BJP plays RJD leader Misa for remarks on PM Modi

T he Bihar Pradesh Congress Committee (BPCC) on Monday asked Sharad Yadav to review his comments on Modi and instead say that the Prime Minister is building a "grand and inclusive" nation.

"The party has been asked to take out a campaign to welcome the Prime Minister and to show how Sharad Yadav is playing politics," BPCC spokesperson Anil Kumar told The Indian Express.

A number of senior party leaders, including former Union ministers and Lok Sabha members, have come out to criticise Sharad Yadav for his comments and asked him to retract them.

"The needle of the opposition is always on the Prime Minister. If the opposition is targeting the Prime Minister, it is because they are pinning their hopes that they can oust him and make their political gains," said senior Congress leader and former finance minister P Chidambaram.

"We will welcome Prime Minister Modi and to show that he has achieved a lot. At the same time, we will also say that the Prime Minister is building a grand and inclusive nation," he added.

Former minister and sitting MLA from Patna Sahib Pashupati Pratap Singh also said that the party would take steps to counter Sharad Yadav's remarks.

"We will welcome the Prime Minister and at the same time, we will also show that he is building a grand and inclusive nation," Singh said.

RBI's commitment to 'last-mile disinflation' has prompted a continued high monetary policy stance, raising questions about its impact on economic growth.

On April 15, 2023, announcing the bi-monthly Monetary Policy Committee (MPC) in its first meeting of the current financial year (FY), Governor Shaktikanta Das highlighted that the process of disinflation has now gone on for a walk and applauded the Reserve Bank of India (RBI) for being the elephant to return to the forest and the honour the elephant for its efforts.

Das was using the elephant analogy to signal the commitment of the Reserve Bank of India to its mandate of ensuring price stability. "RBI has taken up the challenge and is making efforts to bring down inflation to the target range of 4 per cent plus or minus 2 per cent," the governor said.

The Reserve Bank of India (RBI) has been named as the chief coach of the Indian football team in the Indian Super League (ISL). The move was made to boost the morale of the players and to inspire them to perform better in the upcoming tournaments.

"We have appointed RBI as the chief coach of the Indian football team in the ISL to boost their morale and ensure they perform to their best," said ISL chairman and founder, Dr. Naveen Jindal.

The move comes in the wake of the Indian football team's poor performance in recent tournaments, with several players expressing their dissatisfaction with the coaching setup.

"We are confident that RBI will bring the much-needed change in the team's performance," said Jindal.

The appointment of RBI as the chief coach is likely to cause a stir among the football community, with many questioning the move's validity.

"It's absurd to appoint RBI as the chief coach. He has no experience in football and cannot bring the much-needed change," said former Indian footballer, Sunil Chhetri.

However, the ISL management remains confident about the move, saying that RBI's vast experience in managing complex projects will prove beneficial for the Indian football team.

"RBI has a vast experience in managing complex projects, and we believe his expertise will be beneficial for the Indian football team," said Jindal.

The ISL is scheduled to begin in the first week of November.
US, Japan, Philippines hold first trilateral summit to counter China in Indo-Pacific

WASHINGTON, APR 11 (AP) — President Joe Biden is bringing together the US, Japan and the Philippines for the trilateral summit to counter China in the Indo-Pacific, signaling a new era of strong US leadership.

The summit comes amid growing concern about China, which is seen as increasingly using its military might to assert influence in the region.

Biden has repeatedly spoken of the importance of ties with Japan and the Philippines, which he says are crucial to maintaining stability in the Indo-Pacific.

Japan and the Philippines have also been key partners in the US-led coalitions fighting in Afghanistan and Iraq.

The summit is seen as an opportunity for the three countries to strengthen their cooperation and to send a message to China about their collective commitment to regional security.

Bukhara, the iconic restaurant at ITC Maurya New Delhi, recently celebrated its 65 years of success, and I had the pleasure of dining there recently. In the celebration, the question lingered on my mind: Is Bukhara truly the most iconic restaurant in the nation?
