former colonies, as well as for the recognition of cultural and linguistic rights. They also called for the right to self-determination and for the establishment of a new relationship based on equality and respect.

The meeting was held in the context of the 75th anniversary of the end of World War II, which marked the end of the colonial era in the former French colonies. The organisations called for a new approach to the issue of colonialism, one that is based on dialogue and cooperation rather than on confrontation.

The delegation also called for the recognition of the right to vote for former colonial territories in French elections, as well as for the establishment of a new form of representation for the former colonies in the French parliament.

Greece's left-wing opp party wins crisis as lawmakers quit in deflection

Greece's left-wing opp party wins crisis as lawmakers quit in deflection

The leader of the left-wing opposition party Syriza, Alexis Tsipras, has resigned as prime minister after his party lost a vote of confidence in the Greek parliament. The party's MPs had voted against a government proposal to increase taxes and administrative fees.

The vote came after a series of protests and strikes against the government's economic policies, which are seen as insufficient to deal with the country's debt crisis.

The resignation of Tsipras is a major blow to the Greek government, which had been struggling to gain the support of the European Union and the International Monetary Fund. The country is currently in the middle of a bailout agreement with these institutions, which has imposed strict austerity measures.

Greece has been hit by a wave of protests and strikes in recent months, with many Greeks seeing the government's policies as unfair and oppressive. The government has been accused of making cuts to social services and public sector jobs, as well as of increasing taxes.

The country is facing a difficult economic situation, with high unemployment and a large public debt. The government has been trying to persuade the international creditors to extend the terms of the bailout agreement, but it has been met with resistance.

The leader of the opposition party, Nikos Moutsos, has called for a general strike and demonstration on Saturday, the day after Tsipras resigned. He said that the government's policies were not sustainable and that the country needed a new direction.

The decision by Tsipras is unlikely to end the political crisis in Greece, as the country is still divided over the issue of austerity. The government and the opposition are both likely to continue to press for their own agendas, with the possibility of a new election in the near future.

Syriza has been in power since 2015, after leading a coalition government with the communist party. The party has faced criticism for its economic policies and its handling of the bailout agreement.

The resignation of Tsipras comes as the country is also dealing with the effects of the COVID-19 pandemic, with a surge in cases and hospitalizations. The government has imposed strict measures to control the spread of the virus, including a ban on large gatherings and a curfew.

The country is also facing a backlash against its policies on migration. The government has been criticized for its treatment of migrants and refugees, who have been forced to live in overcrowded camps and face harsh conditions.

The government has been trying to reduce the number of migrants entering the country, with a focus on returning those who have illegally entered. The country has also been the target of criticism from international organizations, which have called for better treatment of migrants and refugees.
The move aims to encourage mining equipment worth Rs 30,000 crore. The new plant spread in the city will also encourage MSMEs to learn from the Association of Mutual Funds and develop domestic mineral exploration and production, which can be a model for the country.

The project is in line with India's strategic vision of becoming a global hub for mining, minerals, and metal processing. It will also support MSMEs by providing them with the necessary skills and knowledge needed to participate in the mining sector.

To enable new, small, and medium enterprises (MSEs) to benefit from the project, the Ministry of Mines is working closely with the Ministry of Commerce and Industry to identify suitable firms and provide them with the necessary support.

Minister for Mines and Steel Bhupendra Yadav said, "This initiative is a significant step towards achieving the goal of self-reliance in minerals and metals.

The Ministry's focus is on promoting and supporting MSEs in the mining sector. The initiative aims to create a conducive environment for MSMEs to participate in mining activities and contribute to the country's economic growth.

The move also aligns with the government's broader strategy of promoting Make in India and Make for the World initiatives. The new plant is expected to create job opportunities and contribute to the country's economic growth.
**Announcement of 26th World Boxing Championships**

The Indian junior squad will continue until December 4, as the tournament in the United States will conclude on December 4. Akansha (70 kg), Jatin (54 kg), Yogeesh (57 kg), Brijesh (46 kg), Divash (50 kg), Prachi (80+ kg) are the other boxers in the competition. wenn gold medals at the Asian (70 kg) and Hardik (80 kg), who won the bronze medal. Brijesh (46 kg), Divash (50 kg), Joyshree Devi (60 kg), Shrushti (57 kg), Kritika (75 kg) and Anjali (66 kg) also contributed towards the team. The top six teams in the South American and Central American categories.

**India finishes at the top of the table**

India’s performance at the 26th World Boxing Championships has been commendable. The team has won a total of 21 medals, including 13 gold medals. The top six teams in the South American and Central American categories will be lead by No. 18 of the list for most Davis Cup match wins by a Serbian player. Argentina. Djokovic helped Serbia win its first Davis Cup title in 2010. Djokovic has helped Serbia win its first Davis Cup title in 2010.

**Australian rally to beat Cez Republic**

Kuldeep, Siraj and Rahul react after World Cup heartbreak

**FT NEW DELHI**

Some of India’s World Cup heroes, including Kuldeep, Siraj and Mohammed Shami, expressed their feelings after the side crashed out of the tournament in the semi-final staged at Cape Town, with England defeating them by 10 wickets.

Kuldeep Yadav on Thursday acknowledged the pain of defeat for India as he and Mohammed Shami said they felt “tremendous pain” due to losing such a crucial tournament.

"We respected the opposition, prepared well and gave our best to bring the game home, but things didn’t go our way in the last few overs," Kuldeep said.

Kuldeep Yadav on Thursday acknowledged the pain of defeat for India as he and Mohammed Shami said they felt “tremendous pain” due to losing such a crucial tournament.

"We respected the opposition, prepared well and gave our best to bring the game home, but things didn’t go our way in the last few overs," Kuldeep said.

"It’s been a tough loss to take," Shami added. "For us as cricketers, the moment of greatest pain is when you know you gave your best but it didn’t work out.

India’s captain Virat Kohli also addressed the media who are in the country for the ICC World Cup 2023 and said that the team will bounce back stronger from this loss.

"This is a very difficult period for us and we need to regroup and come back stronger," Kohli said.

#### Rohit’s doesn’t need to be taught to score hundreds, Ashwin backs skipper

India’s Test skipper Ajinkya Rahane also backed opening batsman Rohit Sharma. Rohit was dismissed for 116 in the semi-final, but Ashwin said the 359-run partnership for the third wicket between Rohit and Shikhar Dhawan showed that Ashwin backs skipper Rohit Sharma. Rohit was dismissed for 116 in the semi-final, but Ashwin said the 359-run partnership for the third wicket between Rohit and Shikhar Dhawan showed that Rohit doesn’t need to be taught to score hundreds.

Ashwin said, “Rohit doesn’t need to be taught to score hundreds. He knows how to score hundreds. He has scored hundreds in the past and he will continue to score hundreds in the future. He is a very talented player and he knows how to handle pressure. He is a very important player for us and he will continue to score hundreds in the future.”

#### Snubbed Chahal grabs six wickets

All-rounder Chahal didn’t get to bowl on the final day, but he grabbed six wickets in the semi-final against India in Cape Town on Thursday.

Chahal took 6/122 in the first innings and then went on to take 5/158 in the second innings to help India reach the World Cup final.

“I think I showed that I can take six wickets in a match,” Chahal said. “I really wanted to show my talent and I think I did that today.”

Chahal’s performance was crucial in helping India claim their third World Cup title in 2013.
