RAJESH KUMAR ■ NEW DELHI

elhi Chief Minister Arvind Kejriwal walked out of Tihar Jail on Friday evening, hours after the Supreme Court granted him interim bail until June 1 so that he can campaign for the Lok Sabha elections. As he exited through gate number 4, Kejriwal was welcomed by a sea of AAP workers, as well as senior leaders like Punjab Chief Minister Bhagwant Mann, Atishi, and Saurabh Bhardwaj. His wife Sunita Kejriwal, his

daughter Harshita and AAP Rajya Sabha MP Sandeep Pathak turned up outside the jail to give him a rousing welcome with workers chanting slogans and Kejriwal waving to his supporters. As Kejriwal left from Tihar in his convoy clad in yellow T-shirts, AAP supporters danced to dhol beats and fed each other sweets at the party office here on Friday.

In a major relief to embattled Aam Áadmi Party (AAP) convener and Deĺhi Chief Minister Arvind Kejriwal, the SC on Friday granted him interim bail in a money laundering case at the peak of the election season but barred him from visiting his office or the Delhi Secretariat and signing official files unless absolutely necessary for obtaining the Lieutenant Governor's approval.

He has been asked to surrender to the prison authorities by June 2. Iune 1 is the last day of the sevenphase elections. The votes will be counted on June 4. Kejriwal's release from jail, however transient, is expected to give a

Akshay Tritiya fails to add glitter in Chhattisgarh bullion market

Due to rising prices, demand for light jewellery is on a high

SHRI RAM SHAW RAIPUR

With the Lok Sabha elections still on in the country and the absence of weddings, the Akshaya Tritiya on Friday saw a recession in the bullion market. Although the festival was celebrated, expected glow was missing from the markets across country including Chhattisgarh.

Speaking to the The Pioneer, Uttam Golcha, Treasurer of the Chhattisgarh Chamber of Commerce and Industries in Raipur; said: "Today the market was a little weaker than expected. The main reason is that this time only 10 percent of the marriages took place on Akshaya Tritiya. Another reason is that the price has increased by about 15 percent in the last two months." Pankaj Arora, the national

President of the All India Jewellers and Goldsmiths Federation (AIJGF), told The Pioneer that due to the increased prices of gold and silver and the ongoing Lok Sabha elections, the sales in the bullion markets in the country were affected. Arora said: "Last year the

price of gold was Rs 60,000 per 10 grams, which has now crossed Rs 72,000. Hence, the total sales across India this time are expected to be 20 percent as compared to last time. That is, the total bullion this time is estimated

to be the sale of 5 tonnes of gold including coins and jewellery, or around Rs 3600 crore. The sale of 200 tonnes of silver is estimated to be worth around Rs 1,640

"Last year, in Delhi alone there was a sale of around 300 kg of gold -- worth Rs 216 crore and 1,700 kg of silver --. Rs 14 crores. The price last year of silver was Rs 75,000 and this year it is Rs 83,000 per kilo.' Arora said that due to the

rising prices, the demand for light jewellery was high in the markets. Shopkeepers across the country have a good collection and many attractive schemes are popular in the markets. Kedia, General

He said the model code of conduct still in place due to the elections was also affecting the bullion trade. There is a ban on transfer of more than Rs 50,000 in cash, due to which customers are hesitant to come to the market. Due to higher prices, today even 7 grams of gold is not available for Rs 50,000.

The AIJGF will demand from the Election Commission to increase the limit of cash transfer from Rs 50,000 in future because the prices of precious metals will increase further in times ahead,"

Cong plotting to kill Hindu faith: Modi

PIONEER NEWS SERVICE HYDERABAD/NANDURBAR (MAHARASHTRA)

Prime Minister Narendra Modi, who returned to campaigning on Friday after a day's break, hit out at the Congress while addressing a rally in Maharashtra, saying the party is "conspiring to eliminate the Hindu faith in India". Modi also accused the Congress of spreading regarding and reservations Constitution.

Alleging that the Congress' "hatred" towards Hindus and their culture is being exposed daily,

Modi said the leader who tutors 'shehzada' also said Ram temple should not have been built Avodhva. He has declared that

construction of Ram temple at Ayodhya" and celebrating Ram Navami is against the idea of India, Modi claimed. "I go to the temple with

great pride. He has given a certificate that even this is anti-national," he said. In another rally

Hyderabad, Modi said the national party is "anti-Hindu" and it knows religion-based reservations are unconstitutional. "The Congress wants to make second-class Hindus citizens in their own country. Are they talking about vote jihad because of this?" he questioned.

Addressing an election rally in Mahabubnagar Lok Sabha constituency, Modi said the 'shehzade' of Congress (Rahul Gandhi) started off with 'mohabbat ki dukaan' before polls which lost steam as elections approached.

"The 'shehzade' (prince) is now poisoning society by speaking of supporting tukde-tukde gang," he claimed.

In a veiled reference to Congress leader Pitroda's Sam recent remarks, he said the 'shehzade's advisor' who lives in America described

South Indian people as looking like Africans, which the PM claimed implied that Telangana people look like Africans. "You know why, because he doesn't like your skin colour. Now Congress will

n old video of another An old video of an Asenior Congress leader, who has served in the Cabinet of several Prime Ministers, Mani Shankar Aiyar, has provided fresh ammunition to the BIP on Friday to attack the Congress, which, a few days ago, had worked hard to douse the flames ignited by its leader Sam Pitroda. In the midst of an aggressive

Lok Sabha campaign, the BJP seized upon them, accusing the grand old party of being an apologist for Pakistan and the terrorism emanating from its soil. Meanwhile, the Congress

again quickly distanced itself from Aiyar's comments. His remarks on Prime Minister Narendra Modi ahead of the 2014 general elections left a scar on the Congress till now. In the video, which has gone viral on social media, Aiyar is heard saying that India should respect Pakistan as it is a sovereign nation and engage with it since it also possesses an atom bomb. Aivar said the video is old and being resurfaced now as the BJP's election campaign is

faltering. He indicated in the video that if a "mad person" comes to power there and uses the atom bomb, it will not be Bloc that PoK belongs to

here too. As the remarks triggered a row, the Congress said it totally disagrees with the remarks made by Aiyar some months ago. Aiyar does not speak for the

party in any capacity whatsoever, Congress media department chairperson Pawan Khera said. Home Minister Amit

Shah slammed the Congress for "raising question mark" on Pakistan-occupied Kashmir (PoK) and asserted that every inch of it belonged to India and no force can snatch it.

"Aiyar is telling us to respect Pakistan as it possesses an atomic bomb. A few days ago, INDIA Bloc leader Farooq Abdullah said do not talk about PoK as Pakistan has an atomic bomb. I want to tell

India and no force can snatch it." Shah said at an election rally in Iharkhand's Khunti. Hitting back at BJP Congress leader Priyanka Gandhi said why is Pakistan being discussed when elections are taking place in India and the unemployment rate here is at a 45-year high. "I ask when was the statement made? ... If it is an

old statement, then why are we discussing it today? Secondly, I want to ask, where are elections taking place, in India or in Pakistan? They are taking place in India. So why are we discussing Pakistan?" she

said during her campaign trail in Amethi for the party's candidate party's Kishori Lal Sharma.
BJP cited recent
comments of more Congress leaders to make its point. The leader of Opposition in Maharashtra,

Vijay Wadettiwar, had said IPS officer Hemant Karkare was killed by a cop affiliated to the RSS and not Pakistani terrorist Ajmal Kasab and Chief Punjab former Minister Charanjit Singh Channi had dismissed a recent terror incident in Poonch in which an Air processes, and can have a Force official died as a poll negative impact on voter stunt, noted Union Minister participation. ealth Center No. 7 and Psychiatry Department BMHRC are being made more convenient for patients. The pharmacy located here has been expanded. Separate

spaces have been designated for maintaining medical records of psychiatric patients. Separate parks are being developed for patients suffering from mental diseases and elderly patients, with two additional herbal gardens in

progress. Work has commenced, and these parks will be ready in the coming months.Dr. Manisha Shrivastav, Director in charge, BMHRC, stated that there was ample space available in the premises of Health Center No. 7 for a park, hence the decision to create one here. She mentioned the importance of outdoor activities alongside medication in the treatment of mental illness, hence the decision to create a separate park for them. Various swings will be installed for children suffering from mental illnesses. A park is being prepared specif-

ically for elderly patients. Two

herbal gardens where plants with various medicinal properties will be planted with the help of Government ayurvedic, homeopathic and Unani doctors posted at Integrated Health Center at BMHRC.

Dr. Shrivastav explained that the Psychiatry Department and Health Center 7 both are situated in the same building. The pharmacy here was small which has now been expanded. Additionally, a separate space has been designated for the medical records of psychiatric patients, ensuring immediate access to medical record files for patients suffering from mental illnesses.All Medicines Available: Dr. Manisha Shrivastav informed that all medicines are now available in BMHRC and all health centers. Seroflo inhalers for respiratory patients have always been available and is being distrib-uted to patients. She mentioned that the government has created a National List of Essential Medicines. It is mandatory for all government hospitals to have the medicines listed here. Now this policy is being implemented in BMHRC as well.

Overloaded trucks posing threat to lives in Indore

PNS INDORE

ontinuous overload trucks throughout the day from Choithram Vegetable and Fruit Market poses a threat to thousands of people passing through Choithram square, the busiest intersection of Indore . These trucks are mainly loaded with sacks of potatoes, onions and fruits and the height of the sacks

loaded is more than the carrying body size of the truck.

These overloaded trucks continuously leave from Choithram intersection and go towards different main road of Indore through choithram square. Locals told that overloaded sacks are tied with a rope on the trucks and due to the movement of overloading sacks on the moving truck the rope can

break and sacks can fall on the two-wheeler and fourwheeler vehicles moving on the road, which can lead to a major accident and threat to the drivers and passengers passing through Choithram square.

DCP Traffic Arvind Tiwari told The Pioneer that action will be taken against the overloaded trucks coming out of Choithram vegetable and fruit market.

Honour is the reward of virtue: Padma Shri Ramlal Bareth

SHRI RAM SHAW

Oliver Goldsmith rightly said: "Modesty seldom resides in a breast that is not enriched with nobler virtues." In today's times, where self glory is considered more important than real talent and arrogance follows even achievements, meeting a modest artiste such as Kathak exponent Pandit Ramlal Bareth comes as a pleasant surprise.

A prominent name in his field, the octogenarian Bareth comes across as an extremely simple, down-to-earth and friendly person without a trace of any ego. He was conferred the country's fourth highest civilian honour Padma Shri by President Droupadi Murmu at Rashtrapati Bhavan in Delhi on Thursday (May 9) for his exceptional contribution to

Kathak.
The gifted Bareth found time to give an exclusive interview to The Pioneer. He shared his thoughts on his life, disciples and Kathak

revered personalities reflects the true consciousness of a vibrant democracy. I hail from Raigarh in Chhattisgarh. And coming on to this huge horizon is something unimaginable. I can't express my happiness in

words. Everyone in the

family is very happy. I'm on

high heaven. My penance of

so many years has been successful.

When did you start learning Kathak and why did you chose this form of dancing?

I started learning dance at the age of six under the guidance of my father Pandit Kartik Ram. My father and grandfather both were Kathak exponents. At the age of 10, I started performing in

the Raigarh court. Seeing

this, Maharaja Chakradhar

Singh was very happy. After that he made arrangements for my dance education. My guru was Pandit Jayalal Maharaj of Jaipur. Raja Chakradhar Singh himself was well versed in

singing singing and dancing. I learnt how to play tabla from my father and Pandit Jayalal Maharaj and took lessons in singing from my father and Ustad Haji Mohammad Khan Bandawale. The fourth generation in my family is now treading on

the same path.
You have been an ambassador of Guru-Shishya parampara. Tell us about your disciples.

I have devoted my entire life to Kathak dance. An artiste can emerge and prosper only in Guru-Shishya parampara. I have several disciples who are teaching dance in various schools and colleges across the country and abroad. I taught them in Belpahar, Raurkela and Raipur. The onus is now on them to take this legacy forward. Along with hard work and dedication, the practice of dance is the basic mantra of

success. You are also the recipient of Sangeet Natak Akademi Award. Don't you think this form of art is becoming obsolete? What are your efforts to preserve and promote it?

I've tried to give proper education to my sons and daughters to carry forward this tradition. I have dedicated my life to developing the Raigarh Kathak style and establishing Kathak as a gharana. Raigarh Kathak style is now known as Raigarh Gharana. It is famous all over the world as famous all over the world as the fourth Kathak gharana.

HC stays sedition case FIR against GP Singh

The Chhattisgarh High Court on Friday stayed an FIR lodged against compulsorily retired IPS officer Gurjinder Pal Singh related to a sedition case of

Justices Ramesh Sinha and Rajani Dubey passed the order, the petitioner's counsel Himanshu Pandey

told The Pioneer.

Earlier, the High Court stayed a FIR related to extortion filed alleged against him based on a complaint filed by Durg-

based businessman Kamal Sen, he said.

The next hearing for both the cases will be jointly heard on July 8, Pandey added.

A sedition case was lodged against Singh for allegedly promoting enmity

and hatching a conspiracy against the earlier Congress government and public representatives in 2021. Besides this, an extortion

and sedition case, a disproportionate assets case was also registered against him in Raipur.

Last month, the Central

Administrative Tribunal ordered the Chhattisgarh government to reinstate him within four weeks.

He was forcefully retired by the Centre in July last year following recommendation of a service review committee of the Chhattisgarh government.

 $B^{\text{y allowing political space to}}_{\text{Khalistani separatist ele-}}$ ments, the Canadian government is sending a message that its vote bank is "more powerful" than its rule of law, External Affairs Minister S. Jaishankar said.

In an exclusive interview to PTI late Thursday, Jaishankar said India respects and practices freedom of speech, but that does not equate with freedom to threaten foreign diplomats, extend support to separatism or allow political space to elements advocating violence.

The external affairs minister also wondered how people with dubious backgrounds are being allowed to enter and live in Canada, referring to Khalistani supporters among the Sikh migrants from Punjab. Nearly 12 per cent Indian kids have not received double dose vaccination for measles: Research

PIONEER NEWS SERVICE

Nearly 12 per cent of eligible children in India have not received any recommended double-dose vaccination for measles, highlighting a significant gap in measles vaccination coverage among the beneficiaries.

This deficiency is particularly pronounced in northeastern states like Nagaland, where the share of zero-dose cases is as high as 26 per cent. In contrast, Tamil Nadu was found to report the lowest at 4.6 per cent.

Researchers from the Union Health Ministry and Banaras Hindu University (BHU) in Varanasi investigated previously overlooked critical aspects of measles vaccination, focusing on zero-doses, partially vaccinated, and those fully immunised. They analysed data of over 43,000 children aged 2-3 years, collected through the National Family Health Survey 2019-21 (NFHS-5)

The team found that close to 30 per cent of the eligible children have received only one measles-containing vaccine (MCV1), while about 60 per cent have been fully immunised (MCV2). The findings are published in the journal

In 2017, India adopted the National Strategic Plan for Achieving and Sustaining Measles and Rubella Elimination. The researchers acknowledged that disruptions due to the COVID-19 pandemic heightened the risk of measles in vulnerable popula-

While immunisation programmes were eventually resumed in a phased manner, measles zero-dose children pose a significant obstacle to achieving goals of eliminating the acute and highly contagious viral disease, the researchers said. Occurring primarily in children, symptoms can include high fever, cough, runny nose and a rash all over the body.

Being vaccinated is the best way to avoid getting sick and ing to the World Health Organization. The analysis also revealed

huge inter-district variations, according to the researchers. They found that in Uttar Pradesh, while Prayagraj and Banda districts were found to have about 34 per cent and 32 per cent of these cases, respectively, Hapur and Etawah have 2.6 per cent and 2.1 per cent of zero-dose cases.

The researchers said Arunachal Pradesh was another such example, where the West Siang district had the greatest share with almost 50 per cent of eligible children receiving no dose of the vac-cination, while the Lower Dibang Valley district had only 2.8 per cent of such cases.

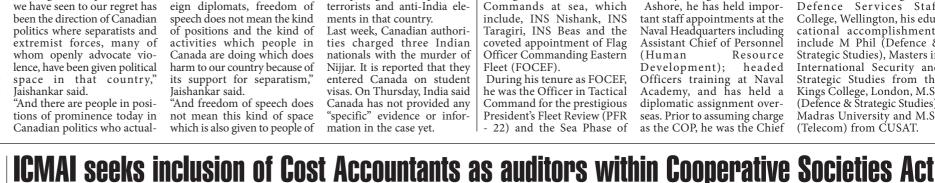

Socio-demographic factors were analysed to influence the measles vaccination status of children, with those born later in the family being less likely to have received no dose.

Low levels of wealth and mother's education too were found to increase the odds of children not receiving any dose of the vaccination.

"Socioeconomic factors play a significant role in measles transmission, with individuals from lower socioeconomic classes experiencing higher attack rates resulting in outbreaks," the authors wrote.

The findings underscored the need for tailored strategies, especially within districts displaying close to 10 per cent variability in zero-dose cases, the researchers said.

"The identification of a notable percentage (11.5 per cent) of children receiving zero-doses signals a concerning gap in immunisation coverage," the authors wrote and pointed out that, this "highlights the importance of last mile effort and application of big push theory in terms of ore frequent rounds of campaigns mode vaccine delivery for the target of 95 per cent vaccine coverage for population-level immunity.

NGO moves SC asking EC to upload LS voter turnout data on website

PIONEER NEWS SERVICE

An NGO has moved the Supreme Court seeking a direction to the Election Commission (ECI) to upload polling station-wise voter turnout data in "absolute figures" on its website within 48 hours of conclusion of polling for each phase of the ongoing Lok Sabha elections.

The Association for Democratic Reforms (ADR) has filed an interim application in its 2019 PIL seeking directions to the poll panel that "scanned legible copies of Form 17C Part-I (Account of Votes Recorded)" of all polling stations be uploaded immediately after the polls.

"Direct the Election Commission to provide tabulated polling station-wise data in absolute figures of the number of votes polled as recorded in Form 17C Part- I after each phase of polling in the ongoing 2024 Lok Sabha elections and also a tabulation of constituency-wise figures of voter turnout in absolute numbers in the on-going 2024 Lok Sabha elections," the NGO said. It said the plea was filed to ensure that the democratic process is not subverted by electoral irregu-

The voter turn-out data for the first two phases of the ongoing 2024 Lok Sabha elections published by ECI on April 30 has been published after 11 days of the first phase of polling held on April 19 and 4 days after second phase of polling held on April 26. "The data as published by the

ECI in its press release dated April 30, 2024 shows a sharp increase (by about 5-6%) as compared to the initial percentages announced by ECI as of 7 pm on the day of polling," the plea said.

Paras blames nephew Chirag for his non participation in poll campaign in Hajipur

Former Union Minister Pashupati Kumar Paras on Friday squarely blamed nephew Chirag Paswan for his non-participation in the poll campaign in Hajipur, the seat he currently represents but is now being contested by the latter.

Paras also said Chirag, the son of late Ram Vilas Paswan, has "never bothered to come and seek blessings" from his uncle. "I have never been invited", was the curt reply of Paras, when he was asked about his in Hajipur where Chirag has filed his nomination. The seat had earlier been represented by late Paswan nine times.

Chirag's Lok Janshakti Party (Ram Vilas) has got five seats in Bihar as per the seat-sharing formula decided by

the BJP-led coalition. The formula has left Paras high and dry and he has reacted by resigning from the Union cabinet but chosen to remain with the BJP-led NDA.

Man booked for beating Congress agent

The man arrested for live-streaming his bogus voting from a polling station in Dahod Lok Sabha been booked in separate case of allegedly thrashing and intimidating a Congress party agent during the third phase of parliamentary elections on May 7, police said on Friday.

The Election Commission of India (ECI) has declared null and void the voting that took place at Parthampur polling station at Santrampur taluka in Mahisagar district, taking into account the report from the returning officer and observer regarding the irregularities, after the man's live streaming video went viral.

As per the FIR lodged at Santrampur police station in the state's Mahisagar district that falls under the Dahod parliamentary constituency, accused Vijay Bhabhor, son of a local Bharatiya Janata Party (BJP) leader, and three others allegedly confronted a Congress polling agent, Shana Taviad, at a polling station at Gothib village and

threatened him. While leaving the polling station after the voting process, the accused confronted Taviad again and allegedly beat him up for not allowing him to cast his bogus vote, the FIR said.

Bhabhor was arrested under sections 323 (voluntarily causing hurt), 504 (insulting to threaten peace), 506 (2) (criminal intimidation) and 114 (present when offence is committed) of the Indian Penal Code (IPC).

The complainant stated in his petition that when he was present at booth number 1 at Gothib village as a Congress agent, Bhabhor approached him along with three other persons identified as Prakash Katara, Pavan Agrawal, Piyush Bhavsar and asked to allow him to cast his bogus

Stakes could not be higher in Haryana's political chess, with the outcome remaining anybody's guess

■he recent developments in Haryana's political circles have again brought to the fore the intricacies of coalition dynamics. The Jannayak Janta Party (JJP), a key player in the State's politics, has decided to align with the Congress in demanding a floor test for the BJP-led Government in the Haryana Assembly. This comes on the heels of the withdrawal of support by three Independent MLAs to the ruling coalition, turning it into minority with 44 legislators in the House of 90. The Congress, buoyed by the latest developments and perhaps sensing an opportunity to tip the scales in its favour, has seized upon this moment to mount pressure on the BJP Government. However, in the backdrop of this high-stakes political manoeuvring, the JJP finds itself grappling with internal discord. Reports have emerged suggesting that three of its MLAs held clandestine meetings with former Chief Minister ML Khattar, raising eyebrows and fuelling speculation about potential defections. The apparent

dissonance within the JJP underscores the complex interplay of interests and ambitions that often characterises coalition politics. For a party like the JJP, which emerged as a key player following the fractured mandate in the last State elections, maintaining cohesion within its ranks while balancing competing demands from its coalition partners is no easy feat. To jog the memory, it was in Haryana that 'Aaya Ram Gaya Ram' culture started, which continues unabated. The outcome of this internal tug-of-war will not only shape the immediate political landscape in Haryana but also have far-reaching implications for the State's future.

As alliances shift and allegiances waver, the only constant is the relentless pursuit of power and the drive to stay one step ahead of the competition. With the House strength being 90 members, a political party needs the support of 46 MLAs to cross the halfway mark and form a Government. After the withdrawal of support by three Independents, the BJP is short of two MLAs to continue in the Government. The BJP now has 40 MLAs, besides the support of a lone Haryana Lokhit Party legislator and at least three Independents (earlier, it had six Independents in support), which brings to a total of 44 in the House. For the BJP, it is a double whammy, all this is happening days ahead of the Lok Sabha polls to the 10 Haryana seats on May 25. In the 2014 Lok Sabha elections, the BJP won seven of these seats in Haryana with a 35 per cent vote share. In 2019, the BJP won all 10 seats with a 58 per cent vote share. In the current situation, however, it might be a Herculean task. JJP's Dushyant Chautala has mounted pressure on the Nayab Singh Saini Government for a floor test, which he is likely to get the Chair's nod for. If the JJP breaks, it would give the BJP the much-needed elbow room but what is certain for now is that it is time for horse trading in Haryana.

Battle to save India's biodiversity-

India's rich biodiversity is under severe threat due to climate change, as recent studies warn of potential economic losses and irreversible ecological damage

ndia, a land of diverse climates and rich ecosystems, is a global treasure trove of biodiversity. From the majestic Himalayan ranges to the vibrant coastal reefs, our country's biodiversity sustains countless life forms and plays a crucial role in regulating ecosystems. It's not just a vital resource for human sustenance, providing food, water, shelter and medicine, but also a critical indicator of our planet's health, a testament to our rich heritage and a responsibility we all share.

However, the delicate balance of India's biodiversity is now facing unprecedented threats from climate change. Recent studies warn that India may lose a staggering 35 per cent of its GDP by the year 2100 due to climate change, highlighting the deep interconnection between the nation's prosperity and its natural heritage. Rampant deforestation and habitat degradation, particularly in regions like the Western Ghats, are pushing carbon sinks towards becoming sources, exacerbating the climate crisis. The time for action

Impact of Climate Change: A **Looming Crisis**

The repercussions of climate change are becoming quite evident in altering ecological balance, extreme weather events and increasing health risks. In an era marked by escalating environmental challenges, the climate crisis demands urgent and concerted action. According to a [i]United Nations' InterGovernmental Panel on Climate Change (IPCC) report, climate change is imperilling human well-being and planetary health, focusing strongly on interactions between climate, biodiversity and human society. The report suggests that the rise in extreme weather conditions has led to some irreversible impacts as natural and human

ability to adapt. Not only this, a report by the Reserve Bank of India highlights how climate change poses challenges for monetary policy, with frequent weather shocks threatening economic growth and stability. Moreover, a recent three major missions, name-

study predicts that climate change could cut global income by up to 19 per cent in the next 25 years, with the most vulnerable countries suffering the most severe

To overcome these challenges, India has embarked on a journey to mitigate climate change and safeguard its biodiversity. With the G20 presidency last year, India has positioned itself as the voice of the Global South to lead the way in climate action and leveraged this positioning to drive impactful outcomes in various realms related to climate action. Tackling deforestation, reducing emissions and restoring ecosystems are key strategies. With over 26 per cent of the country grappling with expanding drought conditions, urgent measures are being taken to build resilience against environmental degra-

Driving Solutions: Addressing the climate crisis

necessitates collaborative efforts from all stakeholders. Supported by startups and Government interventions, public-private partnerships are essential to drive innovation and scale climate solutions. Startups are pivotal in developing innovative technologies that reduce carbon footprints while contributing to economic growth. International collaboration, exemplified by agreements like the Paris Agreement, provides a framework for collective action on a global scale. India's leadership in renewable

energy, particularly through

initiatives like International Solar Alliance (ISA), underscores its commitment to driving sustainable development and fostering a harmonious coexistence between humanity and nature. As India addresses the intertwined challenges of climate change and biodiversity loss, the steps taken today will shape the legacy for future generations.

This demands reflection, unity and action to come up with sustainable solutions. In this crucial sustainability battle, India's role extends beyond its borders, contributing significantly to global biodiversity conservation and climate change mitigation efforts. The recent Supreme Court ruling recognising the right against climate change as a fundamental right under Article 14 and Article 21 underscores India's steadfast commitment to climate action and environmental protection. This offers prospects for the Government, corporations and climate action companies to come together and work towards a sustainable future.

EVOLUTION OF MONETARY POLICY Madam — This refers to the article,

'Evolution of monetary policy,' which was published on 8 May 2024. Even before India got freedom the Congress formed a committee to suggest the type of economic policy free India should adopt. The committee analysed and said the key infrastructure sector should be under the Public sector to help the investors with raw materials, power, transport and communication at a very economical cost.

This helps domestic ventures to produce more. None of the rich in India had so much reserve to invest in big projects and returns from such projects take some years. When Rajiv came to power he availed a small loan from the World Bank to develop mainly the telecom sector accepting the condition to to open our door slightly for foreign goods to be marketed here. Though the country went bankrupt between 1980-1990, it is to be noted that the assets of the top richest families swelled from Rs 8000 CR to Rs 40,000 Cr during the same period. So irrespective of parties the interests of the rich are well cared for and produced more than 200 billionaires in a short span under the present regime. This course continues and will go on to enrich the rich, the cost of the due share of the unprivileged

MISLEADING ADVERTISEMENTS

Madam — Apropos the editorial "The Name Game" published on 9th May, this is my response. There are guidelines issued by the Department of Consumer Affairs called "Endorsements know-hows" for celebrities, influencers and virtual influencers on social media platforms. The guidelines specify that celebrities must not endorse any product or service they have

not personally used or experienced. Further, they are advised to be 'diligent' before endorsing any product or service i.e. extremely careful by analysing the pros and cons of it to save the health and money of lakhs of their followers. some of them blindly accept and adopt what they say. An

propos "Modi questions Rabul's silence on Ambani, Adani," The Pioneer, May 9, this is my response. The phenomenal industrialists Ambani and Adani have become fodder for the political slugfest between the ruling and opposition parties in our country. They have been pilloried by Rahul Gandhi, alleging Modi helped them grow. In contrast, this time Modi turned the tables

example of carelessly endorsing a harmful product is 'pan masala' that too on a sports channel during the live telecast of a cricket match watched by millions of youngsters, highly prone to its habit-forming usage. The Hon'ble Supreme Court has reiterated the above guidelines. FOOTBALL IS NUMBER ONE

Madam — Though top football-playing nations are restricted to Europe, Latin America and African countries, the beautiful game's popularity is unmatched in non-football-playing nations as well. The game is a universal language, to say so and has nicely flowered over the decades through champion players of diverse socio-economic milieus gathering together for a common cause: regale the fans with skill and perseverance. No surprise, the lovely game is viewed as a promoter of uniagainst Rahul, alleging a deal between the business tycoons and Congress has silenced Rahul. It's a sad commentary in a country that aspires to emerge as a developed nation and laying the red carpet for the industrialists seeking investments to facilitate employment generation and, thus, economic growth - has engaged in attacking entrepreneurs.

India needs to encourage more and more entrepreneurship and innovation bringing more firms into the sphere as a country where millions of people join the labour force every month which can't be absorbed by a few conglomerates. However, the Congress party was exposed with its hand in glove with businesses in the allocation of 2G spectrum and coal. At the same time, the Modi Government brought in reforms to enhance transparency in the allocation of natural resources and the overhauling of the country's bankruptcy laws. versal peace despite the onfield acrimony. The exhilaration of great players will captivate fans forever.

No game evokes such intense emotions that emanate after every goal is scored. Parallelly, administrators and countries worldwide have displayed mostly unambiguous references towards the game. Now, in a huge honour to football, the United Nations General Assembly(UNGA) has adopted a resolution proclaiming May 25 as "World Football Day". May 25 marks the 100th anniversary of the first ever Football tournament. As aptly described by a diplomat at the UNGA, football is the "number one game played and followed across the globe". Additionally, as the resolution Stated, football creates a space for international cooperation. World Football Day is intended to encourage global peace, overall development and women and empowerment of women and girls.

FIRST COLUMN TRAITS OF A **SUCCESSFUL PERSON**

He dares to defv convention and breathe life into audacious ideas

RAVI VALLURI

here is a part of us that will not let us be content until we become all that we are capable of being. Life is not about resting on our past achievements and laurels and residing in our comfort zone. It is an adventure from being ordinary to extraordinary. One's current situation may be good, but if a greater opportunity presents itself, one must be open to expanding. This does not mean you are to run away or violate your integrity.

Muscles stay strong and flexible only by use and stretching and so does our mind. The challenge is the way of the universe and showing us the path that the bigger we assume that form and shape. We should bless our dreams and our desires to identify the opportunity that is lurking as there would be several chances arising around the corner. We need the courage and humility to ask the Universe to provide such opportunities, leave behind all our limitations and step forward to live life as magnificent and gigantic as ordained by the Universe. Successful people stretch their hands and take up responsibility which empowers them to enter uncharted territories. This increases the level of their prana/chi, attention span and nature of work, adding a new dimension to the personality. Successful people are never straightjacketed in their approach and revel in taking risks. Only risk-takers become game-changers.

Rahul Bajaj's sons Rajiv and Sanjiv embarked upon a fascinating idea to salvage the scrap of the decommissioned INS Vikrant to manufacture scooters. It was an innovative idea, utilizing scrap in a novel manner. While the bottom line of the exercise may be to generate profit, the unattainable thought is audacious. Therefore, successful entrepreneurs never kill an idea. An ingenious idea can be a platform for a radical discovery

An awesome idea is breathtaking and amazing, stunning and aweinspiring. When the idea germinates, something stupendous takes place. Think big and do not listen to people who tell you it can't be done. "Life is too short to think small", writes Tim Ferriss. The Universe listens to our deepest thoughts. If the thought is positive, we are blessed with positive results.

The cardinal principle in life is to ensure that we receive and circulate only positive thoughts. We should ensure that we are surrounded by efficacious people. Keep shouldering responsibility and ensure that we possess a YES MIND. Successful enterprises ensure that their workforce performs in harmony and synergy while working in teams. The Universe believes in the Laws of Attraction, the Laws of Abundance, the Laws of Gratefulness and the Laws of Spiralling Effect. All this gets transformed into what Darren Hardy calls the Compound Effect. Next, we ought to always feel blessed and have faith that a superior power is guiding us in our endeavours. There is a superior intelligence that is always creating wonderful opportunities for us and these should be grabbed and seized with humility.

A triumphant individual hinges his belief on the thought that the Divine will take care of everything and by simply reposing faith in that Superior Power. Successful People work on these principles where the football swerves like a parabola and enters the net and we are benumbed, giving a standing ovation. That is the miracle performed. Choose to call it the power of the Almighty or the architecture of the Universe. But this works on the premise of the power of positive thinking and becoming successful.

Precision agriculture: Key to food security

The future of Indian agriculture hinges on a blend of tradition and innovation. Precision agriculture offers a crucial pathway to sustainably feed 1.7 billion people

ndia's population is projected to reach approximately 1.7 billion by 2050. It would be a significant challenge for Indian agriculture to meet the food demands of such a vast population amidst the emerging challenges of climate change. Additionally, the sector faces issues such as an ageing farmer population. Younger generations are increasingly veering away from taking over the family agricultural farm, choosing other, more lucrative and less labour-intensive career paths over agriculture. To address these challenges, the adoption of modern farming techniques like precision farming and digital smart agriculture becomes imperative to ensure sustainable food production and the future prosperity of İndian agriculture.

A recent parliamentary panel has emphasized the importance of promoting agricul-tural mechanization, particularly for small and marginal farmers and has advocated for the integration of tiny robots and Artificial Intelligence (AI) into Indian farm operations to address the challenges posed by fragmented land holdings. Furthermore, the panel recommended the establishment of a 'National Institute of Agricultural Robotics and Artificial Intelligence' to ensure that India remains at the forefront of agricultural development both domestically and internationally. On August 23, 2022, regarding Farm Mechanization, the Secretary of the Department of Agricultural Research and Education revealed that India's mechanisation level stands at 47 per cent, trailing China (59.5 per cent), Brazil (75 per cent) and the US (95 per cent). The level of mechanisation varies greatly by region inside India too. Northern States boast higher rates (70-80 per cent), driven by fertile land, labour decline and State backing. Southern and eastern States lag (35-45 per cent) due to fragmented land holdings. North-eastern States struggle due to terrain, equipment costs and socio-economic factors.

Certainly, agriculture has evolved steadily from a traditional, labour-intensive model to a sophisticated, technology-driven system. Key milestones include the establishment of the Department of Agricultural Research and Education (DARE), the Indian Council of Agricultural Research (ICAR) and Krishi Vigyan Kendra (KVK). The development of highyielding, cost-effective, disease/pest-resisant and climate-resilient varieties and tech nologies across crops, horticulture, animal husbandry and fisheries sciences by ICAR has significantly bolstered production and productivity. However, while acknowledging these strides, it's imperative to recognize that the pace of progress must match the urgency of our times.

Throughout history, people have always sought easier, faster and more efficient ways to get things done. This pursuit has sparked a technological revolution that merges age-old farming practices with cut-ting-edge innovations like the Internet of Things (IoT) known as Ag-IoT. It is a huge change in farming that could shake up how we grow, manage and protect our food. Its solutions are not merely about efficiency; they are about empowering farmers to achieve greater time efficiency, productivity and precision in their daily tasks. It's like having a super smart assistant that can take care of land, animals, crops and farms without needing humans to do everything. People also call it precision agriculture, smart agriculture, or digital agriculture.

THE INTERNET OF THINGS IS A HUGE CHANGE IN **FARMING THAT COULD SHAKE UP** HOW WE GROW, MANAGE AND FOOD. ITS **SOLUTIONS**

ARE NOT MERELY ABOUT EFFICIENCY; THEY **ARE ABOUT EMPOWERING** FARMERS TO **ACHIEVE GREATER** TIME EFFICIENCY, **PRODUCTIVITY** AND PRECISION IN THEIR DAILY

It is like a big step forward in farming because it uses data to make decisions, making everything more efficient and productive. Through Ag-IoT, the very pulse of plant and animal needs can be sensed. The farmers can keep an eye on the soil all the time, control watering systems from afar and even check on the health of their animals without being right there. It's super handy because it can predict how much crops will grow accurately. In every aspect, Ag-IoT stands poised to revolutionize the landscape of crop management, insect and pest surveillance, food warehousing, livestock care, disease monitoring, dairy operations, supply chain logistics and beyond.

The evolution of drone technology has opened up boundless pos-PROTECT OUR sibilities in the realm of crop assess ment and monitoring. One such pioneering initiative, the NaMo Drone Didi Initiative, stands as a beacon of empowerment for rural women. In a momentous gesture, Prime Minister Narendra Modi personally handed over 1000 drones to 1000 Namo Drone Didis across 10 locations nationwide at the Indian Agricultural Research Institute in Pusa, New Delhi. These drones will help them do things like check on crops, spray fertilizers and plant seeds. Prime Minister Modi's announcement of the 'Drone Didi' yojana 2023-24 further underscores the Government's dedication to leveraging technology for the betterment of society. Significant financial allocations during 2020-21 and 2021-22, by the Indian Government including INR 1756.3 crores and INR 2422.7 crores respectively to States for the integration of cutting-edge technologies

like drones, artificial intelligence, blockchain, remote sensing and GIS into agriculture and INR 7302.50 crores and INR 7908.18 crores were made in the same periods to ICAR for R&D, further demonstrate the Government's dedication

to modernizing agriculture. Technological strides like RFID tags (radio frequency identification) and systems like NLIS (National Livestock Identification Scheme) and INAPH (Information Network for Animal Productivity & Health) have propelled Precision Dairy Farming.

With swift electronic scanning and data integration, farmers can efficiently manage cow health, productivity and records, marking a significant shift in the dairy industry towards precision and efficiency. Meanwhile, in the aquaculture industry, companies like Aquaconnect and Shrimpbox are leveraging technology to revolutionise shrimp farming. Aquaconnect employs artificial intelligence and satellite sensing technologies to monitor farm per-formance and provide advice to shrimp and fish farmers, predominantly small to medium-scale operations. Shrimpbox, on the other hand, specializes in shrimp farming in colder climates and landlocked areas, boasting impressive productivity with minimal water usage and without antibiotics. Cropin Technology, based in Bengaluru, has developed Aksara, an open-source microlanguage model tailored for climate-smart farming. In India, the World Economic

Forum's AI for Agriculture Innovation (AI4AI) initiative, led by

ing through AI. The 'Saagu Baagu' pilot in Telangana's Khammam district, supported by the Bill and Melinda Gates Foundation and Digital Green, exemplifies this success. With over 7,000 farmers benefiting, chilli yields surged by 21 per cent, pesticide use decreased by 9 per cent, fertilizer usage dropped by 5 per cent and unit prices improved by 8 per cent. Consequently, farmers doubled their earnings, with incomes rising by over INR 66,000 per acre per crop cycle. Overall, AI interventions at 175 farms in India have boosted crop yields by 30 per cent, as per the Indian Council of Agricultural Research (ICAR).

In conclusion, the future of Indian agriculture hinges on a blend of tradition and innovation. With a burgeoning population and dwindling resources, precision agriculture offers a crucial pathway to sustainably feed 1.7 billion people. If established, the 'National Institute of Agricultural Robotics and Artificial Intelligence' would catapult Indian agriculture into unprecedented realms of excellence. The benefits of farm mechanization must permeate every corner of our nation, bridging divides and fostering inclusivity. We cannot afford to overlook those who are marginalized by the digital divide, particularly our smallscale farmers. As we look towards the future, let us remain committed to nurturing a vibrant, tech-enabled agrarian ecosystem that empowers farmers, preserves natural resources and ensures food security for generations to come.

Heavy fighting in Rafah keeps aid crossings closed

Over one lakh civilians flee

AP ■ RAFAH

Heavy fighting between Israeli troops and Palestinian militants on the outskirts of the southern Gaza city of Rafah has left crucial nearby aid crossings inaccessible and caused over 100,000 people to flee north, a United Nations official said Friday.

Israel's plans for a full-scale invasion of Rafah appear to be on hold for now, with the United States deeply opposed and stepping up pressure by threatening to withhold arms. But even the more limited incursion launched earlier this week threatens to worsen Gaza's humanitarian catastro-

Heavy fighting was also underway in northern Gaza, where Hamas appeared to have once again regrouped in an area where Israel has already

launched punishing assaults. Over a million Palestinians have fled to Rafah to escape fighting elsewhere, with many packed into UN-run shelters or squalid tent camps. The city on the border with Egypt is also a crucial hub for bringing in food, medicine, fuel and other goods. The UN's Office for the Coordination of Humanitarian Affairs, known as OCHA, says about 110,000 people have fled Rafah and that food and fuel supplies in the city are critical-

Georgios Petropoulos, an OCHA official working in Rafah, said the two main crossings near the city remain closed, cutting off supplies and preventing medical evacuations and the movement of humanitarian staff.

"Even if there were assurances to us being able to pass through a corridor, the proximity so close to a military involved in fighting is just not acceptable for something that has to be a humanitarian zone," he said. UN's World Food

University students supporting Palestinian people stage a rally to demand a stop to the crackdown on demonstrators at rallies for Palestinians on the campus of U.S universities, near the U.S. Embassy in Seoul, South Korea, Friday

Programme will run out of food for distribution in southern Gaza by Saturday unless more aid arrives, Petropoulos said. He said about 30,000 people were leaving Rafah daily in search of safety, but that humanitarian workers had no supplies to help them set up camp in a new location.

"We simply have no tents, we have no blankets, no bedding, none of the items that you would expect a population on the move to be able to get from the humanitarian system," he said. Israeli troops captured the Gaza side of the Rafah crossing with Egypt on Tuesday, forcing it to shut down. Rafah was the

main point of entry for fuel dently confirm battlefield needed to power vehicles, as accounts from either side. well as the generators on which hospitals and water treatment plants rely. Israel says the nearby Kerem Shalom crossing -Gaza's main cargo terminal — is open on its side, but the UN says it remains inaccessible on the Gaza side because of ongoing fighting.

Israeli troops are battling Palestinian militants in eastern Rafah, not far from the crossings. An Associated Press reporter in the city heard heavy artillery and gunfire through-out the night into Friday.The military said in a statement that it had located several tunnels and eliminated militants "during close-quarters combat and with an aerial strike."

Hamas' military wing said it carried out a complex attack in which it struck a house where Israeli troops had taken up position, an armored personnel carrier and soldiers operating on foot. There was no comment from the Israeli military, It is not possible to indepenHamas also said it launched a number of mortar rounds at

the Kerem Shalom crossing, close to where Israeli troops are operating. The military said it intercepted two launches. The crossing was initially closed after a Hamas rocket attack last weekend that killed four Israeli soldiers. Israel says Rafah is the last Hamas stronghold in Gaza and key to its goal of dismantling the group's military and governing capabilities and returning scores of hostages captured in Hamas' October 7 attack that triggered the war.

But Hamas has repeatedly regrouped, even in the hardesthit parts of Gaza. Heavy battles erupted this week in the Zeitoun area on the outskirts of Gaza City in the northern part of the territory. Northern Gaza was the first target of the ground offensive, and Israel said late last year that it had mostly dismantled Hamas there. The north remains largely isolated by Israeli troops, and the UN says the estimated 300,000 people there are experiencing "full-blown famine."

Israeli Prime Minister Benjamin Netanyahu has vowed to proceed with the offensive with or without US arms, saying "we will fight with our fingernails" if needed in a defiant statement late Thursday. The Israeli military says it has what it needs for the missions it has planned, including in Rafah.

The war began with Hamas' surprise attack into southern Israel last year, in which it killed some 1,200 people, mostly civilians, and took another 250 hostage. The militants are still holding some 100 captives and the remains of more than 30 after most of the rest were released during a cease-fire last year.

The war has killed over 34,800 Palestinians, mostly women and children, according to the Gaza Health Ministry, which does not distinguish between civilians and combatants in its

Police dismantle pro-Palestinian camp at MIT

Boston (AP): Police dismantled a pro-Palestinian tent encampment Massachusetts Institute of Technology early Friday and moved to clear protesters from University of Pennsylvania's campus in Philadelphia, hours after police tear-gassed protest-ers and took down an encamp-ment at the University of Arizona. In Cambridge, Massachusetts, video showed police roaming through the MIT encampment. Police in riot gear arrived around 4 am, encircled the camp and gave protesters about 15 minutes to leave. Ten students who remained were arrested, the university's president said. A crowd outside the camp began gathering and chanting pro-Palestinian slogans but were dispersed by 6 am. At the University of Arizona in Tucson, campus police in riot gear fired tear gas late Thursday at protesters before tearing down an encampment that included wood and plastic barriers on campus. In a statement, the University of Arizona said it made the decision because the encampment violated school policy.
"A structure made from wood-

en pallets and other debris was erected on campus property after 5 pm in violation of the policy," the school said in a statement. "University officials issued warnings to remove the encampment and disperse. The

warnings were ignored." The school also said that police vehicles were spiked, and rocks and water bottles thrown at officers and university staff.

In Philadelphia early Friday, police detained people who were at an encampment that has been in place at the University of Pennsylvania for more than two weeks. Officers moved in after giving protesters a warning to leave campus or face possible arrest.

Tensions have ratcheted up in standoffs with protesters on campuses across the United States and in Europe. Some colleges cracked down immediately, while others have tolerated the demonstrations. Some have begun to lose patience and call in the police over concerns about disrup-tions to campus life and safe-

Suspected pirate attack in Gulf of Aden raises concerns

Jerusalem (AP): A European naval force detained six suspected pirates on Friday after they opened fire on an oil tanker travelling through the Gulf of Aden, officials said, likely part of a growing num-ber of piracy attacks emanating from Somalia. The attack on the Marshall Islands-flagged Chrystal Arctic comes as Yemen's Houthi rebels have also been attacking ships traveling through the crucial waterway, the Red Sea and the Bab el-Mandeb Strait connecting them. The assaults have slowed commercial traffic through the key maritime route onward to the Suez Canal and the Mediterranean Sea.

The pirates shot at the tanker from a small ship "carrying weapons and ladders," according to the British military's United Kingdom Maritime Trade Operations centre, which oversees Mideast shipping routes. The pirates opened fire first at the Chrystal Arctic. whose armed, onboard security team returned fire at them, the UKMTO said.

The pirates then abandoned which continued on its way with all its crew safe, the UKMTO said.

Hours later, the European Union naval force in the region known as Operation Atalanta said a frigate operating in the region detained six suspected pirates. The frigate seized the pirates given "the unsafe condition of their skiff" and said that some had "injuries of varied severity.

It wasn't immediately clear if those injured suffered gunshot wounds from the exchange of fire with the Chrystal Arctic. The EU force declined to elaborate "due to the security of the operations. Once-rampant piracy off the Somali coast diminished after a peak in 2011. That year, there were 237 reported attacks in waters off Somalia

to vote on resolution for Palestine rights

AP UNITED NATIONS

The UN General Assembly is expected to vote Friday on a resolution that would grant new "rights and privileges" to Palestine and call on the Security Council to favourably reconsider its request to become the 194th member of the United Nations. The United States vetoed a widely backed council resolution on April 18 that would have paved the way for full United Nations membership for Palestine, a goal the Palestinians have long sought and Israel has worked to prevent, and US deputy ambassador Robert Wood made clear Thursday the Biden administration is opposed to the

assembly resolution. Under the UN Charter, prospective members of the United Nations must be "peace-loving," and the Security Council must recommend their admission to the General Assembly for final approval. Palestine became a UN non-member observer

"We've been very clear from the beginning there is a process for obtaining full membership in the United Nations, and this effort by some of the Arab countries and the Palestinians is to try to go around that," Wood said Thursday. "We have said from the beginning the best way to ensure Palestinian full membership in the UN is to do that through negotiations with Israel. That remains our position?

But unlike the Security Council, there are no vetoes in the 193-member General Assembly and the resolution is expected to be approved by a large majority, according to three Western diplomats, speaking on condition of anonymity because negotiations were private.

The draft resolution "determines" that a state of Palestine is qualified for membership dropping the original language that in the General Assembly's judgment it is "a peace-loving state." It therefore recommends that the Security Council reconsider its request "favourably." The renewed

push for full Palestinian membership in the UN comes as the war in Gaza has put the more than 75-year-old Israeli-Palestinian conflict at center stage. At numerous council and assembly meetings, the humanitarian crisis facing the Palestinians in Gaza and the killing of more than 34,000 people in the territory, according to Gaza health officials, have generated outrage from many countries.

The original draft of the assembly resolution was changed significantly to address concerns not only by the US but also by Russia and China, the diplomats said. The first draft would have conferred on Palestine "the rights and privileges necessary to ensure its full and effective participation" in the assembly's sessions and UN conferences on equal footing with member states." It also made no reference to whether Palestine could vote in the General Assembly.

According to the diplomats, Russia and China which are strong supporters of Palestine's UN membership were concerned that granting the list of rights and privileges detailed in an annex to the resolution could set a precedent for other would-be UN members with Russia concerned about Kosovo and China about

Under longstanding legislation by the US Congress, the United States is required to cut off funding to UN agencies that give full membership to a Palestinian state – which could mean a cutoff in dues and voluntary contributions to the UN from its largest contributor. The final draft drops the language that would put Palestine

on equal footing with member states." And to address Chinese and Russian concerns, it would decide "on an exceptional basis and without setting a precedent" to adopt the rights and privileges in the annex. The draft also adds a provision in the annex on the issue of voting, stating categorically: "The state of Palestine, in its capacity as an observer state, does not have the right to vote in the General Assembly or to put forward its candidature to

United Nations organs."
The final list of rights and privileges in the draft annex includes giving Palestine the right to speak on all issues not just those related to the Palestinians and Middle East, the right to propose agenda items and reply in debates, and the right to be elected as officers in the assembly's main committees.

It would give the Palestinians the right to participate in UN and international conferences convened by the United Nations — but it drops their 'right to vote" which was in the original draft. Palestinian President Mahmoud Abbas first delivered the Palestinian Authority's application for UN membership in 2011. It failed because the Palestinians didn't get the required minimum support of nine of the Security Council's 15 members. They went to the General Assembly and succeeded by more than a two-thirds majority in having their status raised from a UN observer to a non-member observer state.

'Muslims in Singapore distressed by Gaza conflict'

Singapore (PTI): Singapore Prime Minister Lee Hsien Loong has said that he understands that Muslims in the multi-national-multi-racial country are distressed by the "unconscionable and inhuman" conflict in Gaza but underlined that Singaporeans have to work together to acknowledge these feelings and provide help to the Palestinians in a practical manner. The conflict in Gaza was triggered by the unprecedented attacks against Israel by Hamas militants on October 7 that killed around 1,200 people. Israel has launched a massive counter-offensive against the Islamic militant group that has ruled Gaza since 2007. More than 34,900 people have

been killed in Gaza in Israeli action, according to the territory's Hamas-run health min-

Trump Hush Money trial enters 3rd week, Australian judge extends ban on X awaits Michael Cohen testimony

AP ■ NEW YORK

The third week of testimony in Donald Trump's hush money trial draws to a close Friday after jurors heard the dramatic, if not downright seamy, account of porn actor Stormy Daniels, while prosecutors gear up for their most crucial witness: Michael Cohen, Trump's former attorney.

Daniels' story of an alleged sexual encounter with Trump was a crucial building block for prosecutors, who are seeking to show that the Republican and his allies buried unflattering stories in the waning weeks of the 2016 presidential election in an effort to illegally influence the race. Trump, who denies the sexual encounter ever happened, walked out of the court in a rage Thursday, angrily telling reporters, "I'm inno-cent." His attorneys pushed for

a mistrial over the level of tawdry details Daniels went into on the witness stand, but Judge Juan M. Merchan denied the request. Over more than 7½ hours of testimony, Daniels relayed in graphic detail what she says happened after the two met at a celebrity golf outing at Lake Tahoe where sponsors included the adult film studio where she worked. Daniels

explained how she felt surprise, fear and discomfort, even as she consented to sex with Trump. During combative cross-examination, Trump's lawyers sought to paint Daniels as a liar and extortionist who's trying to take down the former president after drawing money and fame

from her claims. Trump attorney Susan Necheles pressed Daniels on why she accepted the payout to public, and the two women traded barbs over what Necheles said were inconsistencies in Daniels' story over the years.
"You made all this up, right?"

Necheles asked Daniels. "No," Daniels shot back.

The defence has sought to show that the hush money payments made on his behalf were an effort to protect his reputation and family — not his campaign — by shielding them from embarrassing stories about his personal life. After Daniels stepped down from the stand Thursday,

Trump's attorneys pressed the judge to amend the gag order that prevents him from talking about witnesses in the case so he could publicly respond to what she told jurors. The judge denied that request too.

An Australian judge on Friday extended a ban on X allowing videos of the stab-bing of a Sydney bishop in his church last month after government lawvers condemned the social media company's free speech argument for keeping the graphic images circulating.

Australian Federal Court Justice Geoffrey Kennett extended his order that X Corp., the company rebranded by billionaire Elon Musk when he bought Twitter last year, block users from sharing videos of the April 15 attack. The attack led to terrorism-related charges for the alleged attacker, a teenager, and triggered a riot outside the church.

The couple, in the West African nation for the first time on the invitation of its military, visited the Lightway Academy college which receives support from their Archewell foundation to educate and train young girls affected by conflicts in Nigeria. Harry and Meghan will also be meeting with wounded soldiers and their families in what Nigerian officials have said is a show of support to improve the morale of the soldiers, including those fighting a 14-year war against Islamic extremists in the country's northeast.

AP WARSAW

Tens of thousands of disgruntled Polish farmers marched through downtown Warsaw on Friday to protest the European Union's climate policies and oppose the pro-EU government of Prime Minister Donald Tusk. The march under the slogan "Down with the Green Deal" was organised by Solidarity, a farmers' trade union that is strongly opposed to the EU's farming policies, in particular a policy known as the Green Deal which aims to make agriculture more climate friendly. The farmers say it interferes with their work and imposes high costs on them.

We are protesting because we don't want to become slaves on our own land," said dairy farmer Grazyna Gasowska from eastern Þoland.

"According to the Green Deal we are supposed to grow what they tell us to, when they tell us to," Gasowska said as she held a national white-and-red flag.

Polish farmers march against EU policies

"All those diversification requirements are very difficult for the farmers.

The noisy march stopped at the EU Warsaw office and then at parliament. "Let Brussels eat worms, we prefer pork chops and potatoes," said one banner, referring to a general belief that the EU will advise eating insects and worms rather than cattle meat. The demonstration came as Poland's political parties campaign ahead of elec-

tions next month for the European Parliament. The protest was supported by Polish right-wing opposition party Law and Justice, which held power from 2015 until late last year and is looking to regain political momentum. With an eye to the election, Tusk on Friday announced a reshuffle of his Cabinet to replace four ministers running for the European Parliament next

month. The changes are also

Today comes the time of bringing order and this is one of the reasons for which we jointly decided to have these changes," Tusk said.

He said there will be more changes in the future that would be dictated by the "interest of the state."

Tusk's pro-European Union government has embarked on a wide reversal of the policies of the Law and Justice party, which put Poland on a collision course with the 27-member EU during its administration.

Tusk's team is taking steps to free the judiciary and the state media from the political control that Law and Justice tried to impose, and bring to account those responsible for mismanagement and loss of funds by state-owned companies.

Ukraine says Russia is trying to break through its defences

Ukraine rushed reinforcements to its northeastern Kharkiv region to hold off a Russian attempt to breach local defences, authorities said, a tactical switch by Moscow that Ukrainian officials have been expecting for weeks as the war stretches into its third

Intense nighttime shelling targeted Vovchansk, in the Kharkiv region and less than 5 kilometres from the Russian border, regional Gov. Oleh Syniehubov said. The barrage prompted authorities to begin the evacuation of around 3,000 people. Then, around dawn, Russian infantry tried to pen-etrate the Ukrainian defences near Vovchansk, Ukraine's Defence Ministry said, adding that it had deployed reserve units to fend off the attack.

Russian military bloggers said the assault could mark the start of a Russian attempt to carve out a "buffer zone" that President Vladimir Putin vowed to create earlier this year to halt frequent Ukrainian attacks on Belgorod and other Russian border regions.

Ukraine had previously said it was aware that Russia was assembling thousands of troops along the northeastern border, close to the Kharkiv and Sumy regions. While the Kremlin's forces launched their most recent ground offensive in eastern Ukraine, Ukrainian intelligence officials said they expected the Kremlin's forces to attack in the northeast, too. Ukrainian President Volodymyr Zelenskyy said his

country's military had antici-

pated the attack and had calibrated its response.

'Now there is a fierce battle in this direction," Zelenskyy was quoted as saying by Ukraine's public broadcaster Suspilne.

Though Russia likely can't capture Kharkiv, Ukraine's second largest city, it could compel Ukraine to send more troops to the region, leaving other areas more vulnerable to attack. Also, forcing Ukrainian authorities to evacuate civilians is likely to create disruption and divert resources.

"The entire town is under massive shelling now, it is not safe to stay here," Vovchansk administration head Tamaz Hambarishvili told Ukraine's Hromadske Radio

The Ukrainian Defence Ministry said fighting against Russian sabotage and reconnaissance groups continued into the afternoon.

Meanwhile, a Ukrainian longrange drone struck an oil refinery inside Russia on Friday, officials said, a day after what appeared to be the deepest strike by Kyiv's forces on Russian soil hit a petrochemical facility.

Ukraine has repeatedly targeted refineries, hoping to disrupt the Kremlin's war machine. Russia is one of the world's biggest oil producers, providing key revenue and fuel. A Ukrainian drone hit a refinery near the city of Kaluga, southwest of Moscow, setting four oil

storage tanks ablaze, according to Vladislav Shapsha, the regional governor. He said there were no casualties.

The Russian Defense Ministry said that air defences downed seven Ukrainian drones early Friday in the Moscow, Bryansk and Belgorod regions. On Thursday, a senior official in Russia's Bashkortostan region, some 1,300 kilometres from the Ukrainian border, said a drone strike in the city of Salavat caused a fire at a petro-

chemical facility.
The Russian Emergencies Ministry said a pumping station building on refinery land was damaged but there was no fire. Ukrainian military intelligence refused to comment.

Pak to seek rollover of \$12 bn debt to meet budget targets of the IMF review mission in

Dakistan has decided to seek a rollover of around USD 12 billion debt from key allies like China in the 2024-25 fiscal year to meet a whopping USD 23 billion worth of gap in its external financing as the federal government aims to achieve budget targets before the expected arrival of an IMF team to the cash-strapped country. According to the Finance Ministry insiders, USD 5 billion from Saudi Arabia, USD 3 billion from the UAE and USD 4 billion from China will be rolled over, adding that the estimate of further new financing from China would also be included in the next financial year's budget, The Express Tribune newspaper reported.

Pakistan will receive more than USD 1 billion from the International Monetary Fund (IMF) under the fresh loan programme, whereas new financing from the World Bank and Asian Development Bank has also been included in the estimated budget.

According to the Finance Ministry sources, new loan programme agreements will be made with financial institutions. The federal government aims to achieve budget targets before the anticipated arrival

Pakistan. Negotiations for a new loan programme with the global lender are expected to commence in mid-May ahead of the budget which will be presented in June.

The Finance Ministry sources said the ministries had been instructed to complete the targets before the negotiations on the new loan programme. They added that the details would be given to the IMF delegation when all the important targets were met. It has also been decided to have the budget strategy paper approved by the federal cabinet before the IMF review mission arrives in the country. According to the sources, the Finance Ministry has started preparing the budget to set the targets for debt repayment, defence budget and tax collections.

Besides, the development and ongoing budget targets will also be determined, according to the paper. Pakistan has been suffering the chronic ailment of how to meet external liabilities. Traditionally, it depended on remittances. export proceeds and foreign loans to meet its liabilities. But exports haven't increased to match the imports and avenues of foreign aid have gradually dried up, putting pressure on the rupee and

narrowly avoided default due to a timely short-term loan agreement with International Monetary Fund which provided USD 3 billion during nine months.

The country is once again looking towards the global lender to provide a fresh loan to keep it moving. In the trying economic conditions, Pakistan has been heavily supported by the remittances its workers living and working around the globe send. The country received the sec-

ond-highest remittances of the ongoing 2023-24 fiscal at USD 2.8 billion in April 2024. According to the State Bank of Pakistan (SBP), the remittances increased by 3.5 per cent to USD 23.8 billion cumulatively in the first 10 months of FY24 compared to the same period last year. Remittance inflows during April 2024 were primarily sourced from Saudi Arabia (USD 712 million), the United Arab Emirates (USD 542.3 million), the United Kingdom (USD 403.2 million), and the United States of America (USD 329.2 million), according to the bank. The remittances earlier had peaked near USD 3 billion in the prior month of March 2024, marking a 23-month high.

Pak's maiden **lunar orbiter** sends first images

Islamabad (PTI): Pakistan's maiden lunar orbiter sent the first images of the sun and the moon, days after it was launched as part of China's moon mission, it was announced on Friday. Pakistan's mini satellite 'iCube-Qamar' was launched as part of China's Chang'e-6 lunar mission on May 3 from the Hainan province.

The images were unveiled at a ceremony organised at the China National Space Agency (CNSA) to mark the successful mission, Maria Tariq, spokesperson of Pakistan's national space agency Suparco,

told Dawn.com. She said that pictures were officially handed over to Pakistan's ambassador to China, Khalil Hashmi, at the data handover ceremony in Beijing. At 16:14 (1:14 pm Pakistan time) on May 8, the Pakistani CubeSat, one of the international payloads carried by the Change-6 mission, "separated from the orbiter near the far moon point of the 12-hour large elliptical orbit around

the moon, and then successfully captured the first image. Pakistan's CubeSat project achieved the set goal of 'successfully separating and obtaining telemetry' and achieved complete success," the CNSA announcement said. The first image showed the sun as a bright spotlight; the second was that of a sparkling half moon while the third image showed the moon on the left and the sun on the right,

according to images shared by CNSA online. The module was designed by Islamabad's Institute of Space Technology (IST) in collaboration with China's Shanghai

University (SJTU) and Suparco. It carries two optical cameras to capture the lunar surface. The cube satellite or cubesat is a miniature satellite typically characterised by its small size and standardised cubic design. They help to collect valuable data for scientific advancement and innovation. Pakistan got the opportunity to launch the lunar orbiter after it was offered by the CNSA through the Asia Pacific Space Cooperation Organisation (APSCO) to become part of the Change-6 mission. Meanwhile, the news of the first lunar orbit sending back images has infused a sense

Bushra Bibi's right to life violated in sub-jail: HC

A Pakistani high court has concluded that the state transgressed the right to life of former premier Imran Khan's wife Bushra Bibi by confining her at her private residence designated as a sub-jail and depriving her of interaction with other prisoners, a media report said on Friday.

On Wednesday, the Islamabad High Court (IHC) ordered the former first lady's transfer to the high-security Adiala Jail in Rawalpindi, where her 71-yearold husband Khan has been

On Thursday, the IHC issued a 15-page written order in which it said that the state has not just made the sentence of simple imprisonment harsher and heavier but has also violated Bushra Bibi's right to life guaranteed under Article 9 of the Constitution, The Express Tribune newspaper reported. "The mere fact that the room

where the petitioner [Bushra Bibi was] confined in the subjail [was] guarded by a prison ward [did] not mean that the petitioner [was] not in isolation," it said.

Asserting that it has the power and responsibility to intervene and protect the prisoner against inter alia harsher restraints and heavier severities than the sentence carries, the court noted that the sentence of 14-

handed out to Bushra Bibi had already been suspended. It also noted that a seven-year sentence given to her in another case was simple imprisonment. 'By keeping her in isolation at the sub-jail and depriving her of interaction with other prisoners, the state has not just made the sentence of simple imprisonment harsher and heavier but has also transgressed the petitioner's right to life guaranteed under Article 9 of the Constitution," it said. Japan defence chief urges higher security

The footage, also showing plants, buildings and other facility at the Japan Maritime Self-Defence Force's Yokosuka naval base was posted on a Chinese social media site in March, prompting investigation by ministry officials. strained diplomatic ties. National Security Adviser Eduardo Ano said he was backing a call by the Philippine defence chief for Manila's foreign office to take actions against Chinese embassy individuals in Manila "who claim to have recorded an alleged phone conversation between a Chinese diplomat and a military official" in violation of Philippine laws and international diplomatic protocols. Two Manila newspa-

It required Manila to notify Beijing for such offshore missions and promise not to bring construction materials. "Those individuals in the Chinese Embassy responsible for violating Philippine laws and the Vienna Convention on Diplomatic

BPCL to invest ₹1.7 lakh crore in core, new energy

Bharat Petroleum Corporation Ltd (BPCL) plans to invest Rs 1.7 lakh crore over the next five years in its core oil refining, fuel marketing and petrochemical business as well as in clean energy such as hydrogen, its chairman G Krishnakumar said on Friday.

As part of 'Project Aspire', a five-year strategic framework, BPCL plans to raise its oil refining capacity, augment petrochemical business and expand its presence in cleaner fuel space with an eye on energy transition and meeting country's fuel demand, he said at a post earnings investor call.

"Our strategy is based on two fundamental pillars fundamental pillars -'Nurturing the Core'; and 'Investing in Future Big Bets'. We remain committed to our core businesses, which refining, include the refining, marketing of petroleum products and upstream. In addition, we are focusing on our big bets, which comprise petrochemicals, gas, green energy, non-fuel retail, and digital," Krishnakumar said.

This will not just help meet the rising fuel demand of the world's fastest economy but also help the firm meet its target of achieving net zero carbon emissions by 2040.

"Overall, we plan to invest Rs 1.7 Lakh crores over a period of 5 years. Of this, Rs 75,000 crores is earmarked for refineries petrochemicals. We plan to

undertake strategic pipeline projects with an investment of Rs 8,000 crores, of which projects worth Rs 5,000 crores have already been identified. "We will invest more than Rs 20,000 crore in our marketing business. We have also earmarked investments of Rs 32,000 crores in upstream

production, mainly in Mozambique and Brazil, depending on positive developments on ground. We will invest Rs 25,000 crores on gas business, (and) Rs 10,000 crores on green energy business," he said.

Rupee settles 1 paisa lower at 83.49 against US dollar

PTI ■ MUMBAI

The rupee stayed range-bound and settled 1 paisa lower at 83.49 (provisional) against the US dollar on Friday, as the support from positive domestic equities was negated by elevated crude oil

Forex traders said significant foreign fund outflows dented investors' sentiments.

At the interbank foreign exchange market, the local unit traded in a narrow range. It opened at 83.48, and touched an intraday high of 83.46 and a low of 83.51 during the day. The domestic unit finally settled for the day at 83.49 (provisional), down 1 paisa from its previous close. On Thursday, the rupee closed at 83.48 against the American currency.

The Indian rupee traded on a flat note. Positive domestic markets and a weak US dollar supported the rupee, however, a rise in crude oil prices and sustained foreign fund outflows capped sharp gains, said Anuj Choudhary Research Analyst, Sharekhan

Meanwhile, the dollar index, which gauges the greenback's strength against a basket of six currencies, was at 105.23, higher by 0.01 per cent as the US dollar declined on rising

KKR TARGET PLAYOFF BERTH AT HOME

n red-hot form, two-time former champions Kolkata Knight Riders will look to seal an IPL playoff berth for the first time in three years when they take on the struggling Mumbai Indians in their final home match of the season here on Saturday.

The return of their two-time title-winning skipper Gautam Gambhir as team mentor has done wonders for the side which has found ways to win games from difficult situations this season.

Sitting at the top of the 10-team standings with eight wins from 11 matches, another win will guarantee them the playoff berth as the Shah Rukh Khanowned franchise will look to end on a high, its campaign at the home venue of Eden Gardens.

Gambhir's ploy to back Sunil Narine as an opener along with World No.2 T20I batter Phil Salt has been a masterstroke. The duo have scored bulk of

The Big Cricket League to promote local talent

PIONEER NEWS SERVICE ■ **NEW DELHI**

Promising to transform the landscape of Indian cricket, the Big Cricket League (BCL) was officially launched here recently at an event with an aim to bridge the gap between established cricketing stars and aspiring

local talents. Led by former India international cricketer Rudra Pratap Singh, the BCL revolves around providing a platform for showcasing raw talent and offering a once-ina-lifetime opportunity to play

alongside cricketing icons. The launch event was attended by legendary cricket figures including former India Captain Dilip Vengsarkar, League Commissioner, and former West Indies Captain Courtney Walsh, Vice President. Both Vengsarkar and Walsh echoed Singh's enthusiasm, emphasizing the

significance of the BCL in providing opportunities for those who have missed out on traditional pathways to

cricketing success. At the inaugural season, it was announced that six franchises were set to compete in 18 live T20 matches. These matches will feature a blend of former international icons, first-class cricketers, and aspiring local talents, ensuring a captivating spectacle for enthusiasts worldwide.

With matches set to be broadcasted both television and OTT platforms across India and in over 30 countries, the BCL aims to make its presence felt amid a global audience. Furthermore, opportunities for team ownership and sponsorship are available, signaling the league's commitment to fostering collaboration and support within the cricketing community, said a statement from the BCL.

Former Indian captain Sourav Ganguly on Friday said the Indian team management should make Virat Kohli open in next month's T20 World Cup to exploit the star batter's rich vein of form in the ongoing Indian Premier League.

Kohli is the current Orange Cap holder in this IPL with 634 runs from 12 matches, averaging 70.44 and at an impressive strike-rate of 153.51, which is significantly higher than his career rate of 134.31

"Virat is playing exceptionally well. The way Kohli batted last night — 90 in quick time, you need to use him as opener in T20 World Cup. He should open, evidenced by his last few IPL innings which have been outstanding," Ganguly told PTI here on the sidelines of a promotional event.

Ganguly said India have picked a balanced squad for the T20 World Cup which has the wherewithal to land the trophy after a gap of 17 comments the other day, where he

month.

Índia's lone triumph in the T20 World Cup came in 2007, the inaugural edition held in South

"This is an excellent squad. I think they have picked the best possible squad. Apart from batting depth, bowling looks excellent. Bumrah is the best fast bowler in

the world at the moment. We have experience in Kuldeep, Axar, Siraj. It's an ideal combination we have this time," said Ganguly. This edition of the IPL has seen

teams breaching the 250-run mark quite effortlessly, and the 51-yearold said the trend would continue in the future as well. "This is going to be the trend in the

years to come. T20 cricket has become a power-oriented game and that's what it is going to be.

"I was reading Sanju Samson's

said there's no time to settle down in modern T20s. You just have to hit, and that's the way it is going to be," said Ganguly. The Kolkatan, himself no stranger

to hitting some monster sixes during his playing days, identified the evolved mindset of batters and Impact Player rule as the main reasons behind such mammoth totals in the IPL.

"Now, in IPL we are seeing scores like 240, 250 regularly. The main reasons are good batting wickets and the grounds are also not big in India. In the last game between Delhi Capitals and Rajasthan (Royals), 26 sixes were hit in a 40over game, which is almost one six every over.

That's how this game has gone and that's how the players have started approaching the game. The Impact Player rule, where every team has the possibility of adding another

batsman, has also added another dimension to it," he detailed. Ganguly said the bowlers need to

upskill themselves to counter the ruthless march of batters in T20s, and cited the example of pacer

Jasprit Bumrah. Amidst the general ruins of bowlers, Bumrah stood tall, grabbing 18 wickets from 12 matches and his economy rate of 6.20 is the best among regular bowlers.

"The bowlers need to be really more skillful, we have some skillful bowlers around, to be more successful. Look at Bumrah, Axar Patel, Kuldeep Yadav, all of them bowl superbly in all formats of the game and in the IPL. Í don't believe in formats. I believe

in skills. These are exemplary players who will thrive in all formats," he noted.

Does he think the power-hitting will take the elegance and artistry away, making cricket robotic?

"Not at all. Demands of different formats are different. Everything evolves, sports is not an exception. You will still see elegance and artistry in Test cricket. Test matches will always be Test matches. "Look, quality players will be successful in all formats of the

game. Look at Virat Kohli...the best players will adjust to all formats," he Recently, Dinesh Karthik had

expressed his desire to return to the Indian side in the context of the T20 World Cup, but Ganguly said the selectors made the right choice by selecting Rishabh Pant and Sanju Samson as wicketkeeper batters.

Dinesh played well but there are better players than Dinesh. I don't think you can leave Sanju or Rishabh out. There are better players than Dinesh Karthik at the moment," said Ganguly. Ganguly also refrained from commenting on the "public reprimand" given to Lucknow Super Giants skipper KL Rahul by the team owner Sanjeev Goenka.

"It is not fair for me to make a comment based on a TV grab. I don't know what Sanjeev had spoken to Rahul. So, I leave it at that," he said.

Rafael Nadal shows he is not quite ready for retirement in a comeback win at Italian Open

For a brief stretch on Thursday, Rafael Nadal looked every bit of a weary 37year-old player nearing retirement.

Struggling to produce pace off

sides both with his groundstrokes, committing an uncharacteristically number of unforced errors and unable to stay in rallies, Nadal dropped the first set of his first-round match at the Italian Open against Belgian qualifier Zizou Bergs.

fist-pumping, Then the fist-pumping, virtually-unbeatable-on-clay, 22-time Grand Slam champion version of Nadal emerged and the Spaniard rallied for a 4-6, 6-3, 6-4 victory before an adoring crowd in what will likely be his final tournament at the Foro Italico.

Nadal was playing only his 10th match this year after missing nearly all of 2023 with a hip injury that required surgery. He's hoping to be competitive one last time at the French Open, where he is the record 14-time champion.

"That was not my best match. I was practicing better than how I played today, without a doubt. But I found a way to win," Nadal said. "My game is more unpredictable than before. I didn't play much tennis for the last two years. So I'm up and down, on and off, but I think I can do it much better than what I did today?

Rome, where he is a record 10time champion, is Nadal's last big warmup tournament before Roland Garros starts on May 26. Nadal noted that after

overcoming his hip and

abdominal issues, the time has

able to push my body to the limit that I need to push to feel myself ready for what's coming. "I am not talking only about

Roland Garros. Ĭ am talking about the next match. I need to lose this fear," Nadal said. "Matches like today help. Some moments I was moving faster. Some moments not. I need to get used to that, to take that risk. ... I feel more ready to try it than before."

During his 70th win in the Italian capital, the Campo Centrale crowd serenaded Nadal with chants of: "Ole, Ole, Ole, Na-dal, Na-dal."

"I've always been emotional to play here, these kind of events are the most important events in my tennis career," Nadal said. "The crowd has been always amazing with me, supporting me since the beginning of my tennis career. So I'm super excited to be able to play one more time here." Nadal was coming off a straight-set loss to 31st-ranked Jiri Lehecka in the fourth

round of the Madrid Open.

consecutive matches on clav in his entire career and now that impressive statistic remains intact during what he has indicated is his final season on tour. Nadal got out to a strong start, unleashing a 95 mph (153 kph) forehand winner en route to an early break and a 3-1 lead in the first set. But he gave the break right back in the next game when he missed three weak groundstrokes into

the net. Then at 4-4, Nadal doublefaulted twice and was broken again to give the 108th-ranked Bergs a 5-4 lead and a chance to serve out the set. In the first set, Nadal committed 16 unforced errors to Bergs' 10.

During the first game of the second set, the match was briefly suspended when a spectator in the stands required medical treatment. That allowed Nadal to chat with Carlos Moya, his coach.

After the 10-minute suspension of play, Nadal raced out to a 3-0 lead in the second set as he upped the power on his shots and became more come "to prove myself if I am But he has never lost aggressive.

During the third set, Nadal managed to win a point after he fell to the red clay, quickly getting up to resume the rally and then producing a delicate drop-shot winner. Then he blasted a forehand cross-court winner to break for a 3-1 lead and unleashed a double-clutch fist pump.

There were more fist pumps when Nadal rallied from 0-40 on his serve to hold for a 4-2 lead in the third.

Nadal's mother and sister sitting behind the court shouted encouragement and his 1-year-old son was also court-side - sitting on the lap of Nadal's father.

The Nadal family can now look forward to a second-round matchup with seventh-seeded Hubert Hurkacz. Top-ranked Novak Djokovic is on the opposite side of the draw, while second-ranked Jannik Sinner and third-ranked Carlos withdrew Alcaraz both because of injuries.

In other matches, Serbian qualifier Hamad Medjedovic beat Alexei Popyrin 6-3, 6-2; Thiago Seboth Wild defeated French qualifier Gregoire Barrere 6-4, 6-2; and Dominik Koepfer eliminated Andrea Vavassori 6-4, 6-3.

In women's play, top-ranked Iga Swiatek routed American qualifier Bernarda Pera 6-0, 6-2, and third-ranked Coco Gauff advanced with a 6-3, 6-3 win over Magdalena Frech. Two former top-ranked

women posted wins over seeded players. Naomi Osaka 19th-seeded Marta beat Kostyuk 6-3, 6-2 in a match that was suspended for about an hour because of rain, and Angelique Kerber ousted 17thseeded Veronika Kudermetova 6-3, 6-0.
