VOTER FATIGUE DEEPENS IN PHASE IV

intense voters' awareness programmes for increasing the turnout remained futile as the phase four general elections on Monday saw the average plummeting to over 63 per cent till 8.30 pm on Monday. The voter turnout in the first three phases was 66.14 per cent, 66.71 per cent and 65.68 per cent, respectively.

Interestingly the good news came in from Jammu and Kashmir which saw voting after abrogation of Article 370. Srinagar recorded 36.88 per cent voter average. This figure Congress and BJP workers in West Bengal, while YSRCP and TDP cadres came to blows at multiple locations in Andhra Pradesh as well as reports of poll boycott in some Uttar Pradesh villages. Besides, there were also reports of EVMs malfunctioning at some booths in West Bengal and Odisha. This schedule was a critical round for the Congress

Some areas of Burdwan-Durgapur seat from where former BJP State president Dilip Ghosh is contesting against TMC's Kirti Azad witnessed sporadic violence, sources said. A Trinamool Congress supporter at Monteshwar in Burrdwan-Durgapur seat was hurt after he was allegedly beaten up by the Central forces guarding the booth.

A similar incident took place at Burdwan city when Ghosh rushed to a polling booth hearing that the booth had been blocked by the TMC men. After he was returning from the area, local TMC workers resorted to brickbatting. In the melee the back windshield of one of the vehicles in his convoy got smashed and a CAPF jawan sustained injuries, sources said. He was rushed to the hospital.

Kissa Kursi Ka: Why Maliwal was thrashed SAUMYA SHUKLA NEW DELHI

Days after he stepped out of Tihar jail on interim bail, more trouble mounts for AAP and Delhi Chief Minister Arvind Kejriwal as the party's Rajya Sabha MP Swati Maliwal went to the Civil Lines police station on Monday and alleged that Kejriwal's 'controversial' personal assistant, Bibhav Kumar, 'assaulted' her at the Chief Minister's official residence." Though an official complaint

is yet to be made in this regard, sources said AAP leaders, including Kejriwal, have been annoyed with Maliwal due to her prolonged absence and not making at least a courtesy visit when Kejriwal was in jail facing a probe on the multicrore liquor case. Senior AAP leaders Manish

Sisodia, Satyender Jain are still in jail in the same case being probed by Enforcement Directorate while party's Rajya Sabha member Sanjay Singh is on bail. Sources also said due to

widening rift between Maliwal and the AAP, she is being forced by the party to resign from the Rajya Sabha as the top leadership of AAP are in a mood to give the RS berth to a top lawyer helping Kejriwal and others in the case. Earlier in the day as per DCP of North M K Meena, they

received a PCR call at 9.34 am from a woman who said she had been assaulted at the Delhi Chief Minister's residence. "I am a lady calling from the Chief Minister's official residence. His PA has beaten me up badly on his saying," the PCR call report received by the

MP read. However, she has not in good condition as of now filed any official complaint as and hence, will file the filed any official complaint as

complaint later. The call was "After some time, MP madam from Maliwal's mobile came to the police station. However, she left stating she number, said another officer, stating that she was the one on will give a complaint later," the the other side of the line. A team from the Civil Lines DCP told reporters. According to sources, she said she is not police station reached the

Chief Minister's residence soon after the call. The SHO met Maliwal there and she told him she would soon be going to the police station, the officer said. Maliwal went to the police station at 10 am. "In the police station, she was informed that a medical

examination is necessary to file an assault FIR. She was at the police station for five minutes and left without filing any formal complaint. She said she would be back later," he said. According to an official, she also cried at the police station. The Rajya Sabha MP and

former chairperson of the Delhi Commission for Women (DCW) for nine years has not yet said anything officially and gave no response to messages and calls made to her for her comment.

Revolutionary change in cancer care at AIIMS Bhopal

STAFF REPORTER ■ BHOPAL

IIMS Bhopal in the Abattle against cancer, interventional radiology offers hope and newer avenues for treatment. The cutting-edge technique gaining momentum is liver tumor ablation, a minimally invasive procedure that is transforming the landscape of cancer care. With its ability to effectively target and eliminate tumors while sparing healthy tissues, tumor ablation stands as a major hope for patients and families facing this for-

midable disease. A 52-year-old female was diagnosed with Breast cancer, which had spread to the liver (called metastases). Rather than subjecting to liver resection, which is a major open surgical procedure, the patient underwent microwave tumor ablation. In this minimally invasive Interventional

Radiology procedure, a small needle (Electrode/ Antenna) was inserted directly into the liver tumour under image guidance. Activation of microwave energy destroyed the liver cancerous lesion and the entire treatment was completed in less than 30 minutes. The procedure was done by Dr. Aman Kumar, Associate Professor and Interventional Radiologist, under the guidance of Dr. Rajesh Malik,

Professor, and Head of the Department of Radiology, AIIMS Bhopal. Unlike traditional surgery, which requires large incisions and lengthy recovery times, the tumour ablation procedure is minimally invasive, involving small punctures in the skin, through which specialized instruments are guided to the tumor site using imaging guidance by ultra-

sound or CT scans. This has

less trauma to the body,

reduced risk of complications, and faster recovery for

Despite its remarkable benefits, awareness of tumor ablation remains relatively low. Raising awareness is therefore equally important to sensitize and to ensure that patients have access to the newly available better treatment options in cancer management. The Interventional Radiology

Treatment Center at AIIMS Bhopal is providing specialized minimally invasive treatments for various complex vascular and nonvascular diseases and for advanced Interventional Oncology treatment.

Executive Director and CEO AIIMS Bhopal Prof. (Dr.) Ajai Singh congratulated the treating team of interventional radiology and reemphasized the need for widespread awareness regarding the modern treatment facilities available at AIIMS Bhopal.

hief Electoral Officer Anupam Rajan has expressed his gratitude to all voters, political parties, officials, employees, security teams and media representatives of the state for peaceful completion of the voting process in all the 29 parliamentary constituencies of

Madhya Pradesh. He has said that everyone played an important role in conducting peaceful voting in the state. Rajan appreciated the role of social and business organizations who cooperated in providing necessary facilities to the voters in all the polling stations. He also expressed his gratitude to other people who directly

and indirectly helped in successfully conducting the voting process. It may be noted that peaceful voting was held in the state in four phases on April 19, April 26, May 7 and May 13. Rajan expressed hope that with everyone's cooperation, the process of counting of votes to be held on June 4 will also be completed peacefully.

Plea in SC seeks review of EVM VVPAT verdict

plea has been filed in the A plea has been filed in the Supreme Court seeking review of its April 26 judgement by which it had rejected the demand for reverting to the old paper ballot system and the complete cross-verification of votes cast using EVMs with a Voter Verifiable Paper Audit Trail (VVPAT). The review petition was filed by Arun Kumar Agrawal, who had filed the PIL on the issue earlier, through lawyer Neha Rathi.

The review plea filed on May 10 said, "There are mistakes and errors apparent on the face of the impugned order..., and as such there are sufficient reasons which require review of the impugned order/judgment...

"The petitioner respectfully seeks review on the following issues as have been dealt with in judgment dated April 26, 2024: i) Feasibility of count-

in terms of time to be taken and additional manpower, ii) Vulnerability of SLU (symbol loading units) and iii) Percentage of VVPAT slips counted for tallying with EVM votes after C h a n d r a b a b u Naidu...Judgment."
The plea dealt with the feasibility of counting of all VVPAT paper slips in terms of time to be taken and addi-

of time to be taken and additional manpower and referred to the relevant portion of the judgement.

"During the course of hearing, it was suggested that instead of physically counting the VVPAT slips, they can be counted by a counting machine. This suggestion, including the suggestion that bar-coding of the symbols loaded in the VVPATs may be helpful in machine counting, may be examined by the ECI, the top court had said in the

Seeking physical counting, the plea said the counting of all VVPAT slips can be done "accurately with a fraction of the employees and at a fraction of cost and within five to eight hours".

It said the VVPAT paper is of the same size as the thermal print out received when a credit or debit card is swiped

on making a payment.
"The counting of the slips after they have been sorted candidate-wise, is in fact easier than counting normal paper because the VVPAT paper slip is sightly curled on account of being thermally printed from a roll. The curling makes the picking up of the paper slip from the surface of a table easy.

Each slip can be counted while being picked to make bundles of 25 slips as mandated under instructions given in the ECI's Manual on EVM and VVPAT, 2023," the

voters to verify that their

Furthermore, given their

very nature, EVMs are especially vulnerable to malicious changes by insiders such as designers, programmers, in light of the above there are apparent errors on the face of the impugned order dated April 26, 2024 and the impugned judgment, is liable to be reviewed," it said.

On April 26, a bench of Justices Sanjiv Khanna and Dipankar Datta had termed the suspicion of manipulation of the EVMs "unfounded" and trashed the demand for reverting to the old paper ballot system.

The bench had said that the polling devices were "secure" and eliminated booth capturing and bogus voting. However, the judgement had

opened a window for aggrieved unsuccessful candidates securing second and third places in poll results and allowed them to seek verification of micro-controller chips embedded in five per cent EVMs per assembly constituency on a written request upon payment of a fee to the

It had directed that from May 1, the symbol loading units should be sealed and secured in a container and stored in a strongroom along with the EVMs for a minimum period of 45 days post-declaration of results.

By the judgement, the top court had dismissed the PILs which had also sought a direction to return to the ballot paper system.

"A voting mechanism must uphold and adhere to the principles of security, accountability, and accuracy. An over complex voting system may engender doubt and uncertainty, thereby easing the chances of manipulation. In our considered opinion, the EVMs are simple, secure and user-friendly. The voters, candidates and their representatives, and the officials of the ECI are aware of the nitty-gritty of the EVM system. They also check and

integrity," the bench had said. It had said the possibility of hacking or tampering with the agnostic firmware in the burnt memory of EVMs to tutor or favour results is "unfounded".

SC notice to Himachal HC on plea of two district judges who question HC Collegium decision

The Supreme Court on Monday sought a response from the Registrar General of the Himachal Pradesh High Court on a plea of two senior most district and sessions judges alleging that their merit and seniority were not considered by the High Court collegium in selection of names for HC judgeship.

A bench comprising justices Hrishikesh Roy and Prashant Kumar Mishra took note of the submissions of senior advocate Arvind Datar, appearing for the two district and sessions judges, that the judicial officers, who are junior to them, had been recommended for the high court judgeship under the inservice quota.

The petition was filed by Chirag Bhanu Singh and Arvind Malhotra, who are presently serving as the district and sessions judges at Bilaspur and Solan, respectively in the state, alleging non-consideration of their names by the high court collegium for the judge-

The senior lawyer referred to a collegium resolution of January 4, 2024 of the apex court and the subsequent communication of the Union Ministry of Law and Justice to the Himachal Pradesh High Court and said that as per these, the names of the petitioner judicial officers should have been considered by the high court collegium.

"The petitioners are the senior most judicial officers in the state and they have unblem-ished records," Datar said.

The plea questioned the selection process of the judicial officers by the high court collegiums for elevation to as HC judges and said their merit and seniority were ignored despite the issue being specifically referred to in the apex court collegium's resolution.

The plea said the apex court collegium's decision to send their names for reconsideration by the HC collegiums was followed by a communication from Union law minister to the Chief Justice of the high court urging him to reconsider the names of the petitioner judicial

In a video message, which was shared by the Congress on social media, she said women of the country are facing tough times in the wake of a "severe crisis" and the party's 'Mahalakshmi scheme' for them will help change their

"My dear sisters, women have made a huge contribution, from the freedom struggle to the creation of modern India. However, today our women are facing a crisis amid severe inflation. To do justice to their hard work and penance, the Congress has come up with a revolutionary guarantee," Sonia Gandhi said.

"The Congress' 'Mahalakshmi' scheme guarantees that we will give Rs 1 lakh every year to a

woman from a poor family," she said in her message, an appeal to people voting in the ongoing fourth round of the seven-phase general elections to support the Congress.

Sonia Gandhi said the Congress' "guarantees" have already changed the lives of crores of families in Karnataka and Telangana, where it has also implemented the scheme. The Congress is in power in these two southern states. "Be it MGNREGA, Right to

Information, Right to Education or through schemes like Food Security, the Congress party has empowered millions of Indians. The 'Mahalakshmi' is the latest guarantee to take our work forward," Sonia Gandhi said.

"In this difficult time, I want to assure you that the hand of Congress is with you and this hand will change your circumstances. Thank you. Jai Hind," the former Congress president said, referring to her party's symbol party's symbol.

Her appeal was shared by Congress chief Mallikarjun Kharge, former party president Rahul Gandhi and party general secretary Priyanka Gandhi Vadra on their X handles.

Rahul Gandhi, while sharing his mother's message, said "Women from poor families remember — your one vote is equal to Rs 1 lakh annually in your account." "The Congress' 'Mahalaxmi' scheme is going to be a lifesaver for women struggling amid terrible inflation and unemployment. With Rs 8,500 being déposited directly into bank accounts every month, women of India will become free from financial dependence and will be able to write their own family's destiny," he said. "So vote and change your circumstances," Rahul Gandhi said while sharing Sonia Gandhi's message.

Indian masterpieces find place in UNESCO register

ARCHANA JYOTI ■ NEW DELHI

L'Ramcharitmanas 'Panchatantra', 'Sahdayaloka-Locana' have earned a prestigious place in UNESCO's Memory of the World Asia-Pacific Regional Register, a significant acknowledgment of their cultural and historical importance.

Authored by Kashmiri poet Acharya Anandvardhan, Pandit Vishnu Sharma, and Hindu saint and poet Goswami Tulsidas respectively, these trio iconic Indian literary works have left an enduring impact on readers and artists in India as well as worldwide.

In what is a proud moment for India, their inclusion in prestigious UNESCI register also adds a feather in the cap of the Indira Gandhi National Centre for the Arts (IGNCA) which had played a crucial role in securing their inclusion at the 10th meeting of the Memory of the World Committee for Asia and the Pacific (MOWCAP) in Ulaanbatar.

Significantly, this is the IGNCA's first achievement at

the Regional Register since its inception in 2008.

Their inclusion in the register highlights their transcendent influence, which extends beyond borders and generations, shaping the moral fabric and artistic expressions of diverse cultures.

"This achievement highlights the timeless value and influence of these literary works, which have deeply impacted Indian

literature and culture. Professor Ramesh Chandra Gaur, Dean (Administration) and Head of the Department, Kala Nidhi Division at IGNCA told The Pioneer. He had presented these three entries from

After undergoing rigorous deliberations and receiving recommendations from the Register Subcommittee, all three nominations secured inclusion, highlighting their significance in India's literary

legacy. Gaur added that their inclusion in UNESCO's register reaffirms India's rich literary heritage and underscores the importance of preserving and promoting such cultural treasures for future generations.

Authored by Goswami Tulsidas, 'Ramcharitmanas' is an epic poem that narrates the life of Lord Rama, a revered figure in Hindu mythology. It is written in the Awadhi dialect of Hindi, and is one of the most renowned works of devotional literature in India.

'Ramcharitmanas' is not only a religious text but also a cultural symbol, influencing art, music, and literature across India.

Measles jab single dose 2.6 times more likely to be ineffective in kids born via C section: Study

PIONEER NEWS SERVICE **NEW DELHI**

A single dose of the measles vaccine is up to 2.6 times more likely to be completely ineffective in children born by C-section, compared to those born naturally, a study has said, emphasising the importance of tailoring vaccination strategies to address the differences in vaccine effectiveness based on birth method.

Measles is a highly infectious disease preventable by vaccines. However, failure of the jab can significantly increase the risk of an outbreak.

The study led by a team of researchers from the universities of Cambridge, UK, and Fudan in China, showed that a second measles jab is vital and induces a robust immunity against measles in children born via C-section.

The study, published in the journal Nature Microbiology, found that the vaccine's effect is linked to the development of the child's gut microbiome —

the vast collection of microbes that naturally live inside the gut. Vaginal birth is known to transfer a greater variety of microbes from mother to baby, which can boost the immune system."We've discovered that the way we're born — either by C-section or natural birth has long-term consequences on our immunity to diseases as we grow up," said Professor Henrik Salje in the University of Cambridge's Department of Genetics. "Infants born by C-section are

the ones we really want to be following up to make sure they get their second measles jab because their first jab is much more likely to fail," he added

At least 95 per cent of the population needs to be fully vaccinated to keep measles under control.

For the study, the team used data from previous studies of over 1,500 children in Hunan, China, which included blood samples taken every few weeks from birth to the age of 12.

Over 9,600 children wrongly incarcerated in adult Indian prisons between 2016-2021: Study

PIONEER NEWS SERVICE

NEW DELHI

More than 9,600 children were wrongly incarcerated in adult prisons across India between January 1, 2016, and December 31, 2021, a new study has found. The data for the study -"Incarceration of Children in Prisons in India" -- was obtained under the Right to Information (RTI) Act.

The study by legal rights body iProbono sheds light on a deeply concerning issue affecting the juvenile justice system in India. The data indicates that at least 9,681 children were wrongly incarcerated in adult prisons between January 1, 2016, and December 31, 2021.

over 1,600 children were transferred out of prisons across the country every year," the study said, referring to the children identified by Juvenile Justice Boards (JJB) and moved to juvenile homes from adult jails.

This figure was ascertained on the basis of responses to RTI requests by 285 district and central prisons out of a total of 570. "This also does not include the 749 other prisons from which we did not request data, including sub jails, women's prisons, open prisons, special prisons, borstal schools and other prisons. It also, as previously mentioned, only includes those who were successfully identified and transferred,

"This means an average of not all those who were juveniles at the time of their alleged offence, including those identified by prison visitors, families or through self-identification," it said. Several states failed to ade-

In Bihar, where 34 per cent of prisons responded, 1,518 chil-

dren were transferred out of adult jails. Instances were noted of more children being identified by JJBs than those transferred. Madhya Pradesh provided no data despite repeated appeals under the RTI Act. West Bengal also provided no data.

Responses from 35 per cent of prisons in Maharashtra revealed that only 34 children were transferred, significantly lower than those identified by JJBs. The study found that Delhi demonstrated a highly organised approach to juvenile justice, with clear directives from Delhi High Court aimed at preventing the incarceration of children in adult facilities.

Haryana -- where data was provided by 90 per cent of prisons -- transferred 1,621 children, correlating well with the number identified during JJB visits. In Rajasthan, 108 children were transferred,

according to data from 51 per cent of its prisons, with a notable lack of information on children identified during JJB visits.

Chhattisgarh transferred 159 children, data from 44 per cent of its jails showed, revealing disparities in JJB visitation patterns across prisons. Tharkhand transferred 1,115 children, also highlighting discrepancies in JJB visitations and identification practices, with 60 per cent of its prisons responding to RTI queries for the study

Addressing three back-toback rallies in Bihar's Hajipur, Muzaffarpur and Saran Lok Sabha constituencies, Modi made an apparent reference to a recent statement of National Conference leader Faroog Abdullah, without

mentioning him by name. "The INDIA bloc seems to have leaders who are scared of Pakistan and have nightmares of its nuclear power," he said. The remarks come in the backdrop of comments by Abdullah about Pakistan having atom bombs and not

The PM also alleged that the opposition had plans to impose "inheritance tax" but "Modi would stand like a wall in their way, thwarting attempts to rob people of their wealth".

He accused the opposition parties of "deliberately hurting people's sentiments making obnoxious statements about the Ram temple in Ayodhya".

Speaking on a day when the fourth phase of Lok Sabha elections were underway, he urged the people to turn out in large numbers and vote for the NDA to enable formation

Rahul did not visit Ram temple for fear of losing vote bank, says Shah

Union Home Minister Amit Shah on Monday said Congress leader Rahúl Gandhi did not visit the Ram temple in Ayodhya as he feared losing his vote bank.

Addressing a rally in Maharashtra's Dhule district, Shah also said Gandhi opposed the abrogation of Article 370, which provided special status to Jammu and Kashmir, and sought to know the views of Shiv Sena (UBT) head Uddhav Thackeray on the Congress leader's stand.

The Congress, Shiv Sena (UBT) and the Sharad Pawarled NCP (SP) are constituents of the opposition Maha Vikas Aghadi (MVA) in the state and the INDIA alliance at the national level.

The consecration of Lord Ram's idol was held at the Ayodhya temple in January this year.

India seeks to neutralise China's economic hold but it beats US to become India's biggest trading partner

■ n the realm of global economics, the dynamics of trade relationships often override geopolitics. India's growing trade affinity with China is a living example of that: China has become India's largest trading partner in 2023-24. This development brings little joy to the nation aspiring to become an alternative to China and striving to bolster its manufacturing sector, with the Prime Minister's 'Make in India' call. Despite the Indian Government's rhetoric urging caution in dealings with China, economic imperatives seem to be reshaping the contours of bilateral trade. Their trade relationship has long been characterised by a mix of competition and cooperation. Both nations are regional powerhouses with vast consumer markets and burgeoning manufacturing sectors, though China is much ahead of India in terms of economy and infrastructure size. Over the years, China has emerged as a crucial supplier of goods to the world, including India, ranging from electronics and machinery to pharmaceuticals and textiles. Concurrently, India

has also found a receptive market for its exports in China, particularly in sectors like raw materials, agricultural products and IT services. But the real problem is the lopsidedness of the trade. We are a net importer of Chinese goods, that too at the cost of our local industry.

Most traders take the easy import route, often substandard but cheap, and make decent profits. This leads to job losses and closure of several MSME manufacturing units. Besides, the nations are not the best of neighbours; relying on China in this scenario is indeed fraught with danger. But where wealth flows, interests follow and that explains India's rising trade ties with

China. The trajectory of bilateral trade has been influenced by several factors. One, the sheer size and harmony of their economies create natural synergies to drive trade volumes. Despite occasional border disputes and geopolitical issues, economic pragmatism often prevails, fostering trade ties. Two, China's manufacturing prowess and cost competitiveness have made it an attractive destination for Indian importers, especially in sectors where domestic production struggles to meet demand. Moreover, the persistent trade deficit with China underscores India's reliance on their goods and highlights the challenges in achieving more equitable trade ties. The geopolitical dimension of India-China trade cannot be overlooked either. The Indian Government must emphasise the need for strategic autonomy and self-reliance in key sectors. Initiatives such as 'Make in India' and Production-Linked Incentive (PLI) must be given further fillip. Additionally, efforts to diversify trade partnerships by nurturing ties with countries like the US, Japan and Australia must be accorded priority and a diversified trade portfolio maintained. Achieving a fundamental rebalancing of India-China trade dynamics is a multifaceted challenge that requires nuanced handling and necessitates a calibrated and pragmatic policy approach.

Regime change on cards in Nepal? ASHOK K MEHTA

Amid strained India-Nepal relations, speculation swirls around a potential regime change in Nepal

epal's late Foreign Minister Rishikesh Shah would say that Kathmandu is the rumour capital of the world and also the fount of speculation. Our own Madhuri Dikshit once hailed Nepal as a beautiful country adding: "We're lucky it is part of India". This created a furore but the story appeared with tasteful embellishments in Nepal. Delhi's Chief Minister Madan Lal Khurana waxed eloquent about the sterling qualities of Nepalis working in India and what great servants they made. This led to fireworks in Nepal and bush telegraphy produced several ugly distortions Hrithik Roshan never said he did not like Nepalese but Indian films were banned and other collateral damage followed. India is usually at the receiving end of Nepal's woes and wrath.

China has begun to feature negatively only recently. India-bashing was at its peak following the economic blockade in 2015 and the rekindling of border dispute when Kalapani, LipuLekh and Limpiyadhura were incorporated into Nepal's map after India included Kalapani in a new map. Chinese Ambassador Hou Yanxi who made her mark rough-shodding Nepalese politicians was targeted by the Indian media. Yanxi became central to a duel between Indian and Nepalese media. How poorly informed political class. celebrities and even the media about Nepal were apparent. This longish backgrounder is a necessary prelude to describe last week's rumour and speculation about another attempt at regime change in Nepal. The report about the split in JSP (N) took place when its supremo, Deputy Prime Minister and Minister for Health and Population Upendra Yadav was visiting the US. The story goes that NC leader Sher Bahadur Deuba attempted to topple the Left coalition led by Prachanda by drawing out Yadav (12 lawmakers) and Madhav Nepal of Unified Socialists (10 lawmakers). 20 plus awmakers are necessary for the NC-led Democratic Alliance to make a comeback. The attempt failed as UML's KP Oli preempted the plan by splitting JSP(N) by

away from Yadav with seven of 12 lawmakers. The inside story is different: Yadav had plans to overwhelm numerically the Hill Nepalese with Madhesis in the approaching party national convention. This upset the Hill and Madhesis members unhappy with Yadav. Rai approached the Election Commission and registered a new party JSP sans N for Nepal. Yadav has decided to fight the Rai faction in court. Rai has pledged support for Prachanda. Reports about Deuba's deal vary: offering Yadav Premiership and/or a shared term with Madhav Nepal. This deal too fizzled out as Unified Socialists were already divided between two former PMs, Nepal and Jhalanath Khanal. India figured in the regime change as

Deuba. Operation Topple requires either RSP (21 lawmakers) or JSP(N) and Unified Socialists together to desert the ruling dispensation. The kingmaker for this great game is the CPN Maoists with 31 lawmakers that both NC and UML would need to stay in power. The threat to the Prachandaled coalition will lurk in the nooks and corners of Parliament posed by parties with double-digit strength. NC, the single-largest party is

It has been blocking parliamentary proceedings for more than a month over the cooperative fund fraud in which Home Minister Rabi Lamichhane, RSP is involved. It has demanded a parliamentary probe into the alleged wrongdoings of Lamichhane. Prachanda has agreed to an enquiry in which others involved in the scam are also investigated. The BJP excels in toppling opposition governments with Operation Lotus. India has played a pivotal role in introducing democracy and its restoration in Nepal. Foreign Minister Jaishankar who has become a rock star in the election campaign is sharing pearls of wisdom on every conceivable subject, especially India's Neighbourhood First Policy. He said that politics may go up or down in the neighbourhood but India is regarded as a friend by the people. Later, he admitted that in diplomacy as

As far as is known, no discussion has taken place. For Prachanda and Oli, nationalism is the magic mantra. When Prachanda came to India on an official visit last June during the joint press statement, PM Modi said that the border dispute would be resolved through a joint mechanism. Strangely this fact was not mentioned in the press release of the joint statement. Mind games are regularly played in both countries as unilateralism has crept into neighbourhood diplomacy. SC judgments have strengthened democracy

Democratic spectacle owes its strength and boldness to a series of landmark legal judgments that have fortified its foundations

lections, serving as the cornerstone of democracy, offer a platform for citizens to voice their opinions, hold leaders accountable, and actively engage in shaping the future of their nation. In India, elections transcend mere political proceedings; they evolve into grand festivals, embodying the collective will and aspirations of over a billion people. India's electoral odyssey, marked by its vast scale, diversity, and intricacy, has been fortified by a series of seminal legal rulings. These decisions have been instrumental in shaping and reinforcing the democratic framework of India, ensuring fairness, transparency, and inclusivity in the electoral process. Among the plethora of cases that demonstrate the resilience of the legal system, five stand out as pillars that have fortified India's electoral

journey. **Fundamental Right to Vote:** At the core of India's electoral democracy lies the fundamental right to vote, enshrined in the Constitution. Over time, the judiciary has steadfastly upheld and safeguarded this right through

various legal pronouncements. In the landmark 1977 case of Mohinder Singh Gill v. The Chief Election Commissioner, the Supreme Court of India unequivocally affirmed that the right to vote is sacrosanct and any arbitrary deprivation of this right is unconstitutional.

The crux of this case revolved around assessing the constitutional validity of electoral laws that might encroach upon the fundamental right

Electoral Reforms and Transparency: Ensuring transparency and accountability in the electoral process has been an ongoing endeavour, guided by judicial interventions aimed at curbing

malpractices and fostering electoral integrity. The 2002 case of Association for Democratic Reforms v. Union of India marked a significant milestone in this journey. This case presented the chal-resentation, empowering

lenge of reconciling the right to privacy of political candidates with the public's right to information, necessitating a delicate balance between transparency in electoral processes and individual pri-

Inclusive Representation and Minority Rights: The diverse social fabric of India underscores the necessity for inclusive representation and safeguarding minority rights in the electoral arena. Legal judgments have played a pivotal role in upholding these principles and ensuring equitable participation for all segments of society. The 1991 case of Indra Sawhney v. Union of India, commonly known as the Mandal Commission case, stands as a testament to this commit-

This case grappled with the challenge of affirmative action and reservation policies, striking a balance between equitable representation of marginalised communities and the principles of meritocracy enshrined in the Indian Constitution. The landmark judgment underscored the commitment to inclusive repmarginalised communities and fostering social justice in the electoral process.

Effective Electoral Disputes Resolution: Efficient resolution of electoral disputes is indispensable for upholding the sanctity of elections and fostering public trust in the democratic process. This judgment bolstered the credibility of the electoral process, ensuring expeditious and impartial resolution of dis-

putes. Safeguarding Electoral Rights and Freedoms: Preserving electoral rights and freedoms is paramount for the integrity of the electoral process. Legal judgments have been instrumental in protecting these rights and holding authorities accountable for any infringements. The 2015 case of Mohd. Sattar v. State of Rajasthan serves as a poignant example. The judgment reaffirmed the principle of universal suffrage, ensuring that every citizen's voice

ELECTION GUARANTEES Madam — This election season in India

is filled with a plethora of extended guarantees from different political parties and their renowned leaders. Initially, it was only PM Narendra Modi who extended oral guarantees termed as 'Modi ki Guarantee'. Now, to compete with him, recently released Delhi CM Arvind Kejriwal has also presented his list of 10 guarantees to script a 'new India'. However, Mr. Arvind made it clear that he didn't want to be the Prime Minister of India. Nevertheless, his support for the INDIA bloc has grown stronger, especially after he was sentenced to Tihar Jail by the apex court.

Elections have a historic relationship with political guarantees and promises. But we all already know how many of these guarantees are actually fulfilled. The irony is that people don't need guarantees to survive and ensure their well-being; instead, we need commitment and actions for the actual general welfare of every section of our society. Since Mr. Kejriwal is on interim bail until June 1st, considering the short duration of time he is outside the jail, he is trying his best to reach out to the maximum public with his statements, social media posts, press conference conversations, and other personal interactions with the countrymen to challenge the BJP in general and PM Modi in particular for his arrest during this peculiar time of elections. Now that it is a fight between the guarantees of the two biggest political parties, it is up to the people to decide whom they will choose in the tough fight of the Lok Sabha elec-

KEJRIWAL'S ELECTIONEERING Madam — This is wtih reference to your Editorial "Wild card" (May 13). The national convenor of the Aam Aadmi Party (AAP) Arvind Kejriwal will campaign in favour of the Indian National Developmental Inclusive Alliance (INDIA) candidates across the country, Sandeep Pathak, the party's national general secretary said in a statement on Sunday, 12 May. Kejriwal will campaign in Lucknow on May 15, in Jamshedpur on May 16 and in Mumbai on May 17, he added. Kejriwal, who came out of Tihar Jail earlier this week, said he will work tirelessly and campaign across the country to end the "dictatorship" of the Modi government at the Centre. All the INDIA bloc constituents want Kejriwal to visit their states and campaign for them.

The Supreme Court has granted interim bail to the AAP leader to participate in the Lok Sabha poll campaigning.

FIRST COLUMN THE RISE OF **ROBOTS**

Robots are emerging as the next frontier, but can they replace humans?

arious research and studies have shown that the next frontier in Artificial intelligence is the Robots. Much more added to it are the big names- Jeff Bezos, Microsoft and many others who are investing in human robots according to people with knowledge of the situation, as part of a scramble to find new applications for the so-called Al Technology. Undoubtedly, robots have increasingly become an integral part of our lives in this century, impacting various aspects of society, industry and everyday activities. The robots have revolutionized in many key sectors be it industrial, healthcare, agricultural, transportation or any other. The science of robots is revolutionizing day by day and scientists are making innovations in robots. Research studies show that by 2050, robots will overcome human beings as they will develop strong intel-

Many developing nations are involving the use of robots. In the industrial sector robots are performing the tasks such as assembling, welding, painting and packaging in factories thereby increasing efficiency, precision and productivity. In the healthcare sector, robots can perform tasks such as surgery, patient care, rehabilitation and medication dispensing with great precision and even provide support and assistance to elderly or disabled individuals. Talking about the automobile industry, autonomous vehicles- including cars, drones and delivery robots, are transforming transportation and logistics while self-driven car makers are promising to make transportation safer, more efficient and accessible to people who are unable to drive. In the agricultural sector, agricultural robots such as drones

and automated harvesters can help optimise farming practices by monitoring crops, applying fertilizers and pesticides precisely and thereby harvesting crops efficiently which ultimately improves yields, reduces labour costs and minimizes environmental impact. Not only these but the robots are doing jobs and servings in restaurants too. The robots have taken down the responsibility of the pizza boy in pizza shops and even are performing tasks such as customer service, cleaning, and inventory management. They enhance operational efficiency and provide novel experiences for customers.

Robots are indeed reshaping various aspects of everyone's lives from how individuals work to how they interact with technology and each other. Today, educational robots are gaining an advantage in classrooms over teachers, engineering, and other STEM concepts in a hands-on manner.

Overall, robots are transforming the way we live, work and interact with the world around us. With advancements in robotics technology continuing to expand their capabilities and applications, the question of whether robots will replace humans in various tasks and roles is a complex one. While robots and automation have the potential to replace humans in some repetitive and routine tasks. they also create new opportunities and roles for humans in other areas. However, many tasks and roles require human creativity, empathy, and problem-solving skills, which are difficult for robots

There is no denying the fact that the evolution of robots will profoundly impact society, offering new opportunities for innovation, collaboration, and improving quality of life. However, it will also raise the important ethical, social and economic considerations that must be carefully addressed with time. As robotics technology continues to advance, it will further transform society and open new possibilities for innovation and human-machine collaboration.

The plight of unwed mothers of Kolam tribe-

The stigmatisation of 'Kumari Matas' in the Kolam tribe highlights their struggle for social acceptance and economic empowerment

olam, a Particularly Vulnerable Tribal Group (PVTG) of the Dravidian race is known for its unique culture, language, indigenous knowledge and matrilineal society. They reside predominantly in theYavatmal, Chandrapur, some parts of Amravati, Wardha and Nanded districts of Maharashtra and in some parts of Adilabad of Telangana. They have historical roots in Andhra Pradesh and later migrated to the regions of Vidarbha and Marathwada. This Proto- Australoid tribe is often highlighted for its unwed mothers. As per the reports of The Indian Express, there are at least 45 registered unwed mothers and over 450 unregistered unwed mothers only in the three blocks named Maregaon, Pandarkawada and JhariJamini of Yavatmal. Being a matriarchal society, the Kolams of Yavatmalhave always celebrated womanhood. They celebrate the first mensuration of girls; they worship "Gabhuri", the mother Goddess as their main deity to uphold their matriarchal ocietai roots.

However, the situation is changing. Though the unwed mothers have been renamed as the "KumariMaata" due to their assimilation with mainstream society yet due to their rising inclination towards the male-dominated society, patriarchal tenets are growing in these traditions. Therefore, the position of women is also declining consequently and those unwed mothers who used to live a normal life previously are now considered "Bad character women". There are various case studies and stories of women of the Kolam tribe where the elite in the society or financially stronger like contractors, outsiders visit the areas for work purposes, establish physical interactions with the women in their communities and refuse to marry them when they are expecting a child. Women are frequently conned by marriage promises because they are socially, emotionally and economically vulnerable. The woman is held liable for the premarital pregnancy, whereas the responsible males are exclud-

VULNERABLE TRIBAL GROUP (PVTG), IS **GRAPPLING WITH** A SIGNIFICANT **MOTHERS EMPHASISING THE URGENCY FOR** INTERVENTIONS TO TACKLE THEIR

COMPLEX SOCIO-**ECONOMIC AND** CULTURAL STRUGGLES

Most of these Kolam women work as agricultural labourers, construction labourers and other low-wage activities due to which it becomes very easy for the traders and other outsiders to abuse them physically. For example, according to Deshpande (2016) "border districts of Maharashtra, such as Chandrapur, Gadchiroli, Bhandara, Buldhana, Amravati, Nagpur and Gondia too

ed from this process.

have unwed mothers, the numbers in Yavatmal are higher because of its proximity to the chilli fields of Telangana, where work (for the poor) is available throughout the year. A number of unwed mothers say they were lured by neighbouring state's men who promise marriage but left when they became pregnant."

Some of them get pregnant while being a minor whereas others are due to their backwardness. Though in most tribal societies, giving birth to a child is a biological phenomenon and hence considered pious but yet due to the assimilation with the conventional societies they are also recognizing childbirth as a structural process where the consent of society, kin and kith is necessary. These structural changes are pushing unwed mothers toward various other socio-cultural and economic problems.

The most important among these is that unwed mothers are not accepted within the community nor do they find any other groom, as they are considered obscene. As a result, for the entire period of life, they serve as a single mother due to which the pressure of childbearing increases among them. The problems are more serious as being unwed mothers they often face disgrace in the newly constructed norms of patriarchal society. Sometimes they need to leave the village and stay in the outskirts whereas in many cases the other women are not allowed to talk to them or join them for any occasion, as they are believed to be malignant due to their premarital physical relations. The consequences are economic and occupational also. As a daily wage labourer, their leisure time is very little but being single mothers they need breaks for breastfeeding and childcare due to which they face pay cuts. Sometimes they need to pay a fine to the panchayats also for their "misconduct".

These unknown pregnancies among the women of Kolam are a crucial issue. These indicate the lack of aware-

ness about contraceptive measures, education, economic weakness and social vulnerability that often attract these women to fake marriage conversations and other luring proposals. As per the report of Sant Gadge Baba Amravati University Yavatmal, "28.84 per cent Kumari Matas are in the age range of 26 years.36 centKumariMatas having education up to Fourth standard, 67.30 per cent Kumari Matas are belonging to 'Kolam' caste, 82.69 per cent are homeless. 51.09 per cent are pregnant due to outsiders, 82.07 per cent children of Kumari Matas are admitted in the school by furnishing the name of mother only, 92.30 per cent had delivery at home,61.63 per cent getting help

from Government schemes". The subject is more critical as many of them are uncounted because most of them do not come forward to speak due to socio-cultural stigma and thus their stories remain untold. This has again a negative impact on them as their complete family details are not mentioned in the Government

cards, etc. which deprives them of getting the benefits of many Government schemes that can make their life easier. As per the report of Pune Times

Mirror, "a survey of such victims is conducted every year by a woman and child development (WCD) officer with the help of Anganwadi workers and a junior protection officer at the taluka level." Further, the Anganwadi workers help these unwed mothers by teaching them the methods of nutrition and hygiene. The Bombay High Court has already directed the state to the need for the rehabilitation of young unwed mothers among the Kolam tribe. The Government of Kerala is also running a similar kind of scheme called "Snehasparsham" which offers unwed mothers ?1000/per month to lessen the financial burden of these economically vulnerable unwed mothers. The need of the hour is to initiate some proects and schemes for them so the Kumari Matas of Yavatmala can be included in the parameters of Government benefits at a large

The infrastructural facilities like schools and primary health care centres, are the basic needs of these regions. Endeavours should also be taken to open basic schools and training centres for vocational courses like sewing, beautician, etc. The awareness about Self-Self-help groups can make them financially independent through various micro-level businesses like horticulture, bee-keeping, jelly-making etc. Further, documentation of unwed mothers can give them a social identity and make them live a life of dignity and self-respect. Kejriwal's bail: Unveiling political prophecies post-release

The Delhi CM's release sparks controversy with ominous predictions and bold political statements, fuelling nationwide debate on democracy's future

Persons accused of criminal cases getting arrested and the courts granting them bail is nothing new. Even if the person happens to be the reigning chief minister of a State or a former union minister of finance, the bail does not absolve the accused of the charges. The Supreme Court order that released the Delhi Chief Minister on bail from the custody of the Enforcement Directorate says it is a provisional arrangement so that he could participate in the election campaign as the

five years So far, so good. But what came after the Delhi Chief Minister was released on bail needs to be analyzed threadbare. On Saturday, he worshipped at Lord Anjaneya

Temple and addressed a press meeting. What he said during the press meeting is shocking and capable of causing fear in the minds of the people. He said if the BJP wins the 2024 Lok Sabha election and comes back to power, Prime Minister Narendra Modi will send all Opposition leaders to jail. Kejriwal also claimed that Amit Shah is being groomed as the next Prime Minister as Modi is likely to retire in 2025 representatives. It is good to see blies that completed their

when he turns 75. Yet another disclosure made by the Delhi Chief Minister was that Yogi Adityanath would be removed as chief minister of Uttar Pradesh within two months of the BJP coming back to power.

The national and international media are celebrating Kejriwal's bail and his prophecies. A major section of the media forgot the fact that they were the ones to give running commentaries of Live events without joining the game as players. The media in Kerala and Tamil Nadu are on Cloud Nine reporting that there is going to be a change of Government at the Centre after 4 June 2024. Well, let's leave it to the voters who are in the process of electing their

that doubts about tampering the electronic voting machines have taken a stage and the Opposition leaders have started working on the modalities of Government formation. Saturday's press meeting by the Delhi Chief Minister took one to 2019 when the same had

claimed that if the BJP wins the General Election and returns to power, there would not be any more elections in India. "The 2019 General Election would be the last poll the country will see if Narendra Modi returns to power," these were the words of Kejriwal in

After the 2019 general election, Narendra Modi returned to power with a larger majority and the country saw regular elections to all the State assemmandatory five-year tenure. does know this adage quite Though the claim fell flat on all fours, neither the media that flashed Kejriwal's warning about the "last" general elections nor our political pundits remembered the same.

Once the results were announced and the BJP was returned to power, that became the news, and everything else was forgotten (at least till 2024).

Yet another battlefront has been opened by the Opposition and that is the One Nation, One Leader concept, the brand new slogan coined by Kejriwal. Wasn't it George Santayana, the Spanish-American philosopher who said in 1863 that "those who cannot remember the past are condemned to repeat it"?

well and hence there is no possibility of following the slogan

coined by Kejriwal. The entire media in the country is unanimous in their opinion that elections are the festivals of democracy. But the festivals will certainly lose their charm if they are fueled by half-lies and full lies. One is at a loss to understand the logic behind the claim by certain leaders that the BJP government would subvert the Constitution!

Who derailed the Constitution much against the order of the Supreme Court that the basic structure of the Constitution should never be tampered with. It was in 1976 that then Prime Minister Indira Gandhi altered the preamble of the Narendra Modi, I am sure Constitution by incorporating

the words secularism, socialism etc. India survived as a nation from 1947 to 1976 without the terms secularism and socialism in its Constitution. B R Ambedkar, the architect of the Constitution, was totally against the inclusion of these terms when it was drafted for the first time. It was after the introduction of these terms that communal riots and terrorism peaked in India.

Accusations and allegations are fine because they add to the intensity of the campaigning. But baseless allegations rob the beauty of the election process. Interestingly, the leaders named by the Delhi chief minister as potential victims of the Modi regime are not saints or beatified ones. Reports from Delhi say that Kejriwal

was summoned eight or nine times by the ED for questioning in connection with money laundering. The Chief Minister chose to ignore the same with contempt. He might not know the truth that the reigning Prime Minister cooperated with the Supreme Court-appointed Special Investigation Team under the chairmanship of R K Raghavan, a former CBI director to grill him about the Gujarat riots. For 19 hours, the then Gujarat Chief Minister sat through the grilling and answered all the queries they asked. That is what we call honesty and integrity. People still hope that Kejriwal too is honest.

Pro-Palestinian protests dwindle on campuses

Some waved the red, green, black and white Palestinian flag. Seinfeld, whose namesake sitcom was one of the most popular in US television history, was there to receive an honorary doctorate from the university. The stand-up comic turned actor, who stars in the new Netflix movie "Unfrosted," has publicly supported Israel since it invaded Gaza to dismantle Hamas after the organization attacked the country and killed some 1,200 people in southern Israel on October 7. The ensuing war has killed more than

The small student protest Sunday at Duke's graduation in Durham, North Carolina, was emblematic of campus events across the US Sunday after weeks of student protests resulted in nearly 2,900 arrests at 57 colleges and universities.

Students at campuses across the US responded this spring by setting up encampments and calling for their schools to cut ties with Israel and businesses that support it. At Emerson College in Boston, some students took off their graduation robes and left them on stage. Others emblazoned 'free Palestine" on their mortar boards. One woman, staring at a camera broadcasting a livestream to the public, unzipped her robe to show a kaffiyeh, the black and white checkered scarf commonly worn by Palestinians, and flashed a watermelon painted on her hand. Both are symbols of solidarity with those living in the occupied territories. Others displayed messages for a camera situated on stage, but the livestream quickly shifted to a different view, preventing them from being seen for long. Chants during some of the speeches were difficult to decipher. Protests at Columbia University, where student uprisings inspired others at campuses across the country, led the school to cancel its main graduation ceremony in favour of smaller gatherings.

Cohen is expected to testify about his role in arranging hush money payments on Trump's behalf during his first presidential campaign, including to porn actor Stormy Daniels, who told jurors last week that the USD 130,000 that she received in 2016 was meant to prevent her from going public about a sexual encounter she says she had with Trump in a hotel suite a decade earlier.

He also matters because the reimbursements he received form the basis of the charges -34 felony counts of falsifying

business records — against Trump. Prosecutors say the reimbursements were logged as legal expenses to conceal the

payments' true purpose. Defence lawyers have teed up a bruising cross-examination of Cohen, telling jurors during opening statements that the fixer-turned-foe is an "admitted liar" with an "obsession to get President Trump".

The testimony of a witness with such intimate knowledge of Trump's activities could heighten the legal exposure of the pre-sumptive Republican presidential nominee if jurors deem him sufficiently credible. But politically, prosecutors' reliance on a witness with such a checkered past — Cohen pleaded guilty to federal charges related to the payments and to lying to Congress — could be a boon for Trump as he fundraises off his legal woes and paints the case as the product of a tainted criminal justice system. Either way, his role as star pros

ecution witness further cements the disintegration of a mutually beneficial relationship that was once so close that Cohen famously said he'd "take a bullet for Trump". After Cohen's home and office

were raided by the FBI in 2018, Trump showered him with affection on social media,

praising him as a "fine person with a wonderful family" and predicting - incorrectly that Cohen would not "flip". Months later, Cohen did exactly that, pleading guilty that August to federal campaignfinance charges in which he implicated Trump. By that point, the relationship was irrevocably broken, with Trump posting on the social media platform then known as Twitter: "If anyone is looking

the event 30 miles (48 kilome-

tres) from Claremont to the

Cohen! Cohen later admitted lying to Congress about a Moscow real estate project that he had pursued on Trump's behalf during the heat of the 2016 Republican campaign. He said he lied to be consistent with Trump's "political messaging".

for a good lawyer, I would

strongly suggest that you don't

retain the services of Michael

Prosecutors are expected to elicit detailed testimony from Cohen about his past crimes in hopes of blunting the impact of defense lawyers' questioning and showing that they're not trying to hide his misdeeds. But it's unclear how effective that will be, given that defence lawyers will be prepared to exploit all the challenges that

accompany a witness like

Besides painting Cohen as untrustworthy, they're also expected to cast him as vindictive, vengeful and agenda-driven. Since their fallout, Cohen has emerged as a relentless and sometimes crude critic of Trump, appearing as recently as last week in a live TikTok wearing a shirt featuring a figure resembling Trump with his hands cuffed, behind bars. The judge on Friday urged prosecutors to tell him to refrain from making any more statements about the case or Trump.

"He has talked extensively about his desire to see President Trump go to prison," Trump attorney Todd Blanche said during opening statements. "He has talked extensively about his desire to see President Trump's family go to prison. He has talked extensively about President Trump getting convicted in this case

No matter how his testimony unfolds, Cohen is indisputably central to the case, as evidenced by the fact that his name was mentioned in the jury's presence during opening statements more than 130 times — more than any other

Other witnesses, including for-mer National Enquirer publisher David Pecker and former Trump adviser Hope Hicks, have testified at length about the role Cohen played in arranging to stifle stories that were feared to be harmful to Trump's 2016 candidacy. And jurors heard an audio recording of Trump and Cohen discussing a plan to purchase the rights to a story of a Playboy model, Karen McDougal, who has said she had an affair with Trump.

During a massive rally on Saturday in the southern New Jersey resort town of Wildwood, Trump revived his criticism of the case, wrongly blaming President Joe Biden for orchestrating the New York charges, calling the case a "Biden show trial". That argument ignores the reality that the hush money case was filed by local prosecutors in Manhattan who do not work for the Justice Department or any other White House office. The Justice Department has said the White House has had no involvement in the two criminal cases against Trump brought by special counsel Jack Smith.

False narratives being created about India in West: Barai

Misinformation and false nar-ratives are being created about Indian democracy in the West in the middle of an election cycle in India, a prominent Indian-American oncologist has said, observing that some people in the West continue to have a colonial mentality. Chicagobased Dr Baharat Barai, in an interview on Sunday, hit out at Canadian Prime Minister Justin Trudeau for not taking action against Sikh separatists who are "openly planning and supporting violence inside India and Indian leaders"

'The Khalistan problem is only in Canada, maybe a little bit in the US. If the US government wants to give them a piece of land, let them be happy. After all, they're foreign citizens. They're either citizens of the US or citizens of Canada. What right do they have to interfere in what is happening in India?" Dr Barai told PTI in an interview here. "If they want a separate land for them, let (Canadian Prime Minister Justin) Trudeau give it to them. If the US thinks that that's a good idea (let them do

so)...we are standing right in front of Abraham Lincoln (memorial in Washington DC). What did he do when the South (US) wanted to secede? We had à civil war. In Washington DC, he

is being celebrated as the father of the nation," he said. "This (Khalistan) is not a problem of India. Indian Sikhs don't want to have anything to do with it. It is the foreign-born or foreign-living Sikhs and only a very tiny fraction of them," Dr Barai said. Referring to the number of news articles and commentaries appearing in the Western press, including that of the US, raising questions about democracy, free dom of expression, and human

 $R^{\hbox{\footnotesize escuers recovered more}}_{\hbox{\footnotesize bodies Monday after mon-}}$ soon rains triggered flash floods on Indonesia's Sumatra Island, bringing down torrents of cold lava and mud, leaving 43 people dead and another 15 missing. The heavy rains, along with a landslide of mud and cold lava from Mount Marapi, caused a river to breach its banks.

The deluge tore through mountainside villages along four districts in West Sumatra province just before midnight Saturday. The floods swept away people and submerged hundreds of houses and buildings, while forcing more than 3,100 people to flee to temporary government shelters in Agam and Tanah Datar districts, said National Disaster Management Agency spokesperson Abdul

Rescuers on Monday recovered more bodies, mostly from villages that were worst hit in Agam and Tanah Datar districts, bringing the death toll to 43, Muhari said in a statement. At least 19 people were injured in the flash floods and rescuers were searching for 15 villagers reported missing, he said. Television reports showed relatives wailing as they

watched rescuers pull a mud caked body from a devastated hamlet. It was placed in an orange and black bag and taken away for burial. Judge lifts ban on video of church stabbing

Melbourne (AP): An Australian judge Monday lifted a ban on the social media platform X showing Australians a video of a bishop being stabbed in a Sydney church.

The temporary ban was put in place April 22, but the judge rejected the application from Australia's eSafety Commission to extend the court order that would have expired Monday. Australian Federal Court Justice Geoffrey Kennett said he would publish his reasons for imposing and lifting the order later. The decision was a win for the company rebranded by billionaire Elon Musk when he bought Twitter last year. X was alone among social media platforms in refusing to remove video of Bishop Mar Mari Emmanuel being stabbed. Musk has argued that he is standing up for a freedom of speech principle. Australian lawmakers have accused him of arrogance and of lacking a sense of social responsibility.

"Not trying to win anything. I just don't think we should be suppressing Australian's rights to free speech," Musk posted on X after the ruling.

X is also taking a separate court action against eSafety Commissioner Julie Inman Grant, a former Twitter employee, that challenges the validity of her notice requiring the platform to remove video of the April 15 attack in an Assyrian Orthodox church. The judge is expected to consider setting a hearing date

Wednesday. Assistant Treasurer Stephen Jones said the government might consider changing Australian law after reading Kennett's reasons for removing his order that required X to hide the video from users. "There's a fundamental principle at stake and that is, if you're a company or anybody operating in Australia, then you've got to abide by Australian laws," Jones

Fires resulting from the fighting in Sudan destroyed or damaged 72 villages and settlements last month, a UKbased rights group said Monday, highlighting the use of fire as a weapon of war in the conflict in the African country. Investigators from Sudan

Witness, an open-source project run by the non-profit Center for Information Resilience, say that more blazes than in any other month since the war started in mid-April 2023. The number also brings to 201 the total number of fires in Sudan since fighting broke out between Sudan's military and the rival paramilitary force. The analysis didn't provide any

casualty figures from the fires. In the war in Sudan, the paramilitary Rapid Support Forces have often used fire, setting

ly in Sudan's western Darfur region.The war has wrecked the country and pushed its population to the brink of famine. More than 14,000 people have been killed and thousands have been wounded. Hundreds of thousands have been displaced.

The Center for Information Resilience said the number of fires surged particularly in the north and west of el-Fasher, the capital city of North Darfur state that faces an imminent attack. El-Fasher saw intense fighting

on Friday between the Sudanese military and the paramilitary RSF and their allies. At least 27 people were killed and dozens injured, said the United Nations Office for Coordination Humanitarian Affairs, or OCHA. More than 800 were displaced.

Sudan's military launched an

airstrike the next day that hit close to a pediatric hospital in el-Fasher, killing two children and a caregiver, according to Doctors Without Borders. In its analysis, the Center for

Information Resilience estimated that 31 settlements villages and towns - were affected by fires in April, with an over 50 per cent destruction rate. "We've documented the patterns of numerous fires and the continuing devastation to settlements around western Sudan, large and small, Anouk Theunissen, Sudan

Amazon's self-driving robotaxi under investigation

Detroit (AP): Amazon's self-driving robotaxi unit is being investigated by the US government's highway safety agency after two of its vehicles braked suddenly and were rear-ended by motor-cyclists. The National Highway Traffic Safety Administration said in documents posted on its website Monday it will evaluate the automated driving system developed by Zoox. Both crashes happened during the daytime hours and the motorcyclists suffered minor injuries. In both cases, the agency confirmed that each of the Amazon vehicles was operating in autonomous mode leading up to the crashes.

eorgia's parliament green-lit Georgias parmanens of a final vote on a proposed law that critics see as a threat to media freedom and the country's aspirations to join the European Union on Monday, a day after police dispersed the latest protests against it. The bill would require media and non-governmental organisations and other non-profits to register as "pursuing the interests of a foreign power" if they receive more than 20 per cent of their funding from abroad

The opposition denounces the bill as "the Russian law" because Moscow uses similar legislation to crack down on independent news media, non-profits and activists critical of the Kremlin. The bill is nearly identical to one that the governing Georgian Dream party was pressured to trying to destabilise it.

Pak PM allocates Rs 23-bn grant to quell protests

The situation remained tense in Pakistan-occupied Kashmir as the total strike against high prices of wheat flour and inflated electricity bills and taxes entered its fourth day on Monday, forcing the Pakistan government to allocate Rs 23 billion for immediate release to the region to quell a simmering unrest.

The disputed region witnessed clashes on Saturday between the police and activists of a rights movement, leaving at least one police officer dead and injuring over 100 people, mostly policemen. A complete strike has also been observed in the territory since Friday, bringing life to a halt.

Pakistan Prime Minister Shehbaz Sharif, who said he was "deeply concerned" about the situation, on Monday approved Rs 23 billion for immediate release to the region after the negotiations between the protesters and the regional government ended in a deadlock. Ruffled by the unexpected protest and its sensitivity, Prime Minister Sharif chaired a special meeting here on Monday which was attended by PoK "prime minister"

Chaudhry Anwarul Haq, local

ministers, and top political leadership, the PM's Office

(PMO) said in a statement. Prime Minister Sharif approved the immediate provision of Rs23 billion to solve the problems of the people of PoK, it said. Federal ministers and leaders of the coalition parties also took part in the meeting, where a detailed review of the situation was taken, it added. Kashmir leaders and all participants appreciated Shehbaz for his decision,

'I urge all parties to resort to a peaceful course of action for resolution of their demands. Despite the best efforts of detractors, the matter will hopefully be settled soon," he said. As part of his efforts to calm down tensions, President Asif Ali Zardari urged all the stakeholders to exercise restraint and resolve the issues through dialogue and mutual consultation

He stressed that the political parties, state institutions and the people of the region should act responsibly so that hostile elements could not exploit the situation to their benefit. The president highlighted that the demands of the people in the region should be addressed as per law, adding that he would take up their grievances with Prime Minister Sharif to find a way out of the current situation. The president regretted the

On Saturday, the violent protesters damaged multiple vehicles, including a magistrate's car on the Poonch-Kotli road Moreover, markets, trade centres, offices, schools, and restaurants remained closed across the region.

Police also launched a crackdown against the protesters after the violence, arresting dozens of individuals in Muzaffarabad. A day earlier, the government

Dar set to meet top Chinese leaders in Beijing

Beijing (PTI): Pakistan's newly-appointed Deputy Prime Minister Ishaq Dar on Monday reached here for a four-day offi-cial visit during which he will meet top Chinese leaders and co-chair a bilateral strategic dialogue between the two all-weather friends. Dar, who is also the foreign minister, was received by Director General Ambassador Wang Fu Kang and Pakistan's Ambassador to China Khalil Hashmi, state-run Associated Press of Pakistan reported. Dar will meet top Chinese leaders and compre-hensively review bilateral relations, including the upgrada-tion of the multi-billion dollar China-Pakistan Economic Corridor (CPEC) project, Pakistan's Ministry of Foreign Affairs said in a statement before his visit. He will co-chair the 5th Pakistan-China Foreign Ministers' Strategic Dialogue with his Chinese counterpart, Wang Yi, it said. The two foreign ministers are expected to discuss the possibility of Pakistan Prime Minister Shehbaz Sharif's visit to Beijing.

Putin replaces Sergei Shoigu as defence minister Ukraine army locked in

Dussian President Vladimir Sergei Shoigu as defence minister in a Cabinet shakeup that comes as he begins his fifth term in office.

In line with Russian law, the entire Russian Cabinet resigned Tuesday following Putin's glittering inauguration in the Kremlin, and most members have been widely expected to keep their jobs, while Shoigu's fate had appeared uncertain.

Putin signed a decree on Sunday appointing Shoigu as secretary of Russia's Security Council, the Kremlin said. The appointment was announced shortly after Putin proposed Andrei Belousov to become the country's defence minister in place of Shoigu.

The announcement of Shoigu's new role came as 13 people were reported dead and 20 more wounded in Russia's border city of Belgorod, where a 10-story apartment building partially collapsed after what Russian officials said was Ukrainian shelling. Ukraine hasn't commented on the incident. Belousov's candidacy will need deputy prime minister, is the to be approved by Russia's upper right fit for the job. Belousov, 65, body's deputy chairman since It reported Sunday that Putin introduced proposals for other Cabinet positions as well but Shoigu is the only minister on that list who is being replaced. Several other new candidates for federal ministers were proposed Saturday by Prime Minister Mikhail Mishustin, reappointed by Putin on Friday.

Shoigu's deputy, Timur Ivanov, was arrested last month on bribery charges and was ordered to remain in custody pending an official investigation. The arrest of Ivanov was widely interpreted as an attack on Shoigu and a possible precursor of his dismissal, despite his close person-

al ties with Putin. Kremlin spokesman Dmitry Peskov said Sunday that Putin had decided to give the defence minister role to a civilian because the ministry should be "open to innovation and cutting-edge ideas." He also said the increasing defence budget "must fit into the country's wider economy," and Belousov, who until recently served as the first

house in parliament, the held leading positions in the ment of the prime minister's office and the Ministry of Economic Development. In 2013, he was appointed an adviser to Putin and seven years later, in January 2020, he became first deputy prime min-

Peskov assured that the reshuffle will not affect "the military aspect," which "has always been the prerogative of the Chief of General Staff," and Gen Valery Gerasimov, who currently serves in this position, will continue his work.

Tatiana Stanovaya, a senior fellow at the Carnegie Russia Eurasia Center, said in an online commentary that Shoigu's new appointment to Russia's Security Council showed that the Russian leader viewed the institution as "a reservoir" for his "former' key figures people who he can't in any way let go, but doesn't have a place for." Figures such as former Russian President Dmitry Medvedev have also been appointed to the security coun2020.

Shoign Security Council instead of Nikolai Patrushev, Putin's longterm ally. Peskov said Sunday that Patrushev is taking on another role, and promised to reveal details in the coming days. Shoigu has been widely seen as a key figure in Putin's decision to send Russian troops into Ukraine. Russia had expected the operation to quickly overwhelm Ukraine's much smaller and lessequipped army and for Ukrainians to broadly welcome Russian troops.

Instead, the conflict galvanized Ukraine to mount an intense defence, dealing the Russian army humiliating blows, including the retreat from an attempt to take the capital, Kyiv, and a counteroffensive that drove Moscow's forces out of the Kharkiv region. Before he was named defence minister in 2012, Shoigu spent more than 20 years directing markedly different work: In 1991, he was appointed head of the Russian Rescue Corps disaster-response

agency, which eventually barrage of artillery and mortar became the Ministry of shelling, officials said Sunday. Emergency Situations. He The intense battles have forced post. The job also allowed him to be named a general even though he had no military service behind him as the rescue corps absorbed the militarised Civil Defence Troops

Shoigu does not wield the same kind of power as Patrushev, who has long been the country's top security official. But the position he will take - the same position that Patrushev worked to transform from a minor bureaucratic role to a place of sizable influence — will still carry some authority, according to Mark Galeotti, head of the Mayak Intelligence consultancy. High-level security materials intended for the president's eyes will still pass through the Security Council Secretariat, even with changes at the top. "You can't just institutionally turn around a bureaucracy and how it works overnight," he said. Thousands of civilians have fled Russia's renewed ground offensive in Ukraine's northeast that has targeted towns and villages with a withdraw in the Kharkiv region, capitulating more land to Russian forces across less defended settlements in the so-called contested gray zone along the Russian border.

By Sunday afternoon, the town of Vovchansk, among the largest in the northeast with a prewar population of 17,000, emerged as a focal point in the battle. Volodymyr Tymoshko, the head of the Kharkiv regional police, said that Russian forces were on the outskirts of the town and approaching from three directions. An Associated Press team, positioned in a nearby village, saw plumes of smoke rising from the town as Russian forces hurled shells. Evacuation teams worked nonstop throughout the day to take residents, most of whom were older, out of harm's way. At least 4,000 civilians have fled the Kharkiv region since Friday, when Moscow's forces launched the operation, Governor Oleh Syniehubov said in a social media statement.

Ukrainian troops are locked in intense battles with the advancing Russian army in two border areas, President Volodymyr Zelenskyy said, while the death toll from a Russian apartment building collapse blamed on Ukrainian

shelling rose to 15. Zelenskyy said "fierce battles" are taking place near the border in eastern and northeastern Ukraine as outgunned and outnumbered Ukrainian soldiers try to push back a significant Russian ground offensive. "Defensive battles are ongoing, fierce battles, on a large part of our border area," Zelenskyy said in his nightly video address on Sunday. The Kremlin's forces are aim-

ing to exploit Ukrainian weaknesses before a big batch of new military aid for Kyiv from the US and European partners arrives on the battlefield in the coming weeks and months, analysts say.

That makes this period a window of opportunity for Moscow and one of the most dangerous for Kyiv in the twoyear war, they say.

The new Russian push in the northeastern Kharkiv region, along with the ongoing drive into the eastern Donetsk region, come after months when the about 1,000-kilometer (620-mile) front line barely budged. In the meantime, both sides have used longrange strikes in what largely became a war of attrition. The Kharkiv incursion may be

an attempt to create a "buffer zone" to protect Belgorod, an adjacent Russian border region battered by Ukrainian attacks. Russian emergency services on Monday finished clearing the rubble in the region's capital city of Belgorod, where a section of a residential building collapsed following what authorities said was Ukrainian shelling. Fifteen bodies were pulleď from the rubble, Belgorod regional Gov. Vyacheslav Gladkov said, and 27 other people were wounded. Another three people in the city of Belgorod were killed by shelling late Sunday, he said. Russian President Vladimir Putin on Sunday replaced Sergei Shoigu as defence minister in a Cabinet shakeup. Shoigu was widely seen as a key figure in Putin's decision to send Russian troops into Ukraine in February 2022. Russia had expected the operation to quickly overwhelm Ukraine's army and for Ukrainians to broadly welcome Russian troops.

Zelenskyy said fighting in the Donetsk area is "no less intense" than in Kharkiv. He said the Kremlin aimed to "spread our forces thin" by opening a second active front in Kharkiv. He described the area around Pokrovsk region, just inside the Ukrainian border in Donetsk, as "the most difficult". Pokrovsk was a town of around 60,000 people before the war and was until recently a two-hour drive from the front line. Now it is less than half that.

It will be led by Wong, who will be sworn into the highest executive office on Wednesday after incumbent Prime Minister Lee Hsien Loong, 72, announced that he will step down on Wednesday after leading the

country for 20 years. Gan Kim Yong, 65, will be promoted to Deputy Prime Minister as part of a cabinet reshuffle and will remain as Trade and Industry Minister. He will be the acting prime minister in the absence of the

prime minister. He will also take over as the chairman of the Monetary Authority of Singapore, the de facto central bank, and assume responsibility for the strategy group within the Prime Minister's Office. Currently, Deputy Prime Minister Heng Swee Keat, 63,

will continue in his role. Heng was first named to succeed Prime Minister Lee Hsien Loong but he has declined to take up the position.

Wong, 51, also announced other promotions and appointments on Monday, but there were no major changes to the ministers helming each ministry in this reshuffle.

For example, Wong will remain at the helm of the Finance Ministry.

Nepal DyPM quits in setback to Prachanda-led govt **PTI** ■ KATHMANDU Chairman of Janata Samajwadi

Nepal's Deputy Prime Minister and senior Madhesi leader Upendra Yadav on Monday tendered his resignation and his party pulled out of the government, a setback to Prime Minister Pushpa Kamal Dahal Prachanda-led coalition government. Yadav, also the Minister for

Health and Population, submitted his resignation to Prime Minister "Prachanda" on Monday morning, according to sources close to the Madhesi leader. Along with Yadav, Minister of State for Forest and Environment Dipak Karki, from the same party, has also submitted his resignation. The resignation by Yadav, the

Party Nepal (JSP-Nepal), comes a week after his party split into two groups with senior leader Ashok Rai forming a new party named Janata Samajwadi Party. The new party has been recognised by the Election Commission. "This morning, I submitted my resignation to Prime Minister Dahal. Given the current political situation, I find it untenable to continue my cooperation with the government," Yadav said. The JSP-Nepal had altogether

12 lawmakers in the House of Representatives (HoR). Now the party's strength has been reduced to 5 in the HoR as Rai and six other law makers and 30central committee members joined the new party.

The ruling coalition led by Prime Minister Prachanda still holds a majority with 77 seats of the CPN-UML, 32 of the Maoist Centre, 21 of the Rastriya Swatantra Party, seven of the newly formed Janata Samajbadi Party and 10 seats of the CPN-Unified Socialist (CPN-US). The coalition requires at least 138 seats in the 275-member House of Representatives to prove a majority.

The party's pull out from the government will not have an immediate impact on the Prachanda-led coalition government," said Sunil Manandhar, former environment minister and central committee member of the ruling CPN-Maoist Centre.

Amid souring of ties with the Maldives, Exim Bank said it has disbursed USD 450 million to the island nation, and the entire exposure is performing well, a senior official said.

The bank's overall loan book grew 17 per cent during the fiscal year and it is aiming for at least 10-12 per cent growth in FY25, managing director Harsha Bangari reporters here.

When asked for the reasons for the lower growth aim for FY25, she said the bank had a similar target for FY24 as well but the asset growth came in higher than expectations.

The bank does not feel the need to go for any equity raising in FY25, she said, adding that it will be borrowing up to USD 3.5 billion in foreign currency and around Rs 35,000 crore rupee-denominated

The bank has a commitment to repay USD 1.2 billion coming up in FY25, she said. The commercial book grew at 49 per cent, much faster than the policy business in FY24, which helped deliver the higher loan growth. The overall contribution of commercials in the overall book has reached 56 per cent business now.

Net interest margin declined sharply to 2.06 per cent in FY24 as against 2.29 per cent a year ago, which was attributed to the composition of assets wherein over 88 per cent are from the lowyielding investment grade and also hardening of rates across the world.

Bangari said an NIM of over 1.75 per cent is good for the bank as a bulk 93 per cent of the expenses for it revolve around interest repayments. Gross non-performing assets ratio improved to 1.93 per cent as on March 31, 2024, period, primarily because the slippages went down.

As a result of that, the overall provisions went down to Rs 2,600 crore from Rs 4,700 crore in FY23. When asked about the Maldivian experience, a senior bank official said the bank has a commitment of USD 1.3 billion through a line of credit arrangement of

Whoa Nelly! Rose Zhang wins Founders Cup to end Korda's record tying LPGA Tour winning streak

Great things have been expected from Rose Zhang from the moment the two-time NCAA champion won in her professional debut last year and joined the

professional debut last year and joined the LPGA Tour the following week. The 20-year-old finally delivered again Sunday, birdieing four of the final five holes to win the Cognizant Founders Cup. She beat Madelene Sagstrom by two strokes while putting an official end to Nelly Korda's record-tying LPGA Tour winning streak winning streak.

"I was able to grow so much throughout the journey in this past year," Zhang said. "I don't know, it's crazy to come out here. Didn't have any expectation of having to win because I realize that it's all just noise and I really just have to be able to work at it myself and try my best to put myself in positions like this.

"But no matter what happened this week, I would've been very satisfied and it reignited my passion for the game once again," she added after winning on

Mother's Day. Zhang, who was talking to her mom coming into the media room, actually had a funny start to her round. The Stanford product almost fell on her rear end taking a shot from an ackward stance on the first hole. The shot could have gone anywhere. It hit the pin and she made par.

"I just thought to myself, wow, I mean, today is probably going to be a lucky day," said Zhang, who played with Sagstrom in a stroke-play duel with the rest of the field far back. "Maybe I can get something

going. Would not have imagined myself being who are now, especially after 12. Sagstrom birdied that hole to take a threeshot lead and things did not look good for

Zhang. It got better in the event that honors the 13 founding members of the tour.

Zhang, who shot a 6-under 66, birdied Nos. 14, 15, 17 and 18 at Upper Montclair Country Club, while Sagstrom bogeyed the 16th in finished two back.

Korda, who struggled the final two days after playing magnificently in winning the five straight events she entered, began the day 11 strokes back and shot her second straight 73 to tie for seventh at 7 under. She had no regrets. She hopes someone will join her and Hall of Famers Nancy Lopez and Annika Sorenstam in winning five straight or even more.

"But just to do that with all the tition out here is

rewarding with how much work that I've put in," the 25-year-old Korda said. "So I think to get a streak like that in any sport in general is amazing with the amount of talent that I feel like every athlete has in

their sport. Just an amazing feeling and hopefully one day it'll sink in."

It was a heart-breaking end for Sagstrom, the 31-year-old Swede who started the day with a one-shot lead and was looking for her first victory since 2020 and second overall on tour. "I struck it so nicely this week. I've worked

really hard for a long time," Sagstrom said. "I putted incredible. It's really high up there. That's probably why it hurts more. Nothing against Rose. She played incredible. I kind of wish I gave myself a few more chances at the end there. Didn't want it to end that way. This is probably. want it to end that way. This is probably the best golf I played in years.

Sagstrom led by three after 13, but Zhang curled in a birdie putt at 14 and made an 8footer on the next to draw within one. They were tied after after 16, with Sagstrom missing a 10-foot par putt after a bad chip from the back fringe.

After Sagstrom saved par at the par-3 17th with a fast, downhill 25-footer, Zhang took the lead with a short birdie putt and she closed things out on the final hole with Sagstrom waiting to make a birdie attempt. Zhang, who won last year at nearby Liberty National in her pro debut, finished at 24 under 264.

Rookie Gabriela Ruffels of Australia was third at 9 under, her best finish. She shot 71. Peiyun Chien of Taiwan and Ruoning Xivu Lin of China tied at 8 unde

passion: Olympic bound Jyothika

PTI ■ BHUBANESWAR

An academically-inclined child is a dream realised in most Indian households and that's why Olympic-bound runner Jyothika Sri Dandi aspired to be a doctor before she realised that her father would be happier seeing her excel in sports.

The 23-year-old from Tanuku town in West Godavari district of Andhra Pradesh, secured 97 per cent in Class X while studying at the Montessori School at her home town.

But, her father Srinivasa Rao, a body-builder in his younger avs nudged interest in sports as he wanted to see her in the Olympics some day. That dream is going to be a reality in less than three months' time.

Jyothika was part of the Indian women's 4x400m relay team that qualified for the Paris Olympics during the World Relays in Bahamas earlier this month.

"I got 97 per cent in class X and when I was in school I actually wanted to be a doctor. But, once I started doing sports, I could not go back and think about becoming a doctor," Jyothika, who is taking part in the Federation Cup here, told PTI in an interview.

"My father felt I have the talent to do well in athletics and bring laurels for the country in the Olympics. Seeing his sacrifice and passion to mould me into a successful athlete, I decided to follow his dreams.

"I did not tell him that I wanted to be a doctor because I want to make him happy. Till 2017, I did not have interest in sports but around 2020 I began taking

school sports competitions in 200m and 400m and even in some races organised by clubs. "He took me to the school PET teacher when I was in seventh class (around 12 years of age). I ran on the mud tracks at a college ground in my place. I started taking part in district and state meets when I was in ninth class in 2014."

Between 2014 and 2021, Jyothika trained under Sports Authority of India coach Vinayak Þrasad in Vijaywada. In 2021, she trained under Nagpuri, current Ramesh national junior team head coach, in Hyderabad for one year during which she ran her then personal best of 53.05 seconds after which she was

Wonder goal for Ella Toone as Manchester United wins Women FA Cup with 4-0 rout of Tottenham

Manchester United won its first major trophy by routing Tottenham 4-0 in the Women's FA Cup final at Wembley. Ella Toone's Wembley. Ella Toone's stunning long-range strike in first-half stoppage time set up victory for Marc Skinner's team. United cruised to victory after the break through two goals from Lucia Garcia and another from Rachel Williams. United quickly made up for defeat to Chelsea in last year's final by lifting the trophy 12 months on. Toone's wonder goal broke

Tottenham's resistance when she curled the ball into the top corner from around 20 yards (meters) in the third minute of time added on in the first half.

Williams doubled United's lead with a powerful header nine minutes after the break. United effectively sealed victory three minutes later, this time through Garcia, who was named player of the

Djokovic follows Nadal to early exit at Italian Open in first match after being hit by water bottle

Novak Djokovic's performance was so poor that even the 24-time Grand Slam champion admitted it was "concerning."

Djokovic put on one of his worst displays at one of his favorite tournaments as he was upset by 29th-seeded Alejandro Tabilo in the third round of the Italian Open.

It was Djokovic's first match since accidentally getting knocked on the head by a water bottle while signing autographs after his opening win on Friday. "I managed to sleep okay. I had headaches. The next day or yesterday was pretty fine, so I thought it's okay. Maybe it is okay. Maybe it's not," Djokovic said. "I mean, the way I felt on the court today was just com-

pletely like a different player entered into my shoes. Just no rhythm, no tempo, no balance whatsoever on any shot. It's a bit concerning."

Djokovic started off with a double-fault and it didn't get much better for the six-time Rome champion.

Focus on KL Rahul as LSG face DC in playoff battle

PTI ■ NEW DELHI

Pocus will be on skipper KL Rahul as a struggling Lucknow Super Giants look to keep their slim IPL playoff chances alive when they face an equally desperate Delhi Capitals in a must-win game here on Tuesday. There has been a lot of

speculations about Rahul's future as LSG skipper after his "public reprimand" by team Ġoenka owner Sanjiv following their 10-wicket hammering by Sunrise Hyderabad last Wednesday. Sunrisers Speculations are rife that Rahul may step down as captain or perhaps he will do his duties for the remaining two games before leaving LSG. In either case, the India batter would look to answer with his bat and end things on a high.

Rahul hasn't been in the best

of form and it's not only cost him a place in India's T20 squad but also left LSG at the seventh spot with 12 points with RCB and DC, who are fifth and sixth respectively. Five days is a lot of time to introspect and Rahul and Co. Will look to come out all guns blazing when they face DC who are also on 12 points and are coming into the match after a loss against RCB on Sunday night. Besides Rahul, Quinton De Kock's poor form this season has left LSG struggling in the powerplay, putting pressure on the likes of Marcus Stoinis and Nicholas Pooran, who haven't got the freedom to unleash their big shots. Although Pooran and Ayush

i managed to rescue team in the last match, the bowlers failed miserably against the formidable SRH pair of Travis Head and Abhishek Sharma, who racked up 167 in 9.4 overs, a T20I record by any team.

The loss of tearaway pacer Mayank Yadav to injury has left a big hole which Yash Thakur and Naveen-ul-Haq haven't been able to fill. Also Mohsin Khan picked up an injury and didn't play last match.

The spin duo of Krunal Pandya and Ravi Bishnoi too have been to do a lot of soul searching after being punished by SRH. Delhi Capitals, on the other hand, will hope the return of skipper Rishabh Pant after a one-match suspension due to slow overrate against Rajasthan Royals will help them to end things on a high. Delhi sans Pant paid the price for their fielding lapses as those drop catches and misfields came back to haunt them against RCB on Sunday night.
While the bowlers let RCB off

the hook after a good start, the batting once again came unstuck as they lost four wickets inside 4 overs to be bowled out for their lowest innings score this IPL.

But this is the same team which scored four 200 plus totals this season and they will have to find their mark in their last game to salvage any slim hopes of a top four.

Jack Fraser-McGurk, with 330 runs from seven matches at an impressive strike-rate of 237.41, has been their most impactful batter. While Abhishek Porel (269, 156.39), Pant (413, 156.43) and Tristan Stubbs (321, 185.54) too have been among runs this season. In the bowling department, the spin duo of Kuldeep Yadav (15) and Axar Patel (10) have shared 25 wickets, while pacers Khaleel Ahmed (16 wickets) and Mukesh Kumar (16) too have got them the breakthroughs.
