EC shifts focus to urban voters today

RAJESH KUMAR ■ NEW DELHI

Amid the sweltering heat and high-pitch political rhetoric and promises by contestants in the fray, over 8.95 crore voters in 49 Parliament constituencies spread in Bihar, Jammu and Kashmir, Ladakh, Jharkhand, Maharashtra, Odisha, Uttar Pradesh, and West Bengal will cast their vote in the fifth phase of polling on Monday. On the eve of phase five of Lok Sabha polls, the Election Commission on Sunday pointed out that Mumbai, Thane and Lucknow have shown apathy towards voting in the past and asked these city dwellers to turnout in higher numbers.

Low turnout of voters is expected on Monday due to extreme heat wave conditions in some States including Bihar, Jharkhand, Odisha, Uttar Pradesh, and West Bengal.

The poll authority noted that in the past these cities have "suffered" from urban apathy in voting. "The Commission specially calls upon these city dwellers to erase the stigma by turning out in higher numbers," it said. So far, the last four phases have registered a voter turnout of 66.95 per cent.

On May 3 too, while referring to voter turnout in phase two, the Commission had said it was "disappointed" with the turnout level in some metropolitan cities.

The EC had last month assembled many metro Commissioners here to work out a strategy to fight urban apathy. Urban and youth apathy is

described as a phenomenon when young voters and those living in metros fail to turn up at polling stations on election day. As summer is on peak, hot and dry weather is another factor which may impact the voters' turn out in the fifth phase.

For Rahul Gandhi, Rae Bareilly will be the second seat from where he is contesting the national polls. The Congress scion has already contested from Kerala's Wayanad in the second phase.

Rae Bareilly is a Nehru-Gandhi family pocket borough that was represented by his mother Sonia Gandhi since 2004.

The BJP has fielded UP Minister Dinesh Pratap Singh.

In Amethi, Union minister Smriti Irani, who had defeated Rahul in 2019, is seeking a second term, while KL Sharma, an aide of the Gandhi family, has been fielded by the Congress.

Among other prominent candidates in the fifth phase of Lok Sabha polls are several Union Ministers including Rajnath Singh (Lucknow, UP), Piyush Goyal (Mumbai North, Maharashtra), Sadhvi Niranjani Jyoti (from Fatehpur, UP) and Shantanu Thakur (Bangaon, WB); LJP (Ram Vilas) leader Chirag Paswan (Hajipur, Bihar), Shiv Sena's Shrikant Shinde (Kalyan, Maharashtra), and BJP's Rajiv Pratap Rudy and RJD president Lalu Prasad's daughter Rohini Acharya (both Saran, Bihar).

Uttar Pradesh, which sends the largest number of MPs to Parliament, will see 14 seats voting in the fifth phase with

STARS IN FRAY		
CONSTITUENCY	CANDIDATE	PARTY
Raebareilly	Dinesh Pratap Singh Rahul Gandhi	BJP Congress
Amethi	Smriti Irani Kishori Lal Sharma	BJP Congress
Lucknow	Rajnath Singh Ravidas Mehrotra	BJP SP
Kaiserganj	Karan Bhushan Singh Bhagat Ram Mishra Narendra Pandey	BJP SP BSP
Hajipur	Chirag Paswan Chandra Ram	LJP (Ram Vilas) RJD
Saran	Rajiv Pratap Rudy Rohini Acharya	BJP RJD
Mumbai	Piyush Goyal Bhushan Patil	BJP Congress
North	Omar Abdullah Fayaz Ahmad Mir Sajjad Gani Lone	National Conference People's Democratic Party People's Conference

the fate of five Union Ministers at stake. These seats include Congress pocket boroughs of Rae Bareilly and Amethi. Faizabad, which includes Ayodhya, the nerve centre of the BJP's Hindutva politics will also vote in this phase.

At the height of bitter political rivalry, the BJP-led National Democratic Alliance (NDA), Prime

Congress and the Samajwadi Party will run a bulldozer over the Ram temple if elected to power, prompting the Congress to complain to the Election Commission on Saturday. He also alleged that the opposition wanted to bring back Article 370.

The campaigning saw high-pitched rhetoric by both the BJP and the INDIA bloc. PM Modi also attacked Congress claiming that the UPA government had wanted to allocate 15 per cent of the budget to Muslims. Congress president Mallikarjun Kharge widened the gamut of poll guarantees of his party when he promised 10 kg of free grains to the poor instead of the five kg being given at present. Modi on Sunday condemned West Bengal Chief Minister Mamata Banerjee's remarks against Ramakrishna Mission and Bharat Sevashram Sangha and said threats are being issued against these socio-religious organisations to "appease" one's vote bank. PM Modi vowed that he will not let the corrupt live outside jail after June 4. Addressing a public gathering in West Bengal's Purulia, the PM said that he had promised in 2014 and 2019 that action will be taken against the corrupt. "I am saying it now that I won't let the corrupt live outside jail... Modi is giving you another guarantee, after June 4 when we form the new government, corrupt people will have to spend their entire lives in jail..." Modi said.

On Friday, Congress leader Sonia tried to strike an emotional chord as she said at a rally that she is giving her son to the people of Rae

Delhi roads clock four deaths a day so far in 2024

SAUMYA SHUKLA ■ NEW DELHI

About four people lost their lives in fatal accidents in the national Capital every day this year till May 15. A data analysis by the Delhi Police reveals that 518 people have died in 511 fatal crashes, compared to 552 fatalities in 544 crashes during the same period last year in 2023. This analysis shows that due to efforts of the police a total of 34 lives were saved this year and the fatal crashes were reduced too. By comparing the data, it reveals that about 33 fatal crashes were avoided from happening on the roads of Delhi. A statement by the Delhi traffic police said, "Through relentless dedication and strategic measures, the Delhi Traffic Police has witnessed a commendable decline in road fatalities during the current year, reflecting a safer environment for commuters and residents alike."

It further stated that the concerted efforts of the Delhi Traffic Police have played a pivotal role in achieving this milestone. "Rigorous enforcement of traffic rules, robust awareness campaigns, and the implementation of innovative traffic management strategies have collectively contributed to this positive outcome," it stated. Additionally, the police have identified the top ten roads in

Delhi where the highest number of fatal crashes have occurred this year. "With this information, we can implement targeted enforcement measures to enhance road safety and ensure compliance with traffic regulations, ultimately aiming to reduce fatalities on these roads," it stated.

According to the traffic police, the maximum fatal crashes happened in the Ring road area. About 33 fatal crashes occurred in Ring Road, followed by 31 in Outer Ring Road, 29 in Grand Trunk Road, 17 in Rohtak Road, 13 in NH-8, 10 in Mathura road, nine in Najafgarh and seven fatal crashes each in Kanjhawala road, NH-24 and Wazirabad road. About 163 fatal crashes happened in these areas accounting for more than 30 per cent of the total crashes leading to death of citizens in Delhi.

"This substantial reduction demonstrates the Delhi Traffic Police's unwavering commitment to protecting the lives of all road users. Through a proactive approach, stringent enforcement against traffic violations, and initiatives promoting responsible driving behaviour, the unit has successfully enhanced road safety standards across the city," a senior official said.

Maliwal assault could have been fatal: Cops

RAJESH KUMAR ■ NEW DELHI

After a late-night hearing on May 18, a city court sent Delhi Chief Minister Arvind Kejriwal's aide Bibhav Kumar to five days in police custody in connection with the alleged assault on AAP Rajya Sabha member Swati Maliwal. Meanwhile, a team of Delhi Police on Sunday seized a laptop and CCTV digital video record (DVR) from the residence of Kejriwal. Along with this, some documents were also taken away by the Delhi Police from the Chief Minister's residence in the alleged assault on May 13 when Kumar, allegedly attacked Maliwal. The Delhi Police, in its remand paper, has described

Delhi CM Arvind Kejriwal's aide Bibhav Kumar sent to five days remand by court

the alleged assault on Maliwal found in the pen drive provided to the investigating officer (IO) during the course of the investigation and the mobile phone was formatted by the accused speaks volumes."

Magistrate Gaurav Goyal was hearing the application of Delhi Police which was represented by Additional Public Prosecutor Atul Srivastava. The police had sought seven day custody. "Considering the submissions made on behalf of both the parties, I find there is a necessity of police custody remand in the present case. Accordingly, the application moved by the IO is partly allowed and the accused is remanded to police custody for five days," the court said in its order passed around 12:45 AM Sunday. It noted the prosecution's submissions about the need to take Kumar to Mumbai and other parts of the national Capital to collect evidence, which was not possible without the accused's custody. "Admittedly, the case is at a nascent stage. Allegations made in the FIR are corroborated in her (Maliwal's) statement recorded by the magistrate on oath and further, it is again corroborated in the medico-legal case (MLC) of the victim or complainant," the court said. The magistrate also observed, "I am aware of the view of Constitutional courts that the opportunity must be given to the investigating agency to complete the investigation in order to reach the truth of the matter but at the same time the rights of the accused are also to be protected."

SC to hear plea opposing three criminal laws

PTI ■ NEW DELHI

The Supreme Court is scheduled to hear on Monday a petition challenging the enactment of three new laws that seek to overhaul India's penal codes claiming that they suffer from many "defects and discrepancies".

A vacation bench of Justices Bela M Trivedi and Pankaj Mithal is likely to hear the matter. The Lok Sabha, on December 21 last year, passed three key legislations — the Bharatiya Nyaya (Second) Sanhita, the Bharatiya Nagarik Suraksha (Second) Sanhita and the Bharatiya Sakshya (Second) Bill. President Droupadi Murmu gave her assent to the bills on December 25.

These new laws — the Bharatiya Nyaya Sanhita, the Bharatiya Nagarik Suraksha Sanhita and the Bharatiya Sakshya Act -- will replace the Indian Penal Code (IPC), the Code of Criminal Procedure (CrPC) and the Indian Evidence Act respectively. Seeking a stay on the operation of the three new laws, the PIL filed by advocate Vishal Tiwari has said they were enacted without any parliamentary debate as most of the opposition members were under suspension.

YouTube happy hunting ground for wildlife traffickers

ARCHANA JYOTI ■ NEW DELHI

In a crackdown on wildlife trafficking, the Wildlife Crime Control Bureau (WCCB) has removed 1,158 videos associated with the illegal trade, poaching, hunting, and cooking of protected animals, as YouTube became a favorite hub for tech-savvy wildlife smugglers. Sources in the WCCB said that this platform has been found to be facilitating the advertising and sale of contraband such as parakeets, rare turtles, and pangolins.

More such videos are under the scanner, said a senior official from the country's top wildlife crime control agency under the Union Environment Ministry. YouTube is the most popular social video platform. As of October 2023, India is the biggest market for YouTube with approximately 462 million active users followed by USA, Brazil and other countries.

Little wonder that many wildlife smugglers have started using this platform in a big way to earn easy money through the sale of live and body parts of the wildlife species including the protected one in violation of the law. In fact, once eligibility criteria of YouTube is met by their YouTube

Channels, these wildlife perpetrators may apply for monetization scheme by joining YouTube Partner Program and can earn money through various monetization streams on YouTube such as revenue from advertisement, revealed Arvind K Chaurasia, Additional Commissioner at the WCCB. He said that the WCCB and Traffic India, the Wildlife Trade Monitoring Network India that works in collaboration with WWF (World Wide Fund for Nature) and International Union for Conservation of Nature (IUCN), has also been on the trail of these offenders.

According to reports, in at least five operations, pangolins and tiger skins were seized over the past one year following ti-off from the popular social platforms. Talking about the modus operandi, the official said that often, WCCB volunteers go over the comments for clues in the posts uploaded on the YouTube that may lead to the identity of potential buyers. Sometimes, it doesn't take much - buyers and sellers leave their numbers in comments. "Till date in the last one year, WCCB has successfully removed around 1300 YouTube videos

related to poaching, hunting, cooking and selling of wildlife on the basis of inputs shared by these Wildlife Cyber Warriors by sending a content removal notice to YouTube Legal Support Team under Section 50(7) read with Section 52 of Wild Life (Protection) Act, 1972," said the WCCB official.

The wildlife crime control body has also launched "WILD NET", a program designed to track and check illegal animal trading online. Any suspicious activity online would send alerts to enforcement agencies in the country.

In 2019, TRAFFIC in collaboration with the Union Environment Ministry had held a meeting with online platforms like Google, Facebook, YouTube and e-commerce sites like IndiaMart and Flipkart to ensure that their platforms are not used for trading protected species.

YouTube, in an official statement, said, "We take the safety of our online community very seriously. YouTube's policies prohibit graphic violence and animal abuse and we will quickly remove flagged content and terminate channels of repeat offenders."

Drug recall from US hits big firms

PIONEER NEWS SERVICE ■ NEW DELHI

Months after the Indian-made cough syrups were linked to 141 children's deaths worldwide forcing the manufacturers to recall their products, it has been found that major pharma companies Dr Reddy's Laboratories, Sun Pharma, and Aurobindo Pharma are recalling their drugs from the US market due to manufacturing issues.

According to the latest Enforcement Report by the US Food and Drug Administration (USFDA), Dr Reddy's Laboratories is recalling nearly 20,000 cartons of a medication used to control blood phenylalanine levels in adults and children. Dr Reddy's Laboratories, Inc, based in Princeton, New Jersey, is recalling Javygtor (sapropterin dihydrochloride) Powder for Oral Solution (100mg) because it is sub-potent, according to the USFDA. The company is also recalling another lot of sapropterin dihydrochloride for the same reason, as per reports.

Sapropterin dihydrochloride is used to treat hyperphenylalaninemia (HPA), a condition characterized by high levels of phenylalanine in the blood. It is specifically indicated for individuals with phenylketonuria (PKU), a genetic disorder in which the body cannot break down the amino acid phenylalanine, leading to its accumulation in the blood.

Modi attacks INDI Alliance at Ghatshila Rally, says Congress created a record of loot

PARVINDER BHATIA : JAMSHEDPUR

Prime Minister Narendra Modi on Sunday delivered a scathing critique of the INDI Alliance, specifically targeting the Congress and Jharkhand Mukti Morcha (JMM), during an election rally at the Moubhandar Football Ground in Ghatshila, approximately 42 kilometers from Jamshedpur.

"Whenever the name Jharkhand is mentioned, what image comes to mind? Heaps of money. Hearing 'Jharkhand' brings to mind mountains of cash. This is the state where officers are in jail, and former chief ministers are suffering in prison. Congress and JMM have amassed black money," the Prime Minister declared in his half-hour speech.

He continued, "Parties like Congress, JMM, and RJD have looted Jharkhand at every opportunity, and Congress is the mother of corruption."

Prime Minister Narendra Modi is being welcomed / greeted during an election rally in favor of BJP candidate from Jharkhand Parliamentary constituency Vidut Baran Mahato for the on-going parliamentary election-2024 at Ghatshila area near Jamshedpur under East Singhbhum district of Jharkhand on Sunday, May 19, 2024. Pix By Sanjib Kumar Dutta

Modi accused Congress of being embroiled in numerous scams, including the infamous 2G and coal scams. "Congress created a record of loot," he remarked.

He further alleged that

both Congress and RJD have a history of seizing land from the poor under the pretense of providing jobs. "JMM learned the same habit and character from Congress and RJD," he said, claiming JMM was

involved in a land scam in Jharkhand. "The party grabbed land from poor people and tribals and even attempted to usurp army land," he lamented.

The Prime Minister questioned the origin of the money recovered from the homes of corrupt leaders. "I ask you, whose money are these mountains of cash found in their homes? This is your children's rightful money, isn't it? This is your money, the money

of innocent tribals, Dalits, and backward classes," he asserted. Modi revealed he is seeking legal advice to recover this money for the poor. "I am looking for ways to get the money back to the poor. I can guarantee this," he said, receiving thunderous applause from the crowd.

Emphasizing the importance of industrialization, Modi stated, "The whole world knows that industry is essential for the country's

progress. Jamshedpur is named after industrialist Jamsetji N Tata, but Congress considers industrialists as the nation's enemies."

Addressing the audience as brothers and sisters, the Prime Minister said, "I want to discuss a serious topic today because I am standing in an industrial town and among my tribal brothers and sisters. I challenge the Congress and its allies, wherever they have a government,

be it in Tamil Nadu, Kerala, Karnataka, Telangana, West Bengal, or Himachal Pradesh. I challenge the chief ministers that in the coming days, they will fail to attract investments as Congress is opposed to industry and investments."

Modi stressed that his remarks were neither political nor electoral statements. Addressing the long-pending airport project at Dhalbhumgarh, he said, "Our government wants to build an

airport in Dhalbhumgarh, but the Jharkhand government is creating obstacles."

He also mentioned the historical Kharsawan and Gua incidents, emphasizing the sacrifices made by tribals during the freedom struggle.

The Prime Minister urged the crowd to vote for BJP candidate Bidyut Baran Mahato, who is contesting the Jamshedpur Lok Sabha seat for a third term. Jamshedpur will go to the polls on May 25. "By voting for Bidyut Baran Mahato, you will strengthen my hands," Modi said. "Your vote will go directly to Modi. Meet as many people as possible, encourage them to vote, and strengthen Modi's hand."

Despite the hot and humid weather, the rally saw a significant turnout. Union Tribal Affairs Minister Arjun Munda, state BJP chief Babul Marandi, AJSU president Sudesh Mahto, and several senior BJP leaders attended the election rally.

Free check-up and medical camp at Sai Nursing Home

PNS : LOHARDAGA

A free check-up and medical camp was organized on Sunday under the direction of Director Ashish Kumar Singh (Pintu Singh) at Sai Nursing Home located near Maneka Cinema Hall, Ganpati Nagar. Which ran from 10:00 am to 5:30 pm. Dermatologist Dr. Sankesh Kumar Singh, General Physician Dr. SK Gupta and Eye doctor Farooq Ansari who came from Ranchi were present in the camp. Arun Kumar, Zubair Alam, nursing staff of Pathology Department, Chhaya, Jahnavi, Sumanti, Nikhil, Renu, Kriti, Rohita, Anita, Munni, Nilu, Soni, Aburadha etc. were ready for their cooperation. Who provided important assistance in checking sugar, BP, oxygen label, weight, heart beat etc. In this free check-up and medical camp, about 70 patients and elderly men and women from rural areas around Lohardaga, Ranchi, Gumla and Latehar got check-up and treatment from the medical team and also consulted doctors.

Dermatologist Dr. Sankesh Kumar Singh, while advising the patients, said that they should get their health checked from time to time. Especially sugar, BP and eye patients. He said that body weight is also a main factor in your health. Weight also needs to be balanced. For this a balanced diet is also necessary. The people who came to get their health checkup mainly included about six dozen people including Kayum Khan, Rachna Rai, Usha Devi, Vijay Singh, Shashi Singh, Sanjay Nath Sahdev, Triveni Das etc.

Hazaribag boy shine in Superstar Singer 3

PNS : HAZARIBAG

Sony Entertainment's kids singing reality show, 'Superstar Singer 3' will pay tribute to one of the greatest singers of all time, Kishore Kumar, in a special episode titled "A - Z of Kishore Kumar". Exceptionally talented, 12-year-old Atharva Bakshi from Hazaribag, Jharkhand made headlines with his mesmerizing performance on "O Hansini" and "Aanewala Pal Jaane Wala Hai". Emotional and impressed by Atharva's talent, Sudesh ji not only praised

him but also requested him to sing Kishore Da's classic song "Kuen Mein Kood Ke Mar Jaana". Also shared the memories gained from his experiences. Mesmerized by this performance, Sudesh ji said, "I have sung both these songs many times, but the depth of emotion and expression that Atharva has brought in his singing has really surprised me. Kishore Da used to say that in just 3 minutes, one should convey all the emotions and excitement, and you have done exactly that, performing brilliantly. May God bless you abundantly."

Jail court-cum-legal awareness camp

NITYANAND DUBEY : GARIHWA

Under the aegis of NALSA and JHALSA and as per the directions of Principal District and Sessions Judge - cum-Chairman, District Legal Services Authority, Garhwa, Rajesh Sharan Singh, a Jail Court-cum-Legal Awareness Camp was organized on Sunday.

A total of one prisoner's application was received in this jail Adalat, who was related to the court of Chief Judicial Magistrate and a bench was constituted.

On this occasion, the prisoners were given information regarding their legal rights and the prisoners were also told that if they are not able to keep their advocate, then they can send an application to this effect to the office of District Legal Services Authority, through the Superintendent of Jail, so that they can be provided a free lawyer.

Secretary, District Legal Services Authority, Ravi Chaudhary and Civil Judge Junior Division cum-Judicial Magistrate Abhinav Tripathi and court employees Deendayal Pathak, Amar Kumar, Rajesh Kumar etc. were present in today's Jail adalat.

BJP State spokesperson Kunal Sarangi resigns

PNS : JAMSHEDPUR

In a significant blow to the Bharatiya Janata Party (BJP) ahead of the Lok Sabha elections, BJP state spokesperson Kunal Sarangi has resigned from his position, citing neglect within the party. This unexpected resignation coincided with Prime Minister Narendra Modi's visit to Ghatshila on Sunday.

Kunal submitted his resignation to the party's state president, Babul Marandi. During a press conference held on Sunday, Kunal expressed his discontent, stating that dedicated party workers, including himself, have been ignored at the organizational level in the district for the past six months.

He highlighted that in the recent assembly elections, preference was given to workers involved in party activities, sidelining long-term loyalists. Kunal revealed that despite repeatedly communicating his concerns to the State President and the Organization Minister, his views were not prioritized. He

was notably excluded from participating in the Prime Minister's program in his home constituency, which he viewed as a significant slight.

He also brought attention to a recent incident of assault within the BJP office, describing it as an alarming indicator of the party's internal issues. "I have not left the party; I remain a soldier of the party," Kunal asserted, warning the top leadership to heed his concerns. He emphasized that his statements were intended to alert the party's high command, not to criticize or undermine it.

Addressing questions about his aspirations for a Lok Sabha ticket, Kunal questioned, "Is it a crime to aspire

for a ticket as a dedicated party worker? Is it my fault for raising my party and serving the public during challenging times? Is it wrong for my name to appear as a strong contender in the party's internal survey?"

Kunal stressed that he was merely fulfilling his duty by conveying the concerns of numerous district workers to state leaders. "If this is considered multiplication, then I am multiplying," he stated. "I am ready to face punishment for this crime, but I cannot compromise my self-respect."

This development has raised concerns within the BJP as they prepare for the upcoming elections. The resignation of a prominent spokesperson like Kunal Sarangi could indicate deeper issues within the party's organizational structure, potentially impacting their election campaign.

The timing of Kunal's resignation, coinciding with Prime Minister Modi's visit, has amplified its significance, suggesting a need for introspection and immediate action within the party ranks.

No enthusiasm among the voters this time: Sinha

AVINASH ANJAN : HAZARIBAG

Former Foreign Minister Yashwant Sinha has said that I have been watching elections since 1962 but for the first time I am seeing such a dull election. There is no enthusiasm among the voters and there is no wave in the ruling party either. This election is not about NDA vs India, for the first time the individual is dominating in the election. There is a possibility that the ruling party will not be able to get even 200 seats leave alone 370 because even this Reliance partner is not left. What has been said about amending the Constitution has not sent a good message to the public. This is the first election in which the issue is being made. This election is being fought in the name of communalism and it has been made Hindu-Muslim and India-Pakistan. But the Hindus, Muslims, Sikhs and Christians living in India are

not going to fall into this trap because for the first time elections are being fought on this issue. Communalism is not the issue, unemployment and inflation are the issue. This is the first election after 2014 in which there was no wave. In the first elections held in this, the issue of national security was raised.

The results of different elections will be known on June 4, but it has been 10 years of Modi government and Modi is raising the slogan of getting another chance for 5 years. There is a constitutional system in America that any person can become President twice. There the tenure of the President is of 4

years i.e. he becomes the President for 8 years. Despite doing a lot of work, Obama had to retire as President. He had to retire at a young age. The logic behind this is that 8 years are important for serving the people of the country. If it doesn't happen in 8 years then what will happen in 18 years, but even after ruling for 10 years, Modi has brought a new dawn. These two are giving new happiness for 5 more years. Together they are raising slogans on 400.

Talking about constitutional amendment. They have come up with a guarantee; individualistic ideas seem to dominate in this. Congress has had a teachers government for so long. But there was never any individualism in the advertisements of BJP's guarantee that are being released. Give victory to Modi and BJP has been left behind. First, someone is asking for votes in the name of the candidate.

Lohardaga BJP leaders campaigned for Kalicharan Singh

PNS : LOHARDAGA

Regarding the Chitra Lok Sabha elections in Jharkhand, the BJP members of Lohardaga appealed to the voters of Barwa Toli, Goli, Rud etc. villages of Chandwa block of Chitra parliamentary constituency on the border of Kudu in Lohardaga to vote for BJP candidate Kalicharan Singh. Tremendous enthusiasm was seen. On the other hand, the people of urban area of Chandwa were also personally met and talked about first voting and then refreshments. Simultaneously, a meeting was held with senior BJP members of Chandwa and Latehar. After the field visit, Mr. Singh told that there is a tsunami going on in favor of BJP here and the voters are committed to cross 400 and the voters said with confidence that this time more than the previous record of 371000 votes will be given to the NDA candidate and sent to Delhi. Senior BJP leaders Lal Radhe Nath Shahdev, Devashish Kar, Rana Govardhan Sharma, Dilip Patnaik, Sanjay Burman etc. were present along with Mr. Singh.

Home voting begins, 309 cast votes on first day

PNS : BOKARO

The home voting process for the Lok Sabha general elections began on Saturday in the Giridih parliamentary constituency. District Election Officer and Deputy Commissioner Vijaya Jadhav reported that on the first day, a total of 309 voters, including 122 senior citizens aged 85 and above, and 187 Persons with Disabilities (PWD), cast their votes from home.

A total of 346 voters have been identified across the district for home voting. To facilitate this process, 27 polling teams have been formed. On Saturday, polling staff, BLOs, sector officers, and police personnel visited the homes of these voters to conduct the voting process.

During the home voting, 122 senior citizens aged 85 and above, and 187 PWD vot-

ers exercised their right to vote. Teams have been formed based on blocks to ensure smooth voting. The

voters were given detailed instructions on the voting procedure. The home voting will continue until Monday.

Bokaro Steel Plant honour employees

PNS : BOKARO

In a prestigious ceremony held on at Bokaro Steel Plant, Director In-Charge B.K. Tiwari honoured the members of various BSL teams who have excelled in several distinguished competitions. The event saw the presence of key figures, including C.R. Mahapatra, (ED) Suresh Rangani, (ED) Rajan Prasad, (ED) Jaydeep Dasgupta, along with Chief General Managers and other senior officials.

During the ceremony, DIC Tiwari recognized the following individuals and teams for their exemplary performances: CRM-3's Chandrashekhar Kumar and Shashank Shekhar, and

HSM's T. Kedarnath and his team were runners-up for the Chairman Trophy for Young Managers; SIGS's J. Imam and his team were runners-up in the Tata Crucible Business Quiz; Gas Utility's S.W. Kispotta and Anand Raj (Executive Director (Works) Office) were runners-up in the SCOPE Business Quiz, with HSM's D. Chaudhary and Purchase

Department's Rajiv Gautam securing third place. In the SAKSHAM Quiz for Executives, ERS's Shubham Verma and HSM's Rahul Ranjan Panda were second runners-up, while DNW's Durga Prasad and Nayan Chakravarty won the SAMARTH Quiz for Non-Executives.

The CII Manufacturing Quiz ANVESH was won by

HSM's Rahul Ranjan Panda and Bhilai Steel Plant's Energy Management Department's A. Ali. Additionally, BSL triumphed at the Odisha State Productivity Award 2023, securing the highest number of awards with five accolades, including a Platinum Award for CRM-3's Parichay Bhattacharya and Prashant Kumar Singh, and Gold

Awards for Coke Oven's R.N. Pradhan and J. Kumar, SMS-2's Rajnikant and Rajkumar Chauhan.

Energy Management Department's B. Tirkey and Saurabh Singh, and Capital Repair (Mechanical)'s Vipin Kumar Verma and Amit Chaudhary. These awardees were honoured by the Director In-Charge and the Executive Directors during the ceremony. The team of Parichay Bhattacharya and Prashant Kumar Singh, winners of the CII (Eastern Region) Productivity Award, were also recognized.

This ceremony highlighted the commitment and excellence of BSL employees in various fields, significantly contributing to the company's reputation and success.

Bokaro dist Cong mobilizes voters in Chandanakiyari

PNS : BOKARO

Bokaro District Congress held a significant public rally at Surya Dih village ground in Chandanakiyari block, within the Dhanbad Lok Sabha constituency, to galvanize support for the Congress Mahagathbandhan candidate, Anupama Singh.

Keynote speaker Kalpana Murmu Soren delivered a compelling endorsement of Anupama Singh, highlighting her vision and commitment to the constituency. Soren's speech aimed to provide fresh momentum and direction to Singh's campaign, urging voters to support her by pressing the hand symbol on the ballot. Jharkhand Pradesh President Rajesh Thakur presence underscored the high stakes of the election and the concerted effort by top leaders to secure a victory.

Bokaro District Congress President Umesh Prasad Gupta, who organized the rally, called on voters to uphold their rights and voices by voting for the INDIA coalition's Congress candidate, Anupama Singh.

The rally was attended by several prominent figures, including JMM Bokaro District President Hiralal Manjhi, RJD's Buddhadev Yadav, Chandra Panchayat

Chief Nirmal Modi, and other key leaders such as Vijay Rajwar, Bannali Bauri, Jitendra Yadav, Kamarul Hasan, Birinchi Mahatha, Chandanakiyari Block Congress President Jaleswar Das, Tufan Sahani, Prem Paswan, Satendra Yadav, and Satish Rajak. Their collective presence highlighted the strength and unity of the Mahagathbandhan in the region.

Chatra, Hazaribagh, Koderma and Gandey goes to poll today

Direct fight is between the JMM-led ruling alliance and the BJP lead NDA alliance

PNS : RANCHI

The fate of candidates would be sealed on May 20 when Jharkhand will go for polling for three Lok Sabha seats in the fifth phase of the general election.

Apart from the three Lok Sabha constituencies of Hazaribagh, Koderma and Chatra, the State will also witness the Gandey Assembly bypoll where Kalpana Murmu Soren, wife of former Jharkhand Chief Minister Hemant Soren, is contesting as the Jharkhand Mukti Morcha (JMM) candidate.

In the contest for all the three Lok Sabha seats, the direct fight is likely between the JMM-led ruling alliance and the BJP-led opposition in Jharkhand.

In the Koderma Lok Sabha seat, Union Minister and BJP candidate Annapurna Devi has locked horns with Communist Party of India (Marxist-Leninist) Liberation nominee Vinod Singh, an MLA from Bagodar assembly constituency.

In Hazaribagh seat, a direct fight is between the BJP's Manish Jaiswal and Congress' Jai Prakash Bhai Patel, who recently switched from BJP. Both the candidates are currently the MLAs.

Chatra is also heading for a direct contest between BJP's Kalicharan Singh, who was given ticket instead of sitting MP Sunil Kumar Singh, and Congress's KN Tripathi.

Apart from the polling in Lok Sabha constituencies, the by-poll for Gandey assembly, with 3.15 lakh voters, is also slated for Monday. Gandey is a hot seat as Kalpana Soren, the wife of jailed former state CM Hemant Soren is contesting the elections. Apart from her 10 more candidates are in the fray.

Gandey assembly seat fell vacant after the resignation of Sarfaraz Ahmad, who was recently elected to Rajya Sabha unopposed. BJP has fielded Dilip Kumar Verma against Kalpana.

The Election Commission has made arrangements for the proper conduction of the polling. Jharkhand Chief Electoral Officer

(CEO) K Ravi Kumar said, "In a bid to conduct free and fair polls, all preparations have almost been completed including the security arrangements."

The CEO said polling materials and poll parties were air dropped at 65 interior booths through choppers in Chatra and Latehar districts on Saturday. "All polling parties in three constituencies reached their respective destinations by 3 pm today," he said.

Additionally, special training has been provided to poll officials to speed up the process so that long queues of voters could be reduced. Voting will start at 7 am and it will conclude at 5 pm on Monday.

According to the poll body, 6,705 polling stations have been set up across three parliamentary

constituencies and the webcasting facility will be available in all polling stations. Of the total polling stations, 73 stations will be managed by women, 13 by persons with disabilities (PwD), 13 by youth and 36 will be unique booths.

Jharkhand's Chief Electoral Officer K. Ravi Kumar has said that the dispatch of polling personnel for the fifth phase of voting has begun. This process will be completed by late Sunday evening. He informed that 148 polling personnel and sector officers have been sent to the polling booths through helicopter to Latehar and Chatra. Tight security arrangements have been made

by the Election Commission of India for the fifth phase of voting.

The Chief Electoral Officer said that the focus of the Election Commission is on increasing the voting percentage. Various measures are being taken along with public awareness for this.

For this, there will be an emphasis on mobilization to make voters aware through mikes and to take voters to the polling booth. He said that measures have been taken to increase the speed of voting so that people do not have to wait too long to vote. Under this, three voters are being given the facility to go inside the polling booth and vote at a time.

An additional polling officer is being deployed at booths where there are more than 1200 voters,

so that the queue is not long, the speed of voting increases and people do not have to wait. At the same time, polling officers kept in reserve will also be deployed at polling stations as per the need. K. Ravi Kumar appealed to the voters to note down the serial number of the voter list and take it with them while going to vote.

This will not waste time unnecessarily in matching the voter's serial number with the voter list. If the voter information slip has not reached the voter, then they can also note down their serial number from the Voter Helpline App. He said that since the implementation of the Model Code of Conduct, illegal

material and cash worth Rs 1 billion, 19 crore, 50 lakh has been seized so far.

Over 58.22 lakh electors including 28.29 lakh female voters are eligible to cast their vote in these three Lok Sabha constituencies in the state. A total of 54 candidates are in the fray for polls, of which, 22 are contesting from the Chatra, 15 from Koderma and 17 from Hazaribagh.

According to the poll body, 6,705 polling stations have been set up across three parliamentary constituencies and the webcasting facility will be available in all polling stations. Of the total polling stations, 73 stations will be managed by women, 13 by persons with disabilities (PwD), 13 by youth and 36 will be unique booths.

Corruption is at its peak in Jharkhand, says Bhatia

PNS : RANCHI

BJP's national spokesperson Gaurav Bhatia on Sunday said that Prime Minister Narendra Modi always kept Jharkhand and its people in his heart. He considered Lord Birsa Munda as an ideal. He was concerned about the tribal society. He took many steps to empower it. The public has decided that Narendra Modi will be made the Prime Minister for the third time and he will carry forward his work of serving the public.

Bhatia said that four phases of elections have been completed. In this election, NDA and BJP are again seeking blessings from the public on the basis of the report card of the development work done in the last 10 years. The public has decided that in this election, BJP will win more than 370 seats. NDA will cross 400. He said that there is an army of corrupt people in the Ghandiyan alliance. They are making a frustrated attempt to defeat NDA-BJP and Prime Minister Narendra Modi. Prime Minister Modi's honesty is prevailing over the corrupt.

He said that there is a trio of corrupt people in Jharkhand. Congress, JMM and RJD are together. The trio of corrupt people is Crime Master Gogo. They have not come to give to the public but to take. They will not go without taking from the public.

The national spokesperson

said that former Jharkhand Chief Minister Hemant Soren took a lesson from the Congress. This is the reason why he did not go to the ED even after 10 summons. If he has not committed any corruption, then he should go and answer. This is the public's earnings. They are looting it and using it to advance their family. Their policies are against the people of Jharkhand.

He said that corruption is at its peak in Jharkhand. There is no check on intruders. Law and order is completely ruined. The state government took the land of the tribal society. It should be allotted to the tribal youth, so that they set up industries

and move forward. Former Chief Minister Hemant Soren snatched the rights of the tribal society and allotted that land to a family member.

Congress did not have even an iota of shame left in the case of former minister Alamgir Alam. Rahul Gandhi did not say a word on this. Did not ask for resignation. The most corrupt families in the whole world are Lalu, Soren and Gandhi. It is worrying for democracy. Democracy is in danger from them. A mountain of notes was found in the house of Alamgir Alam's PA's servant. Congress President Kharge, Rahul Gandhi, Priyanka Vadra, Chief Minister Champai Soren do not say anything on this. Their only motive is to do good for the family, take the family forward. They do not care about the public.

The national spokesperson said that Alamgir Alam and Hemant Soren will not be able to get out of jail soon. Every single penny of the public will be recovered from them. Corruption is a big issue in this election. Arvind Kejriwal is shameless number one. He has got interim bail, not regular bail. In the last 10 years, not a single finger was raised against Prime Minister Modi. There was not even a stain. NDA candidates will win all 14 seats in Jharkhand. This time BJP and NDA will get more than 400 seats across the country.

In the mutual discussion with members of various organisations present, chief guest MP Sanjay Seth said,

MP Sanjay Seth visits Gaushala for discussion with various organisations

"Voting in national interest is the ultimate right and duty of all of us" Seth

PNS : RANCHI

Ranchi MP Sanjay Seth visited the Gaushala Dham located on Harmu Road as a part of a social programme organized by the Gaushala Trust Committee to awaken voters and also for a mutual discussion with various social organisations.

The program started with chants for cow worship. Seth along with others present tended to the cows and fed them jaggery, watermelon, fodder, etc. This was followed by Seth inaugurating the Tuladan programme.

In the mutual discussion with members of various organisations present, chief guest MP Sanjay Seth said,

"In this great festival of democracy all the voters should go to their respective booths and cast their franchise on May 25 to ensure hundred percent voting and also motivate more and more people to vote so that a strong and powerful democracy can be built. Voting in the national interest is the ultimate right and duty of all of us."

The programme was conducted by Mukesh Kabra and the vote of thanks was given by committee secretary Pradeep Rajgarhia. On this occasion, all the officials and members of the committee and representatives of various social organisations of the City participated.

Cong to implement Sarna Dharma Code if voted to power

PNS : RANCHI

Congress, on Sunday, attacked Bharatiya Janata Party (BJP) led Prime Minister Narendra Modi's Government at the Center for rising inflation and unemployment. The party announced that Sarna Dharma Code will be implemented as soon as the Government is formed.

Congress Leader Supriya Srinet visited Ranchi and she attacked the Modi Government in a press conference. She said that the INDIA Alliance Government will give legal guarantee of MSP to the farmers. "There will be no tax on seeds, pesticides and equipment. We will waive off the loans of farmers. Earlier also we waived Rs 72,000 crore loan," she added.

"Labor makes the Country. The foundation of the Country is laid by his hands but what is their respect? We will bring a security scheme for economy works. MNREGA honorarium is going to be increased to Rs 400. We will bring a health revolution in which a health scheme up to Rs 25 lakh will be brought. Why do we talk about stake? Why do people's nose and eyebrows shrink? Dalit, tribal, deprived, backward, poor are living on the margins of the society. We will bring them to the mainstream," said Srinet.

The party Leader said that Modi does not talk about the issue. "They do not talk about unemployment and inflation. Don't talk about poverty. The PM says should everyone become poor? We decided to talk about solutions. Rahul Gandhi did a padyatra from Kanyakumari to Kashmir. Meet farmers, workers, students, women and listen to their expectations, hopes and problems. The Nyaya Yatra is his philosophy and he made a second journey from Manipur to Mumbai. He went twice but the Prime Minister did not go. Manipur has been burning for 12 months. He met the people and found out what their problems were," she added.

"Farmers, workers, youth,

women are talking about justice. There is the highest unemployment in 45 years. The youth were asked to fry pakodas. Gas and oil became expensive. How will a young man even fry pakodas? We will start appointing youth on 30 lakh vacant posts from August 15. The first job will be solid. Diploma and degree holders can apply for 1 year apprenticeship. The paper gets leaked. We will make such a strict law that those who leak papers will tremble. The wrong tradition of contract employment has started. The Country's defense and security is also on contract. What is the justification for 4 years of service for the soldiers engaged in protecting the country from the cold of Siachen to the heat of Rajasthan? Agniveer Yojana will end immediately. The system will be restored as before," said Srinet.

The party Leader also said that Half the population of the Country is struggling with back-breaking inflation. "Unreasonable tax is being collected by imposing GST. Middle class family does not stop studying but it is difficult. Women are facing this. Those poor women will be given Rs 1 lakh per year under the Mahalakshmi scheme. To give full rights to half the population. 50 percent reservation will be given to girls in new government jobs. A farmer is one who grows crops by tearing the heart of the earth. Farmers demand MSP. Narendra Modi talks about

getting MSP. 700 farmers were martyred demanding their rights. When farmers wanted to come to Delhi, nails were laid. The road was dug," she added.

Srinet also asked why doesn't the Prime Minister conduct a census and what are you afraid of? "We talk about getting X-rays done. Census has not been conducted since 2011. Make a policy by conducting a caste census. Policy making should be based on data. Economic and social census is necessary. There should be better implementation of the rights given to the tribals regarding water, forest and land. The party National President made a revolutionary announcement. In place of 5 kg food grains, 10 kg grains will be given under the Food Security Act. Its meaning is clear. Grain cannot be only wheat and paddy. We are doing this in Telangana and Karnataka. We will provide all nutritious grains. This election is an election of issues. It is the people's election. Will the voices of youth, women, tribals, Dalits be heard or not? Public issues should be discussed in elections. People will get representation. They will be encouraged that the central government listens to the people," she added.

The party Leader also said that the elected Chief Minister was put in jail by conspiracy which will be injustice to the public for 10 years and the Prime Minister will be accounted for.

360 Degree Express Restaurant inaugurated at Ranchi Press Club

PNS : RANCHI

Food is liked for its taste, but if the decoration and atmosphere is better then the taste of food increases even more. After inaugurating the 360 Degree Express Restaurant on the ground floor of Ranchi Press Club, senior editor Padmashree Balbir Dutt made this comment while praising the restaurant. Azad Sipahi's editor-in-chief Harinarayan Singh inaugurated the restaurant kitchen by breaking a coconut.

Press Club President Surendra Soren welcomed the guests. Directors

Shobhana Jayanti and Ashish Joshi said that tasty and variety items will be made available at affordable prices in the restaurant. On this occasion, Senior Editor of Prabhat Khabar Vijay Pathak, Editor of Samachar Plus Brajesh Rai, Rajya Sabha MP Aditya Sahu, ADM Law of Ranchi Rajeshwar Nath Alok, President of Jharkhand Chamber of Commerce Kishore Mantri, former President Kunal Ajmani, Director of Jharkhand State Rural Bank Mrs. Rajshree Jayanti, Pramod Jha, Diwakar Kumar etc. were prominently present.

Yashaswini promises to get rid the complexity of GST

PNS : RANCHI

Congress candidate from Ranchi Lok Sabha seat Yashaswini Sahay today said that if Congress government is formed at Centre, businessmen will be relieved from the complexity of GST, so that businessmen can do their business easily. Congress candidate Yashaswini Sahay said this while addressing election meetings. Addressing the people present in public relations and election meetings on Sunday, Yashaswini Sahay said that Congress party understands the pain of all sections. Seeing the problems of businessmen due to GST, our leader Rahul Gandhi has announced that GST will be simplified by removing its complexity, so that businessmen get convenience and they do not have to pay five types of taxes.

He said that if Congress party comes to power, 30 lakh youth will be given jobs soon. Along with this, educated youth will be given one lakh rupees under the apprenticeship scheme. Congress candidate said that Congress party will give one lakh rupees every year to a woman of every poor family, which means 8,500 rupees every month. Along with this, women will be given 50 percent reservation in government jobs of the Center and the salary of Asha, Danganwadi and Mid Day Meal workers will be doubled. He appealed to the voters to strengthen the India Alliance by voting for Congress to get rid of inflation and unemployment and for the development of the country. Sahay's father and former Union Minister Subodh Kant Sahay said that the days

of dictator Modi government are now over. The people of the country are fed up with anti-people policies. Therefore, a wave of change is flowing in the country. He said that PM Modi talks about random things to divert people's attention from the country's most burning problem of inflation and unemployment. But the people of the country are not going to fall into his trap now. The people want a change of power and this has been proved in the last four phases of elections. He said that to get rid of inflation, unemployment and anti-people policies, strengthen the hands of India Alliance and Rahul Gandhi by voting for Congress. Mr. Sahay appealed to make Congress candidate Yashaswini Sahay victorious by voting for the hand symbol from Ranchi.

A large number of workers and local citizens including Prabhakar Tirkey, Md. Aslam, Pratap, Vijay Toppo, Sushma Hembaram, Madhav Kachhap, Deepak Lal, Shambhu Singh, Rohit Sinha, Peter Mukhiya, Satyendra Kumar, Ranjan Yadav, Rajiv Kumar, Akiul Rahman, Khurshid Hasan Rumi, Javed Jamal, Neeraj Singh participated in the program.

Alumni of RU Journalism Department JOSARU gets registered

PNS : RANCHI

The alumni association of School of Mass Communication, Ranchi University - JOSARU - Journalism Old Students Association of Ranchi University was registered as a Trust on May 9. On May 18, he members of the executive committee of JOSARU under the leadership of Chairman Chandan Mishra met Dr. B.P. Sinha, Director, School of Mass Communication, Ranchi University and informed him about the registration of the association.

The Director expressed great happiness over the registration of JOSARU and extended his best wishes to the executive committee. Sinha said that to his knowledge JOSARU is the first such organization of alumni of Ranchi University which has got itself registered and that the organisation has immense potential

for work and will also provide great guidance to the students of School of Mass Communication. Before meeting the director, JOSARU executive meeting was held where upcoming programs were discussed in detail in the meeting. It was also decided that the membership campaign for JOSARU will begin in the month of June and the second meeting of the body will be held in the last week of July.

CISF to take over counterterrorism role at Parliament as CRPF withdraws

PTI ■ NEW DELHI

More than 3,300 CISF personnel will take over the complete counterterrorism and anti-sabotage security duties at the Parliament complex from Monday following the withdrawal of over 1,400 CRPF staff from the country's most important symbol of democracy, official sources said. The parliament duty group (PDG) of the CRPF wound up its entire administrative and operational paraphernalia -- vehicles, weapons and commandos -- from the complex on Friday and its commander, a deputy inspector general (DIG)-rank officer, handed over all the security points in the complex to the incoming CISF group, the sources said. A total of 3,317 Central Industrial Security Force (CISF) personnel are being inducted for securing both the old and new Parliament buildings and the associated structures in this complex located in central Delhi after the govern-

ment directed it to take over the task from the CRPF following the December 13 security breach incident of last year, a senior officer told PTI. In a major security breach on the anniversary of the 2001 Parliament terror attack, two persons jumped into the Lok Sabha chamber from the public gallery during Zero Hour on December 13, 2023, released yellow smoke from canisters and shouted slogans before being overpowered by MPs. Outside the Parliament premises around the same time that day, two other persons sprayed coloured smoke from canisters while shouting slogans. Following this incident, a committee under the chairmanship of CRPF DG was setup to look into the overall security issues of the Parliament complex and make suitable recommendations. The CISF counterterrorism security unit will take over the full charge of the Parliament complex from 6 am on Monday, May 20, the officer

added that the PDG unit is expected to be merged with the six battalion strong VIP security wing of the CRPF, while the PSS staff could be tasked afresh for rendering security and protocol duties at other central government installations. Some PSS staff could be retained for manning the lobbies of the house for marshal duties but a final decision is yet to be taken, he said. The CISF contingent, according to sources, has been deployed on a temporary manner called the 'internal security duty pattern' and it is expected that it will be granted a full-fledged sanction as new government assumes office after the ongoing general elections, sources said. The CISF personnel have been imparted refresher training in baggage screening, personal frisking, bomb detection and disposal, quick reaction terrorist counter, sniper task and public interaction and courtesy before being sent for the Parliament duty. The first officer quoted above

patrolling points," he alleged. "The Chinese occupation has directly affected thousands of Ladakhis, particularly indigenous shepherds who graze their sheep and goats in the highlands near the border," he claimed. Ramesh said the Congress 'Nyay Patra' has clearly promised Sixth Schedule status to the tribal areas of Ladakh, granting critical autonomy to the local people to protect indigenous culture and the region's fragile ecosystem. "We have also outlined a detailed plan to address environmental issues, climate change, and natural disasters. On June 4, Ladakh will begin the process of healing, and return to the path of prosperity and stability!" Ramesh asserted. Ladakh, a sprawling cold desert region, holds the distinction of being India's largest constituency in terms of area. It has around 1.84 lakh voters -- around 96,000 in Kargil district and over 88,000 in Leh district.

They have also trained recently with the 'black cat' commandos of the National Security Guard (NSG) who were air-dropped from an IAF helicopter on the new Parliament complex to simulate a terrorist attack, the sources said. A CRPF officer said PDG troops who left the Parliament complex on May 17 clicked selfies and took photographs as a token of remembrance of "efficiently" guarding the country's highest temple of democracy. "During the 2001 terrorist attack, CRPF personnel showed extreme bravery along with personnel from other agencies to defeat the dastardly assault with one personnel laying down her life in the line of duty while some others receiving gallantry medals and in 2023 they were not responsible for the breach that took place." "The PDG personnel felt sad that they had to surrender this duty despite giving their best," the CRPF officer said.

Ladakh at receiving end for past ten years, alleges Congress

PIONEER NEWS SERVICE ■ NEW DELHI

A day before polling for the Ladakh Lok Sabha constituency, the Congress on Sunday alleged that over the last 10 years, the Union Territory has been at the receiving end of the Modi Government's "malicious and step-motherly treatment". Congress chief spokesman Jairam Ramesh said Ladakhis have been protesting in freezing temperatures over the lack of control over their land and water. "The protests have been ongoing for months, including all 8 tribes and over 30,000 people, coming together for hunger strikes and huge marches," he said. The Modi government's only response has been continued silence and apathy, Ramesh claimed. In a social media post, the Congress general secretary noted that on May 20, Ladakh will go to the polls, and "over the last 10 years, Ladakh has been at the receiving end of the worst of

the Modi government's Anyak Kaal - from complete apathy to malicious and step-motherly treatment". "In August 2019, the Modi government stripped all representation from the people of Ladakh by downgrading them to a Union Territory without a legislature," he said. "The greed of the Modi Sarkar and its crony corporate friends is threatening Ladakh's fragile ecosystems. Corporates in sectors like mining have their eyes set on Ladakh's natural resources, and if the Modi Sarkar is allowed back into power, there is nothing stopping

them from extracting wealth from the land and the people," Ramesh claimed. The entire region is being "remote-controlled" from Delhi through a lieutenant governor, he alleged. A huge influx of tourists and urbanisation is putting pressure on Ladakh's resources, creating water shortages, the former environment minister said. "Further, the Modi government's weakness has caused great harm to Ladakh's security and economy: The Modi government's cowardice has allowed China to seize 2,000 sq. Km of land in Ladakh, taking away 26 out of 65

patrolling points," he alleged. "The Chinese occupation has directly affected thousands of Ladakhis, particularly indigenous shepherds who graze their sheep and goats in the highlands near the border," he claimed. Ramesh said the Congress 'Nyay Patra' has clearly promised Sixth Schedule status to the tribal areas of Ladakh, granting critical autonomy to the local people to protect indigenous culture and the region's fragile ecosystem. "We have also outlined a detailed plan to address environmental issues, climate change, and natural disasters. On June 4, Ladakh will begin the process of healing, and return to the path of prosperity and stability!" Ramesh asserted. Ladakh, a sprawling cold desert region, holds the distinction of being India's largest constituency in terms of area. It has around 1.84 lakh voters -- around 96,000 in Kargil district and over 88,000 in Leh district.

46th Antarctic Treaty Consultative Meeting to begin in Kochi from today

PIONEER NEWS SERVICE ■ NEW DELHI

The 46th Antarctic Treaty Consultative Meeting begins in Kochi on Monday under the shadow of the Ukraine-Russia conflict, an issue that has been affecting the discussions for the past two years. The 10-day deliberations among signatory nations to the Antarctic Treaty are expected to focus on collaboration between parties on research and exchanging information on plans for sustainable management of resources in the icy continent. Also on the agenda for the Antarctic Treaty Consultative Meeting (ATCM) is the development of a framework for regulating tourism in Antarctica, given the pristine and delicate nature of the continent, and applications by Belarus and Canada for consultative status at the deliberations. "We expect the Ukraine conflict to figure in the talks and we have to ensure that it

doesn't affect the meeting in a big way," a senior official closely involved in the ATCM's organisation said. Russia and Ukraine have consultative status or full decision-making roles at the ATCM, which takes all decisions by a consensus. Russia's increase in surveys of the Antarctic region for oil and gas reserves has also caused some anxiety among the partner nations, some of

which believe that Moscow may stake claim to large swathes of the continent. Union Earth Sciences Minister Kiren Rijiju is scheduled to formally inaugurate the ATCM at the Lulu Bolgatty International Convention Centre in Kochi on Tuesday. The ATCM and the 26th Meeting of the Committee for Environmental Protection is hosted by the Union Ministry

of Earth Sciences through the National Centre for Polar and Ocean Research. The meeting is also expected to deliberate on the development of a framework for tourism in Antarctica -- the only continent without any indigenous population. For the 2022-23 season, the International Association of Antarctica Tour Operators reported 32,730 cruise-only visitors, 71,346 landed visitors and 821 deep-field visitors. The ATCM has 56 member-nations, of which 29 have consultative status or decision-making powers. The remainder have non-consultative status. Canada and Belarus are seeking consultative status but their petitions have run into opposition. Officials said the argument against Canada's candidature is that the North American nation does not have a research station in Antarctica while the scientific output of Belarus is not considered to be adequate for granting consultative status.

Global life expectancy to increase between 2022 and 2050: Study

PIONEER NEWS SERVICE ■ NEW DELHI

The latest findings from the Global Burden of Disease Study (GBD) 2021, published in The Lancet, forecast that global life expectancy will increase by 4.9 years in males and 4.2 years in females between 2022 and 2050. Increases are expected to be largest in countries where life expectancy is lower, contributing to a convergence of increased life expectancy across geographies. The trend is largely driven by public health measures that have prevented and improved survival rates from cardiovascular diseases, COVID-19, and a range of communicable, maternal, neonatal, and nutritional diseases (CMNNDs), said the study. It indicated that the ongoing shift in disease burden to non-communicable diseases (NCDs) -- like cardiovascular diseases, cancer, chronic obstructive pulmonary disease, and diabetes -- and exposure to NCD-associated risk factors -- such as obesity, high blood pressure, non-optimal diet, and smoking -- will have the greatest impact on disease burden of the next generation. As the disease burden continues to shift from CMNNDs to NCDs and from years of life lost (YLLs) to years lived with disability (YLDs), more people are expected to live longer, but with more years spent in poor health. Global life expectancy is forecasted to increase from 73.6 years of age in 2022 to 78.1 years of age in 2050 (a 4.5-year increase). Global healthy life expectancy (HALE) -- the average number of years a person can expect to live in good health -- will increase from 64.8 years in 2022 to 67.4 years in 2050 (a 2.6-year increase).

To come to these conclusions, the study forecasts cause-specific mortality; YLLs; YLDs; disability-adjusted life years (DALYs), or lost years of healthy life due to poor health and early death; life expectancy; and HALE from 2022 through 2050 for 204 countries and territories. "In addition to an increase in life expectancy overall, we have found that the disparity in life expectancy across geographies will lessen," said Dr. Chris Murray, Chair of Health Metrics Sciences at the University of Washington and Director of the Institute for Health Metrics and Evaluation (IHME). "This is an indicator that while health inequalities between the highest- and lowest-income regions will remain, the gaps are shrinking, with the biggest increases anticipated in sub-Saharan Africa." Dr. Murray added that the biggest opportunity to speed up reductions in the global disease burden is through policy interventions aimed to prevent and mitigate behavioral and metabolic risk

factors. "This accompanying study found that the total number of years lost due to poor health and early death (measured in DALYs) attributable to metabolic risk factors has increased by 50% since 2000." The study also puts forth various alternative scenarios to compare the potential health outcomes if different public health interventions could eliminate exposure to several key risk factor groups by 2050. "We forecast large differences in global DALY burden between different alternative scenarios to see what is the most impactful on our overall life expectancy data and DALY forecasts," said Dr. Stein Emil Vollset, first author of the study who leads the GBD Collaborating Unit at the Norwegian Institute of Public Health. "Globally, the forecasted effects are strongest for the 'Improved Behavioral and Metabolic Risks' scenario, with a 13.3% reduction in disease burden (number of DALYs) in 2050 compared with the 'Reference' (most likely) scenario."

Book on life of martyr Major Sudhir Walia released

PIONEER NEWS SERVICE ■ NEW DELHI

Former Army chief General V P Malik here released a new book titled 'Rambo' on the life of Major Sudhir Walia who was posthumously awarded nation's highest peace time bravery award Ashok Chakra. Amongst a gathering of army veterans, Malik talked about the bravery of Walia, a Special Forces Officer, who had served as his ADC (Aide de Camp) when he took over as the Chief of the Indian Army. In his foreword to the book, the former army chief writes, "My loss was personal." Written by Colonel Ashutosh Kale, who commanded the 3rd Grenadiers, the book is about

the daredevilry of Walia, attack on Zulu Top in the Kargil war and operations against terrorists in the Kashmir valley amongst other things. The book offers readers an unprecedented look at the covert operations and the personal sacrifices of India's elite soldiers. It is a testament to the courage and dedication of Major Sudhir Walia, whose legacy continues to inspire Indians till now. This is an in-depth look at Major Walia's various missions, from the jungles of Sri Lanka to the Lolab Valley and covert operations against Afghan terrorists. These operations, often shrouded in secrecy, are vividly recounted through firsthand accounts and meticulous

research. Major Walia's daring actions, such as his final mission in the forests of Haphrudra in Kupwara, where he eliminated fifteen terrorists despite being gravely injured, underscore his indomitable spirit. His refusal to be evacuated and continued leadership until his last breath earned him the Ashok Chakra, India's highest peacetime gallantry award. Gracing the book launch occasion were Lt General Pushpinder Singh, Colonel of the Parachute Regiment, Lt General Paramjit Singh Sangha, former Deputy Chief of Army Staff amongst many other notable personalities from the army and the media as well as Major Sudhir Walia's family.

Parade organised to mark successful training completion of Garud commandos

PIONEER NEWS SERVICE ■ NEW DELHI

To mark the successful completion of training of Air Force Special Forces 'Garud' commandos, Maroon Beret Ceremonial Parade was held on Saturday at Garud Regimental Training Centre (GRTC), Air Force Station Chandinagar. Air Marshal PK Vohra, Senior Air Staff Officer, Western Air Command was the Reviewing Officer for the parade, officials said here. The Reviewing Officer congratulated the Garuds on successful completion of their training. He emphasised the importance of rigorous training and honing of Special Forces skills to keep pace with the changing security scenario. He presented Maroon Beret, Garud Proficiency Badge and Special Forces Tabs to the successful Garud trainees and gave away trophies to the meritorious trainees. The best

all-rounder trophy was presented to Flight Lieutenant Shashwat Rana. As part of the ceremony, Garuds demonstrated combat firing skill, hostage rescue, firing drill, assault explosives, obstacle crossing drill, wall climbing, slithering, rappelling and military martial

arts. The Maroon Beret Ceremonial Parade is a significant event that marks the culmination of an extremely demanding training schedule. These newly passed out trainees enter the elite Garud force and add strength to the operational capability of IAF.

World Abdominal Cancer Day walk brings together thousands of people

PIONEER NEWS SERVICE ■ NEW DELHI

The International Multicity Awareness Walk held on World Abdominal Cancer Day on Sunday brought together thousands of people across 25 cities worldwide including Mumbai, Bangalore, Surat, and Jaipur in India, as well as internationally in Oxford, London, Manchester, and New York. However, the participants had the common message of promoting health and fitness to particularly keep the abdominal cancer at bay. Organized by the Abdominal Cancer Trust in the national capital, the event featured prominent figures such as Dr Imroz Khan and Dr. Mukesh Kumar, Co founder of World Health and Wellness Fitness who joined in the walk to raise awareness about abdominal cancer prevention and early detection. Dr. Sundeep Jain, founder of Abdominal Cancer Trust, high-

lighted the significance of lifestyle choices in safeguarding one's health, emphasizing that a healthy lifestyle can significantly reduce the risk of abdominal cancer. The Trust is engaged in providing support including medication to the patients afflicted with abdominal cancer. The 5th edition of the event was particularly special, with Jai Shri Periwali praising the unique approach of raising cancer awareness through a walk. Participants were encouraged to stay vigilant about abdominal cancer symptoms and to seek medical consultation promptly.

Congress, RJD did not attend Ram temple consecration: Shah

PTI ■ BETTIAH (BIHAR)

Launching a scathing on LINDIA Bloc leaders, Union Home Minister Amit Shah on Sunday accused the Congress and RJD leaders of not attending the Ram temple consecration ceremony in Ayodhya due to their 'Ghushpathiye' (infiltrator) vote bank. Addressing an election rally at Bettiah in West Champaran district in support of BJP's Sanjay Jaiswal, who is seeking re-election from Paschim Champaran Lok Sabha constituency, Shah said, "Congress and RJD were against the construction of the Ram temple in Ayodhya from the very beginning. Invitations for the ceremony were sent to them, but they did not come because of their 'Ghushpathiye' vote bank." Shah accused Congress and RJD leaders of being scared that attending the ceremony would offend their vote bank. He also criticised the Congress-led opposition for raising fears about Pakistan's atomic power, stating, "Congress leader Manishankar

Aiyar and ally Farooq Abdullah tried to scare us by saying that we cannot take back PoK because Pakistan has atom bombs. PoK belongs to India. It will remain so. We will claim it back." Shah also accused Lalu Prasad RJD of joining hands with Congress, which opposed the Mandal Commission's recommendations, solely to make Lalu's son Tejashwi Yadav the

CM of Bihar. He praised Prime Minister Narendra Modi for respecting people from backward classes and predicted a landslide victory for the NDA in Bihar. "The NDA under the leadership of Modi will win 400-plus seats. After four phases of polls, I can confidently say the NDA has already won more than 270 Lok Sabha seats. The RJD will not win even four

seats and Congress not even 40," Shah said. He added that Congress and RJD never worked for the development of poor people and cannot think of the betterment of Bihar. Paschim Champaran, Valmiki Nagar, Purvi Champaran, Sheohar, Vaishali, Gopalganj, Siwan, and Maharajganj will go to polls on May 25 (sixth phase).

Massive security bandobast in phase V polls in Bengal

SAUGAR SENGUPTA ■ KOLKATA

After having conducted near-bloodshed-free elections in first four phases of general elections the Election Commission of India has prepared for a fool-proof security system ahead of the fifth phase requisitioning a whopping 80,000 central police personnel, sources said. Bengal goes to fifth phase polling on Monday. Among the seven constituencies where elections would be held are Bongaon (SC) and Barrackpore in North 24 Parganas, Howrah and Uluberia in Howrah and Seerampore, Hooghly, and Arambagh in Hooghly districts. Following repeated appeals from the opposition parties the ECI has increased its forces from a stipulated 750 to 799 companies, sources said adding a large number of booths at Barrackpore, Uluberia, Howrah, Arambagh and Hooghly are sensitive. The BJP won four seats of Barrackpore, Bongaon, Arambagh and Hooghly whereas the TMC bagged the remaining three constituencies in 2019. The Left which too is a con-

tender in tri-cornered contests won non in the last general elections. Constituency-wise Barrackpore is likely to witness a keen contest between BJP candidate Arjun Singh and Partha Bhowmick of TMC. Bengali film actor Debdu Ghosh is contesting on a CPI(M) ticket with Congress support. A predominantly manufacturing belt — under the clutches of industrial recession for the past several decades — Barrackpore has been a home to numerous jute and textile mills, a defence manufacturing unit and of course Railways workshop. Dominated by a large number of Hindi-speaking and Muslim gentry, mostly comprising industrial workers Barrackpore,

once a strong Red citadel presents a cosmopolitan character. Arjun Singh considered a strongman wrested the seat from TMC's Dinesh Trivedi by a narrow 15,000 margin in 2019. Subsequently he went to the TMC before returning to the BJP early this year. Cut to Bongaon bordering Bangladesh from where BJP's Shantanu Thakur a junior Union Minister is competing against TMC's Biswajit Das. Bongaon has a good 21.7% SC Matua community which plays an important role in the elections. With the Union Government implementing the Citizenship Amendment Act to woo the Matua voters and Bengal Chief Minister Mamata Banerjee calling it a bluff to entrap the community that had come from Bangladesh it would be interesting to witness which way the Matua vote goes. Howrah on the other hand has 19 candidates vying for the Lok Sabha seat where sitting TMC MP is and former national footballer Prasun Banerjee who is a three-time MP is contesting against BJP's Rantidev Sengupta and CPI(M)'s young advocate

Sabyasachi Chatterjee. Howrah is likely to present a good tri-corner contest locals say. In Uluberia on the other hand TMC's Sajda Ahmed is pitted against Arun Uday Pal Chaudhary of BJP and Azahar Mollick of the Congress. The BJP is expecting a good show from the seat once held by CPI(M)'s Hannan Molla. This on account of an expected division of votes between the Congress, backed by the Left and the TMC — in the wake of the minority votes gradually deserting Mamata Banerjee. In Seerampore TMC's senior advocate and three time MP Kalyan Banerjee is engaged in a fierce tri-cornered contest with BJP's Kabir Shankar Bose — a former son-in-law — and CPI(M)'s Dipshita Dhar a JNU alumnus. The neighbouring Hooghly seat which once housed the Tama Motors' Nano car factory before it was blasted off by the TMC Government in the wake of a Supreme Court order finds sitting BJP MP Locket Chatterjee an actress taking on Manadip Ghosh of CPI(M) and TMC's actor-turned politician Archana Banerjee.

Kalyan seat prestige battle for Maharashtra CM Shinde's son

PTI ■ MUMBAI

Shrikant Shinde had comfortably won the Kalyan Lok Sabha seat in Maharashtra in the last two elections, but the stakes are higher this time as his father, Chief Minister Eknath Shinde, now heads a truncated faction of the Shiv Sena following a bitter split in the party. The constituency, part of the Thane district and close to Mumbai, contains densely populated urban areas and industrial belts. It will go to polls on May 20. Shrikant Shinde entered politics in 2014, contesting as a candidate of the then undivided Shiv Sena and won with a margin of 2,50,749 votes. He increased the margin to 3,44,343 in the 2019 general elections. But the political scenario has changed drastically since then, as his father rebelled against party chief Uddhav Thackeray and walked away to join hands with the BJP to

become chief minister in June 2022. Uncertainty surrounded Shrikant Shinde's candidature this time as the BJP sensed the possibility of contesting more seats in Maharashtra, and its leader and state minister Ravindra Chavan, MLA from Dombivli, was keen to fight from Kalyan. Of the six assembly segments in Kalyan, three including Dombivli are with the BJP and one each with the Shinde-led Shiv Sena, Maharashtra Navnirman Sena, and NCP (Sharadchandra Pawar). As it has three MLAs in the region, the BJP pushed its claim for the Kalyan Lok Sabha seat, but Eknath Shinde remained firm that his party will not cede it. The rival Shiv Sena (UBT) led by Uddhav Thackeray has fielded former corporator Vaishali Darekar-Rane against Shrikant Shinde. Rane had secured more than one lakh votes in this seat in 2009 as a Maharashtra Navnirman Sena candidate, though she lost.

Shrikant Kulkarni, a computer salesperson and resident of Dombivli, said the rapid population growth in Kalyan and Dombivli Municipal Corporation limits in the last two decades has put a lot of pressure on water supply and health services. "Unfortunately, we have not received much of an infrastructure upgrade. There is no good government hospital which we realised during the COVID-19 pandemic. The railway stations used by lakhs of people daily are not big enough, and are never clean. Roads are narrow and vendors occupy footpaths," he said. Suman Walecha, a resident of Kalyan city, claimed developmental works have picked up pace, and MP Shinde cannot be blamed for all the woes. "A strong government at the top is necessary to navigate people in the right direction. Things will eventually get better," she said. In February, BJP MLA from Kalyan East, Ganpat Gaikwad,

opened fire in a police station on a local leader of the Eknath Shinde-led Shiv Sena, bringing to the fore the tensions between the two alliance partners in the region. The rivalry between the local leaders of the two parties could be a cause of concern for Shinde. The constituency's demography is diverse. Dombivli has a sizable number of Maharashtrians and South Indians. Ulhasnagar is a predominantly Sindhi area, while Kalyan city and Kalyan rural assembly seats have Gujarati and Marathi-speaking populations. Ambernath has a mix of Sindhis, Gujaratis and Maharashtrians. Mumbra-Kalwa assembly seat, represented by the NCP(SP), has a large number of Muslims. Vaishali Darekar-Rane claimed people are upset with the present regime. "First and foremost, they are worried about the rising cost of living and behaviour of the current government at the Centre. Rampant abuse of power, induction of tainted

people into their party, and bending law as per their wish are not acceptable to the people," she said. "Another factor is the poor infrastructure and lack of urban planning in the constituency. Despite high population growth, there is no assured drinking water supply to major urban areas. Every urban area receives drinking water only for a few hours," she told PTI. Asked about these issues, Shrikant Shinde said, "No doubt that population growth, water availability and good communication network are some of the important issues people want me to address. I have pushed the administration hard to complete several road projects, change pipelines and construct new bridges. Some work proposals are at an advanced level in various departments." Shinde also claimed the people have backed his father's decision to form a government with the support of the BJP in Maharashtra.

PM Modi slams Mamata for maligning RK Mission, ISKCON

SAUGAR SENGUPTA ■ KOLKATA

Religion continued to play a role in the electoral politics with Prime Minister Narendra Modi once again raining fire on Bengal Chief Minister Mamata Banerjee for using bad words against some monks of Ramakrishna Mission and Bharat Sevashram Sangha orders — all to appease the minority voters. The Prime Minister who addressed rallies at Purulia, Bishnupur and Midnapore said that Banerjee had stooped to such levels in pursuit of her vote-bank appeasement politics that she had no hesitation to attack even the monks of Ramakrishna Mission and Bharat Sevashram Sangha, the Prime Minister said. "Habituated in threatening the voters all these years the TMC has crossed all limits... the Chief Minister is openly threatening the monks of Ramakrishna Mission and Bharat Sevashram Sangh and ISKCON (International Society of Krishna Consciousness) ... this they are doing to appease their vote bank... without considering the fact that these religious orders are known for their humanitarian services not only in India but all over the world" with millions of followers behind them. "So much of courage that the powers that be in the Bengal Government in their desperation are now targeting at these great religious organisations," he said. Banerjee had earlier in a veiled attack on monks of the Ramakrishna Mission order had said that there were a few of them who were taking sides and were working at the instance of the BJP. Addressing an election rally at Goghat in Hooghly district Banerjee had on Saturday said that "some monks of Ramakrishna Mission and Bharat Sevashram Sangha are

working under the influence of BJP leaders in Delhi. Those who are looking after temples are doing great spiritual jobs, but everyone is not doing so. This is not done. We respect the monks... but when they take sides it is not welcome." The TMC had invited large-scale criticism from the devotees of the Ramakrishna Mission when last year some of their leaders compared Banerjee to Holy Mother Sharada Devi the wife of Sri Ramakrishna Paramahansa the spiritual Guru of Swami Vivekananda who considered the Mother a "living Durga on earth." Banerjee also attacked the TMC for running a corrupt regime of the hooligans. "Huge amounts of money have been found at the houses of TMC which proves their level of corruption," the Prime Minister said adding a time had come when a last putsch was required to pull down the TMC's citadel of terror.

working under the influence of BJP leaders in Delhi. Those who are looking after temples are doing great spiritual jobs, but everyone is not doing so. This is not done. We respect the monks... but when they take sides it is not welcome." The TMC had invited large-scale criticism from the devotees of the Ramakrishna Mission when last year some of their leaders compared Banerjee to Holy Mother Sharada Devi the wife of Sri Ramakrishna Paramahansa the spiritual Guru of Swami Vivekananda who considered the Mother a "living Durga on earth." Banerjee also attacked the TMC for running a corrupt regime of the hooligans. "Huge amounts of money have been found at the houses of TMC which proves their level of corruption," the Prime Minister said adding a time had come when a last putsch was required to pull down the TMC's citadel of terror.

33,000 security personnel for LS polls in Odisha

PTI ■ Bhubaneswar

Around 33,000 security personnel, including 102 companies of Central Armed Police Force (CAPF) and 66 platoons of Odisha Armed Police, have been deployed for the May 20 simultaneous Lok Sabha and assembly elections in the state. In the second phase, the fifth at the national level, five parliamentary constituencies Aska, Kandhamal, Bargarh, Bolangir, and Sundargarh and 35 associated assembly seats will vote. These are spread across nine districts, including Maoist-hit areas of Kandhamal, Boudh, Bolangir, and Baragarh. The first phase of elections, covering four parliamentary and 28 assembly constituencies, was conducted peacefully on May 13. Despite six Naxal-hit districts falling within the polling zones, no Maoist-related violence occurred during the polls due to robust anti-Maoist opera-

tions and real-time intelligence, DGP Arun Sarangi said on Sunday. A total of 9,162 polling stations at 7,339 locations, including 556 booths in Maoist-hit areas, will be used. To ensure security, 102 CAPF companies and 66 platoons of Odisha Armed Police, supported by 47 additional SPs, 88 DSPs, 236 inspectors, and 2,000 sub-inspectors are on poll duty," Sarangi said.

Modi to start Punjab campaign from Patiala

PTI ■ Chandigarh

Prime Minister Narendra Modi will start his poll campaign in Punjab with his first rally in Patiala on Thursday, according to state BJP secretary. Punjab BJP general secretary Rakesh Rathour on Sunday said the prime minister will address three public rallies in the state on May 23 and May 24. Modi will hold his first rally in Patiala on May 23, followed by rallies in Gurdaspur and Jalandhar the next day, Rathour said. The BJP has fielded four-time MP Preet Kaur from the Patiala parliamentary constituency. Sushil Rinku is the saffron party's candidate from Jalandhar while former MLA Dinesh Babbu has been fielded from the Gurdaspur seat. Polling for 13 Lok Sabha seats in Punjab will be held on June 1 in the last phase of Lok Sabha elections.

Lone Kashmiri Pandit candidate in Anantnag seeks justice for his community

PTI ■ JAMMU

Dilip Kumar Pandita, a lone displaced Kashmiri Pandit candidate contesting on the Anantnag-Rajouri Lok Sabha seat, is ramping up his campaign, promising to "reunite all Kashmiris through serious intra-community dialogue via civil society". Pandita is among 20 candidates in the fray challenging prominent figures like PDP president Mehbooba Mufti and National Conference leader Mian Altaf Ahmad in the election slated for May 25. Pandita (56), who hails from a small hamlet of Ramhal in south Kashmir's Anantnag district, has been living in a government accommodation in Jagti migrant township with his family for several decades. Despite the prevailing heat-wave conditions in Jammu, he is vigorously campaigning with door-to-door interactions and corner meetings in Jammu, particularly in five

migrant camps to seek support of more than 35,000 voters of the community. "We have been displaced from our homes for 35 years without getting justice. I am contesting to fight for justice for Kashmiri Pandits and to create conditions for their safe return to the valley," Pandita told PTI at the Muthi camp. Running as an independent candidate under the symbol of a tube light, Pandita's manifesto emphasises reuniting all Kashmiris, both Pandits and

Muslims, through civil society dialogue. "If elected, my aim is to tackle unemployment and press the Indian government to maintain peace, and secure special employment packages for the youths of Jammu and Kashmir," he said. Pandita also pledges to restore statehood to Jammu and Kashmir, improve benefits for PM Package employees, and push for eco-friendly schemes to boost the local economy.

The people of his native Ramhal village, currently living in Jammu, have shown their support through a 'yagya', urging the community to vote for him. "We should support him so he can effectively work in his constituency. He is fighting for justice, and we should stand by him," villager Sunil Kumar said. "Villagers from my hamlet are performing a 'yagya' for my success. Kashmiri Pandits have faced severe hardships

over the last 25 years. I share their pain and appeal to them to vote for me, so we can achieve victory together," said Pandita, who is engaged in self-employment. According to his election affidavit, Pandita has an income of Rs one lakh and assets worth Rs 17.5 lakh, with liabilities of Rs 14.7 lakh. He also faces charges related to criminal intimidation in Jammu. The polling date for Anantnag-Rajouri was changed from May 7 to May 25. In this constituency, 18,30,294 eligible voters, including 9,30,379 males and 8,99,888 females, will decide the candidates' fate across 2,338 polling stations. The Anantnag-Rajouri parliamentary seat, reshaped by the delimitation commission in 2022, now includes 18 assembly segments across Anantnag, Shopian, and Kulgam districts in south Kashmir, as well as parts of Rajouri and Poonch districts in Jammu.

Kharge's posters defaced in front of Bengal Congress HQ after his snub at Adhir

PTI ■ KOLKATA

A day after he snubbed West Bengal Congress chief Adhir Ranjan Chowdhury for questioning TMC supremo Mamata Banerjee's loyalty to the INDIA bloc, several posters and hoardings of Congress president Mallikarjun Kharge were defaced with ink in front of the party's state headquarters here on Sunday. Unidentified persons also wrote 'agent of Trinamool Congress' on Kharge's posters and hoardings. Sources in the Congress said that Chowdhury, who is in his hometown

Baharampur, expressed displeasure over the incident and asked party workers to lodge a police complaint, which was registered, and the defaced posters were also removed. "The incident might have happened on Saturday night. This is the handiwork of the TMC which wants to create differences between senior Congress leaders and Adhir Ranjan Chowdhury," a party leader alleged. Kharge had on Saturday snubbed Chowdhury while responding to a query on Mamata Banerjee's comment that if the INDIA bloc forms the government, she would support it from outside, and

Chowdhury's remark that she cannot be trusted and that she might go with the BJP. "Mamata Banerjee is with the alliance. She has recently said that she will join the government. Adhir Ranjan Chowdhury will not take the decision. The decision will be taken by me and the high command and those who don't agree will go out," Kharge had said. He had also asserted that Chowdhury is no one to decide on whether Banerjee would be part of the INDIA bloc in the event of the anti-BJP alliance coming to power after the Lok Sabha polls. Chowdhury, while reacting to Kharge's

comments, had said, referring to the TMC supremo, "I cannot speak in favour of someone who wants to finish me and our party in Bengal politically. This is a battle for every Congress worker. I have spoken on their behalf. I don't want the state Congress to be used for her (Banerjee's) personal agenda and then finish the organisation." "If Kharge ji speaks against my views, I will continue to speak for Congressmen at the grassroots in the state," he added. The TMC is contesting the Lok Sabha elections alone in the state, while the Congress and the Left are jointly fighting the polls.

PAPER WITH PASSION

An intricate puzzle

Kejriwal aide's arrest sparks AAP-BJP war of words amid Maliwal's assault allegations

The alleged assault case involving former Delhi Commission for Women chief and AAP Rajya Sabha MP Swati Maliwal, in which she has named Chief Minister Arvind Kejriwal's PA Bibhav Kumar, keeps getting murky. The development came within days of Kejriwal's return to campaigning from Tihar Jail, where he had been incarcerated for his alleged role in the Delhi excise policy case. Now the arrest of Bibhav Kumar for the alleged assault has sparked a series of protests and political manoeuvres. The case centres around Maliwal who, interestingly, herself has been under scrutiny by the Anti-Corruption Bureau for alleged appointment irregularities in DCW. After first admitting to the assault, AAP now alleges that Maliwal was blackmailed with the fear of arrest in the case. Bibhav's arrest is linked to this ongoing investigation, adding fuel to an already volatile situation. In response to his aide's arrest, Kejriwal — accompanied by AAP MPs, MLAs and supporters — led a protest march to the BJP headquarters to show solidarity with Bibhav and "expose" the BJP's political vendetta.

In a video message to the Prime Minister, Kejriwal asked the latter to arrest all top AAP leaders at once instead of doing that one by one. Kejriwal also emphasised that the action against Bibhav and Maliwal were attempts to stifle AAP's efforts to combat corruption and improve governance. On the other hand, the BJP has asserted that the law against corruption is being followed diligently. Its leaders argue that investigation is a necessary step in ensuring transparency and accountability in public offices. Interestingly, the Congress has chosen to remain silent on this issue.

This non-committal stance could be seen as a strategic decision to avoid getting embroiled in the confrontation between AAP and BJP, both of whom are its political rivals in Delhi.

Timing is everything in politics; the cauldron is coming to a boil with less than a week to go for voting in Delhi on May 25. Meanwhile, the ongoing tussle between AAP and BJP is emblematic of the larger power struggle between the parties. This incident is likely to have ramifications beyond immediate political dynamics, potentially influencing voter perception and future elections. It would not be wise to assign motives to Maliwal at this point; besides, the case is now sub judice but one can safely say from experience that several of her past statements have been rather awkward. Once she tweeted she was a "proud daughter" and, on another occasion, said she was sexually abused by him when she was a child. The situation also brings to the fore issues of misuse of investigative agencies and the limits of political accountability. As both parties continue to trade barbs, the people of Delhi watch closely, hoping for resolutions that prioritise effective governance and justice over political expediency. As Buddha once said, three things cannot be hidden for long — sun, moon and the truth! We would know soon whether it was a political conspiracy or really a assault by her own party members!

India tactfully manages US-Iran tensions

BHOPIINDER SINGH

As India forges a vital partnership with Iran through the Chabahar port agreement, it must adeptly balance its regional interests against the backdrop of American concerns

Iran has had an unwarranted grip on the sensibilities of the US administrations, irrespective of their partisan divide. The moment for the bilateral fracture in American imagination starts from the Iranian Revolution in 1979 and the subsequent US Embassy hostage drama. The wounded memory for the Iranians is deeper and traced to the CIA-aided coup against the popular Prime Minister, Mosaddegh, in 1953. Undoubtedly, the religious puritanism of Ayatollah Khomeini's regime after the revolution pitted it ideologically against the 'West', but the public memory of the US support to Saddam Hussein (later ousting him) in the decade-long Iran-Iraq war, is now conveniently forgotten by the duplicitous American regimes. Later, Americans linked Iran to 9/11 and the birthing of Al Qaeda/ISIL, even though Iran didn't have anything to do with either. If anything, Iran and its proxies fought ISIL in Syrian-Iraqi swathes and were instrumental in decimating the same, though later the Americans killed the Iranian General Qasem Soleimani. Because sectarian undercurrents and the chessboard of American 'allies' (Israel and Arab Sheikdoms) have a checkmate from Iran and its proxies in Syria, Lebanon and Yemen - the unjustified demonizing of Iran continues. While countries like Saudi Arabia and Pakistan have contributed far more towards religious extremism and terror, they continue to receive American support, while the Iranians face crippling sanctions. Americans had unilaterally reneged on the Iran Nuclear Deal even when all other signatories i.e., P+1 countries and the UN watchdog agency IAEA (International Atomic Energy Agency) had confirmed that Iran had complied with all provisions. Pressure from Israel and Sheikdoms ensured that Iran continued getting conflated with everything going wrong in the Middle East, even if Iran did, or did not have any role in the same. While the Hamas group was supported by Iran (as indeed by Saudia Arabia and others, till recently), there is no credible evi-

dence to link Iran with the planning or execution of the 7th Oct 2023 attack, but the phantom of Iran linkages persisted. Pushed to a corner to retaliate to salvage its sovereign pride the Iranians did retaliate, albeit, after getting forced to do so after its senior military officers were killed in Syria, by Israelis. The must-needed justification to 'prove' Iran's purported machinations and belligerence was offered and the Americans lapped it up with both hands - that it is the election year and flexing muscles against the 'enemy' i.e., Iran, brings its electoral benefits, vitiates the situation even further. Now Joe Biden who had earlier come to power with the promise to restore the Iran Nuclear Deal torn by the unhinged Donald Trump, is all but a forgotten memory. Today, Biden is trying to outdo Donald Trump in 'taking on' the Iranians, with even more sanctions. The White House issued a Statement, "Less than a week ago, Iran launched one of the largest missile and drone attacks the world has ever seen against Israel. Together with our allies and partners, the United States defended Israel. We helped defeat this attack. And today, we are holding Iran accountable-imposing new sanctions and export

WHILE INDIA NEEDS TO MAINTAIN ITS RELATIONS WITH THE US TO COUNTERANCE THE CHINESE THREATS, IT ALSO HAS ITS REGIONAL CONCERNS WHICH REQUIRE DE-HYPHENATION FROM US CONCERNS WITH IRAN

controls on Iran". The import of the same goes beyond the USA as it now seeks to potentially sanction any country dealing with Iran e.g., India, which has recently signed a 10-year contract to manage the strategic Chabahar port in Iran. This gateway to Afghanistan and Central Asian Republics bypasses Pakistani land routes, offers an invaluable Indian footprint on the other side of Pakistan (counters China-developed, Gwadar Port, in Pakistan) and strengthens Indian ties with the civilisational land of Iran. With the Taliban in Afghanistan tiring of Pakistan and the Iranians signing this deal, Delhi is justifiably excited about the evolved prospects of countering the Sino-Pakistani assertions in the theatre. While India needs to maintain its relations with the US to counterance the Chinese threats, it also has its regional concerns which require de-hyphenation from US concerns with Iran. India cannot be a blind minion of the US as it has its own bilateral and regional imperatives that warrant 'strategic independence' in decision-making, as was done by buying Russian oil and maintaining cordial relations with Moscow, whilst nuancing concerns for

Ukraine. To be fair, the Americans have recognised the Indian positions and compulsions which are not aimed at diminishing the US interest, but only towards protecting its own, hence the restraint in actuality, even as the war of words persists. In any case, the Biden administration will be at its voluble worst and indulge in sabre-rattling (especially on matters about Iran) and therefore important to understand their compulsion of tonality. It is with this backdrop that the Statement of the US official must be understood, when pressed about the Indian agreement with Iran, "You've heard us say this in several instances, that any entity, anyone considering business deals with Iran, they need to be aware of the potential risk that they are opening themselves up to and the potential risk of sanctions". The Americans will say what they have to and the Indians will do what they have to, as it is a well-understood position on both sides. India's strategic equation with Iran is not designed to diminish the US interest. (The writer, a military veteran, is a former Lt Governor of Andaman & Nicobar Islands and Puducherry. The views expressed are personal)

LETTERS TO THE EDITOR

FOLLOW THE CODE OF CONDUCT

Madam — Apropos the news article "Mamata Promises to back INDIA in Power," published on May 16. The Chief Minister of Bengal, Mamta Banerjee, had earlier decided to go solo in the elections. Even the ruling party Trinamool Congress's (TMC) leader's atrocities against women of the Sandeshkhali haven't lowered the spirit of Didi (Mamta Banerjee). Annoyed with the saffron party at the centre and blaming it for hatching a conspiracy in the Sandeshkhali incident, the chief minister has decided to support the INDIA bloc from outside if it comes to power in the centre. Accusing Narendra Modi of not fulfilling any of the promises to the nation, Didi said Publicity and lies are his two weapons. According to the chief minister, the PM is a prachar Babu who does only 'prachar' and nothing else. Using such terms against the PM of the nation is a violation of the code of conduct. All political leaders should maintain the sanctity of the Constitution and follow a code of conduct while speaking publicly.

CHABAHAR PORT PACT

Madam — It refers to the news article "India And Iran Sign Chabahar Port Pact," this is my response. The Chabahar Port is a cornerstone of India's regional strategy, offering several critical advantages. It serves as a vital gateway for expanding trade with Central Asia, providing a direct, cost-effective route to the region's abundant resources. Additionally, Chabahar acts as a strategic counterbalance to China's influence, particularly in light of China's control of Gwadar Port in Pakistan. The port also offers a reliable alternative trade route to Afghanistan, bypassing the often volatile land routes through Pakistan and ensuring uninterrupted trade and aid flows. This collaboration with Iran further strengthens India's diplomatic ties and bolsters its position in the Asian geopolitical landscape. India's commitment to the Chabahar

Chhetri retires

Apropos the news article, "Stalwart Chhetri announces retirement," published on May 17, this is my response. The news of Sunil Chhetri's retirement has hit the Indian football community hard. As the much-admired and treasured Indian captain announced his decision to step away from international football after the FIFA World Cup qualification match

against Kuwait on June 6, emotions ran high across the country. Chhetri was the face of Indian football in a remarkable career spanning over 20 years. With a legacy that has left an indelible mark on Indian football, the 39-year-old maestro's journey has been an inspiration to millions, reshaping perceptions of this beautiful game in the nation along the way. Since his debut in 2005, Chhetri has amassed a multitude of accolades, including setting records for the highest number of appearances and goals scored for India. With 94 goals in 150 matches, Sunil Chhetri holds the third position on the list of most international goals, trailing behind only the two superstars, Lionel Messi and Cristiano Ronaldo. "A simple ball unites us all," the saying goes. Needless to say, Sunil Chhetri was a perfect example of this soccer quote.

Ranganathan Sivakumar | Chennai

project, despite the potential risk of US sanctions, underscores its strategic autonomy. India's External Affairs Minister S. Jaishankar defended the Chabahar Port deal with Iran despite US sanctions warning, emphasising its regional benefits. India views the port as crucial for accessing Central Asia while bypassing Pakistan. Despite US pressure, India asserts its strategic independence through the deal to counter China's influence in the region.

Amarjeet Kumar | Hazaribagh

CRUELTY AGAINST ANIMALS

Madam — Apropos the feature article, "Assault most foul for kindness to animals," by Hiranmay Karlekar, published on May 18, this is my response. Compassion for all living creatures has been the philosophy of India. In most Indian households, rural and urban, when people cook, they reserve a portion of the food for cows, dogs and birds. However, human beings, born as a superior species, consider themselves the sole claimant to this planet and its related div-

Promise and challenges of drones in agriculture

Drone technology shows promise in agriculture, offering efficiency and cost savings. Yet apprehensions galore hinder its adoption

HIMANSHU VERMA

Drone technology has gained popularity in the agriculture industry in recent years. Drones provide farmers with several advantages, such as higher yields, lower costs, and enhanced efficiency. However, there are worries that farmers would be hesitant to use drone technology because they don't know enough about it or are afraid of losing their jobs. We will examine the advantages of drone technology for the agricultural industry as well as any obstacles that might be preventing farmers from implementing it. Drones' advantages in the agriculture industry

2. Increased agricultural yields: Farmers may discover areas that need care by using drones to collect data on crop health. Farmers may raise agricultural yields and profit margins by resolving these problems.

1. Increased efficiency: Farmers can collect data and monitor crops more successfully because of drones' ability to cover huge expanses of land swiftly and efficiently. Early problem detection can result in quicker and more efficient responses.

3. Lower prices: By locating farm areas that need maintenance, lowering the need for physical labour, and lowering the usage of pesticides and other chemicals, drones may help farms cut costs.

4. Increased accuracy: Farmers can observe their crops in detail thanks to the high-resolution photographs and data that drones can collect. This can assist in identifying problem areas and guarantee that solutions are focused and successful. Drone technology adoption challenges in the agriculture industry Although farms might profit greatly from drone technology, several obstacles may prevent farm-

ers from using this tool. These are a few of the main obstacles:

1. Fear of losing one's job: Since fewer people will be required to undertake physical labour on farms as a result of the adoption of drone technology, many farmers are worried about losing their jobs.

2. Lack of expertise: Farmers may lack the expertise or training required to use drones safely. They might not be confident in their abilities to utilize it, which might make it difficult for them to accept this technology.

3. Cost: Since drones may be pricey, many farmers might not be able to afford to invest in this technology.

4. Regulatory obstacles: Farmers may find it challenging to use this technology if there are regulatory obstacles to the usage of drones in agriculture. Drone technology usage in rural India's agriculture industry is still in its infancy. This technology is attracting curiosity, but there are also worries about job loss and a lack of education and training. Nonethless, initiatives are being made to overcome these obstacles and

promote the use of drone technology. The Digital India programme is a major endeavour that seeks to furnish rural regions with digital infrastructure. The initiative's emphasis on education and training may aid in addressing farmers' deficiencies in knowledge and experience. Furthermore, several efforts and organisations are working to further the application of drone technology in agriculture. To promote precision agricultural technology, such as drones, the Indian Council of Agricultural Research (ICAR) developed the Centre for Precision and Farming Technology. Farmers may be reluctant to accept this technology, though, due to worries about job loss and a lack of education and training. Farmers must have the support and training; they need to use this technology efficiently, as well as an understanding of its potential advantages.

CONNECTING THE MIND AND BODY

Harnessing the potential of mind is the key to true happiness

RAVI VALLURI

What is the difference between PK and PIKU? Two letters, 'i' and 'u'; 'i' is us and 'u' are them (an extra-terrestrial Aamir Khan). Their CPU is cerebral and our CPU is at the level of the abdomen. Or say for vast multitudes the focus is on the abdomen. It would be quite captivating to watch the main protagonists PK (of the eponymous movie) and Bhaskor (of Piku fame) sharing their thoughts and respective metabolisms in a spaceship. Food has a tremendous impact on our system, which we do not quite comprehend. Improper diet first takes a toll on the metabolism and then attacks other organs of the body. Simply put, the intake of toxic foods generates repugnant thoughts and results in a weak mind and body.

The human mind is an enigma and a reservoir of potential. But the moot question is how do we tap this potential? The mind is a movie theatre where we script and enact innumerable movies and soap operas. Technology alone cannot be a substitute for the enormous potential of the mind. It needs to be cultured, harnessed and harmonized with needs and wants.

We need to distinguish the brain from the mind. The brain is an organ that serves as the centre of the nervous system in all vertebrate and most invertebrate animals. Only a few invertebrates such as sponges, do not have a brain, diffuse or localized nerve nets are present instead. Mind on the other hand, is the faculty of consciousness and thoughts. It is an individual's intellect or memory of his attention span or will.

Sri Sri Ravi Shankar has captured it very succinctly. He says the mind is like the sky and thoughts are like clouds. Your thoughts make or mar the progress and development of the mind.

To be happy in life humans need to calm the obdurate and recalcitrant mind. Further keep reminding ourselves that we are blessed, grateful and have abundance in our lives. Life is full of valleys and peaks. It can never be a rising curve or a straight line permanently.

The human mind vacillates between the past and the future. In the past, the mind is regretful and if it is in the future, it is anxious. In either situation, the mind is not at peace or in the present moment and thus remains unhappy.

Incidentally, there is a deep connection between the stomach and the mind. That is why it is called the gut feeling or the sixth sense. Our solar plexus keeps sending us signals. It depends as to whether we are conscious and wakeful enough to grasp those signals.

Humans can truly celebrate only if we can silence our minds. There are techniques to do it and develop a relaxation room or space in our minds and harness the energy so that it does not get enervated. By practising Suryanamaskars and Padmasadhana as crafted by Gurudev we can enhance our Prana, (chi) or energy levels substantially.

This energy can be channelled in innumerable ways. There may be some who may practice meditation, breathing techniques or simply observe silence to quieten the mind. The path is chosen based on our personality type. Several others through unflinching prayers and reading inspirational literature can silence the mind. But the aim is to be in the present and lead a happy life. Let our minds not be judgmental and complain and cling to negativities. Willy-nilly we provide the hook to hang the coat of negativity.

"Life gives you plenty of time to do whatever you want to do if you stay in the present moment," writes Deepak Chopra.

Economic crisis takes a backseat in elections

SHIVAJI SARKAR

As India's election fever rises, the spotlight shifts from core economic issues to religious controversies and symbolic debates

In this dance of democracy, scarce resources are seemingly rambling up the election tempo. The religious slant on employment and sillier issues like the mangal sutra raised are for diverting from the core issue that has as yet to be answered by the pre-poll slogan of "we are the fifth largest economy". Aren't we that large? Some stats say that but the country has tougher stats to counter like the difficult balance of payments and still grim, Manipur the embattled State, for the failure of the provincial Government has over 67000 people displaced during the last year because of the ethnic conflict. There are also reports that farmers plough into the Punjab BJP poll campaign and express similar wrath in Haryana as well. They tell a political party to be people-friendly as also kisans are not born for doles. And Agniveers on their death are not being given a salute is a national cry.

Jobs not being there is the reality. Urban joblessness has risen to 6.7 per cent from 6.5 per cent in March 2024. The men's unemployment has jumped to 6.3 per cent from 5.8 per cent. Periodic labour survey data is a pointer to difficult job scenarios. This is reflected in the elections by the Bihar caste survey that indicates more difficult situations for marginal castes, a detested reality. Caste denotes empowerment as well as deprivation.

Would a Congress manifesto professing over 50 per cent reservation serve the issue? The BJP contests it. It is accused of wanting to rob reservations. It is repeatedly denied by RSS chief Mohan Bhagwat. No party has answered if jobs are not there, how would a reservation help? National Commission for Backward Classes has warned West Bengal and Punjab Governments for not "fully using the space available under the 50 percent ceiling for reservations for scheduled castes, tribes and backward classes and OBCs". It asked Bengal to increase it by 5 per cent and Punjab by 13 per cent. It finds that

THE MAHANAVRATNA AND NAVRATNA INDUSTRIES WERE DOING WELL WHEN MOST OF THESE WERE AXED OR SABOTAGED, LIKE AIR INDIA AND HMT, TO FACILITATE THE GROWTH OF THE PRIVATE SECTOR, WHICH EARNED HUGE PROFITS BUT DID NOT CREATE JOBS

Bengal filled up 45 per cent of the quota and Punjab only 37 per cent. The worst may be Arunachal Pradesh. Yet another sex racket is busted with eight Government officials among 21 arrested.

The International Labour Organisation finds 28 million men women and children are in forced labour due to a cycle of poverty. Of these 63 percent are in the private sector. Forced labour generates \$ 236 billion in illegal profits globally every year.

"We now know that the situation has only got worse. The international community must urgently come together to take action to end this injustice," said the ILO Director General.

The report, titled 'Profits and poverty: The economics of forced labour, also estimates that traffickers and criminals are generating close to \$10,000 per victim, up from \$8,269 (adjusted for inflation) a decade ago. The survey also said that forced commercial sexual exploitation contributes to more than two-thirds (73 per cent) of overall illicit profits, despite accounting for only 27 per cent of all victims in privately imposed work. "Total annual illegal profits from forced labour are highest in Europe and Central Asia (\$84 billion), followed by Asia, including India and the Pacific (\$62 billion), the Americas (\$52 billion), Africa (\$20 billion) and the Arab States (\$18 billion)," the report said.

The ILO cautions India. It also warned on conditions of Indian labour in the Arab countries.

In a scenario, where people compromise with their dignity, the ILO doubts the figures on India's galloping progress. The supposed \$ 3 trillion economy, highly burdened

with debt, has an annual repayment of over Rs 10.4 lakh crore.

Economic issues remain at the forefront of the voters. Globally shrinking jobs, particularly in IT, has rattled many Indians. Political parties offering sops of reservations or apprenticeships of Rs 1 lakh a year (approx. Rs 8000 plus a month) sells well among the burgeoning numbers of jobless, who are already hit by one of the highest inflation of 55 per cent in ten years. It is not easy for them to manage it amid farmers' distress and the trade deficit widening to a four-month high at \$ 19.1 billion. Exports rise by one per cent to \$35 billion and imports by over 10 per cent to \$ 54.1 billion. This upsets the Government's calculations on the impending forex reserves.

How would the country improve the job scenario? The age-old move to wean the workers away from the farms has failed. Still, agriculture employs over 54 per cent of the Indian workers. The Nehruvian economy created robust public sector organisations. In 1994-2000, PSUs employed 19.4 million (about 2 crores) people or 69 per cent of the total employed. The other 31 per cent were employed in the central and State Governments. Some 3.4 million jobs were added to non-farm payrolls and unemployment at 5.6 per cent had fallen from 6.6 per cent.

In sharp contrast, in 2021-22, PSU employment reduced to 8.61 lakh. And it is gradually reducing. According to official statistics, employment in the organized sector is now a mere 8.34 per cent, of which the public sector accounts for 5.77 per cent and the private sector only 2.58 per cent in the total employment generated.

The Government's massive infra investment of Rs 11 lakh crore this fiscal may have added some jobs in the construction sector but these short-term jobs are not considered quality work. Apart from infra investments are subject to erosion in many ways, right from excess cost estimation to longer gestation.

So the promise of reservation is a dream. According to CMIE, employment in India increased by a mere 5.8 million till March 2023. An additional 119 million people were not added to the potential labour force during the same. The estimates show that self-employment has been the chief driver of the Indian job market, which was hit hard by demonetisation crushing a parallel self-sustained economy.

Poll promises apart, the country is in the grip of a severe economic crisis. Ideally, more PSUs are required to stop labour exploitation in the private sector as well as their disinclination to create jobs. The Mahanavratna and Navratna industries were doing well when most of these were axed or sabotaged like Air India and HMT to facilitate the growth of the private sector, which earned huge profits but did not create jobs.

Reversing it would require revival and reforming the Planning Commission and reshaping the economy in the public sector where the private sector would have to compete on equal terms. Reservations to benefit the deprived castes then only would yield results. Would a revamp be possible?

Complex challenges necessitate consciousness and policy shift

India's pressing issues demand pragmatic action and a collective mindfulness shift for lasting, transformative change

India faces multitudes of challenges arising from different quarters. It is tempting to think of these problems as belonging to society, polity, economics etc. But essentially all problems have their roots in the mind of the human being and arise from a lack of adequate understanding of the self. The solutions therefore have to be both in the external and the internal domain. Let us look at the five major conflicts and challenges plaguing India. A vision for the future would involve constructively responding to these problems.

1. Climate Change It is well-established that climate change is an anthropogenic phenomenon. Ladakh is already agitating about the palpable changes that climate change is inflicting on the

ACHARYA PRASHANT

region's ecology. Five years is too long a time if India does not immediately take corrective steps. There is a terrifying lack of public awareness on this issue leading to political inaction. How are we planning to deal with swaths of terrible heat waves that are going to engulf the country? What will diminishing crop yields and extreme weather events do to the poor? Do we not know the origins of the toxic air that we

are consuming or the water distress we are facing? We continue to wreck the Himalayas with deforestation and the construction of massive carbon-emitting infrastructure, despite knowing that this is causing erratic rain patterns, melting of the glaciers and eventual destruction of life as we know it.

Blind lust for consumption comes from the blind belief that consumption is an indicator of the fulfilment or success of one's life. The sheer size of our population coupled with this notion of consumerism is a recipe for self-destruction. In the next 5 years, we need education and mass-awareness programs on this biggest threat that mankind faces and also genuine efforts towards correcting the consumption-

based flawed philosophy of life, through programs on self-awareness.

2. Animal Rights The same lust that threatens to destroy the planet also co-opts the rights of all living creatures on Earth. The problems of animal rights violations, ecology loss and biodiversity extinction - all arise from the same source. When we talk of animal rights, it is today unfortunately a struggle for the basic right to survive. Close to 50% of all living species on the planet have gone extinct in the last 50 years. Most of it is because of violent human action. 100-1000 species go extinct every day. Also, this is 100 to 1000 times faster than the natural extinction rate. As Indians and as humans, we can survive either physically or

spiritually with the kind of carpet 'speciecide' we have launched against the entire planet. In its scale and brutality, it exceeds any act of violence the Earth has ever seen. It is especially lamentable to see that India, with its Ahimsa, is among the worst perpetrators of atrocities towards life-forms. Be it meat exports, the expansion of the dairy industry, or the organised destruction of animal habitats through so-called developmental activities, it only augurs doom for all.

In the next 5 years, I wish to see direct and strong action on this front, which can only result from an arousal of public consciousness.

3. Education Public statistics on the State of India's education portray the

deep waters that the country is in. There are startling revelations on the basic quantitative and linguistic abilities of school students, not to mention the unemployability of college pass-outs. Compared to the developed world and the mass of developing countries, this highlights the utter lack of importance that Indian society places on education. The problems of today can have only spiritual solutions and we have kept the young population oblivious of spirituality. Our education has become very dangerously anti-life. A human being is alive only if he can reflect and understand. There is a need to urgently ramp up the basic education infrastructure of the country and also to prioritize the integration of life

education into the modern education system. In the next 5 years, we need to see an education system that places deep emphasis on both Vidya (knowledge of the self) and Avidya (knowledge of the world). **4. Protection of rights of the marginalised communities** More than half of the world's wealth resides in the hands of less than 1% of individuals. The situation in India is no different. When national resources are commanded by just a few individuals, the outcome is that much of the world is plagued by poverty, even starvation. The glamorization of wealth and the promise of pleasure has made the middle classes disconnected and indifferent to the stark realities of the world.

In the next few years, the rights of the vulnerable sections must be defended in all ways - through education, legal frameworks and socio-religious reform.

5. Creative and dignified employment for the youth Work is not something that you can choose as per the prevailing norms in your academic institution family or community. I would want to see, in the next 5 years, the creation of an academic, social and economic environment that brings creative vocation to the youth, not just as a means of livelihood but as the fulfilment of life itself.

Airstrike kills 27 in Central Gaza

AP ■ DEIR-AL-BALAH

An Israeli airstrike killed 27 people in central Gaza, mostly women and children, and fighting with Hamas raged across the north on Sunday as Israel's leaders aired divisions over who should govern Gaza after the war, now in its eighth month.

Prime Minister Benjamin Netanyahu faces criticism from the two other members of his War Cabinet, with his main political rival, Benny Gantz, threatening to leave the government if a plan is not created by June 8 that includes an international administration for postwar Gaza.

US national security adviser Jake Sullivan was expected to meet with Netanyahu and other Israeli leaders on Sunday to discuss an ambitious US plan for Saudi Arabia to recognise Israel and help the Palestinian Authority to govern Gaza in exchange for a path to eventual statehood.

Netanyahu opposes Palestinian statehood and has rejected those proposals, saying Israel will maintain open-ended security control over Gaza and partner with local

received the bodies. A separate strike on a Nuseirat street killed five people, according to the Palestinian Red Crescent emergency service. In Deir al-Balah, a strike killed Zahed al-Houli, a senior officer in the Hamas-run police, and another man, according to the hospital. Palestinians reported more airstrikes and heavy fighting in northern Gaza, which has been largely isolated by Israeli troops for months and where the World Food Programme says a famine is underway. The Civil Defence said the strikes hit several homes near Kamal Adwan Hospital in Beit Lahia, killing at least 10 people. Footage released by rescuers showed them trying to pull the body of a woman out of the rubble as explosions echo in the background. In the urban Jabaliya refugee camp nearby, residents reported a heavy wave of artillery and airstrikes. "The situation is very difficult," said Abdel-Kareem Radwan, 48. He said the whole eastern side has become a battle zone where the Israeli fighter jets "strike anything that moves". Mahmoud Bassal, a spokesman for the Civil

Houthi rebels strike oil tanker in Red Sea with missile

Dubai (AP): Yemen's Houthi rebels hit an oil tanker in the Red Sea with a ballistic missile early on Saturday, damaging the Panama-flagged, Greek-owned vessel in their latest assault over the Israel-Hamas war in the Gaza Strip, officials said. Though the Houthis did not immediately claim the assault, it comes as they claimed to have shot down another US military's MQ-9 Reaper drone over Yemen and have launched other attacks on shipping, disrupting trade on a key maritime route leading to the Suez Canal and the Mediterranean Sea. The attack around 1 a.m. struck the oil tanker Wind, which recently docked in Russia and was bound for China, the US military's Central Command said. Both China and Russia maintain ties over military equipment and oil to Iran, the Houthis' main benefactor.

The missile strike "caused flooding which resulted in the loss of propulsion and steering," Central Command said on the social platform X. "The crew of M/T Wind was able to restore propulsion and steering, and no casualties were reported. M/T Wind resumed its course under its own power."

The British military's United Kingdom Maritime Trade Operations Centre and the private security firm Ambrey similarly acknowledged the attack earlier Saturday. Ambrey said it caused a fire aboard the Wind. It can take the Houthi hours — or even days — to claim their attacks. The Houthis have launched attacks on shipping in the Red Sea and Gulf of Aden, demanding Israel ends the war in Gaza, which has killed more than 35,000 Palestinians there. The war began after Hamas-led militants attacked Israel on October 7, killing 1,200 people and taking some 250 others hostage. The Houthis have launched more than 50 attacks on shipping, seized one vessel and sunk another since November, according to the US Maritime Administration. Houthi attacks have dropped in recent weeks as the rebels have been targeted by a US-led airstrike campaign in Yemen. Shipping through the Red Sea and Gulf of Aden still remains low because of the threat, however.

Slovak PM's condition serious

AP ■ BANSKA BYSTRICA

Slovakia's populist prime minister, Robert Fico, remained in serious condition on Sunday but has been given a positive prognosis four days after he was shot multiple times in an assassination attempt that has sent shockwaves across the deeply polarised European Union nation, the defence minister said. "The worst of what we feared has passed, at least for the moment. But his condition remains serious," Robert Kalinak told reporters outside the hospital where Fico is being treated. "His condition is stable with a positive prognosis."

Kalinak added that the hospital treating the Slovak leader in Banská Bystrica, a former coal mining town of 16,000 situated 29 kilometres (17 miles) from where Fico was attacked, will continue to issue updates on his health status.

Milan Urbáni, deputy director of the hospital, told reporters that "Based on the doctors' morning consultation, we can conclude that the patient is currently out of a life-threatening condition. His condition remains very serious, and he needs a long time to rest to recover. We firmly believe that

everything will go in a good direction."

Fico, 59, was shot in the abdomen as he greeted supporters on Wednesday outside a cultural centre in the town of Handlova, nearly 140 kilometres (85 miles) northeast of the capital, Bratislava. Video showed the Slovak premier approach people gathered at barricades and reach out to shake hands as a man stepped forward, extended his arm and fired five rounds before being tackled and arrested.

On Friday, Fico underwent two hours of surgery to remove dead tissue from his gunshot wounds, but he was not healthy enough to be transferred to the capital, officials said Saturday. The country's Specialised Criminal Court in the town of

Pezinok on Saturday ordered the suspected assailant, who is charged with attempted murder, to remain behind bars. Prosecutors said they feared he could flee or commit other crimes if freed, a court spokesperson said. The suspect can appeal the order.

Little information about the would-be assassin has been disclosed after prosecutors told police not to publicly identify him or release details about the case. Unconfirmed media reports have named him and said he was a 71-year-old retiree known as an amateur poet who may have once worked as a mall security guard.

Government authorities have given details that matched that description. They said the suspect didn't belong to any political groups, though the attack itself was politically motivated. Fico said last month on Facebook that he believed rising tensions in the country could lead to the killing of politicians, and he blamed the media for fuelling tensions in the country of 5.4 million.

President-elect Peter Pellegrini, an ally of Fico, said on Sunday that Slovakia is a "wounded country" in the wake of the assassination attempt.

2 dead, 5 missing in Danube River boat collision

Budapest (Hungary) (AP) Police say two people have died and five are missing following a boat collision on the Danube River in Hungary.

Hungarian police received a report late Saturday night that a man had been found with a head injury on the shore of the Danube near the town of Veroco, around 30 miles (50 kilometers) north of the capital, Budapest. The bodies of a man and a woman were later discovered nearby.

Hours after police began their search, they discovered a damaged boat in the water, which they towed to shore. They are still searching for five adults — three men and two women — who they believe were on the boat.

Police said they determined that a river cruise boat had been in the area at the time of the accident. They stopped a cruise boat with a damaged hull near the town of Komarom, more than 50 miles (80 kilometers) further upriver. Hungarian public television station M1 reported that the cruise boat, Heidelberg, is a 109-meter (357-foot) Swiss craft that can accommodate 110 people. No passengers on that boat sustained injuries, M1 said.

The Danube at Veroco is roughly 1,500 feet (460 meters) wide and is in the center of an area called the Danube Bend where the river makes a sweeping, nearly 90-degree turn to the south. The area is a popular recreational and boating destination and is on a route often used by cruise boats between Budapest and the Austrian capital, Vienna, some 140 miles (230 kilometers) upriver. The deadly accident comes five years after at least 27 people were killed in Budapest when a river cruise boat collided with a smaller tourist vessel, sinking it in seconds.

The tourist boat Hableany, carrying 35 people who were mostly South Korean tourists, was overtaken from behind by the much larger cruise boat, Viking Sigyn, beneath Budapest's Margit Bridge, in May 2019. The Ukrainian captain of the Viking Sigyn was last year found guilty of negligence leading to a fatal mass catastrophe and sentenced to five years and six months in prison.

US national security adviser, Saudi's Crown Prince meet

AP ■ DUBAI

President Joe Biden's national security adviser met early Sunday with Saudi Arabia's Crown Prince Mohammed bin Salman to discuss what the kingdom described as the "semi-final" version of a wide-ranging security agreement between the countries.

The announcement by the state-run Saudi Press Agency comes as the strategic deal had been updated after Hamas' October 7 attack on Israel that killed 1,200 people and saw 250 others taken hostage back to the Gaza Strip.

In the time since, a punishing Israeli airstrike campaign and ground offensive there has killed over 35,000 Palestinians, endangering the security deal that had included Saudi Arabia diplomatically recognising Israel for the first time since its founding in 1948.

Saudi state media released no images of Jake Sullivan and Prince Mohammed meeting in Dhahran, a city in the king-

dom's far east that's home to its state-run oil giant, the Saudi Arabian Oil Co. known as Saudi Aramco.

"The semi-final version of the draft strategic agreements between the kingdom and the United States of America, which are almost being finalised — and what is being worked on between the two sides in the Palestinian issue to find a credible path — were discussed," the statement released after the talks said.

That included "a two-state solution that meets the aspirations and legitimate rights of the Palestinian people" and "the situation in Gaza and the need to stop the war there and facilitate the entry of humanitarian aid," the statement added.

Saudi Arabia has long called for an independent Palestinian state to be created along Israel's 1967 borders, with east Jerusalem as its capital. However, that likely may be untenable for Israeli Prime Minister Benjamin Netanyahu,

whose government hinges on support from hard-liners who oppose a two-state solution and support Israeli settlements on lands Palestinians want for that state.

The White House had acknowledged Sullivan's trip and that he would later head on to Israel, where he's scheduled to meet Netanyahu on Sunday. However, there was no immediate statement from the US on the discussions, other than to say they would be "including the war in Gaza and ongoing efforts to achieve a lasting peace and security in the region."

Saudi Arabia has long relied — like other Gulf Arab nations — on the US to be the security guarantor for the wider Middle East as tensions over Iran's nuclear program in recent years have spilled over into a series of attacks. The proposal now being discussed likely would deepen that, and also reportedly includes access to advanced weapons and possibly trade deals as well.

Helicopter carrying Iran pres makes hard landing: State TV

AP ■ DUBAI

A helicopter carrying Iranian President Ebrahim Raisi suffered a "hard landing" on Sunday, Iranian state media reported, without immediately elaborating.

Raisi was travelling in Iran's East Azerbaijan province. State TV said the incident happened near Jofa, a city on the border with the nation of Azerbaijan, some 600 kilometres (375 miles) northwest of the Iranian capital, Tehran.

Travelling with Raisi were Iran's Foreign Minister Hossein Amirabdollahian, the governor of Iran's East Azerbaijan province and other officials, the state-run IRNA news agency reported. One local government official used the word "crash" to describe the incident, but he acknowledged to an Iranian newspaper that he had yet to reach the site himself.

Neither IRNA nor state TV offered any information on Raisi's condition. Rescuers were attempting to reach the site, state TV said, but

had been hampered by poor weather conditions. There had been heavy rain and fog reported with some wind. IRNA called the area a "forest."

Raisi had been in Azerbaijan early Sunday to inaugurate a dam with Azerbaijan's President Ilham Aliyev. The dam is the third one that the two nations built on the Aras River. The visit came despite chilly relations between the two nations, including over a gun attack on Azerbaijan's Embassy in Tehran in 2023, and Azerbaijan's diplomatic relations with Israel, which Iran's Shiite theocracy views as its main enemy in the region.

Iran flies a variety of helicopters in the country, but international sanctions make it difficult to obtain parts for them. Its military air fleet also largely dates back to before the 1979 Islamic Revolution.

Raisi, 63, is a hard-liner who formerly led the country's judiciary. He is viewed as a protégé of Iran's Supreme Leader Ayatollah Ali Khamenei and some analysts have suggested he could replace the 85-year-old leader after his death or resignation from the role. Raisi won Iran's 2021 presidential election, a vote that saw the lowest turnout in the Islamic Republic's history. Raisi is sanctioned by the US in part over his involvement in the mass execution of thousands of political prisoners in 1988 at the end of the bloody Iran-Iraq war.

Under Raisi, Iran now enriches uranium at nearly weapons-grade levels and hampers international inspections. Iran has armed Russia in its war on Ukraine, as well as launched a massive drone-and-missile attack on Israel amid its war against Hamas in the Gaza Strip.

Congolese army foils coup Exiled opp leader threatens pres

Kinshasa (AP): Congo's army says it has "foiled a coup" early Sunday morning and arrested the perpetrators, including several foreigners, following a shootout between armed men in military uniform and guards of a close ally of Congo's president that left three people dead in the capital, Kinshasa.

At first, local media identified the armed men as Congolese soldiers but then reported they were linked to self-exiled opposition leader Christian Malanga who later posted a video on Facebook threatening President Felix Tshisekedi. Tshisekedi was reelected as president in December in a chaotic vote amid calls for a revote from the opposition over what they said was a lack of transparency. The Central African country has witnessed similar trends of disputed elections in the past.

Congolese army spokesperson Brigadier General Sylvain Ekenge said on state television Sunday that the

attempted coup d'état was "nipped in the bud by Congolese defence and security forces (and) the situation is under control." He did not give further details.

This also came amid a crisis gripping Tshisekedi's ruling party over an election for the parliament's leadership which was supposed to be held Saturday but got postponed. Clashes were reported Sunday between men in military uniform and guards of Vital Kamerhe, a federal legislator and a candidate for speaker of the National Assembly of Congo, at his residence in Kinshasa, about 2 kilometres (1.2 miles) from the presidential palace and where some embassies are also located.

Kamerhe's guards stopped the armed men, Michel Moto Muhima, the politician's spokesperson said on the X social media platform, adding that two police officers and one of the attackers were killed in the shootout that started around 4:30 am.

Prime Minister Rishi Sunak is considering restrictions to the UK's post-study visa which allows graduates to stay on and work for up to two years after their degree course as part of efforts to curb soaring legal migration figures despite strong opposition from some of his ministers, a report claims on Sunday.

According to 'The Observer' newspaper, Sunak is facing a Cabinet revolt over plans to scrap the Graduate Route scheme, the definitive factor for choosing UK universities among Indian students who have topped the tally of these post-study visas since it was launched in 2021.

Downing Street is said to be considering "further restricting or even ending" the route despite the independent Migration Advisory Committee (MAC) declaring it was not being abused and that it should continue as it helps UK universities make up for financial losses on the domestic front. "Sunak is now

Sunak faces revolt over Graduate Route visa plans: Report

PTI ■ LONDON

finding himself caught between the demands of right-wingers with one eye on the Tory leadership and Conservative moderates who fear the consequences of a lurch to the right on the party's reputation and election chances," claims the newspaper, quoting sources close to ministers who oppose scrapping the visa.

Sunak's Education Secretary, Gillian Keegan, Chancellor Jeremy Hunt and Foreign Secretary David Cameron are

among those in the Cabinet said to be leading a revolt over the issue. It comes as university and business chiefs have warned that any curtailment of the post-study offer would make the UK less attractive to overseas students, including Indians.

Studying at university is one of our biggest export successes. Attracting international students boosts local economies and losing competitiveness would put support for undergraduate teaching

and innovation at risk," said John Foster, Chief Policy and Campaigns Officer for the Confederation of British Industry (CBI).

"With the MAC finding that the Graduate Visa is achieving the government's own policy objectives and is not being abused, it's time to put its future beyond doubt and end this period of damaging speculation," he said.

Universities UK (UUK), the leading representative body for UK universities, has also called upon the government to end the "toxic" uncertainty caused by the government's decision to review the visa route.

"We hope and expect that the government now listens to the advice they have been given and provides categorical reassurance that the Graduate visa is here to stay," said UUK chief executive Vivienne Stern. MAC Chair Professor Brian Bell, who concluded the rapid review into the scheme earlier this week, has said that "our evidence suggests that it's the Indian students that will be

most affected by any restriction on the Graduate Route".

The influential committee which advises the UK government on migration found that Indians accounted for 89,200 visas between 2021 and 2023 or 42 per cent of the overall grants, and the visa was stated as the "overwhelming decision point" for their choice of a higher education destination.

"The uncertainty caused by the review has been chaotic. We urge the government to accept the MAC's findings and ensure the Graduate Route remains a stable and permanent fixture in the UK's immigration system," said Vignesh Karthik from the National Indian Students and Alumni Union (NISAU) UK. In a general election year, expected in the coming months, the Sunak-led government sees curbing high legal and illegal migration figures as a priority area and with the latest set of quarterly immigration statistics due next week, further clamp-downs are on the horizon.

Musk launches Starlink in Indonesia

AP ■ DENPASAR

Elon Musk travelled to Indonesia's resort island of Bali on Sunday to launch Starlink satellite internet service in the world's largest archipelago nation. Wearing a green Batik shirt, Musk was greeted with a garland of flower petals at a community health clinic in Denpasar, the provincial capital of Bali, where he launched the Starlink service alongside Indonesian ministers.

Indonesia, a vast archipelago of 17,000 islands sprawled across three time zones with a population of more than 270 million, has been trying for years to secure deals with Musk's Tesla on battery investment and for Musk's SpaceX to provide fast internet for the country's remote regions.

During the ceremony, Musk took a speed test of the Starlink internet service with several health workers in Indonesia's remote regions, including in Aru, one of Indonesia's unserved and outermost islands in Maluku province. "This can make it really a lifesaver for remote medical clinics, and I think it could be a possibility for education as well," Musk told reporters.

"If you can access the internet and then you can learn anything and you can also sell your business services worldwide. So, I think it's going to be incredibly beneficial," he said. He also signed an agreement on enhancing connectivity in the country's health and education sectors. Details about the agreement between the Indonesian government and Musk's SpaceX, the aerospace

company that operates Starlink services, were not provided.

Launching the service at a health clinic aligns with Starlink's broader mission of providing affordable access to high-speed internet services, particularly in underserved and remote regions, said Coordinating Minister of Maritime and Investment Luhut Binsar Pandjaitan. "Our remote regions need Starlink to expand high-speed internet services, especially to help with problems in the health, education and maritime sectors," Pandjaitan, a close ally of Indonesia's President Joko Widodo, told reporters. He held separate talks with Musk on Sunday.

Communication and Informatics Minister Budi Arie Setiadi said earlier that local internet providers, which rely

on base transceiver stations to transmit signals, are unable to reach outer islands because they have limited coverage. Starlink's satellites, which remain in low orbit, will help them deliver faster internet with nationwide coverage. Health Minister Budi Gunadi Sadikin said of the more than 10,000 clinics across the country, there are still around 2,700 without internet access.

"The internet can open up better access to health services as communication between regions is said to be easier, so that reporting from health service facilities can be done in real time or up to date," he said. During his first in-person visit to Bali, Musk is also scheduled to participate in the 10th World Water Forum, which seeks to address global water and sanitation challenges.

People take part in a pro-Palestinian rally in Berlin, Saturday.

Ukraine, Russia exchange drone attacks

AP ■ KYIV

Russia said it shot down some 60 drones and several missiles over its territory while Ukraine in turn said it destroyed over 30 Russian drones. At least four people were reported killed in an attack on the outskirts of Kharkiv on Sunday as Russia pushed ahead with its renewed offensive in Ukraine's war-ravaged northeast.

Russian air defences shot down 57 Ukrainian drones over the southern Krasnodar region overnight, the Russian Defence Ministry said.

Local military officials said drone debris hit an oil refinery in the town of Slavyansk-on-Kuban, but there was no fire or damage. News outlet Astra published videos appearing to show an explosion at the refinery as it was hit by a drone. The videos could not be independently verified.

Nine long-range ballistic missiles and a drone were destroyed over the Russia-occupied Crimean Peninsula,

A Ukrainian police officer and war crime prosecutor inspect fragments of a glide bomb in front of damaged house, after a Russian airstrike on a residential neighbourhood in Kharkiv, Ukraine, Saturday. AP/PTI

following Friday morning's massive Ukrainian drone attack that cut off power in the city of Sevastopol.

A further three drones were shot down over the Belgorod region, which borders Ukraine. According to regional Gov.

Vyacheslav Gladkov, a church roof was set on fire by falling drone debris, but there were no casualties.

The Russian-installed governor of Ukraine's partially occupied Kherson region, Vladimir Saldo, said that one person died

and 16 were wounded when a Ukrainian drone hit a minibus on Sunday morning. Ukrainian air force officials said air defenses shot down all 37 Russian drones launched against the country overnight. In the Kharkiv region, where

Moscow recently launched a new offensive, regional Gov. Oleh Syniehubov said Sunday morning that one person died and 11 were wounded as a result of shelling over the previous day.

Later on Sunday, Syniehubov said four people were killed and 15 wounded in a Russian strike on the outskirts of the regional capital, also called Kharkiv. Russia launched an offensive in the Kharkiv region late last week, significantly adding to the pressure on Ukraine's outnumbered and outgunned forces which are waiting for delayed deliveries of crucial weapons and ammunition from Western partners.

Ukraine's overstretched forces are trying to slow Russia on the new front by using bomb-laden drones to destroy military vehicles.

Russian President Vladimir Putin said on Friday during a visit to China that Moscow's offensive in the Kharkiv region aims to create a buffer zone but that there are no plans to capture the city.

Nepal PM Prachanda confident of winning trust vote today

PTI ■ KATHMANDU

Nepal Prime Minister Pushpa Kamal Dahal 'Prachanda' has exuded confidence that he would win the trust vote in the House of Representatives on Monday, days after a coalition partner withdrew its support for his government.

Prachanda, 69, a former guerilla leader, belongs to the Communist Party of Nepal (Maoist Centre), the third largest party in the House of Representatives (HoR).

He will seek a vote of confidence in Parliament, the fourth within 18 months of taking office, amidst obstruction of the House proceedings by the Opposition Nepali Congress demanding a probe into the alleged involvement of Home Minister Rabi Lamichhane in the misappropriation of cooperative funds.

"There is no doubt that my government will survive the floor test," Prime Minister

Prachanda said at a ruling party's programme in Kathmandu on Saturday.

"The differences between the ruling alliance and opposition parties will be sorted out through dialogue," he said.

The Prime Minister is required to take a vote of confidence within 30 days if the party the Prime Minister is representing splits or if a member of the coalition government withdraws support. The Janata Samajbadi Party (JSP) withdrew its support last week while quitting the coalition government.

This will be Prime Minister Prachanda's fourth vote of confidence within one and a half years after he assumed the top executive position on December 25, 2022. The new government requires at least 138 votes in the 275-member House of Representatives to win the vote of trust.

Earlier on March 13, Prime Minister Dahal won his third consecutive vote of confidence.

Last year, Prachanda faced a floor test after former prime minister KP Sharma Oli-led CPN-UML withdrew its support to the Prachanda-led government following a rift over backing the main opposition party's candidate for the presidential poll.

Prachanda's support has notably declined in successive confidence votes. In January 2023, he obtained 268 votes, followed by 172 in March of the same year. His support further dwindled to just 157 votes in the third-floor test. Currently, the ruling coalition holds a majority with 77 seats of the CPN-UML, 32 of the Maoist Centre, 21 of the Rastriya Swatantra Party, seven of the newly formed Janata Samajbadi Party and 10 seats of the CPN-United Socialist (CPN-US).

Meanwhile, the major political parties have agreed to form a panel to look into the misappropriation of fund by cooperatives.

Authorities urge caution after wild bears attack several in Japan

AP ■ TOKYO

Japanese authorities have warned residents to be aware of wild bears in the country's northeast after several people were attacked, including police officers. A bear about 1 metre (3 feet) in size was captured in Fukushima prefecture Sunday by officials in charge of wildlife damage, according to a Japanese news report that included video of the bear wandering around in a residential area. An official in Inawashiro-machi city in Fukushima, who answered the phone, was not able to provide further information. The bears were also seen in surrounding areas, including Akita prefecture.

Two police officers were attacked Saturday in the city of Kazuno in Akita while recovering the body of a missing man, Japanese media reported. The man had gone hunting for bamboo shoots in the mountains a few days earlier where he was found dead in the area with gash wounds. It remains unclear if he died due to a bear attack.

The officers are in serious condition, though not life-threatening, reports said.

In response, some wooded areas have been closed off in Kazuno "for an indefinite time," officials said in a statement. Akita police declined to give more details. News footage showed police officers putting up signs warning people to stay out of mountainous areas where the bears were sighted.

Over the weekend, patrol cars were dispatched together with a helicopter search to locate the bears.

Akita prefectural police have urged people to keep bells and other noise-producing devices on hand to scare the bears away in case of an encounter, and not to go out at night.

Thousands of Asiatic black bears live in the wild throughout Japan. Attacks have risen as the borders blur between the bears' habitats and people's dwellings. The scarcity of acorns, berries and other food, possibly connected to climate change, is also blamed for the surge in bear encounters.

Taiwan's new president inherits strong foreign policy position but political gridlock at home

AP ■ TAIPEI

In a campaign ad for Taiwan's president-elect Lai Ching-te, incumbent President Tsai Ing-wen was shown driving with Lai in the passenger seat, exchanging reflections on their years governing together. Tsai later turned over the driving to Lai, who was joined by running mate Bi-khim Hsiao.

The message was clear: Lai would steer the island in the direction set by Tsai, who after eight years in power was barred from running again.

Lai, 64, will take office Monday. Continuing Tsai's legacy means aiming to strike a balance between cultivating Taiwan's unofficial alliance with the United States and maintaining peace with China, which claims Taiwan as its own territory, to be retaken by force if necessary.

Lai is also expected to build on some of Tsai's domestic reforms, despite political gridlock. Lai and Tsai's Democratic Progressive Party has lost the majority in the legislature,

making it hard for Lai to push through legislation, including the approval of crucial national defense budgets.

Tsai, 67, has been Taiwan's first female president and one of Asia's few female leaders who didn't hail from a political dynasty. Her legacy will be tied to defending the island's sovereignty from China while refashioning it as a credible partner for the US and other democracies. She will also be remembered for overseeing the legalization of same-sex marriage, steering Taiwan through the COVID years and kickstarting the island's military modernization.

She leaves office with high approval ratings. A recent poll by broadcaster TVBS showed 42 per cent of respondents were satisfied with her eight-year performance. Her predecessor, Ma Ying-jeou, left office with approval ratings of around 23 per cent.

Tsai's popularity partly reflects a shift in Taiwan's identity. A vast majority of residents now identify as Taiwanese as

opposed to Chinese and want to be governed separately from Beijing. Taiwan and China have had different governments since a civil war in 1949 saw the Nationalists flee to the island while China's Communist Party took control of the mainland.

Tsai veered from the more China-friendly policies of the previous ruling party, the Kuomintang. By the end of Ma's tenure, the frequent exchanges with Beijing were making many Taiwanese nervous, said Shelley Rigger, a Taiwan expert at Davidson College. Beijing called Tsai a separatist after she refused to acknowledge the 1992 Consensus, an agreement which says Taiwan is part of "One China." While pulling away from Beijing, however, Tsai left a door open for communication. "President Tsai has always said that Taiwan, under her leadership, is happy, willing and eager to have dialogue with Beijing, just not on terms unilaterally imposed by Beijing," said Wen-Ti Sung, a

fellow with Washington-based think tank Atlantic Council. China has not only declined to speak to Tsai but also ramped up military and economic pressure on the island, sending warships and military jets near it daily.

Beijing prevents countries it has diplomatic relations with from having formal ties with Taipei. During Tsai's tenure, it intensified a campaign to lure away the island's few diplomatic partners. During Tsai's years in office, China poached almost half of Taiwan's diplomatic allies, bringing the remaining number to 12.

Tsai pushed back by diversifying trade relationships and increasing military spending including submarine development. She also elevated Taiwan's standing on the international stage, said outgoing Foreign Minister Joseph Wu. "Her leadership style is very moderate, but at the same time very firm in dealing with any kind of international pressure," he said. "She strengthened awareness of Taiwan

around the world and its ties with the international community," said Bonnie Glaser, the director of the Indo-Pacific program at the German Marshall Fund of the United States.

Lai, who served as vice president during Tsai's second term, came across as more of a firebrand earlier in his career. In 2017, he described himself as a "pragmatic worker for Taiwan's independence," drawing Beijing's rebuke. He has since softened his stance and now supports maintaining the status quo across the Taiwan Strait and the possibility of talks with Beijing.

"Lai has spent the last two-plus years trying to convince the world that he is Tsai Ing-wen 2.0," said Lev Nachman, an assistant professor at National Chengchi University. Lai will build on Tsai's efforts to strengthen ties with the US, which doesn't formally recognize Taiwan as a country but is bound by its own laws to provide the island with the means to defend itself.

Pak minister says trade ties with India suspended due to 'heavy duties'

Islamabad (PTI): Foreign Minister Ishaq Dar has said that trade ties between Islamabad and New Delhi have remained suspended since 2019 due to the imposition of "heavy duties" by India on imports from Pakistan after the Pulwama attack.

In a written reply submitted to the National Assembly on Saturday, Dar, who also holds the deputy prime minister's slot, said: "India decided to impose 200 per cent duty on imports from Pakistan, suspended the Kashmir bus service and trade across the Line of Control after the Pulwama attack." According to the Dawn newspaper, Dar was responding to a question by Pakistan Peoples Party lawmaker Sharmila Faruqui seeking details about trade dealings faced by Pakistan in its relations with neighbouring countries, especially India.

In March, during a press conference in London, Dar highlighted the eagerness of Pakistan's business community to resume trade activities with India. However, his office later clarified that Pakistan has no plan to resume trade relations with India which has been "non-existent" since 2019. Pakistan downgraded its ties with India after the Indian Parliament suspended Article 370 on August 5, 2019, a decision that Islamabad believed undermined the environment for holding talks between the neighbours.

"We have consistently advocated constructive engagement and result-oriented dialogue to resolve all outstanding issues, including the core issue of Jammu and Kashmir with India..." Dar said on Saturday. The foreign minister said that the "onus is now on Delhi to take steps for the creation of an environment that is conducive to peace and dialogue". India has been maintaining that it desires normal neighbourly relations with Pakistan while insisting that the onus is on Islamabad to create an environment that is free of terror and hostility for such an engagement.

Fresh corruption allegations levelled against Pakistan ex-PM Imran Khan

PTI ■ ISLAMABAD

Pakistan's accountability watchdog has levelled fresh corruption allegations against jailed former prime minister Imran Khan, accusing him of "illegally" possessing and selling seven high-value watches and 10 other precious gifts linked to the state gift repository when he was in power, media reports said on Sunday.

The National Accountability Bureau (NAB) launched an inquiry against the 71-year-old Pakistan Tehreek-e-Insaf (PTI) founder Khan and his wife Bushra Bibi over the alleged misuse of the Toshakhana — the state gift repository. The Express Tribune newspaper reported.

The beleaguered former first couple has been convicted in earlier Toshakhana corruption cases as well.

In January, Khan and Bushra

were sentenced to 14 years in jail each by an accountability court for alleged corruption in state gifts they got from the state repository. The sentence was later suspended by the Islamabad High Court (IHC). The previous Toshakhana graft case was filed by the Election Commission of Pakistan (ECP) in the charges of hiring the sale of state gifts. The NAB investigation centres on the illegal possession and sale of seven high-value watches and 10 other precious gifts, including diamond and gold jewellery, the report said.

According to the inquiry, items such as Graff and Rolex watches and diamond jewellery were allegedly sold without being legally owned or deposited in the Toshakhana, as required by law. The Toshakhana is a department under the Cabinet Division that stores gifts given to rulers and government officials

by heads of other governments and foreign dignitaries. Under the rules governing Toshakhana — a Persian word meaning "treasure house" — government officials can keep gifts by paying a price, but first, the gift should be deposited. The gifts were purchased/retained at "considerably lower rates" and were "routinely sold" without properly declaring them. The expensive Graff watch set was also allegedly sold without "retention", according to the report. The NAB's findings suggest collusion between the buyers of the Graff watches and a private appraiser, who allegedly undervalued the watches by Rs 30 million.

The undervaluation, confirmed via an email from Toshakhana, meant that only Rs 20.1 million, or 20 per cent of the watches' actual value of Rs 100.9 million, was deposited

into the government treasury, the report said. "During the course of the inquiry, it was revealed that the value of luxury gift items was assessed in an unscrupulous and slipshod manner by a private appraiser [...] was not even an industry expert and did not possess the required experience or expertise to make these assessments," Geo News said, citing the report. After the report findings, the accountability watchdog was authorised to conduct further probes against Khan and Bushra. Separate call-up notices had also been served to them, which they have challenged in the IHC. The court will hear Bushra's appeal on June 4 and Khan's appeal on June 24, the report said. The former-cricketer-turned-politician has been lodged at the high-security Adiala Jail in Rawalpindi since August last year.

Chinese envoy promises 'friendship' as 2 warships dock in Cambodia

AP ■ SIHANOUKVILLE

Two Chinese warships docked on Sunday at a commercial port in Cambodia, in preparation for joint naval exercises between the two countries. The Jingshangshan amphibious warfare ship and Qijiguang training ship sailed in to the Sihanoukville Port as onlookers waved Cambodian and Chinese flags from the piers.

The port is north of the Ream Naval Base, where China has funded a broad expansion project that has been carefully watched by the United States and others over concerns it could become a new outpost for the Chinese navy on the Gulf of Thailand.

The Gulf is adjacent to the South China Sea, which China claims virtually in its entirety, and would give easy access to the Malacca Strait, one of the

most important shipping lanes in the world.

Wang Wentian, China's ambassador to Cambodia, dismissed concerns about Ream, telling reporters at Sihanoukville that wherever the Chinese navy sails "we bring friendship, we bring cooperation" and nothing else.

"The cooperation between the two armies, between China and Cambodia, is conducive to the security of both countries and the security of the region," he said, standing on the pier. The Jingshangshan and the Qijiguang are due to take part in naval exercises from the Ream base from May 24-27, along with two Chinese corvettes that have been docked at Ream's new pier for more than five months.

The joint training is the naval component of the ongoing Golden Dragon exercises, which are regularly held

between the two countries. Controversy over Ream Naval Base initially arose in 2019 when The Wall Street Journal reported that an early draft of a reputed agreement seen by US officials would allow China 30-year use of the base, where it would be able to post military personnel, store weapons and berth warships.

Cambodia's then-Prime Minister Hun Sen denied there was such an agreement. He pointed out that Cambodia's constitution does not allow foreign military bases to be established on its soil, but said visiting ships from all nations are welcome. As the Golden Dragon exercises opened on May 16, Cambodian army Commander in Chief Gen. Vong Pisen thanked China for providing new equipment and helping to upgrade military facilities, including the Ream Naval Base.

SL questions UN rights report on enforced disappearances

PTI ■ COLOMBO

Sri Lanka has questioned the timing and the mandate of a report issued by the Office of the United Nations High Commissioner for Human Rights (OHCHR) this week in which it asked the country's government to ensure accountability for enforced disappearances during the armed conflict with the LTTE.

The OHCHR report issued on Friday said Sri Lanka's Government must take meaningful action to determine and disclose the fates and whereabouts of tens of thousands of people who have been subjected to enforced disappearance over the decades and hold those responsible to account.

According to the Sri Lankan foreign ministry officials, the min-

istry would officially write to the OHCHR on its unilateral action to issue a report, particularly its timing.

Sri Lanka was irked by the timing — a day ahead of plans by the Tamil diaspora and kin and kin in the country of those who died during the final battle of the government's war with the LTTE in May 2009 to commemorate the dead.

Events were held to mark the fifteenth anniversary on Saturday in the former conflict zones and even in the capital Colombo despite fears that government troops would crack down on them citing the proscription of the LTTE as a terrorist outfit.

Tamil groups claimed a large number of civilians had perished during the final battle. The Liberation Tigers of Tamil Eelam (LTTE) had run a mili-

tary campaign for a separate Tamil homeland in the northern and eastern provinces of the island nation for nearly 30 years before its collapse in 2009.

On May 18, 2009, the Sri Lankan Army declared victory with the discovery of the body of the dreaded LTTE leader Velupillai Prabhakaran.

The Amnesty International Secretary General Agnes Callamard on Saturday was at the site of the final battle in the northeastern district, a day after he met President Ranil Wickremesinghe on Friday.

Despite the passage of nearly 15 years since the end of the armed conflict and many decades since the earliest waves of enforced disappearances, Sri Lankan authorities are still failing to ensure accountability for these violations.

China allocates billions to bailout property sector

PTI ■ BEIJING

After prolonged dithering, China has finally announced steps to address the near collapse of its mammoth property sector by allocating billions of dollars to buy back unsold homes and repurchase idle lands to resurrect its bankrupt real estate sector, which once constituted the mainstay of its economic growth.

The People's Bank of China has announced that it would establish a 300-billion-yuan (about USD 42.25 billion) relending facility for the government-subsidized housing project.

Local state-owned enterprises are encouraged to use the funds to buy reasonably priced commercial homes that have completed construction, Tao Ling, deputy governor of the People's Bank of China, told the media last week. Tao

added that these homes will then be used to provide affordable housing. Also, as part of the government's increased financial efforts to support the property sector, commercial banks across the country issued a total of 963.6 billion yuan (about USD 137 billion) in real estate development loans followed by billions of yuan loans for individual housing loans in the first quarter of the year, state-run Xinhua news agency reported.

The newly set up fund will help developers to have access to financing and to encourage the repurchase of "idle" land and the "relending" funds will enable local state-owned enterprises to buy unsold homes they can then offer as affordable housing, according to Chinese media reports.

Besides being unusually large, China's property sector accounted for about a quarter of annual output of its econ-

crisis, regarded as the most serious setback for the country's massive economy, sparked the default of the biggest property market developer Evergrande Group in 2021.

Evergrande has reported over USD 300 billion in liabilities. Earlier this year, a Hong Kong court ordered the liquidation of the company, sending ripples across China and the world. Soon the crisis spread like wildfire with other real estate developers like Kaisa Group, Country Garden, Fantasia Holdings and a host of others declaring bankruptcy following millions of unsold and partly developed residential high-rises all over the country.

Analysts say it is unlikely that the decision of the Hong Kong court in January to liquidate Evergrande marks the end of China's property debt crisis. As the property crisis became

a major drag on the world's second largest economy, pinning its GDP to around five per cent with persisting slowdown, China last week finally moved to stem the crisis.

Besides the USD 42.25 billion fund, the government also announced measures to boost the property market, cutting minimum down payment ratios, setting up a relending facility for affordable housing and pledging to deliver unfinished homes.

The measures included minimum down payment ratios for individuals' commercial housing mortgages will be lowered to 15 per cent for first-home purchases and 25 per cent for second-home purchases.

"This is the lowest down payment requirement in history, which will be very helpful in boosting the property market," Yan Yuejin, research director at E-house China R&D Institute, told Xinhua.

Government recovers ₹852 crore under amnesty scheme for exporters

PTI ■ NEW DELHI
The government has recovered about Rs 852 crore under the amnesty scheme for exporters for one-time settlement of default in export obligation by the holders of advance and EPCG authorisations, an official said. The figures are likely to increase further as the exercise is on for the compilation of the data, the official added. The government has fixed March 31 as the last date for payment of customs duty plus interest. "Under the scheme, 6,705 applications were filed and as per the provisional figures, an amount of about Rs 852 crore has been recovered. This figure is further expected to increase," the official said. Meanwhile, several small exporters have requested the

government to continue the scheme for a one-time settlement of default in export obligation till September. Ludhiana-based Hand Tools Association President SC Ralhan has said several small exporters have not been able to avail of the benefits of the scheme due to fulfilling their obligations to make payments to MSMEs within 45 days. In the new foreign trade policy (FTP), the scheme was announced for exporters for one-time settlement of default in export obligation by the holders of advance and EPCG (export promotion for capital goods) authorisations. Under the scheme, all pending cases of the default in meeting export obligation (EO) of certain authorisations can be regularised by the authorisation holder on payment of all customs duties

that were exempted in proportion to unfulfilled EO and interest at 100 per cent of such duties exempted. India's merchandise exports rose by 1 per cent to USD 34.99 billion in April, even as the trade deficit widened to a four-month high of USD 19.1 billion during the month, according to government

data. Imports also increased by 10.25 per cent to USD 54.09 billion in the month under review from USD 49.06 billion in April 2023 due to a significant jump in gold imports. The country's total exports in goods and services for 2023-24 stood at USD 778.21 billion, the "highest" so far. Merchandise exports in the last fiscal were aggregated at USD 437.1 billion, while services exports stood at USD 341.1 billion. In line with the "Vivad se Vishwas" initiative, which sought to settle tax disputes amicably, the government has introduced the special one-time Amnesty Scheme under the FTP 2023 to address default on export obligations. The scheme is intended to provide relief to exporters, who have been unable to meet their

obligations under EPCG and Advance Authorisations, and who are burdened by high duty and interest costs associated with pending cases. The objective of the EPCG scheme is to facilitate the import of capital goods to produce quality goods and services to enhance India's export competitiveness. The scheme allows import of capital goods for pre-production, production and post-production at zero customs duty. On the other hand, advance authorisation is issued to allow duty-free import of input, which is physically incorporated in export products. However, exporters availing benefits under these schemes have to fulfil certain export obligations. Failure to fulfil the obligations attracts penal provisions.

Ministry holds discussions on formulating SOPs to negotiate FTAs

PTI ■ NEW DELHI
The commerce ministry has held detailed discussions with senior officials of different departments and trade experts on formulating standard operating procedures (SOP) for negotiating free trade agreements (FTAs), an official said. To discuss the various aspects of these agreements, the commerce ministry has organised a two-day 'Chintan Shivir' on FTA strategy and SOPs for trade negotiations on May 16-17. Suggestions that came up during the discussions included comprehensive consultations with public and private sector players and sharing details of the proposed FTAs with the line ministries, the official said. "Consultations should be held at every stage of FTA negotiations. Representatives of certain ministries suggested the commerce ministry to share FTA details with them in a timely manner so that they can prepare their views on those agreements," the official added. The exercise assumes significance as India is engaging with several trade partners to negotiate free trade pacts. Former commerce secretaries, trade experts and government officials from ministries, including finance, IT and electronics, and mines, participated in the deliberation. In the Chintan Shivir, various issues were discussed, including India's trade strategy and vision 2047; economic assessment and modelling of FTAs; inclusion of new disciplines into FTAs such as labour, environment, gender, and indigenous people; services and digital trade; and SOPs for FTA negotiations. A separate session was also organised on leveraging India's FTAs to address new forms/kinds of measures like CBAM (carbon border adjustment mechanism), supply chain disruptions, critical minerals, and artificial intelligence.

Bank of Maharashtra tops among PSU banks in business growth in FY24

PTI ■ NEW DELHI
State-owned Bank of Maharashtra recorded the highest growth rate last fiscal in terms of total business and deposit mobilisation among public sector lenders at a time when most banks are facing difficulty in achieving double-digit growth. The Pune-headquartered lender has registered a 15.94 per cent rise in the total business (domestic) in FY24, followed by the country's largest lender State Bank of India (SBI) with 13.12 per cent growth, according to published financial numbers of the public sector banks (PSBs). However, SBI's total business (deposit and advances) was about 16.7 times higher at Rs 79,52,784 crore compared to Rs 4,74,411 crore of Bank of Maharashtra (BoM) in absolute terms. Similarly, BoM continued to maintain its top spot in terms of growth in deposit mobilisation, with a 15.66 per cent rise in FY24. It was followed by SBI (11.07 per cent), Bank of India (11.05 per cent) and Canara Bank (10.98 per cent). Out of 12 public sector banks, only these four lenders could log a double-digit growth in deposits in the financial year 2023-24. In terms of low-cost CASA deposits, the Bank of Maharashtra continued to top the chart with 52.73 per cent growth, followed by the Central Bank of India with a 50.02 per cent rise at the end of March 2024. A higher level of current account and savings accounts helps banks to keep their cost of funds low. With regard to loan growth, the Kolkata-based UCO Bank was a tad higher at 16.38 per cent, followed by BoM at 16.30 per cent. SBI also reported 16.26 per cent growth in advances in FY24. Loan growth of remaining public sector banks was lower than 16 per cent during the fiscal. On the asset quality side, the Bank of Maharashtra and SBI reported the lowest gross non-performing assets with 1.88 per cent and 2.24 per cent respectively, as of March 31, 2024. In terms of net NPAs, BoM and Indian Bank reported the lowest numbers, with 0.2 per cent and 0.43 per cent, respectively. In terms of capital adequacy ratio, the Bank of Maharashtra was leading PSBs at 17.38 per cent, followed by Indian Overseas Bank at 17.28 per cent and Punjab & Sind Bank at 17.16 at the end of FY24.

Zinc demand in India likely to double in next 5-10 years

PTI ■ NEW DELHI
The demand of zinc is expected to double in India in the next five to 10 years on the back of huge investments in infrastructure sector, including steel, International Zinc Association said on Sunday. The demand for zinc in India depends largely on the growth of the steel market as zinc is mainly used to galvanise steel to protect it from corrosion. "I see a doubling of the demand (for zinc) in the next five to 10 years. The market for primary and refined zinc in India is currently close to 800 to 1,000 tonnes (per annum) and has a great opportunity to increase with all the developments that we are witnessing in India. We see huge investments in additional steel capacity and...Steel

still needs to be protected by galvanized coatings. We see a lot of plans and investments going on for new galvanizing lines. So I expect a strong role for zinc in India," International Zinc Association Global Director Martin Van Leeuwen told PTI in an interaction. The current demand for zinc in India is 800 to 1,000 tonnes per annum. There are very low zinc users in India, he said, adding that per capita consumption of zinc in the country is around 0.5 kg and is far behind the world average. "If you look at zinc use in India, it is around half a kg per capita. To put that in perspective, the global average is about four kg per capita. And in developed countries like Korea, Europe, US it can go up to six

or seven kgs per capita," he explained. When asked about the outlook for zinc in the current calendar year, he said that with the world switching over to green energy and strong growth in solar photovoltaics (PV), there seems a great opportunity for zinc in 2024. "The energy transition...Is getting us to some wonderful opportunities for use of zinc. We are seeing investments in solar PV and wind energy and especially those two require a lot of zinc to protect steel supports... Zinc is also used to protect the towers, the wind towers for wind energy, especially those towers that are positioned at sea...We see great improvement and a great opportunity for zinc," he explained.

Mutual Funds invest ₹1.3 lakh crore in equities in 2024

PTI ■ NEW DELHI
Mutual funds (MFs) showed strong confidence in Indian equities this year, injecting around Rs 1.3 lakh crore, driven mainly by significant retail investor interest and the robust performance of the stock market. Mutual funds, which manage long-term wealth for domestic investors, prioritise the Indian market's underlying growth potential and are less rattled by short-term events like elections, which allows them to keep investing in equities, Tradejini COO Trivesh D said. Additionally, the growing interest in systematic investment plans (SIPs) on the back of astonishing compounding stories by influencers and industry veterans has perked investors, who otherwise wish to stay away from the markets, to start participating through these mutual funds, he added. According to the data from the Securities and Exchange Board of India (Sebi), MFs invested Rs 26,038 crore in the first fortnight of the ongoing month and Rs 20,155 crore in April. Moreover, the highest MF buying for 2024 was experienced in March, as they put in a net of Rs 44,233 crore. Also, they invested Rs 14,295

crore in February and Rs 23,010 crore in January. With the latest deployment, mutual funds investment in equities reached around Rs 1.3 lakh crore in 2024 (till May 16), the data showed. In stark contrast, foreign portfolio investors (FPIs) have been withdrawing money from equities and pulled out over Rs 25,000 crore this year so far, owing to a volatile global environment, uncertainty over rate cuts, and profit booking. This is a great sign for the Indian markets, symbolising the falling dependency on foreign money and the strengthening of retail individuals and DIIs, including mutual funds, to keep markets afloat. This steady flow from mutual funds and other domestic institutional investors (DIIs) has supported the equity markets over the past few years. Notwithstanding occasional challenges, the Indian stock markets have generally shown a positive trajectory, thus catching investors' interest. Equity has been one of the best-performing asset classes in recent years, and consequently receiving robust flows from domestic investors like mutual funds, Himanshu Srivastava, Associate Director Research, Morningstar Investment Research India, said. For domestic investors, local markets are the most accessible investment option, which is why they continue to invest in them, he added. "The Indian market's fundamentals remain robust. The GDP is projected to grow

at a steady rate of 7 per cent for FY25, and the fiscal deficit has decreased to 5.8 per cent, the lowest level in five years. "Additionally, the steady increase in SIP contributions, which reached a new peak of Rs 20,371 crore in April 2024, indicates that investors are becoming more disciplined and confident in the market," Feroze Azeem, Deputy CEO, Anand Rathi Wealth Ltd, said. Sectorally, mutual funds hold maximum exposure to financial services, followed by IT and pharmaceuticals. Additionally, mutual funds have been increasing their allocation to pharmaceutical, power, construction projects and automobiles in the last one year. Interestingly, mutual funds' ownership in NSE-listed companies reached an all-time high of 8.92 per cent in three months ended March 2024, propelled by net inflows of Rs 81,539 crore during the quarter. In comparison, the holding of mutual funds was 8.81 per cent in the quarter ended December 2023, according to primeinfobase.Com, an initiative of Prime Database. On the other hand, the share of FPIs declined to an 11-year low of 17.68 per cent as of March 2024, down from 18.19 per cent as of December 2023.

High airfares remain a challenge, says Thomas Cook India

PTI ■ NEW DELHI
High airfares remain a challenge that impacts India's leisure and business travellers, Thomas Cook India's Executive Chairman Madhavan Menon said. In an interview with PTI, he shared that airline capacity too continues to be a challenge despite an increase in scheduled flights. "We hope to see the demand-supply constraints ease a bit with new aircraft being introduced into the network, but this will be over the long term," Menon said. On the company's expansion plans, he informed that Thomas Cook India is working on expanding and strengthening its physical network with a combination of owned and franchise outlets and accelerating its digital footprint in the country. "With a focus on viable source markets, we continue our retail expansion with a combination of owned and franchise outlets, across metros/mini-metros and regional India. "Additionally, for our foreign exchange business, we have leveraged existing franchise outlets to set up foreign exchange counters within the same premises. This enables us to ramp up the scale of our

distribution with speed," Menon added. On the challenges faced by it in India, Menon said that while visa concerns on appointment slots or turnaround time are heightened during the peak season, we have seen an improvement over the last year. "High airfares remain a challenge that impacts India's leisure and business travellers. Airline capacity too continues to be a challenge, and this is despite an increase in scheduled flights," Menon said. He asserted that easier visa regimes in terms of eVisas, Visa on Arrival and the announcements on free-visa entry for Indians help boost visitations by Indian consumers.

Reliance seeks access to ATF pipelines, storages of PSU oil firms

PTI ■ NEW DELHI
Reliance Industries Ltd has sought access to pipelines and storages that public sector oil companies have built over the years for supplying jet fuel (ATF) from depots and oil refineries to airports, as it looks for a larger pie of fuel trade at some of Asia's busiest airports. Reliance, which produces a fourth of India's aviation turbine fuel (ATF), wants access to storage depots outside the Delhi airport as well as to pipelines leading to Mumbai, Bengaluru, and Hyderabad airports. It currently supplies small volumes of ATF when compared with supplies made by state-owned firms. The firm made the suggestion in its comments to oil regulator PNGRB's draft regulation calling for supply of ATF in all existing and future airports through pipelines that can be accessed by any supplier so as to bring in competition and cut fuel cost. While the fuel market is open,

airplanes at the country's busiest airports are fed by pipelines that were built by state-owned Indian Oil Corporation (IOC), Bharat Petroleum Corporation Ltd (BPCL) and Hindustan Petroleum Corporation Ltd (HPCL) over decades. Reliance, which has been for more than a decade now seeking access to pipelines that supply ATF to airports especially at Mumbai, stated that "the common carrier pipeline scope (which gives third parties access to pipelines built by PSUs) should encompass the associated storage facilities and pumping stations at the 'off-site' oil terminal facilities as they form an integral part of the ATF supply chain." "This will promote a competitive market for supply and distribution of ATF to the airport 'on-site' storage facilities," it said. Out of the 17.12 million tonnes of aviation turbine fuel (ATF) produced by public and private sector refineries, 8.2 million tonnes is consumed within the country and the rest is exported. Reliance's twin refineries at Jamnagar produce close to 5 million tonnes of ATF, a large part of it is exported. ATF demand in India is growing in double digits as more people fly. It rose by 11.8 per cent in the fiscal year ended March 31, 2024. At Delhi International Airport, the country's biggest hub of airlines, IOC and BPCL supply the bulk of the 2.7 million kilolitres per annum jet fuel requirement. This

is because they not just own the pipeline but also storages outside the airport. Third parties have access to pipelines going into the airport but in absence of storage they can't supply much. Reliance said it was "necessary to declare off-site ATF storage facilities at Bijwasan (outside the airport) as common user facility so that other suppliers or interested airlines can position ATF at the Bijwasan common user facility through rail wagons and use the common carrier pipeline from Bijwasan." For Mumbai, the second biggest hub, the firm wanted two ATF pipelines of HPCL and BPCL that bring fuel from the two refineries of the PSUs in the city, to be operated on a common carrier basis by giving other companies the right to use them. For Bengaluru, which is home to the third largest airport in the country, Reliance wanted tie-in connection to the common carrier pipeline from the upcoming ATF tank farm at PLS marketing terminal at Devangonthi as bringing products through tanker trucks to the airport fuel farm was not feasible in view of traffic woes. While the pipeline supply to Hyderabad airport is operated on a common carrier open access basis, Reliance wanted the capacity of the pipeline to be increased to accommodate future demand and allow access to the storage tanks and rail wagon unloading facilities at Malkapur. It made similar

suggestions for Kochi and Lucknow airports. "Pipelines are an efficient, economical and safe mode of bulk transportation from supply installations to demand centres and these measures (proposed by PNGRB) will promote competition, ensure compliance with environmental and safety statutes and avoid infructuous investments by optimum utilisation of product storage and pipeline infrastructure," Reliance said. Such competition, it said, will benefit airline companies, which incur one-third of their cost on fuel. The Petroleum and Natural Gas Regulatory Board (PNGRB) had invited comments from the public and various stakeholders including oil marketing companies (OMCs), airport operators, and airlines operators for development of aviation turbine fuel (ATF) pipelines connecting various greenfield and brownfield existing and upcoming airports in India.

BUSINESS BRIEF

CONFERENCE ON EFFICIENT FOOD PROCESSING HELD
The Ministry of Food Processing Industries (MoFPI), Government of India, and the National Institute of Food Technology Entrepreneurship and Management, Kundli (NIFTEM-K), an Institute of National Importance, organized a two-day national conference on Efficient Food Processing for Environmental and Climate-Change Trends (EFFECT), which concluded on May 16 at the NASC Complex, Pusa, New Delhi. The event brought together esteemed dignitaries and experts to address the pressing challenges facing the food processing industry in the wake of climate change. In his keynote address, Dr. R. T. Patil, Former Director of ICAR-CIPHET and advisor at Tanusha Foods (Bhopal), emphasised the need for the food processing industry to proactively address challenges such as rising temperatures, water scarcity, and energy fluctuations through strategic adaptation measures.

RCB'S TURNAROUND WILL INSPIRE OTHER TEAMS, SAYS DINESH KARTHIK

PTI ■ BENGALURU

Royal Challengers Bengaluru's remarkable turnaround to win six games on the trot and barge into the Indian Premier League playoffs this year will inspire other teams in future, believes wicketkeeper-batter Dinesh Karthik.

RCB, who lost seven of their first eight games including six defeats in a row, came back roaring from the brink of elimination in the 17th edition of IPL to make the final four.

The Faf du Plessis-led side on Friday got the better of defending champions Chennai Super Kings by 27 runs to seal the fourth spot in the points table.

"People will always remember certain journeys. The way we have come back after eight games, we needed to win six, people will remember this team," Karthik was quoted as saying in a RCB release.

"Every year in this tournament, when you hit the seven-game mark, there

will be one or two teams which would have probably won one or two and they will look to us and say, 'RCB did it. That was special. We are going to try and repeat what RCB did.'"

"That is what we all play cricket for, sport for, where people follow us and believe us that they can do something special. It is hard. It is not

going to be easy, I can tell any team that. What we have achieved today is very, very special," Karthik said.

RCB will now face the team which finishes third, one among Sunrisers Hyderabad and Rajasthan Royals, in the Eliminator to be played at Ahmedabad on Wednesday.

"We have it within our grasp to do something that people

"Coming into this game, there was a sense of quiet confidence about us, playing the defending champions, and the way we played we should be really proud," Karthik said. The senior wicketkeeper pointed out RCB's fielding and aggressive batting, despite rain intervention, as the factors which worked for them.

"We can proudly say we are the best fielding team in this tournament without a doubt," he said.

"Even though it turned, we had a rain break, we had to go, start again, just the way Virat (Kohli) and Faf played the next three overs made it feel like 140-150 could be a decent total.

"Most teams would have thought about that and we would have thought about that for a second as well," he said.

will remember us for many decades. It will be a journey where people will say, 'wow, that RCB team was special.' We are on that journey," Karthik said.

Karthik said RCB's confidence was the differentiating factor between them and CSK, a team which has a better bilateral record.

Rayudu does not feel Dhoni has played his last match, puts ball in BCCI court

PTI ■ NEW DELHI

Former India batter Ambati Rayudu doesn't feel MS Dhoni has played his last match in the IPL and wants the BCCI to continue with the contentious impact player rule as it could help the long-serving legend to keep going in top-flight cricket.

Dhoni's Chennai Super Kings bowed out of this edition of the Indian Premier League following a 27-run defeat to Royal Challengers Bengaluru in a much-anticipated southern derby in Bengaluru on Saturday.

The five-time defending champions needed 17 in the final over to qualify for the playoffs on better net run rate, but bowler Yash Dayal, after being hit for monstrous six by Dhoni, held his nerves to help RCB prevail.

Later, speaking on Star Sports Cricket Live, Rayudu said, "I don't think this is his last game. I just don't see him wanting to end on this note."

Even as the RCB players broke into wild celebrations, Dhoni

shook hands with the opposition's reserves and support staff before quietly disappearing into the dressing room.

Rayudu said, "He looked a little frustrated, even when he got out. That's very unlike MS Dhoni, he just wanted to qualify and finish on a high. But you never know with MS Dhoni, he might come back next year."

Rayudu, who played under Dhoni at CSK, brought the BCCI into the picture.

"... With the impact player role as well, it gives him the opportunity to be able to come in those last few overs and truly make that impact. 'BCCI better not remove the impact player role because we still want to see MS Dhoni play. So, it's up to BCCI now. Do we want to see MS Dhoni play or not?'"

While the match ended in agony for Dhoni and Co, RCB continued their revival with a sixth straight win in a row, a remarkable feat that saw them rise from the bottom of the table to make the playoffs.

Speaking of Dhoni, former Australian opener Matthew Hayden said, "Yeah, I suppose the thing is when you come to the end of your career, whether it is the last part of his career or not, what you don't want to see is diminishing returns as an athlete."

"Firstly, as a leader, he is The Thala of the Chennai Super Kings. This is telling me that nothing here is about becoming anything else other than first place. He's desperately using his brains, all of that cricket knowledge."

God's plan: Year after Rinku's rapidfire, Yash Dayal redeems himself

PTI ■ BENGALURU

Yash Dayal couldn't shake the haunting memory of Rinku Singh's five consecutive sixes last year as MS Dhoni lofted his full-toss over the Chinnaswamy roof, before regaining his composure to complete the 20th over and clinch RCB's berth in the 2024 IPL playoffs.

Dayal, who cut a forlorn figure after being hammered for five sixes in a row by his Uttar

Pradesh mate Rinku last season, redeemed himself on Saturday night by defending 17 in the final over against the likes of Dhoni and Ravindra Jadeja.

"God's plan baby," that was how Rinku summed the reversal of fortunes for Dayal.

The 26-year-old from Prayagraj was released by Gujarat Titans after the 2023 season but he found a new IPL home in RCB, who showed faith in him by paying a

handsome Rs 5 crore at the auction. Dayal not only repaid the faith but also erased the scars of last season.

"When I got hit the first ball (by Dhoni), subconsciously you reach that place (Rinku's five sixes off him). But I did well this whole season and I kept telling myself that I just had to bowl a good ball.

"I didn't have to look at the scoreboard. I just had to bowl well. I used that confidence in execution," said Dayal who

kept RCB's remarkable comeback story alive in this IPL.

The last over also indicated the coming of age for Dayal, who learned from the mistakes he made against Rinku's onslaught. After the full toss that Dhoni duly dispatched out of the ground, Dayal returned to bowling slower balls into the pitch that resulted in the former India captain's wicket and just one run off the following four balls.
