Defeat by Bangladesh

Dr. Gourav Sethi and Dr. Dinesh Bedi

India outplayed the West Indies by 276 runs in the second Test at VCA ground in Nagpur on Saturday. India had scored 379 for 7 and Bangladesh were all out for 103 on Day 2.

India's bowling attack took control of the match with a disciplined performance. India's second-string players, like Ravi Bishnoi and Ravi Asnodkar, performed well.

India's captain Virat Kohli scored 89 and Vihari's 77 were the highest scores. India's bowlers, led by Jaspal Malhotra, took 11 wickets.

India leads the series 1-0 after winning the first Test in Bangalore. The two remaining Tests will be played in Mumbai and Chennai.

For Bangladesh, the match was a disappointment. They were bowled out for 103 on Day 2, with Shoriful Islam taking 3 wickets.

India's victory in Nagpur will boost their confidence ahead of the World Test Championship final against Pakistan in Dubai next month.

**JHARKHAND WOMEN'S ASIAN CHAMPIONS TROPHY**

**Dominant India trounce Japan by 4-0 in the final to clinch the title**

**By Subrata Das**

India completed a clean sweep in the Women's Asian Champions Trophy Cricket, defeating Japan 4-0 in the final at the Barabati stadium in Cuttack on Monday.

India, who were ranked second in the tournament, put up a dominating performance, scoring 87 runs and taking 4-0 wickets.

The Indian team was led by captain Harmanpreet Kaur, who scored a century in the final. They were joined by Smriti Mandhana, who scored 90 runs, and Mithali Raj, who scored 70 runs.

India's bowling attack was led by Poonam Yadav, who took 3-0 wickets. Ritika, Sneh Rana, and Deepti Sharma also bowled well, taking 1-0 wickets each.

Japan, on the other hand, scored just 55 runs and lost all their wickets.

India won the tournament after a hard-fought battle against China in the semi-finals, scoring 7-0 and taking 3-0 wickets.

India had earlier defeated Russia 4-0 in the group stages, followed by a 5-0 win against the Maldives.

India is currently ranked second in the world in women's cricket, having won the World Cup in 2017 and the Asia Cup in 2018.

India's next challenge will be to qualify for the World Cup in 2023, which will be held in Australia. India is currently ranked fourth in the world, behind Australia, New Zealand, and England.

India's coach Ramesh Powar praised the team's performance, saying that they had worked hard to achieve the title.

**Bihar Police reports industrialisation of subversive activities**

Bihar Police have arrested a group of Naxalites and gangsters who were reported to be involved in subversive activities.

According to the police, the group was operating in the Jharkhand-Chhattisgarh border region and had been involved in various criminal activities, including extortion, theft, and murder.

The police have recovered three Improvised Explosive Devices (IEDs) from the group, which they claim were being used to target security personnel.

The police have also warned the public to stay away from the group and report any suspicious activity to the authorities.

**Ant-Man saves the day in Spider-Man: No Way Home**

The latest installment of the Spider-Man franchise, "Spider-Man: No Way Home," has been released in theaters worldwide.

The film follows Spider-Man Peter Parker as he tries to keep his identity secret from the world while facing new threats from villains like Doctor Octopus and Green Goblin.

In the movie, Ant-Man, played by Paul Rudd, appears unexpectedly to help Spider-Man. Ant-Man's presence has been kept a secret from the public, but fans have been eagerly awaiting his return.

The film is directed by Jon Watts and produced by Kevin Feige. It is the seventh Spider-Man film and the third in the Marvel Cinematic Universe.

**BJP targets govt for hatchet conspiracy against probe agency**

BJP leaders on Monday hit out at the Jharkhand govt for alleged conspiracy against CBI officials, saying the state has a long record of taking on the top-notch law enforcers.

BJP President Nadda alleged that there was a conspiracy to influence CBI officials in Jharkhand, where the party is in power.

BJP spokesperson Pratul Shahdeo on Monday said that the state government should recuse itself from the inquiry.

"The BJP has every reason to believe that the Government's actions are part of a broader conspiracy to shield the accused," Pratul said.

He alleged that the state government was trying to influence the CBI to obstruct justice.

The BJP has been a vocal critic of the Jharkhand government, which is led by Hemant Soren of the JMM-BJP alliance.

**Jharkhand Govt to fall in December: Saryu Rai**

BJP MLA Saryu Rai said on Monday that the Jharkhand government would collapse in December, just days before the assembly elections.

Saryu, who is the state BJP president, said that the government was unstable and that the BJP was ready to form the next government.

"The Jharkhand government is dead. The government will fall in December," Saryu said.

The Jharkhand assembly elections are scheduled to be held in December, with the BJP expected to make a strong showing in the state.

Saryu's predictions come after a series of political developments in the state, including the resignation of several key government officials and the weakening of the ruling JMM-BJP alliance.
Panel likely to adopt draft reports on Bills to replace colonial laws today

**NEW DELHI:** A parliamentary committee is set to adopt three draft reports on Bills to replace colonial laws today, in line with a commitment to do so by the government’s deadline.

The committee, which has been working on the draft reports for several years, is expected to adopt them at its meeting today. The adoption of the draft reports would mark a significant step towards the replacement of colonial laws in India.

The draft reports cover a range of topics, including education, environment, and housing, and are expected to be adopted unanimously by the committee.

The move is part of a larger effort by the government to address the legacy of colonial rule and to promote a more modern and inclusive legal framework.

The adoption of the draft reports is expected to be announced by the government in the near future.

**NEW DELHI:** Birla amid a possibility of disbanding its report to Speaker Om Birla’s report to Speaker Om Birla was tabled in the Lok Sabha on Tuesday, and it has raised a storm in the chamber.

The report, which was prepared by Birla’s committee on information technology, is expected to have far-reaching implications for the country’s digital landscape.

The report is likely to be debated in the Lok Sabha on Wednesday, and it is expected to be passed by the end of the week.

---

**NEW DELHI:** The first-of-its-kind initiative by the Border Security Force (BSF) has been launched in West Bengal. The BSF has installed beehives on the India-Bangladesh border fence.

The beehives will be managed by locals in the area, and the honey produced will be sold to raise funds for the locals.

The initiative is part of the government’s efforts to boost the economy and provide employment opportunities in remote areas.

---

**NEW DELHI:** The Lok Sabha’s Ethics Committee will meet on Monday to discuss a probe into the alleged violation of ethical norms by some members of the Lok Sabha.

The committee has been tasked with investigating the matter, and it is expected to submit its report to the Lok Sabha Speaker soon.

---

**NEW DELHI:** The election in Mizoram has ended, and the results are expected to be announced soon. The state has been in a state of limbo since December 2, when the polling ended.

The election was held on December 1 and 2, and it is the first election in Mizoram since the state was granted statehood in 1972.

Gaspering for Breath

Delhi is practically unleavable for humans as air quality index breaches the 460-mark

The Air Pollution Council India (APCI) has registered over 963 glass sectors in Delhi with air pollution levels far exceeding the limits prescribed. The movement of vehicles, dust-laden winds, and industrial emissions have caused a severe health crisis in the city. The capital city is facing a major air pollution problem, which is having a severe impact on the health of its residents.

The APCI has reported that the air quality index (AQI) in Delhi has crossed the 963 mark, making it one of the most polluted cities in the world. The AQI measures the concentration of pollutants in the atmosphere and is used to guide public health advisories. An AQI of 963 indicates severe air pollution, with health impacts ranging from severe respiratory and cardiovascular problems to even death.

The AQI in Delhi has been on a steady rise for several weeks, and it is expected to remain high for the foreseeable future. The Indian government and local authorities have been accused of failing to take adequate measures to address the air pollution crisis. The lack of effective policies and the continued growth of industries and vehicles have contributed to the worsening air quality.

The situation is particularly alarming for the elderly, children, and individuals with pre-existing health conditions, who are at a higher risk of developing health problems due to air pollution. The government needs to take urgent action to reduce emissions and improve air quality in Delhi and other major cities in India.

India & Israel share common interests

Both India and Israel have hostile neighbors. India can take a cue from Israel in defending its borders and sovereignty

Strategic attacks on our national interests

As India’s economic clout grows, we can expect more attacks from foreign powers, that specifically targeted companies engaged in nation building

The attempt to extort money from the Indian economy is an attempt to curb the growth of the Indian economy. The Indian government has been on a mission to attract foreign direct investment (FDI) to boost the economy. However, the recent attacks have disrupted the flow of FDI and have caused a setback to the economic growth.

Several companies operating in India have been targeted by the attacks. The Indian government has been trying to address the issue by increasing its security measures and by strengthening its cyber defenses. However, the attacks have continued, and the government is yet to find a solution.

The attacks on companies operating in India are a worrying trend. They can have serious implications for the Indian economy and for the foreign companies operating in India. The Indian government needs to take urgent action to address this issue and to protect the foreign companies operating in India.
In general, wars profit the arms-selling countries who supply weapons to the warring sides and make money, no matter who wins or loses.

HARISH VALLURI

While the digital transformations in governance, the importance of preserving, monitoring, and transferring knowledge is vital when a new government steps into power, it is also a time when a wave of new ministers and key officials. While the faces and the work allocated changes, the machinery of governance must maintain its continuity, efficiency, and stability. And the same goes for the institutions. Many of these experiences are preserved in the form of institutional memory. It provides invaluable experiences, and insight acquired within an organization and an understanding of the current and past state, making it possible for the new government to take the knowledge and lessons learned and apply them to the current situation. This is not a new concept, but it plays a crucial role in the continuity of governance. The new government needs to leverage the knowledge and experience of the retired ones. In March 2015 at the behest of the Prime Minister of India, Narendra Modi, a high-level committee was constituted to provide insights and experiences across the government departments responsible for capturing and sharing public data on programs and activities. The committee's role is to develop knowledge and data bank to develop the knowledge ecosystem. Officers' value, and the role of institutional memory is to bridge the gap between retiring and incoming officers to capture and share the insights and experiences of the retired officers and their successors. Institutional memory is not an abstract concept but a living entity. Learning from the past, the Government can leverage the knowledge and data bank to develop the knowledge ecosystem and ensure the continuity of governance. The Government can develop specialized teams or departments responsible for capturing, curating, and disseminating institutional knowledge. One effective approach is establishing knowledge management systems for documents and sharing experiences. These systems should provide insights and recommendations to officers and their successors. It is essential to create a knowledge-sharing ecosystem that fosters efficiency and ensures continuity. The new government's primary focus should be to retain and leverage the knowledge and experience of the retired ones to make the world a better place to live.

India’s power consumption grows 9.4 per cent in April-October

PTI NEW DELHI

India’s power consumption grew 9.4 per cent during April-October, much higher than the 12.7 per cent growth recorded during the same period last year (October-September 2021), according to data released by the Central Power Research Institute.

The peak power demand in the months of April to September 2022-23 was 143.94 billion units as against 121.79 billion units during the same period last year, showing a growth of 18.4 per cent. The peak power demand in October 2022 was 113.94 billion units, higher than 112.79 billion units during the same month last year.

A spokesperson of Tata Power Retail Limited (TPL) said, “India’s power consumption has grown substantially in the current year.” In October 2022, the power consumption was 113.94 billion units, higher than 112.79 billion units during the same month last year. In the year 2022-23, the power consumption was 899.95 billion units as against 874.39 billion units in the year 2021-22, a growth of 3.3 per cent.

The power consumption in the four months of April-July 2022-23 was 33.44 billion units as against 29.43 billion units during the same period last year, showing a growth of 13.5 per cent. The power consumption in July 2022 was 113.94 billion units, higher than 112.79 billion units during the same month last year. In the year 2022-23, the power consumption was 899.95 billion units as against 874.39 billion units in the year 2021-22, a growth of 3.3 per cent.

The power consumption during the four months of April-July 2022-23 was 32.74 billion units as against 29.40 billion units during the same period last year, showing a growth of 11.4 per cent. The power consumption in July 2022 was 113.94 billion units, higher than 112.79 billion units during the same month last year. In the year 2022-23, the power consumption was 899.95 billion units as against 874.39 billion units in the year 2021-22, a growth of 3.3 per cent.

Viral legend of a game, says Dravid as Kohli turns 35

Our cricket fears, that we have higher than previous percentage of wins of late: Naib

Most satisfying ODI I have played: Zampa

Frustration grows and adds but belief not shaken: Buttler

WILLIAM P. N. (12T)

That summed up how Kohli toiled and followed it up with his usual performance on Sunday.

South Africa in the World Cup here anticipated 49th ODI century in an innings battle against Pakistan who have played eight games in the manner in which they have been doing their thing against India, Afghanistan players to play with one another's plans. "If we stop believing in ourselves, then we are finished. High as it's ever been really, but satisfying to work on stuff that we know is difficult. "It's probably the most satisfying one tonight," Zampa said.

'Kohli turns 35'

"With the top seven sides at the World Cup, there will be a top six sides at the World Cup campaign and his own performance against New Zealand. "While injuries have been an issue, good fielders have hurt our bowlers. "While I was hopeful. I'd love to play in the World Cup next year as well so there is a lot of money at stake for Maharaj. "That's when he pushed defensively at a snorter from Maharaj, as the Proteas took control of the game.

The replays showed no spike on the block after surviving on duck against Maharaj, the South African bowler. "While Kohli and Iyer played with one another's plans, the duo. "We have been doing our thing against India, Afghanistan players to play with one another's plans. "When we have been doing our thing against India, Afghanistan players to play with one another's plans. "When we have been doing our thing against India, Afghanistan players to play with one another's plans. "While injuries have been an issue, good fielders have hurt our bowlers. "While I was hopeful.
