All 41 workers trapped in Uttarkashi tunnel safely evacuated after 16 days

PIONEER NEWS SERVICE /PTI ■
DEHRADUN/UTTARKASHI

As the workers trapped in the Silkyara tunnel emerged on Tuesday night, a mix of smiles and expressions of gratitude and exhaustion adorned their faces, marking the end of their 17-day ordeal. A collective sigh of relief swept across the nation. Outside the tunnel, loud cheers and slogans filled the air as people welcomed the ambulances transporting the workers to community health centres, and locals took to the streets to share in the jubilation.

Anxious relatives who had been camping in the area were emotional as they were united with the workers after days of uncertainty. Back home, many said they will celebrate Diwali now as the shadow of despair that had fallen on the families disappeared.

"Finally, God heard us. My brother could be rescued. I am with him in an ambulance on the way to hospital," Sunil, who was camping outside the tunnel in Uttarkashi, told PTI in a choked voice.

Sunil's brother Anil was among the three youths from Kherabera in Jharkhand who were trapped in the tunnel.

"All are fine and healthy. I have spoken to a few of them," said a rescue worker as media persons who staked out at the site

Jubilation as the trapped workers come out of the collapsed Silkyara Tunnel in Uttarkashi on Tuesday. Uttarakhand Chief Minister Pushkar Singh Dhami and Union Minister of State for Road Transport & Highways VK Singh greet them

PTI

for over two weeks and others rushed to ask about the well-being of the workers who were emerging from the tunnel where they were trapped since Diwali morning.

Prime Minister Narendra Modi lauded a successful operation that rescued 41 workers

trapped in an under-construction road tunnel in Uttarakhand on Tuesday, asserting that everyone involved in the mission has created an amazing example of humanity and teamwork.

Modi also said the multi-agency rescue exercise has

made everyone emotional.

In a post on X soon after the workers were brought out of the Silkyara tunnel in Uttarkashi, the Prime Minister saluted the spirit of those involved in the operation and said their courage and resolve have given a new lease of life to

the 41 labourers.

"Everyone involved in the mission has created an amazing example of humanity and teamwork. It is a matter of great satisfaction that these friends of ours will meet their dear ones after a long wait," Modi said. Uttarakhand Chief Minister

Pushkar Singh Dhami and Union minister VK Singh welcomed the 41 workers with garlands, shook hands and embraced them, while the rescue teams and officials clapped. Families of the workers, most of whom are from Jharkhand and UP, were glued to television and phones after the news emerged that they could be rescued any time. Sweets were distributed and crackers were burst at some places.

"It is like a new birth," said a relative of Dhiren and Benudhar in the Mayurbhanj district in Odisha.

The families of six workers from Shravasti, Uttar Pradesh, lighted candles and lamps around the house.

"We will celebrate Diwali now that my son is safe," said Anju, mother of Akhilesh, from Mirzapur.

In Khirabada, villagers distributed 'laddoos' after the successful rescue. Rajendra, Sukhrum and Anil, all in their early 20s, from the village, were among those trapped inside the tunnel for 17 days. Sukhrum's sister Khushboo said that everyone in their village was celebrating.

According to Ram Kumar Bediya, a villager, a group of 13 people, between 18 and 23, had left Khirabada on November 1 to work at the tunnel. When the disaster struck, three of them were working inside.

Curbs on vehicles lifted as air betters

STAFF REPORTER ■ NEW DELHI

As the air quality in Delhi and its surrounding areas marginally improved due to rain and favourable wind speed, influenced by a western disturbance affecting northwest India, the Commission for Air Quality Management in the National Capital Region and Adjoining Areas (CAQM) removed restrictions under stage III of the Graded Response Action Plan (GRAP) on Tuesday with immediate effect.

The commission allowed construction and demolition activities, as well as the operation of BS III petrol and BS IV diesel four-wheelers in Delhi and NCR, which were previously banned by this order.

The Commission stated that the restrictions under the first and second stages of GRAP will continue. According to air quality forecasts from the India Meteorological Department (IMD) and the Indian Institute of Tropical Meteorology, there is no indication that the average air quality in Delhi will reach the 'severe' category in the upcoming days for which forecasts are available.

The decision to revoke the third stage of the GRAP was made at the subcommittee meeting held on Tuesday following an improvement in air quality, it said. The average Air Quality Index (AQI) in Delhi was 365 at 8 am on Tuesday, which reduced to 312 at 4 pm, showing improvement from 395 on Monday. Light rain was reported in parts of the national capital, while the minimum temperature settled at 14.2 degrees Celsius, four notches above the season's average, on Tuesday.

According to the IMD, the national Capital recorded 7 mm of rainfall in the last 24 hours till 8.30 am on Tuesday. The wind speed improved to 20 kilometres per hour, aiding in the dispersion of pollutants.

Telangana gears up for high stakes polls

PIONEER NEWS SERVICE ■
NEW DELHI/HYDERABAD

The curtains came down on the month-long high-pitched poll campaign in five States, with the last day of the campaign in Telangana on Tuesday. The State will go to polls on Thursday. The results, including those from the other four States (Madhya Pradesh, Chhattisgarh, Rajasthan, and Mizoram), will be declared on December 3.

The State witnessed an electrified campaign by BRS, a high-powered BJP campaign led by Prime Minister Narendra Modi with several roadshows, and a high-stakes campaign by the Congress, looking forward to forming its first government after the State was bifurcated by the UPA government. BRS has fielded candidates in all 119 seats. According to the seat-sharing agreement, BJP and Jana Sena are contesting in 111 and 8 seats, respectively, while Congress has given one seat to its ally CPI(M). Asaduddin Owaisi-led AIMIM has put up candidates in nine segments in the city. BRS is trying to retain power for a third consecutive term, while Congress has been fighting tooth and nail to wrest power from it.

The BJP has left no stone unturned to come to power. A total of 2,290 contestants are in the fray for the upcoming elections, including BRS supremo and Chief Minister K Chandrasekhar Rao, his minister-son K T Rama Rao,

TPCC president A Revanth Reddy, and BJP Lok Sabha members Bandi Sanjay Kumar, D Arvind, and Soyam Babu Rao. KCR is contesting from Gajwel and Kamareddy and Revanth Reddy is contesting from Kodangal and Kamareddy.

The BJP fielded its MLA, Etala Rajender, from Gajwel, in addition to Huzurabad, where he is the incumbent legislator. Apart from PM Modi, several Union ministers, including Rajnath Singh and Amit Shah, and Congress leaders Mallikarjun Kharge and Rahul Gandhi, campaigned for votes for their respective party candidates. The BRS campaign centred around the failures of the previous Congress regime and ongoing welfare measures for farmers and women.

Rao also highlighted his struggle to achieve Telangana statehood. Congress focused mainly on the alleged corruption of the BRS government while highlighting its "six guarantees." BJP's campaign emphasised the necessity of a "double engine government" and pointed to the "family rule" of KCR, alleging corruption. To the embarrassment of the ruling KCR government, the National Dam Safety Authority gave an adverse report on the sinking of a barrage, which is part of the Kaleshwaram irrigation project, providing ammunition to the Opposition. Over 2.5 lakh staff will be engaged in poll duties for the assembly elections,

18 per cent candidates face criminal charges

RAJESH KUMAR ■ NEW DELHI

As many as 18 per cent of the total 8,054 candidates contesting the elections in Mizoram, Chhattisgarh, Madhya Pradesh, Rajasthan, and Telangana have criminal cases registered against them. Telangana tops the list among, where major political parties including BRS, Congress, and BJP have fielded candidates with criminal records ranging from 24 to 72 per cent.

According to a report by the Association for Democratic Reforms (ADR), out of the 8,051 candidates analysed in five States who contested the Assembly elections, as many as 1,452 have criminal cases registered against them, while 959 are facing serious charges. For the 119-member Telangana Assembly, the ADR said it has the highest number of candidates with criminal records. Between 24 per cent and 72 per cent of candidates from all major parties contesting elections in the State have declared criminal cases against them. The political parties have fielded candidates with criminal records ranging from 6 per cent to 72 per cent in Rajasthan.

Of the 2,290 candidates in Telangana, 521 (23 per cent)

have criminal cases against them, while 353 (15 per cent) have serious criminal cases against them, the report said. It also stated that BRS, which is contesting on all 119 seats in Telangana, has fielded 57 candidates with criminal cases against them, while 34 of them are facing serious criminal cases.

The figures are lowest for Mizoram, where between 3 per cent and 10 per cent of candidates from major parties have criminal records, and none of the candidates have declared cases related to crimes against women, attempt to murder, and murder.

In Chhattisgarh, out of 1,178 candidates analysed, 126 candidates have declared criminal cases, while 72 have serious cases against them. Out of 2,534 candidates analyzed in Madhya Pradesh, 472 candidates have criminal cases against them, while 291 have declared serious criminal cases. In Rajasthan, the report claimed that out of 1,875 candidates, 326 are facing criminal cases while 236 are facing serious criminal cases. The report also said that Congress, which fielded 677 candidates, has 268 candidates with criminal cases and 162 with serious criminal cases.

India poised to become second largest egg producer

RAJESH KUMAR ■ NEW DELHI

The survey report from the Ministry of Fisheries, Animal Husbandry, and Dairying indicated an upswing in the production of milk, eggs, and meat in the country. According to the report, the total milk production in the country is estimated to be 230.58 million tonnes in 2022-23, reflecting a 3.83 per cent increase over the estimates of 2021-22. The egg production is projected to be 138.38 billion, marking a 6.77 per cent rise compared to the previous year. This may make India the second largest producer of eggs.

Additionally, meat production is expected to reach 9.77 million tonnes, representing a 5.62 per cent increase over the previous year.

The survey report is based on the results of the Integrated Sample Survey (ISS), conducted nationwide in three seasons: Summer (March-June), Rainy (July-October), and Winter (November-February). India continues to maintain its position as the largest milk-producing country globally. According to the report, the total milk production in the country is estimated at 230.58 million tonnes during 2022-23, reflecting a growth of 22.81 per

cent over the past five years, from 187.75 million tonnes in 2018-19. Furthermore, there has been a 3.83% increase in production during 2022-23 compared to the estimates of 2021-22. In previous years, the annual growth rates were 6.47 per cent in 2018-19, 5.69 per cent in 2019-20, 5.81 per cent in 2020-21, and 5.77 per cent in 2021-22.

The milk production from exotic/crossbred cattle increased by 6.16 per cent, while that from indigenous or non-descript cattle rose by 6.13 per cent compared to the previous year. Additionally, milk production from buffaloes

increased by 4.44 per cent compared to 2021, with indigenous buffaloes contributing 31.58 per cent of the total production, followed by 29.91 per cent from crossbred cattle. During 2022-23, the highest milk-producing state was Uttar Pradesh, accounting for 15.72 per cent of the total milk pro-

duction, followed by Rajasthan (14.44 per cent), Madhya Pradesh (8.73 per cent), Gujarat (7.49 per cent), and Andhra Pradesh (6.7 per cent). In terms of annual growth rate (AGR), Karnataka recorded the highest AGR at 8.76 per cent, followed by West Bengal at 8.65 per cent, and Uttar Pradesh at 6.99 per cent over the previous year.

The total egg production in the country is estimated to be 138.38 billion during 2022-23, marking a growth of 33.31 per cent over the past 5 years compared to the estimates of 103.80 billion in 2018-19. Furthermore, the production

increased annually by 6.77 per cent during 2022-23 over 2021-22. In the past, the annual growth rates were 9.02 per cent in 2018-19, 10.19 per cent in 2019-20, 6.70 per cent in 2020-21, and 6.19 per cent in 2021-22.

The contribution to the total egg production comes from Andhra Pradesh with a share of 20.13 per cent, followed by Tamil Nadu (15.58 per cent), Telangana (12.77 per cent), West Bengal (9.94 per cent), and Karnataka (6.51 per cent). In terms of the Annual Growth Rate (AGR), the highest growth rate was recorded by West Bengal (20.10 per cent), fol-

lowed by Sikkim (18.93 per cent), and UP (12.80 per cent). The total meat production in the country is estimated to be 9.77 million tonnes during 2022-23, registering a growth of 20.39 per cent over the past 5 years compared to the estimates of 8.11 million tonnes in 2018-19. Furthermore, the production increased by 5.13 per cent in 2022-23 over 2021-22. In the past, the growth rates were 5.99 per cent in 2018-19, 5.98 per cent in 2019-20, 2.30 per cent in 2020-21, and 5.62 per cent in 2021-22.

The major contribution to the total meat production comes from Uttar Pradesh with a

share of 12.20 per cent, followed by West Bengal (11.93 per cent), Maharashtra (11.50 per cent), Andhra Pradesh (11.20 per cent), and Telangana (11.06 per cent). In terms of the growth, the highest AGR was recorded in Sikkim (63.08 per cent), followed by Meghalaya (38.34 per cent), and Goa (22.98 per cent).

India's wool production rose by 2 per cent to 33.61 million kg during 2022-23, registering a negative growth of 16.84 per cent compared to 2018-19 when output was 40.42 million kg. However, the production increased by 2.12 per cent in 2022-23 over 2021-22.

Cold conditions prevail, school timings change in Bhopal

STAFF REPORTER ■ BHOPAL

In the wake of intense cold weather conditions in the state capital Bhopal, schools from nursery to Class 5 will not start before 9 am as Collector Ashish Singh has issued this order on Tuesday in view of the cold conditions. The Meteorological Department in the capital has predicted rain for the next four days i.e. till December 1. Due to Western Disturbance, there are chances of rain in the first week of December also. It drizzled in the capital on Tuesday morning. After 10 o'clock the fog cleared and the sun shone. On Monday, intermittent drizzle during

day and night has brought down the day temperature. On Monday, the day temperature dropped by 6.9 degrees to 20.8 degrees. It was 7 degrees less than normal. This is also the lowest day temperature in November in 25 years. Due to humidity the night temperature will be between 15-16 degrees Celsius. Senior meteorologist Dr. Vedprakash Singh said that the system is becoming active again on 29-30 November. Due to this, there will be rainy season in many districts of the state including Bhopal till December 1. In the next 24 hours weather will remain clear in most areas, but there may be drizzle in some parts of the old city and Kolar.

There may be light rain in Berasia, Navibag areas. There will be thunderstorms in other areas within 48 hours. On December 1 light rain is expected in urban areas including Berasia. Meanwhile, sunny and shady weather will also persist. Bhopal has received about half an inch of rain in the last 24 hours (from Sunday morning to Monday morning). This is the highest 1-day rainfall in November in 10 years. 54 years ago, the capital had received the highest rainfall of more than 3 inches in a single day in the month of November. Madhya Pradesh Tourism PRO Vikas Khare said that in view of the demand, 8 new boats have also been

included recently. According to the Meteorological Centre, Bhopal, the weather is generally calm after the end of the south-west monsoon. This month the sky remains clear or surrounded by light clouds. However, November is not as humid as October. The night temperature starts falling. There is also slight coolness in the morning and evening. This time also the weather is similar. The period of rain started from late Sunday night, which continued on Monday also. The weather will remain like this for the next three-four days. According to the Meteorological Department, Bhopal received rain only for three

years between 2013 and 2023. There was 0.6 mm rainfall in the year 2019 and 0.2 mm rainfall in 2020, whereas this time 8.2 mm rainfall occurred in a few hours. Meteorologist Dr. Singh said that the effect of cold will increase in Bhopal from the first week of December. On November 4, 1977, the day temperature reached 35.3 degrees Celsius. This is the all-time record for such a temperature in November. On November 30, 1941, the night temperature reached 6.1 degrees. In the year 1936, there was 134.1 mm or 5.2 inches of rain in the entire month. The record of highest rainfall in 24 hours is 76.4 mm i.e. 3 inches on November 10, 1969.

Indore police to hand over school case to JJB

PNS ■ INDORE

The Indore police have decided to hand over the case of three students allegedly attacking their grade 4 classmate with a geometry compass more than 100 times at a private school in Indore to the Juvenile Justice Board (JJB). Police will also prepare a social background report of the children related to this case and present it before the Juvenile Justice Board along with the victim's medical examination report and other documents, he said. Three students allegedly attacked their classmate more than 100 times with a geometry compass during a fight on November 24, inflicting multiple puncture wounds. All of them are below 10 years of age. However, the exact trigger behind the incident is not known. "The case of alleged attack on a

class four student of a private school by his classmate with a geometry compass will be handed over to the Juvenile Justice Board as per the provisions of the Juvenile Justice Act," Additional Deputy Commissioner of Police, Alok Kumar Sharma, told. The school is situated in the Aerodrome police station area of the city. Sharma said the investigating officer of the Special Juvenile Police Unit of the police station will prepare a social background report of the children related to the case. "This report will be presented before the Juvenile Justice Board along with the victim's medical examination (report) and other related documents," he said. Sharma further said police have spoken with the concerned children, their families, and the school management regarding the incident.

However, the police have not disclosed the reason behind the fight among the children and the attack. When asked, Aerodrome police station incharge Rajesh Sahu said, "All that is known right now is that the children fought among themselves in their classroom. The reason for the fight between them will become clear only after they are counselled by experts". He said the Child Welfare Committee (CWC) has also taken cognizance of the incident. CWC chairperson Pallavi Porwal had said the student was allegedly attacked 108 times with a geometry compass by his classmates during a fight at their school on November 24. The father of the victim had said that his son sustained puncture wounds in the attack. The boy was taken to a hospital, administered first aid and allowed to leave.

PNS ■ JABALPUR

The five-days event, organized by Recruitment Coordination Committee of Batch 2024 and Internship Cell of the University, aimed to facilitate direct interaction between students and distinguished legal professionals and gain practical insights from an impressive lineup of renowned speakers representing various law firms and advocates from Madhya Pradesh High Court. The conclave featured 21 sessions encompassing panel discussions, technical sessions, and interactive sessions covering disciplines such as Corporate Law, Litigation, Intellectual Property Rights, Technology & Media Law, and Dispute Resolution. Esteemed guest speakers and panelists, including Sandeep Bhuraria, Senior Partner at Zeus Law

Associates, Gauhar Mirza, Partner at Cyril Amarchand Mangaldas, Ateev Mathur, Partner at SNG & Partners, Shreya Suri, Partner at IndusLaw, Prabhakaran Ramachandran, Managing Partner at Lincoln Global Law Chambers, Ranit Basu, Partner

at Bridgehead Law Partners, Vaibhav Gaggar, Chambers of Vaibhav Gaggar, Jai Patil, Advocate at JS Advocates & Legal Consultant, Manish Kumar Mishra, Partner at Intl Advocate, Varun Tankha, Partner at VSA Legal, Tanya Prasad, CIO at LegalPay,

CEO Rajan clarifies on sorting of postal ballot video of Balaghat

STAFF REPORTER ■ BHOPAL

Chief Electoral Officer (CEO) Anupam Rajan's clarification came after video of early soring of postal ballot papers in Balaghat. He said that the report of this entire matter has been sent to the Central Election Commission. At present the nodal officer has been suspended in this case. A procedural error has occurred. Rajan said that no counting of ballot papers has been done. Only assembly wise sorting of postal letters was being done. The sorting of the ballot paper was done in the presence of representatives of political parties. Sorting was to happen at the scheduled time of 3 pm, but the nodal officer started sorting from 1:30 pm. Besides this, he also did not give proper information about sorting. In such a situation, due to this procedural error the nodal officer has been removed. A detailed report of the matter has been sent to the Election Commission. Meanwhile in Khandwa 123 postal ballots of police personnel in Khandwa have been invalidated. Chief Electoral Officer Anupam Rajan said that the voting through postal ballot in

Khandwa on November 20 has been rejected. The report of this entire matter has also been sent to the Commission. Along with this, as per the instructions of the Commission, action will be taken against the officer conducting the voting in the case. In Khandwa, the SP had cast the votes of the policemen who were deprived of voting due to duty in the elections on November 20. Anupam Rajan also said that there is a proposal to increase the table so that the Bhopal counting of votes can be done on time and the results can come soon. Where there were more polling stations, the counting table could be increased. Discussion is still going on in this matter and a decision will be taken soon.

BSNL officer caught accepting bribe

Bhopal: The CBI has arrested a Principal General Manager and an SDE, both working in Bharat Sanchar Nigam Limited (BSNL), Bhopal in bribery of Rs 15,000. A case was registered on complaint against an SDE & a Principal General Manager, both working in BSNL, Bhopal on the allegations of demanding undue advantage from Complainant. It was alleged that a chargesheet for departmental disciplinary action was issued to the Complainant by PGM and the further proceedings in the matter were pending. It was further alleged that the SDE demanded undue advantage of Rs 40,000 from Complainant and informed him that the PGM of BSNL had demanded the said bribe for amicable settlement of pending chargesheet in his favour. It was also alleged that said SDE told the Complainant that in case, he would not pay the demanded bribe, then PGM would take strict action against him. The SDE also allegedly informed the Complainant that the PGM had asked to initially pay an amount of Rs 15,000 out of total bribe of Rs 40,000 and rest of the amount can be given subsequently. CBI laid a trap and caught the Principal General Manager while accepting bribe of Rs 15000 from Complainant.

Dr Tanya presents her research paper in Asian Congress of Pediatric Nephrology

PNS ■ INDORE

Dr Tanya Sharma, Associate Professor in the Department of Pathology and Lab Medicine at AIIMS Bhopal, showcased her research on the 'Role of novel biomarkers as early predictors of sickle cell nephropathy in children with sickle cell disease in Indian children' at the 15th Asian Congress of Pediatric Nephrology held recently in Dubai, UAE. Out of a pool of 387 global abstract submissions, Dr. Sharma's scientific oral presentation was selected as one of the 12 presented at the prestigious conference. Her presentation highlighted the critical early changes of sickle cell nephropathy that manifest in childhood. Identifying these changes at an early stage is crucial for timely intervention, with the goal of reducing morbidity and mortality in adulthood. Renal complications are a significant contributor to the mortality of adult survivors of sickle cell disease. Dr. Sharma underscored the

necessity of exploring the role of novel biomarkers for the early identification of sickle cell nephropathy. The presentation delved into the potential of biomarkers such as cystatin C, NGAL, NAG, and KIM1 in pediatric sickle cell patients, demonstrating their promise for early detection of nephropathy and accurate estimation of kidney functions. Dr. Tanya Sharma's research is part of the Indian Council of Medical Research (ICMR) multicentric initiative, the 'Indian Sickle Cell Nephropathy Consortium' where she serves as the Principal Investigator. This consortium is dedicated to advancing knowledge and understanding of sickle cell nephropathy, contributing significantly to the global efforts in addressing this critical health issue. Prof (Dr) Ajai Singh, Executive Director, AIIMS Bhopal, congratulated Dr. Tanya Sharma for her presentation at the 15th Asian Congress of Pediatric Nephrology.

PNS ■ GWALIOR

In the new year, the city residents will get the gift of a new international level state-of-the-art terminal. With this Gwalior will have direct air connectivity with about two dozen cities. After the opening of the terminal, direct flights will be available to various cities of the state and the country. As of now, services are available for Delhi, Mumbai, Kolkata, Bangalore, Indore, Jammu and Hyderabad. In the near future, regular direct flights will be available to other cities including Ahmedabad, Pune, Goa, Varanasi, Prayagraj, Bhubaneswar, Nanded and Bhopal. Talking to media persons here, the Gwalior Airport manager said that Gwalior is gaining pace of development and creating new dimensions for a better future. The interna-

tional airport is a picture of the future of a city taking off at a fast pace of development, when it takes shape, Gwalior will leave its own mark not only in the country but also abroad. He added that in the very first month of the coming new year, the city will get the gift of an international level airport in the form of Rajmata Vijayaraje Scindia Airport. The new airport, which will write a new story of progress in Gwalior-Chambal region, will be dedicated to the public in the new

year. This new terminal, which is being built at a cost of Rs 450 crore, is being constructed in 20 thousand 230 square meters. 92 percent work of this new terminal, which has a five star rating from Green Rating for Integrated Habitat Assessment (GRIHA), has been completed. The construction work will be completed by December 31. The terminal building has been constructed with modern facilities and innovative technology. Elaborating further, he said that Two new runways have been built, where nine Airbus of A-320 series and four series of Q-400 aircraft can operate easily. International level facilities will be provided to the pas-

sengers in the terminal. Aerobridge facilities will be available for physically challenged people. There will be arrangements for high security at the entry gate for the passengers. Aerobridge, lift and accelerator facilities will be available. Child care room and other facilities will be available. There will be retail outlets of branded companies for the passengers. You will also be able to taste delicious food in the restaurant. There will be a parking zone with a huge and organized green park. Where 400 cars can be parked. A six-lane high level entry and exit road has been constructed for smooth flow of traffic during peak hours. It has been equipped with tree plantation and beautification for environmental protection. Passengers will enjoy premium lounge access with the Holiday Inn Express or in transit sleeping pods.

Widespread unseasonal rains in various districts of Chhattisgarh on Tuesday afternoon pushed down the temperature greatly. The rainfall was accompanied with winds.

The cites of Raipur, Durg and Rajnandgaon were lashed with moderate rains.

Chhattisgarh woke up to a cool morning on Tuesday followed by the unseasonal rainfall after noon.

Due to fog, visibility was poor in the morning, posing difficulties to motorists.

The meteorological

department said the change in weather condition was due to western disturbances and due to a cyclic cyclonic upper wind

which was extended over Rajasthan and Madhya Pradesh.

Chhattisgarh will witness

a similar weather on Wednesday too. Heavy rainfall with lightning is expected in one or two places in state, the

The cites of Raipur, Durg and Rajnandgaon were lashed with moderate rains.

Met said.

Northern Chhattisgarh in particular will see inclement weather.

Chhattisgarh all set to host international T-20 on Dec 1

STAFF REPORTER ■
RAIPUR

Enthusiastic cricket fans stood in a long queue from early Tuesday to get tickets for a T-20 cricket match to be played between India and Australia on December 1 evening here. The match will

be organized at the Shaheed Veer Narayan Singh International Cricket Stadium in Nava Raipur.

The cricket fans, mainly college students, who reached from Bilaspur, Rajnandgaon, Durg-Bhilai and other cities, gathered to buy the tickets from four counters, two of

them for students.

The tickets are available for youngsters at Rs 1,000 in the student quota. Also there are tickets between Rs 2,000 and Rs 3,000 for the upper gallery. The Indian and Australian Cricket teams will arrive on November 29 and will practice the next day.

Cong demands Rs 3,100 as paddy support price

STAFF REPORTER ■
RAIPUR

The Congress in Chhattisgarh on Tuesday asked the Modi government to declare Rs 3,100 as

paddy support price instead of making the promise in only states which are facing elections.

PCC chief Deepak Baij said in statement that farmers and paddy crop are a matter of concern to the BJP only during elections.

The BJP had always cheated farmers, he said.

Prime Minister Narendra Modi hails from Gujarat and is at present an MP from Varanasi in Uttar Pradesh but farmers in these areas sell their paddy crop at a throwaway price of 1,400-1,500 a quintal, Baij said.

Modi will not declare Rs 3,100 paddy price for the entire country as the promise is an election gimmick, he added.

Minister for precautions against mystery disease

STAFF REPORTER ■
RAIPUR

Chhattisgarh Health Minister T.S. Singh Deo has called for preparedness against the spread of a respiratory disease which has caused havoc in China.

Singh Deo said in a statement that for the past few days the unknown disease has affected a large number of children.

While an Indian government advisory states that it is not a cause for concern, as a precaution "we have advised all units within the Health Department to implement

necessary precautions", he said. The Department is gearing up to confront any

challenges arising from this evolving scenario, he added.

Six govt employees suspended for dereliction in poll duty

STAFF REPORTER ■
JASHPUR

Six government employees were suspended on Monday for being absent from election duty in Jashpur district of Chhattisgarh.

Head Masters Amal Singh and Sele Khakha, Assistant Teachers

Ramlakhan Baiga and Basant Kumar Suren and Assistant Grade-III Ramcharan Lakra and Shankar Ram Chauhan have been suspended, an official statement said.

The six were posted at polling booth number 14 in Pathalgaon on November 17 but they did not report for work.

Cop injured in suicide bid

STAFF REPORTER ■
SUKMA

A 25-year-old constable was injured after he shot himself inside a police station with his service rifle in Chhattisgarh's Sukma district, police said Tuesday.

The incident took place on Monday night at the Chhindigarh police station premises, Sukma Superintendent of Police Kiran Chavan said.

Constable Narendra Negi shot himself on the right chest with an Insas rifle. Chavan said he was rushed to the district hospital.

"As per preliminary information, Negi was undergoing treatment for a long time for an old head injury and was disturbed as he was not getting cured.

Constable Narendra Negi shot himself on the right chest with an Insas rifle. Chavan said he was rushed to the district hospital.

Prima facie, this could be the reason for his suicide attempt," the official said.

Preparations to count votes polled in the Chhattisgarh Assembly elections end after training sessions for officials and employees. The Election Commission will undertake the counting simultaneously in 14 tables each in all 90 constituencies.

Is working 70 hours a week the solution to improving productivity?

IAN S ■

Recently, Narayan Murthy asserted that young professionals in India should consider working 70 hours per week to help the nation catch up with countries that have made tremendous economic strides in the past two to three decades. His remarks triggered a fierce debate across social platforms on a crucial concern, the state of work-life balance in India and its implications on productivity and well-being.

In his interview, Narayan Murthy sought to express that India's youth has immense potential to drive the country's growth story. This sentiment is also reflected in one of Prime Minister Narendra Modi's speeches - "The whole world is looking at India's youth with hope because you are the growth engine of the country and India is the world's growth engine." However, India's per capita productivity falls behind on the global scale which is why Murthy proposed a solution, suggesting that until our young workforce achieves parity with its global counterparts, it should consider extending its work

hours to improve productivity.

This necessitates the need to assess the current state of employee productivity in India. According to a recent survey revealed by Statista in Aug 2023, a global data and business intelligence platform, a staggering 43 percent of employees in India spend most of their work hours being performative (appearing busy) rather than productive. India ranks first among the nine countries evaluated in this study, with Japan and Singapore following closely behind at 37 percent and 36 percent, respectively. This spotlights the need to enhance efficiency during our working hours.

Murthy correctly emphasises the need for improvement in work productivity. In spite of working longer hours than the global average, India's work productivity ranks among the lowest worldwide. This has been corroborated by various studies. According to The Lancet study, India's expected human capital, indicating the number of years an individual can work at peak productivity, is one of the lowest. India ranks

158 out of 195 countries, indicating that Indians work at their peak productivity for only seven years, in contrast to the top-ranked Finland, where the figure is 28 years. In addition, the data compiled by Organisation of Economic Cooperation and Development (OECD) in 2015 revealed longer work hours don't necessarily translate into higher productivity.

Undoubtedly, low productivity is a concern that requires attention. However, is working 70 hours a week the solution to improving productivity?

According to a study conducted by ASSOCHAM, an alarming 42.5% of corporate employees in India exhibit symptoms of depression or general anxiety disorders. Furthermore, another report by ASSOCHAM disclosed that nearly 56% of corporate employees sleep less than 6 hours a day due to mounting stress levels. It is evident that we are functioning in a high-stress environment, dealing with the repercussions of the pandemic, economic recession, and periods of

slowdown. As indicated by these findings, increasing the work hours will only complicate the issue further.

Therefore, while focussing on enhancing productivity, there is merit in facilitating a balance between productivity and employee wellbeing. So, what strategies can we employ to achieve this?

Flexible work arrangements can make a positive impact in managing work-life while engaging the workforce to deliver agreed goals. This is amply corroborated by a Gartner survey demonstrating a 44% reduction in worker fatigue, a 45% increase in intent to stay, and a 28% boost in employee performance in human-centric hybrid or remote work setups. These arrangements also save employees the precious time they would otherwise lose in commuting to the office. Employees must continue to prioritise the overall well-being of employees, promoting stress management programs, offering coaching services, and creating a supportive, inclusive work environment. Creating ergonomic and comfortable

workspaces, both in physical offices and remote setups can contribute to employee well-being and productivity.

Investing in comprehensive training and skill-based development programs like digital literacy can help improve on-the-job performance. By adopting this approach, organisations can enhance productivity without increasing working hours.

Streamlining administrative processes and reducing bureaucracy can save valuable time for both employees and organisations. Using cutting-edge technology such as AI to simplify tasks and reduce paperwork can significantly boost productivity.

For sustained national growth, the emphasis should be on adopting measures to enhance people's productivity, rather than resorting to extended work hours. By promoting efficiency, embracing modern work practices, and supporting employee well-being, India can establish a balance that not only enriches its workforce but also fuels its economic prosperity.

Modi to distribute 51,000 job letters

PIONEER NEWS SERVICE ■ NEW DELHI

Prime Minister Narendra Modi will distribute more than 51,000 appointment letters to newly inducted employees of different government departments on November 30 via video-conferencing and also address them, the Prime Minister's Office (PMO) said on Tuesday.

The programme is being held at 37 locations across the country as part of the 'Rozgar Mela', and recruitment is taking place in various central government departments as well as state governments and UTs supporting this initiative, the PMO said.

The departments they will join are revenue, home affairs, higher education, school education and literacy, financial services, defence, health and family welfare, and labour and employment among others.

"Rozgar Mela is a step towards fulfilment of the commitment

of the prime minister to accord highest priority to employment generation.

It is expected to act as a catalyst in further employment generation and provide meaningful opportunities to the youth for their empowerment and participation in national development," the statement said.

The new appointees with their innovative ideas and role-related competencies will be contributing in the task of

strengthening industrial, economic and social development of the nation, helping realise Modi's vision of developed India, it added.

The new appointees are also getting an opportunity to train themselves through 'Karmayogi Prarambh', an online module on the iGOT Karmayogi portal where more than 800 e-learning courses have been made available for 'anywhere any device' learning format, it said.

'Cost of justice, use of English in higher judiciary obstacles to equal access to justice'

PIONEER NEWS SERVICE ■ NEW DELHI

President Droupadi Murmu on Tuesday said here the "cost" and the use of English language in the higher judiciary are among the hindrances in the way of equal access to justice, and emphasised on their removal.

Addressing a conference here, she emphasised on the need to launch an awareness campaign among people, living in rural areas and those from socially disadvantaged groups, to help them make them conscious of their rights and get legal assistance.

Murmu said, equality is not only the foundation of justice, but a necessary condition of it too. "It has been long since the world proclaimed that all human beings are equal, but we need to ask ourselves if we all have equal access to justice," she said.

In practice, it means some people are often unable to seek redressal of their grievances due to several factors, the president said.

ident said.

"Our principal task is to remove those obstacles. The chief obstacle, of course, is often the cost of justice," Murmu said, addressing the valedictory session of the first regional conference on 'Ensuring Access to Quality Legal Aid for the Vulnerable: Challenges and Opportunities in the Global South' here.

She said access to justice for all has been a theme close to her heart and mentioned several steps taken to help economi-

cally disadvantaged sections of society to approach legal institutions for remedial action.

Steps taken by the National Legal Services Authority, that is, NALSA, have also played a key role in expanding legal aid, the president said.

"The aim, on the whole, has been to advance 'ease of justice'. But I feel that there is a need to launch an awareness campaign among people not only to make them conscious of their rights, but also to help them get legal assistance, if

such a need arises," Murmu said.

Such an awareness campaign must focus on rural areas and socially disadvantaged groups to dispel the impression that justice is the advantage of the strong, the president said.

There are many more hindrances in the way of equal access to justice, she said. In India, for example, the language of the higher judiciary is English, which makes it difficult for a large section of society to understand the judicial processes, Murmu said.

"However, the Supreme Court of India has started publishing verdicts in various regional languages on its website. Legal aid institutions also help in bridging the language divide," she noted.

Murmu said technology holds great promise in making access to legal aid more democratic. "It has reduced distances and made justice dispensation easier in many cases... An innovative attitude in integration of technology in the justice deliv-

ery system will make it more inclusive as well as more efficient," the president said.

Murmu said the regional conference focuses on the Global South.

"Due to a variety of historical forces, this group of countries still continues to battle poverty. The task before us is to raise the standards of living for all. Gandhiji used to call it 'sarvodaya', the welfare of all. Access to justice is, naturally, a very important tool to achieve that goal," she said.

The Global South, then, faces challenges which are quite similar in nature yet they are different from the rest of the world, Murmu said, adding that "we can respond to these challenges by joining hands and by sharing our best practices."

"I believe that making legal aid accessible to people in need is the cornerstone of any modern state. It plays a crucial role in shaping a social order which is equitable, just and worthy of trust," Murmu said.

DAC meet to discuss ₹1.4 Lakh cr Defence acquisition proposals

PIONEER NEWS SERVICE ■ NEW DELHI

Mega proposals worth over Rs 1.4 lakh crore are likely to be discussed on Thursday here during the Defence Acquisition Council (DAC) meeting chaired by Defence Minister Rajnath Singh. The deals include a Rs 40,000 crore proposal for building the second indigenous aircraft carrier (IAC) and a nod for another 97 Tejas light combat aircraft worth over Rs 55,000 crores and 156 Prachand helicopters (90 for Army and 66 for IAF), sources said here on Tuesday.

The DAC is the apex body to clear the acquisition proposals forwarded by the three Services. The Cabinet Committee on Security (CCS) gives the final clearance for the deals.

As regards the second aircraft carrier, sources said the government is set to positively consider the Indian Navy's proposal. The Defence Procurement Board (DPB), a key body of the defence ministry, has accorded in-principle approval to the ambitious proposal signalling the government's readiness to go for the second indigenous aircraft carrier, to be known as IAC II.

The DAC is also likely to consider the Indian Air Force's proposal for procurement of an additional batch of 97 Tejas Mark-1A aircraft at a cost of Rs 55,000 crores, sources said.

The Navy has been making a strong push for having the IAC-II with a displacement of 45,000 tonnes which is esti-

mated to cost close to Rs 40,000 crore with the envisaged specifications.

India's first indigenously-built aircraft carrier INS Vikrant (IAC I) was commissioned in September by Prime Minister Narendra Modi.

Built at a cost of around Rs 23,000 crore, INS Vikrant has a sophisticated air defence network and anti-ship missile systems.

It has the capacity to hold 30 fighter jets and helicopters. At the commissioning ceremony of the vessel, Modi called it a "floating city" and that it is a reflection of India becoming self-reliant in defence.

Sources said the IAC II will be kind of a repeat order of the IAC I.

According to the plan, the IAC II will be built by state-run Cochin Shipyard.

The Navy has been pitching for three aircraft carriers to deal with China's growing naval prowess and its growing influence over the Indian Ocean region.

At present, India has two aircraft carriers -- INS

Vikramaditya and INS Vikrant. INS Vikramaditya is a Russian origin platform. The INS Vikrant has over 2,300 compartments, designed for a crew of around 1700 people, including specialised cabins to accommodate women officers.

Vikrant has a top speed of around 28 knots and a cruising speed of 18 knots with an endurance of about 7,500 nautical miles.

The IAC is 262 metres long, 62 metres wide and has a height of 59 metres.

On the procurement of additional 97 Tejas Mark 1A aircraft, the sources said the DAC is set to clear it. With the additional fleet, the number of indigenously-developed Tejas aircraft being procured by the IAF would go up to 180.

In February 2021, the defence ministry sealed a Rs 48,000 crore deal with state-run aerospace major Hindustan Aeronautics Ltd for procurement of 83 Tejas MK-1A jets for the IAF.

Centre may introduce legal safeguards for health workers: Panel

PIONEER NEWS SERVICE ■ NEW DELHI

A parliamentary standing committee has said the Centre may consider introducing appropriate legal safeguards for healthcare workers, who at times face violence from relatives or attendants of patients.

The Parliamentary Standing Committee on Home Affairs headed by BJP member Brij Lal, which examined the proposed three criminal laws, discussed a memorandum submitted by various medical associations requesting it to introduce provisions under Clause 115 of the Bharatiya Nyaya Sanhita (BNS) to penalise acts of violence against healthcare service personnel.

The committee, in its report, said it was submitted before the panel that unlike in any other professions, healthcare professionals are vulnerable to "violent attacks" by relatives of patients, in cases where patients die during treatment.

Such violent attacks against healthcare personnel are prevalent throughout the country and there is a need to provide some legal safeguards for the benefit of healthcare workers, the medical associations told the committee.

In its response, the Union Home Ministry said the general penal provisions are applicable to all and no distinction is made in the penal laws for any class of person. Everyone is equal in the eyes of law, the home ministry stressed.

The state is duty bound to protect life all its citizens, including doctors and professionals

like media persons, advocate, bankers, chartered accountants, etc. Making a special provision for doctors and other healthcare professionals may give rise to similar demands from other professionals like media persons, advocates, bankers, chartered accountants, the home ministry observed.

The home ministry also informed the committee that the Ministry of Health and Family Welfare has a proposal to introduce a 'Medical Professionals Act' to provide safeguards to healthcare workers against violent attacks, and that the home ministry would take an update from the Ministry of Health and Family Welfare on the same.

"After considering the concerns of the healthcare personnel, the committee opines that the government may consider introducing appropriate legal safeguards for healthcare workers," the committee noted.

The Clause 115 of the BNS says: Whoever voluntarily causes hurt, if the hurt which he intends to cause or knows himself to be likely to cause is grievous hurt, and if the hurt which he causes is grievous hurt, shall be punished with imprisonment of either description for a term which may extend to seven years, and shall also be liable to fine.

2nd edition of Kashi Tamil Sangamam from Dec 17

PNS ■ NEW DELHI

Union Education Ministry on Tuesday said the second edition of the Kashi Tamil Sangamam will be held from December 17-30. The sangamam aims at rediscovering, reaffirming and celebrating the age-old links between Tamil Nadu and Kashi two of the country's most important and ancient seats of learning. The first edition was a month-long event organised last year.

"In Phase-2 of KTS it is proposed that around 1400 people from Tamil Nadu and Puducherry will travel by train to Varanasi, Prayagraj and Ayodhya for an eight-day immersive tour, including the travel time," an official said.

They will be divided into seven groups of around 200 each, comprising students, teachers, farmers, artisans, traders, businesspeople, religious, writers and professionals, he said. "Each group will be named after a sacred river (Ganga, Yamuna, Saraswati, Sindhu, Narmada, Godavari and Kaveri)," the official of the ministry said.

Like the first edition, this edition too is being organised by the education ministry in collaboration with other ministries such as culture, textiles, railways, tourism, food processing, information and broadcasting, and the Uttar Pradesh government.

On the second edition, the official said, "The delegates will see places of historical, tourist and religious interest and interact with people of Uttar Pradesh from their

domains of work." KTS 2.0 would have a crisper format with emphasis on awareness generation and outreach, people-to-people connect and cultural involvement, he said.

"The focus would be on increased engagement and interaction with local counterparts (weavers, artisans, artists, entrepreneurs, writers etc) to get insights into best practices, enhance learning and cross pollination of ideas," the official said.

Stalls exhibiting art and culture, handlooms, handicrafts, cuisine, and other special products of Tamil Nadu and Kashi will be set up, the official said. "Cultural programmes blending the cultures of Tamil Nadu and Kashi will be organized at Namoh Ghat in Varanasi," he said.

Seminars, discussions, lectures, on various facets of knowledge like literature, ancient texts, philosophy, spirituality, music, dance, drama, yoga, ayurveda, handlooms, handicrafts as well as

the modern innovations, trade exchanges, edutech and other gen next technology will be highlights of the event, the official said.

"Apart from experts and scholars, local practical practitioners from Tamil Nadu and Varanasi will also participate in these exchanges so that a body of practical knowledge and innovations can emerge from the mutual learning in different fields," he said.

To capitalise upon learnings from the first edition and given their reputation for research, IIT Madras will serve as the implementing agency in Tamil Nadu and the Banaras Hindu University in Uttar Pradesh. "IIT Madras has called for applications on the KTS portal launched today, from people of Tamil Nadu and Puducherry who wish to participate in the programme. The selection of delegates will be done by a selection committee constituted for the purpose," the official said.

Protocol to train anganwadi workers to help divyang children launched

PIONEER NEWS SERVICE ■ NEW DELHI

The government on Tuesday launched a national protocol to provide for training of anganwadi workers to track and help children with disabilities. This is for the first time that anganwadi workers will spread awareness on the issue, Women and Child Development Minister Smriti Irani said.

"If we look at it from a community perspective, it is a silent revolution in our community," she said after the launch of the Anganwadi Protocol for Divyang Children. For the first time, "sisters from anganwadi will spread awareness that disability is not a challenge for society, but an opportunity for society to help a child. The mindset needs to be changed," Irani said.

She said the National Education Policy-2020 emphasises prioritising integration of divyang students into mainstream schools. "We know 85 per cent of a child's mental development happens by the age of 6. Today our education system has new provisions for divyang children..." she said.

Irani said grassroots level data about divyang children will become available through anganwadi workers, and the children can be further tracked through the Poshan tracker.

The anganwadi eco-system reaches out to over eight crore children from birth to six years on a daily basis, and is a critical access point for building the base of the country's children, according to a statement issued by the Women and Child Development Ministry.

According to the National Education Policy-2020, integration of divyang students into mainstream schools

should be prioritized, rather than establish segregated educational institutions.

The National Curriculum Framework for Foundational Stage 2022 further recommends approaches to addressing developmental delays and disability in schools, including advice on signs and symptoms, it said.

In pursuance of these approaches, the Poshan Bhi Padhai Bhi programme has adopted the national ECCE Taskforce recommendation for play-based and activity-based learning pedagogy and strongly advocates special and time-

ly support for divyang children, the statement said.

According to the Draft National Policy for Persons with Disabilities (Divyangjan) (2021), one-third of most disabilities in India are estimated to be preventable, if they are detected early enough and adequately addressed.

Through the 'Poshan Bhi Padhai Bhi's' targeted focus on strengthening the foundation for India's future generations, 13.9 lakh anganwadi centres will be up-skilled to adopt a multi-sensory and toy-based approach to address the different needs of children.

Bharat Boitech inks MoU with University of Sydney on advancing vaccine research

PIONEER NEWS SERVICE ■ NEW DELHI

Bharat Biotech and the University of Sydney Infectious Diseases Institute on Tuesday announced a memorandum of understanding between them to advance vaccine research initiatives, strengthen academic-industry partnerships and augment global efforts to combat infectious diseases.

The agreement aims to build strong sectoral and cross-organisational collaborations to design novel methodologies to tackle future epidemics and infectious diseases, Bharat Biotech said in a statement.

It also aims at leveraging academia-industry strengths to advance the science of vaccines and biotherapeutics, it added.

Dr Krishna Ella, the executive chairman at Bharat Biotech, said, "This agreement reflects our ethos to facilitate collaborative research, foster innovation, and further advance the science vaccine technology. "Mutually, we are excited about the new opportunities to strengthen our shared vision,

leverage the prowess of education, and research capabilities to help build a healthier universe and improve people's lives by developing safer vaccine platforms. Most importantly, build the talent of young scientists with a passion to innovate," he said.

Professor Jamie Triccas, the deputy director at Sydney ID said, "Positioning Sydney ID on a global scale to drive innovation and highlight our expertise in the development of new vaccines and biotherapeutics is paramount."

"The reputational and societal impacts of developing novel vaccines to eradicate human and animal diseases that are safe, affordable, and effective cannot be overstated. Together with Bharat Biotech International Limited, we aim to make a lasting impact on global health," he said.

Vaccines are the most effective and cost-effective way to protect billions of people worldwide, with vaccine development potentially transforming health by removing the burden of life-threatening infectious diseases from the population, Triccas said.

Defence Ministry signs contract with BHEL for procurement of gun mounts

PIONEER NEWS SERVICE ■ NEW DELHI

The Ministry of Defence on Tuesday here signed a contract with Bharat Heavy Electricals Limited (BHEL), Haridwar for procurement of 16 Upgraded Super Rapid Gun Mount (SRGM) along with associated equipment for Indian Navy under Buy (Indian) category at a total cost of Rs 2956.89 crore.

Giving details, defence ministry officials said the upgraded SRGM, which will be manufactured by BHEL at its Haridwar plant, is a medium caliber anti-missile/anti aircraft point defence weapon system which provides a sustained rate of fire and high accuracy. The weapon system is

capable of multiple engagements in multi-threat scenarios and has a proven record of very good performance against missiles and highly maneuverable fast attack crafts.

Upgraded SRGMs will be installed onboard Indian Navy's in-service and newly built ships by Mazagaon Dock and Shipbuilders Ltd., Mumbai, and Garden Reach Shipbuilders and Engineers, Kolkata.

The project will generate an employment of two and half lakh mandays over a period of five years and encourage active participation of various Indian industries including MSME, thus significantly contributing to the Government's efforts to achieve 'Atmanirbharta' in defence.

Bid to increase voter turnout in Lok Sabha elections

PIONEER NEWS SERVICE ■ PRAYAGRAJ

Women activists of the Bharatiya Janata Party (BJP) are playing a key role to induct new voters in the Sangam city. Under the Voter Maha Chetna Abhiyan, women activists of BJP held camps at 260 shakti kendra and managed to enrol 10,889 new voters with the BLO concerned in first and second phases.

BJP spokesman Rajesh Kesarwani told mediapersons, "Apart from holding special camps at shakti kendra, party workers are also knocking doors of voters to get them enrolled". He, however, said, "As many as 10,889 new voters have filled the form 6 to become new voters". He also claimed that 'toli' (groups) of BJP workers – both men and women- are covering wards to find out new voters and remove faulty names from voters list

respectively.

The BJP leaders said party's voter awareness campaign, organised between October 30 and November 5, had helped party to add over 28,000 new voters at 1,205 booth of the Mahanagar pocket of the district. Leaders, however, claimed party will take up new voter enrolment drive till December 3.

Voter awareness campaign was launched in over 4,100 booths across the district including 1,205 booths of the city. The first phase of voters awareness campaign had undoubtedly helped party new age voters particularly those who have completed 18 years of age.

This campaign was launched to ensure no one was deprived of voting rights. For that BJP workers are taking every step to increase the voter turnout in the LS elec-

tions to be held next year. We are also initiating steps to remove the names of those who have migrated or died or are fake voters", said a leader.

FAREWELL: Advocate General (AG) of Uttar Pradesh, Ajay Kumar Misra accorded farewell to former Chief Justice (CJ) of Allahabad High Court Pritinker Diwaker at his official residence. AG presented flowers to the former chief justice and lauded the exemplary works done by him during his tenure as CJ.

The AG said during Justice Diwaker's tenure as CJ several judicial reforms were introduced and the latest technology was also introduced to provide speedy justice to the litigants. The AG on behalf of all the state law officers expressed best wishes to ex-chief justice Pritinker Diwaker for his post retirement phase.

Overwhelmed by the ges-

ture, love and affection of the AG, who directly reached official residence of the CJ from the airport, the former CJ appreciated the co-operation and assistance given to him on behalf of the state law officers headed by the AG during this entire tenure as judge and thereafter as CJ.

INITIATIVE: A city-based social activist Abhilash Kesarwani has taken an initiative to set up small houses for pets here. Abhilash is setting up shelter house for stray domestic pets at Mutthiganj area and later will take it to other pockets of the city.

Abhilash says, "The motive behind setting up small house for stray animals is to provide them shelter during winter season. Water, meals will also be available at shelter places. There are plans to set up small 'ashiyana' (home) for animals in all 100 wards of the city."

NCR generates 78.8 lakh units of energy using solar power

PIONEER NEWS SERVICE ■ PRAYAGRAJ

The North Central Railway (NCR) generated 78.8 lakh units of energy using solar power in first seven months of the financial year 2022-23 with net revenue saving of Rs 3.27 crore achieved in six months through the use of solar energy. This has led to a reduction of 6,622 metric tonnes of carbon emissions.

In line with the national initiative on solar mission, the NCR has attached top priority to solar energy generation under the leadership of GM Satish Kumar. Under the guidance of PCEE AK Agrawal and due to excellent upkeep, close monitoring of operations of solar power plant and numerous innovative steps taken under Solar Mission-2022-23 by CEE (EEM) KM Singh, along with his team, the NCR generated 125 lakh units of electricity using solar power and a net revenue saving of Rs 5.2 crore in FY 2022-23.

Continuing the momentum this FY 2023-24 from April to October too, 78.8 lakh units of electricity has been generated by NCR in the first seven months of economy. Not

only it is a big leap towards a larger goal of environment protection as solar energy is a greener source of energy it has led to substantial savings in revenue too. Net revenue saving of Rs 3.27 crore has thereby recorded through the usage of solar power.

NCR has a total installed capacity of 11.13 MWp. While 185 kWp has been installed by the Railway, remaining 10949 kWp capacities has been installed by two major Solar Power Developers (SPD) Azure and ReNew on a PPP mode.

Among the major places where roof top solar plants have

been installed are GM and DRM office buildings, station buildings and workshops, besides training schools.

Besides 6,622 metric tonnes of reduction in carbon emissions has been achieved by NCR using solar power in these seven months.

Productivity of solar plants is measured in terms of Capacity Utilisation Factor (CUF). The NCR solar panels have recorded a CUF of 13.8 per cent during April-Oct 2023.

In order to promote solar energy, utmost importance is being given to maintenance of solar plants. Some of the steps

taken are: Monitoring of solar energy generation is being done for each plant, inverter wise. Daily monitoring, instead of monthly of energy and CUF per cent of plants is being done. Defective/ decommissioned plants due to roof repairs, inverters, cables, etc have been put right.

Solar diary introduced to SSEs for systematic documentation and focussed monitoring of energy and other important data in a structured manner.

GM Satish Kumar congratulated the team of officers and staff for sustaining the momentum in this field and called for adopting a focussed approach for augmenting the share of solar energy in its total non-traction electrical energy consumption.

1.34 MWp of roof top solar plants will be installed by NCR in the current financial year. Prayagraj division will be installing 0.75 MWp of solar plants while Jhansi and Agra divisions will add 0.4 and 0.19 MWp to the existing capacity respectively. These roof top solar plants are expected to be commissioned at various locations like railway stations, office/service buildings by December this year.

Youth can fulfil whatever dreams they see in any situation: Singh

PIONEER NEWS SERVICE ■ VARANASI

UP Transport Minister Daya Shankar Singh has said that youth can fulfil whatever dreams they see in any situation and added that they should see dreams but not in sleep and rather they should see such dreams which do not let them sleep.

He was on Monday addressing the 15th Tribal Youth Exchange Programme being organised by Nehru Yuva Kendra, Varanasi, in collaboration with the Ministry of Youth Affairs and Sports, Government of India and the Ministry of Home Affairs, Government of India at Jai Public School, Karauta Alaudindpur here in which tribal youth from eight districts of four states are participating.

Giving an example regarding this, the Minister said that one was Lord Birs Munda who paved the way to drive away the British from India by taking on the immense power of the British, while the other was Swami Vivekananda who identified the spiritual strength

UP Minister Daya Shankar Singh honouring youths participating in Adivasi Youth Programme.

of India. India is a country of diversity. When the youths, who came from different districts of the country to take part in this programme, go to their area, they must mention the culture and lifestyle of this place, the Minister added.

He said that the youth makes a way even in times of scarcity and gave the example of the lead actress of the film

Mayuri who broke the record by dancing with wooden feet. He called upon the youth to make a path to make India a developed country when the country celebrates 100 years of independence in 2047 as per the vision of the Prime Minister, he added.

The participating youths also visited the head office of 95 Battalion of CRPF in Pahadia

where the Second Command Nitendra Nath welcomed them and also had an interaction with them. The deputy director of Nehru Yuva Kendra Kapil Dev threw lights on the activities of the camp. The Director of CRPF Yogesh Mohan Dixit reached camp from Delhi and encouraged the youths. Many were present on the occasion.

90 pc of govt staff in favour of strike for restoration of OPS: Unions

PIONEER NEWS SERVICE ■ VARANASI

Rajya Karmachari Sanyukt Parishad (RKSP) and Purani Pension Bahali Sanyukt Manch (PPBSM) on Tuesday claimed that 90 per cent of employees of the central government and state government are in favour of the strike for the restoration of the Old Pension Scheme (OPS). Both organisations threatened that an agitation could be launched before the 2024 parliamentary election if the OPS is not restored before it.

Talking to the news men on Tuesday the district president of RKSP and district convener of PPBSM Shashikant Srivastava said that the employees of central government and state government have been agitating for the restoration of OPS for the last one decade and the attention of the President of India, Prime Minister and Chief Minister was also drawn towards the demand through the demonstration and dharna

The district president of RKSP and district convener of PPBSM Shashikant Srivastava (second from right) and others talking to the news men.

in Delhi and Lucknow but both the governments paid deaf ear.

Under the OPS, the employees get 50 per cent of the salary at that time as pension after the retirement but under the new pension scheme, the employees get 10 per cent as pension after deducting from

the salary and in the present time, the employees are not getting even this 10 per cent amount, Srivastava said and added that the new pension scheme is not in the interest of the employees.

The attitude of the government at Centre and in the state is not positive and so, the

employees have no option except to go on strike, he said, adding that the signature of the employees was sought on the consent letter maintaining confidentiality of the identity to go on strike for the restoration of OPS and 90 per cent employees gave their consent in favour of strike.

These consent letters were kept in confidential boxes which will be sent to the head office of the organisations in Lucknow, he informed, adding that the state leadership would decide on the strike. The employers of central government and state governments could go on strike together before the 2024 parliamentary election demanding the restoration of the OPS if both the governments fail in meeting the demand.

The office-bearers of RKSP and PPBSM Shyamraj Yadav, Sunil Singh, Subhash Shah, Diwakar Dwivedi, Dipendra Kumar Srivastava and others were present on the occasion.

Induction programme held

PIONEER NEWS SERVICE ■ VARANASI

The Department of Psychology, Faculty of Social Sciences (FSS) Banaras Hindu University (BHU) organised an induction programme for the students of Master of Personnel Management and Industrial Relations (MPMIR) course. Speaking as the chief guest the Director, Institute of Management Studies, BHU Prof SK Dubey shared his vast experience with the newly admitted students of the MPMIR course and stressed grooming corporate ready personality for management students. Apart from this he shared various tips with students regarding communica-

tions skills, analytical skills, problem solving skills, etc. so that students can make themselves valuable for the organisations whom they dream to work with. The second resource person of the day Dr Praveen Singh Rana from the Travel and Tourism Unit, Faculty of Arts, BHU elaborated the history of Varanasi and BHU and shared different aspects of culture, values, and life in Varanasi and BHU as well. Prof Rakesh Kumar Mishra former Head, Department of Humanistic Studies, IIT (BHU) talked about the role of Indian Ethos and Values in developing a complete personality and explained how self can be development and managed by

following India traditions and culture also with the combination of modern life development. Prof Yogesh Kumar Arya, Department of Psychology, BHU delivered welcome address and Prof Sandeep Kumar, Chairman, Training and Placement proposed vote of thanks.

ELECTED: Dr TP Chaturvedi, Senior Professor and former Dean of Faculty of Dental Sciences, Institute of Medical Sciences, Banaras Hindu University (BHU) has unanimously been elected as president elect of Indian Dental Association (IDA), UP State Branch. The Indian Dental Association (IDA), UP State branch organised a three days state dental conference at

Prayagraj. During the conference, the annual general body meeting of dental surgeons of IDA UP state was also held in which Dr TP Chaturvedi, Senior Professor and former Dean of Faculty of Dental Sciences was unanimously elected to the post of president elect of IDA, UP State Branch. Dr Chaturvedi also elected as Central council member of Indian Dental Association from UP to represent at national level.

The Indian Dental Association is an authoritative, independent and recognised voice of dental professionals in India, Dr Chaturvedi informed, adding that the association's vision is to improve oral health and quality of life.

Work being done in Hindi by offices reviewed

PIONEER NEWS SERVICE ■ PRAYAGRAJ

An inspection meeting was organised for the progress and dissemination of Hindi language by the Parliamentary Official Language Committee (POLC) under the chairmanship of Prof Rita Bahuguna Joshi, convener of the Second Sub-Committee of the Parliamentary Official Language Committee at GM's office, NCR.

The work being done in the official language Hindi by the offices was observed and thoroughly reviewed by the POLC in the presence of senior officials of the ministry and department concerned. In the meeting, GM NCR Satish Kumar presented before the committee a detailed description of the work being done by the GM's office in official language Hindi and expressed his commitment to ensure more use of Hindi in government works.

The GM informed the committee that continuous growth and progress has been ensured in the use and spread of the official language Hindi in the entire regional railway as well as in all the works of the GM's office. He said that station operating rules and gate operating rules etc related to the safety of passengers have been ensured in 100 per cent Hindi-English bilingual form. All work instructions, orders, circulars etc. have been made available to station masters and security related staff in both Hindi and English languages. All information boards, electronic display boards etc. related to passengers have been ensured to be in both Hindi and English languages.

The Parliamentary Official Language Committee appreciated the widespread use of Hindi in railway offices and instructions were given to further increase the use of the official language Hindi in various items. The GM assured the committee that whatever instructions have been given by the Committee their compliance will be ensured.

Similarly, the committee reviewed the work being done by the Divisional Railway Manager (DRM)'s office, Prayagraj, in the official language Hindi. During the inspection meeting, DRM Himanshu Badooni presented the details of the work being done by the DRM's office and assured to increase the use of official language Hindi as per the instructions of the committee.

Committee convener and MP Prof Rita Bahuguna Joshi, MP Sushil Kumar Gupta and MP Keshari Devi Patel and senior officers of the Committee Secretariat and Chief Official Language Officer and Principal Chief Security Officer Manish Kumar Gupta, Chief Commercial Manager/Passenger Services Anumani Tripathi, Secretary to

GM Ajay Singh, Additional Divisional Railway Manager /Infra Naveen Prakash, Deputy Chief Official Language Officer Shailendra Kumar Singh, Executive Director/ Establishment of Railway Board Sudhir Kumar, all officials associated with the official language of the head office and DRM's office, including Barun Kumar, were present.

ATTACK CASE: The BTech student arrested for attacking a bus conductor recently has told investigators that his only intention was to threaten him for the latter's 'religious slur'. However, anger took over and he stabbed him with a chopper.

Lareb Hashmi (20) also told investigators that he had been following the preaching of many foreign-based religious scholars (Bareilly sect) since long on the internet.

case from all angles." Sources said Hashmi was very upset with the behaviour of conductor Harishkesh Vishwakarma (30), as he often used to pass 'derogatory remark' on him and his religion.

On Friday morning when he was going to his college Hashmi attacked Vishwakarma. Later, he released a video in which he purportedly claimed that he had attacked the conductor for 'insulting Islam'. He also uttered religiously charged sentences. He was also seen brandishing the weapon. He was arrested on Friday evening. When cops took him to the place where he had hidden the weapon he tried to attack the cops. In retaliation, police shot him in his leg. He is currently undergoing treatment at the district hospital. Following his arrest, law enforcement agencies, including ATS (anti-terrorist squad) and IB (Intelligence Bureau), interrogated him and also carried out an extensive search at his house and sent his mobile and laptop for forensic examination. Cops are also checking his social media status which was changed just a day before the attack.

Give peace a chance!

The extended cease-fire in Gaza is a fine opportunity to reach stability in the region

The cease-fire has come as a godsend to the average Palestinian who finally got respite from flying mortar shells and some peace to get ration and medicines, which are luxuries in the conflict zone. The two-day extension of the cease-fire offers them a glimmer of hope and to international community the time to work backchannels for prolonged peace. However, as the Hamas and Israel have tentatively agreed to a break from hostilities, questions linger about the long-term prospects for stability. Will these additional two days lead to meaningful negotiations and a lasting peace, or is it merely a temporary pause before the bloody conflict resumes? The international community plays a crucial role in determining the trajectory of events and fostering an environment conducive to sustainable peace. The decision to extend the cease-fire by two days suggests a willingness on the part of both Hamas and Israel to explore avenues other than bombs, bullets and bloodshed. This respite provides an opportunity for de-escalation and opens a window for negotiations. However, the history of conflicts in the region raises scepticism about the durability of such agreements. The cease-fire extension allows for humanitarian efforts to take place, facilitating the delivery of essential supplies and medical assistance to those affected by the violence. Additionally, the pause in hostilities can pave the way for diplomatic initiatives, fostering an environment where both parties can address underlying issues through dialogue.

One of the bigger, though not direct, consequences of the Gaza conflict is the involvement of super powers in the fray. Now that the US and the West are with Israel, China and Russia are throwing their weight behind the Hamas. This could have ominous consequences for the world; it is, therefore, in the interest of the world and not just of the people of Israel and Palestine that this conflict is made to peter out, at least for the time being. Key stakeholders, including the United Nations, regional powers and other influential nations, should actively encourage both parties to engage in meaningful negotiations, addressing the core issues that fuel the conflict. The international community should work collaboratively to ensure the delivery of aid, medical assistance and reconstruction support to alleviate the suffering of those caught in the crossfire. To prevent a return to square one after the ceasefire extension, sustained diplomatic efforts are required. The extension of the Gaza ceasefire provides a fleeting moment of hope for peace, but the international community must remain vigilant in guiding the path forward. By actively supporting diplomatic initiatives, addressing humanitarian needs and encouraging sustained dialogue, the world community can play a crucial role in ushering in lasting stability in the region. The alternative — resuming hostilities — would only perpetuate the cycle of violence and deepen the suffering of those directly affected by the conflict.

A new hope for Tuberculosis patients

TrueNat is a molecular test that replaces sputum microscopy for TB diagnosis. It is fast and accurate and will help in early detection and treatment

The latest country report on Tuberculosis (TB) indicates that in India, women account for 39.1% of the total cases notified. But missing from these figures are the hundreds of women who remain undetected and uncounted.

Why do women report fewer cases of TB than men? The lack of awareness, poorer access to healthcare services, household responsibilities and the stigma associated with TB prevent women from coming forward to seek treatment. They are often reluctant to reveal they might have TB due to potential rejection from their families. Women also delay seeking care because they are hesitant to use family resources, often meagre. They wait until they are severely ill. By then, it is often fatal.

It is not just their lives that are on the line. There is a sixfold increase in perinatal deaths and a two-fold risk of premature birth and low birth weight babies of mothers with active TB. Women living with HIV and TB face a double whammy as their unborn child faces twice the risk of vertical transmission of HIV,

according to the World Health Organisation. All this can be prevented with proper treatment. Data shows that 85% of people recover from TB if treated. However, treatment can only begin when there is a proper diagnosis. An early and accurate diagnosis is key to reducing not just deaths but TB-related life-changing impairment. This is where TrueNat, a new molecular test that replaces the traditional sputum microscopy to diagnose TB, is making a difference. Not only does it enable rapid and accurate diagnosis, it can be taken to the doorstep thanks to its innovative portable technology. So, reaching out to a larger population, particularly vulnerable and marginalised women, is possible. Importantly, correct treatment can begin at the first

point of contact on the same day. Developed in India by the Goa-based Molbio Diagnostic, TrueNat also tests for resistance to the drug Rifampicin in approximately 90 minutes. Endorsed and included in the WHO Global TB Programme for its "high diagnostic accuracy", the Nucleic Acid Amplification Test (NAAT) using TrueNat can be conducted in facilities without an air-conditioned lab and in remote centres plagued by power outages as it runs on solar powered battery. Used in tandem with a portable digital X-ray machine, also battery operated, it can save more lives. That it is possible to fully transition from sputum microscopy to rapid molecular diagnosis, as has been recommended by WHO, has been shown by Goa. It is the first state in India to achieve this significant milestone. This shift has led to higher testing, early diagnosis, and boosted chances of recovery. TB being a contagious disease, one of the places where early and accurate diagnosis is direly needed is in prisons. A Lancet study has shown

that prisoners in India are five times more at risk of developing TB than the general population. Consider then the danger of TB infection faced by women prisoners housed in overcrowded jails. The number of women jailed by the end of 2021 was 22,918 but the capacity of the existing 32 women's jails is 767, according to the latest National Crime Records Bureau report. In fact, only 18% of female prisoners get exclusive women's prison facilities, states the Justice Amitava Roy Committee report on prison reforms. Appointed by the Supreme Court, the committee, which presented its report earlier this year, said "Women in incarceration suffer the brunt of imprisonment far worse than their male counterparts, especially with regard to access to basic facilities, medical care and medical staff." This huge breakthrough means a decrease in price and increased accessibility.

SWAPNA MAJUMDAR

Nepal in the throes of strategic choices

Nepal is exercising its strategic autonomy; distancing itself from the bullying Chinese dragon

Nepal is recovering from its long annual hangover after celebrating Dussehra and Tihar. It energises Nepal to face the winter and the new year Vikram Samvat 2080 but with one-third of Nepal in India and abroad with 1500 youth leaving Nepal every day. The rising standards of living and consumption are visible to me who has seen Nepal almost annually since 1959. Still, people are rich or very poor with the middle class small. People are happy except for the victims of the dengue and Jajarkot earthquake. Nepalese are happy with so little. When piped water, electricity, schools and hospitals reached the valleys or near the road network, people descended from the hills to avail man-made facilities, forfeiting nature's gifts to the hills. Hastily carved unmetalled roads have scarred the hills polluting the environment. Scooters, cars, motorbikes, trucks, tractors...anything with an engine moves along dusty tracks. Some people began returning to the hills.

Last week Kathmandu news was dominated by one man: businessman-politician and expelled from CPN UML, Durga Prasain. He threatened to bring into Kathmandu 10 lakh protesters to rally against former PM and CPN UML chief, KP Oli. He is facing legal action for bad debt on loans taken from state banks. The debt, he says, will be repaid when he is solvent. Prasian has roped in King Gyanendra who is patiently waiting in the distant hope that monarchy will be restored. The mood in the country for the return of loyalty is growing given the pathetic track record of the secular, federal, democratic republic of Nepal. It was the Prachanda-led decade-long Maoist civil war that dismantled the monarchy in 2008 which was ratified by the 2015 constitution. Gyanendra attended a Prasain-organised function in East Nepal at which he said: "We never wanted Nepal to become a republic that sends 10 mn youth to the Gulf countries". Gyanendra is on a tight leash from the state although his daughter-in-law Himani is pop-

ularly active, doing social welfare. Gyanendra has met the Chief Minister of UP, Yogi Adityanath twice this year. There's a strong and historic bond between the Shah dynasty and Gorakhnath Peeth of Adityanath. The royalists RPP led by Rajendra Lindgen (both the old leaders Pashupati Rana and Kamal Thapa have been marginalised) has made big electoral gains. People ask me whether India is supporting the formation of Hindu Rashtra and the return of monarchy. I say the decision will be that of the people of Nepal. But Buddhiman Gurung, a Nepali Congress businessman who lives in Lame Ahal, Pokhara where I too reside in Nepal, says emphatically: "Monarchy can never come back". But there is little doubt that support for the royals has grown exponentially. It is a clear reflection of the satisfaction that the current quality of governance provides. Prachanda the awesome leader of the Maoist Party with 32 seats in a house of 275 and whose party's fortunes are declining, has ensured his popularity is rising by attacking corruption frontally. He leads an alliance government that has former PM Sher Bahadur Deuba-led Nepali Congress as the largest party. But such is the electoral dynamic between NC and former Prime Minister KP

GEOGRAPHY IS INDIA'S BIGGEST ASSET IN BILATERAL RELATIONS WITH NEPAL WHICH SHOULD NO LONGER CHOOSE TO BE A YAM BETWEEN CHINA AND INDIA

Oli's CPN UML (the second largest party) that Prachanda is the kingmaker. He will complete one year in power next month and though there is a power-sharing arrangement with Deuba, he has been saying he will rule for all five years, apparently by doing an Oli on Deuba. In the previous Oli-led alliance, Prachanda had a power-sharing agreement with Oli which the latter did not honour. A rash of scams involving politicians and bureaucrats has made people very angry: Gold smuggling from China, human trafficking of Nepalese passed off as Bhutanese refugees for asylum in the US and the Baluwater land sales scam. These involve former Prime Ministers, ministers, their spouses and sons. Former Water Resources Minister Dipak Gyawali said: "corruption will emasculate Nepal". The other contemporary issue is Transitional Reconciliation and Justice, dating back to the Maoist insurgency 17 years ago. On a visit to Nepal recently, UN Secretary-General António Guterres agreed to help Nepal in finding a resolution emphasising it has to be 'victim-centric'. The victims of the Jajarkot earthquake are still out in the cold as Prachanda goes to Dubai for a climate change summit tomorrow. The ban on TikTok proved

extremely unpopular. Shanti Gurung told me how she and her friends have circumvented it through VPN. TikTok has made celebrities and some people very rich in Nepal. Senior CPC leader of Tibet Affairs Management Executive Committee Wang Junzheng visited Nepal this month as part of regular visits by Chinese leaders. Prachanda on his visit to China in September did not sign in on BRI 2.0 but Nepal has subscribed to US MCC after years of political wrangling and covert threats by the US. Nepal is exercising its strategic autonomy, but China is a bullying neighbour. Kathmandu wants villages in the 21 Northern districts to patch up with China's Tibet power grid. Chinese-built airports with high-interest loans at Bhairawa and Pokhara are not in business, restricted to domestic flights. Flying over the IAF Jaguar base at Gorakhpur is the problem. But the issue can be resolved. Geography is India's biggest asset in bilateral relations with Nepal which should no longer choose to be a yam between China and India. (The writer, a retired Major General, was Commander, IPKF South, Sri Lanka, and founder member of the Defence Planning Staff, currently the Integrated Defence Staff. Views are personal)

LETTERS TO THE EDITOR

GOVERNORS ABUSE NORMS

Sir — Raj Bhavans have become centres of inaction and retrogression in the states that are ruled by the opposition. Bills that were passed by the legislatures and sent for assent gathered dust in the governor's office. Raj Bhavans hardly bother to update the status of pending bills. In this context, Punjab, Tamil Nadu, and Kerala approached the Supreme Court with identical prayers. The Court held that the surplusage expression in Article 200 "as soon as possible" conveys a constitutional imperative of expedition. Any other reading of Article would leave the Governor in a position to virtually veto the functioning of the legislative domain by a duly elected legislature. It added, "Such a course of action would be contrary to the fundamental principles of a constitutional democracy based on a parliamentary pattern of governance." According to Dr. PK Sen (Bihar), "the question is whether, by interfering, the Governor would be upholding the democratic idea or subverting it. It would really be a surrender of democracy." An appointee who holds office only during the president's pleasure cannot act in a way that is detrimental to the elected governments and people.

Haridasan Rajan | Kozhikode

A SYMBOL HYPOCRISY

Sir — People are amused to see that the role of the Election Commission (EC), once independent under Election Commissioner Tirunellai Narayana Iyer Seshan, has become a symbol of "double standards," favouring Prime Minister Narendra Modi and Union Home Minister Amit Shah-led Bharatiya Janata Party. If not, then why did it hurriedly withdraw the permission previously granted to the Telangana government to provide financial aid to farmers under the Rythu Bandhu scheme at the start of rabi sowing? Whereas the poll panel has not acted on the Congress's complaints against the allegedly incendiary speeches made by PM Modi and Shah in Rajasthan. Not only Modi didn't stop here, even when the Congress objected, saying Modi's

Need speedy judicial system

While the Supreme Court (SC) plays a significant role in delivering justice, a cornerstone of the Indian Judiciary System since independence has had a slow working methodology. Litigants and accused have to wait years for the closure of cases and judgement delivery. In most cases, victims do not get instant judgements, and for this reason, sometimes even victims and their families suffer outages in society. "Justice delayed is justice denied," therefore courts should give due consideration to the claims filed.

The Indian Judiciary holds the highest pendency of cases and lacks a time frame for the disposal of litigation and appeals. At present, there are 79,813 cases pending before the 34 judges of the Supreme Court. That cleared depicts the need for constitutional reforms and revamping the structure of the top court to clear the pendency of cases. The supreme court hears between the centre and the states and between states, rules on domestic and family cases, civil and criminal cases, RTI (right to information) litigation, and provides legal and constitutional advice to the head of the state, i.e., the president. However, it creates burdens on the top court. Distributed or decentralised work mechanisms should be adopted by the judicial authorities for consistency and to ensure better judicial stability. To build the trust of society and its people, apparent and clear-cut constitutional idealism is mandatory.

Dimple Wadhawan | Kanpur

statement was a violation of the poll code, the PM slammed the party at a rally in Damoh, Madhya Pradesh, on November 8, saying, "Let them (the Congress) commit this sin (of objecting to his remarks), I will continue to do good work for the people... Eighty crore people will get free rations for the next five years." Moreover, shouldn't PM Modi and Amit Shah go on political campaigning with their government officials, and the EC remains blind to it? The way Amit Shah and other BJP leaders openly offer the Ram Temple tour promise, they want to know if the poll body has relaxed the Model Code of Conduct. However, these are proofs that the current EC has become a "symbol of hypocrisy" and "double standards."

Bidyut Kumar Chatterjee | Faridabad

RINKU'S TALENT LIES IN T20

Sir — Some very talented batsmen in India have fizzled out due to undue expectations and misplaced priorities. A lot is expected of Rinku Singh, the new Indian T20 bat-

ting star, who has captured the imagination of the cricketing world. Rinku did well in the first two T20 matches against Australia, and what impressed many were the views he expressed in an interview following the first fixture. His focus on remaining calm and modelling himself on that cool customer, MS Dhoni, revealed that Rinku has set himself unambiguous goals. By all accounts, he seems destined to play for the Indian T20 team for some time. At any rate, it may be difficult for him to break into the 50-over one-day side anytime soon, and that's how it should be. Selectors and team management should identify horses for the courses. India's batting ills lie in the fact that some players are nudged to play in all formats. A player like Rinku Singh must be given a long rope in T20 that is tailor-made for him.

GOD HAS ALL THE POWER

If we want highest qualities, we must become devotees of God

AJIT KUMAR BISHNOI

Does it sound unfair? Think about it. Imagine one of us even with a little power. We are inclined to abuse it, especially if there is no fear of punishment. These examples will substantiate. What do despots do? They bring unimaginable pain and suffering to the citizens. What do corrupt policemen do? They victimise the victim, if he is a rich man; they exploit him. What does a bully in a school do? There are innumerable such examples. We, human beings, are incapable of handling power.

The creation works on the principle of 'karmaphala', which is, "What you sow you reap." Suppose God did not keep all the powers with Himself, what can someone do with an atom bomb? He can kill innumerable innocent citizens, who don't deserve to die according to their karmaphalas. Don't we have free will? So God had to balance between allowing free will and controlling all actions by everyone in order that the creation can go on. Parallel powers are unworkable. Yes, God empowers His devotees in many ways, as Arjuna was blessed, but these are His devotees, who are highly disciplined, and act as per God's plans.

So let us get some idea of absolute nature of God's powers, which are briefly described by Lord Krishna in the verse # 10.41 of the Bhagavad-Geeta, "Whatever there is opulent, effulgent or even energetic, all that you should know as produced from a fragment of My splendour." These famous examples will shed some light about the extent of God's powers.

Starting with the light of the sun, what does Lord Krishna state, "I am light of the sun." (7.8) What happened when Arjuna promised to kill Jayadratha before sunset? He was to enter fire if he couldn't. What did Lord Krishna do? He protected his 'nimitta' (instrument) by restoring

the setting sun's light. As a result, there was daylight and Jayadratha came out from the protection of Kauravas; Arjuna killed him. Similarly, the Lord says that the heat of fire is from Him. (7.9) So, what happened when Seetaji entered fire in her fire test? She came out unscathed, because the heat of fire was withdrawn by Lord Rama. Another famous example is of Ashwathama using 'Brahmastra' on child Parikshit, who was at that time in the womb of his mother Uttara. What did Lord Krishna do? He simply made Brahmastra harmless by withdrawing its enormous power? He could because nothing is independently powerful, neither a person nor a weapon. If this was not so, there will be parallel power, which cannot be allowed, as this can cause disruption in the creation's functioning.

Before I go any further in describing God's unlimited powers, a question must be answered, which is, "Why does God not stop miseries heaped by a strong person on the weak? Does God not have such a power? He does but allows it. Why? Because we suffer due to our karmaphal. Others are just acting as mediums. In those cases, God remains aloof. Continuing about the extent of Lord's powers, Lord Krishna says that He is manliness of men (7.8), which is a traditional quality of being brave and strong. In the verse # 7.11, the Lord repeats this by stating that he is the strength of strong. However, in this verse, the Lord qualifies it by stating that such persons should be devoid of lust and attachment. If they are not, God will withdraw it from them. What happened to the most powerful man because of his lusty behaviour? I am referring to the last US President. Same could be said about Swami Vivekananda, whose brightness impressed one and all, wherever he travelled in the world. Where did this devotee of the highest order get his brightness? From God of course! I can go on, but the message is loud and clear. If we want the highest qualities, we must become devotees of God, otherwise we will always be inferior; God is ready to bestow upon us whatever is cherished by us. Source for everything superior is God only; He has all the powers.

Succumbing to the challenges of growth

UTTAM CHAKRABORTY

The removal of founders from the companies they birthed, is a complex and often painful process

British writer and theologian Frederick William Robertson has rightly quoted, "There are three things in the world that deserve no mercy, hypocrisy, fraud, and tyranny." Power is a pervasive and fundamental force in human relations and plays a valuable role in social, political and economic interactions. Power differences in social groups are important in promoting group activities. Most people want power, and power has many benefits. However, power is a corrupting force in several instances.

The recent and short departure of Sam Altman from OpenAI and again returning to the company in the same post is a matter of surprise. However, founders being ousted from their organisations have been the larger picture for deliberations. This phenomenon is unfortunate, but not new. History has been witnessed with examples of visionary leaders who found themselves at odds with their boards or stakeholders, resulting in their removal. From the likes of Steve Jobs at Apple to Travis Kalanick at Uber, the stories are as varied as the industries themselves.

The Myth of Invincibility

The myth of invincibility continues. One common thread that ties together the stories of ousted founders is the perception of invincibility that often surrounds them. When a company is in its infancy, the founder is not just a leader but a symbol of the organisation's identity and purpose. However, as the company grows, the demands and challenges evolve, and the skills needed to lead a startup may not necessarily align with those required to steer a large corporation. Founders, especially those with a strong vision and personality, may find it challenging to adapt to these changing dynamics.

Sam Altman's exit for some days from OpenAI serves as a case in point. While he played a pivotal role in the organisation's early success, the need for a different leadership style to navigate the complexities of a rapidly expanding enterprise may have become apparent. Boards and stakeholders, driven by a duty to ensure the company's long-term viability, might make the tough decision to part ways with the very leader who brought the company into existence.

The Ashneer Grover Saga

The story of Ashneer Grover, co-founder of Indian fintech giant BharatPe can be thought of in this context. It is another chapter in the book of ousted founders. In his case, the clash was not just about strategic direction but also about clashes of egos and leadership styles. Grover's outspoken and sometimes controversial demeanour, which might have been tolerated or even celebrated in the start-up phase, became a liability as the company matured.

This raises a crucial question: How much of a founder's identity is tied to the company they create, and when does that identity start to hinder rather than propel the organisation forward? The removal of founders like Grover suggests that companies may prioritise stability and a more harmonious internal environment over the charisma and idiosyncrasies of their visionary leaders.

The Travis Kalanick Case

The case of Travis Kalanick at Uber is perhaps one of the most infamous

examples of a founder's ousting in history. The ride-sharing giant's rapid ascent was accompanied by numerous controversies, including allegations of workplace harassment and a toxic corporate culture. In this instance, the board's decision to remove Kalanick was driven not just by financial concerns but also by a pressing need to address the company's tarnished reputation. Kalanick's story underscores the importance of accountability in leadership. While founders are often given leeway in the early stages, the moment their actions jeopardise the company's integrity or public perception, boards are compelled to act. This raises questions about the delicate balance between a founder's autonomy and the responsibility they bear to the company and its stakeholders.

Adam Neumann's Fate

WeWork's Adam Neumann is another founder whose grand vision ultimately led to his downfall. Neumann's ambitious plans for WeWork, including its IPO, were marred by controversies surrounding the company's financial health and governance practices. His removal was a necessary corrective measure to salvage the company and protect the interests of investors. The cautionary tale of Adam Neumann serves as a reminder that while visionary leadership is crucial for a startup's success, unchecked ambition and a lack of grounding, in reality, can lead to a founder's undoing. Boards and stakehold-

ers must carefully evaluate whether a founder's aspirations align with the company's long-term sustainability or if they are veering into the realm of fantasy.

Steve Jobs's Tale

In the pantheon of ousted founders, Steve Jobs stands out as a unique case. His departure from Apple in 1985 was a result of internal power struggles and disagreements with the board. Jobs's confrontational style and tendency to make unilateral decisions further fuelled the tensions within Apple. His unwillingness to compromise and his impatience with dissenting viewpoints alienated both colleagues and board members. In 1985, after a series of heated confrontations and a vote of no confidence from the board, Jobs was forced to resign as CEO. However, Jobs' eventual return to Apple in 1997 and the subsequent resurrection of the company's fortunes showcase the rare scenario where a founder is reinstated to lead their creation once again. Job's story is a testament to the enduring impact of a visionary leader and the potential for redemption. However, it is worth noting that Jobs returned to Apple with a tempered approach and a willingness to collaborate, a stark contrast to his earlier stint. This suggests that even in exceptional cases, founders must evolve and adapt to the changing needs of their organisations.

The Bottom Line

The recent and short departure of

Altman from OpenAI is the tip of the iceberg. Power, privilege, corruption and hypocrisy continue to rule everywhere. The removal of founders from the companies they birthed is a complex and often painful process. It involves a delicate balance between preserving a company's identity and ensuring its long-term success. While each case is unique, common themes emerge – clashes of egos, leadership style mismatches, accountability issues, and the perils of visionary excess.

The stories of Sam Altman, Ashneer Grover, Travis Kalanick, Adam Neumann, and Steve Jobs provide valuable insights into the challenges and pitfalls that founders may face as their companies evolve. The key lesson for both founders and boards is the importance of adaptability and a shared commitment to the organisation's well-being. In the ever-changing landscape of business, the question remains: Can founders successfully navigate the transition from startup visionaries to leaders of established enterprises? The answer may lie in their ability to embrace change, foster a culture of accountability, and, when necessary, make the difficult decision to step aside for the greater good of the organisation they helped create.

Ancient Indian democracy: Lessons for today

In the ancient democracy of southern India, there was zero tolerance for corruption and strict punishment was given to defaulters

Even during kings' reigns democracy was practised and flourished, but even after so many technological advancements in the 21st century, the elections are used for self-gain. Many times it questions whether they run a government or a business. There are no constructive rules for the candidate's section. It leads to less hope in democracy.

The state of corruption and its deep Nexus create a worrying stage. At once, Tamil Nadu was teaching democracy and ethics to the rest of the world by inscriptions. Now all the developmental activities are marred by corruption. Most of the funds allotted for various programs and

KS RADHAKRISHNAN

policies are siphoned in the name of Implementation, but the truth is that it goes into the pockets of politicians. The bureaucracy which is well-known for red tape, complicated procedures, and poor transparency in various policies and programs is also responsible for more corruption activities. From the Chola period, we can see a procedural usage of public money for various programs. Now on the contrary, when a new government assumes power, the plants and programs of earlier governments get cancelled out rightly, leading to a waste of public money. It is widely known that people who are prone to corrupt attitudes are escaping the clutches of

law due to the unclear nature of laws and underhand dealings with higher officials. No laws are daring enough to reach the corrupt and put them behind bars. One should think that the country is not only run by technology but also the scope of human resources. In this era of Artificial intel-

ligence youths are taking everything for Granted and are not ready to make the right decision and questioning the state of the world a comfortable life is a primary requirement. Nobody is ready to take responsibility to make the system stand right. As we are from the land of

Swami Vivekananda, his message for the youth of this country is "Let human". He also dwelt on the capabilities of the youth; he wanted the youth to train itself to serve humanity. What he wanted from the youth were 'muscles of iron' and 'nerves of steel'. Today, the youth are exceptionally responsive and they just need to be encouraged. Swami Vivekananda was only the medium; he is himself the message as well for the youth of India. His teachings will always stay relevant. He once said, "The education which does not help the common mass of people to equip themselves for the struggle for life, which does not bring out the strength of

character, a spirit of philanthropy, and the courage of a lion – is it worth the name? Real education is that which enables one to stand on one's own." For him, education meant secular learning that built character and instilled human values in students. All these initiatives of the Government require active involvement and support of youth as they are the major stakeholders of the future of this country. As Swami Vivekananda once exhorted, "Arise! Awake! And stop not till the goal is reached", let us all unite and work for the country with Purity, patience, and perseverance as the Swami felt long ago that these three are essentials to success. The country, believe it or

not, is in dire need of a revolution and the only hope we have is the youth. With their vision and farsightedness, the youth can bring to the plate not only changes but freshness which the country could use to give itself an image makeover. The Chola administration has become the foundation for modern democracy. We are in the age to revive our electoral pattern as our democratic legacy extends far beyond Athenian democracy and the Roman Republic.

Israel must work to avoid ‘further displacement’ of civilians in Gaza

AP ■ WASHINGTON

The Biden administration has told Israel that it must work to avoid “significant further displacement” of Palestinian civilians in southern Gaza if it renews its ground campaign aimed at eradicating the Hamas militant group, senior US officials said. The administration, seeking to avoid more large-scale civilian casualties or mass displacement like that seen before the current temporary pause in the fighting, underscored to the Israelis that they must operate with far greater precision in southern Gaza than they did in the north, the officials said, briefing reporters on condition of anonymity under ground rules set by the White House.

Amid mounting international and domestic pressure about the rising Palestinian death toll, the White House has begun to put greater pressure on Israel that the manner of the coming campaign must be “carefully thought through,” according to one of the officials. The Israelis have been receptive when administration officials have raised these concerns, the official said.

Prime Minister Benjamin Netanyahu has made clear that Israeli Defense Forces will eventually restart military operations after the conclusion of the current, temporary cease-fire that has allowed for an exchange of hostages taken by Hamas for Palestinian prisoners held by Israel. The two sides agreed Monday to extend the truce for an additional two days and to continue swapping hostages for prisoners.

President Joe Biden has said he would like to see the pause — which has also allowed a surge of much-needed humanitarian aid to get into Gaza — continue as long as feasible. Secretary of State Antony Blinken will return this week to the Middle East as the U.S. hopes to find a way to extend the cease-fire and get more hostages released, the State Department said Monday. It will be his third trip to the region since Israel’s war with Hamas began last month.

Family of infant hostage pleads for his release as truce winds down

Tel Aviv (AP): Kfir Bibas has spent nearly a fifth of his life in Hamas captivity. The 10-month-old was abducted from his home in a southern Israeli kibbutz on Oct. 7, when Palestinian militants snatched about 240 people and dragged them to Gaza.

Kfir, the youngest captive, was among about 30 children who were taken hostage in Hamas’ assault. Under a current temporary cease-fire, Hamas has released women, children and teens, but Kfir hasn’t been included on the lists of those set to be freed.

With his red hair and toothless smile, Kfir’s ordeal has become for many a symbol of the brutality of Hamas’ attack. With most other young hostages already released, Kfir’s fate and that of his 4-year-old brother, Ariel, are now a rallying cry for Israelis seeking the speedy release of all the hostages. A demonstration in

support of the Bibas family is being held in Tel Aviv on Tuesday.

“There is no precedent for something like this, for a baby who was kidnapped when he was 9 months old,” Eylon Keshet, Kfir’s father’s cousin, told reporters on Tuesday. “Is baby Kfir the enemy of Hamas?”

Shortly after the Hamas attack, video emerged of Kfir and Ariel swaddled in a blanket around their mother, Shiri, with gunmen shouting in Arabic surrounding her. The Bibas children bob around as their mother appears terrified. “No one will hurt her, so she would know that we care about humanity. Cover her and keep her until you take her alive. Let her know,” said one man. “She has children,” said another. “She has children, yes,” the first speaker responds. Yarden, their father, was also taken captive and appears in

photos to have been wounded. Kfir Bibas’ family, like other relatives of captives, has been tormented since Oct. 7. They have received no sign that he is still alive and wonder how such a helpless infant can cope with being in captivity for so long.

“I am mostly trying to understand how they pass an entire day there,” Kfir’s aunt, Ofri Bibas Levy, told The Associated Press in an interview earlier this month. “Is Kfir getting his bottle?” she asked, adding that he was still only crawling when he was seized, but is likely to have reached the stage when he starts using objects to stand up and move around, a joyful milestone he may have hit while in captivity.

Former Prime Minister Naftali Bennett has brought Kfir’s picture to international media studios and brandished it on camera.

This handout photo provided by the IDF on Monday released Israeli hostages Tal Goldstein Almog, 9, left, and his brother Gal, 11 as they return to Israel in an IAF helicopter, after being held hostage by militant group Hamas in the Gaza Strip. AP/PTI

Blinken to return to Israel

AP ■ BRUSSELS

US Secretary of State Asntony Blinken will return this week to the Middle East as the US hopes to find a way to extend a cease-fire in Gaza and get more hostages released, the State Department said. It will be his third trip to the region since Israel’s war with Hamas began last month. Blinken will travel to Israel and the West Bank after attending Ukraine-focused meetings on Tuesday and Wednesday in Brussels and Skopje, North Macedonia, where foreign ministers from NATO and the Organisation for Peace and Security in Europe are gathering. Israel has agreed to pauses in its military operations in exchange for the gradual release of hostages taken by Hamas during its October 7 attacks on Israel.

The agreement had been due to expire Monday but was extended for an additional two days, meaning the extension will be expiring just as Blinken is arriving in Israel. White House National Security Council spokesman John Kirby said Monday the US hopes to see the pause extended further,

but it is dependent on Hamas continuing to release hostages.

In Israel and the West Bank, Blinken will “discuss Israel’s right to defend itself consistent with international humanitarian law, as well as continued efforts to secure the release of remaining hostages, protect civilian life during Israel’s operations in Gaza, and accelerate humanitarian assistance to civilians in Gaza,” State Department spokesman Matthew Miller said in a statement. He said Blinken also will discuss the principles for a post-conflict Gaza, as well as the need to establish an independent Palestinian state and prevent the conflict from widening.

In the occupied West Bank, Blinken is expected to see Palestinian President Mahmoud Abbas. Blinken and other US officials have said they believe the Palestinian Authority should play a significant role in governing post-conflict Gaza. From Israel and the West Bank, Blinken will travel to the United Arab Emirates for discussions with regional leaders who will be in Dubai to attend the COP28 climate summit. Blinken has been

engaged in furious diplomacy to try to prevent the Gaza conflict from spreading, expand the provision of humanitarian aid to Palestinian civilians in the territory, secure the release of hostages and arrange for foreigners and dual nationals to leave Gaza overland to Egypt.

On each of his prior two trips, Blinken has travelled to Israel and Jordan multiple times. Between the two trips, he also made stops in Bahrain, Egypt, Iraq, Qatar, Saudi Arabia, Turkey and the UAE.

Blinken will arrive in Israel having just participated in an Organisation for Security and Cooperation in Europe foreign ministers meeting in Skopje. Russian Foreign Minister Sergey Lavrov has said he plans to attend the OSCE meeting, possibly setting the stage for a US-Russia confrontation there over Ukraine. In Brussels, Blinken will attend the two-day NATO gathering, which will include the first foreign minister-level meeting of the NATO-Ukraine Council, a body created by alliance leaders at their last summit to improve cooperation and coordination and help prepare Kyiv for eventual membership.

Sunak cancelled meeting over Elgin Marbles row: Greek PM

London (PTI): British Prime Minister Rishi Sunak has reportedly cancelled a planned meeting on Tuesday with his Greek counterpart, Kyriakos Mitsotakis, during a visit to the UK amid a deepening row over the return of the ‘Elgin Marbles’. The ancient Greek sculptures from the Parthenon in Athens are among the controversial historic items which were brought to the UK by British diplomat Lord Elgin in the early 19th century – giving them their English name.

The Parthenon Sculptures now form part of the British Museum’s collection and have long been demanded by the Greeks to complete their series at the Acropolis Museum in Athens.

The latest standoff is reminiscent of India’s demands for the Koh-i-Noor diamond and other historic artefacts taken from India during colonial times. Most recently, the Maharashtra government signed a memorandum of understanding (MoU) with the Victoria and Albert Museum for a three-year loan of a set of 17th century ‘Tiger Claws’, or wagh nakh, believed to have belonged to Chhatrapati Shivaji Maharaj. It is destined for Mumbai’s Chhatrapati Shivaji Maharaj Vastu Sangrahalaya (CSMVS) as part of Maharashtra’s 350th anniversary celebrations of the coronation of Chhatrapati Shivaji.

The UK-Greece standoff seems to have erupted after Downing Street claimed that it had been agreed that the issue would not be raised during any bilateral between Sunak and Mitsotakis, a claim denied by the Greeks.

On Sunday, the Greek Prime Minister told the BBC that having some of the Parthenon treasures in London and others in Athens was like cutting the ‘Mona Lisa’ painting in half. ‘That seems to have triggered the row, as Mitsotakis then told reporters on Monday evening that he was “deeply disappointed by the abrupt cancellation” of his meeting with Sunak, which had been planned for Tuesday afternoon. “Those who believe in the correctness and justice of their positions are never hesitant to engage in constructive argumentation and debate,” said the Greek Prime Minister.

S Korea delays its spy satellite liftoff

AP ■ SEOUL

South Korea has postponed the planned launch of its first military spy satellite set for this Thursday, officials said, days after rival North Korea claimed to put its own spy satellite into orbit for the first time.

Under a contract with SpaceX, South Korea is to launch five spy satellites by 2025, and its first launch using SpaceX’s Falcon 9 rocket had been scheduled to take place at California’s Vandenberg Air Force Base in the United States.

The South Korean Defence Ministry said in a brief statement on Tuesday the launch was delayed due to weather conditions. Ministry officials said the launch was tentatively rescheduled for this Saturday but it wasn’t a fixed date.

South Korea currently has no military reconnaissance satellites of its own and partially resorts to US spy satellites to monitor moves by North Korea.

After two launch failures earlier this year, North Korea said it successfully placed its “Malligyong-1” spy satellite into orbit on November 21. South Korea said it has confirmed that the satellite entered orbit, but said it needs more time to verify whether it is working properly.

North Korea said on Tuesday leader Kim Jong Un reviewed imagery taken by the Malligyong-1 satellite of the White House and the Pentagon in Washington and US aircraft carriers at a navy base and a shipyard in Virginia. North Korea earlier said the satellite also transmitted photos of US military facilities in Guam and Hawaii and key sites in South Korea.

North Korea hasn’t yet released those satellite photos. Outside experts remain skeptical about whether the North Korean satellite can

send high-resolution imagery and perform proper military reconnaissance.

The North Korean launch invited strong condemnations from South Korea, the US, Japan and others. It violated UN Security Council resolutions that ban any satellite liftoffs by North Korea because they are considered disguised tests of the country’s long-range missile technology.

Kim has said spy satellites would allow his country to better monitor its rivals and enhance the precision-strike capability of its nuclear-capable missiles.

The satellite launch flamed animosities between the rival Koreas, with both nations taking steps to breach their previous military agreement meant to ease frontline military tensions.

Spy satellites were among the high-tech weapons systems that Kim has publicly vowed to introduce.

Since last year, North Korea has conducted about 100 ballistic missile tests in part of efforts to modernize its arsenal of weapons targeting South Korea and the United States.

In response, South Korea and the United States have expanded their military training and enhanced “regular visibility” of US strategic assets such as aircraft carriers, nuclear-capable bombers and a nuclear-armed submarine to the Korean Peninsula.

Haley: Trump causes too much chaos

Bluffton (US) (AP): Nikki Haley argued former president Donald Trump causes too much chaos to be successful in a second White House term, reiterating her argument about the GOP front-runner at a large town hall in her home state of South Carolina.

The former governor and United Nations ambassador on Monday drew the largest crowd of her primary campaign so far as she tries to close the gap with Trump just weeks before the Iowa caucuses kick off the Republican nominating calendar.

Haley invoked her former boss saying, as she has before, that she believes Trump was “the right president at the right time” but that the time is now right for a new generation in US leadership. “I agree with a lot of his policies, but the truth is, rightly or wrongly, chaos follows him,” Haley said. “We have too much division in this country, and too many threats around the world to be sitting in chaos once again.”

About 2,500 people attended the event at a satellite campus of the University of South Carolina along the state’s southern coast. Half that number watched her event from video screens outside the venue after it reached capacity. Hours ahead of Monday’s start time, the line for attendees wrapped around the venue, which the campaign said had to be changed from its original location due to demand.

Her staff has cast her campaign as being on a rising trajectory and pointed to growing crowds in recent weeks as she gets new attention from voters and donors looking for a Trump alternative.

Haley remains among a pack of candidates competing for a distant second place with Trump, who has led the GOP field since kicking off his third presidential campaign last year. Later this week, Haley will head back to New Hampshire, where she has stumped heavily.

Dubai prepares to host COP28

AP ■ DUBAI

Dubai prepared to host the COP28 climate talks on Tuesday as world leaders including US President Joe Biden signalled they would not be attending the negotiations that come during the ongoing Israel-Hamas war roiling the wider Middle East.

Workers under a still-scorching November sun stapled up bunting and decorated Dubai Expo City’s iconic Al Wasl Dome with trees and other green foliage ahead of the summit, scheduled to start Thursday in the United Arab Emirates. Armed United Nations police patrolled about half the area of Expo City where the delegates will debate, while the other half will host other climate events. Airport-style security screenings greeted those coming into both areas.

The two-week meeting of international leaders aims to assess where the world stands

when it comes to limiting emissions to slow global warming to 1.5 degrees Celsius (2.7 degrees Fahrenheit) compared with pre-industrial times. Emirati officials said on Tuesday they expect over 70,000 attendees at the talks, including heads of state.

Britain’s King Charles and Pope Francis will be among the leaders to attend the talks, even as the 86-year-old Francis battles a lung inflammation. However, some have said or otherwise signalled they won’t be attending the Conference of the Parties — where COP gets

its name.

They include the 81-year-old Biden, who attended both COP26 in Scotland and COP27 in Egypt.

“The president has been very much focused on the conflict between Israel and Hamas over the last month or so,” said John Kirby, a spokesman for the White House’s National Security Council, on Monday. “He was working the phones over the course of Thanksgiving weekend. And I suspect that he’ll continue to work the phones in coming days.”

US Navy removes fuel from plane that overshot Hawaii runway

Kaneohe Bay (US): The US Navy said Monday that it has removed nearly all of the fuel from a large plane that overshot a Hawaii runway and landed in an environmentally sensitive bay, but it doesn’t have a timetable for when it will get the aircraft out of the water. Rear Adm. Kevin Lenox said there was an estimated 2,000 gallons (7,500 liters) of fuel on board the P-8A.

“The team extracted all the fuel that they could get out of those tanks. This process was completed successfully without any fuel being released into the bay,” Lenox said at a news conference. Removing the fuel will reduce the risks for the rest of the salvage operation, he said. There were no injuries to the nine people who were on board when the plane landed Nov. 20 in shallow

water just offshore of Marine Corps Base Hawaii at Kaneohe Bay. The base is about 10 miles (16 kilometers) from Honolulu.

Cmdr. Mark Anderson, who is leading the Navy’s mobile diving and salvage unit working at the site, said the plane was sitting on a mixture of coral and sand. The left engine is resting on coral. The plane rises a little with the tide, so the full weight of the plane is not on the coral, he said. Kaneohe Bay is home to coral reefs, an ancient Hawaiian fishpond and a breeding ground for hammerhead sharks. There may have been some minor damage to the coral but there didn’t appear to be “massive chunks missing,” Anderson said. Still, the focus currently is on stabilizing the plane and developing a plan to move it, he said. **AP**

France to ban smoking on beaches

Paris (AP): France will ban smoking on all beaches, in public parks, forests and some other public areas as part of a national anti-tobacco plan presented by the health minister on Tuesday.

Tobacco products cause 75,000 avoidable deaths a year in France, Minister of Health and Prevention Aurelien Rousseau said on BFM television. The government will introduce legislation at the start of next year to enlarge the scope of places where fines can be levied for smoking, he said.

“Beaches, parks, around schools — lots of places had started these experiments and now, it’s true, we’re heading to a general rule to show our determination,” he said.

Rajesh Agrawal steps down as UK Dy Mayor

London (PTI): Rajesh Agrawal, the Indian-origin Deputy Mayor of London for Business, is stepping down from the role to focus on the city of Leicester, from where he will be contesting to be elected a member of Parliament in the next general election. The 46-year-old Indore-born entrepreneur-politician was recently selected as the Labour Party’s candidate for the constituency of Leicester East for an election expected next year. He announced his departure from the London Mayor’s office on social media on Monday evening after serving two terms in Mayor Sadiq Khan’s team in charge of the UK capital’s business and investment policies.

“After my recent selection as the Labour Party’s parliamentary candidate and careful consideration, I have made the

difficult decision to step down as Deputy Mayor of London to focus on campaigning in Leicester East,” said Agrawal.

“It has truly been an honour and a privilege to serve Londoners in this capacity for past seven and a half years — and I have given it my all. Like millions of other people, I arrived in this country with very little and made it my home. As I worked just above the minimum wage, I knew that there is a thin line between failure and success,” he said.

“This country gave me the opportunity, and with hard work and perseverance, I did well. But I never imagined that I would get the privilege to serve one of the greatest cities on earth as its Deputy Mayor — not once, but twice.

For that I will be forever grateful,” he added.

Imran’s trial to continue in Adiala jail in open court

PTI ■ ISLAMABAD

A special court here ruled on Tuesday that trial proceedings of jailed former Pakistan prime minister Imran Khan in the cipher case will continue in prison in an open court setting after authorities did not present him for a hearing held at a normal court citing security concerns. The 71-year-old Pakistan Tehreek-e-Insaf (PTI) party chief has been incarcerated at the Adiala jail in Rawalpindi since September 26.

His in-prison trial had been going in the high-security jail until last week when the Islamabad High Court (IHC) declared it null and void on procedural grounds and also declared that the proceedings conducted so far were vitiated.

Special Court Judge Abul Hasnat Zulqernain presided over the hearing on Tuesday at the Federal Judicial Complex (FJC) in Islamabad, where authorities failed to produce Khan, citing security reasons. “It has been informed that the PTI chairman faces security

risks of a serious scale,” a report presented in the court by authorities said. Khan survived an assassination attempt in November 2022 during a political rally in Punjab province.

According to the report, intelligence agencies and the jail authorities raised concerns about life threats faced by the former premier, emphasising the gravity of the security risks.

Last week, the special court ordered authorities to present Khan and former foreign minister Shah Mahmood Qureshi at the Federal Judicial Complex for the hearing of the case.

Qureshi, 67, was also arrested in the cipher (secret diplomatic cable) case and is imprisoned in the Adiala jail. Khan and Qureshi have pleaded not guilty to the charges.

After hearing the case, the special court approved the duo’s jail trial in an open-court format at the next hearing. The court then adjourned the hearing of the case till December 1. The court noted that the jail authorities and security agencies had expressed

CIPHER CASE

their reservations about holding the trial at the FJC.

Anticipating potential security challenges, a meeting involving the police, administration, and relevant departments was convened on Monday to devise a comprehensive security plan for Khan’s appearance, The Express

Tribune newspaper reported.

In its order, the court order stated that those who wished to attend the court proceedings would not be stopped and that journalists would also be permitted to witness the case.

It also said that five family members of each suspect would also be allowed inside the courtroom. The cipher case was launched in August this year after a case was filed against Khan for allegedly violating the Official Secrets Act by disclosing a secret diplomatic cable - called the cipher - sent by the country’s embassy in Washington in March last year.

The diplomatic cable reportedly went missing from Khan’s possession. Khan and Qureshi, who had claimed that the cable contained a threat from the United States to topple the PTI’s government, were indicted on October 23.

Khan was ousted through a vote of no-confidence in April 2022. More than 150 cases have been registered against him since his ouster from power.

Storm impacts Russian army operations

AP ■ MOSCOW

Tornadoes were forecast for the Black Sea region on Tuesday, a day after a storm that left more than 2 million people without electricity in Crimea, Russia and Ukraine. A think tank said that the weather also impacted Russian military operations.

The storm killed at least 14 people in Russia and Ukraine officials said as it toppled trees, tore down power lines and flooded coastal areas. President Volodymyr Zelenskyy said at least five people died in the Odesa region of southern Ukraine, and that engineers were working to restore electricity to villages that have been cut off. On Tuesday morning, almost 1,00,000 people were still without power on the Crimean Peninsula and some still had no water supply, the Russia-installed governor said, announcing that several regions were still under a state of emergency. Crimea, which was annexed from Ukraine by Russia in 2014, is a key military and logistics hub for Russia as it pursues its war in Ukraine.

The damage caused by the storm affected “the tempo of military operations along the frontline in Ukraine,” but has not stopped military activity entirely, the Institute for the Study of War (ISW) said.

The Washington-based think tank reported that the storm forced Russia to return all of its naval vessels and missile carriers to their bases, and suggested that the threat of mines drifting in the Black Sea will increase because the storm has dispersed minefields. There were also reports that the storm damaged railways in coastal areas which could have an impact on the Russian military’s logistics capabilities in occupied Crimea and southern Ukraine, the ISW said.

Winds of 108 mph (67 mph) were forecast for Tuesday in Crimea, southern Russia and parts of northwestern Russia, the state news agency Tass reported.

Latvia’s chief diplomat pursues NATO top job

AP ■ BRUSSELS

Latvia’s foreign minister on Tuesday staked his claim to the top job at NATO, saying that the military organisation needs a consensus builder who is committed to higher defense spending and has a clear vision of how to deal with Russia.

NATO is likely to name a new secretary general at its next summit in Washington in July. Former Norwegian prime minister Jens Stoltenberg has been the alliance’s top civilian official since 2014. His term has been extended four times during the war in Ukraine.

“We’re going to have 32 countries. Keeping 32 countries together on any topic, it’s a big challenge, and we need a consensus builder that can work with any and all allies, to move everyone forward in the same direction,” Latvian Foreign Minister Krisjanis Karins told reporters at NATO headquarters. One of Stoltenberg’s challenges is to help persuade Turkey, along with Hungary, to endorse Sweden’s attempt to become NATO’s 32nd member. NATO officials hope the issue will be resolved by the time US President Joe Biden and counterparts meet in Washington.

Karins was Latvia’s prime minister for almost five years – NATO prefers its secretaries general to have served in top government posts – and oversaw an increase in defense spending. He said his country will spend 2.4 per cent of GDP on defense this year, above the organization’s target of 2 per cent. Russia remains NATO’s historical adversary, and managing the alliance’s approach to Moscow is a major test. “The next secretary has to have a clear vision on the future role of NATO, how it’s going to expand, how it’s going to be working to contain Russia,” Karins said. He said it’s important not to panic while acknowledging “the very real threat that Russia is” and to work together to contain it.

“It is doable,” he said. “We can do it if we are calm but

NATO Secretary General Jens Stoltenberg, centre, speaks with Sweden’s Foreign Minister Tobias Billstrom, left, and Turkey’s Foreign Minister Hakan Fidan, right, during a meeting of NATO foreign ministers in North Atlantic Council session at NATO headquarters in Brussels, on Tuesday

AP/PTI

very determined.” With Russia locked in its war on Ukraine, the process of naming a new secretary general has become highly politicized. Estonia, Latvia, Lithuania and Poland have taken an unbending line in support of Ukraine, and this could make it difficult for one of their leaders to get the job.

Most NATO countries have been keen to name a woman to the top post. Estonian Prime Minister Kaja Kallas is considered a strong candidate. Danish Prime Minister Mette Frederiksen was thought to be a favorite after a meeting with Biden in the summer, but she later said she wasn’t running. The president of the European Commission, Ursula von der Leyen, has ruled out her candidacy. Outgoing Dutch Prime Minister Mark Rutte is also a front runner.

NATO secretaries general are chosen by consensus. There

is no formal procedure for naming them, and diplomats have said that no official vetting is currently being done. The organisation’s top civilian official is responsible for chairing meetings and guiding sometimes delicate consultations between member countries to ensure that compromises are found so that an alliance that operates on consensus can continue to function.

The secretary general also ensures that decisions are put into action, speaks on behalf of all nations with one voice and rarely if ever singles out any member for public criticism.

Stoltenberg has managed to tread a fine line, refraining from criticizing members led by more go-it-alone presidents and prime ministers like former US President Donald Trump, Turkish President Recep Tayyip Erdogan or Hungarian Prime Minister Viktor Orban.

Two Pak college girls critically injured in shooting in Punjab province

PTI ■ LAHORE

Two female college students were critically injured after unknown car riders opened indiscriminate fire on their bus in the Punjab province of Pakistan, police said on Tuesday, while not ruling out the role of an “estranged lover” in the incident.

According to an FIR, over 20 female students of the Punjab College in Pattoki district were going to Pakistan-occupied Kashmir on an excursion trip on Monday. The Pattoki district is around 80 km from Lahore, the provincial capital. “As the girls’ bus entered Lahore (from Pattoki) en route to (Pakistan-occupied) Kashmir, it was chased by a car. The car riders opened indiscriminate fire on the bus, leaving two female students injured. The other girls, however, remained safe,” the FIR said. Those injured were shifted to the Lahore General Hospital, where the condition of both girls was stated to be critical. A case has been registered against unidentified car riders for attempted murder, police officer Shrafat Ali told PTI. Police recorded the statements of the eyewitnesses, the bus driver and the students. Ali said the car riders came close to the bus and opened fire, which hit the two girls who were sitting in the back seats.

Apparently, an “estranged lover” was behind the incident, according to Ali. “However, we are investigating the matter from all aspects and will soon arrest the culprits,” he added.

Meanwhile, Punjab caretaker Chief Minister Mohsin Naqvi has ordered the Punjab police chief to ensure the arrest of the culprits at the earliest.

PTI to conduct intra-party elections within 20 days

PTI ■ ISLAMABAD

Former jailed prime minister Imran Khan’s Pakistan Tehreek-e-Insaf party has agreed to conduct intra-party elections within the 20-day time frame set by the election commission to retain the ‘bat’ as its electoral symbol, according to a media report on Tuesday.

The decision by the core committee of the PTI comes days after the Election Commission of Pakistan (ECP) ruled that its intra-party polls were not transparent, ordering the party to hold new elections if it wishes to retain its election symbol. The party was asked by the ECP to hold fresh elections within 20 days in a reserved verdict announced on November 23.

General elections are scheduled to be held in Pakistan on February 8. In the verdict, the ECP stated that the PTI failed to hold free and fair intra-party elections, adding that the polls

were objectionable and controversial.

“PTI’s intra-party elections cannot be accepted,” stated the verdict, directing it to hold polls and submit the record within seven days.

The party’s Central Media Department said its members discussed crucial issues including the country’s current political climate, the party’s organisational activities, the ongoing treatment of PTI leaders and workers, and the intra-party polls during the core committee meeting.

The meeting also reiterated the demand for fool-proof security arrangements during former cricketer-turned-politician Imran Khan’s court appearance. A PTI spokesperson said that chairman Khan has an important message for the leaders and workers in his court appearance.

“The government’s attempts to endanger the security, security and life of

Chairman Imran Khan in the past are not hidden from anyone. His safety and security is of utmost priority: millions of workers from across the country want to go to court to welcome their beloved leader,” he claimed. Khan, being a former iconic international cricketer, is considered synonymous with the (cricket) bat, the PTI’s election symbol.

The 71-year-old former prime minister is lodged in Adiala jail at Rawalpindi facing dozens of cases. In August, The election commission gave the PTI a final warning to hold the polls or it could be declared ineligible to obtain an election symbol. The PTI elections were due on June 13, 2021, under the party’s Constitution but an extension was granted by the ECP. Finally, the party held the election on June 10, 2022, but the ECP rejected it, saying that the party had amended its Constitution two days before holding the polls.

Finland plans to close its entire border with Russia

AP ■ HELSINKI

Finland will close its last remaining road border with Russia due to concerns over migration, Prime Minister Petteri Orpo said on Tuesday, accusing Moscow of undermining Finland’s national security.

Finland already closed seven of its eight of the checkpoints along its long border with Russia this month following a surge in arrivals of migrants from the Middle East and

Africa. The government accuses Moscow of ushering the migrants toward the Finnish border.

“The government has decided to close the entire eastern border,” Orpo told reporters, saying the country faced an “exceptional” situation. “We don’t accept any close to undermine our national security,” he said.

Finnish authorities say about 900 migrants crossed the border from Russia this month,

significantly more than normal. It has accused Russia of trying to create a migration crisis in Finland following the Nordic nation’s entry into NATO this year. Interior Minister Mari Rantanen said the last border crossing for vehicle traffic that remains open, Raja-Jooseppi in Finland’s Arctic north, would close at midnight on Wednesday. A railway crossing between the two countries remains open but for cargo traffic only.

Baltic nations’ FMs pull out of OSCE meeting over Russian foreign minister attendance

AP ■ SKOPJE

The foreign ministers of the three Baltic states have said they will boycott a meeting by the Organisation for Security and Cooperation in Europe being held this week in North Macedonia, in objection to the participation of Russia’s foreign minister.

The foreign ministers of Estonia, Latvia and Lithuania issued a joint statement on Tuesday saying they “deeply regret the decision enabling the personal participation” of Russia’s Sergey Lavrov. “It will only provide Russia with yet another propaganda opportunity,” Lavrov said on Monday he planned to travel to Skopje for the OSCE foreign ministers’ meeting, a trip which would mark his first visit to a NATO member country since Russia invaded Ukraine. In September, he was in New York to attend the United Nations’ annual gathering of world leaders. The 57-nation OSCE was set up during the Cold War to help defuse tension between East and West. North

Macedonia currently holds the organisation’s rotating presidency and its foreign minister invited Lavrov to the two-day meeting starting on Thursday.

“For the past two years we have witnessed how one OSCE participating state has actively and brutally tried to annihilate another,” the Baltic foreign ministers said in their statement. “Let us be very clear: Russia’s war of aggression and atrocities against its sovereign and peaceful neighbour Ukraine blatantly violate international law.”

They also accused Russia of “obstructive behaviour within the OSCE itself,” citing Russia’s prevention of an OSCE presence in Ukraine and by blocking Estonia’s chairmanship of the organisation in 2024. Lavrov’s attendance at the Skopje meeting “risks legitimising aggressor Russia as a rightful member of our community of free nations, trivializing the atrocious crimes Russia has been committing,” they added.

Speaking to reporters at NATO headquarters in Brussels on

Tuesday, North Macedonia’s foreign minister, Bujar Osmani, said he believed he would be meeting Lavrov in Skopje. “Lavrov is not coming to Skopje, in a way, Lavrov is coming to the OSCE just as he went to (the) UN in New York a few months ago,” Osmani said. “I won’t be meeting him as the foreign minister of North Macedonia, but as the OSCE chairman in office.” Asked what he would say to Lavrov, Osmani said: “I think the Russian Federation has violated (the) commitments of OSCE principles that we have voluntarily subscribed to 50 years ago.”

“We have condemned the aggressor throughout our chairpersonship. And also we have turned (the) OSCE into a platform for political and legal accountability of the Russian Federation for its deeds in Ukraine, and we will continue to do so. And this is what I am going to tell to Mr. Lavrov as well.”

There was no immediate reaction from the Russian Foreign Ministry to the statement by the three Baltic states.

NOTICE OF EXTRA-ORDINARY GENERAL MEETING

NOTICE is hereby given that the Extra-Ordinary General Meeting (EGM) of the members of OK Play India Limited will be held through Video Conferencing ("VC") /Other Audio-Visual Means ("OAVM") on Wednesday, December 20, 2023 at 10:30 AM, to transact the Special Business, as set out in the Notice of EGM. The venue of the said meeting shall be deemed to be the Registered Office of the Company at Plot No.17,Roz-Ka-Meo Industrial Estate, Teshil-Nuh, District-Mewat,Haryana-122103.

The EGM is being convened in compliance with the applicable provisions of Companies Act, 2013 and the rules made thereunder read with General Circular No. 14/2020 dated April 8, 2020/General Circular No. 17/2020 dated April 13, 2020, General Circular No. 22/2020 dated June 15,2020, General Circular No. 33/2020 dated September 28, 2020, General Circular No.39/2020 dated December 31, 2020, General Circular No. 10/2021 dated June 23, 2021,General Circular No. 20/2021 dated December 8, 2021, General Circular No. 3/2022 dated May5, 2022, and General Circular No. 10/2022 dated December 28, 2022, (collectively "General Circulars") Issued by the Ministry of Corporate Affairs (the MCA") and Securities Exchange Board of India (SEBI) vide its circular no. SEBI/HOI/CFD/CMD/1/ CIR/P/2020/79 dated May12,2020, circular no. SEBY HOI/CFD/CMD 2/CIR/P/2021/1 dated January 15,2021, circular No. SEBV HOI/CFD/ CMD2/CIR/P/2022/ 62 dated May 13, 2022 and circular no. SEBH/CFD/PoD-2/CIR/2023/6 dated January 5, 2023, (collectively "SEBI Circulars") have permitted holding of EGM without physical presence of the members at the venue through Video Conferencing (VC) or Other Audio-Visual Means (OAVM).

Members may further note that in pursuance of above stated circulars, the Members can attend and participate in the EGM through VC/OAVM only. Detailed instructions for joining the EGM are provided in the Notice of EGM. The Company has sent the Notice convening EGM on Tuesday, 28, 2023 through electronic mode to the Members whose email addresses are registered with the Company and/ or Depositories in accordance with the Circular issued by the Ministry of Corporate Affairs.

As per the SEBI Circulars, no physical copies of the Notice of EGM will be sent to any Member. Members who have not yet registered their email addresses are requested to follow the process mentioned below for registering their email addresses to receive the Notice of the EGM electronically and to receive User ID and password for e-voting:

Physical Holding Please send ISRT, SH-13 and ISR-2 (if signature not matched with company record to MAS Services Limited T-34 2nd Floor, Okhla Industrial Are, Phase-II, New Delhi 110020

Demat Holding Please contact your Depository Participant (DP) and register your email address as per the process advised by DP. Please also update your bank detail with your DP for dividend payment by NACH if declared by company.

Members may note that the Notice of the EGM is also available on the Company's website i.e. www.okplay.in, website of the Stock Exchange where the shares of the Company are listed, i.e. BSE Limited at www.bseindia.com and on the website of National Securities Depository Limited at www.evotingindia.com in due course of time. The above information is being issued for the information and benefit of all the members of the Company and is in compliance with the MCA Circulars and the SEBI Circulars issued from time to time.

Pursuant to the provisions of Section 108 of the Act and Rule 20 of the Companies (Management and Administration) Rules, 2014, as amended and Regulation 44 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and Secretarial Standard on General Meeting (SS-2), the Members are provided with the facility to cast their votes on all resolutions as set forth in the Notice convening the EGM using electronic voting system (e-voting) provided by NSDL. The voting rights of Members shall be in proportion to the equity shares held by them in the paid-up equity share capital of the Company as on Wednesday, December 13, 2023 ("cut-off date").

The remote e-voting period shall be available during the following period:

Commencement of remote e-voting period	Sunday, December 17, 2023 (9:00 AM)
Conclusion of remote e-voting period	Tuesday, December 19, 2023 (5:00 PM)

During this period, the Members may cast their vote electronically. The remote e-voting module shall be disabled by NSDL thereafter. Those Members, who shall be present in the EGM through VCOAVM facility and had not cast their votes on the Resolutions through remote e-voting and are otherwise not barred from doing so shall be eligible to vote through e-voting system during the EGM.

The Members who have cast their votes by remote e-voting prior to the EGM may also attend/ participate in the EGM through VCOAVM but shall not be entitled to cast their votes again.

Any person, who acquires shares of the Company and become a Member of the Company after the Notice has been sent electronically by the Company and holds shares as on the cut-off date; may obtain the login ID and password by sending a request to helpdesk at evoting@nsdl.co.in. However, if he/she is already registered with NSDL for remote e-voting, he/she can use his/her existing User ID and password for casting the votes.

In case of any queries / of any queries pertaining to e-voting, members may refer to the Frequently Asked Questions ("FAQs") and the e-voting manual available at www.evotingindia.com, under help section or contact at toll free number 1800 1020 990/1800 224 430. In case of any grievances relating to e-voting, please contact at the designated email ID, evoting@nsdl.co.in. Mr. Puneet Kumar Pandey, Practicing Company Secretary has been appointed as the Soutinizer the remote e-voting process before/during the EGM in a fair and transparent manner.

The details of the EGM are available on the website of the Company at www.okplay.in NSDL at www.evotingindia.com, BSE Limited at www.bseindia.com,

Govt disconnects 70 lakh mobile involved in financial frauds

PTI ■ NEW DELHI

To check digital frauds, the government has disconnected 70 lakh mobile numbers so far involved in cybercrime or financial frauds, Financial Services Secretary Vivek Joshi said on Tuesday. Emerging from a meeting to discuss issues related to financial cyber security and increasing digital payment fraud, Joshi, who chaired the meeting, said banks have been asked to strengthen the system and processes in this regard. More such meetings would take place, he said, adding the next meeting is scheduled in January. During the meeting, it was noted that 70 lakh mobile connections involved in cyber-crime/ financial frauds reported through digital intelligence platforms have been disconnected so far. About Rs 900 crore of defrauded money has been saved, benefiting 3.5 lakh victims, an official statement said. With regard to Aadhaar Enabled Payment System (AEPS) fraud reported recently, he said states have been asked to look into the issue and ensure data protection.

He also said that there was a discussion with regard to KYC standardisation of merchants. The meeting chaired by the Financial Services Secretary also deliberated on how to ensure better coordination among various agencies to check cyber fraud. Joshi said there was a need to create awareness about cyber fraud in society to protect gullible customers from being duped. The Indian Cyber Crime Coordination Center (I4C), Ministry of Home Affairs, made a presentation on the latest statistics of digital payment frauds as reported in the National Cyber Crime Reporting Portal (NCRP), various sources of these financial frauds, modus operandi adopted by the fraudsters, including challenges faced to counter financial cybercrimes, it said. Further, representatives from State Bank of India (SBI) made a brief presentation on the Proactive Risk Monitoring (PRM) strategy implemented by SBI. Besides, PayTM and Razorpay representatives also shared their best practices which have enabled them to mitigate

such frauds, it said. The meeting was attended by senior officials of the Department of Economic Affairs, Department of Revenue, Department of Telecom, Ministry of Electronics and Information Technology (MeitY), Telecom Regulatory Authority of India and National Payments Corporation of India. The meeting took stock of the preparedness of the banks and other financial institutions in tackling the challenges arising from cyber security in the financial services sector, increasing trend of digital payment frauds, and deliberated on a focused approach to mitigate such cyberattacks and frauds, it said. Some of the issues deliberated in the meeting included a strategy to tackle the menace of mule accounts by banks and how banks can improve the response time in handling the alerts on online financial frauds received from different agencies. Appointment of regional/ state level nodal officers by the banks and financial institutions to cater to the requirements of law enforcement agencies and whitelisting of digital lending apps through consultation with

relevant stakeholders were also discussed during the meeting. The meeting assumes significance in view of digital fraud witnessed by UCO Bank and Bank of Baroda in the recent past. Earlier this month, Kolkata-based public sector lender UCO Bank reported erroneous credit of Rs 820 crore to account holders of the bank via Immediate Payment Service (IMPS). During November 10-13, the bank observed that due to technical issues in IMPS, certain transaction(s) initiated by holders of other banks have resulted in credit to the account holders in UCO Bank without actual receipt of money from these banks. IMPS is a real-time inter-bank electronic funds transfer system without any intervention. The bank blocked the recipients' accounts and has been able to recover Rs 649 crore of the Rs 820 crore or about 79 per cent of the amount. The state-owned bank is yet to clarify whether this technical glitch was due to human error or a hacking attempt. However, the bank has reported the matter to the law enforcement agencies for necessary action.

'China slows, India grows': S&P pegs 7% growth for India by 2026

PTI ■ NEW DELHI

India's GDP growth rate will rise to 7 per cent by 2026 compared to 4.6 per cent for China, S&P Global Ratings said on Tuesday. In a report titled 'China Slows India Grows', S&P said it expects Asia-Pacific's growth engine to shift from China to South and Southeast Asia. "We project China's GDP growth to slow to 4.6 per cent in 2024 (2023: 5.4 per cent), edge up to 4.8 per cent in 2025, and return to 4.6 per cent in 2026. We see India reaching 7.0 per cent in 2026; Vietnam, 6.8 per cent (4.9 per cent); Philippines, 6.4 per cent (5.4 per cent); and Indonesia remaining steady at 5 per cent," S&P said. The US-based rating agency on Monday projected India's GDP to expand at 6.4 per cent in the current fiscal year and in the next. For 2025 it projected growth rate to rise to 6.9 per cent, followed by 7 per cent in 2026. S&P said with Asia-Pacific's central banks likely to keep interest rates high, the region's borrowers will see costlier debt servicing. "Concurrently, a widening conflict in the Middle East could drag global supply chains and raise energy costs, fanning inflation. High input costs dilute corporate margins, while high prices weaken demand," S&P said. Energy and demand shock risk, it said, adding Asia-Pacific's growth is susceptible to energy shocks (widening Middle East conflict) and slower global demand (risk of U.S. Hard landing). "We lowered our projection for the region's growth (ex-China) in 2024 from 4.4 per cent to 4.2 per cent. The prospects for industries also differ, with export-centric manufacturing faring worse," S&P said.

Sebi for changes in regulatory framework for Special Situation Funds

PTI ■ NEW DELHI

Sebi on Tuesday proposed changes in the regulatory framework for Special Situation Funds to facilitate the acquisition of stressed loans. Special Situation Funds (SSFs) are sub-category Alternative Investment Funds (AIFs). In a consultation paper, Sebi suggested a definition of 'special situation assets', eligibility of investors in SSFs in terms of Insolvency law, restrictions concerning investment in connected entities, minimum holding period, subsequent transfer of loans, monitoring and supervision of such SSFs. The proposals have been floated after consultations with the Reserve Bank of India (RBI), which is the principal regulator for the sale and purchase of stressed loans in India. The Securities and Exchange Board of India (Sebi) has sought comments from the public on the consultation paper till December 27. To enable SSFs to acquire stressed loans, these funds need to be part of a RBI annexure pertaining to the transfer of loan exposure. In the consultation paper, the regulator has proposed amending AIF norms to make changes to the regulatory framework for SSFs. Under this, Sebi proposed a definition for a 'special situation asset' that includes securities of investee companies, whose stressed loans are acquired in terms of RBI Master Directions. Further, SSFs having prior investment in securities of

stressed companies should not be disqualified or barred from acquiring stressed loans of the said companies. In addition, SSFs should not invest in or acquire a special situation asset if any of its investors is disqualified under the IBC rule about such special situation assets. Further, special situation funds should not invest in its 'related parties'. Also, it has been proposed that SSFs should transfer or sell stressed loans, only to the entities enlisted in the RBI annexure. SSFs who have acquired stressed loans should be subject to a dedicated supervisory framework. It has been suggested that SSFs should submit information in respect of all investments in stressed loans to a trade reporting platform notified by RBI. This information includes details of units issued, details of investors subsequent changes in unit holdings, resolution strategies implemented, and recoveries effected. In January 2022, Sebi introduced the framework for Special Situation that will invest only in stressed assets. SSFs were introduced as a sub-category under Category I AIF. "The challenges of stressed loans faced by the Indian financial system requiring significant capital infusion in Banks, Non-Banking Financial Companies (NBFCs), etc., necessitated exploring AIFs as a potential source of risk capital to supplement the efforts of Asset Reconstruction Companies (ARCs) in the resolution of stressed loans," Sebi said.

Cybersecurity, customer protection must for digital payments momentum: RBI paper

PTI ■ MUMBAI

Cybersecurity, customer protection, and cost-effectiveness are essential for sustaining the momentum towards digital payments pushed by the Covid pandemic, said Reserve Bank paper on Tuesday. The transactional use of cash has been on a decline and is increasingly getting substituted with digital modes of payments, even as the store-of-value role of cash remains intact, said the paper titled 'Cash versus Digital Payment Transactions in India: Decoding the Currency Demand Paradox'. In line with the global evidence, the pandemic led to a transitory uptick in currency demand in India driven primarily by precautionary and store-of-value motives. To sustain the momentum towards digital payments initiated by the pandemic, concerted efforts are needed to ensure the cost-effectiveness of payment modes and relevant acceptance infrastructure from both the demand (consumers) and

supply sides (merchants and intermediaries); and ensure universal access to enablers, such as smartphones and internet connectivity, it said. The paper authored by Sakshi Awasthy, Rekha Misra and Sarat Dhal, all associated with RBI's Department of Economic

and Policy Research (DEPR), further said efforts are needed to bolster financial inclusion and literacy; and safeguard cybersecurity and customer protection. The authors further said that despite the traction observed in digital payments, cash persists due to a strong inclination

of the populace to transact and save in cash. Moreover, cash serves as the de facto foundation for all types of payments. "It also plays a crucial role in facilitating transactions between the formal and informal sectors as well as with segments of the population that are financially excluded and lack digital awareness," the paper said. Furthermore, the usage and adoption of digital payments remain concentrated in regions characterised by higher levels of development, it added. "The success of digitalisation extends beyond mere cash substitution; it has broader implications for economic growth, development of financial markets, financial well-being of households, and effective governance," it said. Given the ongoing expansion of digital payments and the moderation in the growth of currency demand witnessed post-pandemic, the high cash usage observed during the pandemic may not translate into a permanent shift, the paper said.

Rupee recovers from record lows

PTI ■ MUMBAI

The rupee on Tuesday rebounded from record low levels, gaining 6 paise to settle at 83.34 against the US dollar amid positive sentiment in the equity markets and inflow of foreign funds. Forex traders said a weak American currency against major rivals and crude prices hovering close to USD 80 per barrel level also supported the Indian currency. At the interbank foreign exchange market, the local unit opened at 83.37 and moved in the range of 83.32 to 83.39 against the greenback in intra-day trade. It finally settled at 83.34 against the dollar, registering a gain of 6 paise from its previous close. On Friday, the rupee settled at its all-time low of 83.40 against the American currency. The forex market was closed on Monday on account of Guru Nanak Jayanti. Dilip Parmar, Research Analyst, HDFC Securities, said: "Indian rupee started the week on a positive note as the greenback retreated against major currencies after weak US economic data. However, the month-end dollar demand has contained the gains in the rupee. He said the price action in

USD-INR remained muted and lacked direction. "In the short term, the pair has support at 83.20 and resistance at 83.50." "Rupee is expected to move in a range of 83.25 to 83.50 tomorrow (Wednesday). Market awaits for US consumer confidence and PCE price index, a data closely watched by (US) FED for inflation purpose, apart from US GDP this month," said Anil Kumar Bhansali, Head of Treasury and Executive Director, Finrex Treasury Advisors LLP. Meanwhile, the dollar index, which gauges the greenback's strength against a basket of six currencies, was trading 0.02 per cent lower at 103.18.

Brent crude futures, the global oil benchmark, rose 1.18 per cent to USD 80.92 per barrel. On the domestic equity market front, Sensex climbed 204.16 points, or 0.31 per cent, to settle at 66,174.20 points. The Nifty advanced 95.00 points, or 0.48 per cent, to 19,889.70 points. Foreign institutional investors were net buyers in the capital market on Tuesday as they purchased shares worth Rs 783.82 crore, according to exchange data. Also, the country's forex reserves increased by USD 5.077 billion to USD 595.397 billion during the week ended November 17, the Reserve Bank said on Friday.

Mcap of BSE-listed firms hits record high of ₹331 lakh cr; just shy of entering USD 4-trn club

PTI ■ NEW DELHI

The combined market capitalisation of BSE-listed firms hit an all-time high of Rs 331 lakh crore on Tuesday and is just shy of entering the landmark USD 4-trillion club. At the end of trade, the market capitalisation of BSE-listed companies reached Rs 3,31,05,425.71 crore, which translates to USD 3.97 trillion at the current exchange rate of 83.34, thanks to a lag-end recovery in the equity market after a highly volatile trade. On May 24, 2021, the market capitalisation of all listed companies on the BSE touched the USD 3-trillion mark. The 30-share BSE benchmark Sensex hit its all-time peak of 67,927.23 on September 15, this year. While the BSE benchmark Sensex has rallied 5,333.46 points, or 8.76 per cent, so far this year, the market capitalisation (mcap) of all listed firms at its platform has jumped Rs 48.67 lakh crore. The 30-share BSE Sensex climbed 204.16 points or 0.31 per cent to settle at 66,174.20 on Tuesday. "After last week's range-bound trend, markets registered gains

led by uptick in power, metal and auto stocks as hopes of strong growth momentum going ahead and receding worries of rate hikes in the US strengthened the mood," said Prashanth Tapse, Senior VP (Research), Mehta Equities Ltd. "FII's turning net buyers of local equities in the last few sessions too has brought some cheers to the market, even as caution could prevail in next few sessions ahead of monthly F&O expiry and exit poll results of five state elections later this week," Tapse said. Among the Sensex firms, Tata Motors, Bajaj Finserv, UltraTech Cement, Bajaj Finance, NTPC,

Bharti Airtel, Titan and Axis Bank were the major gainers. ITC, ICICI Bank, Power Grid and HDFC Bank were among the laggards. In the broader market, the BSE midcap gauge climbed 0.30 per cent while the smallcap index gained marginally by 0.06 per cent. Among the indices, utilities rallied 3.64 per cent, power jumped 3.47 per cent, oil & gas climbed 3.13 per cent, energy (2.27 per cent), services (2.02 per cent), commodities (1.27 per cent) and metal (1.13 per cent). FMCG, industrials, telecom-communication and capital goods were the laggards.

Ashneer says sorry, HC slaps ₹2 lakh fine over posts against BharatPe

PTI ■ NEW DELHI

The Delhi High Court on Tuesday imposed Rs 2 lakh as costs on BharatPe co-founder Ashneer Grover in the matter related to his alleged defamatory social media posts against the fintech company even as he tendered an apology for his conduct. Justice Rekha Palli took on record the apology and the undertaking given by Grover but proceeded to impose costs on him, saying the "court cannot be taken for granted". The judge, while dealing with a plea by Resilient Innovations Pvt Ltd - which owns BharatPe - against Grover, said the court was 'appalled' to note the 'per-

sistent" and "blatant" violation of the earlier orders and assurances given by Grover in this regard. The plea forms part of a lawsuit by Resilient Innovations against former managing director Grover and others. "Taking into account that defendant no 2 is now filing an affidavit specifically undertaking not to post any such defamatory posts in future and is also apologising for his past behaviour, this court is inclined to close the matter at this stage by binding the defendant no 2 to his undertaking. "This is, however, subject to a payment of costs of Rs 2 lakh," the court ordered. The court directed that the amount shall be paid to the high

court's clerks' association. Senior advocate Akhil Sibal, appearing for the plaintiff, argued that in spite of court orders asking the parties not to make offending statements and Grover's undertaking to this effect, he was posting defamatory content against the fintech company on social media. The senior lawyer said that an earlier application by the plaintiff was also closed after an assurance was given by Grover who was now adopting a "shoot and scoot" strategy to publish his defamatory posts. He urged the court to issue an injunction order restraining Grover from posting such content. The counsel for Grover said he

was tendering an apology and undertaking to not post any offending posts in the future and the present plea may be disposed of. He also suggested that the matter may be placed for mediation. Last year, Resilient Innovations filed the lawsuit against its former MD Ashneer Grover and his family members to restrain them from making allegedly defamatory statements. The court had issued summons to Ashneer Grover, his wife and other defendants in the suit filed by the fintech firm which has accused the couple of misappropriating funds. Grover resigned from the company in March 2022 and his wife was removed from her post.

In the suit, besides seeking to restrain the defendants from making defamatory statements, the company has also sought the direction for payment of over Rs 88.67 crore along with interest towards the recovery of alleged misappropriated funds and damages caused to the reputation of the firm. The company has earlier claimed before the court that Grover, his wife and other relatives were carrying out a "vicious and vitriolic" campaign against the company which has a large number of foreign investors. Besides Grover and his wife, the company has arrayed as defendants Deepak Gupta, Suresh Jain and Shwetank Jain - all relatives of the couple who were

appointed in different posts in the company. As an interim relief, the company has sought a direction to the defendants to delete or remove within five days all statements, tweets, social media posts, books, re-tweets, hashtags, videos, press conferences, interviews and comments made against the firm. It also sought liberty to approach social media platforms, media houses, publications and others for deletion of such material. On May 16, the high court asked all parties to avoid recourse to unparliamentary and defamatory publications against each other. The lawsuit is listed for the next hearing on December 13.

RONALDO REJECTS PENALTY AWARDED IN ASIAN CHAMPIONS LEAGUE

AP ■ RIYADH

Cristiano Ronaldo's honesty helped to nullify a penalty he was awarded as his 10-man Al-Nassr side held on to draw with Persepolis of Iran 0-0 in the Asian Champions League. Ronaldo went down in the box in the opening moments on Monday and the referee pointed to the spot, but Ronaldo joined Persepolis players in disputing the penalty. Referee Ma Ning checked the pitchside monitor and overturned his decision. Al-Nassr defender Ali Lajimi was sent off in the half for a dangerous challenge on Milad Sarlak, and Ronaldo gave his Saudi Arabia team a late scare when he exited with a neck injury. But Al-Nassr had already qualified for the knockout stages as the Group E winner and advanced unbeaten. The Riyadh team came into the game having won 18 of its previous 19 games in all competitions. In the same group, Qatar's Al-Duhail earned its first win after defeating Istiklol of Tajikistan 2-0. Prolific Kenyan striker Michael Olunga scored both goals. Earlier in Group C, Argentine coach Marcelo Gallardo picked up his first win since being appointed by Al-Ittihad this month after the Saudi Arabian champion defeated AGMK of Uzbekistan 2-1 to move into the knockout stages. Two goals in four first-half minutes from Moroccan striker Abderrazak Hamdallah gave Al-Ittihad the lead after Karim Benzema missed chances. Late in the game in Tashkent, Martin Boakye pulled a goal back for AGMK. "We had to work hard from the first whistle but we kept trying to get forward as much as we could and Hamdallah came good with two well-taken goals," Gallardo said. The top team from each of the 10 groups of four in the tournament, which is divided into two geographic halves until the final, advances to the round of 16 along with the six best-placed runners-up.

India seek to open women's junior hockey WC campaign on winning note against Canada

PTI ■ SANTIAGO (CHILE)

India will look to take confidence from their past success against Canada when they meet each other in their opening match of the FIH women's junior hockey World Cup here on Wednesday. India had beaten Canada in all their previous three games. The Indian team, which had secured a fourth place in the 2022 edition, has been placed in a tricky Pool C, along with Germany, Belgium and Canada this time. Moreover, India's title triumph at the women's junior Asia Cup in Kakamigahara, Japan, earlier this year will boost their confidence. The Indians are aiming to secure their maiden women's junior World Cup title. India's best finish in the prestigious tournament came in 2013 when they finished third. "We are entering the tournament with determination and focus. Our team's preparation has been intense, and we're keen to translate that into our performance on the field," team captain Preeti said. "Playing against Canada in the opener is a chance for us to set the momentum for our campaign." Coach Tushar Khandker said the team was well-prepared for the tournament. "Our players have trained rigorously and are mentally prepared for the challenges ahead. We respect every opponent and are looking forward to a strong start against Canada," he said. The top-two finishers in each pool directly qualify for the quarterfinals. After Canada, India will face a formidable Germany on November 30, followed by a crucial encounter against Belgium on December 2. The quarter-finals, semi-finals and the final of the tournament will take place on December 6, 8 and 10 respectively.

39-member core group named for hockey camp

PTI ■ NEW DELHI

Hockey India on Tuesday named a 39-member core group of players for the men's national camp to prepare for the upcoming five-nation tournament in Spain, even as head coach Craig Fulton seeks a "fresh perspective" for next year's Paris Olympics. The Indian men's hockey team, which qualified directly for Paris Olympics after winning the gold medal in the Hangzhou Asian Games, will feature in the five-nation tournament in Valencia starting from December 15. World champions Germany, France, Belgium and the hosts Spain are the other teams in the tournament. The men's national coaching camp begins at the Sports Authority of India (SAI) Centre in Bengaluru from Wednesday. "It was a long break from national camp after a successful outing in the Hangzhou Asian Games.

FULTON SEEKS 'FRESH PERSPECTIVE' FOR OLYMPICS PREPARATION

Most of the players from the team played the National Championship in Chennai, and I too got a chance to watch some of the young and upcoming players closely," Fulton said. "We will now assemble in SAI, Bengaluru, with a fresh perspective to our preparations for the Paris Olympics. "As I have maintained, it is a process and we will revisit our Asian Games campaign and understand how we can do better as a team and work towards that," Fulton added. The core group for the national camp has all the 18 players that won gold in the Asian

Games last month. Team captain Harmanpreet Singh said, "The past few weeks were great, as we got to spend quality time with family and also had a great outing playing for our home state at the National Championship in Chennai. Now, we return to the camp yearning to be a better team." **List of players in the core-probable group:** **Goalkeepers:** Krishan Bahadur Pathak, Sreejesh Parattu Ravendran, Suraj Karkera, Pawan, Prashant Kumar Chauhan. **Defenders:** Jarmanpreet Singh, Surender Kumar, Harmanpreet Singh, Varun Kumar, Amit Rohidas, Gurinder Singh, Jugraj Singh, Mandeep Mor, Nilam Sanjeev Xess, Sanjay, Yashdeep Siwakh, Dipsan Turkey, Manjeet. **Midfielders:** Manpreet Singh, Hardik Singh, Vivek Sagar Prasad, Moirangthem Rabi-chandra Singh, Shamsher Singh, Nilakanta Sharma, Rajkumar Pal, Sumit, Akashdeep Singh, Gurjant Singh, Mohd Raheel Moussem, Maninder Singh. **Forwards:** S Karthi, Mandeep Singh, Lalit Kumar Upadhyay, Abhishek, Dilpreet Singh, Sukhjeet Singh, Simranjeet Singh, Shilanan Lakra, Pawan Rajbhar.

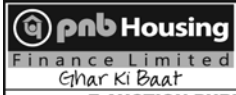

Thapa, Panghal make winning start in National Boxing Championships

PTI ■ SHILLONG

Six-time Asian Championships medalist Shiva Thapa (63.5kg) and World Championships silver medalist Amit Panghal (51kg) on Tuesday made a winning start to their campaign in the Men's National Boxing Championships here. Assam's Thapa, who was made to work hard for his 4-3 split decision win by Abhinash Jamwal from Himachal Pradesh, will now take on Haryana's Santosh HK in his round of 16 clash. Up against Shivaji from Maharashtra, SSCB's Panghal emerged a one-sided winner through a 5-0 unanimous decision. He will face

Jayshandeep Singh from Punjab in the round of 16 match. Meanwhile, Tokyo Olympian Ashish Kumar (80kg) from Himachal Pradesh defeated Punjab's Arshdeep Singh and set up a pre-quarterfinals clash against Nitish Kumar from Chandigarh. Railway Sports Promotion Board's Govind Sahani (48kg), also an Asian Championships 2022 bronze medal winner, emerged victorious in his contest against Tripura's Sayan Lodh. Govind started with an aggressive approach and surprised his opponent who was caught off guard and could never really recover. Govind will now take on Vishal from Himachal Pradesh in pre-quarterfinals.

APPENDIX-IV-A

Barcelona looks to secure return to Champions League knockout stage

AP ■ MADRID

A win against Porto will be enough to put Barcelona back in the knockout rounds of the Champions League after two consecutive group-stage eliminations. It may not be enough, though, to ease the pressure on coach Xavi Hernández, who has struggled to get his team to play well recently. Barcelona is coming off a stretch that includes a 1-0 loss to Shakhtar Donetsk in its last Champions League game, and a 1-1 draw at Rayo Vallecano in its previous Spanish league match. The team has even produced lackluster performances when winning recent matches. "Things did not go as expected lately," Xavi said Monday. "Against Rayo it was better, but we have lacked continuity. Tomorrow is a great opportunity for us. It can be a turning point. I really believe we will be playing better again. If I didn't, I wouldn't even be here." Barcelona will advance with a win, or with a draw if Shakhtar doesn't beat Antwerp in the other Group H match on Tuesday. The Catalan club failed to reach the knockout stage in the two seasons after Lionel Messi left the club. "There's always pressure at Barça," Xavi said. "It's always been like this and that won't change. You have to win at this club." Xavi said he feels the full support

from the club despite the recent struggles. "We all believe in the project and there is total trust," he said. Barcelona has the same nine points as second-placed Porto, which is coming off a win against last-placed Antwerp. Shakhtar is third with six points. "We will be up against a highly technical team, with a coach in Xavi who has plenty of experience in this competition," Porto coach Sérgio Conceição said. "A victory would mean a great night for us, and we will need to be at our absolute best. There is always pressure, but we can use that pressure in a positive manner." Xavi could be without Marc-André ter Stegen because of a back injury. The goalkeeper did not practice with the rest of the group in training on Monday and is doubtful for Tuesday's match. "He will undergo tests before the match to check on the pain and see if he is 100% to play," Xavi said. The coach was certain to be without Gavi after the young playmaker sustained a serious knee injury while on duty with Spain. Xavi was not expected to rest anybody against Porto even though Barcelona at the week-end hosts Atletico Madrid in a match that could be crucial in the Spanish league. "In the last few matches we haven't played how we wanted," Barcelona defender João Cancelo said. "We have a chance now to play well and gain some confidence going forward."

Public Notice For E-Auction Cum Sale (Appendix – IV A) (Rule 6(6))

Sale of Immovable property mortgaged to IFIL Home Finance Limited (Formerly known as India Infoline Housing Finance Ltd.) In order to ward-off such contingent situation, bidders are requested to make all the necessary arrangements/ alternatives wherever required so that they are able to circumvent such situation and still be able to participate in the e-Auction successfully. However, it is requested to the Bidder(s) not to wait till the last moment to quote/improve his/her Bid to avoid any such complex situations.

Place:- Raipur C.G Date: 29/11/2023 Sd/- Authorised Officer, Kotak Mahindra Bank Ltd.

AUSTRALIA BEAT INDIA BY FIVE WICKETS

OZ reduce margin to 2-1 to stay alive in T20I series

PTI ■ GUWAHATI

Glenn Maxwell's fiery unbeaten hundred carried Australia to a five-wicket win over India in the third T20I here on Tuesday. With this win, Australia managed to cut India's series lead to 2-1 in the five-match rubber. Maxwell made 104 off 48 balls (8x4, 8x6) as the Aussies went past India's 222 for 3 in the last ball of the match. Skipper Matthew Wade remained not out on a crucial 28 off 16 balls. Leg-spinner Ravi Bishnoi took two wickets for India. Earlier, Ruturaj Gaikwad's maiden international hundred was the cornerstone of India's big total. Gaikwad made a rollicking unbeaten 123 off 57 balls. Ruturaj Gaikwad displayed brute power and wonderful technique in equal measure with a maiden hundred that propelled India to a commanding 222 for 3 against Australia in the third T20 International here on Tuesday. Gaikwad slammed a career-best 123 not out off just 57 balls

with 13 fours and seven sixes, a first ton by an Indian batter against Australia in T20 Internationals. The 30 runs that Gaikwad took off Glenn Maxwell in the 20th over could prove to be a game-

changer. Skipper Matthew Wade's decision to give a part-time off-spinner 20th over of the innings backfired big-time. On a wicket that had some extra bounce and swing, India had a

shaky start losing their both their in-form batters Yashasvi Jaiswal (6) and Ishan Kishan (0) cheaply after Matthew Wade opted to bowl to make use of the dewy conditions. Skipper Suryakumar Yadav (39;

29b) looked set for a big knock with two sixes and five boundaries before debutant pacer Aaron Hardie dismissed him with a short ball just after the halfway mark. With run-rate not an issue --

eight per over -- they needed someone to anchor their innings, and the Indian vice-captain Gaikwad played the role to perfection. From 13 off 15 balls, the right-hander with orthodox technique, who often drew flak for his slow starts, switched gears after Surrya's dismissal, displaying the wide array of shots in his repertoire. His knock was not just about classical drives in the V but also a testament to his brute power. He packed a lot of punch in his pulls and an inside-out maximums. It was a different Gaikwad on display during last six overs. Once he got his furst 50 off 32 balls, he then went berserk, taking another 20 to bring up his maiden triple digit score in the last over of Maxwell. Gaikwad muscled Maxwell over wide long to to bring up his century with a six as he smashed two more in the same over that yielded 30 runs as India amassed 200-plus totals in each of the three T20Is so far. **Brief scores:** India: 222 for 3 in 20 overs (Ruturaj Gaikwad 123 not out, Suryakumar Yadav 39, Tilak Varma 31 not out; Jason Behrendorff 1/12) lost to Australia: 225 for 5 in 20 overs (Glenn Maxwell 104 not out, Matthew Wade 28 not out, Ravi Bishnoi 2/32) by 5 wickets.

When Kohli's wicket fell, stadium was quiet like library: Cummins

PTI ■ SYDNEY

Australian captain Pat Cummins couldn't believe his ears when he found a near 100,000 people at Narendra Modi Stadium go pin-drop silence after Virat Kohli's dismissal giving the vibe of a "quiet library" during the World Cup final against India. Australia won their sixth title beating India by six wickets but many believe that Cummins getting India's No. 1 batter played on, became the turning point of the match. "We're in a huddle after the wicket of Kohli in the final & (Steve) Smith says, 'Boys, listen to the crowd.'" And we just took a moment of pause, and it was as quiet as a library, 100,000-plus Indians there & it was so quiet. I'll savour that moment for a long time," Cummins told "The Age" during an interaction. Late, he spoke to reporters and said that to hold the Trophy, it took a lot out of him and his team. "To hold one trophy takes a lot. But, to hold them across formats really shows our amazing coaching group and also the squad of players," Cummins told reporters here on Tuesday during a World Cup event. "You can't do that with 11 players. You need 25 really good players. So, it shows the strength of Australian cricket at the moment and the appetite of the guys to compete whenever they play." "Everything takes a lot out of you, but the guys keep rocking

up and performing, which is as pleasing as anything else." **WORDS LIKE REST AND ROTATIONS GET THROWN AROUND:** Workload management might be in vogue in world cricket for past few years but Cummins believes that words like "rest" and "rotation" are loosely thrown around when reality is nobody likes to miss a Test if he is fully fit. Cummins, who has led the Australian team to World Test Championship and ODI World Cup glory in 2023, said that despite a long season, his unit is raring to go during the coming Australian Summer which starts with Test series against Pakistan on December 14. "Realistically, the word rest and rotated gets thrown around a lot, but you never miss a Test if you are fully fit." "While over the last couple of years, we might have been rested from the odd game, the bulk of work we've been able to do is because of those small gaps. If we are fully fit, we won't be resting." He recalled that as pacers, the players are bound to feel some niggles somewhere or the other but they should not be bogged down by it. "You are always dealing with something as a bowler. When your hamstring starts to feel, then you feel a pain somewhere else, then you wake up the next day, and it's moved somewhere else," Cummins continued. Currently, a second-string Aussie squad is currently competing in a five-match T20I series in India.

NZ offspinner Phillips takes 4 wickets to reduce Bangladesh to 310-9 after Mahmudul's 86

AP ■ SYLHET (BANGLADESH)

Offspinner Glenn Phillips claimed 4-37 in only his second match as New Zealand reduced Bangladesh to 310-9 on day one of the opening test on Tuesday. Phillips' haul helped the visitors gain an edge after Bangladesh won the toss and opted to bat first on a pitch ideal for batting. Bangladesh made a good start with opener Mahmudul Hasan playing serenely to put the side in the driving seat in the first session but his teammates' rash shots undermined his effort. Mahmudul made a team-best 86 off 166 balls with 11 boundaries. He shared stands of 39 for the first wicket with Zakir Hasan and 53 for the second with Najmul Hossain Shanto as Bangladesh made steady progress. Shanto, who led the home team in the absence of Shakib Al Hasan, was dismissed just before lunch after playing an attacking 37 off 35 deliveries. He was particularly harsh on left-arm spinner Ajaz Patel (2-76), hitting him for three sixes to entertain the sparse crowd. Patel, one of only three bowlers ever to take 10 wickets in a single test innings, gave the visitors an early breakthrough when he dismissed Zakir Hasan for 12 in the 13th over with a delivery that turned sharply to rattle the stands. Shanto targeted Patel and opened with a six over mid-on.

And he used his feet effectively to dominate New Zealand's other spinners — Ish Sodhi and Glenn Phillips. But he paid for his aggressive batting when he charged a full toss from Phillips and skied a catch to Kane Williamson in the deep, making the score 92-2. Mahmudul and Mominul dug in to defy the New Zealand bowlers who were relentless in attack and Mahmudul raised his fourth test fifty, driving Patel for a boundary through cover off 93 balls. As the innings seemed to turn in Bangladesh's favour, Phillips made the crucial breakthrough when Mominul's attempted cut resulted in a catch behind the wicket, ending the 88-run partnership. Mominul scored 37 off 78 with four fours. Mahmudul fell in the next over. After playing with soft hands throughout his stay, he went after legspinner Shodi, only to be caught by Daryl Mitchell at slip. With Bangladesh at 184-4, the onus was on veteran Mushfiqur Rahim to lead the side but he needlessly charged Patel to be caught by Williamson at deep mid-off for 12. Debutant Shahadat Hossain appeared to be solid against the spinners but the rash shots of Mehidy Hasan against pacer Kyle Jamieson (2-52), further deepened Bangladesh's crisis. Shahadat was undone by a slower delivery from Phillips as he chipped straight to short mid-wicket after adding 24.

PCB in deadlock with ACC on compensation for flights during Asia Cup

PTI ■ KARACHI

Pakistan Cricket Board (PCB) was on Tuesday caught in a deadlock with the Asian Cricket Council (ACC) for demanding additional compensation on organising chartered flights between Pakistan and Sri Lanka during the Asia Cup, which it co-hosted in August-September. The Asia Cup 2023 was organised in a hybrid model in Pakistan and Sri Lanka after the ACC accepted PCB's hybrid model, with majority of the matches organised in the island nation. A reliable source in the PCB informed PTI that apart from seeking the tournament hosting fees - around \$250,000 - as well as shares from ticketing and sponsorship fees, they have also demanded additional compensation. The source said, "The additional money is for expenses

incurred on renting chartered flights for teams between Pakistan and Sri Lanka and other extra expenses like additional hotel and transport fees, which were not included in the initial budget for the Asia Cup." The source, however, informed that the ACC is not willing to pay additional expenses to the PCB since it believes that Pakistan had agreed for matches to be held in Sri Lanka under its hybrid model, in return for hosting four games of the Asia Cup at home. A Sri Lanka-based company named Classic Travel was paid \$281,000 for arranging four chartered flights to and fro between Pakistan and the island nation - something that PCB's Cricket Management Committee (CMC) was not comfortable paying upfront as advance. The tournament was moved to a hybrid model after India refused to play in Pakistan citing security reasons.

PTI ■ MUMBAI

A promising bunch of India Women's 'A' players will look to utilise the most of the opportunity when they face their counterparts from England in a three-match T20 series, starting here on Wednesday. The second and third matches will be played on December 1 and 3. All the three matches will be held at the Wankhede Stadium here. The three matches between the 'A' sides of India and England will be followed by a three-match T20I series and a one-off Test between the senior women's teams of the two countries. All the matches between the seniors sides will also be held in Mumbai, beginning with the first T20I on December 6. It is, in fact, going to be a busy season for the Indian women cricketers. The contests against

the Englishwomen will be followed by a long tour of Australia women to India, comprising a one-off Test, three ODIs and three T20Is. With the India women's senior squad yet to be announced, the 16-member India A side, led by Kerala's Minnu Mani, will have extra motivation to do well in order to push for their selection in the senior team. The 24-year-old all-rounder Mani has been given a huge responsibility, considering that she only made her international debut four months ago during India's tour of Bangladesh in July.

Fans to get free entry for India women's cricket team's matches in Mumbai

PTI ■ MUMBAI

Fans have been spared the hassle of running around for match tickets during Indian women's cricket team's upcoming fixtures against England and Australia at the Wankhede Stadium and DY Patil Stadium as the Mumbai Cricket Association (MCA) on Tuesday made the entry free for all those matches. The cricket fest here will start with India Women's A team taking on their England counterparts in a three-match T20 series from Wednesday, with all matches to be played at the Wankhede Stadium on November 29, December 1 and 3 from 1:30pm. India women's senior team will then take on England in a three-match T20I series starting on December 6, and the second and third match will be played on December 9 and 10 respectively at the Wankhede Stadium. These games will have a 7:00pm start.

"MCA president Amol Kale and the apex council unanimously passed the decision to encourage support for women's cricket," said secretary Ajinkya Naik. "Unlocking the gates for free entry not only fills the stadium but also opens the door to a world of empowerment through women's T20 cricket," added Naik. India and England will then engage in a one-off Test to be played at the DY Patil from December 14-17. India will begin their home series against the Australian Women's team with a one-off Test to be played at the Wankhede Stadium from December 21 to 24, followed by a three-match ODI series. While the first ODI will be played on December 28, the second will be on December 30 and the third ODI will be on January 2, 2024 with the Wankhede Stadium serving as the host for all these matches, starting at 1:30pm.

India Women's A team looks to utilise most of opportunity against England counterparts

Mani also played for Delhi Capitals in the inaugural Women's Premier League. The focus will also be on future

India prospect, Karnataka's Shreyanka Patil who had a promising run in the WPL earlier this year and also became the

first Indian player ever to sign up for the Women's Caribbean Premier League. Among those to watch out for will be the young and dashing Punjab batter Kanika Ahuja, who delivered an all-round show — 30 runs and two wickets — in the final of the ACC's Women's Emerging Teams Cup. Mannat Kashyap's progress as a young off-spinner will also be under watch and among batters, the likes of G Trisha, Dinesh Vrinda and Gnanananda Divya will be expected to deliver the goods. While the visiting England A are yet to announce their squad for

the series against India A, they are coming here after a training camp in Oman. Among those who featured in the camp were exciting young fast bowler Mahika Gaur, Charlie Dean and Lauren Filer, who took a handful of wickets for England against Sri Lanka in their recent series. **India Women's A:** Minnu Mani (c), Kanika Ahuja, Uma Chetry (wk), Shreyanka Patil, G Trisha, Vrinda, Dinesh, Gnanananda Divya, Arushi Goel, Disha Kasat, Rashi Kanojia, Mannat Kashyap, Anusha Baredy, Monica Patel, Kashavee Gautham, Jintimani Kalita, Prakashika Naik.

Don't keep so much hopes that people end up with broken hearts: Kapil

PTI ■ GURUGRAM

Excess hype often leads to broken hearts and hence it is always necessary to strike a balance, legendary Kapil Dev said on Tuesday in context of India's six-wicket defeat at the hands of Australia in the World Cup final earlier this month. The 1983 World Cup winning skipper said that the Indian fans should refrain from creating too much pressure and treat cricket just as another sport. "Don't keep so much hopes that people end up with broken hearts. We need to keep a balance. Other teams also came to India to compete in the World Cup. We shouldn't create so much hype. We need to look at sports as sports only. Whoever plays good on the day, we need to respect that. We are too emotional," Kapil said on the sidelines of the inaugural tee off ceremony of Kapil Dev Grant Thornton Invitational golf tournament here. India won 10 games, most of which were lopsided as contests, before Australia

turned the tables on them at the Narendra Modi Stadium on November 19. For past 10 years, India have lost seven knock-out games out of eight ICC tournaments that they took part between 2014 to 2023. Kapil doesn't know if the pressure of occasion gets to them. "I think today's players can answer how much pressure they feel. We can only feel," he said. However there are shortcomings which needs to be taken care of, Kapil stated, without specifying what they were. "If they (India) win it feels really good. There are shortcomings which we need to address. It is not that you won't have shortcomings after a win. What's most important is to rectify them," the 63-year-old said. He urged fans to celebrate what India achieved rather than what they missed out. "They (India) won 10 matches in a row. Is it not enough? We should look at other teams as well. We shouldn't compare anyone. What is important is to see whether they played good cricket or not.

We played very good cricket. Final day was not ours so be it," the 1983- World Cup-winning captain added. Kapil cited the examples of South Africa and defending champions England to prove his point. "We should look at performance of other teams as well like, South Africa, England who were the defending champions, they finished last (seventh)," Kapil also lauded Prime Minister Narendra Modi's gesture to visit the Indian dressing room and console the players after the final loss in Ahmedabad on November 19. "If the Prime Minister doesn't encourage, who will? He is the No.1 man in the country and if he supports, it feels good," he said. The former all-rounder also refrained from commenting on Virat Kohli and Rohit Sharma's future in T20 Internationals. "This is selectors job and we should leave it to them. It is not good to comment on everything. They are responsible and what they feel good, they should do," he

said. The second edition of the Kapil Dev Grant Thornton Invitational golf tournament, sanctioned by Professional Golf Tour of India, will have prize purse of Rs 2 crore this year, double the amount from last year. Title holder Varun Parikh will try to defend his title in the tournament beginning on Wednesday at the DLF Golf and Country Club here. Kapil said some former cricketers including Murali Karthik, Madan Lal, Yuvraj Singh, Harbhajan Singh are expected to be present on the final day of the event on December 3. He also said he would request Sachin Tendulkar to grace the occasion. "Already the prize money has been doubled. It feels good that some former cricketers will be coming for the event. Why can't cricketers play other sports? "If we can support other sport apart from cricket, why not? In India, there is not just one game," said the man, who has been an amateur golfer since his retirement.
