TEMPLE TAX SPARKS OUTCRY

Karnataka Government's move to collect funds from temples in the form of tax has not gone down well with the Opposition BJP. Red-flagging the Bill on the issue of Hindu places of worship being a soft target for the Congress, the BJP charged the ruling party with trying to fill its "empty coffers" with temple money. A related Bill was passed on Wednesday.

Taking exception to the move, BJP State president BY Vijayendra said, "Corrupt, inept Loot Sarkaar with its penchant for anti-Hindu ideology in the guise of secularism, has cast its evil eyes on the temple revenues." Through the Hindu Hindu Endowments Religious amendment act, it is trying to siphon-off donations as well as offerings from Hindu temples and religious institutions in order to fill its empty coffers," he said in a post on 'X.'

The Shivamogga MLA said the government plans to "gobble" up 10 per cent of the temple revenue exceeding Rs 1 crore and 5 per cent of those below Rs 1 crore. "This not only reflects the deplorable condition of this government, but also shows its abject hate towards Hindu Dharma.

Temple funds should be dedicatedly utilised for renovation of temples and to **BJP accuses Karnataka Government of trying** to fill its empty coffers with temple money

facilitate work beneficial to rather than devotees, it for diverting other purposes, which would be an injustice and betraval of people's religious beliefs, the BJP State chief said.

Why only Hindu temples are targeted for revenue, leaving out other religions, is a question raised by millions of devotees, he said.

'Instead of grabbing the devotees' money, government can install donation boxes so that the concerned citizens

can help this penniless Govt boost its revenue as a gesture of goodwill," he stated.

Defending the move as aimed at ensuring welfare of different sections, the Congress sought to turn the tables on its rival saying the saffron party had effected an amendment in 2011 to seek funds from high-income Hindu shrines.

Karnataka Religious Institutions and Endowments Charitable (Amendment) Bill was passed

ALL ARE CORDIALLY INVITED - Timings 10 a.m. to 9 p.m.

in the State Assembly on February 21.

Regarding the Bill, the Government said it was necessary to enhance the amount of common pool fund, include a person skilled in Vishwa Hindu Temple architecture and sculpture in committee

management of notified institutions and to form Hindu district and state-level committees to improve shrines and infrastructure for the safety of pilgrims.

Endowments Religious Ramalinga Reddy told reporters that the provision was not new but has existed since 2003. He also said an amendment was brought by the then BJP Government in 2011 to collect funds from

high income group temples. Karnataka Hindu Religious Institutions and Charitable Endowments Act 1997 came into force on May 1, 2003 and provisions were made for Common Pool Fund under Section 17 of the said Act, he explained.

Common Pool Fund was implemented in the year 2003 itself. Section 17 of the Act was amended in 2011 to collect funds from high income group temples so as to aid temples with lesser income under the said fund. Rajya Dharmika The Parishad, a committee to improve the temple management for the benefit of improve pilgrims, is authorised to utitlise Common Pool, he said.

According to him, there were 3,000 C-Grade temples in Karnataka, which have an annual income of less than Rs 5 lakh trom where 'Dharmika Parishad' gets no money. Temples earning between Rs 5 lakh and Rs 25 lakh were classified as Bgrade temples, from where 5 per cent of the gross income had been going to the committee since 2003.

Bengal Fire Rages on

Sheikh Shahjahan still missing

SAUGAR SENGUPTA KOLKATA

Sandeshkhali erupted once Jagain on Thursday amid the visit of the National Commission for Scheduled Tribes team, which received a plethora of complaints of land grab and torture on Adivasi people, including trafficking of their women. Hundreds of women from Jhupkhali, a hamlet in the Bermaiur area adiacent to Bermajur area adjacent to Sandeshkhali, armed with bamboo sticks, attacked and torched the properties of Sheikh Siraj, the brother of Trinamool Congress strongman and one of the prime accused in a landgrab and molestation case Sheikh Shahjahan, alleging that thousands of bighas of their lands had been forcibly occupied, sold impersonation, converted into fisheries. and

The incident took place hours after Director General of Police Rajeev Kumar left the riverine island at the mouth of the Sunderbans after an overnight stay in the area, during the visit of the NCST team led by its vicechairperson, Ananta Nayak. "Whatever I have seen and heard makes me feel like crying... it should not have taken place in a democratic country... I spoke to the villagers, and they (Sandeshkhali residents) they

Security personnel outside TMC leader Sheikh Shahjahan's home at Sandeshkhali

have mentioned the name of a political leader. We will include it in our report. We have received more than 23 complaints so far," Nayak said, adding that the findings of the team would be compared with the ground report before submitting it to President Droupadi Murmu. A woman, while describing

her woes to the members of the visiting team, narrated how "no complaints of my missing daughter have been registered till now... she went missing seven years ago... when we went to the Sandeshkhali Police Station, they asked us to get a written recommendation from Sheikh Shahjahan." Another woman said how her land was occupied and converted into a Trinamool Congress party office "just because I

am a CPI(M) worker," while most of the others said how their lands had been grabbed and sold via impersonation. A large contingent of police

force led by Barasat range DIG Bhashkar Mukherjee rushed to the area and held talks with the locals. "The police have controlled the situation and assured the local people that their issues will be addressed," he said. This was the third team to visit the strife-torn region National the after Commission for Scheduled Castes and the National Commission for Women. Sandeshkhali shot into national news on January 5 when Shahjahan's henchmen attacked and injured a team of Enforcement Directorate officials during a search operation at his house.

Opposition's no confidence motion | SKM announces nationwide protests, 'Mahapanchayat' in Delhi Ramlila maidan on Mar 14 against Khattar govt defeated

 $T^{\text{he no-confidence motion}}_{\text{against the Haryana}}$ Cabinet, brought by the main opposition Congress, was defeated by a voice vote after the Opposition party's MLAs walked out from the Assembly. At the end of a four-hour-long discussion on the motion Congress members walked out expressing dissatisfaction with the chief minister's reply. The motion was then defeated through voice vote. Speaker Gian Chand Gupta said the motion had been defeated.

Earlier, Speaker Gupta had admitted the notice of no-confidence motion against the Council of Ministers headed by Chief Minister Khattar.

Speaking in the House during the third day of the Budget session, the Chief Minister said that the Congress had previously brought no-confidence motion in 2021 as well. At that time, there were about 3 and a half years were left in the government's tenure, and Congress dreamt that if the government falls, they would come to power. But the Congress members again failed to seriously discuss any issue on no-confidence motion and purposely walked out from the House.

Khattar said that the Opposition must bring noconfidence motion before the assembly election, so that Congress MLAs could once again pay attention to the development works done by

otherwise, Congress is habitual of leaving the House after expressing their views. He said that the Congress has a culture of showing distrust to everything. Whenever anything happens in the national interest, Congress never shows any con-

Referring to government recruitments, the Chief Minister said that during Congress's tenure, from 2005 to 2014, the Haryana Public Service Commission made recruitments for 3593 positions, the average of which is 360 vacancies annually.

Whereas, during the present

government's tenure until January 31, 2024, recruitment

on 6808 posts was done, the

average of which comes around

680 recruitment per year. Khattar further explained that during Congress's 10-year tenure, 88,000 jobs were given through the Haryana Staff Selection Commission, while the present state government to 1.30 lakh youths. The results for nearly 30,000 positions are about to be declared.

The Chief Minister said that Congress has never been concerned about the welfare of the poor; they have only given slogans of 'Gareebi Hatao'. He said that during the Emergency, when oppression occurred, a movement arose in the country, and in 1977, people understood the power of their votes. With the strength of their votes, the people rejected the

Congress government. He said that the Congress never believed that old-age pensions could be made online. Through the PPP data, automated pensions have been created for 1.25 lakh people who have completed the age of 60, all from the comfort of their

While targeting the Congress, the Chief Minister said that during Congress rule, there was BBC (Badli Bharti aur CLU) industry in the state. Congress never thought that transfers could be done online. The introduction of online transfers has brought satisfaction to people today. Improving the system is the government's responsibility, and we have made improvements in the system, said the Chief Minister. **Opposition targets BJP-JJP**

for discussion, Congress legislator Shamsher Singh Gogi raised the protesting farmers' issue. Gogi said a farmer who died on Wednesday at Khanauri on the Punjab-Haryana border was among the protesting farmers who are seeking a legal guarantee to minimum support price for crops. "The border has been made like India-Pakistan border...the government should resolve the issue," said Gogi. Leader of Opposition Bhupinder Singh Hooda said

ernment should resolve the

During the discussion, Congress members also brought up the issue of charges under the stringent Unlawful Activities (Prevention) Act (UAPA) slapped against party MLA Mamman Khan in Haryana in connection with a Nuh violence case. Hooda said when the MLA had secured bail in a FIR, why UAPA charge had been added six months later. "Don't treat MLAs like this. UAPA is slapped against terrorists," he said. Hooda and another Congress leader Kiran Choudhary said that slapping UAPA on the MLA should be reconsidered. However, Chief Minister Khattar said the government does not interfere in a issue in which investigation is going on. If a new charge has been added, the government has no role in that, he said.

PNS CHANDIGARH

Intensifying the ongoing agita-Ition for farmers' rights, the Samyukt Kisan Morcha (SKM) on Thursday declared a series of protests across the country, culminating in a massive 'mahapanchayat' scheduled to be held in Delhi on March 14. The announcement comes amidst heightened tensions following recent clashes and the tragic death of a young farmer at Khanauri border between Punjab and Haryana.

The decision to escalate the protests was announced by SKM leader Rakesh Tikait, who outlined a comprehensive plan of action during a press conference following hours-long meeting at Chandigarh, wherein over 100 farmer leaders from across the

country were present. Tikait said that the SKM would observe a 'Black Friday' on Friday (February 23), demanding immediate action, including the registration of an FIR and compensation of Rs one crore for the family of the deceased farmer, protesting at Khanauri border. Additionally, effigies of Union Home Minister Amit Shah and Haryana Chief Minister Manohar Lal Khattar, and

Decisions by SKM

- ✓ Resignation of Union Home Minister Shah, Haryana CM Khattar, and state Home Minister Anil Vij, lodging of FIR under section 302 of IPC against them
- ✓ Judicial Enquiry into the murder of farmers brutal repression and damage to tractors
- ✓ Black Day or Aakrosh Day on Friday (February 23)
- with effigy burning, torch light procession Six member panel formed for coordination with former SKM member organizations
- Panel to also develop issue based unity to intensify farmers struggle
- ✓ Massive Kisan Mazdoor Mahapanchayat at Ramlila Ground, New Delhi, on March 14
- ✓ Tractor parade on February 26 to demand 'QUIT

Haryana's Home Minister Anil Vij will be burnt as a symbolic gesture to condemn recent police

with the aggrieved farmers. Tikait further elaborated on the planned tractor marches scheduled to take place on February 26, wherein farmers will mobilize along highways across the country, reiterating their longstanding demand for a guarantee law on minimum support price (MSP). "These are long fights," Tikait emphasized,

actions and express solidarity

adding, "Not by one 'morcha', we will need to surround Delhi (Delhi 'gherao') from all four directions, as we did earlier."

The SKM's demands also include immediate registration of a murder case against the Union Home Minister Amit Shah and Haryana Chief Minister Manohar Lal Khattar, and Haryana's Home Minister Anil Vij, as well as a judicial probe into the circumstances surrounding the death of the deceased protester. Tikait asserted that accountability must be established for the tragic loss of life and the injuries sustained by numerous farmers during recent clashes. In a bid to foster unity and solidarity among farmer organizations, the SKM announced the formation of a six-member committee tasked with coordinating with former SKM member organizations. This committee aims to develop issue-based unity and formulate a unified action plan to bolster the farmers' struggle. The members of the committee include prominent leaders such as Hannan Mollah, Joginder Singh Ugrahan, Balbir Singh Rajewal, Yudhavir Singh, Darshan Pal, and Raminder

Patiala. The SKM's nationwide protests, slated to commence from Friday, will feature a range of demonstrations aimed at highlighting the repression and injustices faced by farmers. These actions are aligned with the Joint and independent federations' call for a Black Day on February 23. Farmers across the country are expected to participate in torchlight processions and effigy burnings as part of the protest

Furthermore, the SKM has designated February 26 as 'Quit WTO Day, urging farmers to mobilize on national and state highways to protest against government policies detrimental to farmers' interests and food security. The SKM contended that the World Trade Organization's (WTO) policies have adversely impacted farmers and have led to the erosion of food security

International Online Job Fraud Ring busted; 4 Fraudsters Arrested from Assam

PNS CHANDIGARH

n a significant breakthrough against cybercrime, Punjab Police's Cyber Crime Division has dismantled an international online iob fraud racket, culminating in the arrest of four cyber fraudsters from various districts of Assam.

Sharing information, the state Director General of Police (DGP) Gaurav Yadav on Thursday announced the successful operation highlighting the state's commitment to ensure safety and

individuals with lucrative 'Work from Home' opportunities via a Telegram mobile app group. "To gain trust, fraudsters would initially give small tasks to the victim, in return, paying a small amount of money in lieu of accomplishing the task. Later, the victim was asked to deposit money on different pretexts in lure of a bigger return," said the DGP, adding that with these arrests, the Punjab Police has dug up another trail, leading to deeprooted cyber fraud nexus spread across the country.

The arrested individuals have been identified as

Jahirul Islam, Rafiual Islam, Mehabub Alam, and Azizur Rehman. Police seized a cache of incriminating evidence, including two swipe machines, two biometric scanners, one eye scanner, one fingerprint scanner, 38 pan cards, 32 debit or credit cards, 16 sim cards, 10 voter cards, nine Aadhar cards, 10 bank account passbooks or chequebooks, five official Government stamps, five mobile phones, one laptop, two pen drives and one SBI ID card from their posses-

Assistant Director The cybercriminals oper- General of Police (ADGP), closed that the investigation stemmed from a complaint lodged by a defrauded woman— who was duped of Rs 25 lakhs by the fraudsters, leading to the apprehension of the fraudsters in Assam.

The cybercriminals operated a Customer Services Point (CSP) in Nagaon district, where they produced counterfeit identity documents using Adobe Photoshop. "He informed that they were running a CSP for providing online services; and to make quick bucks, they misused the documents of general public for making duplicate PAN cards, Voter

The ADGP said that thereafter, Mehabub Alam was arrested from Guwahati district, who revealed that he came into contact with Azizur Rehman, who asked him to provide bank accounts on a commission basis. Police teams have also arrested accused Azizur Rehman from Morigaon district of Assam. Further revelations from

Deputy Inspector General (DIG), Cyber Crime,

Cards, Aadhaar Cards using Nilambari Jagadale disclosed 160 victims across 23 states, with ongoing investigations expected to unveil additional victims. Preliminary findings indicate that masterminds operating from abroad received proceeds in cryptocurrency. The investigation, spearheaded by DSP Cybercrime Prabhjot Kaur, is ongoing, with more arrests anticipated.

A case has been registered under sections 420 and 120-B of the Indian Penal Code (IPC) at the State Cyber Crime unit in SAS Nagar, marking a decisive step in Punjab's fight against cyber

102 TEACHERS FROM HP TO VISIT SINGAPORE ON 'EDUCATION VISIT

Shimla: More than 100 teachers from Himachal Pradesh will leave for a five-day tour of Singapore to become familiar with "new technologies in the education sector" under a state scheme, Chief Minister Sukhvinder Sukhu said on Thursday. Launching the 'International Tour for Teachers' programme here, Sukhu said that in the first batch, 102 teachers selected from across the state will leave for Singapore on Saturday. The trip will allow teachers the opportunity to be familiar with new technologies in the education sector and get acquainted with new methods of teaching, he said, according to a statement. Sukh also gave the teachers "foreign tour kits." On March 15, the second batch of 98 teachers would be sent abroad, the CM said. The state slipped to 18th rank in education due to lack of interest of the previous government, he said. Sukhu said that the Rajiv Gandhi Day Boarding Schools being opened in the state were a unique initiative towards giving students qualitative education. In the next 10 years, they would emerge as the best schools, he claimed. He said that English medium would be introduced from class 1 in government schools from the next academic session.

CM SUKHU RELEASES NEW VERSION OF HIMACHAL PRADESH LAND CODE

Shimla: Himachal Chief Minister Sukhvinder Singh Sukhu on Thursday released the new version of the Himachal Pradesh Land Code, which compiles 64 acts, 59 rules and about 340 notifications and guidelines related to revenue and other departments. He said the land code was first released in 1922 and had not been amended since then. However, numerous laws and guidelines related to land matters were amended and issued from time to time, he said. The chief minister said the land code book would be made available in the offices of the deputy commissioner, subdivisional magistrate and in tehsil offices for updated information about all the acts, rules, notifications and guidelines. This will help the officers concerned in resolving revenue related matso as to provide relief to the people. Sukhu said. The government has been organ ising Revenue Lok Adalats during the last two days of every month for speedy disposal of land related cases and since October 2023, a record 89,091 mutation and 6,029 pending cases of par tition have been resolved on the spot through them, he added.

Punjab Govt to set up MSME Wing, doubles honorarium for war heroes' widows

PNS CHANDIGARH

Punjab Cabinet Thursday undertook several crucial decisions on Thursday aimed at bolstering various sectors across the State, including establishment of a new MSME wing, amending teachers' transfer policy to alleviate harassment concerns, doubling monthly honorarium for widows of war heroes to Rs 20,000, among others.

Embarking on a ground-breaking initiative to invigorate the Medium and Small Scale Industries (MSMEs) sector, the Cabinet gave not to set up a dedicated wing -MSME Punjab — within the Department of Industries and Commerce. With this, all small enterprises will get aid from this wing. "Punjab has the highest number of MSMEs, and they stand to benefit from this decision," said the Finance Minister Harpal Singh Cheema, while briefing the media after the Cabinet meeting.

The core mission of MSME wing is to bolster the competitiveness of MSMEs by facilitating a conducive

environment for growth and will serve as pillars of supinnovation. With a focus on fostering financial sustainability, the wing will ensure a seamless flow of credit from financial institutions and banks to MSMEs, empowering them to fuel their expansion endeavours. Moreover, it Punjab will forge strategic will extend crucial support to MSMEs in embracing cutting-edge technologies and modernizing their operational frameworks to stay abreast of global market trends. A pivotal aspect of

MSME wing's mandate is the establishment of common facilities centers, particularly in the domains of modern testing facilities and quality certification. These centers will play a pivotal role in ensuring that products manufactured by MSMEs meet international standards, thus enhancing their marketability on a global scale.

To cater comprehensively to the diverse needs of MSMEs, the wing will comprise dedicated sub-divisions such as Access to Finance or Credit, Access to Technology, Access to Market, and Access to Skills. These subdivisions

port, addressing critical requirements and fostering an environment conducive to MSME growth and pros-

In its quest for efficacy and excellence, MSMÉ collaborations with professional agencies, harnessing their specialized expertise to enrich the support services offered to stakeholders. It is estimated that approximately eight lakh existing MSMEs in Punjab, as well as newly established ventures, will reap the benefits of this visionary initiative by the government. **Teacher Transfer Policy**

Amended

In a significant move aimed at ensuring the teachers' welfare in Punjab, the Cabinet has approved amendments to the transfer policy to prevent harassment faced by teachers in the state Education Department. Under the revised policy, amendments have been made to Para 9 of the Teachers Transfer Policy-2019 to cater to the needs of teachers falling in the exempt-

Other Decisions...

- AAP Ministers, MLAs and leaders, who are doctors by profession, will hold camps at the borders of the state, where farmers are protesting
- To fill 612 posts of college lecturers, relaxation in age limit for applying for the job has been allowed. Now candidates up to the age of 45 years can apply for the
- Water Resources Department's Design Wing to offer design and consultancy services to private entities, mirroring the model of Government-Owned Aided colleges and staff of Engineering
 - Colleges/Institutions; 40 per cent of revenue generated from these services will be directed to the State Treasury.

The amended policy stipulates that teachers who are cancer patients (self, spouse, or children), undergoing dialysis (self, spouse, or children), recipients of liver or kidney transplants, with disabilities of 40 per cent and above, suffering from hepatitis B, hepatitis C, sickle cell anemia, thalassemia (self or children), divorcees with differently-abled or intellectually disabled children, war widows, widows of Shaheeds, or those facing an immediate

need to relocate due to the

death of their spouse, provided they have children below 18 years of age, will be eligible to submit transfer requests on a monthly basis through the designated portal. These amendments aim to

streamline the transfer process for teachers facing exceptional circumstances, ensuring timely consideration of their requests and providing them with necessary support during challenging times. Orders in such cases will be issued with the approval of the Education Minister, emphasizing the

Punjab Budget Session from Mar 1 to 15

Punjab Cabinet, led by Chief Minister Bhagwant Mann, on Thursday greenlit the convening of the budget session of Vidhan Sabha from March 1 to 15, with the Finance Minister Harpal Singh Cheema set to present the budget proposals for the next fiscal on March 5.

A spokesperson from the Chief Minister's Office said that the Cabinet has empowered the Governor to convene the sixth session of the 16th Punjab Vidhan Sabha in accordance with Article 174 of the Constitution of India.

The schedule for the budget session outlines that proceedings will kick off on March 1 with the Governor's address, followed by obituary references. Subsequently, on March 5, the House will witness the presentation of budget estimates for the upcoming financial year (2024-25). The session will adjourn sine-die on March 15.

Cheema, in a media briefing after the Cabinet meeting, disclosed that the Punjab Vidhan Sabha's budget session is slated to commence with an address by the Governor, marking the official initiation of deliberations on crucial financial mat-

He added that apart from presentation of budget proposals, several legislative work would also be carried out during the session.

government's commitment to prioritizing the well-being of its educators.

Monthly Honorarium of War **Heroes' Widows Doubled**

To honour the sacrifices of war heroes and their families, the Cabinet approved a substantial increase in the

monthly honorarium for widows of war heroes — from Rs 10,000 to Rs 20,000 — providing greater financial support to these brave women who have lost their spouses in service to the nation. Presently, there are 83 beneficiaries availing themselves of this scheme. The Cabinet has

consented to amend 'The East Punjab War Awards Act 1948' by introducing an amendment bill in the Punjab Vidhan Sabha — seeking to double the War Jagir (financial assistance). Under this Act, the Government extends War Jagir to the parents whose only child or two to three children served in the Indian Army during significant conflicts such as the Second World War and National Emergencies of 1962 and 1971.

Rs 1-cr Ex-Gratia for PHG **Died in Gurdwara Clashes** In a poignant acknowl-

edgment of the exemplary service and ultimate sacrifice made by martyr Punjab Home Guard (PHG) Jaspal Singh, the Cabinet approved a special ex-gratia grant of Rs one crore to his bereaved family. Jaspal Singh, from Maniala village in Sultanpur Lodhi, Kapurthala district, tragically lost his life while upholding law and order in Sultanpur Lodhi on November 23, 2023, during violent clash between Nihang factions and police at Gurudwara Akal Bunga.

Modi with a message

The PM's planned visit to Sandeshkhali challenges Mamata, seeks to gain ground in Bengal

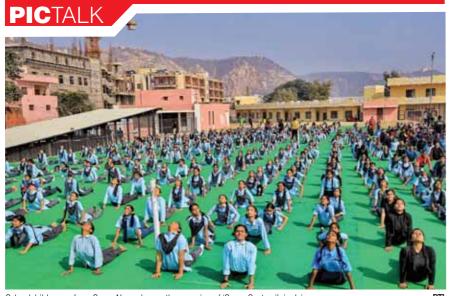

rime Minister Narendra Modi's planned visit to Sandeshkhali on March 7 holds significant implications not only for the BJP's Lok Sabha poll strategy but also for the political fortunes of Mamata Banerjee, the TMC supremo and an important constituent of the INDIA bloc. Sandeshkhali, in the North 24 Parganas district of West Bengal, has emerged as a focal point of political strife due to incidents of alleged sexual abuse and land grab by a TMC leader, Shahjahan Sheikh. Ahead of Modi's visit, the BJP has unveiled a 20-minute documentary highlighting the TMC's alleged atrocities in Sandeshkhali with the apparent aim of pushing Mamata on the defensive. The film features Sandeshkhali women's testimony recounting alleged instances of land grab and sexual assault by Sheikh and his cohorts. The BJP's decision to schedule Modi's visit to North 24 Parganas signals its intent to bolster its support base and make inroads into areas traditionally dominated by the ruling TMC. The timing, just ahead of the elections, underscores the BJP's

concerted efforts to sway voters in its favour by exposing the TMC's 'wrongdoings'. Modi's persona and oratory have often been instrumental in galvanising public support, and his presence in Sandeshkhali is likely to energise the BJP cadre and attract undecided voters. Besides, the symbolism associated with Modi's visit cannot be overstated. By highlighting Sandeshkhali, which has witnessed political unrest and clashes, the BJP aims to convey a message of development and security to the residents.

This narrative directly attacks Mamata's leadership, which has faced frequent criticism over law and order issues, and poses to her a formidable challenge. The

BJP's relentless campaign, coupled with Modi's visit, threatens to erode TMC's support base in key constituencies. As she seeks to counter the BJP narrative, Mamata's response to Modi's visit will be closely scrutinised. It seems quite likely that the coming weeks would see a surge in BJP attacks on the TMC Government. This is not the first time that the BJP has launched a concerted attack on Mamata but her hold over the State remains more or less unshaken. That said, electoral outcomes are influenced by a multitude of factors beyond high-profile visits and political rhetoric. While Modi's visit may generate momentum for the BJP, the TMC's grassroots outreach, welfare schemes and organisational strength cannot be discarded. Mamata remains a formidable leader with a dedicated support base, especially among certain demographics and rural communities. Moreover, the political landscape in West Bengal is characterised by complex sociocultural dynamics, where regional identity and issues often play a significant role. The BJP's attempts to make inroads into the State must navigate these intricacies sensitively to resonate with the diverse electorate. How the PM's visit plays out remains to be seen but the attention Sandeshkhali is getting would indeed have one positive outcome: The victims of Sandeshkhali may get justice and Mamata may have to bite the bullet.

Indian nationhood thrives amid diversity

Despite regional differences and identity quests, the strength of Indian nationhood persists, supported by a dedication to constitutional values and productive conversations

here is much talk about the nature of change in all aspects of Indian life, as is natural in changes envisaged at such a large scale. There are bound to be differences of opinion, multiple articulations, and an attempt to project one's point of view. This is how it should be. This is amplified by the Sanskrit dictum "Vade Vade Jayat Tatva Bodhah" (through discussion one arrives at the truth). However, discussion must follow a protocol. This protocol is often unwritten and is a bedrock of any civil society. It has some enduring principles. The first and foremost of which would be that it cannot be and must not be abusive.

The right to civil disagreement in a civil manner is the foundation of a civil society. Thus, it is that mutual respect and agreeing to disagree are required as essential to civil discourse.

One can add to it, for good measure, certain other attributes and certain attributes of the mind. These attributes recognise the need to not only listen but honestly weigh the merits of another person's point of view and have a genuine openness to

Agreeing to another point of view or modifying one's own in a civil society is not a hallmark of weakness but a source of genuine strength and maturity. Going by these principles, the Indian civil society has an interesting record with significant regional variations. The Dravid school of thought is an interesting example. They are saying in the twenties of this century, roughly the same things they were saying in the thirties of the The Dravidian leadership has in

the last seventy-five years then been in power in that part of India for several decades, though not always continuously.

Similarly, the exclusionist identity sought by some of the DMK ideologues has had on various occasions to be moderated because they have been in power. Notwithstanding long patches of time, not much significant progress has been made in the implementation of some of the peninsula or between the

More to the point, it is important to realise that similar identity quests or some version thereof have been witnessed in the North Eastern States, Jammu & Kashmir State, parts of Andhra Pradesh, and a few other pockets of the southern Indian peninsula. This is a very understandable process. By and large, it has been contained within the constitutional framework. At times the divergent point of view has been espoused by neighbouring states of the Deccan

Deccan States and the Central Government at New Delhi over many matters including the distribution of river

Notwithstanding these differences, Indian nationhood has endured and might even be seen as having gone from strength to strength. It is this resilience which is, also, the hallmark of Indian nationhood. This is not to deny the fact that once in a while, offensive or extreme statements are made, some of which are avoidable, though sometimes understandable. The long and short of it is the ability of people to work together despite differences and different articulations. More to the credit of everyone

concerned is the urge on the part of most people to evoke the Indian Constitution whenever need be and not practice brinkmanship. The time is here to ensure that these practices of healthy debate and the setting of shared perspectives become a regular nabit and a part of the national methodology of dialogue and discussion.

Sometimes when extreme statements are made and some new thinking seems to arise, there is nothing wrong with that either, only that the model of integrative thinking would have to show far more resilience than it is many times currently showing.

This text has looked at the vantage point of collective cohesion. It is not as if there are no dangerous signs that need to be tackled, but that attempting to tackle them sensibly and systematically is necessary. It is this institutionalisation of handling dissent and allowing seemingly alternative perspectives to live peacefully with each other that will be the touchstone on which much of the future of Indian nationhood will continue to flourish.

In an era where subtle dissent becomes a part of covert political strategy, much care needs to be exercised. The number game can have dangerous manifestations. There is no substitute for good sense and integrity of thought, deed, and follow-up.

Ayurveda: Seek balance of tridoshas for wellness

Ayurveda's mantra for wellness is 'seek balance.' Its holistic approach offers a timeless roadmap to good health in today's fast-paced world

n an era marked by fast-paced lifestyles, stress-Linduced ailments, and an increasing reliance on synthetic medication, the ancient wisdom of Ayurveda emerges as a beacon of holistic healing. Originating in the Indian subcontinent over 5,000 years ago, Ayurveda is not merely a system of medicine but a way of life deeply rooted in the balance between mind, body, and spirit. Its holistic approach offers a comprehensive framework for promoting well-being and preventing disease, making it highly relevant in today's fast-changing world.

At the heart of Ayurveda lies the belief that health is a state of equilibrium between the three doshas - Vata (air and space), Pitta (fire and water), and Kapha (earth and water). According to Ayurvedic principles, imbalances in these doshas lead to physical, mental, and emotional disturbances, paving the way for illness. By understanding an individual's unique constitution, or Prakriti, Ayurveda seeks to restore harmony through personalised lifestyle modifications, dietary

yoga, and meditation.

One of the key strengths of Ayurveda is its emphasis on prevention rather than cure. By addressing the root cause of disease rather than merely treating symptoms, Ayurveda empowers individuals to take charge of their health proactively. Through practices such as daily self-care routines (Dinacharya), seasonal detoxification (panchakarma), and mindful eating habits, Ayurveda cultivates resilience and strengthens the body's natural defences, reducing the likelihood of ill-

Moreover, Ayurveda recognises the interconnectedness of all aspects of existence from the food we eat to the environment we inhabit. This holistic perspective underscores the importance of living in harmony with nature and aligning our

rhythms. By promoting sustainable living practices and environmental awareness, Ayurveda not only fosters personal health but also contributes to the well-being of the planet as a whole.

Ayurveda expert Vicram Sharma, Director of Shree Baidyanath Ayurved Bhawan emphasises the importance of maintaining balance among the three elements— Vata, Pitta, and Kapha—to ensure fitness. "Imbalances in these elements lead to diseases and advocated for Ayurveda's ancient wellness system, particularly pertinent in today's times when unhealthy dietary choices, lifestyle habits, and indulgence in alcohol and smoking disrupt this equilibrium." He said this in his address at Gurugram's Wellness Carnival. It was organised to create awareness about the importance of health and wellness. A wellness carnival was recently

organised at Cybercity Gurugram. In the face of modern challenges such as chronic stress, pollution, and sedentary lifestyles, Ayurveda offers lifestyle choices with its invaluable insights into maintaining vitality and balance. Its integrative approach acknowledges the role of mental and emotional factors in health, emphasising practices that promote mental clarity, emotional resilience, and spiritual well-being. While Western medicine

excels in acute care and crisis intervention, Ayurveda excels in promoting longevity, enhancing vitality, and restoring equilibrium. Integrating Ayurvedic principles into mainstream healthcare can lead to a more comprehensive and patientcentred approach, bridging the gap between traditional wisdom and modern sci-

By embracing its principles of balance, harmony, and interconnectedness, individuals can cultivate resilience, vitality, and well-being on all levels - physical, mental, emotional, and spiritual. As we strive to navigate the complexities of modern life, Ayurveda serves as a guiding light, reminding us of the profound wisdom inherent in nature.

PM PAYS TRIBUTE TO VIDYASAGAR JI Sir — India is truly blessed with so many

noble saints, intellectuals, and spiritual persons who have dedicated their entire lives to the welfare of mankind. Renowned Jain seer Acharya Vidyasagar Ji Maharaj was one of the greatest saints of our time who attained Samadhi "Sallekhana", saddening us. He was the most renowned saint in the Digambar Jain community. He took sallekhana, a Jain religious practice involving voluntary fasting until death, for spiritual purification.

PM Narendra Modi is paying tribute to this great saint. He will be all the more remembered by the generations to come for his invaluable contributions to society, especially his efforts towards spiritual awakening among people. His notable work was towards poverty alleviation, healthcare, education, and more. His life exemplified the core principles of Jainism, embodying its ideals through his actions and teachings. Today, the world over, fundamental elements are fighting, but the teachings of Acharya Vidyasagar Maharaj to mankind have become even more relevant; they should be followed by all of us to enrich the lives of human beings and promote peace and harmony. We should all strive to live coherently to shape a new era of national and social integration. Education was very close to his heart. He was a true tapas, whose life was dedicated to the ideals of Bhagwan Mahavir. He will always be remembered for his rich con-

tribution to society.

DANGERS OF PLAYING VIDEO GAMES

Sir — The British Medical Journal has recently given information about the dangers of video games, especially in this research, in which scientists from the World Health Organisation were also involved. A total of 50,000 people were surveyed in video games using headphones, earbuds, and headphones. Also,

Sandeshkhali crisis

he recent upheaval in Sandeshkhali, West Bengal, marked by allegations of sexual assault, land grabs, and political clashes, demands immediate attention. The state government's tendency to dismiss these accusations as political manoeuvres must give way to a genuine commitment to justice. While some

commendable arrests have been made, holding accountable those in power implicated in these crimes is essential. With the Supreme Court rejecting a CBI or SIT investigation, the onus now falls on Mamata Banerjee's government to prioritise citizens' well-being over political considerations, ensuring transparency and decisive action to restore trust.

Amidst the turmoil, concerns over authoritarianism arise with the arrest of a journalist, emphasising the need to safeguard the freedom of the press. The dismissal of widespread fear and systematic abuse by the government does not instil confidence in a thorough inquiry. Mamata Banerjee must demonstrate the same dedication to justice she exhibited in opposition, addressing these grave issues transparently. Acknowledging the plight of women prisoners and taking decisive action against sexual violence as a political tool is imperative for rebuilding trust and integrity in the government's response to the Sandeshkhali crisis.

the ear and reduces the ability to hear. An international research team reviewed 14 studies conducted by nine countries in this regard. North America, Europe, Southeast Asia, Asia, Australia, etc. were included in these nine countries. It is necessary to discourage children from playing video games. If not, a generation of young children will go deaf. This is a very sensitive subject. Parents should pay proper attention to their children and ensure that they do not watch those video games. It is necessary to tell the children about the consequences of this in various schools.

NIFTY AT ALL-TIME HIGH

Sir — Indices moved up for a fifth consecutive session, with the Nifty hitting a fresh all-time high amid mixed global cues. Benchmark Sensex spurted by the music venue has a definite effect on 349 points while Nifty scaled a fresh life-

time high on the sixth straight day of gains on February 20, driven by buying in banking and select FMCG shares. The broader market outperformed the frontline indices.

Everything looks favourable, be it the strong macroeconomic fundamentals or the robust retail inflows. Both upstream and downstream oil companies benefit from a robust up-cycle in oil and gas markets and stable crude prices, which have boosted volumes and marketing margins, said Siddhartha Khemka, head of retail research at Motilal Oswal Financial Services. Reflecting broader investor bullishness, the 50-share index surged to a record high of 21,654.75 on intense buying in the metal, commodity, auto and banking sectors.

GREEK PM'S VISIT BOLSTERS HISTORIC TIES

India and Greece are poised to deepen their ties across various sectors

KUMARDEEP BANERJEE

he visit of Greek (Hellenic Republic (Greece)) Prime Minister Kyriakos Mitsotakis this week marks an important chapter in Indo-Greek relations, an ancient bilateral relationship that often gets shadowed in the wider European context. Legend has it that the mighty Greek conqueror Alexander reached the northwestern frontier of the Indian subcontinent some 2500 years ago, fought two mighty kings, but didn't cross the Indus to enter India. However, a diplomatic relationship was established some years down the line, under the Mauryan rule (whose ruler Chandragupta Maurya had a Greek ambassador in his court named

Cut to contemporary times, Greece established its embassy in India in 1950, however, India took 28 years to start an embassy in Athens. Now a European country, just two and half hours behind Indian standard time, during summer, often featured in many Bollywood films, wasn't still an important ally until last year. During a state visit by Indian Prime Minister Narendra Modi in 2023, the bilateral relationship was elevated to a strategic partnership. The joint statement released in August 2023 highlighted: "Appreciating the increase in bilateral trade and economic engagement in recent years, the leaders also directed that both sides work to double bilateral trade by 2030. Both leaders reiterated the need for further broadening and deepening bilateral engagements in the fields of defence, shipping, science and technology, cyberspace, education, culture, tourism and agriculture. They took note of the signing of the MOU on Cooperation in the field of Agriculture... Both leaders directed their senior officials to ensure regular dialogue in the areas including political, economic, defence, security and public diplomacy. They also agreed to encourage direct flights between Greece and India.

This week's visit by the Greek PM has put the relationship under ample spotlight it deserves. When some of Greece's neighbours in Europe had made not-so-friendly statements on some of the most recent policy developments in India such as the "Citizenship Amendment Act (CAA)/National Register of Citizenship (NRC), Abrogation of Article 370, Reorganisation of the new Union Territories of J&K and Ladakh, and Judgement on Ram Janam Bhoomi, etc. Greece had officially stated that it is an internal affairs matter of India. Greece and India have reciprocally supported each other for a reformed UN reflecting the current realities with a permanent seat for each other in the UN security council. As per a Ministry of External Affairs booklet released in 2023, just ahead of the Indian Prime Minister's visit to Athens, Greece, "voted for India's candidature to UNSC for 2021-22. It supported India at the Nuclear Suppliers Group in 2008, and 2016. MTCR, WASSENAAR arrangements, and Australia Group.

Greece supported India's candidature for ICJ, ITLOS, IMO, Postal Operations Council (POC), World Heritage Committee and the position of External Auditor of the IAEA for the term 2022-27 and various other international bodies." Similarly, in Jammu and Kashmir, internal security concerns particularly arising out of state-funded terrorist activities, Greece has been on India's side. Greece supports many of India's concerns in the larger European Union bilateral. India interestingly has held several rounds of discussions with the EU trade representatives, to hammer out a free trade agreement. Although with elections in India around the corner, a complicated, trade agreement with the EU with several moving parts looks difficult. However, to have preferential voices in the EU, with member nations like France and Greece, Italy, looking at India favourably, is always welcome. Some of the unfavourable comments India received from EU member countries, post former, not taking a Western approach towards long-standing ally Russia, are likely to fade away with India developing closer bilateral partnerships in the region. A saga of resilience and adaptation

Trees, nature's silent guardians, witness the ebb and flow of civilisations, endure natural calamities and adapt to the relentless march of time

mbark on a journey through a mystical forest, where trees, the ancient storytellers, whisper tales of survival against the backdrop of ever-evolving landscapes.

These silent guardians of nature stand tall and firm, their leaves rustling with tales of time. They bear witness to the rise and fall of civilizations, endure natural calamities, and adapt to our planet's shifting climate. Indeed, trees are nature's superheroes, their power lies in their remarkable adaptability. Like shapeshifters, they ingeniously tweak their structure, physiology, and even their regeneration mechanisms to thrive in varied habitats.

India, with its diverse climates and landscapes, is home to a spectacular array of tree species. Each species, intricately woven into its habitat, embodies a unique journey of evolution and survival. Among these, Conifers stand out, particularly in the cool, windswept mountain regions. Unlike their deciduous counterparts, who shed their leaves with the changing seasons, Conifers wear their emerald attire year-round. Their foliage retains vital nutrients, helping them thrive in nutrient-deficient mountains.

As winter swathes the land in the snow, Conifers with their needle-like leaves stand poised to seize any fleeting warmth and bask in the sun's shy smile. Their ability to adjust their metabolism and lower their energy needs enables them to survive extended periods without photosynthesis. Conifers, with their evergreen nature, play a pivotal role in combating climate change. Even during the cold months when many trees stand bare, Conifers continue their silent vigil, actively absorbing carbon dioxide from the atmosphere. Unfazed by winter's chill, they tirelessly continue to purify the air, showcasing their importance in

As spring arrives with its warmth, Conifers are ready to immediately kickstart photo-synthesis, thereby facilitating their growth and in times of intense heat, they close their stomata, thereby preserving water and enduring severe droughts. In contrast, broadleaf trees require time to sprout leaves, which delays their photosynthetic activity. This gives conifers an edge in regions with cold winters and dry summers while posing challenges for leafless decid-uous trees with limited water supply. Conifers, with their long, thin needles, have adapted remarkably to their often challenging habitats. The needles minimised sur face area, coupled with fewer stomata, smartly reduces water loss. Interestingly, the stomata located deep within the needle structure create air pockets, resulting in less transpiration compared to exposure to moving air.

Their slender shape also prevents snow accumulation, protecting the branches from breakage. The needle's outermost layer, a thick, waxy cuticle, serves as nature's exquisite raincoat, masterfully locking in moisture to ensure the tree's hydration even in the icy grip of winter. This same layer, inclusive of the cuticle, epidermis, and occasionally the hypodermis, also shields the tree from harmful ultraviolet-B radiation. In foggy regions, these needles efficiently condense airborne moisture into droplets. These droplets then merge and fall onto the forest floor, hydrating the trees. Inversely, deciduous trees with their broad leaves hold tiny droplets that evaporate. This gives Conifers a distinct advantage in areas prone to advection fog, where rainfall is

Under their bark, Conifers harbour a complex network of tissues, including the xylem and phloem, which transport water, nutrients, and sugars throughout the tree. However, during harsh winters, the sap, a life-sustaining fluid, faces the threat of freezing, which could severely damage the cell walls. But nature, in its infinite wisdom, has equipped these trees with a remarkable defence mechanism. Both deciduous and evergreen trees can osmotically move water out of their living cells into their intercellular (non-living) spaces. This strategic relocation of water confines the freezing process to these non-living zones. Also, the sap due to its higher sugar concentration transforms into a thick syrup that acts as an antifreeze. This transformation reduces the internal freezing point of each cell and enhances its resistance to freezing. Thus, by employing these strategies, Conifers protect their living cells from ice rupture, ensuring the tree's survival through tne narsnest winters.

Conifers, particularly those in the Pinaceae family, are in a constant battle against formidable adversaries like bark beetles and their symbiotic microorganisms. Their defence mechanism is a sticky resin that seeps from their bark, serving both as a shield and a sword in their fight for survival. This resin forms a barrier that slows the movement of freezing air molecules, a feature that is especially beneficial in dry climates or during droughts as it helps preserve the tree's vital moisture. Moreover, the stickiness of the resin traps infiltrating insects, while its chemical composition deters or even exterminates these invaders, thereby ensuring the tree's continued growth and survival. However, climate change and invasive species are disrupting this balance, posing new challenges for these tenacious

Unlike broadleaf trees with large

vascular conduits that foster high growth rates and rapid leaf turnover, conifers possess narrow tracheids in their vascular system. The slender shape of these tracheids only allows tiny bubbles to form, which quickly dissolve back into solution, effectively averting freeze-thaw embolisms. Such embolisms occur after a long, cold winter when the vascular system thaws and air bubbles form. In broadleaf trees, these bubbles can grow large and struggle to dissolve back into solution, leading to an embolism. However, Conifers' narrow tracheids prevent this from happening, making them mountain marvels.

As we descend from the high altitudes towards the equator, we witness a captivating shift in the botanical world. The reign of conifers gracefully passes the baton to the broadleaf trees. These trees, preferring warm and moist climates, become the stars of tropical and subtropical regions, thriving in valleys blessed with fertile and humid

Broadleaf trees, unlike conifers with exposed seeds on cone-like structures, protect their seeds within fruits. This strategy shields the seeds from harsh weather and predators, thereby improving the likelihood of successful germination and ensuring the continuation of the broadleaf lineage. During the dry season, these trees shed their leaves to conserve water and energy, a survival strategy akin to an investor offloading costly assets in times of scarcity. This process, known as abscission, involves specialised cells at the stem base acting like microscopic scissors, severing the leaf connection. However, before the leaves fall, the tree reclaims vital nutrients, storing them in the branches. When spring arrives, these stored nutrients fuel new leaf growth, transforming the landscape into a vibrant green canvas. While the botanical narrative often portrays conifers as inhab-

itants of frigid heights, they also demonstrate resilience in unexpected environments. Consider regions with high rainfall and poor water retention due to sandy or rocky soils. These challenging environments might seem inhospitable for most vegetation. Yet, in these very landscapes, Conifers, equipped with needle-like foliage and a waxy coating, defy expectations and adapt to thrive in water-deficient soils. Their presence attests to life's remarkable adaptability, reminding us that nature's stories are often far more surprising and nuanced than we initially imagined.

The saga of tree endurance is more than a mere showdown with the weather; it's a battle against environmental challenges and human-induced scars. While some species may succumb, resilient warriors, the pioneer species emerge. These trailblazers, including Albizia, Dalbergia, and the hardy duo of Willows and Birches in temperate climes, act as nature's first responder. They rejuenate once the chaos subsides splashing vibrant hues onto landscapes left barren and desolate. However, as the environment stabilises and resources become abundant, climax vegetation, the slowergrowing, shade-tolerant species, begins their steady march. Their endurance enables them to replace the swift pioneers, asserting their dominance in the landscape. This transition paints a dynamic picture of movement, upheaval, and significant transformation in the landscape, illustrating the timeless wisdom of the tortoise and the hare: it's not always about the speed, but the resilience and persistence that truly counts in the race for survival. This is nature's beautiful way of reminding us that every player, swift or steady, has a crucial role in the intricate tapestry of life.

Upholding the essence of agriculture amidst market pressures

The ongoing farmers' protest underscores the clash between economic and social objectives, particularly regarding the legal guarantee of minimum support prices

¬he farmer is the only man in our economy who buys everything at retail, sells everything at wholesale, and pays the freight both ways, said John F. Kennedy. Agriculture is the mother of all human cultures and all modes of man-made production. Agricultural production and its consumption are primarily guided by values of human existence, health and welfare; the values of the market are superimposed on it. Agriculture, thus, is not only a source of income and livelihood for many farmers but also a way of life and iden-

Agriculture is a springboard to food security, rural development, cultural heritage and landscape preservation and, thus, requires mechanisms to

safeguard it from the postindustrial market economy founded on the principles of profit rather than the exchange of goodwill and well-being. The market creates a conflict between the economic and social objectives of agriculture. It is for the social objective of 'food security' and the livelihood of farmers that justify the Indian farmers' protest for a legal guarantee on minimum sup-

port price. The system of minimum support price introduced in 1966 to help India fight the food deficit has been a productive driver for development and food safety for the Indian population; a system to determine minimum support price has evolved through the years which yet needs improvement and support.

At present, the Commission for Agricultural Costs and Prices (CACP), Government of India calculates the paidout costs on seeds, fertilisers, pesticides, hired human and machine labour, and leased-in land rent etc (A2) and the imputed value of unpaid family labour (FL), and adds 50% of its total to recommend minimum support price (MSP) for Cereals (Paddy,

Wheat, Barley, Jowar, Bajra, Maize and Ragi), pulses (Gram, Arhar/Tur, Moong, Urad and Lentil), oilseeds Groundnut, Rapeseed/Mustard, Toria, Soybean, Sunflower Seed, Sesamum, Safflower Seed and Nigerseed), Copra, De-Husked Coconut, Raw Cotton, Raw Jute and Sugarcane every year. Then, keeping in view the production costs, fair remuneration for farmers affordability for consumers and the market conditions, the CACP recommendation is approved by the parliament of India to notify the MSP before the sowing season. In its recommendation, the CACP does consider 'Swaminathan National

ommendation fully to include capital assets and the rentals and interest forgone on owned land which the protesting farmers demand. Another cause for farmers' protest is the demand for legislation providing farmers 'the Right to Sell at MSP' which the CACP itself had suggested in its price policy report 2018-19.

The farmers are demanding the same legal entitlement for their produce insulating it against the market pressures of 'demand and supply' as the markets can be subject to manipulation by the private traders and corporations, a concern shared by the CACP in its 2018-19 report.

The crops are unlike industrial production that can be Commission for Farmers' rec-

market pressures; the cropping patterns are not so easy to shift. The biological nature of agricultural produce makes it vulnerable to unpredictable and uncontrollable weather conditions, pests and diseases on the one hand, and its 'all at once' yield makes it vulnerable to the market players if left for itself to guard. To enhance its resilience to the negative market pressures, a legal guarantee for MSP is required.

Unlike the corporate, the small farmers can not store and service 'value addition'; they have to sell the entire yield immediately. So, it is reasonable for the farmers to expect a guaranteed MSP announced by the govern-

The legal guarantee for MSP controlled with resilience to is not about the procurement

of the entire crop by the government but about its purchase at a price not less than the minimum remunerative price declared by the government itself. In the absence of a legal guarantee, the traders purchase the agricultural produce at prices lower than the MSP, yet they sell it to the consumers at prices much higher than the MSP without passing on the benefit to the consumers.

Agriculture produce is for survival while all other industrial or service products are for additional comfort. To keep the farmers growing sufficient for the people to survive, it is well within the reasonable sense for the government to compensate the gaps in case 'demand and supply' forces the sale of crops at

prices lower than the MSP following the principle it employs in its intervention to support the corporate failures. The legal guarantee for all crops in all states can act as an instrument for organic farming and diversification, as the farmers will have no insecurity about price fluctuations. If left unguarded and subject to the 'demand-supply' principle, it may lead to food insecurity and compromise social values inherent in agriculture. Leaving agriculture on the market is neither desirable nor pro-national; it is only procorporate and anti-nation.

Israeli strikes in Gaza kill 48 Houthi missile attack sets

Fears mount over humanitarian crisis

I sraeli strikes killed at least 48 people in southern and central Gaza overnight, half of them women and children, health officials said Thursday, as European foreign ministers and UN agencies called for a cease-fire, with alarm rising over the worsening humanitarian crisis and potential starvation in the territory.

Tensions were also rising in the Israeli-occupied West Bank, where three Palestinian gunmen on Thursday opened fire on morning traffic at a highway checkpoint, killing one person and wounding five others, Israeli police said. A member of Israel's War Cabinet said late Wednesday that new attempts are underway to reach a cease-fire deal between Israel and Hamas that could pause the war in Gaza and bring the release of around 130 Israeli hostages held by the militants since their Oct. 7 attack on southern Israel. It was the first Israeli indication of new efforts since negotiations stalled a week

But Benny Gantz, a former military chief and defense minister, repeated his pledge that unless Hamas agrees to release the remaining hostages,

Israel will launch a ground offensive into Gaza's southernmost town, Rafah, during the down of civil order." They called for the opening of more entry points for aid to Gaza – Muslim holy month of Ramadan, which begins around March 10.

More than half of Gaza's population of 2.3 million is crowded into Rafah after fleeing fighting and bombard-ment elsewhere in the territory. Israel has said it will evacuate them before attacking. But it is not clear where they would go, with much of the rest of the tiny Mediterranean enclave consumed in combat raising fears civilian casualties could spiral in an Israeli assault that has already killed more than 29,400 people. The heads of 13 UN agen-

cies and five other aid groups issued a joint plea for a ceasefire late Wednesday, warning that an attack on Rafah will bring "mass casualties" and could "deal a death blow" to the humanitarian operation bringing aid to Palestinians, which "is already on its knees."

Earlier this week, the World Food Program had to halt food deliveries to northern Gaza because of increasing chaos. "Diseases are rampant. Famine is looming," they said, adding that aid workers are facing "shelling, death, movement restrictions and a breakincluding in the north — security assurances of safe passage for distribution and a release

The foreign ministers of 26 European countries on Thursday called for a pause in fighting leading to a longer cease-fire. They urged Israel not to take military action in Rafah "that would worsen an already catastrophic humanitarian situation

Thursday's shooting came at a checkpoint on a West Bank highway where the gunmen opened fire on cars in the morning rush-hour traffic jam. An Israeli man in his 20s was killed and five others wounded, including a preg-

Security forces killed two of the gunmen and detained the third, police said.

Hamas in a statement Γhursday praised the attack in Jerusalem and said it was a 'natural response" to Israel's ongoing war in Gaza and raids in the West Bank, and called for more attacks until they can achieve a "fully sovereign" Palestinian state with Jerusalem as its capital. The militant group did not claim responsibility for the attack.

Bank ahead of Ramadan which in the past has seen increased clashes, often in connection to restrictions imposed on Palestinian worshippers going to Al-Aqsa Mosque in Jerusalem's Old City during the holy month.

Tempers are likely to be even more volatile this year over the Gaza war and spiraling violence in the West Bank.
Since the war began, the

Israeli army has carried out near-nightly raids across the West Bank, arresting more than 3,200 Palestinians, including 1,350 it says are suspected Hamas members. Almost 400 Palestinians have been killed during the operations, according to the Palestinian Health Ministry. Israeli settlers have stepped up attacks on Palestinians, and there have been a number of militant shooting attacks against Israeli civilians. \A flurry of seven Israeli strikes hit Rafah early Thursday, one of them flattening a large mosque and devastating much of the surrounding block.

ship ablaze in Gulf of Aden

suspected missile attack Aby Yemen's Houthi rebels set a ship ablaze in the Gulf of Aden on Thursday as Israel intercepted what appeared to be another Houthi attack near the port city of Eilat, authorities said. The attacks come as the rebels escalate their assaults over Israel's war against Hamas in the Gaza Strip.

The attack on Thursday in the Gulf of Aden saw two missiles fired, the British military's United Kingdom Maritime Trade Operations center said. It said the unnamed ship was ablaze, without elaborating.

Meanwhile, sirens sounded early on Thursday morning over Eilat, followed by videos posted online of what appeared to be an interception in the sky overhead.

The Israeli military later said the interception was carried out by its Arrow missile defense system. Israel did not identify what

the fire was, nor where it came from. However, the Arrow system intercepts long-range ballistic missiles with a warhead designed to destroy targets while they are in space.

The system "successfully intercepted a launch which was identified in the area of the Red Sea and was en route to Israel," the Israeli military said. 'The target did not cross into Israeli territory and did not pose a threat to civilians."

The Houthis did not immediately claim either attack. They typically acknowledge assaults they conduct hours afterward.

Eilat, on the Red Sea, is a key port city of Israel. On October 31, Houthis first claimed a missile-and-drone barrage targeting the city. The rebels have claimed other attacks targeting Eilat, which have caused no damage in the

Since November, the rebels have repeatedly targeted ships in the Red Sea and surrounding waters over Israel's war against Hamas.

They have frequently targeted vessels with tenuous or no clear links to Israel, imperiling shipping in a key route for trade among Asia, the Mideast and Europe. Those vessels have included at least one with cargo for Iran, the Houthis' main benefactor.

Despite a month of US-led airstrikes, Houthi rebels remain capable of launching significant attacks. This week, they seriously damaged a ship in a crucial strait and downed

an American drone worth tens of millions of dollars. The Houthis insist their attacks will continue until Israel stops its combat operations in the Gaza Strip, which have enraged the wider Arab world and seen the Houthis gain international recognition.

On Wednesday, ships in the Red Sea off the Houthi-held port city of Hodeida in Yemen reported seeing an explosion, though all vessels in the area were said to be safe, the UKTMO said. The UKMTO earlier reported heavy drone activity in the

The US military's Central Command acknowledged shooting down a Houthi bomb-carrying drone during that time.

US airstrikes separately targeted seven mobile anti-ship cruise missiles and one mobile anti-ship ballistic missile prepared to target ships in the Red Sea, Central Command said.

The US State Department criticised "the reckless and indiscriminate attacks on civilian cargo ships by the Houthis" that have delayed humanitarian aid including food and medicine bound for Ethiopia, Sudan and Yemen.

France says, Russian forces threatened to shoot down aircraft patrolling Black Sea

 $R^{\hbox{\it ussian forces threatened to}}_{\hbox{\it shoot down French pilots}}$ patrolling in international airspace over the Black Sea, signals of increasingly aggressive behaviour from Moscow as its invasion of Ukraine struggles to make headway, France's defense minister said Thursday. The minister, Sébastien Lecornu, didn't give specific details about the French flights or aircraft involved in the threatened shoot-down. But he said Russia is returning to a "particularly aggressive" posture reminiscent of the former Soviet Union's behaviour during the Cold War.

"A month ago, to give you Russian air traffic control system threatened to shoot down French aircraft in the Black Sea when we were in a free international zone where we patrol," he said on RTL radio.

"The behaviour of Russia in 2024 bears no relation to what we saw in 2022 and, obviously, before the aggression in Ukraine," the minister said. "It is explained by the fact that Russia is in difficulty on the battlefield in Úkraine."

A French military spokesman, Col. Pierre Gaudillière, said Lecornu was referring to an incident in mid-November that involved one of France's four giant Airborne Warning and Control System, or AWACS, surveillance aircraft. Gaudillière described the incident as unprecedented for a

French flight in that region. "It was a French AWACS," flying over international

waters in the Black Sea,

Gaudillière said. "Through a radio it exchange, it was threatened by the Russians." "It was a particularly aggressive radio exchange,

he added. "It's a first."

French air force pilots regularly patrol on the eastern flank of NATO, part of efforts by the 31-nation military alliance to boost its defenses since Russia launched its fullscale invasion of Ukraine two years ago come Saturday. The French flights include

long-range patrols by its AWACS surveillance aircraft. Flying high above the Black Sea coast, they use their powlance gear to peer across to the Crimean Peninsula that was seized from Ukraine by Russia and annexed in 2014. Biden calls Putin 'crazy SOB'

AP ■ SAN FRANCISCO

During a fundraiser for his reelection campaign Wednesday night, President Joe Biden called Russian President Vladimir Putin a "crazy SOB" and took aim at former President Donald Trump's comments comparing himself to the Russian opposition leader who died last week in an Arctic prison.

Biden was talking about climate change when he said, 'We have a crazy SOB like Putin and others, and we always have to worry about nuclear conflict, but the existential threat to humanity is cli-

Speaking to donors at a private San Francisco home Wednesday as part of a threeday California swing to raise money for his 2024 reelection campaign, Biden also said he was astounded by recent comments made by his likely Republican challenger. Trump compared the sus-

"Some of the things that this fellow's been saying, like he's comparing himself to Navalny and saying that — because our country's become a communist country, he was persecuted, just like Navalny was persecuted. I don't know where the hell this comes from," Biden said.

"I mean, if I stood here 10, 15 years ago and said any of this, you'd all think I should be committed," he said. "It astounds me.

"I've been around a long time and I've never quite seen a crowd like this MAGA Republican crowd," Biden added, referring to Trump's "Make America Great Again" slogan. "They seem to have very little moral compass on what is important to people."

During a campaign fundraiser in Beverly Hills on Tuesday night, Biden highlighted his efforts to help middle-class Americans and warned that a win in November for Trump could lead to a nationwide abortion ban, more Republican efforts to undo the health insurance program start-ed during President Barack Obama's administration and more policies that would disproportionately help the

Farmers from EU countries join protest | Albanian Parliament

zech farmers were driving Utheir tractors and other vehicles to several border crossings on Thursday to meet their colleagues from neighbouring countries and join forces in their protests against European Union agriculture policies, bureaucracy and overall conditions for their business.

Farmers complain that 27-nation EU's environmental policies, such as the Green Deal, which calls for limits on the use of chemicals and on greenhouse gas emissions, limit their business and make their products more expensive than non-EU imports.

The farmers also complain about low prices for their products and say grain and other agriculture products coming from Ukraine and Latin America negatively affect the

colleagues from neighbouring Germany, Poland and Slovakia at a number of border crossings. Farmers from 10 EU countries, ranging from Central Europe to the Baltics and the Balkans, were participating in the protest, organisers said.

The farmers invited Czech Agriculture Minister Marek Vyborny, his Slovak counterpart Richard Takac, and the representatives of farmers from Poland and Hungary to rally at a Czech-Slovak border crossing known as Hodonin-Holic, which was blocked by hundreds of tractors. "We don't protest against the EU, we protest against the wrong decisions by the European Commission," said Andrej Gajdos from the Slovak Chamber of Agriculture and

Jaahnavi's killers will not face criminal charges

PTI WASHINGTON

¬he Seattle police officer I who struck and killed Indian student Jaahnavi Kandula while responding to an overdose call, will not face any criminal charges due to lack of "sufficient" evidence, authorities said.

On Wednesday, the King County Prosecutor's Office said they will not move forward with criminal charges against Seattle Police Officer Kevin Dave, FOX13 Seattle reported. In a statement released Wednesday, the King County Prosecuting Attorney said, "Kandula's death is heartbreaking and impacted communities in King County and across the world.

Kandula, 23, was struck by police vehicle driven by Officer Dave when she was crossing a street in Seattle on January 23. He was driving 74 mph (more than 119 kmh) on

overdose call. Kandula was thrown 100 feet when she was struck by the speeding police patrol vehicle.

In bodycam footage released by the Seattle Police Department, Officer Daniel Auderer laughed about the deadly crash and dismissed any implication Dave might be at fault or that a criminal investigation was necessary.

King County Prosecuting

Attorney Leesa Manion said that she believes they lack the evidence to prove a criminal case beyond a reasonable doubt, the report added. It is the responsibility of

the King County Prosecuting Attorney's Office to review all available evidence relating to the case involving Seattle Police Officer Kevin Dave and the January 2023 collision death of Jaahnavi Kandula. After staffing this case with senior deputy prosecuting attorneys and office leadership, I have determined that we lack suffievidence under cient Washington State law to prove a criminal case beyond a reasonable doubt.'

The statement also said that the prosecutor's office also finds the comments made by Seattle Police Officer Daniel Auderer, recorded on his bodyworn video, "appalling and deeply troubling.

Auderer, who was not

involved in the January collision, was captured in the video saying, "But she is dead" and laughing while on the phone. She was 26 anyway," Auderer said in the video. "She

had limited value." "Officer Auderer's comments were also unprofessional and undermined the public's trust in the Seattle Police Department and law enforcement in general," said Manion.

"As egregious as Officer Auderer's comments are, they do not change the PAO's legal analysis into the conduct of Officer Dave. It is the Office of Police Accountability that bears the responsibility of disciplinary investigation and pro-ceedings relating to Officer Auderer's comment, not the

Auderer was pulled from patrol in September 2023 and reassigned to a "non-operational position." Auderer could still be fired after the fallout of

his insensitive comments captured on bodycam. Auderer's chain of com-

mand and the Office of Police Accountability (OPA) found he acted unprofessionally. For that, he faces the highest disciplinary range of nearly two weeks suspension up to termination, according to a disciplinary action report.

Before a final disciplinary decision, Auderer will have the chance to meet with Police Chief Adrian Diaz to disagree.

His disciplinary hearing is scheduled for March 4, K5 News reported. Seattle local media report-

ed that speed was the cause of the collision, as the speed at which Dave was travelling did "not allow (Kandula) or him sufficient time to detect, address and avoid a hazard that presented itself."

Dave was responding to a 'priority one" call at the request of the Seattle Fire Department,

according to the Seattle Police Department. According to the police report, the officer was responding to a report of a drug overdose.

The officer did not have his siren activated continuously. Instead, the officer "chirped" his siren at the intersection. He did have his emergency lights on, according to a previous statement from the police department. In a memo to Seattle police,

not enough evidence to prove Dave showed "conscious disregard for others safety." A drug recognition expert responded to the scene and found no impairment in the

officer. Kandula was a graduate student at Northeastern University at the Seattle campus. The university said in January 2023 that they would award her degree posthumous-

ly and present it to her family.

Will urge IMF to stop support to Pak over 'rigged' polls: Imran

Tailed former prime minister Jimran Khan on Thursday announced that he will write to the IMF, demanding the global lender to stop its support to cash-strapped Pakistan until it seeks an "audit" of the elections mired in controversies, including vote rigging.

Khan's message from jail was conveyed through Barrister Ali Zafar, who met him in the Adiala Jail Rawalpindi where the former cricketer-turnedpolitician has been incarcerated since last year.

"A letter will be written to the International Monetary Fund that it should first seek an audit of elections and then decide about any loan to Pakistan," Zafar said, adding that any loan to Pakistan with out an audit of votes would be harmful to the country facing financial woes. Zafar, who has also been nominated by Khan to contest intra-party election for the chairman's post, also said that the IMF has laws which bar aid to countries not having democratic governments. He said a democratic government was only possible after having fair and free elections. He rejected the impression that the letter would further jeopardise Pakistan's fragile economy which, without assistance from the donors, may default on external

PTI's organisational elections on March 3

Jailed former Pakistan prime minister Imran Khan's beleaguered party will conduct fresh organisational elections on March 3, a senior leader announced on Thursday, months after the election commission annulled a previous intra-party poll.

Earlier this month, intraparty polls of the 71-year-old former-cricketer-turned-politician's Pakistan Tehreek-e-Insaf (PTI) were postponed after top party leadership asserted that it could "divert" attention from the February 8 general elec-

PTI Chairman Barrister Gohar Khan said that the decision to conduct fresh intraparty polls had been made in the light of instructions from

the party founder Imran Khan. "The intra-party elections will take place on March 3 and this time Ali Zafar will be our candidate for chairman," he said while addressing a press conference along with Barrister Zafar and other party leaders. He reiterated that it was the decision of Imran Khan. Gohar, who was nominated by Khan to contest the intraparty elections as chairman last year and also won, said that Khan nominated Omar Ayub Khan to contest as secretary general of the party. The party members can submit nomination papers by Friday and Saturday. According to the poll schedule, the scrutiny of the

Tarar condemned the statement about writing a letter to the IMF and said that the PTI founder was trying to harm the country. "The party has always tried to damage the country to save its politics," he said.

The development comes after the PML-N and the the February 8 general elec-

nomination papers will be completed by February 25 and

decisions on the nominations

will be made by February 27.
The polling for the organisational elections would be held at the party's central secretariat here and PTI offices in all four provinces of the country, the Dawn newspaper reported. The development came as the Express Tribune newspaper reported that the PTI is expected to hold its intra-party elections in the next 15 days. It had also reported that Gohar Khan has been nominated as the chairman and Raoof Hassan will be the Chief Election Commissioner for PTI's intra-party polls.

It was not known why Imran Khan changed the candidate for the post of chairman. To a question, Gohar Khan rejected the impression that he had been demoted. Previously, a day after PTI announced the schedule for fresh intra-party polls, the party postponed them on February 2 until after the elections which were held on February 8.

The party cited commitments of members in their respective constituencies and PTI venues being "unlawfully blocked by the administration' as reasons for the delay.

The earlier round of the party's intra-party polls was declared null and void by the Supreme Court before the general elections. The party also lost its iconic 'bat' electoral

After the general elections threw a fractured mandate, doubts have been raised about the fairness of the whole process, with the US, the European Union, and other countries demanding an investigation into the irregularities and fraud allegations.

Pakistan's foreign exchange reserves hovered around USD 8.04 billion during the week ending February 2, after witnessing a decline in reserves by USD 173 million due to external debt repayments. Maryam set to be first woman CM of Pakistan's **Punjab provincial** assembly

Lahore (PTI): Maryam Nawaz, the daughter of three-time prime minister Nawaz Sharif, is set to become the first woman chief minister of Pakistan's Punjab province following the summoning of the inaugural session of the provincial legislature on Fridav.

Out of five assemblies in Pakistan that went to the polls on February 8, the Punjab Assembly is the first house convening its opening session. "Punjab Governor Balighur Rahman has called the Punjab Assembly session for Friday, in which newly elected members of the assembly will swear in and formation of the new government will begin," a spokesperson for the Governor's House said on Thursday. Maryam, 50, is also senior vice president of the Pakistan Muslim League-Nawaz (PML-N) party. She is considered to be the political heir of PML-N supremo Nawaz Sharif, who surprisingly nominated his younger brother Shehbaz Sharif as his party's prime ministerial candidate. The PML-N has nominated Maryam as the chief ministerial candidate of the party in Punjab, a province of over 120 million people. The PML-N won 137 seats while independents backed by former prime minister Imran Khan's Pakistan Tehreek-e-Insaf (PTI) won 113 in the Punjab Assembly. Separately, 20-odd independents, not PTI-backed, have already joined the PML-N. The PTI-backed independent candidates have joined the Sunni Ittehad Council (SIC) to get reserved seats for women and minorities besides saving their elected members from being forced to change their loyalty by the military establishment.

Chinese ship moors near Maldives after a month in Indian Ocean

A high-tech Chinese marine research ship on Thursday arrived near the Maldives after spending about a month in the Indian Ocean near the island nation, media reports said here. The ship, 'Xiang Yang Hong 03' reached the Maldives on the same day when Indian and Sri Lankan coast guard ships reached the strategically locat-ed archipelago for a trilateral naval exercise.

India had already expressed concern about the movement of the Chinese research ship in the Indian Ocean and also prevailed on Sri Lanka to refuse permission for the ship to dock at the Colombo port.

"Chinese research vessel Xiang Yang Hong 03 was moored close to Male City this morning. Around noon, the ship was shown to be near Thilafushi," news portal Edition.mv reported, quoting the Marine Traffic website that tracks all ocean liners across the globe. "Xiang Yang Hong 03 began its journey on January 14, 24 hours after Maldives President Mohamed Muizzu concluded his state visit to China. It arrived near Male' today after spending about a month near the Maldives' Exclusive Economic Zone (EEZ)," said Adhadhu.com, a news portal. It also claimed that the vessel was "not visible on common tracking sites starting from January 22. It is believed that the vessel's tracking systems had been turned off when it was in the Java Sea off Indonesia

An analysis by Adhadhu using satellite AIS tracking showed that the Chinese vessel was later at the EEZ of Maldives, the report said, adding, "The vessel had spent about a month near the EEZ."

pro-China leader, won last year's presidential election on an ʻanti-İndia' stance. He made Beijing his first port of call going against the tradition of visiting New Delhi first as the Maldivian President.

An American think-tank has alleged that a vast fleet of China's "scientific research" ships is collecting data from the oceans, including in the Indian Ocean Region, for military purposes, especially for submarine operations, a charge denied by Beijing, which said the Chinese vessels operations are in line with the UN Convention on Law of the Seas (UNCLOS).

On January 23, the Maldives government permitted the research vessel. But while the Maldivian foreign ministry said the Chinese Research Vessel Xiang Yang Hong 3 will "not be conducting any research while in the Maldivian waters," sources in the Indian defence establishment had indicated that New Delhi was keeping a close watch on the movement of the ship. In February, Chinese Foreign Ministry spokesperson Wang Wenbin said, "China's scientific research activities in relevant waters are for peaceful purposes and aimed at contributing to humanity's scientific under-standing of the ocean."

Earlier on January 5, Sri Lanka, while denying entry to the Chinese ship, had said it had declared a moratorium on foreign research ships entering its waters for a year amid concerns from India over Chinese research vessels docking in its neighbourhood.

The Maldives' proximity to India, barely 70 nautical miles from the island of Minicoy in Lakshadweep and 300 nautical miles from the mainland's western coast, and

mercial sea lanes running through the Indian Ocean Region (IOR) gives it significant strategic importance. The Maldives is India's key maritime neighbour in the IOR and occupies a special place in its initiatives like SAGAR' (Security and Growth for All in the Region) and the Neighbourhood First Policy' of the Narendra Modi government.

Meanwhile, Thursday morning, Coast Guards of Maldives, India, and Sri Lanka, along with observers from Bangladesh, joined in at the Trilateral Joint Exercise 'DOSTI-16.'

"MNDF welcomes participating ships from India and Sri Lanka for the Trilateral Joint Exercise 'DOSTI-16' from Feb 22-25. Coast Guards of Maldives, India, and Sri Lanka, along with observers from Bangladesh, join in this biennial event to enhance collaboration between the forces," Maldives National Defence Force (MNDF) said in a post on X along with the photos of the two vessels. "The purpose of the biennial exercise is to enhance military collaboration between the three nations and explore ways the nations can work together with respect to incidents unfolding at sea," news portal Sun.mv reported.

DOSTI exercise had initially kicked off between Maldives and India in 1991. Sri Lanka first participated in the exercise in 2012. The exercise was last held in 2021, the portal said.

The visit of the Indian coastguard ship to the Maldives comes amidst President Muizzu's demand for the withdrawal of 88 Indian military personnel manning three Indian aviation platforms in the island nation by March 15.

Sensex surges over 500 points

Nifty scales new high on bullish sentiments

PTI MUMBAI

on Thursday, with Nifty notching up a fresh all-time high and Sensex surging over 500 points as investors went on a buying spree in IT, technology and automobile

After volatility persisted for most part of the session, the benchmark indices rebounded in the last one hour of trading amid improving domestic macroeconomic indicators and positive global cues, including impressive earnings from the US technology space.
The 30-share benchmark Sensex

soared 535.15 points or 0.74 per cent to close at 73,158.24 points. As many as 22 Sensex constituents closed in the positive territory and the index touched an intra-day high of 73,256.39 points.

The broader Nifty climbed 162.40 points or 0.74 per cent to hit its highest-ever closing level of 22,217.45

During intraday trade, the index touched the peak of 22,252.50 points and 25 Nifty constituents ended the session with gains.

Nifty recorded its previous lifetime peak at 22,196.95 points on

February 20.

"The domestic market staged a recovery from the day's low, buoyed by positive PMI data from the Eurozone and an impressive earnings report from US tech stocks. The broader market showed

resilience as India's economic activity continued to expand in February, with both service and manufacturing PMI improving. Consequently, it resulted in outperformance in discretionary stocks and capital goods,"

Vinod Nair, Head of Research at Geojit Financial Services, said. BSE midcap index gained 0.92 per cent, largecap index climbed 0.81 per cent and smallcap index rose

In the Sensex pack, HCLTech rose the maximum by 3.12 per cent, followed by ITC which gained 2.73 per cent and M&M went up 2.61 per cent. TCS climbed 2.44 per cent. Bellwether auto stock Maruti gained 1.79 per cent, while Tata Motors rose

Among sectoral indices, BSE Auto gained the maximum by 1.85 per cent, followed by IT which rose by 1.83 per cent and Capital Goods which went up by 1.80 per cent. BSE Teck rose 1.59 per cent, while industrials climbed 1.50 per cent and power ended 1.38 per cent higher. However, stocks of all major banks closed in the red with IndusInd Bank falling 1.87 per cent, HDFC Bank dropped 1.28 per cent, Kotak Mahindra Bank declined 1.11 per cent and SBI slipped 0.73 per cent. BSE Bankex was the only index that ended with a marginal loss of 0.04 per cent.
"We are witnessing the banks trad-

ing at higher valuations than their historical median barring two large banks; HDFC Bank and Kotak Mahindra Bank.

The sharp correction in these two banks led to valuation comfort and earning upgrades is likely to bring investor sentiment back. Hence, we are optimistic on HDFC Bank with a current valuation of around 2.7x Price to book," Ajit Kabi, Research Analyst at LKP Securities, said.

In Asian markets, Japan's Nikkei 225 surged more than 2 per cent to all-time high to hit its 1,989 level. Hang Seng of Hong Kong and China's Shanghai Composite also ended with sharp gains. European stocks were also mostly

trading in the green.

On Wednesday, US stocks finished mostly higher after minutes of the US Federal Reserve's January meeting showed most policymakers were concerned about the risks of cutting interest rates early.

Vodafone Idea board to meet to consider fundraising proposal

PTI ■ NEW DELHI

Telecom operator Vodafone Idea (VIL) on Thursday said its board will meet on February 27 to that efforts are on to rope-

In a statutory filing, VIL said the board of directors will consider and evaluate all proposals for "raising of funds in one or more tranches by way of a rights issue, further public offer, private placement including preferential allotment, qualified institutions placement or through any other permissible mode and/or combination"

The fundraising could be through equity or debt instruments, the BSE filing

The capital raise could be by way of issue of equity shares or by way of any instru-ments including "securities convertible into equity shares, Global Depository Receipts, American Depository Receipts or bonds including foreign currency convertible bonds, convertible debentures, warrants, and/or non-convertible debentures including non-convertible debentures along with warrants, which may or may not be listed".

.. The Board of Directors of Vodafone Idea Limited will be held on Tuesday that is 27 February, 2024, to consider and evaluate any and all proposals for raising of funds in one or more tranches...," it said.

Earlier today, Billionaire industrialist and Aditya

Birla Group chairman Kumar Mangalam Birla had underlined the Group's firm commitment to the cashstrapped telco and asserted

On how soon such investors could be onboarded, Birla told PTI "we are making good progress but can't put in a timeline? 'We remain very commit-

ted to Vodafone Idea, and like we have said in public domain, efforts are on to get outside investors," he had said speaking at a conference here to mark the launch of the Group's decorative business.

Vodafone Idea saw its net loss narrow to Rs 6,986 crore for the December 2023 quarter, helped by Rs 755.5 crore one-time exceptional gain, while the average revenue per subscriber improved for the ailing

telco. VIL's net loss stood at Rs 7,990 crore in the year-ago period. For the debt-laden telco -

which has been struggling to keep up with the larger rivals like Reliance Jio and Bharti Airtel in the hugely competitive Indian telecom market - the revenue from operations remained nearly flat at Rs 10,673.1 crore year-on-year.

During the company's Q3FY24 results, Vodafone Idea CEO Akshaya Moondra had said: "We remain engaged with various parties for fundraising to make required investments for network expansion, including 5G roll-out."

The farm community in western Uttar Pradesh has given a mixed response to the government's decision to increase Fair and Remunerative Price (FRP) of sugarcane to Rs 340 per quintal. The Union Cabinet on Wednesday

decided to hike the minimum price that mills have to pay to sugarcane growers by Rs 25 to Rs 340 per quintal for the 2024-25 season starting

This is the highest FRP for sugarcane announced by Prime Minister Narendra Modi-led government since coming to power in 2014. Dismayed over the decision, Baghpat District President of Bharatiya Kisan Union (Bhanu) Pratap Singh Gurjar said the govern-

ment has forgotten its own promise.

himself promised to give MSP of Rs 450 per quintal to cane during a public rally in Meerut in 2014 elections," he claimed.

"We (farmers) are also consumers. The government should also remember this. We also have to buy petrol, diesel, fertilizer, seeds etc. All these things are becoming expensive. MSP on sugarcane should be increased on the basis of farmers' costs. If the allowance of government employees increases on the basis of inflation, then why is it not done for farmers? We urge the central government to reconsider its decision on the price for sugarcane," Gurjar added.

Gurwant Singh, a sugarcane farmer of Shahjahanpur district, called the

FRP rise "meagre."
"The increase in FRP of sugarcane

India has reported a 44 per cent fall in solar installations at 7.5 gigawatt in 2023 due to land acquisition-related issues, research firm Mercom Capital

said on Thursday.
According to the US-based research firm's latest report, a total of 13.4 gigawatt (GW) solar capacity was installed in the country in 2022. As of December 2023, the

cumulative installed solar capacity stood at 72 GW. Of which utility-scale projects accounted for 85.4 per cent, and rooftop solar accounted for 14.6 per cent, the report said. "In 2023, large-scale solar

installations fell 51 per cent to 5.8 GW from 11.7 GW in 2022. Extensions granted to several large-scale projects and delays primarily due to land (acquisition) and transmission (connectivity) issues impacted capacity additions during the year. Large-scale solar accounted for 77.2 per cent of annual solar capacity additions, and rooftop solar contributed 22.8 per cent," it said.

Rajasthan followed by Karnataka, and Gujarat were the top three states for cumulative large-scale solar capacity, accounting for 54.8 per cent of installations in the country as of December 2023. India's large-scale solar project pipeline stood at 105.3 GW, with another 70.6 GW of projects tendered and pending auction, the report said. Country's installed renewable

energy capacity, including large hydropower projects, stood at 179.5 GW, accounting for 42 per cent of the overall power mix at the end of December Solar energy projects account-

ed for 48.5 per cent of all new power capacity installed last As of December 2023, solar

INDIA EYE 17TH SERIES WIN ON TROTAT HOME PTI RANCHI PER RANCHI PER PTI RANC

Pace spearhead Jasprit Bumrah's absence is a concern but or concern but an assertive and adaptive India will have and adaptive India will have the edge against England's seemingly depth-less 'Bazball' approach when the two sides clash in the potentially series-deciding fourth Test beginning here on Friday. From the dry heat of Rajkot to the much cooler confines of

Ranchi, the temperature shift would be the only soothing factor for the Englishmen who have let it slip against the resilient hosts and are trailing

Eyeing a 17th series win on the trot at home, India have been near invincible since the shock defeat to Alastair Cook's England in 2012. After that, India have won a staggering 38 out of 47 Tests, and have lost just thrice (two each versus Australia and England) when challenges on home turf.

Captaining a depleted batting line-up in the absence of Virat Kohli, KL Rahul and an outof-form Shreyas Iyer, Rohit Sharma has found answers from the young guns, whose

performance has been the biggest takeaway from the

series so far. Whether it is Yashasvi Jaiswal, Whether it is Yashasvi Jaiswal, who has maintained an impressive average of 109 with a total of 545 runs, or Sarfaraz Khan, who ended his prolonged wait for a Test debut with a blazing 66-ball 62 in Rajkot, or Shubman Gill, gradually settling in at No.3, India's next generation of batters are showcasing how a seamless transition happens. As for replacing Bumrah, who has been the top wicket-taker As for replacing Bumrah, who has been the top wicket-taker (17) of the series which was expected to be dominated by spinners, it could well be India's Achilles' heel in Ranchi. Bumrah has been rested after bowling a little more than 80 overs in the more than 80 overs in the three gone-by Tests. His reverse-swing mastery on day two of the Vizag Test during a six-wicket burst, was the biggest contributing factor in the 106-run win that levelled

the series 1-1.
On a docile Rajkot wicket too,
Bumrah made in-roads giving India crucial breakthroughs. Keeping in mind the seaming conditions in Dharamsala for the fifth Test and the hectic

IPL season ahead, Bumrah has been given a break, making Mohammed Siraj the sole experienced pacer in the Ranchi.

innings. It remains to be seen three spinners. But England's assessment of the conditions has been that four spinners and one seamer attack would be ideal. "It's an interesting pitch...There are a few cracks, suggests that the JSCA very platey and looked a bit Stadium pitch will suit a plan featuring two seamers and is good, and the other has a

lot of platey cracks," England vice-captain Ollie Pope had said after the team checked in here on Thursday. That may bring Shoaib Bashir into the picture to go alongside Tom Hartley, Rehan Ahmed and part-timer Joe Root. Root has more overs (107) under his belt than runs (77) in this

series.
India, on the other hand, have preferred the conventional two-pacer-three-spinner combination and it's unlikely that Axar Patel would be recalled. The team is expected to stick to Ravichandran Ashwin, Kuldeep Yadav and Ravindra Jadeja. Historically, the Ranchi pitch has proven deceptive for the visiting teams. In the last Test here in 2019, South Africa were blown away by the duo of Mohammed Shami and Umesh Yadav, who shared 10 Umesh Yadav, who shared 10 wickets between them, as wickets between them, as against the eight by the spin trio of Ashwin, Jadeja and Shahbaz Nadeem. "It has never been a rank-turner. The pitch would be beautiful for batting for first two days and would assist spin from day three. History should repeat itself" the local groundsman itself," the local groundsman

inspired England, the win in Hyderabad has become a distant memory and a repeat of 2021 looks likely when India bounced back to win

the four-Test series 3-1.
The record 434-run hrashing in Rajkot has triggered criticism of England's socalled aggressive 'Bazball' approach. It seems to have found a match in India after tasting success against New Zealand, South Africa and Pakistan and Australia to an extent.

The go-for-strokes style might have helped the likes of Zak Crawley and Ben Duckett, who swung his bat around for a stunning 153 in Rajkot, but it has also doomed the likes of Lee Root and the likes of Joe Root and Jonny Bairstow.

Root was seen as their main Root was seen as their main batter to cope with the spin challenge but the way he reverse scooped to Bumrah at Rajkot summed up the disarray he is in. The desperation to find a way out can be judged from skipper Ben Stokes expediting his rehab from a knee injury by opting to bowl at the nets ahead of the fourth Test.

Holders CSK to take on RCB in IPL opener on March 22
