A man has to have at least four wives, but not a woman to have more than one husband. The concept goes beyond the legal limits and promotes more sons and daughters for political benefits. If any woman wants to divorce her husband, she must have a legal ground for it, which is not always straightforward.

As election pledges of freebies escalate, Modi Government issues a warning to States at the third National Conference of Chief Secretaries

Differentiating welfare schemes from freebies

By SACHIN SETHI

At another level, the Centre’s assurance of a welfare measure is also a socio-economic census, 2011 for building the database of poor people, the PMAY, 2011 for delivering the rural housing programme, even the PMKSF which provides for minimum income support to farmers with a view to help them keep their farms in the long run. The Centre’s goal is to ensure that all farmers have a minimum income support of Rs 600 per person per year. It also envisages a similar treatment for those engaged in fisheries, where the Centre has envisaged a minimum income support of Rs 600 per person per year. This support is intended to ensure that farmers have sustainable livelihoods and can continue to pursue agriculture.

The Centre’s concern over freebies - often referred to as ‘subsides’ - is that they may lead to wastage of public money. If the freebies are not targeted effectively, the Centre is afraid that the entire welfare programme may lose its credibility.

The freebies that the Centre fears must be targeted effectively, and the Centre is not convinced that the freebies offered by the state governments are being targeted effectively. The Centre is afraid that the freebies offered by the state governments may lead to wastage of public money.

Pakistan death toll surpasses 25k

The war began with an Israeli air strike on the southern Gaza Strip on October 7, 2014. Over 250 Palestinians were killed and thousands of civilians were wounded. The conflict has claimed the lives of over 2,000 people, including civilians, and more than 15,000 have been wounded. The conflict has led to the displacement of over 500,000 Palestinians from their homes.

Israel has been accused of committing war crimes during the conflict. The United Nations has declared that Israel is responsible for the human rights violations committed during the conflict. The conflict has caused a humanitarian crisis in the Gaza Strip, with many Palestinians forced to live in tents or makeshift shelters.

Israel has maintained that it is necessary to prevent Hamas from using the territory as a base for launching rockets and other attacks. However, international organizations have condemned Israel's actions, describing them as illegal and in violation of international law.

The conflict has also caused a humanitarian crisis in the Palestinian territories, with many Palestinians living in poverty and lacking access to basic services such as healthcare, education, and electricity.

The conflict continues to this day, with neither side showing any signs of ending the conflict. The international community has called for a ceasefire and a peaceful resolution to the conflict, but so far, these efforts have been unsuccessful.

The AP said that the conflict has raised international concerns about the status of the Donbas region, where pro-Russian separatists have been fighting against the Ukrainian government for more than a year. It noted that the UN Security Council has called for an end to the fighting and for a diplomatic solution to the crisis.

The AP also noted that the situation in the region has worsened in recent weeks, with reports of shelling and rocket attacks in the area.
