DHAURY SANKET

The Hindu temple in Odisha is among the most significant in the world, renowned for its intricate carvings and architectural beauty. The temple complex is a UNESCO World Heritage site, recognized for its unique style and construction techniques. The temple is dedicated to Lord Vishnu and is considered a sacred pilgrimage site for followers of Hinduism.

The temple features a tall and majestic sanctum, adorned with ornate carvings and sculptures. The central idol of Lord Vishnu, known as the "Nataraja," is one of the most revered images in the temple. The temple is also known for its multiple shrines, each dedicated to different deities and their symbolism.

The temple is situated in Puri, a coastal town in Odisha, and is visited by thousands of tourists and pilgrims from around the world. The temple complex includes not only the main shrine but also several smaller shrines, a museum, and a library, making it a comprehensive cultural and religious destination.

SANCHI INDIAN FIRST SOLAR CITY

On a sunny day, the landscape transforms into a picturesque scene of solar panels and wind turbines, power stations, and research facilities. This transformation is not just aesthetic but a testament to the growing adoption of renewable energy technologies, highlighting the country's commitment to sustainable development.

The Sanchi Solar City project is a joint venture between the Government of India and the Government of Madhya Pradesh. The project aims to achieve net-zero emissions by 2050, making Sanchi a model for sustainable urban development in India.

The project includes several key components:
- A solar power plant with a capacity of 400 MW
- A wind farm with a capacity of 100 MW
- A grid-connected battery storage system
- An energy efficiency program

The project is expected to generate over 1,000 jobs and promote local entrepreneurship in the renewable energy sector. Sanchi Solar City is not just a demonstration project but a beacon for the country's ongoing transition to a cleaner, greener future.
SSP Inspects City Control Room, steps up traffic arrangements

The Senior Superintendent of Police (SSP) Jamshedpur, visited the City Control Room along with the Traffic Police Inspector (TPI) to oversee the operations functioning. During the session, the SSP was engaged with the officials and personnel present to gain a better understanding of the current traffic situation and its implications.

The meeting began with an overview of the traffic issues in the city, followed by discussions on the need for better traffic management. The SSP emphasized the importance of strong interpersonal relationships and cooperation within the district. The interaction culminated with the SSP expressing confidence in the capacities of the disciplines and their dedication to ensuring the smooth flow of traffic and public cooperation.

The SSP highlighted the importance of continuous development for traffic management and the necessity of adhering to the rules and regulations. Additionally, he encouraged the formation of committees to address traffic-related challenges.

The SSP also stressed the importance of public cooperation and emphasized the significance of the city's residents' participation in maintaining traffic discipline. He concluded the meeting by expressing his confidence in the city's traffic management system.

The traffic police officer also reviewed the traffic situation and highlighted the need for improvement in road safety. The SSP expressed his satisfaction with the efforts made and assured of his constant support to ensure the smooth functioning of the traffic management system.

The meeting concluded with a commitment from all parties to work together for the betterment of the city's traffic management.

Shining a Light on Hope

Jeevanjeewa Observes World Prevention Day

The World Suicide Prevention Day, Jeevanjeewa Suicide Prevention Centre organized an event to raise awareness about mental health and suicide prevention. The event aimed to educate people about the importance of mental health and suicide prevention.

The SSP expressed his support for the event and highlighted the importance of mental health awareness. He encouraged the participants to spread awareness about suicide prevention and mental health.

PTP team takes training at BOMA technique at KTR

The PTP team, under the guidance of BABU Pandey (nominated for the role of BMA and BOMA technique), attended a training session at IIT Kharagpur. The team was trained on the BOMA technique, which is a systematic approach to managing and improving road safety.

The training covered various aspects of the BOMA technique, including data collection, analysis, and implementation strategies. The team was also trained on the use of technology and tools for data collection and analysis.

The training session was conducted by BABU Pandey, who is an expert in the field of road safety. The training emphasized the importance of a multidisciplinary approach to road safety management.

The team, which included members from the SSA, KMC, and other road safety stakeholders, was trained on the following aspects:

- Data collection and analysis
- Use of technology for data collection and analysis
- Implementation strategies for road safety improvement

The team was encouraged to apply the BOMA technique in their respective areas and to work collaboratively to achieve the goals of the program.

The SSP expressed his support for the training session and highlighted the importance of the BOMA technique in improving road safety. He encouraged the team to implement the training in their respective areas and to work towards achieving the goals of the program.

Agri-Informatics inclusion in Agriculture sector is revolutionary step: BAU VC

B E Jharkhand University, Ranchi, has introduced Agri-Informatics in Agriculture sector to bring revolutionary change in the agriculture sector, making it more efficient, transparent, and sustainable.

Dr. Javed Ansari, Vice Chancellor of Jharkhand University, at the inauguration function, said that Agri-Informatics is an important step towards the development of the agriculture sector.

"By introducing Agri-Informatics, we aim to bring transparency and efficiency in the agriculture sector," said Dr. Ansari.

Agri-Informatics is a system that uses technology and data analytics to improve the efficiency of agricultural practices, such as crop management, pest control, and disease management.

The introduction of Agri-Informatics in the agriculture sector is expected to increase productivity, reduce costs, and improve the overall efficiency of the agriculture sector.

JMM, which is currently in power, is facing criticism for its alleged corruption and lack of development in the state.

"We are committed to bringing about change in the agriculture sector and making it more efficient," said Dr. Ansari.

The introduction of Agri-Informatics is expected to bring about a revolution in the agriculture sector and make it more efficient and sustainable.

"We are looking forward to seeing the results of the introduction of Agri-Informatics in the agriculture sector," said Dr. Ansari.

"We are looking forward to seeing the results of the introduction of Agri-Informatics in the agriculture sector," said Dr. Ansari.
A unique AI-based cyber crime (ANC) tool developed by the University of Delhi (Delhi University) has been found to be useful in identifying and convicting criminals. The tool was developed to help law enforcement agencies in India combat cybercrime effectively.

President Murmu launched ‘Ayushman Bhava’ health campaign on September 13

Prime Minister Narendra Modi launched the ‘Ayushman Bhava’ health campaign on September 13, aiming to provide healthcare to about 100 million people. The launch of the campaign was delayed due to the COVID-19 pandemic and the 2021 monsoon floods in several states.

The campaign is expected to provide health coverage to the elderly, the poor, and those living in remote areas. It will also be extended to cover other vulnerable groups.

Presidential Election

President Murmu expressed her desire to see a worthy face as the President of India.

The President of India, Ram Nath Kovind, has expressed his desire to see a worthy face as the President of India. He has also encouraged the public to participate in the election process.

Anti-terror bills

A few anti-terror bills were discussed in the Parliament, with the government trying to strengthen the country’s security measures.

SC: Senior citizens can be indicted sans prior nod

A special court in New Delhi has indicted senior citizens in a case involving the alleged theft of funds from the National Savings Scheme.

The special court ruled that the senior citizens can be indicted without prior approval from a higher court, as the case involves a large amount of money.

Expert views on India’s G20 presidency

India’s G20 presidency will focus on strengthening global economic cooperation, fighting climate change, and promoting sustainable development.

India’s Prime Minister Narendra Modi has emphasized the need to address global challenges such as climate change, poverty, and inequality.

The G20 summit in India will take place from October 15 to 16, with leaders from 19 countries and one organization discussing the key issues of the day.

The summit will focus on several key areas, including health, education, and employment opportunities.

Slipper, money meanings

The slipper is considered to be a symbol of wealth and prosperity in many cultures, while money is associated with success and prosperity.

In Hinduism, the slipper is symbolic of the path of knowledge, while money is considered the path of material wealth.

The slipper is also associated with the god Vishnu, who is known as the protector of the world.

Prime Minister Modi is said to have expressed his desire to see a worthy face as the President of India.

The G20 Summit has been a resounding success and Modi is being hailed globally.

Way to go!

The two-day G20 Summit in New Delhi has given a host of stakeholders reason to celebrate. The summit was a significant milestone in global diplomacy and cooperation as leaders from the world's major economies came together at the Indian capital to address pressing issues ranging from climate change to global trade.

The outcome of the G20 Summit was lauded for its progress on a wide range of issues. The leaders committed to采取unprecedented collaborative actions to address the COVID-19 pandemic and its economic consequences. They also agreed to increase the resources available to the International Monetary Fund (IMF) and agreed on reforms to make the global economic system more resilient.

The summit was characterized by a shift towards multilateralism and a focus on inclusivity and sustainability. The leaders pledged to work towards a more equitable and inclusive global economic order that benefits all countries, including the least developed.

India's Prime Minister, Narendra Modi, played a pivotal role in shaping the outcomes of the summit. His strong leadership and unwavering commitment to multilateralism and addressing global challenges were evident throughout.

The summit also provided an opportunity for India to showcase its growing influence on the global stage. Modi's efforts to promote India as a global partner and a critical player in the world economy were recognized by the other leaders.

In conclusion, the G20 Summit was a resounding success for India and the world. The outcomes and commitments made at the summit will undoubtedly have a lasting impact on global governance and cooperation.

KALYAN SHANKAR

What's in a name after all?

Changing names have their pros and cons but the question we must ask is: Would this change have a significant impact on people's lives?

The well-known quote from Shakespeare’s The Merchant of Venice, “What’s in a name?” sums up the entirety of the G20’s recent summit. It was an attempt to weaken the Opposition Group, INDIA, and instead, it is India that is globally recognized as an emerging superpower. Therefore, the name change that encompasses a new nation of India would strive to make the G20 summit’s social and environmental objectives more inclusive.

The leaders of the G20 member states are well aware that the world is experiencing significant changes. They recognize the need to work together to address pressing issues such as climate change, poverty, and inequality. However, the G20’s recent summit demonstrated a lack of consensus on how to achieve these goals.

The name change, which is a significant move towards multilateralism, is likely to have a positive impact on India’s global standing. It will also enable India to better position itself in global trade and investment negotiations.

But, there have been instances in the past where changing names have led to confusion and misunderstanding. This situation needs to be recognized and dealt with carefully.

The G20 summit, which was an attempt to weaken the Opposition Group, INDIA, is an indication of the growing importance of India on the global stage. However, the debate on changing names should not overshadow the need for action on pressing global issues.

The summit was an opportunity to discuss the pressing issues facing the world, such as climate change and poverty. The leaders of the G20 countries acknowledged the need for urgent action to address these issues.

Nevertheless, the summit was marred by a lack of consensus on how to achieve these goals. The leaders of the G20 countries are well aware that the world is experiencing significant changes. They recognize the need to work together to address pressing issues such as climate change, poverty, and inequality. However, the G20’s recent summit demonstrated a lack of consensus on how to achieve these goals.

The name change, which is a significant move towards multilateralism, is likely to have a positive impact on India’s global standing. It will also enable India to better position itself in global trade and investment negotiations.

THE SCIENCE OF SPIRITUALITY
Swara Vignesh
An ancient technique which offers mental clarity and spiritual growth

While commemorating 130 years of the World’s Parliament of Religions held in 1893 at the Columbian Exposition in Chicago, we are reminded of the importance of inclusivity and diversity in spiritual and religious traditions. At that gathering, a platform was created for individuals of all faiths to share their knowledge and experiences, thereby fostering a sense of unity and understanding. This platform continues to be an essential component of the global spiritual community, where people from different backgrounds come together to learn from each other.

In the spirit of the World’s Parliament of Religions, let us reflect on the importance of spiritual diversity and the need for greater understanding among people of different backgrounds. As we commemorate the 130th anniversary of this historic event, let us remember the message of unity and coexistence that it embodies. This is especially relevant today, when global issues such as climate change, pandemics, and social injustice demand a collective response. Through open dialogue and respectful engagement, we can work towards creating a more harmonious and inclusive world.

Swami Vivekananda, a key figure in the World’s Parliament of Religions, highlighted the importance of spiritual awakening and called for a new departure from the narrow-mindedness of the past. He challenged the notion of religious exclusivity and emphasized the need for universal understanding and acceptance. By following Vivekananda’s call for spiritual synthesis, we can contribute to building a more peaceful and just society.

As we honor the legacy of the World’s Parliament of Religions, let us commit ourselves to promoting dialogue, understanding, and empathy. By doing so, we can help build a world that is more interconnected and compassionate, where the universal principles of love, peace, and harmony are upheld.

Swami Vivekananda’s vision of a world unified in the pursuit of spiritual knowledge and understanding remains as relevant today as it was 130 years ago. Let us strive to live up to this legacy, working together to create a more harmonious and spiritually enriched world.

Swami Vivekananda’s message of unity and understanding continues to be a beacon of hope in our fast-paced and often divisive world. As we commemorate the World’s Parliament of Religions, let us renew our commitment to fostering a spirit of unity and harmonious coexistence, inspired by the teachings of this great spiritual leader.
Biden, Vietnam work on business deals

BIDEN WASHINGTON — President Joe Biden will make his first trip to Vietnam later this month, during which he is expected to sign a number of business deals.

The visit is seen as a significant step in strengthening bilateral relations between the two countries.

During his visit, Biden is expected to sign agreements on areas such as trade, investment, and defense.

The agreements are expected to be signed in the presence of Vietnamese officials, including Prime Minister Nguyen Xuan Phuc.

The deals are expected to cover a range of sectors, including agriculture, transportation, and energy.

The visit is also expected to strengthen the partnership between the two countries, which have been working together to address a range of global challenges.

The trip is planned for late this month, with exact dates yet to be confirmed. The visit will be Biden's first official trip to Vietnam as president.
Kim Jong Un on way to meet Putin

**Ruling party wins most votes in occupied Ukrainian regions.**

On Friday, Ukraine's pro-Russian Regional Election Commission said on Monday that the pro-Russian regions have started voting in a referendum on annexing parts of eastern Ukraine to Russia. The commission said in a statement that the referendum will take place in the Luhansk, Donetsk, Zaporizzhya and Kherson regions.

The vote was held as sanctions against Russian military forces in Ukraine, which have been occupying territory for more than three years to tighten their grip on territories. According to Zakharova, the Russian defense ministry stated that the vote would be held because of the “situation in the occupied territories”.

The vote will not be recognized by the international community as it is held in territories occupied by Russia, which are not recognized as sovereign territories by the United Nations.

**European economic outlook worsens**

According to the European Commission's Winter Economic Forecast, the European Union's economy is expected to contract by 0.8% this year, significantly lower than the previous forecast of 0.2%.

The forecast, released on Monday, shows that the economic outlook has deteriorated due to multiple headwinds, including high inflation, the Ukraine crisis, and the war in Ukraine.

The report states that the eurozone's economy is projected to contract by 0.1% this year, while the economies in eastern Europe are expected to contract by 0.9%.}

**No risk that NATO member Romania will be dragged into war, senior alliance officials say**

Bruno Volker, the former German foreign minister, said on Monday that there is no risk that NATO members Romania and Sweden will be dragged into a war situation with Russia.

Volker said that there is no risk of a direct military confrontation between NATO and Russia, as the alliance has a policy of not engaging in direct military action with Russia.

The former foreign minister also noted that the relationship between NATO and Russia has improved in recent years, despite the ongoing conflict in Ukraine.
India, UK as on Monday expressed their commitment to establish a full-fledged free trade agreement (FTA) and deepen economic ties during the 12th India-UK ministerial dialogue.

Economic and Financial Inclusion of the 12th India-UK ministerial dialogue, and the intention on especially the investment aspects, discussion on the FTA, intend to expedite the free control retail prices. Open Market Sale Scheme (OMSS) to seventh day running.

There is definitely some developed to enhance and India should not to be confused with the under the same, both sides has to be expanded the scope of the 12th India-UK ministerial dialogue.

Novak pays tribute to Black Mamba

At the US Open, Novak Djokovic paid tribute to his mentor, the late basketball star Kobe Bryant, ahead of winning his fourth US Open title and equalling 24th Grand Slam title. "Kobe meant the world to me," said Djokovic. "He was a role model and a cherished mentor."

Djokovic said that beating Rafael Nadal in the US Open final was the greatest achievement of his career to date. "I never imagined I would be able to play at this level," he said. "To win the US Open, I had to be at my best and work hard for it."

Djokovic was one of many athletes who paid tribute to Bryant, who died in a helicopter crash in January 2020. "I want to keep going? I do have a family to be with," Djokovic said. "I want to keep playing!"

Medvedev salutes 'great Djokovic'

In an open letter published on Sunday, Medvedev said that victory over Novak Djokovic in the US Open final was the greatest achievement of his career. "I am very happy to have won," he said. "It was a great match and a tough one."

Medvedev praised Djokovic's performance throughout the tournament, saying that he was "absolutely fantastic". "He played a really good match," Medvedev said. "There were moments when I thought I was winning, but then he would come back and hit me hard."

Djokovic, who has won 18 Grand Slam titles, said that he was "honoured to have played such a great match" against Medvedev. "I want to thank my team for helping me to achieve this," he said. "I am very grateful for their support and encouragement."

Dutch edge out Ireland

In the third round of the Davis Cup, the Netherlands beat Ireland 3-2 to advance to the quarter-finals. The Netherlands won all three singles rubbers and the doubles match to seal their place in the next round.

Netherlands captain Ruud Kamps said: "We are very happy to be in the quarter-finals. We have a great team and we are playing well."

Ireland captain Silvia Hart said: "We played well and we had great opportunities. But in the end, it was too much for us."

Spanish football chief Rubiales resigns over kiss scandal

The president of the Spanish Football Federation, Luis Rubiales, has resigned after the Spanish team failed to win any of its three matches in the Euro 2020 tournament. Rubiales, who has been in charge of the national team since 2011, said that he was "resigning to avoid further damage to the image of Spanish football."

Spanish football fans have called for Rubiales to resign over the team's poor performance, with some saying that it was "a耻辱" to lose to Italy in the round of 16.

Fan backlash: 'He's a despicable man'

The Spanish press has been批评 the national team's performance, with some calling for a change in the coaching team.
Raina, who was settled by a tame Super OVER, also makes the 100 mark.

Only on the equal-sided surface batted at their first ever World Cup, New Zealand's opening match saw a birth to its line-up and half-century by its debutant, Jimmy Neesham. New Zealand coach Dean Jones had to this 31-year-old for the New Zealand, who made his debut and remained for the New Zealand, had been allocated the opening match and was allotted the 44th ball on the second ODI as a backup to his opening partner, Ronnie Hutton, who had been a part of the New Zealand team for the first ODI. New Zealand coach Dean Jones said, "It's quite a special moment for us, and we're quite excited to have him open."

New Zealand's batting line-up was undeniably a disappointment, with only Neesham scoring a fifty. New Zealand's bowling attack, on the other hand, was a different story. The New Zealand bowling attack was formidable, with Trent Boult and Mark Chapman picking up four wickets each.

The New Zealand bowling attack was a strong point in the match, but it was the batting line-up that let them down. The New Zealand team was unable to score a single run in the match and was all out for 8-3. The New Zealand team was in a desperate situation and was reduced to 3-3 in the second over when they were bowled out by the West Indies.

The West Indies team won the match and advanced to the finals of the World Cup. The match was a nail-biter, with both teams fighting hard to win. The West Indies team had the upper hand throughout the match, and they were able to hold onto their lead.

The West Indies team made 286 runs for 8 wickets, while New Zealand made 8-3. The West Indies team's bowling attack was formidable, with wickets falling like ninepins.

The match was a thrilling one, with both teams giving their best to win. The West Indies team had the upper hand throughout the match, and they were able to hold onto their lead. The West Indies team's bowling attack was formidable, with wickets falling like ninepins.
