PIONEER NEWS SERVICE HOSHIARPUR (PUNJAB)

ddressing his final rally A of the back-to-back hectic 2024 Lok Sabha polls campaign, which spanned about two months Prime Minister Narendra Modi on Thursday attacked the Congress for 'ranting' about the Constitution. He accused them of 'strangling' it during the Emergency and not caring about it when Sikhs were killed in the 1984 riots. "Sikhs were killed after putting burning tyres around them. At that time, they did not care about the Constitution," Modi said in his last poll rally in the sevenphase election. At the rally in favour of his party's candidates in Punjab which goes to polls on Saturday, the Prime Minister also touched upon the issues of reservation, corruption and the Ram Temple.

Modi is set to face the electorate in his two-time constituency of Varanasi in the last phase. Meanwhile, he embarked on a nearly twoday meditation exercise at the Vivekananda Rock Memorial, against the backdrop of huge protests by the Congress, TMC, and DMK. These parties have expressed reservations and moved the

## Last day of campaigning: Modi, Yogi, Nadda, RaGa, Kejriwal seek votes

### **High-Decibel Campaigning** Ends for Punjab's Four-**Cornered Lok Sabha Battle**

#### MONIKA MALIK **E** CHANDIGARH

The high-decibel campaign-ing for Punjab's 13 Lok Sabha seats came to an electrifying end on Thursday evening, with political heavyweights making their final pitches to sway the electorate. As the campaign dust settles, the state braces for a pivotal four-cornered contest involving the Bharatiya Janata Party (BJP), Congress, Aam Aadmi Party (AAP), and the Shiromani Akali Dal (SAD).

Prime Minister Narendra Modi, Uttar Pradesh Chief Minister Yogi Adityanath, and BJP national president JP Nadda led a high-octane campaign for the saffron party. They were countered by Congress leader Rahul Gandhi and AAP supremo Arvind Kejriwal, who tirelessly sought votes for their respective parties through rallies and roadshows, respectively.

Despite the scorching heat, political leaders deployed creative strategies to connect with voters. From distributing chhabeel (sweetened water), nimbu paani (lemonade), frozen watermelons to holding meetings in air-conditioned halls, they left no stone unturned. As the in-person campaigning ceases, the focus now shifts to virtual platforms, with parties urging their supporters to stay active on social media. Shiromani SAD-led Gurdwara Parbandhak Committee (SGPC), known as Sikh's mini parliament, have dotted the state with huge posters and banners carrying picture of "damaged' Akal Takht (Sikhs' highest temporal seat) reminding them about the army assault under the Operation Bluestar. "Sikhs can never forget the manner in which Indira Gandhi attacked Sri Darbar Sahib (popularly known as Golden Temple) with tanks and mortars on June 1, 1984. Nor can they forget how thousands of their brethren were massacred on the streets of Delhi and elsewhere in the country subsequently under a Congress-sponsored programme. I am sure they will remember this tumultuous period when they cast their votes on the same day next month," Sukhbir reminded the voters in most of his rallies, flashing the huge picture of damaged Akal Takht.

### Rahul Gandhi Defends Constitution Against BJP's Alleged Attacks in Punjab

Tandon BJP candidate Sanjay Tandon also launched a scathing attack on his counterpart Manish Tewari for "hitting below the belt" throughout his campaign. He said Tewari's campaign smacked of false arrogance and egoism through which he aspired to reflect his "status" more than addressing the problems of the people of Chandigarh.

All through the campaign Tewari has been seeing things in Chandigarh through his coloured glasses, said Tandon adding that he wished that Tewari was more grounded in his campaign. The BJP candidate said his dependence on social media platforms like X and others simply reflected his "shallow

realities" Tandon said, "Today for

not want to be seen as camsure, I can say that Tewari is the paigning for someone who was words with regrets." There have been a series of examples when Tewari ate his words after putting them on social media as Kejriwal has been doing. He asked Tewari to explain how many times he has visited Chandigarh in the last four decades. "I have been engaged in so many social activities to relate to the people be it crisis times of pandemic or otherwise. During the event, Tandon released the charter of 56 achievements done by the BJP in the last ten years. He said, "While the Congress nominee Manish Tewari has been busy hopping around the constituencies, the BJP under my watch focused on progress and development of the city during the period when I also served as the city BJP president for two have clearly said that if they win the elections, they will scrap and tear up Ambedkar's Constitution and throw it away," the Congress leader claimed. Holding a copy of the Constitution, Gandhi said it is not just a book. The Constitution reflects the thinking of Guru Nanak and other greats

"When the BJP and RSS people attack it, they attack the country's history and its heart. The most important thing in this election is the mission to protect Ambedkar's Constitution," he said.

Responding to an elderly women who spoke about "mea-gre" MGNREGA wages, Gandhi said if the opposition INDIA bloc comes to power, it will raise the daily wage from Rs 250 to Rs 400. He also said that honorariums of anganwadi and ASHA (Accredited Social Health Activist) workers will be doubled

and PM Modi. Since the completion of voting in Delhi, Kejriwal has been camping in Punjab and has addressed at least two to three roadshows daily, emphasizing the party's commitment to fighting corruption and improving governance. Similarly, Bhagwant Mann has also been actively campaigning, addressing back to back roadshows, entertaining people with his kiklis (satirical couplets) stressing the achievements of the AAP Government in the State.

The BJP's strategy also faced criticism from Akali Dal president Sukhbir Badal, who accused both the BJP and cation, with 100 percent coverage of photo identity cards. According to him, 5,38,715 voters belong to the 18-19 age group, who will be casting their votes for the first time.

In the 2019 elections, the BJP and Akali Dal alliance contested three and 10 seats, respectively, with the saffron party securing victories in Gurdaspur and Hoshiarpur. The Congress won eight seats, while the AAP clinched Sangrur. This year, political observers anticipate a fiercelycontested battle as each party vies for dominance in the state, especially in Ludhiana, Patiala, Jalandhar, Sangrur, and Bathinda.

### PNS HOSHIARPUR

Prime Minister Narendra Modi, wrapping up his vigorous campaign for the 2024 Lok Sabha elections in Hoshiarpur on Thursday, lashed out at the opposition's INDIA bloc while claiming to return for the third term with BJP making a hattrick.

As per reports, BJP's biggest star campaigner, PM Modi held 206 rallies, road-shows, and events — up from 142 in 2019 — and gave as many as 80 interviews during the marathon campaign, before heading to Kanyakumari on a 45-hour retreat later on Thursday.

Amidst a charged atmosphere, Modi invoked the teachings of Guru Ravidas

launched a scathing attack on the Congress, dubbing it the epitome of corruption with a storied history of malfeasance spanning six decades. He accused the Congress of indulging in rampant corruption and fostering a culture of graft, labeling it as the

"mother of corruption". Turning his attention to the Aam Aadmi Party (AAP)led Punjab Government, Modi lambasted its policies, alleging the mismanagement of industry and agriculture in the state. He accused the AAP of reneging on its promise to combat drug abuse, asserting that it had instead fostered an environment conducive to illicit drug trade.

Expressing gratitude for the opportunity to conclude his Lok Sabha campaign in scored the historical and cultural significance of the region, referring to it as 'Chotti Kashi' and the tapobhoomi of Guru Ravidas. He expressed a desire for the Adampur airport in Jalandhar district to be named after Guru Ravidas, emphasizing the profound respect and admiration he held for the revered spiritual leader.

In a scathing critique of Prime Minister Narendra Modi's election campaign tactics, former Prime Minister Dr Manmohan Singh on Thursday accused the BJP leader of engaging in "the most vicious form of hate speeches" and of being the first prime minister to degrade the dignity of public discourse. Ninety-one years old Dr Singh made these remarks in an impassioned appeal to the voters of Punjab, who are set to cast their ballots on June 1.

Dr Singh, addressing the public in a three-page open letter, warned that this election represents a critical juncture for the nation's democracy. ### PNS CHANDIGARH

Six employees, including Fatehgarh Churian's Block Development and Panchayat Officer (BDPO), have been suspended by the Gurdaspur District Election Officer for not properly implementing the Model Code of Conduct (MCC) in Fatehgarh Churian, which falls under the Gurdaspur Lok Sabha con-

cum-District Election Officer has suspended BDPO Pargat Singh, along with Village Development Officer (VDO) Kuljinder Singh, Panchayat Secretary Major Singh, besides William Masih, Sukhjit Singh, and Shamsher Singh - all Gram Rojgar Sevaks, with

receiving complaints of violation of MCC in their jurisdiction. The complaint was received from Fatehgarh Churian MLA and senior Congress leader Tripat Rajinder Singh Bajwa alleging that interlocking tiles were being installed in a government park, which was in violation of the MCC. CEO Office spokesperson said that after investigating the matter, the complaint was found to be true and a notice was issued to AAP's district president (rural) for the same, A letter has been written to the SSP to register a case

against the representatives who

put these tiles in the park and the Rural Development and Panchavats Department's director has been asked to take disciplinary action by suspending Om Prakash (manager-cum-VDO, Kala Afgana) and Kuldeep Singh (Panchayat Secretary, Kala Afgana) for not being able to enforce the MCC, said the spokesperson.

Similarly, a case has been registered against Dilbagh Singh and Sukhwinder Singh on the complaint of distribution of cement benches in Baddowal Kalan village of Fatehgarh Churian.

The state Chief Electoral Officer Sibin C appealed to all political parties and their representatives to ensure compliance of the MCC. "From the very first day of the implementation of the MCC, the entire administrative staff and the Police Department has been insisting that no code of conduct should be violated during the election campaign and to a large extent Punjab had been successful in this objective," he said.

He added that the polling is just a few hours away and hence all political parties, contesting candidates, representatives and supporters of political parties should abide by the MCC and set an example in this festival of democracy.

#### **CEO Office Launches New** 'Snapchat' Filters for Young Voters

Not just reaching out to young voters, but also inviting them to be proud participants in the country's democratic process, the office of Punjab's Chief Electoral Officer (CEO) has launched Snapchat 'lenses' using augmented reality to make voting rights and responsibilities more appealing to the

digital generation. Sharing details of this unique initiative, CEO Sibin C highlighted two speciallydesigned lenses - one titled 'I'm A Proud Voter' allowing the users to proudly display their electoral participation with an 'inked finger' mark; and another featuring the election logo imprinted on the user's face, subtly nudging them to take an active interest in the democratic process.

"This interactive experience not only educates users about the importance of voting but also fosters a sense of civic pride and responsibility," said Sibin C, adding, "By tapping into popular social media platforms, we aim to reach a broader audience and encourage active participation in the democratic process."

The initiative represents a creative fusion of technology and civic duty, aiming to inspire young voters in a manner that resonates with their digital lifestyles. By making the act of voting both fun and visible through these engaging lenses, the CEO Office hopes to spark greater interest and participa-

tion among Punjab's youth. DCs, SSPs directed to increase checks, monitoring during last 48 hrs Punjab CEO Sibin C on

Thursday issued comprehensive instructions to the Deputy Commissioners (DCs) and Senior Superintendents of Police (SSPs) to ensure transparent, fair, and high-turnout polling for the Lok Sabha Elections 2024 in Punjab. To ensure free and fair elections, the CEO directed all the officers to intensify checks for outsiders during the last 48 hours before polling.

Additionally, Flying Squads and Static Surveillance Teams should increase their vigilance during this period and continue their operations until the end of polling hours. Special attention is to be given during the night preceding the elections, given the high number of complaints typically received during this time.

Regarding the Electronic Voting Machines (EVMs), Sibin C instructed that any malfunctioning EVMs should be replaced promptly within 10-20 minutes. For the polling staff, the CEO mandated that proper arrangements for food and accommodation be made at Distribution Centres, Polling Stations and the Receiving Centres. He said that timely distribution of honorariums should be ensured to the polling staff.

### -PAPER WITH PASSION-

## **Appeals no more**

The last phase of Lok Sabha polls gets over on June 1 after weeks-long campaign and slogans

he biggest electoral contest in the world will conclude with the seventh phase of voting on June 1. It has been a dynamic election season; the battleground vibrant with slogans, promises and appeals. The major coalitions, the NDA and INDIA, have each deployed strategic messaging to galvanise voter support. When it comes to sloganeering, the BJP-led NDA has been a hands-down winner, coming up with not one but several catchy phrases to woo the electorate. 'Sabka Saath, Sabka Vikas, Sabka Vishwas' (Together with all, Development for all, Trust of all) has been a cornerstone of its campaign. 'Naya Bharat' (New India), aimed at portraying the vision for a progressive and self-reliant nation, was another NDA slogan. Along the same lines was 'Aatmanirbhar Bharat' (Self-reliant India) which reflected the NDA's focus on boosting local industries and reducing dependency on foreign goods. But more interesting were its jumlas (catchy phrases) that were floated intermittently to give the NDA 'top recall

value': 'Abki baar 400 paar' (this time, we will cross 400) and 'Modi ki guarantee'. The major takeaways from the NDA's election pitch were of course its 'Sankalp Patra', heavily focused on economic progress, showcasing initiatives like Make in India, Digital India and the push towards a \$5 trillion economy. The NDA alliance also highlighted its efforts in strengthening national security. The message is clear a strong leadership to safeguard the nation.

Not to be outdone, the INDIA bloc also used several slogans to reach voters' hearts. Prominence was given to slogans critical of the Modi Government's unpopular policies and its actions to subvert democracy by

sending Opposition leaders to jail. 'Jai jawan, Jai kisan, Jai samvidhan' (Hail the soldier, the farmer, the Constitution) drew heavily on this sentiment. 'Bharat Jodo' (Unite India), a call for unity across the nation's diverse fabric to counter divisive politics, was inspired by Rahul Gandhi's pan-India foot march. Yet another slogan from the INDIA stable was 'Nyay' (Justice), a promise to address disparities and ensure equitable growth. The INDIA alliance has positioned itself as the protector of social justice, focusing on uplifting marginalised communities, ensuring minority rights and addressing caste-based and religious discrimination. The INDIA bloc has promised to tackle issues like farmer suicides, inadequate MSP (Minimum Support Price) and the need for comprehensive agrarian reforms. Of course, 'Save democracy' has been its main theme. The NDA's pitch was more country-centric security, \$5 trillion economy and so forth but INDIA's pitch was more about people, their sufferings and plight due to economic hardships. INDIA's focus on social justice and inclusivity is designed to attract voters who feel marginalised. Their promises to address agrarian distress and safeguard democratic values are aimed at rural voters, farmers and the educated urban electorate. Who really touched people's hearts, we shall get to know on June 4.

# Unveiling the enigma of an unusual election

In this election, accusations of tampering with constitutional values take centre stage, punctuated by issues such as the annulment of OBC certificates by the Calcutta HC

t is one of the strangest elections. Nobody speaks out. Visibly there is no wave. Election commission warn-ings to defaulting speakers are in nuances. More than the prices and unemployment, saving the Constitution has become the prime concern. This is an onslaught on their rights, asserting the Dalits, OBCs, Scheduled tribes and other marginalised classes. An issue raised by the Congress leader Rahul Gandhi seems to reverberate. Swelling crowds at Phulpur and Lalganj in the suburbs and Allahabad city at Congress and Samajwadi Party speak a lot.

Another key aspect is the campaigning gusto with the nominations by Rahul Gandhi at Rae Bareli and family friend Kishori Lal Sharma at Amethi. It is being called Rae Bareli syndrome. It has infused life to Indian alliance workers - AAP, Samajwadi Party and Congress almost everywhere. It has enthused the opposition parties, who now want to clinch the battle.

This is in sharp contrast to BJP leaders' meetings, which are marked by empty chairs as also apologetic clarifications that they are not for changing the statute. But the '400 paar' slogan of the BJP is being equated with a design to change the sacred Constitution of BR Ambedkar. The opposition, INDIA, seemingly has become a trailblazer and the ruling NDA is busy clarifying its

charges. Rally after rally of the NDA is countering the accusations of toying with the statute and trying to alter its basic principles. Selling of public sector assets to preferred private groups comes next. The rulers are saying that major PSUs like ISRO and HAL remain intact. They are, however, quiet on Indian Oil and Railways.

There are emerging issues like the sudden nullification of OBC certificates issued till 2010 by the Calcutta High Court. It is a double-edged sword that targets the Trinamool Congress Government in West Bengal and the Central overnment alike. Prices make the highest noise, followed by religion and Agniveer part-time soldiers supposedly compromising with the country's security.

with rapt attention. They have raised hopes. The ruling party guarantees are being scoffed at but Ram temple and minority bashing still matter in a large section of the UP and neighbouring areas of the cow belt. The resurgence of youth at the opposition parties reminds many of the days of post-emergency rallies and apologetic clarifications by the then prime minister Indira Gandhi. She was also called the Janata Party, a khichri or motley crowd

Five kg of free ration is no longer an issue. People have taken it for granted that they would have free ration anyway whosoever is in power. But jobs have become a major issue. Congress leader Rahul Gandhi's assurance of one lakh rupee a year for apprenticeship per unemployed is being lapped up so as Rs 1 lakh for every woman. "This money is for the family", Gandhi stresses

The top BJP leaders' assertion that "abhi to yah trailor hai" may be counter-productive considering the Supreme Court Stated Newsclick journalist Prabir Purakayastha's detention was illegal and released him. Gradually most news systems seem to be changing its delivery, a bid to

census and the slogan "jiski jitni sankhya bhari, uski utni *hissedari*". Yes, reservation is to stav and Indians have to grapple with it. The BJP has been painted not in a bright colour on this score by the opposition. Despite the Calcutta High Court cancellation of all OBC certificates and a tough stance against TMC leader Mamata Banerjee, it will not be easy to nullify the reservation in an aspirational jobless country.

Another peculiar aspect is the regional variations of the poll. Congress or its alliance partners are the principal opposi-tion in UP, MP, Rajasthan, Chhattisgarh, Telangana, Assam, Bihar, Jharkhand, Uttarakhand, Himachal, Maharashtra, Punjab and has even come out with some determination in Gujarat. Most southern States have secured tie-ups with the Congress.

BJP is fighting a straight battle in all those States as also in Bengal, Odisha, Assam, TARGETS THE TMC Tripura, Manipur, Mizoram, Nagaland and many other smaller States. The poll is being keenly contested and results are difficult to guess, particularly with the EC revis-**GOVERNMENT ALIKE** ing the total extra votes polled by over 1.7 crore. The jerky expressions of BJP leaders,

out new figures on the lower side. This gives jitters to the party cadre. It is another story that the cadre is mostly missing. They are not seen moving robustly in constituencies and managing the booths. It is being said that the cadre has been told by the organisation to stay put and not seek to vote for anyone.

The cadre apathy is said to be reflected in its performance. More so the voters are getting alerted by its slogan "abhi to yah trailor hai", spoken by top BJP leaders often, may not suit the BJP. Quite a few YouTube news channels and skits like "Dadi Poti ke Khat" have viewership in lakhs. These are setting the basics for election narratives across the country in different languages.

How these are influencing the voters would be known as boxes open on June 4. BJP leaders' shrill deliveries and the brash expressions from public platforms are not taken kindly. Still predicting the elections is not easy. The Election Commission adding to 1.7 crore votes to the numbers cast after a few days may do wonders. The election this time with regional flavours of all kinds and quiet voters may even fox the exit poll stalwarts if it is free and fair. Nobody should wonder if the post-June stressing on mangal sutra to l exit polls reflect a trend that Muslims instead of the could be different from the actual. # Believe in yourself, not in superstitions

SANJAY CHANDRA

Discovering happiness hinges on passion and diligence, not reliance on external predictors. Be your own lucky charm through hard work

n Sundays, I usually find myself glancing through the weekly forecasts in the newspapers. A favourable week ahead is enough to bring a smile to my lips. It is good fun for the moment. But it was not always so. A few decades ago, I was heading a major department in a Government production unit. Yet I was restless, not satisfied with the way my life was moving. Repeated visits to astrologers and their forecasts became the opium to soothe my frayed nerves. So much so that when I actually got another posting, I visited an astrologer for reassurance that the movement would be auspicious. As I moved into an entirely different role, I found that I loved the new job with the same zeal that I had displayed in my earlier workspaces. I realised a few years later that the key to my happiness was within me-a passion to immerse myself in the moment. I have not gone back to an astrologer since then. Years earlier, I was travel- measures taken by us, to with the State or city after

ling with my colleagues one night to catch a flight to Europe for a study tour. The driver braked the vehicle to an abrupt halt as a cat crossed the road. The driver was in a dilemma. It was not a good sign. He resolved the issue by reversing the car a few metres before continuing to ward off the ill effect. I was to remember the incident when I had to cut short my stay by a couple of days having caught stomach flu, probably consuming beer and other savouries during the Oktoberfest festivities in Germany. The feline in Delhi had no inkling of its role in my misfortune.

invoke the blessings, or even to ward off the evil, for an unknown future. Many of us have gone through the process of our mothers feeding us curd and sugar when leaving home for the examinations. The ritual did not help me with papers that I had not prepared well. I also remember my elders telling me not to call out a person leaving home to avoid ill luck, even if I

had something important to communicate.

This fear of the unknown is not limited to us only. Such superstitions abound even in the so called modern western world. We all have heard the myths of break a mirror and bad luck follows for 7 years, the curse of Friday the 13th, sneezes and blessings, fingers crossed, purse on the floor, money out of the door and countless others.

Cricket has been a craze in our country ever since I can remember. IPL is a relatively recent phenomenon that has fueled the frenzy to unimaginable heights. Fans root for players, who are not I am often surprised at the even remotely connected

which the team is named. The tournament has also sprouted several homegrown charms to ensure victory. I am surprised to see people continuing to remain standing or sitting for the duration of the match, controlling the uncomfortable urge to empty bursting bladders, or staying at home even at the cost of cancelling urgent engagements, among many other quirky behaviours.

A lucky charm would also work only if one acts, that too based on sound reasoning and an understanding of the risks involved. Even if one fails, it might not feel like the end of the world. Do it the other way round and it is a heady cocktail for disappointment.

American actress and comedian Lucille Ball's words inspire me to set myself free and be my own lucky charm: "Luck to me is something else: Hard work and realising what is opportunity and what isn't."

### **RESTORING PURI'S ANCIENT TEMPLE**

Madam — Apropos the news article, "ASI moves to restore 1400-year-old Shiva temple in Puri," published on May 29, this is my response. As a daily newspaper reader, the story of the Swapneswar Mahadev temple in Ódisha's Puri district resonates deeply. The recent discovery and imminent restoration of this 1300-1400-yearold marvel is both exciting and a reminder of the rich historical tapestry of our nation.

The temple, showcasing the unique Kalingan architectural style, had been neglected for years, buried under vegetation and obscurity. The Archaeological Survey of India's (ASI) efforts to designate it as a "monument of national importance" will ensure that it receives the attention and resources needed for preservation. This initiative, supported by various ministers and INTACH, reflects a commendable commitment to preserving our cultural heritage. The intricate stonework and historical significance of the temple are a testament to the craftsmanship of the post-Gupta era. Protecting such monuments is crucial, not just for their architectural beauty but for the cultural and historical legacy they represent.

#### **INDIA NEEDS MORE DEFENCE FUNDS**

Madam - Apropos the news article, "India needs substantial defence investment", published on May 29, this is my response. Reading the daily headlines reveals a complex landscape for India's defence strategy. The BJP's manifesto, promising a "Surakshit Bharat," emphasises achievements like the revocation of Article 370 and reductions in terrorism, yet recent attacks in J&K challenge these claims. Historical incidents, from the 2001 Parliament attack to the Pulwama tragedy, illustrate the persistent threat of terrorism.

The BJP touts surgical strikes as deterrents, but critics point to ongoing violence and the situation in Manipur as evidence of unmet challenges. The omission of China

propos news, "Delhi asks establishments to ensure firefighting equipment functional and there are no obstacles on staircases," published on May 29, this is my response. The loss of newly born lives in the heart-wrenching fire incident in a neonatal hos-

and Pakistan from the manifesto is concerning, especially given the unresolved tensions in Ladakh. Moreover, defence spending remains insufficient. Despite rising GDP, the allocation has dropped to under 2 per cent, far below what's needed to match China's military capability. With global trends showing increased defence investments, India must re-evaluate its priorities to effectively address its twin threats

and ensure robust national security. **Pratiksha Sharma** | *Ujjain* 

#### **END CASTE HATRED IN INDIA**

Madam — Apropos the article "Nurture dreams with open eyes and determination," published on May 29, this is my response. Sanjay Chandra rightly highlighted the importance of supporting others in their journey towards realising their aspirations. But to achieve fraternity among Indians, caste hatred is a major obstacle. The latest National Crime Records Bureau data show the crimes against Dalits increased from 50,744 in 2021 to 57,428 in 2022. The graph has been going up since 2013. There were 15,368 crimes against Scheduled

pital in East Delhi is a huge, irreparable loss for the bereaved families. The round of alledations and counter-allegations has started on the fire incidents.

The administration and Delhi Government should examine every technical and legal aspect to determine accountability. The explosion of an oxygen cylinder and fire due to a short circuit in a Delhi hospital is a serious case of negligence in safety parameters. The Central or State Government will have to make concrete arrangements to ensure that incidents of arson are not repeated anywhere. Fire safety-related infrastructure facilities should occasionally be audited and inspected without favour and waiver. Right now, the wellknown phrase befits on Delhi Government that the decadent and unpopular Nero "fiddled while Rome burned.<sup>3</sup>

Caste persons in 2022 in Uttar Pradesh, while MP ranked first in crimes against Scheduled Tribes from 2020 to 2022 However, the ugly apathy towards Dalits by the upper-caste members of the same religion is not just confined to these two States but all over India. In some schools in Tamil Nadu, students wear colour-coded wristbands to show their caste identity! This is a threat to the ideals of equality and fraternity. Even a machine cannot work if there is a conflict among its parts, let alone a State or a society. In his famous poem Apamanita (Insulted), Tagore said, "Whom you push down will pull you down." We cannot turn a blind eye to hatred, abuse, torture and exploitation towards our Dalit brothers and sisters. Political will and stringent punishment must be in place to prevent atrocities against Dalits. Also, Dalits should get proportional representation in every sector to counter caste-based nepotism

### **FIRSTCOLUMN TURNING A BOLD NEW LEAF IN FOREIGN POLICY**

India's geopolitical strategy is poised for transformation

### KUMARDEEP BANARJEE

n a week from now, a new central Government would be in place, picking up from where the last Government had left. If the BJP comes back to power for a third time, India's foreign policy push would be towards enhancing its stature globally. In a couple of interviews with various media, PM Modi has stressed a confident India now actually mediating on critical global affairs, than the earlier practise of being an observer. In most of the interviews, he mentions the role India played or continues to play, behind the scenes in the Ukraine situation, a sensitive topic. India has a historical relationship with Russia, which has never attempted to alter the relationship, however, Russia has of late started getting into a tighter embrace with China, cooperating on several critical projects including hydrocarbons and technology partnerships.

Meanwhile, India has grown closer to the US and has been rightly projected as a key ally for the Indo-Pacific region. PM Modi has also highlighted that his third term would ensure, that the Indian PM would be the senior most among democratically elected leaders, serving as he would post a decade of tectonic shifts in geo-political affairs. He hinted that a more confident India has to act more responsibly with its allies while expanding the network, especially with an aggressive China in the neighbourhood. It was no coincidence that external affairs minister S Jaishankar while delivering a key note on the Nikkei Future of Asia forum mentioned "The world is undergoing a flux - driven by geopolitical, geo-economic and geo-technological developments. In the last four decades, economic and political rebalancing accelerated by globalisation has been driving us towards multipolarity.

Today, the global order is visibly under stress, with Asia and the Indo-Pacific very much part of this transformation.But it is not just change we are seeing; there is also much greater risk-taking. It is visible in the conflict in Ukraine, in violence in the Middle East and the disregard for international law and agreements in Asia and the Indo-Pacific. This has economic facets, perhaps even more concerning. The supply chain challenge, over-concentrations stemming from globalisation and the use of economic coercion by States have put a premium on resilience and redundancy. Equally important is the technology challenge that has created a new level of inter-penetration and inter-dependence." Mr Jaishankar underscored India's future foreign policy roadmap with a firm focus on neighbours in the East, West and the Indian Ocean. He also highlighted the centrality of the Indo-Pacific in India's progress. Cross-border road infrastructure and integrated port facilities have found traction in India's external policy in the recent past The Iran-based Chabahar port, whose long-term maintenance contract India secured a few weeks back, providing access to crucial landlocked Central Asian countries and beyond is a recent example. External Affairs minister highlighted in his speech the pace at which road and rail networks are getting built in India, even when one of the largest democratic exercises in the world, India elections are underway. He said "The transformation of India is critical to strengthening multipolarity in Asia itself, a pre-requisite for a multipolar world. India's growing weight will ensure that the overall balance in the world order remains in favour of freedom, openness, transparency and a rules-based order. Equally, its greater sense of responsibility and more contributions are also making a difference. Indian naval ships are currently operating in the Red Sea to protect maritime shipping. India has been a First Responder for natural disasters across the Indian Ocean, sometimes even beyond." Without speculating for next week, it would be safe to assume a huge diplomatic outreach, awaits the new Government. (The writer is a policy analyst, views are personal)

# **RBI** dividend aids Government finances

analys \$ 07

The RBI's dividend transfer provides a substantial fiscal cushion to the cash-strapped Government, but it must be prudent in fiscal management and resource allocation

n the amendment to the Fiscal Responsibility and Budget Management (FRBM) Act through the Finance Bill 2018-19 (the amendment was based on the recommen-dations of Dr N K Singh's committee mandated to review the FRBM Act (2003)), the Modi - the Government had pledged to achieve fiscal deficit or FD (excess of total expenditure over total receipts) of 3 per cent of gross domestic product (GDP) by the FY 2020-21. Following the Corona pandemic that played havoc with the economy leading to plunging revenue and ballooning expenditure during 2020-21 and the resul-tant zooming of FD to 9.1 per cent, it changed this fiscal glide path.

In her budget speech for FY 2021-22, Union Finance Minister Nirmala Sitharaman announced the Government's decision to achieve FD of 4.5 per cent by FY 2025-26. From 9.1 percent during 2020-21, the FD descended to 6.7 percent during 2021-22; 6.4 percent during 2022-23 and 5.8 percent during 2023-24. For 2024-25, in the interim budget presented by her on February 1, 2024, she has set the target 5.1 per cent. If the Government can achieve this target, then 4.5 per cent for 2025-26 should be within easy reach. Against this backdrop, the Reserve Bank of India (RBI) has come up with a bonanza for the Centre. The RBI Board has approved a record dividend transfer of Rs 210,000 crore to the Centre for its (read: RBI) FY 2023-24. This will be reflected in the accounts of the central Government for the FY 2024-25. This amount is 2.4 times the dividend transfer of about Rs 87,400 crore made by the RBI for its FY 2022-23 and available for use by the Centre during 2023-24. Even when compared to the provision of about Rs 80,000 crore made by Sitharaman in the interim budget for 2024-25, the dividend amount available from the RBI i.e. Rs 210,000 crore for use by the central Government during the year will be over two-and-a-half times. This gives a cushion of Rs 130,000 crore (210,000-80,000). This translates to about 0.4 per cent of the GDP.

to the Government in managing its fiscal situation and ensuring easy compliance with the 5.1 per cent target, there is no room for complacency.

First, it shouldn't forget that the new glide path of 4.5 per cent for 2025-26 is way behind the original FD target of 3 per cent for 2020-21 as per the FRBM (Amendment) Act 2018. The Corona pandemic of 2020 was once in a lifetime event. Its impact was transitory and it won't be logical to use it as a basis for altering the medium-term fis-cal trajectory. This is all the more when from 2021-22 onward, the economic situation was more or less back to normal.

The Government ought to be aim-ing at an FD target of 3 per cent by 2025-26 and going by this benchmark, it has still a long way to go. Second, we need to assess things from the RBI perspective. Unlike a public sector bank (PSB) or any other public sector undertaking

short tenures, such as overnight. Its expenditure is mainly on the printing of currency notes and staff, besides the commission it gives to banks for undertaking transactions on behalf of the Government across the country and to primary dealers, including banks, for underwriting some of these borrowings. The excess of income over expen-diture is the "surplus".

After making provision for bad and doubtful debts, depreciation in assets, contributions to staff and superannuation fund, etc. and for all matters provided for under the RBI Act (1934), the balance of surplus is paid to the Union Government by Section 47 (Allocation of Surplus Profits) of the Act. Apart from this routine stuff, the financial crisis in the early 90s, when India's foreign exchange reserves had plummeted to a level barely enough to buy two weeks of imports, brought to the fore a dire need to prepare the RBI for dealing with unexpected and unforeseen' events by enhancing its capac-ity to absorb financial shocks, ensure financial stability and provide confidence to the markets. So, it started transferring part of the surplus to a 'Contingency Fund'. This was in line with the recommendation of a committee to build contingency reserves (CR) of 12 per cent of its balance sheet. In 2013, a panel led by Y H Malegam, then a member, of the RBI board, also reiterated the need for building CRs. Subsequently, in its annual report for 2015-16, the central bank alluded to a "draft economic capital/provisioning framework to assess its risk-buffer requirements in a structured and systematic manner."Meanwhile, in 2018, the RBI set up a Committee on Economic Capital Framework (ECF) under Dr Bimal Jalan. The Committee recommended that the RBI should maintain a minimum

5.5 - 6.5 per cent of its balance sheet as risk buffer. The ECF was to remain in force for five years. The RBI adopted the ECF on August 26, 2019. During accounting years 2018-19 to 2021-22, it determined the surplus transferred to the Union Government taking the CRB at the lower end of the range i.e. 5.5 percent of its balance sheet. For arriving at the transferrable surplus during 2022-23, the CRB was increased to 6 per cent. However, for calculating the amount for 2023-24, it has used the higher end of the band prescribed by the Committee i.e. 6.5 per cent. The surge in dividend transfers for 2023-24 over 2022-23 despite the increase in CRB is due to the substantial increase in the RBI's interest. income from foreign securities as well as exchange gain from foreign exchange transactions (according to the State Bank of India (SBI), these two factors accounted for 60 - 70 per cent o the increase in income of the RBI from Rs 235,000 crore during 2022-23 to around Rs 375,000 400,000 crore during 2023-24). This in turn was due to a sharp hike in interest rates by the US Fed and central banks of other developed countries; the hikes were prompted by the dire need to bring down high inflation in those countries. But the situation may not be sustained as the US Fed prepares to move the interest rate 'south' from the latter half of 2024 and other central banks follow suit. Even if it doesn't happen so soon and RBI repeats its performance during 2025-26, it would do well to retain more surplus with itself in the CRB. As a matter of prudent policy, the Centre should avoid riding piggy-back on the RBI for managing its FD.

While carrying out these functions or operations, it generates a surplus. ### EU roots for a shift from free trade to fair trade on global stage EU's Corporate Sustainability Due Diligence Directive (EUCSDDD) sparks a global trade paradigm shift

Reference Trade Agreements or Sustainable Trade Agreements? The EU's Corporate Sustainability Due Diligence Directive (EUCSD-DD) raises this crucial question of choices, challenging the norms of international commerce in vogue for the last few decades. Imagine a world where every product purchased carries a hidden storya tale of the well-being of the farmers and their families, environments preserved and corporate integrity maintained. The European Union's proposed Corporate Sustainability Due Diligence Directive (UCSD) is a landmark piece of legislation towards that direction. It compels European companies to identify and mitigate environmental and human rights risks throughout

their supply chains. It also underscores living wages and incomes as human rights, insists on responsible management of supplier relationships and emphasises the necessity of meaningful stakeholder engagement to enhance transparency and accountability in human rights and environmental practices. However, the EUCSDDD's impact could extend far beyond Europe's decision-making and public

However, the European Union has emerged in the past five decades as a powerful force in shaping the global conversation around sustainable international trade. The EU's early environmental regulations, like clean air and water directives, weren't just about protecting its citizens. By making stricter environmental standards a prerequisite for access to its vast market, the EU created a ripple effect. This, in turn, strengthens India's negotiating position in the ongoing Free Trade Agreement talks with the European Union.

# **HK court convicts 14 pro-democracy activists** in the city's biggest national security case

### AP HONG KONG

Hong Kong court on AThursday convicted 14 pro-democracy activists in the city's biggest national security case under a law imposed by Beijing that has all but wiped out public dissent.

CHANDIGARH | FRIDAY | MAY 31, 2024

Those who were found guilty included former lawmakers Leung Kwok-hung, Lam Cheuk-ting, Helena Wong and Raymond Chan. But the three judges approved by the government to oversee the case acquitted former district councilors Lee Yue-shun and Lawrence Lau. Those convicted could face life in prison.

They were among 47 democracy advocates who were prosecuted in 2021 for their involvement in an unofficial primary election. Prosecutors had accused them of attempting to paralyse Hong Kong's government and topple the city's leader by securing the legislative majority necessary to indiscriminately veto budgets. Observers said their subversion

case illustrates how the security law is being used to crush the political opposition following huge anti-government protests in 2019. But the Beijing and Hong Kong governments insist the law has helped bring back stability to the city and that judicial independence is being protected. When Britain handed Hong Kong back to China in 1997, Beijing promised to retain the city's Western-style civil liberties for 50 years. However, since the introduction of the 2020 law, Hong

### **Catalonia's separatists** to get Spain amnesty

### AP MADRID

Spain's Parliament voted Thursday to give final approval to a controversial amnesty law for hundreds of Catalan separatists involved in the illegal and unsuccessful 2017 secession bid.

The legislation was backed by Spain's left-wing coalition government, two Catalan separatist parties, and other smaller parties. It pass by a vote of 177-172 in the lower house with the conservative Popular Party and far-right Vox opposing it. The amnesty could benefit for-

mer Catalan regional president Carles Puigdemont, who is a fugitive from Spanish law in Belgium after fleeing his country following the Oct. 2017 breakaway bid that he led. It should also help out hundreds more, including former government officials in Barcelona, average citizens who

participated in the secession attempt or protests, and some police officers involved in the crackdown on an illegal independence referendum held by Puigdemont's government. The passing of the amnesty law,

however, does not immediate-ly clear up the legal mess of the separatists. The law is likely to face legal

challenges and will be reviewed by higher courts. It also must be applied by courts on a caseby-case basis. There are experts who ques-

tion its constitutionality since they say it would create inequality between Spanish citizens by favoring some over others.

#### AP NEW YORK

The jury in Donald Trump's hush money trial ended its first day of deliberations without a verdict on Wednesday but asked to rehear testimony from key witnesses about the alleged hush money scheme at the heart of the history-making case

The 12-person jury was sent home around 4 pm after about 4 1/2 hours of deliberations. The process is to resume on Thursday, when jurors are expected to rehear the requested testimony and at least part of the judge's legal instructions meant to guide them on the law.

The notes sent to the judge with

the requests were the first burst of communication with the court after the panel of seven men and five women was sent to a private room just before 11:30 am to begin weighing a verdict.

"It is not my responsibility to judge the evidence here. It is yours," Judge Juan M. Merchan told jurors before dispatching them to begin deliberations, reminding them of their vow during the selection process to judge the case fairly and impar-tially.

It's unclear how long the deliberations will last. A guilty verdict would deliver a stunning legal reckoning for the presumptive Republican presidential nominee as he seeks to

reclaim the White House while an an acquittal would represent a major win for Trump and embolden him on the campaign trail.

Since verdicts must be unanimous, it's also possible that the case ends in a mistrial if the iury cannot reach a consensus

after days of deliberations. Trump struck a pessimistic tone after leaving the courtroom following the reading of jury instructions, repeating his assertions of a "very unfair trial" and saying: "Mother Teresa could not beat those charges, but we'll see. We'll see how we do.

He remained inside the courthouse during deliberations, where he posted on his social

his 2016 Republican presiden media network complaints about the trial and quoted legal and political commentators who view the case in his favour.

In one all-capital-letters post, he proclaimed that he didn't even "know what the charges are in this rigged case", even though he was present in the courtroom as the judge detailed them to jurors.

He did not testify in his own defense, something the judge told jurors they could not take into account.

Trump is charged with 34 counts of falsifying business records at his company in connection with an alleged scheme to hide potentially embarrassing stories about him during

tial campaign. The charge, a felony, arises

from reimbursements paid to then-Trump lawyer Michael Cohen after he made a USD 130,000 hush money payment to porn actor Stormy Daniels to silence her claims that she and Trump had sex in 2006.

Trump is accused of misrepresenting Cohen's reimbursements as legal expenses to hide that they were tied to a hush money payment.

Trump has pleaded not guilty and contends the Cohen payments were for legitimate legal services. He has also denied the alleged extramarital sexual encounter with Daniels.

# Iran opens registration for June presidential election

#### AP DUBAI

ran opened a five-day regis-Iran opened a five car, - o tration period Thursday for hopefuls wanting to run in the June 28 presidential election to replace the late Ebrahim Raisi, who was killed in a helicopter crash earlier this month with seven others.

The election comes as Iran grapples with the aftermath of the May 19 crash, as well as heightened tensions between Tehran and the United States, and protests including those over the 2022 death of Mahsa Amini that have swept the country.

While Supreme Leader Ayatollah Ali Khamenei, 85, maintains final say over all matters of state, presidents in the

past have bent the Islamic Republic of Iran toward greater interaction or increased hostil-

ity with the West. The five-day period will see those between the ages of 40 to 75 with at least a master's degree register as potential candidates. All candidates ultimately must be approved by Iran's 12-member Guardian Council, a panel of clerics and jurists ultimately overseen by Khamenei. That panel has never accepted a woman, for instance, nor anyone calling for radical change within the country's governance.

Ahmad Vahidi, Iran's interior minister, opened the registration period. The Interior Ministry, in charge of the country's police, run Iranian elec- hard-line cleric sanctioned by

tions with no substantial international observation. These elections, like the par-

liamentary elections, will be held in complete safety and health, with good competition and wide participation of all dear people," Vahidi said. Raisi, a protege of Khamenei, won Iran's 2021 presidential election after the Guardian Council disqualified all of the candidates with the best chance to potentially challenge him. That vote saw the lowest turnout in Iran's history for a presidential election. This year's parliamentary vote saw an even-lower turnout amid widespread boycott calls. That likely was a sign of voters' discontent with both a

the US in part over his involvement in mass executions in 1988, and Iran's Shiite theocracy over four decades after its 1979 Islamic Revolution.

Who will run — and potentially be accepted — remains in question. The country's acting president, Mohammad Mokhber, a previously behind-the-scenes bureaucrat, could be a front-runner, because he's already been seen meeting with Khamenei. Also discussed as possible aspirants are former hard-line President Mohammad Ahmadinejad and former reformist President Mohammad Khatami — but whether they'd be allowed to run is another question.

The five-day registration peri-od will close on Tuesday. The Guardian Council is expected to issue its final list of candidates within 10 days afterwards. That will allow for a shortened two-week campaign before the vote in late June.

The new president will take office while the country now enriches uranium at nearly weapons-grade levels and hampers international inspections. Iran has armed Russia in its war on Ukraine, as well as launched a drone and missile attack on Israel amid the war in Gaza. Tehran also has continued arming proxy groups in the Middle East, like Yemen's Houthi rebels and Lebanon's Hezbollah militia.

#### AP DUBAI

Greek-owned, Marshall Alslands-flagged bulk carrier that came under attack by Yemen's Houthi rebels earlier this week had a cargo of grain bound for Iran, the group's main benefactor, authorities said Thursday

The attack on the Laax comes as the Houthis continue their attacks on shipping throughout the Red Sea corridor, part of a campaign they say aims at pressuring Israel and the West over the war in Gaza. However, as shipping through that artery has dropped during the months of attacks, the rebels have struck vessels associated with Iran, as well as Tehran's economic lifelines of China and Russia. Initially after the attack, the Laax had listed its destination as Fujairah in the United Arab Emirates. On Thursday, however, its listed destination instead appeared to be Bandar Khomeini, Iran.

A statement released by French naval forces based in the UAE that patrol the Middle East also identified the vessel's grain shipment as being bound for Iran. It said that a team from Djibouti had inspected the damage caused by the attack, which it said involved both drones and missiles, and found no remaining dangerous explosives onboard

the ship. Images released by the French navy showed damage both at the waterline of the vessel, as well as on its deck.

Tuesday's attack saw five missiles hit the Laax during the hourslong assault, the private security firm LSS-SAPU told The Associated Press. LSS-SAPU, which earlier helped evacuate mariners from the Houthi-attacked Rubymar that later sunk, said there had been no prior warning by radio from the Houthis.

LSS-SAPU had three armed security guards onboard the Laax at the time of the attack. Among the ship's crew were 13 Filipinos and one Ukrainian.

President Kais Saied, Emirati President Sheikh Mohammed bin Zayed Al Nahyan and Bahrain King Hamad. The China-Arab States Cooperation Forum was estab-

trading partner after Germany, Italy and France. Beijing has financed hospitals and sports complexes in Tunisia, and its companies have been contract-ed to build strategic infrastructure such as bridges and deep-water Mediterranean

Besides China's expansive trade ties in the Middle East, it has increasingly sought to play a diplomatic role in the region. Last year, Beijing helped broker an agreement that saw Saudi Arabia and Iran reestablish ties after seven years of tension in a role previously reserved for longtime global heavyweights like the US and Russia.

Violence in the West Bank has surged throughout the war in Gaza as Israel raids Palestinian towns in the territory to crack down on militancy, with incursions resulting in the deaths of more than 500 Palestinians. In the Gaza Strip, Palestinians in the border city of Rafah reported heavy fighting Wednesday, and Israel's mili-tary said it seized control of

the entire length of Gaza's border with Egypt. Fighting in Rafah has already

### Battered pier adds to Gaza food crisis

### **AP** WASHINGTON

Astring of security, logistical and weather problems has battered the plan to deliver desperately needed humanitarian aid to Gaza through a US military-built pier.

Broken apart by strong winds and heavy seas just over a week after it became operational, the project faces criticism that it hasn't lived up to its initial billing or its USD 320 million price tag. US officials say, however, that the steel causeway connected to the beach in Gaza and the floating pier are being repaired and reassembled at a port in southern Israel, then will be reinstalled and working again next week. While early Pentagon estimates suggested the pier could deliver up to 150 truckloads of aid a day when in full operation, that has yet to happen. Bad weather has hampered progress getting aid into Gaza from the pier, while the Israeli offensive in the southern city of Rafah has made it difficult, if not impossible at times, to get aid into the region by land

routes. Aid groups have had mixed reactions — both welcoming any amount of aid for starving Palestinians besieged by the nearly eight-month-old Israel-Hamas war and decrying the pier as a distraction that took pressure off Israel to open more border crossings, which are far more

productive İt's "a side-show," said Bob Kitchen, a top official of the International Rescue Committee. The Biden administration has said from the start that the pier wasn't meant to be a total solution and that any amount of aid helps.

'Nobody said at the outset that it was going to be a panacea for all the humanitarian assistance problems that still exist in Gaza? national security spokesman John Kirby said Wednesday. "I think sometimes there's an expectation of the US military because they're so good - that everything that they touch is just going to turn to gold in an instant."

### Chinese man allegedly running 'world's largest-ever' cybercrime botnet arrested

### AP WASHINGTON

An international law enforcement team has arrested a Chinese national and disrupted a major botnet that officials said he ran for nearly a decade, amassing at least USD 99 million in profits by reselling access to criminals who used it for identity theft, child exploitation, and financial fraud including pandemic relief scams. The US Department of Justice quoted FBI Director Christopher Wray as saying on Wednesday that the "911 S5" botnet — a network of malware-infected computers in nearly 200 countries - was likely the world's largest.

Justice said in a news release that Yunhe Wang, 35, was arrested May 24. Wang was arrested in Singapore, and search warrants were executed there and in Thailand, the FBI's deputy assistant

director for cyber operations, Brett Leatherman, said in a LinkedIn post. Authorities also seized USD

29 million in cryptocurrency, Leatherman said. Cybercriminals used Wang's net-work of zombie residential com-puters to steal "billions of dollars from financial institutions, credit card issuers and accountholders, and federal lending programs since 2014", according to an indictment filed in Texas' eastern district.

North Korea on Thursday fired a barrage of suspected ballistic missiles toward its eastern sea, according to South Korea's military, days after its attempt to launch a military reconnaissance satellite ended in failure but still drew strong condemnation from its rivals. South Korea's Joint Chiefs of Staff said it detected the North firing around 10 projectiles that appeared to be shortrange ballistic missiles from an area near its capital, Pyongyang. It said the suspected missiles flew around 350 kilometers (217 miles) before landing in waters off the North's eastern coast. It said the South Korean military has increased surveillance and vigilance and is closely sharing information with the United States and Japan.

Japan's coast guard issued a maritime safety advisory over the North Korean launches and urged ships to exercise caution if they find any fallen

that the suspected missiles were believed to have landed in waters outside of Japan's exclusive economic zone and there were no immediate reports of damages. He said Tokyo "strongly condemns" the launches, which are in violation of U.N. Security Council resolutions against the North. Tensions on the Korean Peninsula have increased in recent months as the pace of both North Korea's weapons

testing and South Korea's combined military exercises with the United States and Japan have intensified in a cycle of titfor-tat Thursday's launches came after North Korea flew hundreds of trash-carrying balloons toward the South since Tuesday night in retaliation against South Korean activists flying anti-North Korean propaganda leaflets across the border. North

Korean leader Kim Jong Un had warned of unspecified "overwhelming actions" against

South Korea after it staged an aerial exercise involving 20 fighter jets near the inter-Korean border hours before North Korea attempted to launch its second military reconnaissance satellite.

The rocket exploded shortly after liftoff, but Kim has urged his military scientists to overcome the failure and continue developing space-based recon-

range ballistic missiles. The North had successfully launched its first military spy satellite in November, but Monday's failure posed a pos-sible setback to Kim's plans to launch three more military spy satellites in 2024. "We will never tolerate any moves of the hostile forces to violate the inviolable sphere under the exercise of sovereignty nor step back from having access to the space reconnaissance capability which should be done surely no matter what others may say," North Korean Vice Foreign Minister Kim Son Gyong said in a statement published on

Kim Son Gyong's statement came as response to UN Secretary-General Antonio Guterres' condemnation of Monday's launch, which he called a violation of Security Council resolutions that prohibit the North from conducting any launches involving ballistic missile technology.

The size of Reserve Bank's balance sheet increased by 11.08 per cent to Rs 70.47 lakh crore as on March 2024, leading to the highest-ever dividend payout to the government, according to the central bank's annual report. In actual terms, the increase was Rs 7,02,946.97 crore over Rs 63.45 lakh crore as on March 2023.

CHANDIGARH | FRIDAY | MAY 31, 2024

The central bank's net income stood at Rs 2.11 lakh crore at end-March 2024 after making a provision of Rs 42,819.91 crore, significantly down from Rs 1,30,875.75 crore in the preceding fiscal. The amount made towards provisioning is transferred to Contingency Fund (CF).

The net income during 2022-23 was Rs 87,420 crore. Like 2022-23, no provision

was made towards Asset Development Fund (ADF) during the year under review. The balance sheet of the Bank Reserve reflects activities carried out in pursuance of its various functions including issuance of currency as well as monetary policy and reserve

Markets regulator Sebi on Thursday significantly reduced the time taken by stock exchanges for granting approval to stock brokers for internet-based trading to seven days from the current 30 days.

The move is aimed at facilitating ease of doing business.

Under the rule, the broker is required to apply to the respective stock exchange for a formal permission to

provide internet-based trading service.

Further, the stock exchange, calendar days, will now have which was required to to do so within 7 days, the communicate its decision to the member within 30 Board of India (Sebi) said in

its circular. The internet trading can take place through order routing systems, which will route client orders to exchange trading systems for execution. Thus a client sitting in any part of the country can trade using the internet as a medium through brokers' internet trading systems. Additionally, the regulator has abolished the existing requirement of periodic requirement of periodic confirmation of internet-based trading (IBT) statistics by stock brokers before they are published by stock exchanges.

Instead, exchanges would publish IBT statistics on the basis of details of IBT terminals provided by stock brokers. Further, exchanges, in this regard, can obtain information/declaration about IBT terminals from stock brokers as deemed fit by them.

The decision has been taken after Sebi received requests pertaining to internet-based trading from the Industry Standard Forum (ISF) of stock brokers.

The new guidelines will be applicable with immediate effect, Sebi said.

### Capital needs to remain high for corporates: Moody's

### PTI NEW DELHI

Moody's Ratings on Thursday said capital requirements will remain high for Indian corporates as they go in for capacity expansion and inorganic growth spending. Moody's estimates that 16 of the 23 rated companies will require USD 70-100 billion of funding annually in the next two years for growth spending, refinancing requirements and shareholder payments.

While improving domestic liquidity and companies' internal cash flows can cover a large portion of their capital needs, offshore funding will remain an important funding channel, it said.

"Capacity expansion, inorganic growth spending, refinancing and working capital needs, along with shareholder payments, will keep capital requirements for nonfinancial high corporates in India,' Moody's Ratings said in a statement. It said capital spending by non-financial corporates will remain high as they expand their capacities to cater to the strong consumption growth expected in the country, at a time when their capacity utilisation is already high. strong

Expectations of consumption growth are driven by India's growing population, rising disposable incomes and favourable demographic trends, including a young population and rising urbanisation, Moody's said.

gainst an error-prone Marin With a powerful body smash Sindhu took a massive 11-6 lead and maintained her authority to extend it to 15-8. The third-seeded Marin tried to come back but Sindhu held her ways and sealed it comfortably.

But the Spaniard world No 3 bounced back strongly in a lopsided second game wherein she won six points on the trot and cruised to 17-7 lead to force a decider. Maintaining her lead, Sindhu

nosed 11-9 ahead in the final mid-game interval as she unleashed a powerful body smash to make it 14-10. Sindhu exhibited a brilliant

drop shot as she went two points shy of an elusive win against Marin making it 19-17. But the Indian lost her composure as she found the net, allowing Marin to bounce back and get a match point at 19-20.

Marin, however, shot it wide as the game hung in balance at 20-all before the Spaniard got another match point with her fiery smash. But this time, Marin had the

last laugh with Sindhu erring on her judgment on back court. This was Marin's 12th career win from 17 matches against the Indian.

## Praggnanandhaa claims maiden classical win over Carlsen

### PTI STAVANGER (NORWAY)

Indian Grandmaster R Praggnanandhaa crushed world number one Magnus Carlsen for the first time in Classical format to emerge as the sole leader in the Norway chess tournament here.

Having beating him a few times in online and faster versions of the game and after losing to him in the finale of the last World Cup, Praggnanandhaa finally got past the home favourite in what would be known as a clear classical triumph.

Following the third-round win, the 18-year-old Indian now leads the men's section with 5.5 points in all, half a point clear of USA's Fabiano Caruana who scored his first victory in classical against reigning world champion Ding Liren of China.

Carlsen, on three points, looks like a distant third for now in the updated standings but with each classical win worth three points, this might not hold

for too long. Hikaru Nakamura of United States, Firouzja Alireza of France and Liren are all joint fourth currently on 2.5 points in the six-player double round-robin contest.

"I wish Magnus would take similar risks against us old folks," said Nakamura on Carlsen's choice of playing a risky battle against Praggnanandhaa.

Classical chess, also known as slow chess, allows players significant amount of time to make their moves, usually at least one hour. Carlsen and Praggnanandhaa had drawn their previous three encounters in this format In the women's event, Praggnanandhaa's elder sister R Vaishali Vaishali maintained her sole lead after getting past Anna Muzychuk of Norway in the Armageddon game after drawing the Classical.

It was a Sicilian Kann, an opening that does not find many favours in the elite chess circles, wherein Praggnanandhaa got an advantage through better space control right from the beginning. The middle game saw

Magnus' king stuck in the centre and the Indian super-talent capitalised with some deft manoeuvres after the minor pieces were off the board. Eventually, the King's vulnerability came to

# Celebrations in Greece as Olympiakos beats Fiorentina 1-0 for first European title

#### AP ATHENS (GREECE)

Setting off wild celebrations in Athens, Olympiakos won Greece's first European club title by beating Fiorentina 1-0 with a goal in extra time of the Europa Conference League final on Wednesday.

Ayoub El Kaabi provided the dramatic ending, diving to nudge in a last-gasp goal in the second period of extra time, with fans erupting in celebration after a lengthy wait for a VAR check for offside.

"Praise be to God, we promised our supporters we'd do this today and we did it," El Kaabi said. The Morocco striker - who

finished as the competition's Olympiakos coach Jose Luis top scorer - struck in the 116th

minute of the match and dropped to his knees as he waited to see if the goal would stand after he had met a cross

from Santiago Hezze. The goal decided a game that had looked destined for a penalty shootout following an

energetic but largely risk-free encounter at AEK Arena, and condemned Fiorentina and its coach Vincenzo Italiano to a second straight defeat in the final of the Europa Conference League after losing last year to West Ham.

"We created chances and had the opportunity to lift the cup but unfortunately it didn't happy - I'm sorry," Italiano said. "In Europe it's not an easy thing to get this far and lose."

# **WEARING INDIA JERSEY IS** DIFFERENT FEELING, HOPE TO MAKE IT COUNT: RISHABH PA

### PTI NEW YORK

It would be 527 days since his life-threatening accident when Rishabh Pant dons the India jersey on June 5 at the Nassau County ground for the opening T20 World Cup match against Ireland and he can't wait for it.

On March 23 this year, Pant wore the blue of Delhi Capitals while making an emotional comeback after the horrific car crash in 2022 but he is more eager to wear a different shade of blue -- the 'India Blue' to be specific. "Getting back on the field with

an Indian jersey on is a different feeling altogether. This is something I missed a lot...Hopefully I (can) make it count and make it better from here," Pant told BCCLTV on the sidelines of India's first net session ahead of the warm-up

Pant, who underwent an intense 15-month rehabilitation at the National Academy, Cricket had teammate Suryakumar Yadav for company during this interaction and recalled the time how his presence helped him cope with the loneliness of his injury management programme in the NCA.

Seeing the team here and meeting them again, spending time, having fun with them, having a conversation with them, I really enjoyed," a beaming Pant said. Having scored 446 runs in 13

The women's team, along with the senior India men's squad, is in the United Kingdom for the FIH Pro League fixtures starting this weekend.

I just think everything he's done, whether it be red-ball or done, white-ball in the last couple of years, has been of the highest quality. I think he's playing fearless cricket at the moment," said the legendary batter

Despite his exploits with the bat, Head had a bat, disappointing finish to the IPL as he was dismissed for three ducks in his last four

outings. "His IPL had its ups and downs, but when it's been good, it's been very good. It has won games of cricket for his team," said Ponting of his compatriot. "It'll be exactly the same for

Australia. He might not be the most consistent on the through way this tournament, but he'll be right up there with the leading run scorers. As I've said, if he spends any amount of time at the wicket for Australia, he'll win more games than ever." The T20 World Cup will be

held in the West Indies and the USA from June 2 to 29.

#### PTI NEW DELHI

With cricket's slam-bang version set for its ninth World Cup, PTI gives a rundown on the leading rungetters and the ones with best strike rates in the T20 showpiece.

### LEADING RUN GETTERS

Virat Kohli [1141 runs]: Who else at No. 1 but the King himself? The talismanic Indian batter has been an absolute beast in the marquee event, scoring over a thousand runs across five editions. His ability to thrive under pressure and deliver match-winning performances has cemented his reputation as one of the finest batters in T20 cricket.

He holds the record for most runs in a single edition of the tournament — 319 in 2014. He was also sensational in the 2016 edition, scoring 296 runs. Mahela Jayawardene [1016 runs]: The now retired Javawardene's performances in T20 World Cups have been instrumental in former champions Sri Lanka's success in the tournament. He was a consistent scorer across the five editions he played.

Chris Gayle [965 runs]: One of the most prolific and entertaining hitters in cricket history, Gayle is widely regarded as one of the most destructive batters, particularly in T20s. No longer competing for the West Indies, his performances in T20 World Cups have been nothing short of spectacular, making him a fan favourite and an important player for the West Indies when they won their maiden title in 2012.

Rohit Sharma [963 runs]: The current India skipper has been a key player for his team in the T20 World Cups, especially after taking on the opening position. His ability to score big runs and provide stability at the top of the order has been crucial for India's success in the tournament.

He has played all editions. scoring 963 runs, including 91 fours at a strike rate on 127.88. Tillakaratne Dilshan [897

runs]: The leading run-scorer in the 2009 edition with 317 runs from seven matches, the retired Dilshan, with his aggressive batting style and ability to provide quick starts at the top of the order, was a vital cog in the Sri Lankan team's lineup across six editions. efforts. HIGHEST STRIKE RATES

### Buttler
