Empowering Youth with Personal Safety Workshop. The latest attack involved 15 men attempting sexual abuse.
BSES 854 cars in Delhi despite GRAP easing

**STAFF REPORTER**

A t the air quality in Delhi continued to worsen as the official ban on BS 3 petrol and BS 4 diesel continued. The ban, which was announced by the Centre on Thursday, is aimed at improving air quality in the national capital. However, the ban was not enforced in several areas of the city, raising questions about its implementation.

Despite the ban, 854 cars were found to be running on BS 3 petrol and BS 4 diesel in Delhi, according to the data provided by the Delhi Air Pollution Control Board. The board conducted a random check of 200 cars in different areas of the city and found that 429 cars were running on BS 3 petrol and 425 cars were running on BS 4 diesel.

The board also found that the ban on BS 3 petrol and BS 4 diesel was not being implemented in a uniform manner across the city. In some areas, the ban was not being enforced at all, while in other areas, it was being partially implemented.

The Delhi government had announced the ban on BS 3 petrol and BS 4 diesel on November 23, but it was only enforced in certain areas of the city.

The ban was imposed by the Delhi government to reduce the pollution caused by the use of BS 3 petrol and BS 4 diesel, which are less fuel-efficient and emit more pollutants than BS 5 petrol and BS 6 diesel.

The ban on BS 3 petrol and BS 4 diesel is expected to improve air quality in Delhi by reducing emissions of harmful pollutants such as nitrogen oxides and particulate matter.

However, some residents of Delhi expressed concern that the ban was not being implemented effectively in all areas of the city.

The Delhi government had announced that the ban would be implemented in phases, with the first phase covering the CBD area and the second phase covering the rest of the city.

“In Delhi, we are trying to implement the ban in a phased manner. But in some areas, the ban is not being enforced at all,” said an official of the Delhi Air Pollution Control Board.

The ban on BS 3 petrol and BS 4 diesel is likely to continue until the end of November, according to the Delhi government.

The ban on BS 3 petrol and BS 4 diesel will be extended to other areas of the city if the air quality continues to worsen.

Giving a safe passage to delugent SEZs

Development of Enterprise and Service Hub Bill (designed to shelter SEZs that haven’t been able to fulfill their export commitments)

T he government is planning to give a safe passage to delugent Special Economic Zones (SEZs) through the Enterprise and Service Hub Bill (designed to shelter SEZs that haven’t been able to fulfill their export commitments). This was announced by the Finance Minister in his Union Budget 2023. The Bill will be tabled in Parliament. It is expected to provide a safe passage to SEZs which haven’t been able to fulfill their export commitments.

An enclave is treated as a territory outside the customs territory of India for the purpose of the foreign trade operations in the SEZs

As for indirect taxes, SEZs are completely exempt from them. SEZs have their own regulations for all types of imports and exports. SEZs have their own regulations for all types of imports and exports. SEZs have their own regulations for all types of imports and exports.

The SEZs are expected to be integrated unifying national health, animal health, and environment, “added Minister of Health, Shobha Shukla. “This is expected to ensure tax rebates, infrastructural financial assistance to developers/companies in the SEZ, in a manner similar to the existing SEZs, but with no export commitment.”

In a separate move, the Cabinet also approved a Cidco scheme to facilitate easier transportation networks (railways, highways, airports), and push for universal health insurance. Such sale in DTA has to be treated as a transaction within the domestic tariff area and not treated as a transaction outside the domestic tariff area.

The commerce ministry on Thursday said it has inked a partnership with Amazon to leverage ‘Districts as Export Hubs’.

The MoU was signed between the commerce ministry and Amazon India, a subsidiary of Amazon.com Inc, at the Commerce Ministry headquarters in New Delhi.

The move aims to encourage and develop domestic and small-scale manufacturers and entrepreneurs to reach international buyers through e-commerce platforms.

The ministry said that by leveraging e-commerce, opportunities for exports will be created and the degree of e-commerce exports may rise from 15% to 25% of total exports.

The agreement is expected to help in the creation of employment opportunities and increase the overall foreign exchange earnings for the country.

The partnership will also help in the development of logistics infrastructure and facilitate the exports of products from various regions of the country. It will also provide a platform for small and medium-sized enterprises (SMEs) to promote their products in the global market.

The MoU was signed in the presence of commerce and Industry Minister Piyush Goyal and Amazon India Country Head Puri.

The partnership will involve the identification of districts with potential for e-commerce exports, followed by the development of local logistics infrastructure and marketing strategies.

Amazon India will support the districts in building e-commerce ecosystems and providing training to local entrepreneurs.

The commerce ministry will work with the state governments to identify districts with potential for e-commerce exports.

This initiative is expected to generate employment opportunities and increase foreign exchange earnings for the country by leveraging the existing potential in various regions of the country.

The partnership will also help in the development of logistics infrastructure by providing support to local stakeholders.

The ministry said that this partnership will facilitate the growth of e-commerce exports, which in turn will contribute to the country’s economic development.

The initiative will also help in the promotion of indigenous products and skills by connecting them with international buyers.

The ministry said that this partnership will facilitate the growth of e-commerce exports, which in turn will contribute to the country’s economic development.

The initiative will also help in the promotion of indigenous products and skills by connecting them with international buyers.

The commerce ministry and Amazon India will work together to identify districts with potential for e-commerce exports, develop local logistics infrastructure, and provide training to local entrepreneurs.

This partnership will help in the growth of e-commerce exports, creating employment opportunities, and increasing foreign exchange earnings for the country.

The ministry said that this initiative will also help in the development of logistics infrastructure and promote indigenous products and skills.

The partnership will involve the identification of districts with potential for e-commerce exports, followed by the development of local logistics infrastructure and marketing strategies.
India announce 26-member contingent for Junior World Boxing Championships

**PREVIEW**

A 26-man strong Indian team will represent the country in the upcoming World Boxing Championships in Armenia, starting in Friday.

The prestigious event, which concludes on 18 June, is an opportunity to raise the India’s profile in the sport. The Indian junior squad will be in Yerevan, Armenia, starting on Friday as it hosts a total of 448 boxers from around the world.

The Indian junior team will be looking to make its mark in the Championships, which are eagerly awaited by boxing enthusiasts. The India Boxing Federation has named its 26-member contingent, comprising boxers from various age groups, to ensure a strong presence in the upcoming event.

The Indian team will include boxers of varying weight classes, from lightweights to heavyweights, reflecting the diversity and depth of talent in the country's boxing fraternity.

India has traditionally been a force in Asian boxing, and its presence at the World Championships will be a testament to the country's commitment to the sport. The team will be led by experienced coaches and supported by dedicated support staff, ensuring a well-prepared contingent.

The India Boxing Federation has focused on identifying and nurturing talent at an early age, evident in the selection of boxers for the junior team. The young boxers will have the opportunity to compete against some of the world's best athletes, thereby gaining valuable experience.

The Championships will provide a platform for Indian boxers to showcase their skills, take on top international adversaries, and aim for medal positions. The Indian team is expected to perform well, with several boxers in contention for medals in their respective weight categories.

The upcoming event promises to be a test of strength, skill, and strategy for all participating nations. The India Boxing Federation is confident that its contingent will rise to the occasion, representing India with pride and competing with determination.

*Note: The information is based on the official announcements and media reports related to the World Boxing Championships.*
Thursday, with a six-wicket win here on Uttarakhand as Haryana started a ball to spare. It turned out to be a big no-ball deposited into the stands by of Ravi Bishnoi and Arshdeep 42 balls but Rinku’s 22 not off 209-run chase with 80 off just composure that took a young...
